# How Social Security Works This Explains All About It

What is the new social security all about? Many don't seem to understand, so here will appear a brief series of short articles, as furnished this paper by James G. Bretherton, district director. You may obtain specific information at the offices, Hutton building,

This article deals with the federal old-age benefit phase:

Q. 1. What is meant by federal oldage benefits?

A. There are three types of benefits payable directly by the federal government under the federal old-age bene- year, it is said. Loans averaged \$900 fits provisions of the social security each under the 1936 program.

(1) Monthly benefits payable after n person is 65, (2) lump-sum benefits HOW WAGE INCREASES payable at 65, and (3) payments upon payable at 65, and (3) payments upon

how the amounts are determined will be explained later.

Q. 2. Are these benefits entirely fed-

A. Yes. Federal old-age benefits are entirely administered by the federal government. The wages of workers in what might be roughly termed industrial and commercial establishments throughout the United States, including the District of Columbia, Alaska and Hawaii, will, beginning with 1937, be counted in the computation of bene-

Q. 3. What is the purpose of the fed eral old-age benefits provisions?

A. The main purpose is to provide an assured retirement income to wage earners when they have reached the age of 65, thus making possible wages, as defined in the act, from employment the wage and dividend rise. after 1936 and before the age of 65.

Q. 5. How are federal old-age retirement benefits different from oldage assistance?

A. The old-age benefits provided by the social security act differ from oldage assistance in two ways: first, they are to be paid by the federal government directly to the individual; and, second, payment will not be dependent on the establishment of need. The amount paid to each person will depend on his work and wage record before reaching the age of 65.

Q. 6. When does payment of monthly federal old-age retirement benefits begin?

A. On and after January 1, 1942, monthly federal old-age retirement benefits will be paid to individuals who can meet specified requirements.

Q. 8. May an individual buy federal old-age retirement benefits from the government?

A. No. The federal old-age retirement benefits are not purchasable.

Q. 8. Will monthly Federal old-age retirement benefits be paid to every one after the age of 65?

A. No. In order to receive monthly old-age retirement benefits from the federal government at the age of 65, individuals must have been employed in at least five different calendar years after 1936 in what might roughly be termed industry and commerce, and their wages from such employment must be at least a total of \$2000. However, these benefits will not be paid to persons as long as they are regularly employed in such industrial and commercial establishments.

PEA PICKERS CALIFORNIA-BOUND the time is opportune for trouble."

EN CENTRO, Cal.—Three thousand California-bound pea pickers, traveling in 300 automobiles, passed the state highway patrol inspection station opposite Yuma in two days last week.

Captain Frank Oswalt, in charge of the Imperial valley division of the highway patrol, said the migration was of such magnitude that four traffic lines had to be formed to handle it.

A cloth dipped in vinegar and rubbed over the kitchen stove before it is blacked will remove all the grease that may have accumulated on it.

RURAL LOAN FUNDS NEEDED

SUNNYSIDE, Wash.-Opportunities to place stranded midwest families on developed Yakima county farms are limited, and there are indications that the rural resettlement administration will not have sufficient funds to carry out urgently needed work here.

Although official announcements are lacking, there is little likelihood that more than 30 or 40 loans will be made to establish farmers in the district next

Differences which involve the public welfare should be adjudicated by public authority, he declares, as those of individual citizens. He writes, "Until they are so adjudicated, we may look to see the worker victimized and business thrown out of gear whenever a conscienceless gangster or a hairbrained Muscovite gets the notion that

Washington's relief problem is complicated by influx of families from drought states and a joint conference of state and federal agencies recently at Olympia was on record favoring immediate increase of the state's WPA job quota from 28,000 to 40,000.

Representatives of more than a dozen welfare and development agencies met here Monday and recommended both long-time and emergency measures to combat the unemployment prob-

### Wants Farm Credit Aid.

It adopted a recommendation that drought families be handled by the resettlement and farm credit administrations, with the WPA and other state and federal agencies cooperating to handle the emergency this winter. The WPA recently announced Washington's WPA quota of 28,000 would not be increased this winter.

Among the suggestions for caring for drought state families coming to Washington were subdividing existing large farms, long-term loans and cooperative public works projects for land-clearing, irrigation and drainage.

Recommendations will be submitted to the national emergency council and passed on to other federal agencies in Washington, D. C. Senator Lewis B. shildren, governed by a ders of wisdom and kindness this forms the domain of Montal Shadovhud, known as the state custodial school, at Medical Lake, Wash., less then 26 miles from Spe-ane. There are about 1500 of these "children," but they are not all really skildren in age. Merely children of mentatity. Mental defectives. Some adult in years but actually infantile in mental development. Others possessing the mentality of 5, 10, 12 years in

Most saddening and pathetic, however, of all these "children" are the poor effigies of humanity set apart in special wards which house the helpless -pitiful creatures who are unable to apply even the most elementary care at themselves. Of these there will be more later, in this brief story

Their Demi-God, Mr. Parker. The state custodial school is in tharge of Charles G. Parker, a huge man of great girth and smiles, and also expansive understanding and kindlizess. When I first met this gentleman, has was on the grounds surrounded by a cluster of elfin little kiddies who greeted him with squeals of glee and hailed their "Misser Parker" with attandon and acclaim. In convoying his visitor around the institution, this recling of affection is further demonstrated. Somehow, even the most dismust inmate manages to recognize their big friend with a spontaniety of friendliness. Patients-and here are, unhappily, many, who are unable to move little more than their eyes-have a welcome for this man.

Unpaid Kindly Mrs. Parker. There is another Parker, also an effective minister to these little people with grown-up bodies. This is Mrs. Parker. She works with her husband, unrewarded by salary, but with the reward of her ministrations, and beloved by all. Again, there is still another be-Lovod Parker there-Alice, the young daughter of Superintendent and Mrs. Parker, who is not "above" joining the immates' hand, in uniform, and playing with them in private and public appearances. She is a gifted young mu-sician, and a sort of leader.

He Is Trained for Work. Mr. Parker, by the way, enjoys long years of this work and was identified with other mental institutions before his present appointment. A close student of psychoanalysis, psychiatry, mental abnormalities and reactions, he combines this training with natural aptitude for his work which he regards as a mission of helpfulness, rather than \* mere job.

New Buildings Completed. The school itself is about to use its three handsome new buildings which will to completed when you read this carticle. Two of the buildings will be much-needed wards for boys and girls. The other will serve as an auditorium, motion picture theater and recreational center. Carefully selected motion pictures will be presented. The helpless be wheeled into the place. Sometimes, the motion pictures will be replaced by plays and concerts. The construction includes perfect acoustics and air conditioning.

The school band is regarded as un-

usual in its talent, none the less because all its players (with a couple of exceptions) are subnormals, otherwise.

The school has 10 pianos. There are gifted planists present. There is a radio in nearly all the wards.

The new buildings will include a gymnasium, baths, school classrooms and other conventences. All Is Clear, Bright.

Steam in Thrift Cooker.

So, why not revive the old-time Christmas spirit and make a plum pudding this year? The Thrift Cooker unit of the electric range provides the new way for accomplishing this old process. This unit, so cleverly installed in the cooking top of the range is the ideal steamer. Well do we all remember the elaborate ceremony attached to making plum pudding in the old days. The contents were carefully tied in a muslin bag, and the bag was tossed into a level, and the fire had to be fed "every little while" to keep the water boiling. With the Thrift Cooker, however, the

# "STINGY" RAIN IN THE INLAND EMPIRE

SPOKANE .-- A check-up of the Inland Empire rain of early last week shows that rainfall ranged from "a trace" at Walla Walla to a downpour in the Pasco-Kennewick region.

The Inland Emipre has been without rain since early in September.

Last week's drizzle did little more than dampen sidewalks at Walla Walla, but ranchers in Franklin county welcomed the precipitation as insurance for the fall-planted wheat which failed to sprout through the dust.

At Dayton, showers were reported as At Dayton, showers were reported as the first in more than 60 days. The rain cleared the dust-laden atmosphere and settled dust which was hub deep on some country roads.

The Yakima and Spokane districts had only light rains.

At Brewster, in Okanogan country, a light snowfall was reported, which melted fast as it fell.

At Winchester, Idaho, a light rain ture to permit plowing and other usual people have been able to make their fell, but did not produce enough moisfall farm activities.

### SKUNK GIVEN RIGHT OF WAY.

PATTERN 8798.

One glance at this pretty house frock and the simple diagram tells the story of this fetching sew-your-own creation, the story of how many housewives keep that trim and lovely appearance through the happy medium of home sewing, not to mention economy!

You'll find the squared neckline becoming, especially when outlined in contrasting color, and there's a feminine appeal about the tunnel-loop sash that ties in a trig bow at the back. These features, which make for distinction and individuality place no pitfalls in the way of success. The stepby-step instruction chart included with this pattern insures that.

Designed in sizes 36, 38, 40, 42, 44 46, 48, 50 and 52. Size 38 requires 41/8 yards of 35-inch material plus 2% yards of 11/2 inch bias binding for trimming.

SUGGESTS

### GLORIFYING THE POTATO!

The statement "familiarity breeds contempt" is as true of things as it is of people. The mere fact that mealtime comes around with monotonous To set black, brown, gray and pink regularity three times each day makes the planning of menus a chore. Perhaps that is why so many housewives today, who take pride in their homemaking have worked out ways and means of beating this bugaboo.

With malice aforethought I started some of my friends talking about their pet schemes for mastering mealtime monotony as we sat knitting and gossiping the other evening. And from every one of them I gleaned a new and ings, and the next day he started out. interesting idea.

#### PASTRY POTATO ROLL Pastry

One cup flour, 1/4 tenspoon salt, 1/4 cup shortening, 3 to 4 tablespoons water, 1/2 cup grated American cheese.

Sift flour, measure and sift again with salt. Cut in shortening coarsely and add barley sufficient water to form a stiff dough. Place on lightly floured board and roll thin., Sprinkle with 14 of the cheese, fold over and roll out again. Repeat until cheese is used up. Roll pastry to 1/8 inch thickness and spread evenly with mashed potato filling. Roll up as for jelly roll and cut in inch slices. Place (cut side up) in greased baking pan. Brush tops with melted butter and bake in a hot oven, 450 degrees, for 25 minutes. Six servings.

"Where's Davie? Where's Samf" the man demanded shortly.

"Oh-Davie is here, and Sam-he'll

ately so that it faced the front door. "You have dreenk, Jeff? Wine or wheesky?" Maria asked cheerfully.

"No thanks, Maria-a little later." As he spoke the bedroom door opened and Davie unharmed, ran in and threw his arms wildly about his hero. Once there he gave way at last and began to sob.

"Don' cry, Davie," Jeff patted him reassuringly. "Everything is all right." Gently as a mother he rocked the boy until his sobs ceased. Then he carried him back into the bedroom and returned to continue his vigil.

Half an hour later Sam rode up to the house. Catching sight of Jeff's horse at the hitch ruck, he drew both at his tormenter. Then he tried a new guns from their holsters and tiptoed tack. to the back entrance of the house. Kicking open the kitchen door, he from you in Saint Louie?"

"I always liked you, Jeff," pleaded Sam, fiddling uncertainly with his guns. "Why d'you have to come prowling around now?"

"Why'd you kill Wahoo? I thought you liked him, too."

"Killing's too good for a doublecrosser." Sam showed his tobaccostained teeth, "I will say this for you -you stated your case plain."

"I'll state it plain again. I quit the Ranger service rather than go after you, and Wahoo took my place, but this time I don't quit. Either you're goin' with me peaceful-like or I'm going to have to kill you like you killed

> "Too late, Sam." Jeff's voice was like ice. "I say you better drop them guns and come with me."

"I don't want to kill you!" the bandit exclaimed with a so-help-me expression on his face. "Didn't want to kill: Wahoo either, 'cepting he got me riled.

Why, I . . ." At that moment Davie saw his opportunity. Picking up the whiskey bottle he hurled it with all his might at Sam's head. The bandit ducked and fired wildly as he sprinted for the kitchen door. Jeff returned the fire but his aim was not so good after all. Maria caught Davie to her bosom and dragged him into the safety of the bedroom as the fusillade contined.

Cursing with fury at his own weakness, Sam leaped on his horse and was spurring away when Jeff leaped through the door and fired again. The horse faltered in its stride, then fell, throwing the bandit over it's head. McGee sprang expertly to his feet,

A good substitute for the ice box is a wrapping of moist newspapers. Go about it in this manner: First, dip the flowers in cold water to the blossoms Then, wet a cloth and wrap it around the ends of the stems. Now wet several newspapers and wrap the flowers in them, leaving one end open, and taking care not to crush or dampon the fragile petals.

Newspapers have a water absorbing nature which allows them to remain wet for several hours if kept out of the sun, and by surrounding the flowers with this moisture, they will be kept in a humid atmosphere, and the continuous evaporation of moisture will cool the air and provide a makeshift ice box of sorts.

This practice can also be worked with whole arrangements, and without disturbing them. Take the arrange; place in the house. Set it on a table or floor where water will not harm any-We might well follow the example of thing, and make a framework of wet or box where necessary to support

# NO LONGER HERE?

NEW YORK .- Edward L. Bernays, counsel on public relations for various business concerns, made the following

"Private business, in the old sense, does not exist in America any longer. Business exists to function for the public. The public realizes this and judges businesses and their products by that criterion. . . . That is a fact that American industry is only now commencing to realize."

#### STATE GENERAL FUND LARGEST IN HISTORY

OLYMPIA.—The state of Washington has more money in its general fund today than at any time in its history, with a cash balance of \$5,723,391, State Treasurer Otto Case reported.

Highest previous level of the fund, out of which costs of old age pensions and state government are paid, was \$5,518,428 in July, 1924.

The state's excellent financial condition was credited by Case to heavy sales tax payments, liquor profits and

delinquent property tax payments. Total cash in all 53 state funds was \$17,900,681, a slight drop under the previous week, due to \$2,524,773 in pay checks paid out to state employees and old age pensioners the first of the

#### TUNE DETECTIVE TALKS AT WHITMAN

Dr. Sigmund Spaeth, "tune detective," former Princeton professor, author and concert manager, spoke recently at a Whitman college student assembly. Spacth is able to trace the features of a composition and show its relatiouship to other tunes, and has been called upon in many copyright suits.

He showed similarities between widely different tunes, such as the descent of "Yes We Have No Bananas" from a number of well-known airs, including the "Hallelujah Chorus."

Spacth said that the average layman can understand all music if he stops to analyze it.

#### DODGE GIVES HORN ITS PROPER PLACE

The automobile horn, which heretofore has led a somewhat neglected existence below hoods, under fenders and in odd corners, now sounds with unmuffled freedom on the latest Dodge models. Its new location is in the space between the radiator grille and the radiator itself, where its warning, unimpeded by structural details of the cur, radiates in all directions, but with special effect toward the front where most traffic hazards appear.

# SOCIAL SECURITY LIKELY TO BRING FISCAL CHANGES

The social security law, which is expected to pile up \$10,000,000,000 by 1948 and some \$45,000,000,000 by 1975 may change the country's present fiscal period and beome a bulwark against future depressions, according to recent statements by economists.

It is believed that the creation of this fund will: (1) Shift the public debt, now at 33.8 billion, from private banks and financiers to the government itself, thereby saving up to \$800,000,000 a year in principal and interest for federal obligations; (2) It may eliminate tax exempt securities which have been a problem to the government; (3) It may act as a curb against inflation in providing a quick source of eash to release for industrial recovery as against present methods of issuing additional currency for expanding credit; (4) It will create new mass purchasing power among low income classes by relieving anxiety regarding old-age want: (5) In shifting the public debt from individuals to the government, the interest savings derived could be devoted to a pension reserve rather than to banks and financial companies; (6) It will militate against corporate hoarding during depression periods.

#### CELEBRATE 25 YEARS OF U. S. AIR MAIL

NEW YORK .- On September 23, 1911, Flyer Earl Ovington, recently deceased, took off from a small field at Garden City, Long Island, and flew 10 miles to Mineola, L. I., where he dumped a 50-pound sack of mail overthe field being too rough to land. Postmaster General Frank Hitchcock sponsored that flight. This year, Garden City and Mincola observed the quarter of a century anniversary by having the American Airline's flagship, a giant 21passenger craft, fly the same course, carrying passengers and 2700 pounds of mail and express matter.
