

## Over The County

**Juliaetta Record:** The editor of the Record who has been quite ill for the past week, was taken to Lewiston this week to the St. Joseph hospital for treatment. It was found upon his arrival there that a worn out condition of the system and a general breakdown of the nerves was the chief cause of his trouble. Mrs. Bulen and Amos Nigh accompanied him to the hospital, and he was met upon his arrival by his brother from Pendleton, Oregon. From recent reports Mr. Bulen is progressing nicely and it is hoped for his speedy recovery. A good and faithful citizen is always missed from a progressive community—By a friend.

**Deary Press:** John F. Waide is now in charge of the Farmers Warehouse and elevator, having succeeded W. J. Davis, who resigned last week. Mr. Waide has conducted the Kendrick Rochdale warehouse at Kendrick for the past twelve years. He is a competent and experienced grain man. During the winter at least Mr. Waide will leave his family in Kendrick, where he owns a nice home, but expects to move to Deary in the spring. As long as Mr. Davis leaving the company has made it necessary to secure another manager, we do not know of a better man than Mr. Waide that could have been employed, and the Press joins in bidding him and his family welcome to our midst.

**Troy News:** The Copper, Chief Mining and Milling company will start operations on their property east of Troy on Bear creek soon. The first work will be to do some prospecting on a lead of cobalt that has made a good showing at the assay office. This ore is of high quality and of such quantity that it promises to be worth mining.

**Star-Mirror:** Harry Rader, a millwright at the Mark P. Miller mill, was caught in a counter shaft and received injuries from which it can hardly be expected that he can recover. Mr. Rader was working alone on the third floor of the mill when the accident happened. It is presumed that his clothing wound up on the counter shaft revolving the body of the man like a pin wheel. He was caught high up about the shoulders and his feet and ankles were beat to a pulp, scarcely a bone two inches in length being left in his limbs below the knees.

A. C. Deeter, his working partner, was the first to discover the unfortunate man. He was on the floor below and heard the hammering of Rader's body against the ceiling and noticed the slowing down of the machinery of the mill. He rushed to the third floor and discovered the man entangled on the shaft. The mill was closed down within a minute after by Head Miller Hughes, and a few minutes after Rader regained consciousness and recognized the boys about him. At the hospital it was found that there were internal injuries and that he was suffering from hemorrhages of the lungs.

Harry Rader is a man of 37 years or more. He was married last fall to Mrs. Hendrickson who was a resident of this city and has three young children. His mother and two sisters and a brother live at Attica, Kansas. He has been employed at the mill here since last spring.

Mr. Rader died shortly before 3 o'clock Tuesday afternoon. When taken to the hospital he was conscious, but the hospital authorities expressed no hope for his recovery. His body was simply beaten to a pulp. The funeral arrangements have not been decided upon.

## Move Stock Next Week

Stanton Bros. will move their stock of general merchandise to their new quarters in the Kendrick Hotel block, some time next week. The building could not be made ready for occupancy this week. The interior of the building presents a very neat and attractive appearance.

## Purpose of Farm Bureau

The following article was written by J. R. Howard, President of the American Farm Bureau Federation: "It has always been the policy of the county farm bureau and the officers in charge of it to avoid anything bordering upon class consciousness, or which would tend to destroy any other line of business. In the last analysis, there is no distinction between the interests of the producer and the consumer, between the interest of the farmer and the town dweller. It is true the farmer could live longer without the men in town than could the urbanite without the farmer, but immediately and farmer's activities would be limited only to that which he himself consumes on his farm. He must have an outlet for surplus production. It is the farmer's interest that the city prosper. Call it selfishness on our part if you want, but we as farmers are dependent upon railroads and manufacturing, upon wholesalers and retailers. The more healthy the general business of the country is, the better is it for the farmer. I would selfishly like to see every laboring man in the country employed every day of the year at useful employment and at good wages, for I would then be assured of a certain market for the surplus of my farm. I have no sympathy whatever with any farm movement which tends to build up agriculture at the expense of any other industry, for it would in itself defeat its own end very rapidly. Neither have I sympathy with any line of business which tends to push downward agriculture or agricultural prices to the exploitation of other business. What we need and must have in this country is a proper economic adjustment or balance between the farmer and industry, and I consider it one of the functions of the American Farm Bureau Federation to assist in seeking proper relationship."

## School Notes

The janitor, Mr. Lewis, is ill this week. Curtis Bailey and Kester Dammarell are substituting for him.

Reviews for semester examinations began Thursday of this week. The examinations will be held the latter part of next week.

The basketball game between Culdesac and Kendrick, last Friday night, in the local gymnasium was very well attended. Although the game was a somewhat one-sided affair, interest did not wane until the crowd left. The noble efforts of Juliaetta's promising younger generation, for the visiting team, were rewarded by nine rah's by the Kendrick footers. The size and strength of the Culdesac team proved a serious handicap for our team. The score stood 53-19, Culdesac's favor.

The team journeys to Lewiston, Friday, January 14, to play Lewiston High a game of basketball. Saturday they retrace their steps to Moscow to play there Saturday night. The best wishes of the school go with them and we promise to root just so much louder, at the next game played here, if they will bring back the honors to Ol' K. H. S.

## District Court Monday

The district court of Latah county will meet at Moscow next Monday, January 17. Thirty jurors were drawn as follows: Peter O. Floam, E. K. Parker, J. C. Stillinger, H. W. Mallory, Arthur Carpenter, Gustav Danielson, Harrison H. Simpson, Elmer F. Anderson, Henry Hoffman, Arthur J. Draper, Homer Lyons, Adolph Grieser, Roy A. Naylor, Chas. P. Whalon, Ocar Odenburg, Willie L. Fields, George Clark, Benjamin Steelesmith, John DeWitt, Albert Roberts, Jody Long, Samuel M. Smith, John Weber, Henry H. Christie, Martin Magnuson, Pearley L. Chaney, C. W. Brown, Herman Gustafson, George Hare, George Drury.

## Talking Union School

**Tribune:** There has been a sentiment developing in the vicinity of Southwick, recently, in favor of the consolidation of the rural schools in that vicinity, and at a community meeting at that place a few evenings ago, the movement is said to have gained considerable headway. At this meeting it was stated that the several rural schools in this section were struggling along without sufficient equipment, and at Southwick they have but two years high school. Under the consolidation plan, it was maintained, the same curriculum could be had as in the larger centers, and all of the pupils in the present rural schools would have the benefits of a graded school, including the advantages of a complete and permanent high school. By those in favor of the movement, it was claimed at the meeting that the unionizing of all the schools in that vicinity, with Southwick as the center, considerable expense could be obviated and much better educational facilities given. Provision could be made, it was maintained, for the transportation of the pupils to and from the consolidated school at outlying districts.

There will be another community meeting at Southwick, Friday night, at which President O. M. Elliott, of the Lewiston normal, is expected to be present, and the matter of school amalgamation will be further discussed. Leland is another point where the consolidated school is being discussed, this place having but two years high school and several rural schools adjacent which could be unionized into one district with the high school at Leland.

## McCallister-Hill

Miss Anne McCallister, daughter of Mr. and Mrs. W. W. McCallister, of Big Bear ridge, was married to Mr. Andrew Hill, son of Mr. and Mrs. Henry Hill of Kendrick. The wedding took place Tuesday at Moscow and was a complete surprise to everyone. The bride and groom went to Lewiston for a short honeymoon, returning on the morning train, Thursday. The young couple will make their home in Kendrick for the present.

L. J. Herres was a Lewiston visitor the first of the week.

## Culdesac a Fast Bunch

The Culdesac High School team had things pretty much their own way at the basketball game played here last Friday evening at the high school gymnasium. It was a good game, even though it was one-sided and the score of 53 to 19 doesn't tell it all. The local high school team was much lighter than the visitors and hadn't the experience of the crack team from Culdesac. It is consoling to know that next to Grangeville, Kendrick scored the highest number of points against the Culdesac team this year.

It was a clean game and at times a sensational one. The locals, for short periods, played brilliantly but the consistent, fast playing of the visiting team was too much for them.

In the latter part of the game Claud Stanton was substituted for Chamberlain, and, although Claud was very little more than half as big as the Culdesac man he was guarding, he stayed with him to the end of the game.

Culdesac has won every game this year and seems to be going strong for the state championship for 1921.

## Sign Up For Lyceum

An Ellison-White representative was here the first of the week in the interest of getting the Kendrick business men to sign up for a lyceum course for next year. A course consisting of three musical numbers and one home talent production was selected and fourteen signers were on the contract the last seen of it. The cost of the course is \$290.

## Woodmen Open Meeting

The members of the local Woodmen Lodge are planning to spend a very pleasant evening next Wednesday, January 19, when they will hold an open meeting. A musical program has been arranged and in addition to this a play entitled "A Royal Initiation," will be staged by Neighbors of White Pine Camp No. 204. Refreshments will be served.

## Hoods Entertain

Rev. and Mrs. Robert M. Hood entertained the teachers and a few friends at the Manse last Friday evening. Those present were Mr. and Mrs. Jody Long, Prof. and Mrs. Morrison, Mr. and Mrs. Leo Raaberg, Mr. Dice and the Misses Lowery, Little, O'Conner, McKinnon, Hood, Malloy, Dean and Rev. and Mrs. Hood.

## Temple Co. Elects Officers

At the meeting of stockholders of the Fraternal Temple Company this week N. Brocke was elected president; Wm. Freytag, vice president; S. P. Callison, treasurer; W. M. McCrea, secretary. Harry Grinolds was elected a director for the ensuing year. A five per cent dividend was declared.

## "Dick" Densow Promoted

R. E. Densow, better known here as "Dick", was promoted to the position of assistant cashier of the First National Bank of Lewiston, at a directors' meeting held Tuesday. The Lewiston Tribune comments on his promotion as follows: "Mr. Densow, who was elected as assistant cashier, entered the employ of the institution as bookkeeper over six years ago and he has also merited promotion through filling very satisfactorily each place in the bank up to his present position of assistant cashier."

At the meeting of county commissioners of Latah county, held at Moscow this week, Columbus Clark was elected chairman of the board. The commissioners are now in session transacting the business which comes before the board at its first annual meeting.

## With The Farm Bureau

Latah County Farm Bureau News: Farmers of American Ridge met at the American Ridge school house at 2 p. m., Wednesday, December 28, Projects were selected and leaders elected as follows: Organization, W. Q. Taylor; wheat improvement, Harry P. Bencoter; pest control, Frank Bencoter; weed control, Geo. N. Davidson; livestock improvement, Wm. Cox; crop reporting, Geo. N. Davidson.

Goals for 1921 were set as follows:

**Organization:** Get every member of the community to join the farm bureau.

**Wheat Improvement:** 1. Locate all fields of pure wheat and have the same inspected and certified if inspection shows the wheat to be eligible for certification. 2. Conduct two demonstrations to compare the bluestone-salt and lime dip treatment for smut with treatments commonly in use.

**Pest Control:** Same as for the Palouse community, with the addition that this community will enforce the rodent control law.

**Weed Control:** 1. Conduct three demonstrations to show the effect of a poison spray of sodium arsenite in the control of wild morning glory. 2. Hold one field excursion to study the noxious weeds of the community and county and discuss control methods.

**Livestock Improvement:** Have all cattle of the community tested for tuberculosis.

## Nez Perce County News

The Christmas seals campaign in Nez Perce county resulted in a total subscription fund of 953.41. Of this amount \$180 was subscribed in bonds. Mrs. J. M. Bonner was chairman of the drive in the county.

The new board of county commissioners met Monday in regular session. Leroy J. Southwick was re-elected while R. L. Spiker of Lewiston and George King of Lapwai are the two new members of the board.

John H. Cole, cashier of the First National Bank of Lewiston, has resigned to take a position as vice president and manager of the Security State Bank of Chehalis, Wash.

Stanley Ketchell knocked out Roy Orton of Spokane, former boxing instructor of the Spokane Athletic Club, in the ninth round. The fight was held at Lewiston Monday night and was scheduled to go for 12 rounds.

Joseph August, for 20 years a resident of East Lewiston, where he was a truck gardener and orchardist, was killed Monday night on Lewiston hill when the car which he was driving went over the grade. He was alone in the car at the time and was coming home from Uniontown. It is not definitely known how the accident occurred. He was found by Dan Boyles of Colton and taken immediately to Lewiston but died before he reached the hospital. He is survived by a wife and nine children.

## Weed Control

Demonstrations on the control of noxious weeds have been started in three communities in Latah county by the farm bureau. Two co-operators are working on the control of wild morning glory on Big Bear ridge under the direction of A. N. Rognstad, local project leader, and two demonstrations are being carried on, on American ridge under the leadership of George N. Davidson. H. H. Carpenter, of Moscow, is co-operating with the farm bureau in testing the use of sodium arsenic as a spray to kill Canada thistles. A small patch of these weeds were sprayed early in August with a solution of sodium arsenite and the weeds were apparently killed. Especially heavy rains followed the spraying and many weeds showed up on the plot shortly after spraying. This test will continue another year as will all the other tests.

## Boys' Pig Club

The Boys' Pig Club of the Leland and Cameron communities received a shipment of five registered Duroc Jersey sows by express Tuesday afternoon. The shipment came from Armour & Co. of Spokane and was received here by the five pig club members—August Koepf, Homer Parks, Carl Larson, Leonard Wolf and August Hartung.

These fine hogs were secured for the club members through the efforts of County Agent Skuse and Jesse Hoffman, livestock improvement committeeman of Leland, and the boy who secured one may consider himself a particularly favored young fellow and ought to make good use of the opportunity afforded him to learn practical methods of hog raising.

Mr. Skuse met with the boys in Kendrick Tuesday afternoon and gave an outline of the methods to be followed. Each boy signs a contract with Armour & Co. In addition to this he has to keep a record of the kind of feed, quantity, cost and method of feeding so that it will be possible to ascertain the cost of producing pork in this community. The accuracy and neatness of the accounts kept in this book count materially in the success of the boys when the results of their efforts are summed up at the Armour Inland Empire pig club contest to be held next fall.

The sows sent to the boys of this community are the large type Duroc Jersey and are due to farrow in March.

The agreement of the plan for the Armour Inland Empire pig club contest, under which these pig clubs are established, is between the extension departments of Washington and Idaho colleges and Armour's bureau of agricultural research and economics, acting in the counties through the farm bureau.

Registered bred sows and gilts are loaned to members of standard clubs in five counties of northern Idaho and five counties of eastern Washington, the colleges to use their judgement as to whether clubs should be formed in the same counties employed in 1920. The purpose of the contest is to encourage swine production in the inland empire, and as a step in this direction, the club members securing sows are to exhibit two pigs each at the livestock shows at Spokane and Lewiston.

Should the club member desire to keep the entire litter as well as the sow, he may do so by sending Armour & Co. a check for the original value of the sow before the pigs are exhibited. The ones exhibited are the first and third best. The sow and the remainder of the litter becomes the property of the club member.

The club members are provided with car fare and accommodations upon the first exhibit. Nine cash prizes, amounting to \$150, are offered in the gilt class and four prizes, amounting to \$50, in the boar class.

The club members attending also compete in a hog judging contest, which will have a part in determining the grand champion, entitling the winner to a free trip to Chicago in December, this alone being valued at \$200.

As an encouragement to continue club work where once started, each county in northern Idaho and eastern Washington where Armour bred gilts were placed with club members during the spring of 1920 will be entitled to send one club member to compete in the pig club judging and showing contest for the trip to Chicago. This club member must own the pig that is shown, and it must be the progeny of the bred gilts put out in the contest of 1920.

## No Smallpox Here

It was reported in Juliaetta this week that there were 40 cases of smallpox in Kendrick. This report was news to the local health officers. One family was quarantined here some time ago for smallpox but the quarantine has been lifted and at this time there are no cases in town.

## FORDSON

More and more every day the demand for the Fordson Tractor increases because the Fordson has demonstrated so much usefulness, so much economy, so much labor saving, so much money saving, along so many lines of activity. The farmer has discovered that not only for plowing, harrowing, discing, seeding, mowing, reaping and threshing, but a multitude of other uses; cutting wood, feed, grinding feed, churning, washing, furnishing water in the house: making electric light possible in the house and around the barns; so that, as a matter of fact, there is hardly an hour in the day when the tractor cannot be made a profitable servant. There is ditching to do; there are roads to fix; and so on all down along the line of the numerous calls that constantly face the farmer, the Fordson steps in and does the work, shoulders the complete burden of the toil and the hard work, one might almost say "drudgery."

This is the Age of Machinery, the day when man plans the day's work, or the year's work, and then turns it over to the Tractor to execute. Get the book, "The Fordson at Work," because it is free. If you cannot call for it, write and we will mail it to you. The Tractor is not only a necessity to every farmer but it is an established utility along a great many commercial lines. Our allotment is limited to so many each month. Let's have your order now,

## Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Foreign Advertising Representative  
THE AMERICAN PRESS ASSOCIATION

Potlatch ridge will no doubt run largely to Duroc Jersey hogs since the shipment of registered Durocs was distributed among the members of the Boys' Pig Club in the Leland and Cameron communities the first of the week. You can get up an argument most any time among a crowd of three or four farmers, as to which is the best breed of hogs. However, there are four or five standard breeds and we believe they are all equally as good, providing good types of the particular breed are selected. There are good Durocs and there are inferior ones—and the same is true of any breed. The sows sent to the Boys' Pig Club, according to County Agent Skuse are not fancy stuff, but they are above the average and will make a good foundation for breeding stock for the Potlatch ridge community.

It is interesting to get a line on retail merchandise prices from neighboring towns and then compare them to the prices asked by your local merchants. There are means by which these prices can be secured and the comparison is then an easy matter. We feel utterly content with the prices Kendrick merchants are asking when compared to outside points, and confidently believe there is no other point in this territory where a greater effort was made by merchants to cut prices back as nearly as possible to pre-war standards, than right here in the Hub of the Potlatch. For instance, overalls have been selling here for the past few weeks for anywhere from \$1.75 to \$1.95 per pair. We know of other places where they are still getting \$3.50 for them.

We complain of high taxes and the injustice of the excessive income taxes etc, and yet they seem to be getting results. It is stated on good authority that 44 per cent of the net cost of the war, excluding foreign loans, has already been paid to date.

Believe in America as you believe in yourself. If you bet on America you are bound to win. If you bet against America you are sure to lose. American prosperity is a certainty, not a matter of speculation. Halt business depression. You can do it, and when you have done it, set to work to find the underlying causes of the trouble and correct them. You can correct them twice as quickly when times are good. You can't work well in a state of dread. Face this new year with inflexible determination to make it one of action. Your day has dawned. Shun the cellar and its gloom. Stand on the hilltop

and see the glory of the new born sun. Arise, and shine.—American Press.

It seems hard to understand just why it is that people consider it perfectly proper to stand off the doctor indefinitely and sometimes never pay him at all. If anyone earns his money it is surely the doctor, particularly when he has to

## Start The New Year RIGHT

By Starting a Savings Account and protect yourself against the "Rainy Day." \$1.00 will do it and entitle you to one of our beautiful steel banks.

By opening a Checking Account and thus systematize your expenditures. Every check is a receipt.

By insuring your home and buildings against fire. These long winter evenings with stoves that overheat and lamps that explode are hazards that should not be overlooked.

By renting a Safe Deposit Box for your valuable papers, Give them the protection against fire and loss they deserve.

By making this bank your headquarters when in town this coming year. Use our lobby, settees, desks, telephones—you're welcome.

We appreciate your business.

**TAXI**

AN ADVENTURE ROMANCE

By **GEORGE  
AGNEW  
CHAMBERLAIN**

COPYRIGHT THE BOBBS-MERRILL COMPANY

**R**OMANTIC, clever, ingenious, sprightly and dashing — a classic of gasoline and speed in which much blithe, some humor is blended with a charming love story.

Mostly about a young man who had too much money and too much time in which to spend it, but otherwise not enough employment. To remedy the deficiency, get a new angle on life and learn some things which he did not know about his beloved New York, he changed places with a taxi driver and learned plenty. Also the experience remodeled his existence, made him a worth-while citizen and brought aid to a number of people, among whom were several young women, who but for the timely intervention of the gasoline Sir Galahad, would have succumbed to the city's perils.

Then there was the case of the lovely girl born with a silver spoon in her mouth who lost it, became a chorus girl, recovered the spoon and — but you must read it — a new serial offering for these columns.

**YOUR LOSS IF YOU MISS IT!**

This Story will begin in Next Week's Gazette.

**MODIFY CATTLE  
RULES ON "T. B."**

That Shippers May Understand  
Restrictions Regulation Has  
Been Clarified.

**TEST EMIGRANT SHIPMENTS**

Registration of Temperatures Discontinued at Eighteenth Hour After Injection of Tuberculin—Heifers on Same Basis.

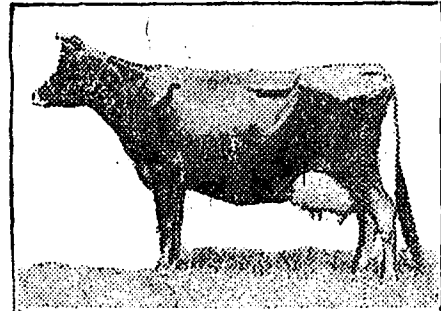

Modifications in the restrictions on interstate shipment of cattle imposed for the prevention of the spread of cattle tuberculosis are announced by the bureau of animal industry of the United States department of agriculture. In order that live stock shippers may more readily understand the restrictions, the entire regulation has been redrafted and the language clarified.

One of the modifications is for the aid of emigrants who live in sparsely settled sections of the country where it would be very expensive to have their cattle tested before moving them to another state. Such shipments usually do not pass through public stockyards, and veterinarians are not always available in such sections. The new regulation, therefore, permits emigrant shipments to be tested en route or at the destination. Permission to do so, however, must first be received from the bureau inspector in charge of tuberculosis eradication work in the state of destination, or from the proper state official.

Data gathered from the various state and bureau field workers, it is said, clearly indicate that the tuberculosis test can be shortened two hours without interfering with its efficiency. A modification, therefore, was made permitting the registering of temperatures to be discontinued at the eighteenth hour after the injection of tuberculin instead of the twentieth hour.

**Time Limit Removed.**

It was found advisable, too, to remove the time limit in which purebred

Jersey Cow With All Markings of a Good Milk Producer.

tuberculous cattle may be returned to their original owners. The present regulations require them to be re-shipped within four months. The redrafted regulation places heifers on the same basis as all other female cattle subject to the test.

**WEEVILS AND OTHER INSECTS**

Little Pests May Be Kept Out of Seeds by Use of Carbon Bisulfide—How to Treat Them.

Weevils and other insects may be kept out of seeds by the use of carbon bisulfide. Seeds should be treated once as soon as the planting season is over, which will protect them from weevil during the summer. The second treatment should be given in the fall before cold weather comes on. To treat seeds with carbon bisulfide, put them in a jar, tub or other vessel which can be covered tightly. Put in about one tablespoonful of carbon bisulfide for every 10 gallons of space in the enclosure. Allow the seeds to remain in the fumes of the carbon bisulfide over night, then take them out and place again in dry storage quarters.

**PUTTING ALFALFA INTO SILO**

Good Results Have Been Obtained Where Rain Interferes With Making Hay.

In sections where rain interferes with alfalfa hay making, good results have been obtained by putting the alfalfa in the silo. The most favorable reports state that the alfalfa should be in full bloom or fairly well matured before cutting for silage. It should be cut when the dew is on or wet from rain and hurried to the silo. Cut in short lengths, the finer the better, as it packs more firmly and keeps with less waste. When put into the silo before it becomes sufficiently mature, alfalfa makes a very sour silage and has a disagreeable odor. First crop alfalfa is preferred by most of the men who have tried alfalfa silage.

**CULLING IS CONTINUOUS JOB**

Breeder Who Waits Until Fall to Dispose of Poor Specimens Will Lose Money.

**BIG ACCOMPLISHMENT BY JUNIOR CLUB BOY**

Poland China Gilt Is Winner of Two First Prizes.

William Stuart of Weiser, Idaho, Awarded Free Trip to International Stock Show—Swine Breeders Are Defeated.

Does junior club work pay? Four or five years ago it was not looked upon seriously, but now the whole agricultural extension system as carried on by the federal government through the colleges and county agents, etc., is enthusiastic about this work, and the breeders themselves are beginning to believe that there is something in it. There is a reason for this, and that is that some of the boys are showing their fathers that careful selection and feeding will win out over slipshod or poorly planned methods.

A notable example of this is the case of William Stuart, the fourteen-year-old son of Dan H. Stuart of Weiser, Idaho. This boy has been in pig-club work for two years. He selected for himself early last season a

William Stuart and His Poland China Gilt.

Poland China pig for which he paid \$17.50. This pig was fed and shown at the Idaho state fair at Boise this year. There it won first prize for the champion pig over all club contestants in the state, which entitled him to the \$175 free trip to the International Live Stock Show. It next won the award of first place in the open class for Poland China sows under six months of age, in which competition he defeated the swine breeders of the whole state of Idaho.

William Stuart's father is not a breeder of purebred hogs, but simply raises a good grade of Poland China pigs for the market. Therefore this

**CONTROL OF GARDEN INSECTS**

Spraying With Solution of Arsenate of Lead Is Effective for Potato Bugs or Beetles.

Spraying with arsenate of lead will control potato bugs or beetles. This poison solution is made of one pound of arsenate of lead to ten gallons of water, with a little laundry soap added to make the solution stick to the leaves. Cucumber, muskmelon and squash beetles may be controlled by dusting the plants with air-slacked lime mixed with lead arsenate powder. When plants of any kind are attacked by lice Black Leaf 40 is generally used. Arsenate of lead and Black Leaf 40 can be purchased at any drug store and they are usually accompanied by directions for their use. Control of vegetable insects and diseases depends much on prompt action as soon as their presence is noticed. Spraying and other methods are necessary some time or other every year, for every plant in the garden is infected at some time with either a disease or an insect.

**WELL SELECTED CORN SEED**

Supply Should Be Set Aside at Time Crop Is Being Husked—Store in Dry Place.

The corn for seed should be selected and saved when it is being husked. Save no ears for seed which are not of medium size, fair, rows straight, even and of the standard color and borne at least two on the stalk. Seed corn should be spread out in the granary or on the top floor of the barn where it will keep dry.

**FALL GREEN BEANS FAVORED**

Superior Vegetable for Canning or Pickling—Red Valentine Is Always Tender.

Fall green beans are just the thing for canning or pickling as the continued cool weather is less apt to cause them to spoil. The Red Valentine is a favorite variety for fall planting as they come quick, are always tender and stringless, and yield heavily.

Bad Cold and Cough Cured by Chamberlain's Cough Remedy

Several years ago C. D. Glass, Gardiner, Me., contracted a severe cold and cough. He tried various medicines but instead of getting well he kept adding to it by contracting fresh colds. Nothing he had taken for it was of any permanent benefit until a druggist advised him to try Chamberlain's Cough Remedy. He says "I was completely cured by this remedy and have since always turned to it when I had a cold and soon find relief."

LOST:—Black yearling mulley heiter, no brands, part Jersey. \$5.00 reward. O. W. Henry, Cameron. Phone 28x2. 1-4t

## IF SERVICE

This week is not up to our usual high standard, will you please ascribe it to the fact that we are in the throes of a moving delirium. The worst will be over within a few days and we can then settle down to business and our Service will then be better than ever.

### PLAN TO MAKE YARD FOR POULTRY FLOCK

South Side of Building is Favored by Experts.

Height of Fences Will Need to Be Regulated by the Variety of Fowls—Hexagonal Wire Netting is Not Expensive.

If convenient, it is well to have double yards, for then one may rotate

green crops. Small yards may be sown to oats, wheat, rye, rapeseed, etc., but if large yards are available they can be kept in a permanent sod of bluegrass, alfalfa, or clover. While the fowls are using one yard the green feed in the other is getting a fresh start.

If the yards are to be on only one side of the house, they should be on the south side in order that the fowls may have the benefit of the first dry ground in early spring. It not infrequently happens that in localities where snow is abundant the ground on the south side is dry many days before that on the north side.

If the yards are to be in permanent

sod and are to furnish green feed for the fowls, 70 to 80 square feet should be allowed for each bird. If part of the green feed is to be provided for otherwise, and the yards used mainly for exercise grounds, 35 to 40 square feet for each bird will be sufficient, poultry specialists of the United States Department of Agriculture say.

Hexagonal wire netting, 2-inch mesh, is suitable for fencing and can be bought cheaply. Where several runs are adjoining, the fences may be boarded up at the bottom to a height of 2 to 2½ feet, or 1-inch mesh wire can be used in place of these boards, to prevent the males fighting one another. Height of fences will need to be regulated by the variety of fowls. The heaviest breeds, like the Brahmas, may be restrained by a 4-foot fence, while most of the other breeds can be kept in by a 6-foot fence. Some of the Hamburgs and leghorns, however, need a 7 or 8 foot fence. By clipping the flight feathers on one wing they can be kept in without much trouble. Gates should be provided in order to permit access from one yard to the next.

Shade of some kind should be provided, and this can often be advantageously furnished by planting fruit trees (such as pear, plum, peach, cherry and apple) in the yard.

### VEGETABLES GROWN IN FALL

Some of Pickling and Canning Stock Missed in Spring or Summer—Can Be Produced.

After the hot summer weather is passed, when the autumn rains have begun one should plan for the fall garden. There are many vegetables that will mature in a short time that are welcome additions to the bill of fare, and some of the pickling and canning stock that we failed to get in the spring or summer can yet be produced.

### GOOD CONTAINERS OF HIGHEST IMPORTANCE

Those With Handles Are Not Likely to be Changed.

Bamboo Baskets Serve Purpose Quite Satisfactorily and May be Used Long Time—Ordinary Splint Vessel is Good.

One important requirement for parcel post shipping and marketing is a proper and satisfactory container, the United States Department of Agriculture points out. Sometimes the consumer can secure containers more readily and economically than the pro-

ducer. Those with handles are much less likely to be damaged in transit in the mails than those which are not thus supplied and which are likely to be tossed or thrown or handled by the string or twine used in tying them. A bamboo basket serves the purpose very well and may be used a long time. Ordinary splint baskets made of strips of veneer may also be used, and if they can be secured at a price sufficiently cheap a new one for each shipment is more economical than having them returned, unless they are sent back in lots of ten or more under cover. This, of course, necessitates using them without a wooden handle in which case a heavy twine should be used for a handle. This twine can be uniled and the baskets nested, or placed in one another, for return shipment. If a basket with a wooden handle is used, care should be taken to see that it is securely nailed, not only at the rim of the basket but further down toward the bottom, so as to prevent undue leverage which may break loose the nailing.

### TIMOTHY HAY IN ROTATIONS

Farmers Find Crop Good Stand-by Where Alfalfa and Clover Fail to Make Good Stands.

Farmers who have begun to find difficulty in getting stands of clover and alfalfa find timothy hay a stand-by with which to round out their rotations and which assures a crop without demanding much labor.

### MOTHER NATURE RULES

"Mother nature is not interested in money and she holds the senior partnership in the cattle breeding business—great herds of beef cattle have been built on slender means and under obvious handicaps."—Breeders' Gazette.

### Leland Items

This morning it looks as if we might have a big snow yet—about four inches and still coming.

The meetings which are being held every evening are well attended. Faithful work is being done. Rev. Davis has charge of the music, which is good.

Mr. DeWinter has been indisposed for a week and not able to be at his place of business.

A miscellaneous shower was given Friday afternoon at the I. O. O. F. hall for Mr. and Mrs. Bob Draper. They were recipients of many nice and useful presents. Games were played and a general good time for all present.

Mrs. S. Hehtner has gone to Lapwai to visit her son.

The Ladies' Missionary Society met Thursday with Mrs. Arthur Locke. The business meeting was held. No program having been prepared a special prayer service was held, prayer for the success of the revival meetings. A lovely dinner was served by the hostess, Mrs. Locke, to twenty-five persons. All went away feeling that they had had a pleasant and profitable meeting.

Miss Heuermann, the county Red Cross nurse, has organized a class of girls here to take training, on Thursday of each week.

### Linden Items

Miss Carrie Allen went to Juliaetta, Friday, to visit her sister, Mrs. Jim Langdon.

C. H. Fry and family and Mrs. S. H. Fry spent Friday at the Shiner home.

J. Kight and family and Clyde Kight and family of Cavendish, spent the week end with Walter Kight and family.

The Hunt young people were Sunday visitors at C. T. Mulkey's.

Mr. and Mrs. Dagget departed Saturday for their home in Augusta, Maine, after a visit with her uncle, Mr. Brookings.

A large number of neighbors surprised the Kight family, Saturday night, by going to spend the evening. Games and dancing and a general good time was had by all present.

Mrs. Lou Alexander and Miss Edith Jenks spent Saturday afternoon with Eva Smith.

The Foster boys spent Sunday at the Gilchrist home.

Mrs. I. E. Long entertained a number of her neighbors, Sunday, the occasion being Mr. Long's birthday. Those present were: Messrs and Mesdames Zimmerman, Harry Wright, Winegardner, C. C. Wright, Taylor, Smith, Cummings, Langdon, Fred and George Crocker, Arlie Allen and John Darby.

### Not If As Rich As Cresus

If you were as Cresus you could not buy a better remedy for constipation than Chamberlain's Tablets. They are easy and pleasant to take and when the proper dose is taken produce a mild and gentle effect. They also strengthen the digestion.

# Public Auction

I will sell at my place, 4 miles south of Leland and 2½ miles north of Agatha, on the Agatha grade, known as the Easterbrook farm, the following described property, sale commencing at 10 o'clock, on

## Tuesday, Jan. 18 LIVESTOCK

Bay mare, weight about 1300 pounds, age 5 years; black horse, weight 1150, age 8 years; bay mare, weight 900 lbs, age 8 years; black mare, weight 850 lbs, age 8 years; yearling filly, weight 900 lbs; one sucking colt.

Fresh milk cow with calf, age 3 years; fresh Holstein cow, age 5 years.

One brood sow and 7 shoats weighing about 80 lbs each.

## FARM IMPLEMENTS

John Deere binder, nearly new; John Deere double disc harrow, good as new; 2-section harrow, fanning mill almost new; 3¼ inch wagon, steel runner sled, 16 inch sulkey plow, 14 inch walking plow, 3¼ inch steel truck wagon, 2 horse cultivator, bob sled, Chalmers car, double set heavy breeching harness, set of plow harness, Peerless incubator, 129 egg capacity; 30 tons alfalfa and grain hay, 15 tons straw and corn fodder, more or less, and other articles too numerous to mention.

# WE GREET YOU

## This New Year of 1921

We all feel better for having lived to see the New Year ushered in. The sages tell us that we will soon be on a normal and substantial basis again.

Many things have favored us. Among them is a mild winter, taking less clothing and less fuel; a prospect of an early adjustment of many Questions of vital importance to us as a community and as a nation, and by reason of some good means the entire country is void of the FLU. Surely we have enough to scare pessimism away and all be optimists. So, with this in view, let us all put our shoulders to the wheel and assist every good enterprise.

We are ready, or will be as the season advances, to fill your requirements in all of the varied lines we carry. You will notice an appreciable decline in a number of articles we are offering you.

Please remember that we will be pleased to honor your orders received by phone or mail, or execute any errands for you.

We await your commands.

Grass seed will be much lower this year. Why not sow some clover or alfalfa and build up your land? Plow less and raise more on less ground. Conserving the soil is like putting money in the bank.

Yours for the best year yet,

**The Kendrick Hardware Co.**

## GLEANINGS

George Riggan returned from a business trip to Lewiston, Thursday.

The Ladies Aid of the Methodist church is giving a Hard Times party in Epworth Hall, tonight. Heavy fines will be imposed upon anyone who attends the party in respectable looking clothes.

Julius Petrick was in Juliaetta, Thursday afternoon, on business.

A number of Masons from Juliaetta attended the meeting of the local fraternity here Thursday night. The evening was devoted to degree work.

Hank Bleck was a Lewiston visitor Thursday afternoon.

Jesse Hoffman, Ford Parks and J. M. Woodward of Leland, went to Lewiston Thursday on business.

The boys basketball game Saturday night will start promptly at 7:30 in order not to conflict with the picture show at the Grand Theatre. The show will start at 8:30, right after the basketball game.

G. F. Walker is convalescing from quite a severe attack of rheumatism. For a week or more he was not able to look after his business affairs but he was up the first of the week and is now getting along nicely.

Officers of Canyon Post No. 66 of the American Legion stated this week that they have about fifty names pledged as members of the Club to be organized here under the auspices of the local legion post. Fred Bolon and Jack Bechtol say they expect to have the club organized within two weeks.

A. Wilmut went to Spokane, Thursday, on business.

G. H. Dougherty of Juliaetta was transacting business in Kendrick, Thursday.

M. Bleck, who has been quite seriously ill, is reported to be recovering.

Schupfer and Deobald returned Thursday from a business trip to Nez Perce and Lewiston.

Mrs. Ira Gentry and two children returned, Wednesday, from a visit with relatives in Missouri. They have been away several months. Mr. and Mrs. Gentry talked some of moving back to Missouri early last fall, but since Mrs. Gentry visited there a while she decided that Idaho was the better place to live.

Chef Melvor and Jesse Rich of near Southwick, were Lewiston visitors the first of the week.

Mrs. Charles Weber of near Deary was shopping in Kendrick last Saturday. The Weber family rented the Fred Beyer farm on the upper end of Big Bear ridge and moved there last fall from their ranch in Bear Creek canyon.

Mr. and Mrs. R. F. Bigham spent Sunday near Troy with their son, Robert, and his family.

Mr. and Mrs. Stuart Compton returned from Kamiah the first of the week where they have spent the past month or more. Mr. Compton had charge of two store sales there.

Al McKee of Lapwai was a Kendrick visitor, Monday. He was looking after his land interests here.

Martin Thomas returned from a visit to Lewiston the first of the week.

Miss Josephine Zoyer, formerly of Kendrick but recently from Spokane, is setting type for the Troy News. Miss Zoyer learned to be a compositor in the Gazette office several years ago.

The American Legion is advertising a dance for Friday, January 21, to be given at the Fraternal Temple.

It will be greatly appreciated by Walter Kline if the party who borrowed his overcoat several weeks ago from the Kendrick Hotel, will return same at once. Walter is blind and not very well fixed financially, so the loss of the coat means quite a bit to him.

Since the drop in lumber prices there has been some building talk in Kendrick. Parties who have had in mind for some time the building of a residence, but postponed it on account of the high prices for material, will no doubt feel considerably encouraged since the recent decrease in prices. Some grades of lumber dropped \$25 a thousand the first of the year.

M. B. McConnell was in Lewiston the first of the week on business.

County Agent Scuse of Nez Perce county, was in Kendrick Tuesday to look after the unloading of five registered Duroc sows, which were sent by Armour & Co. from Spokane to the boys' pig club of Potlatch ridge.

E. H. Dammarrell stated the first of the week that the larger percentage of foodstuffs is now practically back to a pre-war basis, and that

living expenses can be kept within a very reasonable figure if people buy right.

The Kendrick High School basketball team will play at Lewiston tonight, against the high school team of that place.

The Gazette was wrong last week in stating that Potlatch creek was the highest known at that time of year. According to several of the pioneers it was much higher January 12, 1900. At that time it ran over the banks of the creek and flooded the town.

John P. Roos of the Gifford Store Co. arrived Wednesday to transact business here.

The J. T. Moser family of Lewiston are quarantined at their home on account of smallpox. The last report was that all of the family except the Doctor were ill with the disease, although Bernadine had practically recovered from it.

Miss Dorothy Odem of Winchester, Idaho, is visiting her grandparents, Mr. and Mrs. C. L. Guy.

Next Thursday evening the Epworth League will give a "Backward Party" in Epworth Hall. A small admission will be charged and a fine time, including refreshments, will be the order of the evening. All young people and friends of the League are cordially invited.

Mrs. Frank Roberts and daughter were Moscow visitors Tuesday.

### Big Bear Ridge

The annual business meeting of the Big Bear Ridge Red Cross branch was held Saturday afternoon. Officers for the ensuing year were elected as follows: Mrs. D. J. Ingle, president; A. N. Rognstad, vice president; Johanna Hooker, secretary; Mrs. N. E. Ware, treasurer.

Mrs. Ole Lien was visiting friends in Moscow last week.

Mr. and Mrs. Hartwick Nelson were visitors at the Neils Nelson home on Little Bear ridge last week.

Mr. and Mrs. Jim Galloway of St. Maries are here visiting Mr. Galloway's sister, Mrs. Otto Alber and other relatives.

Miss Claribel Ingle returned to Clarkston, Wash., having spent the holidays at home.

A crowd numbering over fifty attended the social dance at the home of Mr. and Mrs. Frank Glaser, Saturday evening. Everyone reported a very good time.

Mrs. Emma Gladden has moved to her new home in Deary.

The Christian Endeavor topic for Sunday evening, January 16th is: "Self Control; How to Get It; It's Reward." 1 Cor. 9:24-27. Thorwald Nelson will be the leader. Time, 7 o'clock as usual.

Otto Gladden and Rhineheart Hecht are spending the week in Spokane.

### SHRINKAGE OF GOOD HAY DOES NO INJURY

Shrinkage occurring in good market hay is due almost entirely to a loss of water, which has no feeding value, say specialists of the United States bureau of markets. Such shrinkage seldom

Loss of Water Causes Shrinkage in Weight of Hay, but Does Not Injure Feeding Value.

causes an actual money loss to the farmer, because any loss in weight in baled hay is borne by the shipper, who usually receives the hay as soon as it is baled.

If the shipper stores baled hay for speculation, there often will be a money loss caused by shrinkage, because he has purchased an excess amount of water.

There is practically no loss of dry matter in market hay that has been properly cured. Proper curing is indicated by a bright, natural green color. Improperly cured hay may lose dry matter, but such hay is not in demand in any of the terminal markets.

The water content of hay at different periods of curing and storage, methods of making hay to prevent excessive shrinkage in storage, methods of determining shrinkage on individual farms, and other general shrinkage information of interest to all agencies engaged in the production and market-

ing or market hay is given in a publication soon to be issued by the department of agriculture.

### Teakean and Cavendish

A crowd numbering thirty people surprised Mr. and Mrs. Ed Choate last week. Games and music served to pass the evening very pleasantly. Refreshments were served at a late hour.

A number of young people spent Sunday with Mrs. Edith Kelley and family. They report a very enjoyable time.

Mr. and Mrs. Jim Crutcher spent Sunday with the George Wells family.

Born last week to Mr. and Mrs. Will Reece, a ten pound boy.

The daughter of Mr. and Mrs. Shoemaker has been ill with chickenpox.

Miss Thelma Blatckburn has been ill for the past week but is feeling better at this writing.

Miss Loletta Hall has been on the sick list for some time.

The two Teakean school teachers returned from Moscow last week to again begin their school work after a two week's vacation.

Mrs. Edith Kelley was in Orofino Saturday on business. She had bad luck and had two breakdowns on the trip. This doesn't speak very well for the roads.

Miss Mary Clay has been ill for some time.

I wish to thank my kind friends and neighbors of Southwick for the generous present I received for Christmas, and hope that they will all have a most happy year in return for their generosity and thoughtfulness. Mrs. Minnie Bunger.

Children need eye attention. See Dr. Schilling here January 17, Guy Hotel.

### For a Persistent Cough

Some years ago H. P. Burbage, a student at law in Greenville, S. C. had been troubled for a long while with a persistent cough which he says, greatly alarmed me, causing me to fear that I was in the first stage of consumption." Having seen Chamberlain's Cough Remedy advertised he concluded to try it. "I soon felt a remarkable change and after using two bottles of the small size was permanently cured."

LOST: Two hounds, one large black and tan, one small tan color. Please phone or if coming to town bring them in and receive pay for your trouble. Frank Crocker, Kendrick, Idaho. 2-2p

Don't let your children starve. Malnutrition is result of wrong diets. See Dr. Schilling, Guy Hotel, January 17. 2-1

Because of the drop in price of sugar, our candy prices have been materially lowered. Electric Bakery and Cafe. 2-1t

LOST: yearling Short-horn heifer, red, white in forehead, branded 30 on right hip. Wm. McClelland, Southwick, Idaho. 1-2t

### W. O. W. Notice

All Woodmen and their families are requested to attend an open meeting on Wednesday next, the 19th of January, at 8 o'clock. There will be a musical program in addition to which a play will be put on entitled, "A Royal Initiation", by neighbors of White Pine Camp No. 204.

Refreshments will also be served. Altogether you are in for a jolly good time. 2-1

### Saturday Night

We will show

### "Todd of the Times"

The story deals with newspaper life, and altho at times dramatic license has been used, in the main this picture gives a good indication to the public of the average newspaper man's work.

Show begins immediately after the basketball game

8:30

Usual Admission

The Grand

# Prices Re-constructed

By that we mean sell goods on the basis of present market costs. To convince you that we have reduced our prices you are invited to come in.

Brown Silvertone 50 inches wide, all wool with blue silk shading, very beautiful. Former price reduced from \$8.95 per yard to **\$6.45**
