#### FLUME BROKEN BY CLOUDBURST WILL BE REBUILT BY WPA

A project to rebuild 1300 feet of 4x5-foot irrigation flume, which was destroyed Sunday by a cloudburst, was instigated by the district WPA at Lewiston, said Administrator J. H. O'Rourke Wednesday.

Damage to the flume was estimated at \$5000 and it was thought to have affected about 2500 persons in the orchard district. About 10 days will be required to make the repairs. One hundred and fifty men are working on it. "Must" Projects Continue.

O'Rourke said that the WPA projects known as the "must" projects will continue through the summer. These will take care of those ineligible for or ineapable of forest work or not employed under other federal agencies.

Forces Reduced. The district WPA force for the 10 northern counties is now down to 900 from its peak of 3800 last March, and O'Rourke said it would be cut to about 600 by June 20 and the present 30 projects reduced to less than 20.

#### FLOOD CONTROL, IRRIGATION ARE DISCUSSED AT MEETING

At a special meeting in Coeur d'Alene Saturday evening of the technical advisory committee of the tricounty planning board flood control for northern Idaho and utilization of water for irrigation and power purposes were discussed.

Speakers were Colonel Thomas M. Robins, army engineer of Portland; Dean Ivan C. Crawford, college of engineering, University of Idaho, and J. state planning board. F. W. Fitze, 200 men. It will be of reenforced con-Coeur d'Alene, presided.

#### TERWAY IS ACQUITTED

A district court jury acquitted Eugene Terway, 21, who had been on trial two days on a charge of involuntary manslaughter. The car he was driving struck and killed William Jones at intendent of public instruction in the Cocur d'Alene May 9.

# LATAH COUNTY **AAA WILL PAY** \$15.10 AN ACRE

INDIVIDUAL FARM RATES ARE COMPUTED ON BASIS OF PRODUCTIVITY.

Dean E. J. Iddings of the University of Idaho's college of agriculture announced recently that Latah county's average soil conserving payment under the soil conservation farm program will be \$15.10 an acre.

Farmers who convert soil-depleting acreage to soil-conserving crops, as classified by the AAA, will receive the \$15.10 average payment.

The payment is intended to compensate the farmer for the difference in net income from soil-depleting to soilconserving crops. Individual farm rates will be worked out on the basis of profluctivity, as the state and county rates

Twelve hundred of Latah county's 4600 farmers have signed work sheets preliminary to participation in the program, more than entered the more remunerative earlier AAA.

#### DORM BIDS OPENED

Bids for the new \$250,000 men's dormitory at the University of Idaho will be opened June 30 in the offices of President M. G. Neale.

The board of regents has approved the plans and authorized the construccrote and fireproof brick construction.

PYROIL KEEPS ABREAST OF THE TIMES The NEW PYROIL does not affect any alloid bearings—is especially ADAPTED TO DIESEL ENGINES

Every reader of this paper should keep posted by reading the SAT-URDAY EVENING POST, which has featured some

ALMOST UNBELIEVABLE ACCOMPLISHMENTS WITH PYROIL FOR THREE YEARS

such as driving cars almost 1000 miles "DRY RUN" after all the oil is drained out—and without injury to motors!

AGAIN WE ASSERT THAT PYROIL HAS WON FOUR YEARS IN SUCCESSION IN THE MEMORIAL DAY 500-MILE RACE AT INDIANAPOLIS.

WHY DO THESE "SPEED DEMONS" USE PYROIL TO WIN EVERY RACE? For the same reason that YOU should always use PYROIL in "all

moving things"-from a sewing machine to a combine!-to INCREASE YOUR MILEAGE AND TO PROTECT YOUR MOTOR Scores of cars, all over the country, are driven two to five times as far as formerly on the same oil—and they throw away better oil after getting several times more use out of it.-Of course, if you

CHANGE OIL EVERY MORNING—THAT'S YOUR BUSINESS but if you want economy and 100 per cent performance, then PYROIL will do "just that" for you.

"I WOULDN'T THINK OF DRIVING MY CAR WITHOUT PYROIL" -hundreds of thousands of men are telling this to their friends every day!-and the entire

MOTOR WORLD IS BECOMING "PYROIL CONSCIOUS" -as well as the GREAT INDUSTRIAL WORLD-where some 70 per cent of lubricating oil is used-against about 30 per cent in the

GREATEST LUMBER MILLS IN THE WEST AND IN THE WORLD are using GENUINE PYROIL as no other such producct will stand up under such gruelling tests as given PYROIL.

PYROIL ALONE CAN GIVE PYROIL RESULTS! as there is nothing on the market "LIKE" PYROIL. YOU should start using same today—YOU can get it at hundreds of dealers through the entire Northwest.—If your particular dealer doesn't have PYROIL, write to us and we will see that you get it pronto!

### TILLICUM AWARDED FIRST PLACE

WALLA WALLA.—The Tillicum newspaper of The Dalles high school was awarded first place in the north; BOAT CAPSIZES-BOY DROWNS west newspaper contest held at Whitman college recently, scoring 950 points out of a possible 1000.

This marked the first time that the prize has ever been given to an Oregon high school. Schools from Washington, Idaho, Montana and Oregon compete

### CHERRY LOSS LESS

THAN ESTIMATED PASCO, Wash.-Cherry damage from the recent heavy rains in the Pasco Kennewick districts was less than at first estimated, growers report.

Cherry shipments in carload lots began moving from here last week.

Visitors to the Texas Centennial exposition, which opened in Dallas June 6, good. will be able to ride on reproductions of She is survived by 11 children, 43

New York, N.Y.—"IT'S TRUE! that Howard Hickman, who is cast as the governor in Metro-Goldwyn-Mayer's 'Fury', was one of the first players to appear in motion pictures made in Los Angeles", says Wiley Padan., "Hickman's wife is Bessie Barriscale . . . 'Fury' marks Fritz Lang's American directional debut...he is famous for such European pictures as 'M' and 'Metropolis'. . . Morgan Wallace attempts to calm a mob in the motion picture 'Fury'...During the strike of longshoremen in San Francisco last year, Wallace had an important part in disuading an infuriated army of strikers from charging a line of police officers!"

PROSSER, Wash,-This season the Yakima valley will have one of the largest peach crops in the last 15 years, is the opinion of orchardists throughout the valley.

Trees of all varieties have set a good crop in every district from Kennewick to Tieton. Fruit men estimate a crop of 1500 cars, or about double the production of last year. The valley shipped 418 cars by rail in 1935, and the truck movement together with the quantity going into mixed cars was equivalent to 350 cars. A rail movement of 900 to 1000 cars may be expected this season.

The outstanding development in the one-third as many J. H. Hale peaches as Elbertas.

### HEAVY PEAR DROP

WHITE SALMON, Wash .-- A recent survey of d'Anjou pear orchards here and in Hood River valley indicates that the drop is very heavy. Some growers report that their yield this fall will be almost nothing. Estimates generally place the total yield of the winter variety at about 50 per cent of last year. The Bartlett, Bosc and other varieties of winter pears are showing a SPOTTED FEVER light drop and will yield about an average crop.

#### "REGIONAL PLANNING AT MISSOULA JUNE 20

SPOKANE.-Marshall Dana, chairman of the northwest regional planning

commission, states the next regional planning session will be held in Missoula, Mont., June 20, at which time 12 items, including drainage, water resources and pollution, roads and surveys, would be discussed. Leaders from all parts of the northwest will attend.

SANDPOINT, Idaho .-- Orville Cash 13, was drowned in Lake Pend Oreille Tuesday, last week, when he was thrown from a boat which capsized. Robert Parker, playing with him, reached shore by clinging to the capsized boat, but Orville sank. His body was recovered within an hour. He was the son of Mr. and Mrs. Arthur Cash.

# SAYS PARENTS ARE RELIGIOUS FANATICS

BONNERS FERRY, Idaho,-Martha Adams, 16, of Moyie Springs, Idaho, said to be a direct descendant of the sixth president of the United States, has returned to Idaho to tell why and how she vanished in 1934 and created a mystery that baffled police for two years.

Religious differences with her parents were the cause of her leaving home, she told officers who brought her back to her parents, Mr. and Mrs. John Adams, at Moyie Springs. Her disappearance had been attributed to foul play; posses searched for her, and her father offered \$500 reward for her re-

She told officers she hopes to establish legal grounds for her and her three brothers and sister to be paroled to

In a signed statement the girl said she left home because she was kept out of school; was forced to dress in home-made khaki clothing; was Pullman, said there were nine reasons whipped to make her take lengthy why the present is a good time to start fasts, and had her hair pulled so that she would "really cry" while she took part in "wailing ceremonies."

Expanding on the religious beliefs of her parents, she asserted:

"Then don't believe in automobiles. They have a queer belief as to what you should eat. Sometimes it was wrong to eat flour. They used to believe that sugar was wrong."

She said her father had taught her to believe that John Quincy Adams, sixth president, was an ancestor of the

#### WENATCHEE FIRM GETS

KENDRICK CONTRACT KENDRICK, Idaho. - Goodfellow Brothers, Inc., of Wenntchee were awarded the contract on a low bid of \$22,795, for construction of the roaddeath Monday last week, was found bed and draining structures on 1.015 to have secreted over \$7000 in tin cans, miles of the Ahsahka-Kendrick highsacks, bureau drawers and other places way cast of Kendrick in Nez Porce about her home, meanwhile posing as county, when bids were opened by J. H. impoverished. Only a few days before Stemmer, director of the state highway department at Boise, Friday of last week.

The construction work extends up Wansher gulch from a point one mile from Kondrick, up Potlatch river, toward Cavendish and Southwick on Potlatch ridge.

# GRAND COULEE DAM SHOULD DO AS WELL ings.

SPOKANE,-Rufus Wood, publisher of the Wenatchee World, and undoubtedly the greatest "news-hound" in the northwest, has just returned from an extended tour throughout Europe. The following memoranda taken during his trip should be of unusual interest to Grand Coulee dam boosters:

"Of all the fool moves that any narion could make is the building of that big dam on the Dneiper river. Think of it! Building a big dam down on the prairie where there is no population and where there is no demand for electricity!"

That was what I heard all over Europe six years ago. It sounds very much like the exclamations that are being propagandized now among some of the newspapers and magazines of the east regarding Grand Coulee dam,

But wait! Here is the sequel.

Down around that great Russian dam they have built a city of 200,000 inhabitants. They now have demands for all of the power and are finishing the second stage with demands waiting for that. In addition, they are getting ready immediately to construct 200,000 horsepower more at this point, electricity to be developed by steam. In addition thereto, plans are going rapiddams on the Volga river.

I have just had a visit with P. P. Rotert, the Russian engineer in charge of that Dneiper river project. He said, "We started construction on the dam in July, 1927. We got the first unit running in May, 1932. We are now using 100,000 kilowatts in the production of aluminum. We are finishing construction on the second part of the aluminum plant which will require 100,000 kilowatts more. In the metallurgical proc-

SPOKANE, WASH.

EMMETT, Idaho, June 18 .- One hundred forty-five CCC boys and a 30man WPA crew have kept spring seeding, squirrel poisoning and gully control programs going forward satisfactorily. J. L. Wursten, acting project manager, pointed out that nearly 200 acres have been seeded to alfalfa and grass mixtures in addition to gully and road cut seedings. A considerable acreage has also been planted to wood-

# BROWN JOHNSTON OPENING DRAWS LARGE CROWDS

The grand opening of the Brown Johnston company, Wednesday, June day. Completely remodeled and modernized, the pioneer store includes every type of modern electrical appliance, such as refrigerators, washing machines, fixtures, lamps, irons, etc. Ten thousand people toured the shop during

Mr. Johnston, president of the Brown Johnston company, said of the opening, "It is Brown Johnston's purpose to keep in the very forefront of modern electrical development so that we can offer Spokane and the Inland Empire the most up-to-date electrical service that it is possible to offer. With the tremendous electrical resources already prospects of much more available energy from the Coulee dam and other

Magnificent bouquets of flowers, 39 counties of Washington will direct rescue and nursery homes, and the Ta- sent by friends of the firm, were scattered throughout the rooms.

# AND POISONING OF SQUIRRELS EX-COLLEGE PRESIDENT FOR SCHOOL SUPT.

MOSCOW, Idaho,-Dr. Charles W. Tenney, president of Gooding college from 1918 to 1935 and since then director of the institute of religious education at the University of Idaho, has announced his candidacy for state superintendent of public instruction.

A republican, Dr. Tenney was rural high school inspector in Montana before coming to Idaho.

feature of the opening. It was done in white and was completely furnished in modern, work-saving equipment. Aprons were given away here, and free coffee was served.

#### Awarding of Prizes.

The high point came in the evening when a tremendous crowd gathered outside the store for the awarding of prizes for the best slogan for the new store. These prizes, a Norge refrigerator and a Zenith radio, were awarded by the judges of the slogan contest, Mayor Arthur Burch, John Sullivan, chairman of the county commissioners, and J. I. Kinman, president of the Spokane Chamber of Commerce.

#### Expansion Program.

This retail remodeling culminates a program of expansion and growth, begun two years ago, by Brown Joshston company, which includes the purchase of the former Armour building at \$123 Wall street, the organization of an entirely separate wholesale company, the expansion and removal of the Brown Johnson metal-working factory and parchment shade factory to the new building on Wall, the adding of a special department on air conditioning and commercial refrigeration, and the employment of about 15 men to take care of the expansion.

The Westinghouse Lamp company has announced a general reduction in the The model kitchen was an interesting prices of the various automobile lamps.

# ITEMS of INTEREST To WOMEN

# COCKTAILS AND SUCH

No! These are not the drinks that repeal has legalized. They are merely summer beverages that refresh and please the thirsty man and would be especially appropriate for Father's day. They are healthful as well as delicious. The quick-energy value of the sugar, combined with the mineral salts and vitamins of the fruits, make these beverages particularly valuable and satisfying.

Sunday, June 21, is Father's day. Serve him one of these tempting drinks and watch him smile.

#### Lemon Punch.

Juice of 6 lemons, juice of 3 oranges, 1/4 cup syrup, 1 quart water, 1/2 cup mashed strawberries, 1/2 cup shredded pineapple.

Mix fruit juice, syrup, water and crushed fruit. Garnish with very thin slices of orange.

#### Loganberry Cocktail.

Two cups loganberry juice, I cup orange juice, juice of 1 lemon, 1 cup water, 1/4 cup syrup.

Proceed as in lemon junch. Grapejuice Ricky.

For each glass mix the juice of onehalf lime with one-half glass of grapejuice and two tablespoons of sugar. Pour back and forth in a mixer with crushed ice. Fill with plain or charged water.

# Know Your Feet

By Dr. Leanera May

ARE YOUR SHOES RIGHT FOR

in shoe construction. Is your shoe constructed from a last that conforms to the shape of your foot? If not, then! your whole body is off balance. There will be tension from ankle bone to hip, muscle strain that will make the feet and legs tire if not actually ache. We often forget that the purpose of shoes is to dress feet comfortably. The shoe must serve the foot by allowing it to function naturally. Shoes that meet the needs of the body support and guide the weight from the heel to the other two weight-bearing points; that is, the heads of the first and the fifth metatarsal.

There is no such thing as a "corrective" shoe but correct shoes correctly fitted will do much to keep a normal foot in condition as well as being a large factor in preventing a return of foot troubles after correction. No shoe, however well made, can replace a misplaced bone to its normal position or line up a foot that is not treading properly but a correct shoe properly fitted can do much to keep such bones in place after correction and allow the foot to function freely by keeping it properly balanced, distributing the load as nature intended. Your feet deserve as much care in their fitting as your eyes and the effect of a poor fitting may be fully as serious. Be sure that you have the "right shoe on the right foot."

Next week Dr. May will consider the requirements of the "Right Shoe." Booklets on feet will be sent free to any one writing 329 Old National Bank building, Spokane.

LAMB STEW WITH DUMPLINGS

Three tablespoons flour, 11/2 pounds shoulder lamb, 3 tablespoons crisco, 1 cup potato cubes, 1 green pepper diced, 1/2 cup ripe olives (may be omitted), 1 cup peas, 1 cup carrots, few drops to-

Method: Cut meat in small pieces, dredge in flour and brown in hot crisco Senson with salt, pepper, celery salt and bay leaf, Add vegetables and 5 cups boiling water. Simmer 2 hours or cook in oven 350 degrees F. 2 hours. Thicken gravy with 3 tablespoons flour blended in 3 tablespoons milk.

#### Dumplings.

Two cups flour, 2 teaspoons baking powder, 1 teaspoon salt, 3 tablespoons crisco, 34 cup milk (half evaporated, half water).

Method: Sift dry ingredients together, cut in shortening, add milk. Toss on floured board and knead lightly. Roll about 1/2 inch thick, cut in small biscuits, place on hot lamb stew. Bake at 425 degrees F. for 20-25 minutes.

#### GINGER PUFFS

One-quarter cup sugar, 2 tablespoons carmelized sugar, 1/2 cup crisco, 2 egg yolks, % cup honey, 1/4 cup milk (evaporated diluted with water), 214-21/2 cups flour, 2 tenspoons baking powder, ½ teaspoon salt, 2 teaspoons ginger, 1 teaspoon cinnamon, 1/2 teaspoon cloves, 1/2 tenspoon nutmeg, 2 egg whites stiffly beaten, 1/2 teaspoon orange flavor-

Method! Put jar of honey in warm room (70-80 degrees) for 6 hours before using. Cream the shortening, sugar and carmelized sugar, and egg yolks. Add honey and stir. Sift flour, baking powder and spices together and add alternately with the milk. Fold in the stiffly-beaten egg whites. Flavor with orange extract and turn into oiled muffin pans or baking cups, Bake 15 minutes at 350 degrees F. When cool slice through center and fill with Albertine filling. Put tops back on and decorate with spirals of whipped cream and a fragment of candied cherry.

### ROOSEVELT RECIPE!

As famous as her scrambled eggs is the First Lady's just-announced recipe The last is the first and last word for Kedgeree. The news columns gave this southern dish prominence and now everybody wants a recipe for making it. Here you are:

Combine 2 cups cooked rice, 4 hardboiled eggs chopped, 3 tablespoons parsley chopped, 2 cups cold flaked cod. 1/2 cup cream, salt and pepper, and thoroughly heat in a double boiler. Six servings.

# Style Notes By Mariana Gray

What clothes shall I take on my vacation? Maybe you have your ticket or your passport and you are filled with the spirit of adventure but your suitcase is still yawning.

The moral is that everything is built around one color scheme. If your coat is navy, you might have a print dress or white sport clothes but which stick to the navy blue scheme. A navy pin or polkadot for afternoon wear is good.

For boat travel include two evening gowns and plenty of sport clothes and hats that go with as many as three costumes. Navy, red or white shoes and bags may be chosen.

Don't wear fragile organdy or fussy blouses or clothes that take much cleaning and care. Take a pair of dark glasses and a pair of low-heeled shoes.

Travel with the minimum of luggage and maximum of style. One of our best dressed women traveled all over Europe and Mexico in all degrees of teperature with 35 pounds of well-select ed clothes.

319 RIVERSIDE AVE. REASONABLE RATES, \$1 & UP - CENTRALLY LOCATED MAKE THE FAIRMONT YOUR SPOKANE HOME AL NALERT, Assistant Manager C. W. FIKE, Manager

Keep flowers out of drafts, even in varm weather, if you will have them last. Put them in the refrigerator at night if possible, and give them plenty of room to breathe fresh air.

Water should be changed in fresh flower arrangements at least once a day. If you haven't the time to rearrange them after draining off water in the usual way, use a siphon hose, so as not to disturb the flowers.

A good principle to follow in selecting a corsage or shoulder bouquet is that the large flowers look best on the tall woman, small ones on a short woman, This principle can oftentimes go unheeded if you will reduce the number of large flowers to make a small arrangement.

#### TAILORED BEDSPREADS AND DRAPES FOR SUMMER

For all who have searched vainly for good style through good tailoring and simplicity in summer decorative fabrics, there is a new offering that will be welcome—a fabric for bedspreads, drapes or slipcovers.

The material is a flat surfaced Du Pont rayon and cotton mixture, with a patterned effect in the one-color ground -somewhat like moire due to the yarn mixtures, and a vertical stripe. The rayon, which forms the texture pattern and the stripe, is slightly lustrous, contrasting against the dull ground. While light in weight, the material is exceptionally sturdy, and of a type easy to tailor. In all the color choices, the stripe is in a silvery or plca beige tone. The colors are sun-fast.

Ready-made drapes and bedspreads are to be had in this material, or you can get it in piece goods.

> MEETING A PORCUPINE By Florence Graham, Age 10. Rockford, Wash.

Once upon a time there was a little dog. His name was Fido. He was always getting into mischief. One day he was taking a walk through the woods and he met a porcupine. He did not know what it was but he said, "Good morning, Mrs. Somebody." This made the porcupine very mad and she was going to fight the dog.

Just then a man came along. It was the dog's master. The dog began to run but the porcupine ran after him. This made the dog run faster and when he reached home he ran in his dog house. The porcupine ran after him into the dog house. Then the porcupine write to her until we find a real twin jumped at the dog and got quills all over him. When the dog's master camehome he got the gun and killed the porcupine. Then he took the pliers and pulled out the quills. It hurt very much and the dog never talked to a. porcupine again.

> Cheshire cheeses were at one timemolded into the shape of a cat, with bristles inserted for whiskers; hence the expression, "Grin like a Cheshire Cat."

Contributions to this Corner must not be over 125 words in length, and they can be original stories about yourself, your pets, an original poem or joke, or even about an interesting experience that you have had. A prize is given to everyone who has a piece accepted. Only original ar-ticles will be accepted. Each article must have name, address and age of writer and also bear the signature of your parent. Address them to Aunt Marion, 611 Jamieson Bldg., Spokane, Wash.

public as can be accommodated at approximately 5:00'p. m., P. will be given an opportunity to S. T., and will include notificaboth see and hear the combination tion addresses by Senator Alben W. Barkley of Kentucky, the convention keynote speaker, and Senator Joseph T. Robinson of Arkansas, democratic floor leader, and speeches by President Roose-Jell-O program is heard on the velt and Vice President John N. NBC-Blue network Sundays, at Garner, accepting the party's renominations,

SYNOPSIS

Judge Calhoun Davis of the circuit court in the sleepy little town of Tidewater, Virginia, is hated by his stepson, Jim. Jim is in love with Mary Lee, the girl next door, who prefers Bob Stuart. Jim borrows a neighbor's car and wrecks it. In order to pay the garage bill and to avoid arrest, he takes a shotgun which he found on the rear seat of the car and sells it to Bob. Bob finds out from Mary that the gun did not belong to Jim. Mary refuses to go to a carnival with Jim that night, preferring Bob's company. Seeing Jim alone at the carnival, the Judge twits him about it. Jim flies into a rage. CHAPTER VII.

along the midway, the hoarse voice of pantomime indicated that he was in gered back, then, with a snarl, leaped a barker caused them to halt in front love with Mary Lee and for the For- at his enemy, Bob feinted and threw of the hula hula concession where the tune Teller to say that the girl and another stiff punch. #### HANDSOME ANNUAL LUPINE GOOD BACKGROUND SUBJECT

If you have had trouble with perenup venom. "Why, that dirty little nial lupines, substitute the annual varieties. They are not so fussy and grow easily from seed with spikes of bloom almost as fine as the perennial, and bloom from seed the first year,

> See that it has plenty of water durmer. The downy foliage is ornamental, with the long leaflets radiating from a common center like an umbrella, and will wilt from dryness.

> They have a fine range of colors in blues, pinks and white variations. There is also a yellow variety of soft shades. The tall varieties give the longest spikes and are better for cutting, while the dwarf sorts are better for

They prefer partial shade, and are best placed where they will get the morning sun, and be shaded from the afternoon scorchers. Plant the seed about a quarter inch deep and transplant as soon as a true leaf develops. They are rather hard to transplant, but as the germination of the seed is uneven it is best to sow in a seed bed and move to permanent quarters.

Two members of the national guard who suffered attacks of acute appendicitis while on duty during the sawmill strikes last summer can not draw pay for the time spent convalescing in hospital after their companies were called out of service. Such is the official opinshooting gallery. At the impact the ion given by the attorney general to "What's the matter, young feller . . . flimsy structure broke and the boys the adjutant general. # Hats Off To Inland Empire Fathers; Dad's Day Idea Of Spokane Woman

"He was not the sort of father that you read about in books;

He wasn't strong on language and he wasn't strong on looks.

He was not the sort of father that you hear about in plays-

He was just a human father, sort of quiet in his ways."

Father's day, the day that now brings joy and happiness every year to millions of homes in the entire United States, did not exist in 1910. It was on the third Sunday in June, 1910, that first recognition of Father's day was given, from the pulpits of several Spokane churches. Probably the first sermon on that occasion was entitled "The Knighthood That Never Retreats." A memorable day indeed, for Father's day is now nationally observed every year at the same time.

It was Mrs. John Bruce Dodd, of Spokane, who conceived the idea, and it was through her work and effort that the vision' materialized. In 1910 the Spokane Y. M. C. A. gave the day formal endorsement, and in the same year her suggestion took the form of a petition to the ministerial alliance. It read, in part, as follows:

"The beautiful custom of Mother's day suggests the question, why not a Father's day? This question is further emphasized by the celebration in our Sunday schools of Children's day. . . Your petitioners therefore urge you to set apart the third Sunday of June to be known as Father's day, and suggest the use of the rose as a suitable flower."

The Spokane Ministers' alliance accepted the plan.

What justification there is for Father's day! History is full of fathers, some illustrious, but most merely hardworking, courageous fathers much like yours and mine. In the Bible there are the beautiful stories of the sacrifice of Abraham, the father's heart of Jacob, the compassion of Moses for the children of Israel, and without parallel is the gift of the Heavenly Father to the world of his only begotten son.

Coming down through the ages to modern times, the father impulse has influenced history to a greater extent than is usually understood. The fatherhood of America is rooted in the courage and sacrifice of our Puritan Fathers. The comraderies of Abraham Lincoln and his sons, the letters of Charles Dickens and Theodore Roosevelt to their children are true examples of a

These are but a few of the illustrious fathers. However, equally great parts have been played by the unsung fathers of the centuries, for it is their JUMPS OFF INTERSTATE BRIDGE courage and devotion, their patient sacrifice and inspiration that has been the true foundation of civilization.

The purpose of Father's day is to esfons. It is to establish a comradeship letween father and son, and the golden mle between man and man. A day set aside to think of dad, to show him a lit- ing from Lewiston to Clarkston when the spirit carried out in practice by millions of enthusiastic followers.

### MEETING REHABILITATION

etc., is advocated for rehabilitation made that night. families who are not able to finance necessary purchases individually. Reavailable for such purposes.

SEATTLE .-- The possibility of a short flush production of butter this year is being considered in the dairy produce trade.

For the first four months of the year total production of creamery butter in the United States was 469,278,000 pounds, an increase of 4.4 per cent over the corresponding period of 1935.

In April the butter output showed signs of falling off from expectations end was less than 1 per cent over that of April last year.

#### April High.

With the exception of 1935, this year April production was the lightest for the month since 1928 and 13,000,000 pounds below the April, 1931, figures when a high record for the month was

Storing, which started in May, has been at a much lower rate than a year ago. In 35 of the important storage cities for which weekly reports are available, total butter holdings on June 6 were 23,074,127) pounds, whereas a year ago they were 34,768,157 pounds. Imports Small.

Importation of butter in important amounts has passed out of the picture for the time being. April receipts of foreign butter were only 660,572 pounds, as compared with 8,860,000 pounds in the same month of 1935. Total imports for the calendar year to May 1 amounted to 4,288,427 pounds. In the corresponding period of 1935 the imports were 17,398,000 pounds.

#### "CHRIS-CRAFT" SHOWN AT INLAND BOAT CO.

Speeding over the water in a motorboat of record-breaking caliber with spray flying back in your face, swimming past swimmers on a hot day, surfboard riding-thrills such as these that formerly only a fortunate few were able to enjoy-are now within the reach of everyone.

The Inland Boat and Motor company, nt 918 First avenue, Spokane, inboard motorboats, with speeds ranging from 29 to 47 miles per hour. The company has been appointed district for Federal Mogul propellers and Lycoming, the mo tor that broke 12 world's records last year in class E runabout and hydroplane motors. Lycoming motors cover 98 per cent of the marine field, and have everything from a small 34-horsepower motor to a 325-horsepower one.

CLARKSTON, Wash. - Shouting "Here goes nothing," Gerald King, 55, prominent fruit rancher at Truax on tablish normal reciprocity between God the lower Snake river (22 miles below and man. It is to bring to mind the here), committed suicide by leaping lacredness of marriage and family rela- from the center span of the Lewiston-Clarkston interstate bridge into the longer believe. He was on the track of raging Snake river last Saturday night.

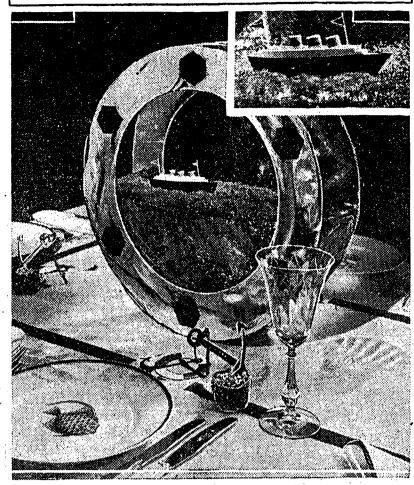

With Frank Ewing, King was walktle of our appreciation and love-such he expressed fear of losing his ranch had proven to be true in the long exwas the conception of Futher's day as under mortgage foreclosure. "This will originated by its founders, and such is be the last pick of cherries at the ranch before it gets away from me," Ewing said King told him.

King halted near the center of the bridge, and without warning stripped his coat off and jumped over the rail, crying, "Here goes nothing," before Ewing could grab him. The police were Cooperative ownership of canning immediately notified, but on account of equipment, breeding stock, tractors, darkness no search for the body was

Kind had lived on the lower river for nearly 30 years. His children atsettlement administration loans are tended school at Clarkston. He leaves a wife and four children.

# All Aboard for a Bon Voyage Party

voyage party with nautical table decorations. Shown here is an original centerpiece of this character representing a porthole with an ocean view through "windows" of cellophane cellulose film. The decoration, which the hostess can make herself, is constructed from two card board rings, braced apart, and covered with gold paper. Inside is a paper boat on a sea of blue and green film, crushed to look like

two pieces of spool wire, ½ inch apart, of black film are added for rivets.

A grand send off for a lucky friend to support the waves and attach the who is taking an ocean trip is a bon boat. The inside of the rings is now covered with gold paper and two 18. inch circles of clear color film are taped to the holes.

For the ocean, crush light blue film slightly crushed, and tape over waterline wires. Add extra layers at sides, for depth.

The ocean liner (pictured in detail at upper right) is cut from a double thickness of white paper, folded at bottom. It is 51/3 inches from port to stern; 1% inch high at center; % inch The cardboard rings are cut from high at each end; and 41/2 inches along 16-inch circles with an 11-inch center the keel. After taping ends together, hole, making each ring 21/2 inches wide. cover the lower part with black film. They are reinforced with No. 5 wire Three pieces of white paper 14x14 circles, and held apart by five 9-inch inches make the tubular smokestacks, wires bent 2 inches at each end. Two with bands of red Scotch tape. Red wires are fastened to the rings, 3 inches tape flags are hoisted on wire. Finally, apart, for a stand; one goes across the the 51/2 inch space between the two top; and two are directly opposite at porthole sections is covered with clear the sides, just below center, for a film, gold paper is applied on the outwater line. Between these two are tied side of these rings, and six-sided bits

# Our Weekly Sermon

Text, Is. 65: "I am found of them that sought me not.

sermons might be called the return to religion through psychology-applied psychology.

Dr. Henry C. Link, who wrote the book which suggested my title, records a common experience, though it occurred with him in a new field. He had left the church and abandoned the religion of his fathers because there were some things there which he could no something which he thought was better The garnered wisdom found in the Biand truer, only to find himself square ble and the teachings of the church up against some old truths-truths that took a long time to come where they perience of men in their relations to tury nor every thousand years. The aveach other and in the growth of character in individual men.

In his case the word of Jehovah to Isaiah had proven true: "I am found of them that sought me not."

The Practicing Psychologist. Dr. Link started out to help people who came to him to straighten out their tangled lives, their maladjustments to each other and their failures to live at peace even with themselves. To these problems he tried to bring the newer knowledge, only to discover that the lives which he found to be crooked were not crooked because they were born that way, but because they were by training. Personality is not born; it is developed by practice. The greatsonality is still the Bible, and the distaucen the two cities. covery of the psychologists tend to confirm the codification of personality found there, and to show that many of the ancient precepts about the development of character were right."

# The Trouble With the Man

Was the Boy. He discovered by actual experience the lack of them, which they had as 625 injured and 24 killed. children. Then it was that he was discipline which were inseparable from religion. He found out by actually counting and comparing them that by far the greater number of those with fine and pleasant personalities, those who were easy to get on with, the people who were really worth while, influential and useful, were the ones, who had the old religious training in

One of the reasons for the breakdown

of people in later life was the confusion which had entered the minds of their own parents as they cast adrift from older moorings. Their parents were doubtful and uncertain of many things which arise in the rearing of a family. They were not anchored to such verities The second of this series of brief as held their fathers, the belief in a good God and a dependable world. The Ten Commandments and other great though simply expressed rules of conduct had been lost to them.. There was nothing but the experience of their own brief lives to fall back upon, and a father at 25 and a mother at 22 don't know very much. There are very few fundamental verities revealed in the life of one generation. Wisdom comes not alone with age but with many ages. were. Christs are not born every cenerage parent is not a great and original authority.

Thus we come to realize how valuable it is to be anchored to the authority that lies in

The Faith of the Fathers, And religion once won becomes the guide even of those newer minds who thought themselves emancipated from it and the Lord is found of them that sought him not.

### SUDDEN DEATH—CONTINUED

' PORTLAND, Ore.—Seattle continues to kill more people than Portland, but brought up that way. "Minds," he came when it comes to number of accidents to see, "are not born; they are acquired and persons injured, Portland has the highest total, according to figures released last week in the 13th week of est and most authentic textbook on per- the "End Sudden Death" challenge be-

# World Wheat Situation Shows Most Favorable Since 1933; Surplus Gone

# BAKER WELL PLUGGED

BAKER, Mont.-The discovery oil well on Little Beaver dome, of the 80mile-long Baker-Glendive anticline, in extreme castern Montana, is being gradually plugged back in an effort to shut off bottom water which developed when the well was opened up for a short test recently.

The well flowed at the rate of 7500 barrels per day during the test and the water is believed to have "coned up" in this well, as frequently happens in wells that are uncontrolled.

The Baker well, belonging to Mon tana-Dakota Utilities company, is Montana's deepest oil well, getting its production from what is now believed to be the top of the Madison lime, at 6698 feet, or about 3370 feet below actual sea-level.

The hole has been plugged back foot by foot and then tested. It still flows when the valve is "cracked." Whereas it was making 90 per cent water 12 hours after it was first opened up, following acidization, the volume of water had been reduced by half late last week, when it flowed at the rate of 1200 to 1500 barrels per day, about half water and half oil.

So far as known, this well is on the 'high" of the structure, with a closure of 300 feet. There is no gas with the very full over light green film only oil, which flows as a result of hydrostatic pressure.

> Preparations are being made to drill second well on Little Beaver dome, about half a mile north of the discovery well. Still another well is to be drilled this year on the anticline north of Baker and more than 30 miles north of the discovery well. Baker-Glendive anticline is 80 miles long and from six to 12 miles wide, offering possibilities of one of the greatest oil fields in the

OLYMPIA.-William S. Sullivan, state insurance commissioner, and president of the National Association of Insurance Commissioners, attended the 67th annual convention of the association this month held in St. Paul, where he delivered the president's annual mes-

CHICAGO.—The world wheat situation during the season now closing has been the most favorable as regards supplies and demand of any year since the international wheat agreement was signed in 1933.

World prices have risen substantially and the glut of wheat stocks which caused the crisis in 1933 has practically disappeared, except in Canada. Huge surpluses in the United States, Argentina, Australia and France are gone. Canada has been selling heavily.

Bad Crops, Factors. Principal factors have been three bad winter wheat crops in a row in the United States and a crop failure in Argentina. If Russia continues to be a negligible factor in the world market and the United States again has a small winter crop, which is not unlikely,

Canada will have a virtual monopoly on

the market during the year beginning

August 1, to work off her surplus. In the opinion of the wheat diplomats, however, the world wheat problem has not been solved because nationalistic policies in Europe have pushed the demand for exports down to the lowest level on record. Despite her war in Africa, Italy is not buying wheat, as many expected.

The international wheat advisory committee, with headquarters in London, estimates the world export demand for the coming crop year at only 525,000,000 bushels. From 1927 to 1931 the average annual demand was 800,-000,000; from 1922 to 1927 it was 770,-

#### OREGON'S MARTIN "ALL FUSSED UP"

PENDLETON. Ore. - Governor Charles Martin, in an address here Friday, launched a scathing attack at opponents of his program for a huge industrial district in the lower Columbia river sector near Bonneville dam, the Associated Press states.

"What's all this talk that we should not build this center because it will make other states jealous?" he asked. "Well, I hope it makes San Francisco and Los Angeles so jealous that they curse every time they even think
