### TOWNSEND COHORTS ENTHUSE OVER RALL'

COMMITTEE CHAIRMAN SENDS OUT APPEAL FOR SUPPORT IN MAKING JULY 14 PICNIC OUT-STANDING INLAND EMPIRE BVENT.

Addressing "all Townsend club members and friends," Mrs. W. M. Smith, chairman of the Townsend picnic committee, has issued a rousing appeal for cooperation with and support of the efforts that are being put forth to make the Townend picnic to be held in Manito park, Spokane, next Sunday, the greatest event of its character ever staged in the Northwest. Mrs. Smith's call to the Townsendites follows in part:

Call by Committee.

A general picnic for all Clubs in the Inland Empire will be held at Manito Park, Sunday, July 14, begin ning at 10:30 a. m. Bring your own basket lunches and

dishes. Coffee will be furnished on the picnic grounds. Rev. F. L. Lowther, of Deer Park will be the principal speaker in the

afternoon. Pep up, friends, and let's put this over in a BIG WAY, and let them

know we are in the game! If possible, send the number ex pected to attend from your club to

Ave., Spokane, Washington, or to Dr. Hel C. Long, 628 Peyton Building, day. Spokane, Washington. COME ON!!! LET'S GO!!!

Yours for the O. A. R. P. Mrs. W. M. Smith, Chairman of the Picnic Committee

Big Attendance Expected. Most encouraging responses have Smith from Townend club officials in all parts of eastern Washington and northern Idaho, indicating, according to the committee, that the attendance at the picnic will be not less than 15,000, and probably 20,000.

In addition to the main address, by Rev. Mr. Lowther, who is an outstanding platform orator, various amateur sports events will be featured on the days' program.

### ALFALFA \$80, WHEAT \$76 IS YIELD IN SAME FIELD

Alfalfa seed harvested in his wheat field last fall made George Hudlow, Pleasant prairie, Washington, farmer, more money than the wheat crop on the some land, says the Spokane county agent. Last fall at harvest time there was a good set of seed on the volunteer alfalfa plants in this 10-acre field

At harvest time screens were set to said. separate the alfalfa seed, which resulted in 400 pounds of recleaned seed of excellent quality, which sold on the farm for 20 cents per pound, or a total of \$80. The wheat from the same field brought \$76. Mr. Hudlow said he could easily have sold 1000 pounds more seed. Tom Lloyd discovered alfalfa seed in his wheat crop from volunteer alfalfa. As a result he fanned out 500 pounds of excellent Grimm alfalfa seed from his 400 bushels of wheat, which, at 25 cents per pound, brought in \$125.

Mr. Grafmiller, Half Moon prairie, reported saving a good quality of alfalfa seed from volunteer plants in his out field. In fact, a considerable number of farmers reported similar saving of alfalfa seed from hold-over plants in grain fields.

There are hundreds of acres of grain in Spokane county on old alfalfa fields which would return considerable cash to the owners who will take the trouble to save this seed, says the county

Another promising source of alfalfa seed is from second cuttings of old thin stands of alfalfa.

The county agent's office will be glad to secure seed certification service, which includes field inspection, sced analysis and germination tests, for any grower asking for it. The field inspection should be done while the fields are in blossom. Any farmer wishing to certify grain fields for seed should contact the county agent's office at

#### Land Bank Reports nk Reports Farm Sales Increase | 100

Sales of Pacific Northwest farm land by the Federal Land bank of Spokane since January 1 exceeded by \$371,000 sale for the corresponding period or 1934, according to Ward K. Newcomb, vice president, in charge of the land department of the bank.

The six months' sales for 1935 to taled \$1,438,252.75, compared with \$1,056,822.37 for the same period last

In addition to this increase in sales reflecting the improved condition of agriculture, Mr. Newcomb also reported that the amount received as initial cash payments during the first half of 1935 was nearly three times the amount during that time in 1934.

### UPTON SINCLAIR HITS HITLER AND FASCISM

EPIC LEADER TELLS HOQUIAM AUDIENCE GERMAN SET-UP IS 'LAST GASP OF DYING SYS-TEM."

Before a packed house at Hoquiam. Wash., on July 4 Upton Sinclair, leader of the Epic party which made history in the California election last year, lashed out unexpectedly against Mrs. W. M. Smith, E. 2018 Mallon Hitler and fascism, which he says threatens the peace of the world to-

> "Fascism is the last gasp of a dying system," he said. "It appeals to the ignorant prejudices of the people and is subsidized by the great banking houses. Mussolini's march on Rome was hired by the house of Morgan for \$200,000,000. In Germany the subsidizers of fascism are the munition manufacturers and the steel

Swinging into a discussion of the here and now of national politics, he said, "It may be impolite of me t come up here from California and say ruled easy to weak after the middle of anything that is not nice about Her- the month. Storage stocks are mountbert Hoover, but I, for one, don't ing rapidly and reports suggest excheered wildly.

Present conditions he blamed on two factors: "First, we have invented machinery which makes a large portion of the population superfluous; second, we have a ruling class which takes most of the profit and whittles down the people's share more and more each year.' Sinclair asserted that the number of men now out of work, which he estimated at 22 million, never again will find employment unless the system of government is

In the coming campaign Epic will urge President Roosevelt to come out for "Production for Use," and if he refuses will put a candidate of its own before the democratic convention, he

Sinclair speaks in Spokane, Natatorium Park, 8 p. m. July 11th.

### RULES ON PICKETING.

OLYMPIA .- Upholding Gov. Martin's action in the general lumber strike, attorney general G. W. Hamilton defined "peaceful picketing" in an opinion requested by director of labor and industries E. Pat Kelly, on behalf of the governor and the state patrol. He held state laws prohibit picketing from resorting to violence, threats, intimidation and trespass. The opinion backs the recently announced strike policy of Gov. Martin.

### MUCH MOISTURE IS HARVEST DRAWBACK

GRAIN MARKETS RESPOND TO CHANGES IN CROP CONDITIONS, WHICH ARE FAVORABLE TO BIG YIELD FOR 1935.

Grain markets still-respond mainly to changes in crop conditions according to the weekly review of markets issued through the agricultural extension service. Recent nows has been mainly favorable to a good yield of the small parks say that the number of visitors grains in the United States and Can Jin June is swiftly advancing on the ada. The main drawback has been too much moisture for the early harvest season. United States wheat production at present prospects, together with the carryover, may provide 200, 000,000 bushels above the needs of the home market. The Canadian carry-

the wheat market. Wheat, rye, oats, feed barley, and flax showed downward trends in June, out corn prices were fully maintained because of crop uncertainty following delayed planting and because of the fairly high hog-corn feeding ratio. Livestock Market Quiet

Livestock marketings toward the end of June were practically of the same volume as of the corresponding period the week previous on cattle and hogs. Sheep and lamb receipts were increasing moderately. Reflecting recent declines in the fresh pork trade, the Chi- and railroad grades and safeguarding 200 to 230 pound hogs sold at \$9.35 to highway department last week. \$9.45. The market on the better grades declines. The bulk of the better grades among the states. sold at Chicago at \$8.75 to \$9.25. The

Butter Prices Decline the heavy June increase of stocks held by manufacturers as compared with crossings. May holdings. June stocks are the heaviest for that date since 1931. The increase during May this year was the largest monthly increase ever recorded for any month. Prices to producers for milk delivered to the factories in May averaged \$1.23 per 100

and \$1.06 in May, 1934. The stocks of eggs in cold storage Bradford explains. continue exceptionally light, but the failure of egg production to follow the usual sharp seasonal decrease has lessened the demand for storage packed eggs. At the same time a sharp gain in output of young chicks suggests an increase in laying flocks next fall and possibly a fairly heavy lay of winter eggs. Prices have shown little net

change during the past month. Washington Iceberg lettuce was in light supply on the New York market in late June and good lots ranged from \$2.50 to \$3.25 per crate. The first pens from the Northwest arrived in New York the last week of June. A few carloads from Oregon were selling at \$1.25 to \$1.50, a car from Idaho at \$1.50 per hamper, and two or three lots in mixed cars from Washington packed in 30-pound crates brought \$2.25. Northwestern boxed apples showed little price change.

#### DECLARATION OF INDEPENDENCE (Paraphrased in Accordance With the Underlying Principle of the Townsend Plan.)

(Note-"The meeting date of our convention (the great nationwide Townsend Plan convention, July 4, 1935) one might say, will be significant. This July 4 will mark the second liberation of America from economic oppression."-Dr. Francis E. Townsend, in Real America for

When, in the course of human events, it becomes expedient for one of the people to terminate the economic practices which have subordinated them to another, and to assume among the people of the nation the equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to such action.

We hold these truths to be self-evident: That all men are created equal; that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, equal opportunity and the attainment of happiness; that to secure these rights governments are maintained by the people, deriving their just powers from the consent of the governed; that whenever any policy or practice of government is found to be destructive of these ends it is the right of the people to abolish it and to institute a new lawful economic plan, laying its foundation on such principles and organizing its policy in such form as to them shall seem most likely to effect their security and happiness.—R. E. W.

#### Sights in Northwest Lure to Tourists

The expectation of all travel and tourists agencies has been that the 1935 season would bring the Inland Empire and the Pacific Northwest an unprecedented number of tourists and summer visitors.

The Grand Coulee dam and the wide interest in it, also the favorable business status of the Northwest were the two main reasons for this prediction.

Early surveys seem to indicate that the anticipation is correct. Reports from Glacier and Yellowstone national aber for the entire season last year.

visit to the tourist cabin camps the strategic service stations in and near Spokane, made recently by W. G. Oves, secretary of the publicity tourist bureau of the Spokane Chamber of Commerce, gleaned the information over, of 225,000,000 bushels overhangs are experiencing very good business, some reporting that trade has already reached a midsummer volume.

# GRADE CROSSING HAZARD

The first information of how the states are to plan for their share of the funds for separation of highway engo hog market weakened mostly 15 crossings was delivered by the bureau to 25 cents. Bulk of the better grade of public roads to the Washington state crop.

A total of \$200,000,000 for the counof fed steers and yearlings strength try is carmarked for this work, it is ened slightly. The Chicago top was declared by James E. Bradford, state \$12.25 for heavy steers. Spring lambs director for the national emergency made some recovery from recent sharp council, and it is to be apportioned

There is no limitation as to location market for yearlings and matured sheep of the work within the state. The only cent of the state's apportionment shall home Sunday, A large limb broke and The butter markets, except for an be applied to crossings with secondary he fell about 20 feet, breaking three arly display for firmness at New York or feeder roads, those not on the fedcral-aid system.

The general volume of the work will be coordinated with the track mileage want to see him president again during cellent prospects for continued liberal in the state, and will consist of grade my lifetime." At this the audience production. Pastures are reported good separation at crossings, protection of to excellent. A notabe change in the grade crossings, reconstruction of exevaporated milk situation is found in isting crossing structures, and relocation of highways to eliminate grade

Each project will require that 90 per cent of the labor employed be taken from relief rolls. The measure of a project for its approval will also consider a basis of \$1400 total annual expenditure per man per year for incidentals and materials, or a basis of 40 pounds, compared with \$1.46 in April, per cent of the total cost to go to labor employed on the project, Mr.

### Alfalfa Is Master

The control of morning glory by benefactors, and morning glory, one of existence. menace anywhere on the field and ex- in pounds of milk. cellent crops of alfalfa have been harvested every year since seeding. Upon the annual legume and live stock tour and 435 pounds of butterfat. the county agent said he was not able to find a sign of morning glory on that part of the field where there was a good stand of alfalfa, despite the fact that the field was covered with morning glory before the alfalfa was planted.

Mr. Sievers attributes much of his success to plowing the field eight or planted the alfalfa.

W. A. Wolf testifies to similar retal. An increasing number of farmers trol on large acreages of morning glory but in small scattered patches the sodium weed spray remains a favorite

The object of education is not to teach the tricks of earning a living, but to learn how to enjoy living.

### **Editorial**

Not "For the Aged" but for All

In a resent editorial on the current political situation the Grand Coulee News made friendly reference to "the Townsend plan for the aged."
Why "the aged"?

True, under the Townsend plan all persons above 60 who could and would qualify would receive \$200 a month each, the amount to be spent in the United States within 30 days from the date of its receipt. But that does not mean that the annuitants would be the only beneficiaries under the Townsend plan.

As a matter of fact, through the stimulation of business, the quickening of industry, the rejuvenation of the whole economic structure of the country as a result of the compulsory circulation of the vast aggregate sum of money paid each month to Townsend plan annuitants, everybody would benefit really as much as the seven or eight million-odd recipients of the oldage compensation funds.

The Townsend plan is not a pension plan for the aged, but a recovery plan-a plan to end poverty by giving everybody an opportunity.

The young man and the young woman fresh from college would, by reason of being able to step immediately into remunerative employment, be helped even more than the older person commissioned by the government to spend \$200 a month.

The plan would work as much and as surely to the advantage of the man of 30 and his wife and each of his little brood of youngsters as to his father and mother, who, by it, would be safeguarded against privation or need in their declining years.

Indeed, it is a plan, not alone "for the aged," but for all!

#### Borah Hits Monopoly

In support of President Roosevelt's wealth-distribution proposal-which, as was to have been expected, has called forth the militant opposition of the owners of the money changers and monopolists of the country and their representatives in congress and in the editorial rooms-Senator Borah the other day directed one of his oratorical bombshells against all monopoly.

"Just as rapidly," said the Idaho statesman, "as the producer or laborer or small business man secures some possible increase, some gains, these benefits are drained away from them into the coffers of monopoly. So long as this continues, millions are going to be compelled to struggle for a bare existence in a land of wealth and plenty. The fight for recovery is in a true sense a fight against monopoly.

continued, "that you cannot destroy monopoly. It is cowardly to say it.' And he declared with characteristic installed the latest and most modern emphasis that "Monopoly has no more permanent waving machine and comright to exist than any other form of depredation."

Borah is right. Monopoly can be destroyed. It can be destroyed easily and work by the most efficient operators. painlessly by the simple process of taxing its hoardings and profits, making it contribute its fair share of the cost of government, until it censes to be ing of restfulness.

#### A Word To The Wives Is Sufficient

Don't Overlook Medicine Cabinet When Spring House Cleaning

OF all the nooks and crannies attacked by marauding housewives during spring cleaning raids, one of the most important spots sometimes overlooked by the most alert of housekeepers is the family medicine cabinet.

To do the spring housecleaning job thoroughly, every careful housewife should check this important department of the household as carefully as any other place in the home, discarding all old bottles, the labels on which have become soiled or discolored through constant usage.

Don't take medicine from old bottles without labels. Careful housewives will not allow bottles to remain in the medicine cabinet unless they are properly labeled as to their contents. Especially is this true of mothers when there are children in the home.

Make your housecleaning efforts complete, don't place your seal of approval on your spring cleaning until the medicine cabinet has been changed from a gathering place for old prescription bottles, empty tooth paste tubes, old tooth brushes, and other odds and ends, to a neat, orderly place for all the toilet and medicinal accessories for the entire family.

### Bill says:

PYROIL is the ideal lubricant to use in any new car. PYROIL will protect and aid in the breaking in of your new car. PYROIL builds lubrication into the metal. PYROIL does what oil alone cannot do.

(SEAL)

"BILL" DE VRIES

### The Pyroil Factory Guarantee

We guarantee that PYROIL contains absolutely no vegetable oils, acids or any ingredients of a harmful nature and will not injure any type of bearing-babbitt, silver alloy, bronze or lead-bronze nor will it injure the special plated pistons used in such cars as the Chevrolet. PYROIL will not delay the break-in or wear-in process of these electroplated pistons but will aid it. Further, if there are any harmful ingredients in the lubricating oil used in the motor, the use of PYROIL will afford protection and act to overcome the effects of such oils. PYROIL is guaranteed to have a pure mineral base.

THE PYROIL COMPANY By L. L. Kidder

D. L. Kidder, President Subscribed and sworn to before me this 18th day of June, 1935.

PREE EXAMINATION

321 Peyton Bldg.

The Inland Empire is again indebted to Louis Vogel, manager of Natatorium park, Spokane, for bringing another outstanding bit of entertainment to the park. On July 17 the Harlem Play Girls, 12 colored artists and entertainers, under the direction of Sonny Rice will entertain the Inland Empire.

These colored girl musicians are entertainers of exceptional ability and have been a "smash hit" wherever they have appeared. They boast the greatest dancing, singing and musical organization of its kind in the world and the judges have been the entertainment-loving public.

Sonny Rice, the director and fea tured drummer, has a reputation as a musician unexcelled by anyone. Jean Taylor, the clever mistress of

ceremonies, is featured in singing and Margaret Backstrom, saxophonist,

featured whistler and tap dancer, is also renowned for her ability as clarinetist for she was claimed the winner for the national high school contest for 1934. These outstanding performers who

have demonstrated their ability personally and over the nation's leading broadcasting stations will furnish you the greatest possible entertainment on the 17th. If you enjoyed Eli Rice and his orchestra, be sure and come and be entertained, at popular prices.

> MANAGEMENT'S DEBT TO EMPLOYEES.

It is the duty of managment so to business, said Arthur F. Hall, president Journal.

### HIGHER RENTS.

A steady increase in house rents over the country is reported by I. W. Pellet, chairman of the owning committee of the United States Building and Loan League, and the trend is made significant by the fact that it has been in progress for a year, and is expected to continue at least for the remainder of the present year. It will produce an estimated increase of \$240,000,000 in the amount paid for leased shelter during 1935.

"The experience of the renting family between 1921 and 1925 holds out no hope for a halt in rise of rents because of substantial resumption of home building this year or next," Mr. Pellett says. "In each of the years of 1922, 1923 and 1924, residential building of more than a billion dollars in volume took place and during these three years average rents, according to the National Industrial Conference Board index, increased more than ten per cent. This experience of a decade ago, when America was already in a house shortage such as we are approaching today, is one more indication of the wisdom which lies in home ownership at the present time.

#### AT THE BANDBOX.

Shirley Temple, screen favorite, will be starred with Gary Cooper and Carole Lombard in "Now and Forever" at the Bandbox Theatre in Spokane from Friday, July 12, through Monday, July 15. On the same program will be the comedy picture "Kentucky Kernels" with Wheeler and Woolsey.

"Bulldog Drummond Strikes Back" with Ronald Colman and Loretta Young will be shown from Tuesday. to Thursday, July 16 to 18, together with "The Secret Bride" with Barbara Stanwick, Warren Glenda Farrell.

# The Washington Water Power Co.

NOW MAKES AVAILABLE

For the Increased Use of Service

### to SPOKANE and INLAND EMPIRE HOMES

"In keeping with the long established policy of passing on to its customers the benefits of the growing use of electric service, The Washington Water Power Company now brings you, with your increased use of service, 2c electricity!

"This voluntary rate reduction places within the reach of overy customer the multitude of conveniences and services offered by electricity....better lighting for the home....the food protection and Joys of electric refrigeration....the kitchen freedom and better cookery of the electric range....the labor saving of electric washing and Ironing....and a hundred other services and conveniences that make a home modern.

"The new 2c step is one of many substantial voluntary rate reductions made by The Washington Water Power Company during its 46 years of public service. While the cost of everything else has

been going up and up, the cost of electric service has been continually down, down and down. And now with 2c electricity and the 8/10ths of a cent water heating rate that day of better living made possible by the more abundant use of electric service is a reality, here and now!

"The reduction is effective with all meter readings after August 1, the 2c step beginning at 142 kilowatt hours. Take advantage of this cheap electricity and the low cost of electric appliances to have NOW those electric services and conveniences you have long wanted."

### C. C. SAMUELS TELLS OF "NEW SUNSHINE"

NOTED MINING EXPERT PRE DICTS GREAT FUTURE FOR GOLD HILL PROPERTY .- MORE MEN HIRED

C. C. Samuels used to be general manager of the Sunshine and brought that famed mine into production. Now he predicts the coming of another Sunshine mine, He has returned from an intensive inspection of the Gold Hill Operating company's property, the interests of which are handled by L. P. Hachez & Co., Paulsen building Spokane. Mr. Samuels is quoted as boliev ing this mine has an immense future of unparalleled success.

He is installing a new compressor in the plant, with more drills and other machinery, and has supervised a larger force of men at the mine. There are 32 | B claims and seven large, rich voins.

#### DRIFT IS EXTENDED

Ore taken from the drift at the property of the Cour d'Alone Mines corporation is being stored for shipment. The drift has been extended about 80 feet to the east point where C the vein was encountered following diamond drill operations. The face is said to show approximately 4 feet of a good grade of silver-bearing material, much of which is a clean shipping product. Diamond drill operations are being continued to further prove the ore at greater depth.

### GIBSON ASSOCIATE SEES RICHEST ORE

VEALED IN VAST MINING AR-RAY ON LATEST SURVEY.

The inspection of gold and silver properties valued at many millions of dollars, in a four-day automobile tour that ended Sunday night, is reported

They visited the Golconda and Sunshine mines in the Coeur d'Alene region, the Standard Silver-Lead, Montana Consolidated, the Virginia City, Butte-Highlands and Morning Glory and Humphreys placer in Montana Their car was the first to pass over the torrent-torn highway west of the continental divide, where hundreds of ears were stalled July 4, Larson reports. The Humphreys dredging operation, beginning at the edge of Virginia City, has equipment valued at \$350,000. It was started last Saturday.

#### SUNSHINE STILL SOARS

Sunshine stock, from an 83-cent low in 1933 on the Spokane Standard stock exchange, has risen sensationally to a high of \$25 (now listed on the New York Curb), has accompanied the mar ket rise by broadening its carnings The Coeur d'Alene silver mining enterprise brought its earnings to the equal of 81 cents a share (1,488,822 shares) last year, from 22 cents in 1933. Thus far this year Sunshine's earnings have doubled 1934's, net income for the first five months amounting to \$750,145 and \$397,874, respectively. The company estimates May earnings at \$218,365, against \$178,657 in April and \$33,985 in May, 1934.
