The quality of the 1944 U.S. soft red winter wheat crop is exceptionally high, much better than the 1943 crop, and well above the average. Hard red winter, however, is grading lower than last season, but slightly above the average. Marketings of soft red winter wheat have been unusually large this season, reflecting the large crop and favorable harvesting conditions. Good weather over most of the belt during the ripening and harvesting period resulted in exceptionally good quality and low moisture content.

The quality of hard red winter wheat is not up to that of the soft red winter because of less favorable conditions in the hard winter wheat area. Stem rust caused considerable damage in some sections, while rains lowered the quality in others.

PUBLISHED BY THE KENDRICK CO-OPERATIVE CREAMERY

REMEMBER, FOLKS:

The co-operative movement in the United States has increased tremendously in the past few years, and this is especially true of Farmers Marketing Co-ops, as they have indeed been a service of great value to the producer.

Your company, the Kendrick Co-operative Creamery, is endeayoring to increase its service to you. We are a member of the United Dairymen's Association, which is a co-operative consisting of 36 dairy cooperatives in the Northwest like ourselves. They in turn own and operate the Consolidated Dairy Products of Seattle, which is the marketing company for all members. This contact gives us access to information and help that would not be available otherwise. This makes your company stronger and safer in every way. Support it and earn that extra profit of Co-operative

An oil chemist met his buddy, another technical man, on the street, all bedecked in army regalia. "Why Bill," he said, "What are you doing in the army —they need men like you in the oil business."

"Well." replied Bill, "In the first place I wanted to build myself up physically; in the second place I wanted to do something for my country; and in the third place — they came and got me!"

He: "See how the bride is blushing."
She: "That's no blush. That's the first flush of victory!"

Willie: "Do you know our new 24-piece breakfast set?" Mother: "Yes, why?" Willie: "It's 25 pieces now."

"What do you mean, your wife is in and out all the time?" Wag: "She's in a rage and out of funds!"

TM 1-c Christian A. Weber, son of Mr. and Mrs. Chas. Weber, Juliaetta, left Friday to report for duty at New Port, Rhode Island. On his way to that point he stopped at Spokane and entered the Baxter General hospital for a physical check-up. This advanced training course will take about 90 days, and where he will go from that point he does not know — but probably back to the Pacific.

Chris. has been in the navy over two years and has seen plenty of "rugged life" during that period.

AC Matt J. Kazda arrived home Monday afternoon of this week from Goodfelow Field, Texas, where he has been the past month preparing for pre-flight training, which he ex-pects to take at Randolph Field, Texas. He leaves Tuesday, August

Sherman extends his thanks to all concerned for the Gazette, saying that in the far north or the sunny south, home news is more than welcome - sometimes folks get too busy to write — but the Gazette al-ways gets there.
