Pacific Northwest Planning Board In Spokane, Feb. 13-15

SPOKANE, Wash.—The Pacific Northwest Regional Planning Commission, composed of respresentatives of the state planning boards of Washington, Oregon, Idaho and Montana and of the National resources committee, will hold the third Pacific Northwest regional planning conference in Spokane, February 13, 14 and 15.

Widely known speakers will be heard at the more general sessions upon subjects of timely interest in relation to

MARSHALL N. DANA

Chairman of the Pacific Northwest Regional Planning commission, who will preside at the meeting to open in Spokane February 13.

planning, conservation and development of the Pacific Northwest region. The divisional and group meetings will bring together those interested in the respective phrases of planning and development in more intimate discussion of current problems. Largely, these discussions will be of round-table char-

Conference Purpose.

The purpose of the conference as outlined in detail by Marshall N. Dana, chairman of the Pacific Northwest Regional Planning commission are:

"To maintain and advance the contracts with and participation of the public in the planning movement in the Pacific Northwest, its states and communities, and to widen the interest engendered by previous conferences, and, more specifically-

1. To review the position of the Columbia Basin states as to natural resources, basic services, facilities for growth and development, population trends and expectations for the future; Marketing Of Power.

2. To consider the problem of mar-

keting of power, including necessary policies, measures and agencies; 3. To consider the interrelation-

ships, of federal, state and local agencies dealing with phycical resources, public works, and related public welfare and education:

4. To consider the place, opportunity and responsibility of the people in sound planning inititated by localities, states, regions and the nation;

Study Water Resources.

5. To consider studies in water resources, land planning, transportation, regionalism and urbanism, and in mineral, forest, agricultural and other industries, as conducted by localities, states, regions and the nation;

6. To assemble persons qualified to discuss and consider constructive plans and policies with respect to the abovementioned considerations."

NATION'S FIRE LOSS

fire loss was in excess of \$500,000,000. Today it is less than half of that, being in the neighborhood of \$250,000,

That is definite progress. It gives sound reason for encouragement. But it certainly should not be productive of an unjustified feeling of security. We seem to have made a start toward mastering uncontrolled, destructive fire. But we still are a long way from

having completely masteted it. The fact that a quarter of a billion dollars is still destroyed by fire each at.-Industrial News Review.

BABSON FORECASTS BETTER BUSINESS FOR COMING YEAR

finally been taken of industry's ex- tion. perience in 1935, the business experts are at work forecasting what will happen during 1936.

On one point, most experts agree: They forecast that business will be better this year. Famed prognosticator Roger Babson recently said that, on the average, business will be 10 per cent better this year than 1935.

A well-rounded forecast recently appeared in Business Week, which has had a good record in peering into the future. Here are some of its predictions, based upon exhaustive surveys and analyses by its experienced staff:

FARM IMPLEMENTS: Manufacturers in the field expect the best year in their history.

AGRICULTURE: Both production and income will be larger than in 1935, despite the death of the AAA at the hands of the Supreme Court .- Industrial News Review.

BUSINESS CENSUS WORK UNDER WAY

Don L. Thompson, who had been named local supervisor of the census of business, has announced that enumeration work started in Chelan, Douglas, Ferry, Okanogan, Pend Oreille and Stevens counties about January 25.

Office of the census is established in Spokane and a staff of 40 persons will be employed to handle the work. All census employees are bound by a strict or census oath not to reveal any information contained on business reports and the law makes any violation a criminal

Mr. Thompson stated that every re tail and wholesale business, all hotels, places of amusement, business service companies, insurance agencies, real, es tute offices and trucking and bus com panies, all banks, office building managers and contractors will be canvassed for reports on their operations during the calendar year 1935. The results are to be tabulated in Philadelphia and become the basic statistics which businesses use in planning their operating

Supervisor Thompson explained this census has been extended considerably There were 19 counties above the state beyond the limitations of the census of distribution for 1929, and the census of Sixteen of this 19 were at or above the American business for 1933, as a result of business requests that all fields of These figurs include work of the Inbusiness be included.

"It is designed," he said, "to supply a definite answer to the question of how many concerns there are in business, the total volume of annual business, and the total payrolls and employment. More than 100 representatives, delegated by various business associations in each field to be covcred, met with census officials and formulated the questions to be asked."

For the first time, Mr. Thompson announced, the census includes banking and finance for the entire range of commercial, agricultural and mortgage and personal credit finance as well as security brokers and dealers.

The census of service establishments, which in 1933 included only personal, business and mechanical repair services, is extended in the plans to include certain classes of professionallytrained persons. Mr. Thompson explained these include advertising coun-A decade ago the annual national sellors, architects, auditors, certified public accountants, engineering services, private detective agencies, market research services, map drawing and cartography services, and sales consultants. Theaters and hotels are to be

covered as in 1929 and 1933, he said. Heavy penalties are provided in the the required information.

Mr. Thompson declared the present census is in answer to the request of business for dependable 1935 information for sounder planning of expansion only to study each project, but to recprograms, and is a continuation of the ommend alterations in those that seem year, leaves a "burning target" to shoot similar business census of 1929 and likely in any way to harm food fish or

CAR HEATERS BEING INSTALLED

Express is installing a new-type car heating device in their refrigerator A. Hamer, engineer, of Alexandria, Va.,

INLAND EMPIRE VETS SHARE OF WAR BONUS WILL BE \$8,000,000

War veterans in 19 eastern Washing ton and north Idaho counties, should reccive approximately \$8,000,000, when congress and President Roosevelt take final action on final payment of the bonus with baby bonds, a recent survey shows.

Eastern Washington veterans are slated for a cut from the bonus totaling about \$6,947,286.66 and veterans living in the nine north Idaho counties should receive \$1,029,484.98.

Distribution among the 10 castern Washington counties follow:

Spokane, 3,280,097.65; Stevens,\$404, 352,90; Whitman, \$610,649,18; Yakima, \$1,687,108.80; Pend Oreille, \$155,964.69; Douglas,\$164,814.68; Ferry, \$93,557.02; Adams, \$168,258.77; Lincoln, \$258, 873.47, and Grant, \$123,507.90.

Distribution of funds in the nine north Idaho counties follow:

Bonner, \$219,335.91; Boundary, \$75, 963.74; Kootenai, \$324.684.52; Shoshone \$317,863.62; Benewah, \$106,249.17; Latah, \$296,817.62; Clearwater, \$110,-051.51; Pierce, \$293,365.11, and Lewis, \$87,354.15.

SHOW FINE GAIN

PULLMAN, Wash.-Washington 4-H Clubs have raised the per cent of completions 1.8% over last year an analysis of results shows and every county in the state now has 4-H club work.

All of the counties in the state ex copt Jefferson county have extension

Some of the high marks of comple tions dropped a little. Benton County taking first place with 88.4% comple tions. Island County second with 88% average in per cent of completions goal of 70% completions set for 1955 dian boys and girls.

The total valuation of 4-H projects amounted to \$165,820.37, which is gain of over \$30,000 over 1934 valua tion. The total returns for 1935 were \$74,288.14. Neither the total valuations nor the total returns includes the valuation on food preparation and food preservation projects. The highest valuation this year was found in Skagit County where club projects' valuation runs \$13,324.00. Next was Whatcom county with \$11,737 with Spokane close behind with \$11,663.

The total returns in club work in a great many of the counties amounts to more than the entire county budget for Extension work.

SPORTSMEN STUDYING FLOOD WATER EFFECT

SEATTLE.-Each PWA fleed con; trol project in Washington is being closely studied to determine its effects on fish life of water involved, Sponsors of the move are the Washington law for refusal or neglect to furnish state game department, the state department of fisheries and the U.S. bureau of fisheries.

The three cooperating agencies have secured a special representative not game fish.

LEADERS JOIN IN IDAHO POULTRYMEN WENATCHEE.—The Western Fruit Express is installing a new-type car cars hauling apples from this district, A. Hamer, engineer, of Alexandria, Va.,

Scores of friends throughout the Introl which regulates the temperature land Empire today are thoughtfully rein the car. There has been a great deal viewing the efforts and accomplishof freeze damage reported by receivers | ments of Dr. Elwood Mead, who passed Washington, D. C.

DR. ELWOOD MEAD

Chief of bureau of reclamation, who died Sunday night in Washington, D. C., at the age of 78. Civic and business leaders join in nationwide tribute to the man who fostered Grand Coulee project from its inception.

years in irrigation and engineering work. No man, it is pointed out, has played so large a part in the agricultural development of the Pacific north-

Grand Coulee and Boulder dams will no doubt stand out as the greatest monuments to Dr. Mead's vision, but countless other irrigation and reclamation projects recommended, planned and completed under his far-seeing diegtion enter into a total far beyond this generation's comprehension. Appointed by Coolidge.

Dr. Mead was appointed reclamation continued in that office through three administrations until his death. Those thousands who came to know the man through his public service had deep appreciation of a sterling character and a far-sighted vision rarely en-

Civic and business leaders of the Inland Empire were quick to voice the loss of a nation and the northwest in his passing from the deveolpment pic-

His Spirit Lives On.

James O'Sullivan, secretary of the Columbia Basin commission, whose acquaintance with Dr. Mead was probably as close over a long period of years as any man in the Inland Empire, said:

"The man who did more than anybody else for our project is gone, but his spirit, leadership and sincerity will i live forever. Under no conditions was the standards set is that all persons Dr. Mead ever too busy to give consid- qualifying as operatives must have paseration to suggestions for the benefit sect a satisfactory test by the departof the reclamation service or its many projects."

"His death is a distinct loss to the northwest." said J. I. Kinman, president of the Spokane Chamber of Com-Grand Coulee and its future irrigation can qualify. of 1,200,000 arid acres in the days when it seemed only a remote possibility. All the west will feel his loss."

Life Devoted to Development. B. H. Kizer, chairman of the state planning commission, said:

"Dr. Mead throughout his life was devoted to western development, and the bureau of reclamation was his symcause of reclamation."

Dr. Mead's numerous visits to this and 1933, and then his visit to Grand Coulce in 1935 which revealed to him the rapid progress made in the project by unanimous vote a regulation which that had its very inception under his prohibits members buying chicks for careful planning. His last visit to Grand Coulec took place but four hatcheryman must sell the product of months ago while on a tour of inspec-

, MILLION DOLLARS WALLA WWALLA.—The soldiers' bonus will release \$1,717,356 in six southeastern Washington and northeastern Oregon counties tributary to Walla Walla, it is estimated. Walla Vice-President, Oscar Dunlap of the Walla county will benefit \$610,956; | Dunlap Hatchery, Caldwell, Idaho; Sec-Umatilla, Ore., \$528,994.

BAND TOGETHER FOR **CONSTRUCTIVE WORK**

BOISE, Idaho.-The summer of 1935 marked the beginning of a new era in of apples recently. With the mercury away Sunday night at his home in the poultry industry in Idaho. It was then that a large percentage of the na Cox, Marjory Groseclose, Virginia-Dr. Mead celebrated his 78th birth- hatcherymen, include the breeder hatday January 16 and his record shows 50 | cherymen, organized an association. This group sensed the necessity for and the possibilities of vast improvement of the breeding and chick industry, duet by Vera Fix and Thelma Davis. through the medium of such an organization. With this thought in mind, they agreed upon a name which would signify the aims and purpose of their prganization. The name finally chosen is "Idaho Poultry Improvement association," for convenience referred to as I. P. I. A. In the future the buyers or chicks and poults may recognize the Idaho association members by the symbol "I. P. I. A." If the Association works out as is hoped, and in accordance with present indications, these letters will become a symbol of quality.

The writer is impressed with the sincerity of purpose evidenced by the day. members of this association. It appears each individual member is applying Spokane visitors Sunday. They went himself to the task of producing chicks up to see Horman Shupfer, who is at and poults of such high quality that his efforts will lend dignity and prestige to the poultry industry in Idaho. Idaho grown chicks and poults are already of very high quality. However, there is aways opportunity for improve-

Sympathetic Cooperation.

The membership of the Idaho Poultry Improvement association has developed the theory that, through sympathetic cooperation, there is a possibility of greater improvement than can be accomplished through individual, independent effort. A standard for operation has been set up, to which each member must conform, in order to qualify for membership. This standard includes such phases as the selection of breeding stock, size of eggs set, testing in favor of Culdesne. for disease, sanitation in the flocks and in the hatcheries, honosty in advertising, and many other regulatory commissioner by President Coolidge and phases which have a direct relationship to quality of product.

By its own act, the Association has established a policy through which the standard set may be assured. The Association selected the Extension Poultryman as the official State supervisng agency. At the request of the Association, the extension division has assigned to the Extension Poultryman the added responsibility of serving as hatcheries. The cooperative spirit is tional corporation, so manifest as to make the relationship that the Extension Poultryman has with the breeders and hatcherymen a pleasant one.

Instructors Examined.

The Poultryman and Veterinarian of the Extension Station of the University of Idaho have been designated as the official instructional faculty. One of ments already named. A course of instruction and examinations were given in October. All of the member hatchcrymen are operating on the basis of this instruction. In fact, the rules of werce. "He worked and planned for the association provide that none others

It will be observed from the foregoing that the association has organized and set up its own regulations, establishing a high standard. For example, a common pratice of many hatcherymen has been the purchase of chicks for re-sale. In other words, buyer may place an order with some hatchery and receive chicks which have bol. Almost alone at times he fought been produced in some distant comunwith undaunted courage for the great ity. The chicks or poults may or may not be of the quality that the buyer thought he was receiving. The point is section were recalled by Mr, O'Sullivan, the buyer may be receiving chicks from beginning back in 1929, in 1930, 1932 a source other than the one with which the order was originally placed. To cor rect this abuse, the association pass 4 re-sale. In other words, each member his individual plant. However, there is one exception. There may be exchange of chicks between member hat cherymen, provided the consent of the buyer has been obtained.

Pyle Is President

The officers of the Association are: President, William Pyle, owner of the Gooding Hatchery, Gooding, Idaho; retary-Treasurer, James W. Beach,

ZIONCHECK AT OUTS WITH PARTY LEADER

SEATTLE -- Congressman Marion Zioncheck and County Commissioner John C. Stevenson have apparently reached the parting of the paths.

And so have Zioneheek and Senator Bone. And so would the first district congressman and Senator L. B. Schwel-Jonbach if Zioncheck had been able to reach him the other evening to tell him. what he thought of the confirmation of Domocratic State Chairman George E. Stars as postmaster at Scattle.

La fact it is reported that Zioncheck has broken with the entire democratic party and if he runs for reelection he will encounter organized opposition in the primaries.

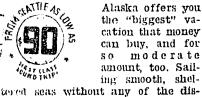

This may come from County Clerk Carroll Carter, active campaigner and well-liked ex-service man, or from County Prosecutor Warren Magnuson.

QUARTERLY INCOME SHARES

"TALL MEN" ENDORSE BERTHS IN NEW SLEEPER PLANES

It may be true that "nobody loves a fat man," but it is absolutely certain that everyone has sympathy for the tall man who must imitate a jackknife to wedge himself within the confines of a short bed or berth.

For this reason, William Littlewood, chief engineer of American Airlines, took pleasure in announcing that officers of the "Tall Men's Association" have inspected the approved berths designed for the new fleet of super sleeper planes now being built for his company.

The "Tall Men's Association" is a national organization of men who measure more than six feet, created for the avowed aim "To make life more comfortable for tall men."

Ask your dealer for a 25c can of PYROIL "H"-for all household use -for the sewing machine, washing machine, lawn mower, vacuum cleaner, roller skates, "bikes," typewriters, firearms and many

PYROIL "A" & "B" FOR AUTO & **INDUSTRIES**

GENUINE PYROIL has always been used where records are broken -in AIR, on LAND and on SEA. Russell Boardman, in 1931, made the longest, then known, non-stop flight when he flew from N. Y. to Istanbul, Turkey—some 5500 miles—and on his arrival wired the Pyroil Company—expressing complete satisfaction with the performance of PYROIL on his flight,

PYROIL USED IN A \$200,000 SPEED CAR last summer by Malcolm Campbell, who BROKE HIS OWN RECORD of the previous season in America.

GENUINE PYROIL USED BY WINNERS OF 500 MILE RACE at Indianapolis, in the Memorial Day races The winners for the last

years have given PYROIL credit for the perfect performance of their cars. Eight out of the first 10 winners last year used PYROIL to help them win. The "SPEED DEMONS" wired the Pyroil Company immediately after the races to

TELL THE WORLD OF EIGHT PYROIL **VICTORIES**

Current issue of "THE PYROIL NEWS"—a monthly publication and yours for the asking-shows a battery of a MODERN TRUCK FLEET of the McDonald Coal & Ice Company of Memphis, Tenn., and we give the gist of what Mr. McDonald writes: We have always taken great pride in the appearance and

operation of our trucks and passenger cars and have found that the money is well and wisely spent in keeping these units in good shape. It was in accordance with this policy that we started using PYROIL in our gasoline, lubricating oil and gear greases about a year ago with most gratifying results.

"We found that we could use the lubricating oil longer and obtain better mileage from our gasoline. We saved on our battories because PYROIL gives us easier and quicker starting-especially in cold weather, PYROIL mixed with the greases stopped

hard shifting and drag of the cold greases. "We found that our mechanical repair work was materially cut and with no loss of truck-time we were able to give prompt and speedy deliveries during the busiest days.

"We have definitely determined from the various savings that it has made for us that really PYROIL COSTS US NOTHINGbut on the contrary—it SAVES MUCH MORE THAN ITS COST and that it is a real economy to always use PYROIL. It is just one more move whereby we can assure our customers rapid, courteous delivery service in a fleet of trucks that are dependable, and, we think, mighty good to look at."

We can still use several part-time or "side-line" boosters in every community thru the Inland Empire. This work need not interfere with your regular employment. Get the facts and figures today from

P. S.—We have a few counties open for assignment.

Highlights in the Week's News From the Inland Empire

GRANT COUNTY'S "COME-BACK" EPHRATA, Wash .- During 1935, not counting expenditures connected with Grand Coulee dam, there was more than \$350,000 spent for highway, building and other improvements in Grant county, and more than double that amount will be expended during 1936 on projects already assured, county officials report.

Despite the fact that 19 new houses and two apartment buildings were constructed in Ephrata during 1935, there are no vacant houses, apartments or rcoms available, and the demand for living quarters is increasing constantly, it is reported.

ABANDON EAST SIDE RAILROAD

GRAND COULEE DAM .-- It is reported, from reliable authority, that the MWAK company does not plan to construct a railroad across the Columbia to the east shore of the river, as was originally intended.

The company built a costly tunnel through the granite mountain back of the engineers' town, built a big railroad span with rails, but expects little use of either, because of continuing slide menace near the tunnel, also due to the instability of the overburden on the east bank from the railroad bridge to the warehouse area. It is believed trucks can handle the east side traffic hereafter.

COWS "DO THEIR STUFF"

CHELAN, Wash.-Dairy cows in Methow, Chelan, Entiat and Wenatproduce annually \$165,000 worth of milk, delivered daily to consumers in the same area. Hunter Martin reports. Dairymen buy \$96,000 worth of feed INVESTIGATING BUERGER'S CURE | ton, 5; Everett, 15; Hoquiam, 2; Longfor these cows, the figures given Martin by Inspector McNeal show.

This does not include cows producing for butter, but only those which are licensed to produce whole milk.

FAVOR 27-FOOT RIVER CHANNEL

THE DALLES, Ore.—A ship channel 300 feet wide and 27 feet deep at low water as an aid to navigation on the Columbia river between Vancouver and The Dalles has been approved by Colonel Thomas M. Robins, U. S. division engineer, in a report to the chief engineer at Washington, it is announced from the division office at Portland.

The estimated cost of such improvement would amount to \$2,380,000, and open the Columbia river as far as The Dalles to small ocean-going vessels, spinal meningitis developed. Since opand pave the way for port develop- erations started about two and a half

The present depth of the Columbia river at low water is as shallow as 12 feet at some points, due to sand bars and other obstructions. Operators of the smaller refrigerator ships in service in the Portland district have indicated their willingness to send their vessels up the Columbia for cargos when the channel is improved and Bonneville dam completed. Backwater from Bonneville dam will provide a 30-foot channel from the dam to The Dalles. There are about 50 ships that could take advantage of the new territory opened by the channel improvement.

The improvement would consist of removing sand bars by dredging, and would take about one year, it is estimated. Bonneville dam completion is set for early in 1938.

HIT-RUN DRIVER VICTIM

YAKIMA.-Marvin Russell, 24, Kittitas county resident, hiking with his brother, Clarence, and a companion to Bonneville dam, was struck by a hitand-run driver here Saturday and seriously injured. He seemed to have a skull fracture. The driver of the ear, which was travelling about 60 miles an hour, it was reported, increased his speed after the accident and disappeared.

FINGERS WORN OFF

METALINE FALLS, Wash.-While working in the Pend Oreille mines near here, Dennis Hepburn slipped, fell and grasped a cable, which carried one hand into a shim wheel. While trying to free it his other hand was caught and held while the cable wore through the fingers.

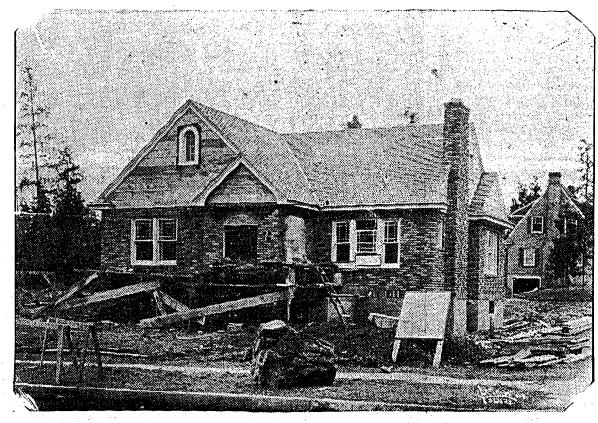

He was taken to the Ione hospital, where Dr. C. M. Canning found it necessary to amputate all fingers on the right hand and three on the left hand near the second joint.

IDAHO POWER CASE TO SUPREME COURT

COEUR D'ALENE, Idaho.-Government officials at Washington intend to carry the municipal power test case of Coeur d'Alene City to the U. S. supreme court, is the opinion of City Attorney W. B. McFarland, after a recent conference with officials in the national capital.

Judge C. C. Cavanah ruled in federal court here against a PWA grant and loan of \$650,000 for a Coeur d'Alene municipal power plant.

Beauty and Stability in Home of Washington Materials

a skystraper office building, the essential qualities and features are basically the same. Materials for this house of comfort and beauty were produced in their entirety from raw natural Washington products, by an Inland Empire leader in its field.

Brick, lime, cement, tile, etc. which entered into the exterior and interior chee valleys, numbering over 1000 head, of the building above were all pro-produce annually \$165,000 worth of duced in plants of the Washington

> SOAP LAKE, Wash .- Dr. Edward Bogard, physician of the veteran bureau, has been called to Washington, D C., to report on the results of treatment at Soap Lake of veterans suffering from Buerger's disease.

Funds to carry out test treatments of veterans at Soap Lake have been eliminated in the bureau's budget and efforts are being made for allocation of funds for this purpose.

DIED FROM INJURY AT DAM

GRAND COULEE DAM.—Walter Lash, 21, of Bremerton, a MWAK company laborer, died at Mason City hospital from an injury received from a fall four days after he had started the Grand Ronde district is in excelwork. His skull was fractured, and lent condition. ments at The Dalles, Hood River, White years ago there have been 17 deaths Salmon, Stevenson and other up-river from accidents, of which 13 were carloads of C grade Delicious apples

> Iazoer Kazanovich, 40, of Cle Elum, also a MWAK laborer, is in a critical condition at the hospital, due to an injury received from a heavy "skip" bucket hitting him on the head. Infection developed after an eye was removed. He is reported near death.

BUTTER SHIPMENT DESTROYED

YAKIMA.—The Yakima City Creamery of Yakima last week shipped 78 cubes of butter by a truck operated by the J. W. Sparks Transfer company, bonded carriers, to the Mutual the entire lot of 5304 pounds of butter, by recent heavy rains. valued at approximately \$1750.

stated, but the carriers are a good deal puzzled to know how the butter consignment could have been destroyed without injury to the meat and poultry which made up the balance of the truckload.

NO RACE SUICIDE IN IDAHO BOISE, Idaho.-Mr. and Mrs. Ben-

on Williams of Malad, each 25 years old, now have seven children, the director of Idaho's vital statistics bureau

Seven hundred fifty-five births were reported in the state for December. Of the total, 404 were boys and 351

There were six pairs of twins. The youngest father was 16 years old.

WASHINGTON SALES TAX TOTALS

OLYMPIA, Wash.-Under the sales and business tax law, collections have now exceeded \$11,000,000, the state tax commission reports.

TO STOP FEDERAL PROJECTS

WASHINGTON, D. C .- Benjamin T. Philadelphia, has filed a suit here in a stake of about \$40,000 whether or the district supreme court to halt federal works relief projects all over the United States.

"SUDDEN DEATH" TOLL

OLYMPIA, Wash .- The state's "sudden death" toll from auto accidents was these payments can be made, since the year before, Dr. E. R. Coffey, of the lief, but several high government ofstate health department, reports.

Aberdeen, 4; Bellingham, 14; Bremer-by the government.

Whether it's a suburban home like the trade name of WaCo the company's Rogers high school and countless homes the one pictured, a farm residence or products are now being shipped to out- and bungalows throughout the Inland lets in Washington, Idaho, Montana, Empire. California, Oregon, Wyoming, Nevada, Canada and Alaska.

> The company now has five plants, two at Clayton, one each at Freeman, and Dishman, and one at Bayview, Idaho. Its rail shipments are normal with full production activities.

Spokane buildings typical of WaCo products include the Spokane Eastern building, Rookery Building, Paulsen Brick, Lime & Sewer Pipe Co., whose Medical and Dental building, Roosevelt main offices are in Spokane. Under apartments, Culmstock Arms, John Medical and Dental building, Roosevelt tractive prices to be had on carload,

view, 6; Olympia, 5; Port Angeles, 4; Scattle, 122; Spokane, 35; Tacoma, 55; Vancouver, 15; Walla Walla, 5; Wenatchee, 10, and Yakima, 17.

Among the counties outside of city limits the deaths were: King, 38; Pierce, 23; Skagit, 17; Snohomish, Yakima and Kittitas, 16, and Lewis, 11.

SNOW GETTING DEEPER

ASOTIN, Wash.-Ranchers report more snowfall at Anatone flats, where it is now over a foot and a half deep. Additional snow Sunday made the depth about 5 feet at the Field Spring state park.

Reports from cattlemen say stock in

BUYS GRADE C APPLES

WENATCHEE.—The first of 195 bought by the Federal Surplus Commodities corporation have been loaded and shipped eastward.

The traffic association and Chamber of Commerce have jointly wired Congressman Sam B. Hill and Senators Bone and Schwellenbach urging that the tonnage for purchase be increased to the originally-planned 500 carloads for the state, instead of 300 cars.

FINE CROP PROSPECTS

SPOKANE.-Charles M. Cook, man ager of the North Pacific Grain Growers, Inc., reports that in a recent trip Creamery company of Seattle, which through Oregon and Washington grain was doused with kerosene while en districts he found farmers much pleased route to Seattle, destroying practically over the better crop prospects brought

"The precipitation has been general," Loss is covered by insurance, it is he said, "and it has soaked into the

ROAD LIMITS IN FORCE MOSCOW, Idaho.-In order to pro-

tect oiled surfaces of highways in this district, H. M. Jones, district superintendent of road maintenance, has the birds at Thanksgiving and Christissued load and speed restrictions for mas netted the Liskys more than all vehicles.

The speed limit hereafter will be 30 miles an hour on oiled roads and the load limit 300 pounds weight an inch width of tire.

AIRPORT IMPROVEMENT STARTS WENATCHEE,-The proposed improvement at Fancher field, designed to place it among the leading airports

of the northwest, is now under way with 65 men at work. When the program is completed about \$100,000 will have been spent, it is stated.

The project will eventually employ from 125 to 150 men for a period of about six months.

OKANOGAN COUNTY

AAA PAYMENTS OKANOGAN, Wash.-Wheat and Stang, disabled World war veteran, of hog ranchers in Okanogan county have not contracted AAA benefit payments are to be made by the government, a recent check-up shows.

About \$36,000 is due on wheat acreage reduction contracts and \$4000 on hog contracts. It is not known whether 568 for 1935, compared with 610 the supreme court outlawed all farm reficials declare the contracts constitute The deaths in the large cities were: a moral obligation which must be met BONNEVILLE POWER NEEDED

YAKIMA.-Col. T. M. Robins, U. S. engineer in charge of construction at Bonneville dam, recently told the Vanconver (Wash.) Chamber of Commerce that the the Bonneville dam will be completed by July 1, 1937.

It is believed, it was stated, that its completion is coming none too soon, as indications point to a power shortage before that time. Bonneville power should take care of electrical demands of the northwest until Grand Coulee curve at Post Falls to the state line. power is available, it was said.

Editorial

THIS TIME, THE FORGOTTEN CHILD'S TURN ARRIVES.

The Forgotten Man is no longer an intangible symbol of political Ingrati-tude. As a Martyr of oblivion he has, at least, been able to pick up employment of a sort from the WPA or something. Which is hardly as good as a Political Post, but better than the ashes of a nightmare. So, after all, there is some comfort in a moiety of expectations, rather than nothing.

Now, it occasionally happens, in the home of the Forgotten Man, there is a Forgotten Woman. Also a Forgotten

Any normal child can hardly be forgotten, so long as he is able to eat with eagerness, and jump around, and yell with kiddish glee. Such youngsters are zaturally noticeable; and apparent; and so real that they are not possibly. forgotten or forgettable.

Contrasting, however, with these healthy, lovable little tykes, there is the invalid brother or sister who is really the Forgotten Child-a pathetic, plaintive little thing who can't play, can't be like the rest of the kidspatient, trying to be happy—a poor kid of the child-world, and yet outside it!

It is now welcome news to learn that the sister states of Washington and Idaho are turning their attention to the Child who has been Forgotten. Idaho's plans have, it would appear, not reached the advancement of the program now under way in Washington state. But it will come.

In Washington, clinics are being established in eight of the principal cities, as the first step of the social security program for crippled children.

This splendid movement, with the ' establishment of the Orthopedic hospital in Seattle, has been instrumental in saving thousands of blasted little lives, since it started. There has been no sectarianism, color, creed or any-thing else. If the little one needed care, it was there! So it has happened that tiny cripples have been made whole and well; they are sending out scores more, impuded and normal.

Oredit goes to those surgeons and nurses who have responded so finely to this call. Many are working without pay. Recently, a young surgeon of the Inland Empire gave his life, because he was poisoned by infection while performing an unpaid operation.

Leading orthopedic surgeons of the Inland Empire will conduct the clinics, making recommendations for treat-

ment.
The cost will be paid from funds al-The cost will be paid from funds at the cost will be paid from fun bursed from the proposed federal security appropriation now before congress. Anyway, the work is going ahead in Washington, and Idaho is attending to the same mission for the Child who Deserves a Chance.

AN EYEFUL OF WHAT COURT DECISION MEANS TO FARMS

The recent AAA supreme court decision still remains opaque in meaning to the average farmer—the farmer of the far east, the frozen north, the middle west, the sunny south and the home farmlands of our own Inland Empire. parently, is meant to be permanent-Let us take a square look at the

plain facts: Size up the definite points, put forth clearly, without word-wast-

1. Processors of farm products will get two hundred million in

United States. It implies that restitution presents

almost an impossibility. As forensic ammunition its force will

last long and go far. The complications will result in new problems of refinancing, fresh confusion, new openings for national leadership, intricate phases of the next national election, with, it is not unlikely, an altogether new color to the progress of the major political parties. Which may be interpreted to mean something to happen with the coming destinies of the Former Party as a dominant force.

THE RAILROADS IN 1935

PORTLAND, Ore .- A survey of the railroad industry during 1935, recently railroad industry during 1935, recently the Association of Railroads, shows steady improvement in traffic safety standards of service to the public, and in finance.

Not a single railroad passenger was killed in a train accident in the firs eleven months of the year (Decembe safety figures are not yet available.)

The volume of freight traffic hand 1ed totaled 310,000,000,000 net ton mile -- an increase of almost 5 per cent ove 1934, and 13.49 per cent over 193 Passenger traffic amounted to 18.4' 000,000 passenger miles- a gain of 9 per cent over 1934 .- Industrial Ne Review.

LIFE, LETTERS ...and ... LAUGHTER

Being a Philosophical Review of Human Happenings of the Day.

The Rev. Daniel Paul Meagher, S. J. (Of the Faculty of Gonzaga

University) (Note: In this exclusive series of articles, featured in upward of half a hundred newspapers of this group, the writer announces his willingness to answer any questions by mail, or in these columns. Please inclose stamp for personal reply.)

Prominent among the dubious gifts

ments of the House | counting department. of Morgan, Unlike Lamont pere, however, Lamont fils hates, loathes and despises capitalism. Indeed, by virtue of his rancour he has attained to the dizzy heights of chairmanship of the

Rev.D.P.Meagher Friends of the Soviet Union and is now intent upon instilling in the bosom of America a longing to emulate the feats of derringdo of that bewhiskered land.

And so we find him writing in high dudgeon to the Survey Graphic, as follows: "It is curious beyond measure to me that a writer of Mr. Gavit's experience should so overlook the basic differences between the communist and fascist regimes. Does not the fact that the Soviet Union is a bulwark of international peace in the world today and fascist Italy a bulwark of war and imperialism make any impression on Mr. Gavit?

Would he not consider the abolition of private property and the institution rather fundamental? Or the establishment of social planning, the collectiviof mass unemployment, the emancipal individuals in 38 states. tion of woman, the practical disappearinternationalism as the final goal?

There you have, in a few words, the rumble-bumble with which the sorcerers of Moscow have bewitched Amer ican youth-or anyway, Harvard youth, It is a classical example of muddied thinking. In one sentence young Lamont tells us that private property has been supplanted by public ownership in Russia-an arrangement which, apand in another that the present dictatorship is a temporary device only and and absolute ownership by the state over to the accounting department. of all land, labor and wealth, are utterly incompatible. The reason is obvious: ittle judgment and no knowledge whatever of human nature.

Again, Lamont would have us believe that the Soviet Union is at once lem of its kind in the history of the the bulwark of international peace and hand procedure before paying and the uncompromising enemy of religion after. in every form. Just how he can reconcile those two opposites must be a

mystery even to himself. It may be, of course, that the master minds of Harvard have pierced to turned. This results in 13,000 slips gomagic secrets hitherto unknown and ing out at the time of paying, half of many times the amount of beans now are thus able to equip their lads with which are returned to be sorted by preternatural puissance; however, those of us who are not privy to their esoteric lore find it difficult to rid ourselves of the conviction that war, bitterer than the world has ever known, must ensue upon any attempt to impose atheism on mankind by arms or edict.

For there are two things for which men have always fought and for which, so long as they remain men, they will Ridge, D. A. Whitley, Max J. Kuney continue to fight-their altars and heir fires. Not theory, that, but one f the most frequently confirmed facts f history. Nation's Greatest Dam in the Making

By RAYMOND TRIBBLE

Figures, figures, figures-Figures that represent men, money, livelihood. Figures that help localities, states, sections of a country, a nation. Figures that build a dam. Fifteen thousand men. 8000 men. 3250 men: 300.000 checks, 6500 checks, 3250 checks; \$17, 500,000, \$12,000,000, \$5,500,000; 6,400,

That is the skeleton in numbers which can explain what happens here conferred upon the nation by Harvard at the site for the Grand Coulee dam. university is Corliss Lamont, son of With the single exception of the "fifthat Lamont who usually sponsors the teen thousand," those figures are the public pronounce result of detailed work by the ac-

000 hours; 1,200,000,000 meals; 840

firms and individuals.

The total number of man hours for the MWAK, sub-contractors and Mason City concerns through Jamary 7 reaches 6,048,658; the gross payroll, \$5,466,470,32,

With succeeding figures also through January 7, unless stated otherwise, the MWAK and subcontractors show 6,099,-860 hours and \$5,263,138.37, reaching 8000 different employees through 299,-367 checks. (Referrals here by the National reemployment service office have been 15,000. Such referrals also concern much work for the reelamation service. Totals are arrived at through the number of men employed, transferances and returns to work through the office by the same employees. The record here, especially as far as the choice and efficiency of skilled labor is concerned, is unusually good.)

The Coulee Trading company (store, theater, laundry) had 148,620 work hours for \$93,176.17; the Washington Hospital association, 82,760 hours, \$55,-119.67; the Mason City company (garage, service station, hotel, recreation hall), 77,328 hours, \$55,035.61.

Items that swell the expenditure total to about \$17,500,000 for the comof public ownership in Soviet Russia pany are those for equipment, material, supplies, bond premiums, and other items. These reach more than \$12,000,zation of agriculture, the elimination 000 and directly benefit 840 firms and

The Big Six, as far as sources of ance of race prejudice, the setting up equipment and supplies are concerned, of anti-religious dialectical material- up to last October 1, are: Washington, ism as the official philosophy, the \$2,659,531.60; Ohio, \$1,645,139.33; IIevolution of democratic procedures, and ifornia, \$632,240.89. Idaho, Oregon and the envisioning of a peaceful socialist | Montana are among nearby states benefiting and supplying material. These totals are from October 1 figures of mills located in other sections of the \$10,641,870.

> The company mess hall, since October 28, 1934, has served 1,200,000 meals.

The department which keeps a record of such figures has two divisions: Accounting and paying. Its sources for figures are also chiefly two: The time office and the purchasing department.

Records of board and room are kept at the camp office. These white slips are turned over to the time office, that it will give way in due time to where the gross and net amounts for a perfect democracy. The bright little each employee are recorded on about 90 boy overlooks one sad, but very sig- payroll sheets, some with 50 names nificant, fact-to wit, that democracy each. Payroll sheets are then turned

required weekly to prepare the 6500 and corn. checks, 3250 pay receipts in duplicate. payoff, reconcile bank statements and to do regular routine work.

The department also handles the sub-contractors; the McClintock Construction company, Lynch Bros., W. L. and R. L. Rowland.

As far as purchases are concerned, invoices are submitted by the purchaspartment, to the company general manager for his "OK" and back to the accounting department, if correct, for

The magnitude of these expenditures is necessary. Indirectly the transactions have benefited millions of people in the oast, the present and have lighted the cuture. They are making possible a vast cork that will benefit additional un 'old millions.

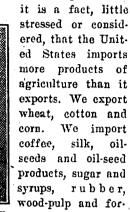

HOW INLAND EMPIRE

FARMERS CAN CREATE **NEW MARKET OF OWN**

This is one of a series of fea ture articles written for farm folk and others of the Inland Empire, as an exclusive offering by Fred S Duggan, well-known attorney, in dustrialist and student of economics. Senator Duggan will gladly reply to any specific questions on these subjects. His address is 811 Paulsen building, Spokane,

> CROPS FOR INDUSTRIAL MARKETS

We hear a great deal about the United States being an exporting country, and are told that agricultural products make up the bulk of our exports. But

Fred S. Duggan eign woods.

Imports Too Large. It will be noted that while what we export is all for food and clothing, for that is largely what we grow, what we import is largely for uses in our own industries. There are certainly products of foreign countries what we want, products like coffee and rubber grown in climates that are different from ours, and which we will continue to import. But there are many products of agriculture imported that we can grow in this country just as well as they are grown elsewhere. These are being overlooked as an occupation for idle lands and idle hands. We could produce them at home instead of importing them from foreign countries.

Wood Products.

Rayon is made of cellulose, a product of wood fibre. Wood is already being planted and grown on wood-lots in the south destined to produce its south, with its fast growing pines, is peculiarly suited to this crop, and is undertaking it. Of course, the paper country will find fault with the threatening competition, but already most of our paper comes from Canada, and these large companies have moved to Canada to produce a cheaper paper pulp. And if the development of a home industry, which will put to work permanently thousands of citizens, now unwillingly unemployed, is possible, can we afford to drop it through courtesy to foreign residents?

Soy Beans.

Soy Beans are being grown sucessfully in Illinois, and have proven a boon to the farmers who grew them. The soil from the bean is used extensively in paints, for buildings and for autos. Henry Ford, who has to purchase large quantities of these beans for use in painting his output of cars, is entitled to much credit for encour-

The bulk of the nation's requirements of soy beans is still imported from China. But soy beans is a practical erop in many areas, and produces an oil that is essential to industry. In in the Ford plant alone, for paints. The separation and filing of checks The meal left after the extraction of the oil is used in the production of moulded articles such as distributors and adds to the industrial value of the

Proves Success Elsewhere.

Illinois, with years pioneering in soy bean growing, has demonstrated that it is a success. The market is open for grown in this country. There is a definite use for many thousands of acres One hundred seventeen man hours are of idle lands without growing wheat

MYSTERY OF TWO-POINT BUCKS

OKANOGAN, Wash .-- At the annual check account for employees of the six meeting of the Tonasket Sportsmen's club, held last week, Oliver T. Edwards. biologist with the Chelan national forest, explained the mystery of why hunters see only two-point and spike bucks during the hunting season.

Edwards declared that deer authoring department to the accounting de-lities are agreed that the older and wiser bucks run only during the night and lie low in thickets during the daytime. This fact, rather than a scarcity of older bucks, accounts for their not being generally seen, he stated.

Hunting seasons should be set late enough, Edwards believes, to eliminate danger of forest fires, and early enough to avoid catching deer after the herds have concentrated in the winter feeding grounds.

Our Weekly Sermon

MEN WANTED

By Rev. C. H. Benson, Member of Fac-

Text: "Unto you, O men, I call."-Proverbs 8:4.

"Man" is the biggest word in the dictionary, with God before him. Without God, men are nothing better than a row of ciphers. It is only a little place in this world in which men live. But a few miles above our heads lies the region of death. Into this terrible zone the loftiest mountains lift their white summits. The thin veil of atmosphere that sustains life in its relationship to this earth might be likened to the coat of varnish that covers a player's bowl. What is man, then, living within a veil of atmosphere, in comparison with this gigantic earth? and the sun a spark.

ists are busy telling us how old this earth is. They delight to speak in terms of millions. But alas, what joy can there be in this to man, "whose breath is in his nostrils"? And what though about two months after it begins to earth be ages old and endure for ages get warm in the spring, and while the yet to come, when man lives but a day? God Calls Man-Kind

But notice that God calls men. No other creature, no other planet, not even the angels themselves have receive the flies, makes the pest troublesome fashioned men in His own image, not are doing a great deal toward conto perish like the beasts of the field, trolling and eradicating the bot fly plan and purpose. Christ became a man and dwelt among men. He did not become an angel. Indeed it would have ment of agriculture states: "Experibeen less humiliating, less degrading ments in the bureau of animal industry for Him to become an angel. But be indicate that liquid carbon disulphide cause He would call men to sit in is the most effective agent available heavenly places, because He would call for the destruction of bots in the stommen to judge angels. He became a man. And Christ did not permit angels to proclaim His glorious gospel. The in which the drug is absorbed in a angels were not to tell to others what powdered base, indicate that these capa glorious Savior had been found.

Angels might minister unto men. Angels might open the doors of prisons. Angels might deliver the message, "Go the with age and there is a considerable preach all the words of life." But Angels were not permitted to preach. Angels were not permitted to teach, This high honor was for man.

Men Called To Work, Notice again that God calls men to

be His disciples and set them about the in better flesh, on the same feed, than most worthy work the world ever wit. was possible before the control work essed. There is nothing effeminate about the gospel ministry. If we lack heroism, courage, and power, if we are not men in every sense of the word. God has not called us.

Notice once more that God endows ciples were cowards until after Pentecost. Peter thought he was a brave man. He reiterated his determination ished a sword to prove his intention but a mere maid scared Peter out of cest, this same Peter boldly indicted

Paul and Silas did not have influence enough to keep out of jail but governor tremble when he "reasoned of while.

the murderers of Jesus Christ.

WAR ON HORSE BOTS

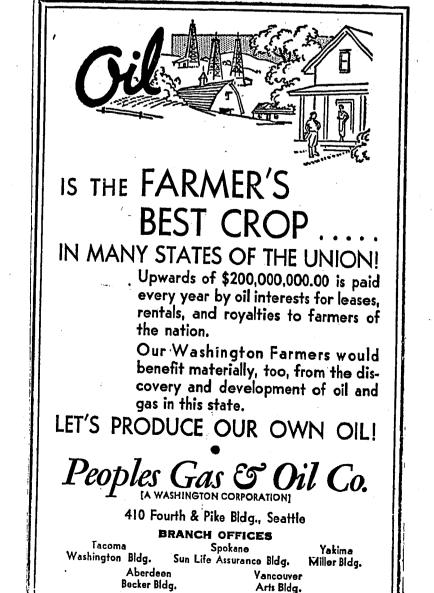

Waging war on horse bots is becoming universal, especially in parts of the United States which are infested with the nose bot fly, as this is the ulty Moody Bible Institute, Chicago worst of the three species of bot flies. In order to control this pest, something should be known of its life cycle. The young larvae of all three species of bot flies infest horses, mules and colts. The bot flies deposit their eggs on different parts of the body of the animal, and the larvae (young bots) hatched from these eggs reach the stomach and intestinal tract through the mouth of the animal, using the stomach and intestinal tract as their nursery to bring them to full bot maturity. When such maturity is reached the bots naturally are passed from the host, dropping to the ground where they burrow, and in a short time, covering a period of 20 to 70 days, depending on climatic conditions, they emerge full adult flies ready to start re-infesta-Yet compared with the immensity of tion of the animals. While these bot God's universe, the earth is but a speck larvae are being nursed to maturity they may and will, in fact, do consid-It is only a little time in this big erable damage to the host. They interworld that man can live. Evolution fere with digestion and in some cases cause stoppage, which often results in death of the animal.

In sections where the nose fly is quite general the flies become active life of the individual fly is from one to seven days, yet, owing to the continual dropping of the larvae from the host and the continual hatching out of ed this high call of God. Out of the until the flies are destroyed by frost clods of this earth, God shaped and in the fall. In some sections farmers but to live eternally and execute His through the use of liquid carbon disulphide administered to their horses in elastic gelatin capsules. The departach of the horse. Tests with the socalled 'mass' carbon disulphide capsules, sules are not so effective as are capsules containing the liquid drug. Furthermore, the mass capsule becomes britloss of carbon disulphide."

In certain sections where control work against horse bots has been in progress, many farmers declare that the number of cases of colic and other digestive disturbances has been greatdo a manly task. Christ chose men to ly reduced, and that horses are kept

> righteousness, temperance, and judgment to come.'

There is a legend that Gabriel was taken into the council of the Trinity man with manly power. disappointment.

CHEESE FRITTERS

One cup cooked rice, one egg (beaten), one-quarter cup milk, one-half cup grated cheese, two teaspoons prepared mustard, one-quarter teaspoon salt, onequarter teaspoon paprika, erackei numbs, fat for deep fat frying.

Mix the rice thoroughly with the beaten egg. Add milk, cheese and seasonings. Shape into balls and roll, in cracker crumbs.

Place fat in frying kettle and heat to 385 degrees over surface burner of your electric range turned to high. Fry fritters on high or low heat (adjusting as necessary to maintain heat) until golden brown.

Know Your Feet By DR. LEANORA MAY

GIRLS, ARE YOUR ANKLES WEAK? Weak ankles are usually weak arches. Twisting an ankle often breaks down the arches and chronic pains develop. All ankle sprains, no matter how slight, need attention to ward off future trouble. If you sprain an ankle or use your foot more than usual, developing pain that lasts more than a day, it needs attention. The ankle joint supports your weight. It needs a firm foundation, and if not given it in the form of a stable heel, nature will throw attempt to supply that firm foundation. do not wear spike heels. You cannot fool nature. There is no harm in high heels for short intervals-dress occa-

tions, parties, dances-but persistent wearing of the high spike heels is a sure way to develop large ankles. Service shoes should be worn for all sports and school-low heel oxfords and the more fastidious you are the more careful you will always be to wear shoes suitable for the occasion-in fact, you will not be considered well dressed un-

Next week Dr. May will consider some of the remote effects of foot trouble. Free booklets may be secured by writing 329 Old National Bank building, Spokane.

FORUM

Women of the home are continually being confronted with problems in bringing up their children, or household management, and often a word of advice or a suggestion will help them. This space will be free for you to use in asking for help in your problems and also for anyone who has a remedy for the problem. Write: Woman's Page Editor, 611 Jamieson Bldg., Spokane, Wash.

A friend of mine had a little daughter who refuses to eat any cereal for breakfast. The mother feels that the cereal is necessary for her health and asked my advice.

I referred her to an article I had read in Parent's Magazine and it proved the right thing in solving my friend's problem. The "remedy" follows:

"My little daughter, aged 7, refused to eat any cereal for breakfast. Other methods having failed, I decided to let the manufacturers of the various cereals sell the child the desirability of eating the cereals I wished to include in her diet. Every time a cereal ad with pictures and interesting appeal appears in any of my magazines I show the picture to her, encouraging and helping her to read the accompanying printed matter. Where charts, stars, fibrous tissue around the ankle in an or other inducements are offered with the advertisement, I allow her to mail This increases the size of the ankle. If in her own request for these. This It wasn't hardly hard at all. you wish your ankles to stay beautiful, method has very satisfactory results and the child is now voluntarily taking It really was a lot of fun. the same keen interest with the same good results with the reliable toothpaste and soap advertisements."-Mrs.

A FRAGRANT INDOOR PLANT

Besides being a fine spring garden flower, for indoor planting, the lily of the valley is unique. Easiest of all bulbs to force into flower, they are deliciously fragrant, as well as beautiful. The prepared bulbs, or pips as the seedsmen call them, which are held in cold storage in a dormant condition. are available to everyone, and this modern way to plant them does away with the trouble of digging them from the garden.

Many like to prepare their own pips from the garden, however, and this may be easily done. Pot them as you take from the garden and allow them to freeze. Then bring them into the house and set in a sunny window. The only requisite to be sure of blooms is that a blooming sized pip is planted, the bud being already formed and dormant in the pip.

Prepared pips are so certain to bloom that it is hardly worth while to dig them in the garden. One month is all that is needed to get bloom from potted pips; a little longer if you dig them yourself.

Lilies of the valley bulbs or pips must be specially prepared for forcing, and come out of cold storage when you plant them. Do not buy more at a time than you wish to plant, as they spoil quickly after being taken out of storage. Instead of pebbles use moss to hold them upright in the bowl. Pack the moss loosely about them and keep them, in a warm, dark closet, with temperature about 65 degrees, until leaves and spikes are well developed. If you have no dark closet, an inverted flower

pot over the bowl will shade them. When buds have formed, if they are exposed to the light gradually the color of the foliage will develop best, and tion so thoroughly maintained up to by the time the fragrant, bell-shaped its gorgeous purple-stained flowers the point of delivery. The simplest way flowers are open the leaves will be a delicate green. It takes about 21 days to produce flowers.

Children's Corner...

Listen to that whistle! Ol' Man Winter blowing his icy breath down the highways and byways.

SNOWMAN By Gilberta Wynecoop, Age 11

First I rolled a big snowball; And then came another one;

Then I made one real small, And then that made him very tall; And then came a mouth and nose; He didn't need so many clothes.

His eyes were two pieces of coal; In his hand there was a pole. On his head there was a pan, And there I had a large snowman.

OLD MEMBERS

Dear Aunt Marion: I haven't written for quite a while. I have another pet. It is a small cat,

It is very cute in its ways, though it is very ugly. We are having our tests in school now. Will you send me a a thought-producing evening. nembership pin? Your niece,

GILBERTA WYNECOOP. Mondovi, Wash.

REAL LIFE DRAMA BRINGS HIM TO RADIO

11:00 Midnite Melodies

8:00 Rudy Seiger 8:15 Walter Winchell 8:30 Paul Whiteman Orchestra 9:30 Grand Terrace Cafe Orch, 10:00 St. Francis Hotel Orch, 10:15 Palace Hotel Orchestra

Though he's acting in radio drama now, it was real life drama which indirectly brought KHQ Announcer Chet Huntley into ra-

Chet broke into radio from college dramatics at the University of Washington, and he broke into college as the reward for quick thinking.

It was a reward, literally speaking, that started Chet in college and ended him in radio.

As a young bank office boy in his Montana home town, Chet uncovered a bank robbery attempt and, shivering, captured the bandit in real Tom Sawyer fashion. With the \$500 reward which he received he began his college education.

Al Pearce, the genial master of ceremonies, who is heard Priday evening at 6 p. m. in "Al Pearce and His Gang.

behind the scenes in radio.

cessively as singers, announcers,

station directors.

and have stayed teamed up suc- Phillips Lord, who is heard over KGA Sundays at 7:30 in the radio play, "Seth Parker," and who is appearing in the "Gangbusters" over KFPY.

Shortly after California's admission to the Union, Joe Kincaid, an American land-grabber, begins to plunder Spanish ranchos and file claims on them under American laws. A band of vigilantes led by a mysterious Don Carlos opposes him. Jim Kearney, a secret agent of the government, saves Kincaid from being hung by Don Carlos and his men. On his way to Monterey after the rescue Jim meets Rosita, daughter or Don Pascual Castro, weathly land-owner against whom Kincaid has made threats, and falls in love with her.

CHAPTER III

After weary miles of walking, Jim Kearney arrived in Monterey and went straight to Mayor Hill's office. Despite the lateness of the hour, the executive was waiting. He greeted the myster- relief. ious Kearney with delight.

you," he said with great relief, "Heard fessing my sins."

place your headquarters.'

"That's just what I can't do. I've got to play this hand alone from now a thing. I'm nobody . . . you never heard of me.'

busy in this crazy place," sighed the mayor. Then, brightening. But don't Hill or some of his boys." miss the fiesta tonight."

"Even a government man takes a night off now and then," laughed Jim as he saluted and moved toward the door through which came the sound of the revelry in the streets outside.

While Kearney had been conferring with Hill, Rosita had arrived at the throne of the Queen. Don Luis, Castro, Dona Petrona and others of the household who had been awaiting her arrival with growing anxiety, sighed with

"I'm sorry I am late," apologized the "I had about given up hope of seeing girl, "I was with Father Antonio, con-

"Is he big and strong . . . like you?" "He's a little squirt not any taller than yourself," grumbled the land-grabon. Whatever happens, you don't know Ler. "Why, a girl like you wouldn't look at him twice. But anyway, he's out tonight, riding a white horse. I "I can see you're going to be pretty | don't need the reward, but I thought the dough might come in handy for

Kincaid made a comtemptuous gesture toward the mayor and was about to leave when the Tecolero, or Master of Ceremonies, entered, turned to Rosita and announced: "Time for your seng Senorita. Allow me." Taking her arm, he led her toward the platform where the entertainment was commenfiesta and taken her place on the cing. An ensemble of dancers retired at Rosita's approach, while the crowd, who knew of her ability as a singer, cheered wildly. Some of them shouted for the song. Others begged her to dance. Tecolero held up his hand and as the tumult subsided, Rosita started to sing in old Spanish song in a rich contralto. "My true lover is strong and fearless

and fine And his kisses are like roses

and wine; I'm a poor little senorita And to think I would ever a Lover so divine . . .

But be's only a dream."

Rosita started to sing an old Spanish song in a rich

from the stagecoach driver that you; had dropped off for a single-handed brush with Don Carlos. I was afraid you'd be shot or strung up."

Jim immediately launched into an account of his encounter with the bandit. When he had finished, Hill shook his head doubtfully.

"You did the only thing possible under the circumstances, seeing that you are a government agent," he sighed. "But I can't help wishing that stage coach had been a little late. If ever a man needed hanging it was Joe Kincaid, the land grabber. You'll find it's out of the way your job'd be half done." "Just the same, hanging people is mixup?"

a government monopoly." any time," said the raw-boned mayor was probably just a joke anyway."

ther. "I have so many sins," she answered

"All these hours?" grumbled her fa-

gaily. "And it's such a pleasure to tell them.'

As she spoke Kincaid and Mayor Hill approached. The land-grabber was angrily informing the mayor that something had to be done about Don Carlos. "I had a little mixup with him," he said, rubbing his sore throat reflect-

"What kind of a man is this Carlos senor," interrupted Rosita, leaning down your headache, Kearney. With Kincaid from her throne, "that he would dare such a thing-what did you call it-

"Oh, he had his men with him," Kin-"Remember, I'm at your service at caid answered with a stiff bow. "It

As the song continued, Kearney, who her, as she sang:

> "Tonight may be the night when he will appear.

Tonight may be my true lover is here.

He may be a torero He may be a vaquero

Or he may be With the last word the girl pointed

her finger straight at Kearney. The after a moment's thought. "Make this | "Tell me about him," teased the girl. applause from the crowd was terrific, saves lives."

and shouts of "Que baile!" "El baile de sombrero!" filled the air.

As Rosita bowed and started to leave. the men began tossing their big hats onto the platform at her feet. The orchestra started a dance tune and the senorita began her sombrero dance.

Castro and Don Luis were annoyed at what they considered her lack of dignity but Dona Petrona was pleased

"Bless me, the girl's got spirit. Wish I could do that myself," she beamed. Kearney watched her graceful evolutions with delight. Finally he turned

"If she dances on a man's hat it means she likes him, doesn't it?"

"Si. senor."

"Say, could you lend me yours?" "It is my pleasure," answered the other, handing him his huge sombrero. Kearney caught the dancer's eye, then tossed the hat to the platform. Her feet came closer and closer to it, then retreated teasingly. Finally, as to encircle it.

"The hat of an American, I will not | page? allow . . ." began Castro.

"You will not allow yourself to make a scene," whispered Dona Petrona, and her son subsided.

As Rosita finished the dance and started to run back to her box, Kearney or oil tanker where the daily listings scaped forward and followed her. Don of programs under the headings of Luis and Castro glared at what they music, talks, variety, comedy, drama Directors of the National Dairy associaconsidered the American's bad manners and short wave prove indispensable to tion meeting at Chicago voted to make but Rosita introduced her family with the traveler. a flourish.

"We are going, Rosita," said Castro BARGE IN NIAGARA as he turned brusquely away. "The INTERESTS TOURISTS coach is waiting."

As Don Luis also walked away distaste.

toward the young Spaniard. "Don Luis?" asked Rosita. Then with

n mocking smile, "No, no, he's my husband. .! As Kearney stood crestfallen, the

girl, who had started to follow the others, turned back and added: "... my husband to be."

(To be continued.)

MEDIC SCOFFS AT NOTION MEN TO BE CENTENARIANS

Dr. A. J. Lotka, statistician of the Metropolitan Life Insurance company. takes issue with Dr. Alexis Carrel, Rockefeller institute biologist and Nobel prize winner, in his claim that man's life might eventually be increased to more than 100 years.

Dr. Lotka declared his belief that Dr. Carrel's speculations were "made on very meager evidence."

"If you are over 20 and in good health, you have a sporting chance of living to be 70," Dr. Lotka said, "A to an old Spaniard beside him and few tough specimens may reach 100 or even 110. But that many human beings will ever reach these ages is a very remote possibility.

"Degenerative diseases, attacking both men and women over 40, put a brake on longevity."

OCEAN TRAVELERS ASK FOR PROGRAM GUIDES

If American radio listeners find program guides helpful in not missing outthe crowd murmured its delight, she standing broadcasts, what of the travstepped onto the wide brim and began eler on the high seas, far away from his favorite newspaper and its radio

Many of the monthly bulletins of The Radio Institute of the Audible Arts, founded a year ago by Phileo Radio & Television corporation, find their way on board some naval vessel

Considerable interest is shown by American Airlines passengers in a large frowning, Kearney looked at him with barge which is lodged in the rapids approximately 500 yards above the brink "Your brother?" he asked, nodding of Niagara falls, over which certain of the company's schedules operate.

> The barge, members of the crew explain, broke loose from its moorings further up the river several years ago, and threatened to carry several men to destruction. Just above the brink of the Canadian falls, however, it caught on a rocky reef and the men were removed to safety in breeches bouys. No effort was made to reclaim the barge and the current has not been able to dislodge it.

QUEEN OF SAMPANS LAUNCHED IN HAWAII

A "sumpan" 77 feet long and carrying a 115-horsepower motor was launched in Hawaii recently. It will join the large fleet engaged in tuna

The sampan was originally a very smail Japanese fishing smack, flatbottomed and carrying a crude sail. As the fishing in the American waters surrounding Hawaii developed to an important industry the fishing fleet was obliged to go further and further afield. Now the sampans are out for periods of sometimes several weeks and travel many hundreds of miles.

.To meet these conditions the sampan was gradually enlarged. The original lines, however, have not been greatly changed. As far as is known no sampan has been designed on paper. The sampan builders get the length and the beam and proceed with the model as they have known it in the past. No two sampans, by this method, came out exactly alike.

The queen of the sampans will probably be named the Kasuga Maru. Tho Diesel engine was made in an Oakland. Calif., plant.

NATIONAL DAIRY SHOW SET FOR OCTOBER

The National Dairy show, one of the great cattle exhibitions of America. will be held at the Texas Centennial exposition, Dallas, Texas, in October. their 27th annual show a feature of the Lone Star state's birthday celebration in Dallas, which starts June 6.

This great showing of dairy cattle will be held in the mollion dollar live stock and agricultural section of the exposition grounds. The premium list will be the most attractive ever offered for a show of its kind.

Charles L. Hill, state commissioner of agriculture for Wisconsin, president of the association, and Secretary Lloyd Burlingham are onthusiastic over building progress on the model agricultural and live stock section of the exposition which is now almost complete.

Future Farmers of America and 4.H club boys and girls from all parts of the southwest will visit the exposition and witness the judging of the 1000 fine dairy cattle which will be entered in the show.

U. S. FENCERS FOR GAMES TO DRILL

NEW YORK .- Selection of an American Olympic fencing squad of 39. around which will be built the team to represent the United States in the XI. Olympic games at Berlin in August, was announced by Leon M. Schoonmaker, chairman of the American Olympic fencing committee.

TOWNSEND FLASHES

DR. LONG SPEAKS

January 24 marked the second anniversary of the Townsend plan with a record achievement in point of growth, far beyond anything known in American history dealing with kindred questions of its kind.

As new clubs are formed the growth multiplies geometrically. with older clubs increasing their membership so rapidly that they quickly exceed the limit of 1000 members established by the Townsend national convention.

The Fifth congressional district has reflected the rapid growth evidenced all over the United States by an exceedingly large increase in number of clubs organized and the individual increase of members within these clubs.

DR. HAL C. LONG, District Manager, Fifth Congressional District, Spokane, Wash.

SPECIAL MEETINGS

Townsend mass meeting Sunday, February 2, at the Christian church, Spofford and Jefferson streets, Spokane, at 3:00 p. m. The Rev. Mark Freeman will be the speaker.

Townsend club No. 1 will give a Townsend dance at Redman's hall, W812 Riverside avenue, Spokane, Saturday, February 1. Prizes and refreshments.

TOWNSEND MOVES ONWARD

The Townsend movement is gaining impetus daily in the Inland Empire, leaders say. It is moving steadfastly onward day by day. New clubs are being organized, and old clubs show substantial growth in membership.

In any event many men and women of the nation who are not suffering from gold-thritis, believe the Townsend plan is the right step forward to secure relief for the aged.

Sympathizers and enthusiasts residing in cities and towns adjacent to Spokane are urged to drop a card to Townsend headquarters, Peyton building, Spokane, and they will be advised when and where group and club meetings will be held. They are welcome. Majority of meetings are open to the general public, and not a week passes but many enthusiastic meetings are held in Spokane and adjacent cities.

NATIONAL REPORTS

The Townsend National Weekly contains thrilling, optimistic reports notonly from headquarters, but from many Townsend plan into federal law was states where members and friends of laid on the evening of January 8 at the O. A. R. P. movement are giving Washington, D. C., when the group of their best to the work.

In the January 27 issue, Dr. Townsend exposes the attack made by Senator Duncan U. Fletcher of Florida, who sent a letter to his constituents in opposition to the Townsend plan. In his scathing rebuke Dr. Townsend says:

words of ignorance that originated on ed earnestness and enthusiasm, with the street among unthinking people."

This article alone is worth the price of the weekly.

Dr. Townsend's ire was aroused by der the Townsend plan will be taken by the house of representatives, of a from the national income.

had a rapid growth and is a success. Almost immediately with the first appearance of the first issue subscrip-

tions began to pour in from all parts of the country. Here are a few sparks from the last

issue, volume 2, number 2:

Racine Unit Alive. RACINE, Wis.-Townsend club No. 1 is the first in the First congressional district of Wisconsin to reach its membership limit of 1000 and to start the organization of other units of the same size. (This is something for voters to (hink about.)

FRESNO, Calif .- "Another year of progress," is the slogan adopted by members at the annual meeting of the Fresno Townsend club No. 6.

Remember-The Townsend Weekly does not publish poems or songs, so please do not send them in.

DANVILLE, Ill.—Painters' union No. 398 has endorsed the Townsend plan by a unanimous vote of its mem-

KLAMATH FALLS, Ore.—Asserting that if Andrew Jackson were alive today he would be fighting for the Townsend plan, Mayor Willis E. Mahoney, in a Jackson day statement, demanded that state democratic organizations endorse the Townsend program 100 per cent. Mahoney was invited to speak at the Jackson club banquet in Portland,

KOKOMO, Ind.—Pledges for the further progress of the Townsend old age pension and business recovery movement were given by 5000 persons at a huge rally staged in Haworth gpmnasiim, Kokomo, by Fifth district followers of the movement.

Congressman Petitioned.

PARMA, Idaho.-Parma Townsend club No. 1, in a town of only 600 inhabitants, secured 1000 signers on a petition sent to Congressman Compton I. White, urging his support of the Townsend plan.

BROKEN ARROW, Okla,-Organized only three months ago, our Townsend club No. 1 now has about 500 members.

NEW YORK CITY .- "Some of our clubs have more than 1000 members, some 500 and most of them over 300, according to the report of Sidney E. Laman, organizer of the 34th congressional district, New York state. There are 26 clubs in this territory."

Townsend Conference.

WASHINGTON, D. C .- Groundwork for an intensive effort to enact the congressmen in favor of the plan met with Dr. Francis E. Townsend in the offices of Congressman McGroarty to discuss plans which may aid in the passage of the McGroarty bill.

There was a unanimous decision that the bill must be pressed for passage at "Senator Fletcher simply parrots this session and the members exhibitrenewed pledges to work in its favor .-Townsend National Weekly,

The President Speaks

Talking by telephone to a dinner meeting of the National Committee for the Birthday Ball for the President at the Waldorf-Astoria on January 18, President Roosevelt's words were picked up by radio and broadcast to the nation. The address marked the first time in Birthday Ball history that the chief executive spoke to the nation previous to a birthday ball, unging support for the benefits to raise funds for a nation-wide war on infantile paralysis. Col. Henry L. Doherty, chairman of the national committee, presided at the Waldorf dinner, attended by nearly one hundred of the nation's leaders. Millions of Americans listened in.

Market News

WASHINGTON STATE COLLEGE. Pullman.-Prices of all classes and grades of wheat at six markets have eccently averaged fairly close to the level of a year ago; the result of a combination of advancing prices this year and declining prices a year ago, according to the weekly review of market released through the agricultural evtension service.

Good quality hard wheat prices are ligher this year because the United States is on an import basis for hard wheat, and soft wheats are higher because of increased demand for this type of wheat. Durum wheat has been materially lower in price because it

CORN AND OATS, UNCHANGED

Market prices of corn and oats were about unchanged in December and the first half of January but barley prices advanced. Feed grains strengthened in early January. No.3 yellow corn at Chicago averaged 58.8 cents the first week of Docember and 60 cents to 61 cents a bushel the first two weeks of January. Prices of feed grains appear fairly well adjusted to current supplies and not much change from present levels is expected for amonth or more. Production of soybean meal continues heavy. Prices range \$31 per ton on soybean meal and \$30 per ton on linseed meal in Portland.

LIVESTOCK PRICES IRREGULAR

Further declines in wholesale fresh pork markets were weakening influences in the live hog trade. Receipts at important markets were moderately heavy but lighter than during the pre vious week. Net changes in prices at Chicago were small, the top holding around \$10.10.

The supply of strictly good, choice and prime fed steers and yearlings was light at Chicago at mid-January, and the country on his birthday, January the market firm. Bulk of receipts were 30, expressed appreciation of the "nalower grades which sold from \$8 to \$12 per 100 pounds. Extreme top on prime long yearlings was \$14.35. Lamb prices fluctuated sharply but main trend of the market was upward. Bulk of tional character. Committees of promslaughter lambs sold from \$9.85 to \$10.85 at Chicago. Fat ewes ranged from \$5.50 down on a strong market. Wool prices continue strong to a little

EGGS DECLINE FURTHER

City egg dealers have been trying to clear out their receipts of fresh eggs each day, even to the extent of further slight price decline. Eggs have eased off three-cents or more a dozen on fresh supplies. Markets on live fowls weakened and prices moved downward two cents to four cents before meeting buying support. Chickens held comparatively steady.

Northwestern boxed apples moved slowly in eastern markets and prices tended downward with sales of extra fancy grade from \$1.25 to \$2.50 according to variety and condition.

A MIDSUMMER NIGHT'S

DREAM-COMING TO FOX

Max Reinhardt's super production of Shakespeare's comedy, "A Midsummer Night's Dream," opens at the Fox theater Tuesday, February 4, with one of the biggest and most talented casts of Warner Bros. stars ever to appear in a single picture.

Reinhardt, long acknowledged to be Europe's greatest stage producer, consented to present his spectacle in film form after it had met with tremendous success at the Hollywood Bowl and in San Francisco.

It is said to be the ultimate in spectacular grandeur, while at the same time its comedy and romance are as hilarious and as human as the mortal

James Cagney heads the all-star cast with Joe E. Brown, Hugh Herbert, has not been necessary to import this Frank McHugh, Otis Harlan, Dewey type this season as was the case a year Robinson and Arthur Treacher playing Athens on the occasion of his wedding 7th and Pine, Scattle. to the Queen of the Amazons.

The leading romantic roles are played by Dick Powell, Jean Muir, Ross Alexander and Olivia de Havilland. whose mixed-up love affairs lead to some strange pranks by the elf of mischief, Puck, portrayed by Mickey Rooney.

Others include Victor Jory, Verree Teasdale, Anita Louise, Ian Hunter, Hobart Cavanaugh and Grant Mitchell. Scores of beautiful dancing girls take part in the fairy spectacles, the dances being created and directed by the two famous European ballerinas, Bronislawa Nijinska and Nina Theilade.

music by Mendelssohn, arranged by the noted Viennese composer, Erich Wolfgang Korngold. The play was arranged by Charles Kenyon and Mary McCall Jr., and directed by Max Reinhardt in asosciation with William Dieterle.

ROOSEVELT LAUDS WORK TO CONTROL PARALYSIS

NEW YORK .- President Roosevelt, in a radio talk to workers for the presidential birthday dances to be held over tional fight against infantile paralysis."

"You should know," he said, "that this fight against infantile paralysis is assuming a greater and greater nainent laymen and physicians are playing their part in this broadening of ideals, objectives and usefulness. Coordination of all this effort is the purpose and desire of the Warm Springs foundation.

Seventy per cent of the money raised by the balls will be devoted to work in the communities where the dances are held, 30 per cent to the national foundation.

Washington-Idaho Farmers Produce Two-thirds of All Peas Grown in Seven States

SPOKANE, Wash.—That more than INTEREST two-thirds of the dry edible peas in the IN SERVICE seven main producing states are produced by Washington and Idaho growers, is shown by a survey made by the United States department of agricul-

These states are Washington, Idaho, Michigan, Wisconsin, Montana, Colorado and Oregon.

. Washington and Idaho produced 4,-763,000 bushels of the total crop aggregating 6,117,000 bushels. Growers received \$7,863,000 and of this amount Idaho and Washington growers received He added: "After the most searching the lion's share-\$5,745,000.

at \$2,249,000, and Washington's crop throughout the country have acknowlnggregated 2,097,000 bushels valued at edged the system as an important con-

Practically all these peas were grown in the famous Inland Empire.

Montana ranchers raised 400,000 buels of peas. This crop is valued at

Oregon produced 180,000 bushels, valued at \$216,000.

Montana, Idaho and Washington pea crops are used mainly for seed, although some portion of the Idaho and Washington crops are taken for soupstock and the remainder for local seed-

Farmers in Spokane and Whitman counties, Wash., are planting peas on wheat fallow land. To this planting in attributed the large increase in pen production in Washington.

The increase in pea production referred to was from 61,000 acres harvested in 1932, to 162,000 acres harvested in 1935. Idaho harvested 72,000 acres in 1932 and in 1935 a total of the United States each day. 08,000 acres.

SEATTLE. - Widespread publicity for the northwest among business groups throughout the country has resulted from newspaper and magazine articles dealing with the new method of credit granting, introduced in Seattle last June by Retail Service Bureau, according to Wells J. Huntley, president.

Inquiries from business groups indicate a substantial interest in the Scattle-born idea, Huntley said today. inquiry into the operation of Retail Idaho raised 1,666,000 bushels valued Service Bureau, credit authorities tribution toward the solution of one of the most vexing problems faced by modern retail business. Naturally, we are pleased that a Scattle organization has received this recognition."

NEW POLISH SHIP TO MAKE MAIDEN VOYAGE IN MAY

The new motorliner Batory, sister ship of the motorship Pilsudski and second new trans-Atlantic liner to be built by Poland since the nation regained its independence, will leave Edynia on her maiden trip on May 18 and arrive in New York on May 27, it is announced by the Gdynia America line. On its return maiden voyage, the Batory will leave New York on June 2.
