

Over The County

Troy News: Last Tuesday evening George Rouse went from his barn to his house and secured his milk bucket to go and pail the bossie. George stepped on the linoleum on the kitchen floor with wet shoes and no sooner done than his feet took the position in the air where his head had been and he fell across a chair. He got up, naturally, and went on to the barn to finish his evening work, but when he went to stoop over he met with a sudden pain and heard some bones that sounded like they were passing one another. He went to the house and called a physician and it was soon learned that he had broken two ribs.

Deary Press: The lyceum committee has contracted with the Ellison-White bureau for next winter's lyceum course. This time they took five big numbers constituting one of the bureau's best circuits. The lecturer will be Strongheart, a full-blooded Indian, whose eloquence is stirring the country from center to circumference. The musical and dramatic numbers are of the best. The people may confidently look forward to a series of fine entertainments this winter.

Announcement has been made by Miss Ethel Redfield, state superintendent of public instruction, of the amount of state school money due the several counties of the state. Latah county's share for this year is \$10,987.96. The apportionment is made according to the number of children of school age in each county. The money is derived from interest from investments of the school endowment fund.—Genesee News.

Banker Sells His Wheat

Despairing of wheat prices advancing and fearing a further decline, H. Melgard, president of the First Trust & Savings Bank of Moscow, sold his wheat Tuesday, for about \$1.20. Mr. Melgard has been studying conditions both here and abroad and came to the conclusion that the price is more likely to decline than to advance, and disposed of his share of the grain raised on his farm lands.—Star-Mirror.

Southwick Items

Protracted meetings began at the U. B. church Sunday evening.

Hiram Alber, Julius Hoppe, Link Tabor, George Baker and John Mabry went on a fishing trip lately and succeeded in catching two big fish about 6 inches long.

John Stalnaker also took himself to the river recently, but his wife tells us he would have been ahead in the number of fish secured if he had purchased a can of sardines at the store.

Mrs. Calvert has been in Juliaetta visiting friends and relatives.

Mr. and Mrs. Rollin Kirk and little son and Claud Baker left here for Kansas last Monday.

A very good program and pie social was given at the Golden Rule school, February 4th, the proceeds derived therefrom will go to purchase an organ. The amount raised was \$28.85. Miss Stella McClelland and patrons of the school have every reason to feel proud of the children for excellent work and spirit.

Miss Thane and Lee McFadden of Cream ridge were over for the pie social, Friday evening.

Mr. and Mrs. John McFadden and sons, James and Foster, of Cream ridge attended church here Sunday evening.

Miss Lottie Wright is recovering from her illness of pneumonia.

Mrs. Cook, Mrs. Ben McCoy's sister is here for a visit.

Mr. and Mrs. Floyd Russell and children have been visiting friends and relatives on Cream ridge.

Mr. and Mrs. Harry Smith of Leland came up for a visit with relatives, Saturday evening, and returned home Sunday.

Mr. and Mrs. R. G. Faris and daughter, Frances, visited with the Winters family, Sunday.

H. S. Play a Success

The play, "Brown Eyed Betty", put on by twelve of the high school students last Friday evening, was a great success. The young folks entered into the spirit of the three act comedy in a most highly pleasing manner. While all of the parts were well carried out, there were several characters exceptionally well handled.

Miss Hood deserves the credit of training the young people, instead of Miss Little as stated in last week's paper. She has had considerable experience in this line of work and the success of the play is largely due to her efforts.

Approximately \$65 was netted from the receipts at the door, which is almost enough to pay for the new gymnasium floor. The price of 35 and 50 cents proved popular and a large crowd attended the entertainment.

Wheat Growers to Meet

Several meetings will be held in this community by members of the Washington-Idaho Wheat Growers Association, to organize this corner of the county. It is planned to thoroughly organize Latah county and the meetings are being held with this object in view. Officers of the Association state that they will have over 50 per cent of the wheat in the Inland Empire signed up before next harvest.

The first meeting will be held in the City Hall in Kendrick, tomorrow, Saturday, at 1 o'clock, and on American ridge at the school house the same evening at 7:30. On February 14, Monday, there will be a meeting on Texas ridge in the evening at 7:30. The meeting on Little Bear ridge will be on the following day, Tuesday, February 15 at 7:30 p. m. Big Bear ridge will hold a meeting on Wednesday, February 16 at 7:30 p. m.

Meetings will also be held at Leland and Southwick, February 18 and 19 respectively.

All wheat growers are invited to attend these meetings. Prominent speakers of the Association will be present.

Big Bear Ridge

Miss Georgianne Suppiger spent the week end at her home in Moscow.

Mrs. H. O. Field and son, Lief, of Moscow, and Mrs. L. Bronson of Chicago, Illinois, were week end visitors at the A. Hooker home.

Mr. and Mrs. Halvor Lien spent Saturday and Sunday at the H. Dahlberg home in Deary.

The Christian Endeavor topic for Sunday evening, February 13th, will be: "Thy Kingdom Come. In My Home". Matt. 6: 7-15. Percy Ware, leader.

Mr. and Mrs. Fred Black and son, Clifford, of Moscow, were visitors at the N. E. Ware and A. Hooker homes the first of the week.

R. W. Bigham of Troy spent Wednesday with friends here.

Dance Met Obstacles

For a while last Friday it began to look as though the American Legion dance would have to be called off. At three o'clock in the afternoon word was received that lights would be turned off at midnight for repairs. This difficulty was surmounted by Schupfer & Deobald who connected the Fraternal Temple wires to storage batteries in the garage.

At 3:30 a call came from Arrow Junction saying that the Orchestra was stuck in the mud in their car and couldn't get here. However, the A. L. boys had transportation facilities ready in a short time and at the appointed hour the dance was in full swing.

The next dance will be held on Friday, February 18.

A. G. Wilson, clerk of the Pine clerk school Board received notice that Florence Bradshaw, passed the 8th grade examination held recently, with an average of 95, which is an exceptionally good grade.

Running the Gauntlet

Koepf's Entertain at "500"

Last Saturday evening the Herman Koepf home near Leland was the scene of a most enjoyable card party. There were fifty-four present and eight tables were devoted to progressive "500". After an interesting "session" with the cards Mr. and Mrs. August Wegner were decided the victors and presented with the prize. John Vincent and G. Hogrefe had their feelings somewhat appeased by receiving consolation prizes.

Mrs. Koepf is famous all over the Potlatch for her splendid dinners and the lunch served on this particular occasion was no exception to her past achievements. It is needless to say that the refreshments were greatly enjoyed.

Miss Woller of St. Paul, Earl F. White of Lewiston and E. L. Seljards of Strites were the only guests present, outside of the Leland community.

Fined For Killing Deer

Deputy State Game Warden L. E. Brooks went to Linden the first of the week and caused James Farrington to be haled before Justice of the Peace Starr on the charge of killing deer out of season. Mr. Brooks found two fresh deer hides at Mr. Farrington's place, which was sufficient evidence to cause the latter to plead guilty to the charge. The court placed the fine at \$100 and costs to the amount of \$3. The amount was paid by Mr. Farrington.

Texas Ridge

Lloyd and Goldia Baker of Greer are visiting on the ridge.

Mr. Frantziak and wife visited at the George Drury home Sunday.

Smith and George Eacker were on Bear ridge a few days last week helping Mr. Whybarck haul saw logs.

A number of young folks helped Elsie Weber celebrate her sixteenth birthday, Saturday evening. Those present report a jolly good time.

Mr. and Mrs. Harry Baker, Mrs. Viola Baker and family, Mr. and Mrs. Ogden and children and Mr. Knudson were highly entertained at the Mel Eatman home, Thursday evening.

Mrs. John Gentry is on the sick list, Dr. Faust was called, Monday.

Mrs. Viola Baker called on Mrs. Moore, Sunday.

Sam Sturman and wife, Mrs. Bogar and daughter, were callers at the Miller home, Sunday.

Mrs. George Eacker is on the sick list this week.

We understand that Harry Baker is contemplating starting a goat farm. We wish you success, Harry.

Neighbors and friends of Grandpa Vansco, gathered at the Ogden home, Tuesday afternoon, to help Grandpa celebrate his 73rd birthday. After refreshments were served they all left for their homes wishing Grandpa many more happy birthdays.

Mrs. Ogden entertained Mae Weber and Mr. Knudson at lunch, Sunday evening.

Perryman's Confectionery

W. A. Perryman opened his new confectionery, Wednesday of this week. It is a store of which anyone might well feel proud. A splendid marble fountain and backbar of the latest model is installed in the front. The fountain has an automatic electric carbonator, electric mixer and an electric water heater. Mr. Perryman says he can make several cups of chocolate in 45 seconds with the electric water heater.

He has put in a large stock of fine candies and cookies and expects to keep everything along that line which the trade demands. Along with his other fixtures he has installed a big Brunswick phonograph for the enjoyment of his customers.

The remark has been made a number of times this week that the new confectionery is the best thing of its kind Kendrick has ever had and is a credit to the town. Mr. Perryman has had enough experience in the confectionery business to make his success assured.

Starr-Wilson

Mrs. Lillian Starr, daughter of Mr. and Mrs. Zimmerman of Crescent, was married to Mr. Stuart Wilson, son of Mr. and Mrs. A. G. Wilson, the ceremony occurred at Lewiston, Monday, and was performed by the probate judge. Miss Elsie Zimmerman, sister of the bride, and James Wilson, brother of the groom, accompanied, the happy couple to Lewiston and were present at the wedding.

McGuire-Lehman

Miss Tula McGuire, daughter, of Mr. and Mrs. E. L. McGuire of Kendrick, was married at Clarkston Tuesday evening to Mr. O. W. Lehman of Clarkston. The wedding occurred after church Tuesday at the residence of Rev. Garber. Mr. and Mrs. Lehman will make their home at Clarkston for the present.

Mrs. Lehman was a senior in high school this year and was a good student. Her marriage was the culmination of a friendship formed when she and Mr. Lehman lived near Teakean a year or so ago.

Teakean and Cavendish

Ray Garrison and family visited at the B. S. Adams home last Sunday.

Meetings were held in the Cavendish church last week by Rev. F. O. Sapp. They closed Saturday.

There was a dance at the home of Mrs. E. Kelley last week which was well attended.

Helen and Lyle Adams were home from Orofino three days last week as their school had closed down on account of smallpox, there being a number of cases there.

The meetings scheduled to take place at the Brethren church at Teakean, were called off on account of the illness of the minister.

Mr. and Mrs. Miller from Oregon are visiting relatives in this part of the country for a few weeks.

Trustees Visit School

E. W. Lutz, N. E. Walker and Harry G. Starton, members of the Kendrick school board, visited the school Tuesday morning and found conditions very satisfactory, although the primary grades and high school are rather crowded with the present teaching force. Miss McKinnon, primary teacher, has over fifty pupils in her room and the four year's high school course is being handled by three teachers counting the principal. This condition is unavoidable, however, as it is impossible to increase the teaching force with the present available funds. The members of the board together with Prof. Morrison are doing everything in their power to keep down expenses with the least amount of injury to the efficiency of the school. The funds are limited and the finances of the school are being handled accordingly.

Married in Spokane

Asotin Sentinel: The marriage of Mr. Marvin R. Vincent of Leland Idaho and Miss Myrtle M. Hoskins of Agatha, Idaho, was solemnized in Spokane Tuesday evening, February 1. The bride is a granddaughter of Mr. Chester Shumaker of this place and is quite well known in Asotin as some two or three years ago, for a considerable time served as assistant treasurer in the office of the County Treasurer. The groom is a well known farmer in the Leland section and the residence of the couple will be made in that vicinity. The many friends of the bride, in this vicinity, will take great pleasure in extending best wishes for a very happy married life.

Leland Items

There was a large crowd present Friday evening at the Community Club. The meeting was presided over by Mrs. Jesse Hoffman, president of the club. K. B. Farks was called on to explain the aim of the club. He said in part "Its aim is to train our young people and children to intelligently appear before the public. To promote sociability and a friendly community spirit."

The school gave a short program consisting of songs and recitations. Miss Huermann, the County Red Cross Nurse, was present and gave a very interesting talk on her trip to Russia and Siberia and her work there as a Red Cross Nurse.

It was decided to hold the club meeting every two weeks instead of once a month as first voted. The school to furnish part of the program and the community a part. R. B. Parks, Jesse Hoffman and Mrs. Goudzward were appointed as program committee.

Refreshments consisting of sandwiches, cake and coffee were served and a good social time enjoyed by all, proving that the club is a promoter of sociability.

The missionary society met February 3rd, at the home of Mr. and Mrs. Ed Flesham, Jr., the business session was held in the forenoon. The lesson for study in the afternoon was New Orleans. Mrs. Jesse Hoffman gave a very interesting talk on the history of New Orleans. Mrs. Clifford Powell on "The Old French Quarters; Its need of Redemption". Mrs. J. A. Hall on "Establishing Righteousness within its Gates".

There were fourteen members and eight visitors present. A lovely lunch was served at one o'clock by the hostess, Mrs. Flesham.

This being Mr. and Mrs. Flesham's twelfth wedding anniversary, they were the recipients of many nice and useful presents.

Rev. Hall went to Gilbert, Monday to assist Rev. Davis in the revival meetings.

Mr. and Mrs. Elbert Kuykendall are the proud parents of a baby boy, born Monday morning.

Dr. and Mrs. Stoneburner entertained a number of their friends at dinner, Tuesday evening. The occasion being the Doctor's birthday. The Doctor's treat, aside from all the other good things to eat, was baked clams and judging from the amount consumed everyone enjoyed them. Those present were: Messrs. and Mesdames R. M. Smith, Robert Smith, Joe Thornton, Jake Berriman, Oylear, Mrs. J. A. Hall and son, Claude.

Chase Bootleggers

Star-Mirror: After an exciting day and night chase through deep woods, and over portions of two counties, Latah county deputy sheriffs have landed Charles Swecker and Andrew Olson in the county jail on a charge of manufacturing liquor. A well equipped still and several gallons of what is claimed by the officers to be the "best moonshine we have ever seized" were captured and are being held as evidence. It is believed by the officers making the arrests, Charles Summerfield and Pat Malone, that this arrest is an important one in breaking up illicit liquor manufacture and traffic in the timber near Bovill and Deary, where liquor has been dispensed freely during the past several months.

The officers went to Deary and searched the homes of Swecker and Olson, and claim to have found one quart of whiskey and a number of empty bottles that had contained the liquor. They left the homes of the men wanted and started for the old Swecker homestead, which has not been occupied for some time. They found evidence of hasty removal of a lot of barrels and other equipment believed to have been used in making liquor.

Returning through the woods the officers heard two men talking and threw a flash light onto them. The men fled and as they crossed a small bridge the officers heard a splash and investigation disclosed a gallon jug of good liquor that had been thrown in the creek. This was rescued. The trail was followed through the woods to the home of "Chuch" Wells, a negro, whose cabin was searched but the men were not found. The officers claim that Wells had the men hidden in his barn and a warrant was today issued charging him with assisting criminals to escape and "obstructing officers in their line of duty."

Returning to Bovill, traveling part of the time through snow on foot and part of the time in a sled, the officers learned that Swecker and Olson had eaten an early breakfast there and had left on foot. The two officers waited for the afternoon train leaving Bovill at 4 o'clock on the Milwaukee, and boarded it. At Clarkia the two men wanted boarded the train and were promptly placed under arrest. Each was heavily armed with an automatic pistol, but they submitted without resistance. They were taken to St. Maries and kept over night and returned to Bovill by train.

"Both men confessed that they had been making whiskey for months and had sold from \$250 to \$500 worth a month in Deary, Bovill and the logging camps, and they took us to where they had hidden the still in a slaughter house and dug up 3 1/2 gallons of double-distilled whiskey, that is the highest grade moonshine we have ever captured," said Charles Summerfield, deputy sheriff. The men were brought from Deary to Moscow by team and lodged in the county jail. "These men had walked 32 miles, part of the way through snow three feet deep, from the time we first met them in the woods and they escaped, until they boarded the train at Clarkia at 5 o'clock the next evening," said Deputy Sheriff Summerfield, "and they were completely tired out. We followed them on foot, in a sled, and by train and we, too, were pretty tired after the all night and all day chase.

The men were taken before Judge Steele, of the district court Monday morning and entered pleas of guilty to the charge of having liquor in their possession. Swecker was fined \$50 and sentenced to 60 days in jail and Olson was fined \$100 and sentenced to 60 days in the county jail. They begin serving their sentence at once. It is understood they will pay the fines at the expiration of the jail sentence.

This is a good time to pay that Gazette subscription, when you haven't much of anything else to do. If it's due, do it now.

Do you know why it's toasted

To seal in the delicious Burley tobacco flavor.

LUCKY STRIKE CIGARETTE

Linden Items

The home talent play, given at Gold Hill, was well attended, people coming from Leland, Cameron, Southwick, Cavendish and Park. Those who cared to, stayed and danced, all having a merry time.

Mrs. Clarence Fry, after an attack of typhoid fever, is able to be up and around again.

Ramie Hunt, who is working at Long Meadow, spent Saturday and Sunday at home.

Roy Bohn went to Lewiston, Mon-

day, on business.

Mrs. Pearl Alexander spent Saturday afternoon at the Vaughan home.

Mr. and Mrs. Dick Winegardner visited at Leland Saturday and Sunday.

Mrs. Lillie Starr and Miss Elsie Zimmerman came home Friday, to visit.

Mr. and Mrs. Rube Garner and Charlie, spent the week end with home folks.

Miss Frances Sutton left Saturday for Lewiston, to take medical treatment.

Mrs. C. H. Pippenger visited Friday and Saturday at the D. McPhee home.

Mrs. Frank Lyons was able to attend the play.

Word was received this morning that Miss Eva Smith is getting along nicely.

There will be a pie sale after the literary at the Gold Hill hall, Friday night, February 18. The proceeds will be used to pay for the equipment for the hot lunches.

Effects of Constipation

Constipation causes a stoppage of the sewerage system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by constipation.—Adv.

Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

A man with a boil feels more downhearted than one with smallpox; and a farmer who has three crops of beans on his hands is several shades bluer than those who are holding their wheat.

If talking good roads would get results the Potlatch country ought to have the best system of roads anyone could wish for. It is to be hoped that discussions will some day come to an end and united action take their place.

There are two kinds of people in every community those who lift and those who lean. The lifters predominate in Kendrick.

If ever a fool-killer was needed it is now and he should be sent the rounds of the state legislatures. He could begin at Olympia, where a fool legislator introduced a bill to prohibit marriages in the state by forcing those planning to marry to "publish the banns for 15 days before applying for the license."

From Olympia the F. K. should jump to Boise and assassinate the author of the new game law that proposes to make every owner of a bird, a rabbit, a dog, a gun, a fish or enough money, to buy a hunter's license in his state; and the author of a fool bill to place all swimming, dancing and automobile parties under the direct supervision of the department of public welfare.

This bill would forbid any public or private dancing parties until a permit is secured from the public welfare committee, and no one would be permitted to ride in automobiles after 9 o'clock at night. Failure to comply with the provisions of this law is punishable by a fine of not to exceed \$200 or imprisonment for not less than 30 days nor more than one year.

And yet people wonder why Americans are losing their respect for laws and the courts and officers that enforce them.—Star-Mirror.

If we were going to seed a field to alfalfa there are two things that would be done before seeding—partially from an experimental point of view but largely because we have the utmost faith in the effectiveness of the treatment. First we would give the soil a good dose of land plaster. The reason why we believe land plaster to be necessary to produce a good crop of alfalfa is because we have seen alfalfa growing under most favorable conditions in the Potlatch—plenty of moisture, sunshine and the best of soil, and yet it was very short and

"spindley". There was evidently something lacking in the soil, and as the experiment with land plaster last year by Frank Roberts of American ridge, proved so eminently satisfactory, it is fairly good evidence that Potlatch soil needs this commercial fertilizer to produce heavy crops of alfalfa year after year.

The second treatment would be the securing of "cultures" from the agricultural department of the University. This is no longer an experiment—it gets results. The increased yield on the first crop would more than offset the additional expense of the two treatments.

Methodist Church

Howard W. Mort, Pastor

Meetings have been progressing nicely at the church. Quite a number of young folks have signified their desire to be Christians. Sunday night will probably be Mr. Greene's last night here so we hope the people of Kendrick and vicinity will avail themselves of this opportunity.

Sunday school at 10 a. m.
No morning worship.
Epworth League 6:45 p. m.
Evening service at 7:30 p. m.
The pastor will be absent over Sunday taking charge of the evening service in Lewiston for Brother Greene.

Presbyterian Church

Robert M. Hood, Minister.

During the special meetings at the other church, we are giving up our evening service, but will hold the morning preaching service at 11 o'clock. An offering for Home Missions will be taken at this time. As this is a very important cause, all members and friends are requested to bring or send an offering. Let's make this as liberal as we can.

Children! Don't forget the Junior C. E. at 3 o'clock, and Sunday school at 10:00.

Ladies Aid meets Wednesday afternoon with Mrs. John Kite.

These are the days of lanterns in the barn night and morning. It is well to remember that this little flickering flame has in it the power to destroy your home and all you have brought together in a lifetime. So never set it down in the barn, but hang it up securely. A wire running the length of the barn with a common harness snap on it, makes a safe holder. Better still, is an electric light system!

INCREASE OF DRAFT HORSES

Larger Number on Farms Shows How Agricultural and Transportation Needs Are Growing.

The United States census for 1910 revealed 19,833,000 horses and 4,210,000 mules on farms. The Department of Agriculture estimate for January 1, 1920, shows 21,109,000 horses and 4,995,000 mules on farms, or an increase of 1,276,000 horses and 785,000 mules in the last decade. Besides this we exported, during the nine years ending June 30, 1919, 1,140,763 horses and 376,836 mules. The rise in prices for good draft horses and mules, in spite of the existence of more than 21,000,000 horses and almost 5,000,000 mules on farms, indicates how agricultural and transportation needs are growing.

Starr-Wilson

Mrs. Lillian Starr, daughter of Mr. and Mrs. Zimmerman of Crescent, was married to Mr. Stuart Wilson, son of Mr. and Mrs. A. G. Wilson. The ceremony occurred at Lewiston, Monday, and was performed by the probate judge. Miss Elsie Zimmerman, sister of the bride, and James Wilson, brother of the groom, accompanied, the happy couple to Lewiston and were present at the wedding.

Teakean and Cavendish

Ray Garrison and family visited at the B. S. Adams home last Sunday.

Meetings were held in the Cavendish church last week by Rev. F. O. Sapp. They closed Saturday.

There was a dance at the home of Mrs. E. Kelley last week which was well attended.

Helen and Lyle Adams were home from Orofino three days last week as their school had closed down on account of smallpox, there being a number of cases there.

The meetings scheduled to take place at the Brethern church at Teakean, were called off on account of the illness of the minister.

Mr. and Mrs. Miller from Oregon are visiting relatives in this part of the country for a few weeks.

Announcement To The Public

The new confectionery, in the building formerly occupied by Stanton Bros., is now open for business, and we most respectfully solicit your patronage. We will be glad to have you drop in and get acquainted. It will be our aim to make this store the pride of the Potlatch and with your hearty co-operation we can do it.

FORDSON

For thirty-five years Henry Ford, a farmer's boy, has been working on the problem of a successful tractor for the farm, and for the past fourteen years has devoted much time and a vast amount of money to the development of the present Fordson Tractor. Today that tractor is in use on nearly 200,000 farms and if you have any doubt as to the satisfaction it gives to those who are using it, call in or send and get the booklet, just issued by the Ford Motor Company, and called "The Fordson at Work" and read the testimony which is there given by the multitude of owners of Fordson Tractors. No evidence can be more conclusive than that of the man who actually knows by personal experience and this is the line of testimony carried in this little booklet. If you cannot call for it, write, drop us a postal and we will mail it to you without charge. It is so valuable you ought to have it because it is the open door through which the farmer will pass from the hard working drudge to the comparative comfort of the manufacturer. The Fordson makes it possible for the farmer to plan and direct, while the machine will do the work. It presents the widest latitude for the farmer to exercise his brain power and plan how he can get the most from the soil, knowing that the Tractor will do the hard work, do it better, do it quicker, and therefore do it more profitably. This means not alone in the cultivation of the soil, in the harvesting of the crops, but in a hundred and one different demands that are made for labor—cutting of ensilage and the filling of the silo; cutting of wood; operation of the washing machine; in the lighting of the house with electricity; supplying the house with running water; bringing to the farmer's wife and daughters the convenience of the city, relieving them of much of the hard, unpleasant part of housework. The price is within the reach of any progressive farmer—only \$865.00, including pulley, extension rims, fenders, canopy top and filled with fuel and lubricating oil, and we have a competent man to instruct you in handling it.

An Adventure Romance

GEORGE AGNEY CHAMBERLAIN

COPYRIGHT THE BOBBE-MERRILL COMPANY

SYNOPSIS.

PART I.—Robert Hervey Randolph, young New York man-about-town, leaves the home of his sweetheart, Madge Van Teller, chagrined because of her refusal of his proposal of marriage. His income for a year which he must surrender if a certain Miss Imogen Pamela Thornton (whom he has seen only as a small girl ten years before) is found, is not considered by the girl of his heart adequate to modern needs. In a "don't care" mood Randolph enters a taxi, upset by the driver, and is driven to the stage door of a theater. A man he knows, Duke Beamer, induces a girl to enter the cab. Beamer, attempting to follow, is pushed back by Randolph and the cab moves on. His new acquaintance tells Randolph she is a chorus girl, and has lost her position. She is in distress, even hungry, and he takes her to his apartment. There, after lunch, a chance remark convinces him the girl is the missing Pamela Thornton. He does not tell her of her good fortune, but secures her promise to stay in the flat until the morning, and leaves her. In a whimsical mood, also realizing that the girl's appearance has left him practically penniless, he bribes the taxi driver to let him take his job, and leaving word with the legal representative of the Thornton estate where he can find Pamela, takes up his new duties under the name of "Slim Hervey." He loves the girl, but his pride forbids his approaching her under their changed conditions.

Chapter II. Continued

He began by leading her to a Netherland Show and supper afterward. They danced a little and for the first time in her life, but under medical advice, she took something in the way of stimulant after the initial pretty cocktail. They issued from supper and it was when Mr. Chauffeur Slim Hervey heard the whispered address that the game became a threesome. Counting upon the abstraction, or rather, the concentration of his fares on interior fittings, Driver Hervey soon switched his cab from the chartered route and made for downtown through silent back streets. In just ten minutes he drew up at an old-fashioned house in a very quiet square, shut off his engine to the idle and waited. Not for long. Out of the cab came a blasphemous exclamation in medical tones and with it a cry of awakening from George. Through one window she looked upon the home of her childhood; through the other upon that happy railed garden-square, which was the umbrageous garner-close of all her dearest, purest and dearest memories.

"Oh!" she gasped. "No, you mustn't scold him. This is just where I want to get out and walk. It's—It's extraordinary." Then from the curb. "I may be going to die of consumption, doctor, but, after all, I'd rather—rather die that way."

Twist things around a little and you'll get what happened to Miss Terry de Guest with the difference that that beautiful and hungry young woman who had all but turned her back on Settlement work and her face to the Great White Way, suddenly awoke not in the moonlit embrace of Clairmonte, but before the accusing face of a House in Henry street.

Nor was Mr. Slim Hervey partial to sex in salvation. There was the instance of young Bertram Blossome, who shame-facedly hurried into his cab a painted, wan-faced wail of the street, with self-accusing eyes. No case this of hunted and hunter—rather two strayed bits of weak humanity driven before the unleashed dogs of poverty and lust. How readily and unquestioningly the boy slipped from the cab at his home address, miraculously confused almost as by the meddling finger of God with one very different! How gratefully the girl took the possible fare and "something over," and how her tears brimmed when ten minutes later the blue-eyed chauffeur, a wage-earner like herself, said: "Nothing doing, Sister. The ride is on me," and promptly whirled away!

While all these incidents were engaging, each in its own way, and showed a reasonable profit to all concerned, Mr. Randolph looked upon them more or less as a means of getting in his hand during a period of idleness. Once he felt sure of himself and of his new chauffeuring point of view and attitude toward the gay world from the under side, he began to haunt the neighborhood of East Ninth street at the hour when dinners are plenty and taxis scarce.

Twice he saw Miss Madge Van Teller carried off in Somebody's private car, but he was not discouraged, for he recognized in the very fact of that public privacy the badge of preliminary outings. In due course his night and hour came. He was hailed by the arriving Mr. Beacher Tremont and ordered to stand by; twenty minutes later he was listening to that gentleman explaining to Miss Van T. that a cylinder had gone wrong on his own car at the last moment.

Miss Madge Van Teller, upon whom Mr. Randolph had not laid eyes since the very definite parting of their ways

on the rock of ready cash, was more beautiful tonight than at any other time since the evening of her coming-out party. The reason was one and the same. Tonight, as upon that other, she stood within a threshold and peered out on Life with a big L. A flame was in her cheeks and in her eyes; her lips were half-parted and thirsty, her bosom agitated. She was divinely dressed.

They were very silent on their way to dinner at the Knickerbocker, but they exuded an aura of tense expectancy that made nothing of the glass barrier between them and the car pilot, who soon felt himself lifted and carried on its wave. Something was cooking beyond a doubt and he then and there determined to stick a fist through the crust of the pie just before the smell of burning.

There is nothing more stereotyped than a night run before the fever hounds of New York. It is invariably a four-act play that starts with a single cocktail and a tasty dinner, goes on to a show peppered with double meanings, thickens at the cabaret in the close harmony of booze and dance music and finally bursts "somewhere in the country."

The first act was easy for Randolph; he went on with the villain and the leading lady, but once the revolving door of the hotel had clucked on their backs he had to withdraw to the wings and dope out a means of evolving from a super into a star of the first magnitude. He decided that it didn't much matter who waited the couple from dinner to the show, but that the next entr'act would hold the crux of the night's entertainment, for the cab that secured the freight for the cabaret would stand a good chance of nailing it after the ball.

Consequently he was content to pick up a gutter-snipe and then trail his prey to the theater. "Them is the two," he said to his ally, suborned with the promise of two bits, cash on delivery, "the John with the high hat and the dream-dame in smoke-colored chiffon."

"That's some name for a skirt, Cap," said the extreme youth admiringly, "an' some skirt, believe me. Nor! I won't forget 'em."

And he didn't. No sooner had Mr. Beacher Tremont, bearing a thistle-down burden on his arm, swelled out from the theater with the anxious look on his face of a man with three cars in the garage at home and no call number in his left hand waistcoat pocket, than the imp was at his side. "Say, mister, waiter—taxi? Got one at the head of the line that I'd give up just to youse for a dime."

"Lead me to it," said Mr. Tremont. "Say," said the snipe to Randolph as the car jumped, "I've took the boss inside on fer a friend. You watch yerself."

It was a short run to the lair of the Midnight Rolic, but Mr. Randolph was not surprised at the double wage he received nor at the murmured conversation that accompanied it. "Fill

"Wait for Me at the Seventh Avenue Northeast Corner. Get Me?"

up your gas tank and wait for me at the Seventh Avenue northeast corner. Get me?"

"Sure," grunted Mr. Randolph. "Where to, mister?"

"Greenwood hostelry," breathed the villain.

"I'm on," said Mr. Randolph, ran his car to the comfortably quiet nook designated, dug out a road map of Manhattan and vicinity, scrutinized it carelessly and settled down to meditate.

To a select and once affluent few the name of the G. hostelry above

mentioned will bring certain vivid recollections and will also place the chronology of this yarn, for the said abode of revelry was too good to last very long; it choked to death on its own popularity and consequent publicity. From the outside, even in its hey-day, it presented a most innocuous appearance, just a renovated farmhouse standing under a clump of weeping sugar-maples on the top of a hill whence the nearest neighbor was out of sight.

But once within its modest portal, its habits found themselves in the cleverest fake atmosphere of a pleasure-loving decade. An organizing genius, sensitive to all those cheap adjuncts which usually grate on the soul hovering at the edge of the decline to Avernus, had pandered effectively to an ignoble end and made of each small room an isle of forgetfulness; price, twenty-five bucks in advance, supper and drinks extra.

For the benefit of those who do not remember the epoch of the Greenwood hostelry and are consequently reading on and on in mortal dread of the paragraph that will introduce the War, let it be said at once, Forget it. Stake out the beginning of the international mix-up, hurl another boundary mark into November of 1918, and the time left outside of those limits will be found entirely sufficient to the needs of this chronicle. Let it further be noted that it is inconceivable that a single drop of the kind of blood which flowed in the veins of Mr. Robert Hervey Randolph could ever answer to the name of slacker, proof positive in itself that the events herein set forth happened when the War didn't.

Mr. Slim Hervey, chauffeur, was still plunged in reverie when his senses were assailed by a whiff of lilac, a mere nuance of perfume, that proclaimed the approach of Miss Madge Van Teller. He jumped out just in time to throw open the door of his cab for the couple and take the murmured order of Mr. Beacher Tremont. "All right. Hit it up for Greenwood."

Luckily for the cabman's entertainment, his engine was working in silent perfection that night. The late hour gave him almost undisturbed right of way so that driving became an automatic adjustment of his course in line with the curb and released his attention to gorge itself at leisure with eaves-dropping. By squirming his shoulders he managed to cock one ear over the top of his high overcoat collar; it was the ear next to the open speaking-slot.

"What a dream of a night," said the clear voice of Miss Van Teller. "Shall I be a traitor to my sex and betray one of its secrets to you?"

"Please do," murmured Mr. Tremont. From the very tone of his voice one could divine that he had slipped an arm around her and was holding her close.

"Well, it's this," she continued. "Women are not conquered by man alone, but by man and atmosphere. We never rush at the precipice; we flutter toward it with many stops and pauses. The silliest breezes of impulse may carry us on or a puff of unkind aid hold us back. It all really depends on the man imposing his atmosphere so steadily that the drifting soul of woman forgets its inborn title to vagrancy and sleepily assumes its enemy's goal."

"Madge," said Mr. Tremont almost earnestly, "you frighten me. I never knew you could talk like that. You frighten me because I have a terror of analyzed personal relations."

Randolph could hear a faint rustling of her robe as though she had nestled closer to her escort. "I never meant to startle you, Beacher," her voice continued, not quite so clear. Into its tone had crept, hesitatingly, a trace of unaccustomed emotion. "I was only warning you. Every man can make a world of his arms for one woman; not all can hold the illusion to beyond possession."

"I can, if you will only help me," whispered Tremont, and paused as though his own earnestness were taking him by surprise.

"I wonder," said Miss Van Teller. "You have played the right game. You have never said a vulgar thing to me or stooped to the usual hypocrites; those are compliments by inference that have flattered the best that is in me. You have set the play in a high plane that winning, wins all of me; but—"

"But what?" asked Tremont. "But there is danger in the high flight," finished Miss Van Teller. "An air-pocket in your atmosphere and, pouf! all is lost—the good in me that you will have missed as well as the bad that you could have won by a baser effort."

"What do you mean?" asked Tremont, no longer making the slightest effort to hide his awakened interest.

"I was thinking," said Miss Van Teller, dreamily, "that every woman is a group of three individuals. Shall I tell you their names?"

"Yes," said Tremont.

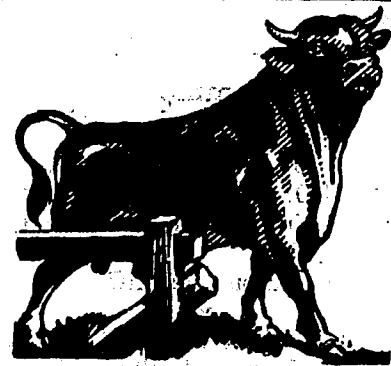

"The first," continued the girl, her voice floating from her as though carried on the bosom of her dream, "is called Flesh; the second, Spirit, and the third—the third I shall name the Veiled God."

"Madge!" cried Tremont, and Randolph, listening with all his ears, could almost feel the clutch on his own arms with which the man had seized the girl's, as though to drag her back from her mind's far distance.

complete lover can be secure of his beloved, Beacher. He who wins her flesh alone leaves her spirit to betray him, and he who wins the spirit alone is in mortal danger of the woman of the flesh."

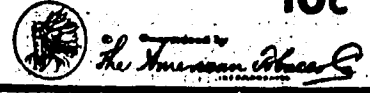

"The explanation," said Tremont, whimsically, "is so feminine that it confuses. If you had said that each woman is a trinity and must be thrice won before a man's honor can feel secure, understanding would be a simple matter. Did you leave out the Veiled God purposely or just to be different and avoid the obvious?"

Summons

In the District Court, Second Judicial District of the State of Idaho, in and for the County of Latah.

Josephine P. Brewer, Plaintiff.

vs.
Sylvester Brewer, Defendant.

The State of Idaho Sends Greetings To Sylvester Brewer the above named defendant.

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature in general terms as follows:

To obtain a decree of divorce from defendant on the grounds of desertion.

And you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

Witness my hand and the seal of the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, this 3rd day of January, A. D., 1921.

PARCEL POST DELIVERS EGGS TO DOOR OF CITY CONSUMERS

One Big Advantage of the Parcel Post Is That One Package or Many May Be Sent.

If the rural delivery is at your door, the city market is there for your small produce, say specialists of the United States Department of Agriculture. At present many producers are neglecting entirely this marketing medium or are not utilizing it to the extent they might. Wider use of the parcel post for marketing eggs is particularly advisable for the small producer who can easily and advantageously build up a direct trade with the city. When more produce is marketed directly from the farm to the city there will be less complaint on the part of the producer that the prices he must sell for are too low, and less on the part of the consumer that the prices he pays are too high.

Sell Only First-Class Eggs.
It is preferable to produce infertile eggs for market, as fertile eggs deteriorate rapidly in warm weather and are the cause of much loss. The eggs should be gathered at least once a day and stored in a well-ventilated place, where they can be kept as cool as possible. As washing removes the mucilaginous coating of eggs and opens the pores of the shell, it should not be practiced in the case of eggs intended for high-class trade. Solved eggs should be used at home or disposed of otherwise than to a parcel-post customer.

If there is any doubt concerning the freshness or quality of the eggs, they should be candled, so that all eggs showing any defect may be held at home, say poultry specialists of the United States Department of Agriculture. For parcel-post shipment it is essential that uniform containers and a uniform pack should be used, as otherwise the packages will not wear well, nor will they look attractive and appeal to the fancy trade. Furthermore, the containers should be stout and durable, so as to make it worth while to return them as "empties" for subsequent use.

According to post office regulations, eggs will be accepted for local deliv-

ery when they are so packed in a basket or other container as to prevent damage to other mail matter. Eggs to be sent beyond the local office are accepted for mailing, regardless of distance, when each egg is wrapped separately and surrounded with excelsior, cotton or other suitable material and packed in a strong container made of double-faced, corrugated pasteboard, metal, wood or other suitable material and wrapped so that nothing can escape from the package. All such parcels must be labeled "Eggs." Eggs in parcels weighing more than 20 pounds are accepted for mailing to offices in the first and second zones when packed in crates, boxes, buckets or other containers having tight bottoms to prevent the escape of anything from the package and so constructed as properly to protect the contents. Such packages must be marked "Eggs—This Side Up" and must be transported outside of mail sacks or boxes.

It is advisable that square block tissue paper, which comes in packages of 500 sheets each, soft wrapping paper, or newspaper should be used around each egg, as otherwise there is a danger of breakage in handling. Average hens' eggs will weigh about two ounces apiece, or between two and three pounds a dozen, when properly packed for mailing in a carton. Most parcels containing a dozen eggs will exceed two pounds, but will not reach three; therefore the postage on them will be 7 cents within the first and second zones, or 150-mile limit. A parcel containing two dozen eggs will add, perhaps, 2 cents to the postage, though sometimes only 1 cent, depending on the character of the container and wrapper.

Ship Large-Size Packages.
The larger the parcel, within the size and weight limits, the cheaper is the postage, as the first pound of every package costs 5 cents within the first and second zones, while each additional pound, up to 50, costs but 1 cent.

COMPOST HEAP MADE FROM GARDEN WASTE

Organic Rubbish of All Kinds Especially Suitable.

Start by Laying Down Bed of Stable Manure and Alternating With Refuse Matter—Especially Valuable for Hotbeds.

Garden waste, decayed vegetables, dead vines, weeds, and the organic rubbish that collects about the place during a busy summer may be cleaned up and put to work again through the agency of a compost heap, say specialists of the United States Department of Agriculture. Start the heap by laying down a bed of stable manure which has not been burned or heated. The size of the plot will vary with the amount of refuse to be used; for ordinary uses, if the bed is made eight feet long by six feet wide and two feet deep it will serve the purpose. Over the manure spread a two-foot layer of refuse and cover with another layer of manure. This last layer need be only a foot in thickness.

If it is desired to add to the heap from time to time the top layer may be opened and the new material emptied into the hole thus made. This is convenient for the suburban home where there is no animal to consume the kitchen waste. In the spring the heap is well mixed with a fork and the compost is ready to be spread on the garden plot. The heating manure will effectively destroy any weed seed present and will also break down the structure of most of the materials that have been thrown upon the pile. The process may be continued indefinitely by simply adding enough manure to insure heating. Compost is especially valuable for use in hotbeds and cold frames.

GIVE BIRDS CONSIDERATION

Little Songsters Are Friends of Farmer and Should Be Looked After in Winter.

Birds as friends of agriculture are entitled to consideration from the farmers. When the snows come the birds find it difficult to make a living. Crumbs and suet placed outdoors may save bird lives.

WEEDS ARE INJURIOUS

Weeds are injurious to man in the following ways: 1. They crowd out the growing crop. 2. They consume the moisture necessary for a crop. 3. They consume the mineral or other food elements essential to a crop. 4. They pull down a crop. 5. They are injurious because they harbor insects. 6. They are injurious because they harbor parasitic fungi. 7. They prevent the proper cultivation of the soil. 8. They may cause conditions which breed diseases. 9. They may poison the soil. 10. They stop drains. 11. They poison animals and man.—Prof. L. H. Pammel, Iowa State College.

URGE TESTING OF SEED CORN

Even When Carefully Selected and Stored It Should Be Tested Before Planting.

Even where seed corn has been carefully gathered and stored it should be thoroughly tested in the spring before planting. The best way to do this is to make a seed corn testing box and test 100 ears separately. Each kernel that is tested must be perfect, and not injured at the tip when it is removed from the ear. Hand-shelling will give much fewer injured tips than machine shelling, and should be used with all seed corn. If three or more kernels out of ten from any one ear fail to grow it will be wise to test every ear in the entire supply of seed. If the 100 tested ears show no poor ones, further testing of the supply is unnecessary.

PROPER CLUTCH LUBRICATION

Truck Operator Will Do Well to Use Oil Recommended by Manufacturer of Vehicle.

One rule the truck operator will be well advised to cling to as regards the lubrication of the disk clutch, and that is always to use the brand of oil recommended by the maker of the vehicle. The truck clutch shoulders a heavy burden at best and absolutely correct lubrication is essential to efficient operation of continued service.

ARTIFICIAL DAY FAVORED BY HEN

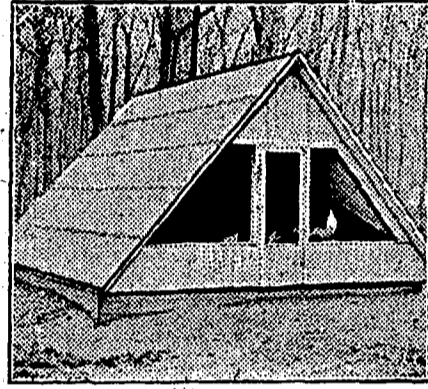

Poultry Flock Given More Time for Eating and Exercising During Winter Season.

INCREASES EGG PRODUCTION

Many Farmers Find it Profitable to Illuminate, Houses for Several Hours Each Day to Encourage the Pullets.

Domestic fowls originated in the tropics where the days and nights are of about equal length. As a result of this, the reproductive and digestive systems of the hen are developed to fit the environment of a 12-hour day and a 12-hour night. For this reason she is somewhat like an alarm clock, except that she must be wound up about every 12 hours instead of every 24. In the winter in the North, her digestive system strikes at about 9 or 4 o'clock in the morning. As she is unable to locate food in the dark she has no alternative but to wait until daylight or until the caretaker gets around to feed her.

Habits, Not Nature, Changed.
Up in the north-temperate zone

Large A-Shaped Coop Used by Government Poultry Farm in Artificial Lighting Experiments.

where during the fall and winter the nights are from 13 to 15 hours long the transplanted domestic fowl from the tropics has changed her habits but not her nature. During this time she takes her vacation when she has the least to eat and to do. This is from necessity rather than from choice, for, given an opportunity to eat, exercise, and enjoy herself for 12 hours a day, she lays nearly, if not quite so well, as during the summer months.

Acting on this theory many poultry keepers have found it profitable to light their poultry houses for several hours each day. This lengthened day, together with the right kind of feed and plenty of exercise, has been found to increase to a marked degree the number of eggs laid by pullets in the fall and winter. It does not pay to provide light for older hens. A 14-hour day for the laying flock during the winter months is the aim of those who are following this practice.

Experiments are being carried on by the United States Department of Agriculture at the government poultry farm at Beltsville, Md., for the purpose of securing more data on this phase of poultry work. The results secured thus far corroborate the testimony of others as to the value of illumination in hen houses.

The birds used in the government experiments are fed four times a day, at eight, twelve, four and some time after dark. This last feed is for the birds' breakfast. In addition to the four feeds a dry mash is kept constantly before the birds.

By means of an ordinary alarm-clock an electric switch is turned on about 4:30 in the morning. Care is taken to increase the length of the time of illumination gradually or the effect on the birds would be disastrous. At the close of the season the decrease must be made slowly. From November 1, the opening of the pullet season, to April 1 is the time when lighting is usually provided for fowls.

To secure the desired results it is necessary not only to provide food ready for eating when the birds awake, but also water. In very cold weather some special means of heating it must be provided or the watering trough will be frozen over. The birds will not do well if drink is not available also. A small oil lamp under a bucket, an electric attachment for slightly heating the water, and a watering tank insulated somewhat after the idea of a fireless cooker are the methods used for keeping the water for the flock at a temperature above freezing.

How to Save Light.
In a pen 20 by 20 two lights rather than one should be used. A wide-angled reflector that will throw the light to all parts of the building also helps to get the best results from the amount of electricity used. To save illumination the windows should be placed when feasible on the south, east and west sides of the building.

SELECTING BEST COCKERELS

Male Bird Should Have Short, Stout Legs and Full Breast—Comb Is Good Index.

In selecting cockerels, they should have short, stout legs and full breasts. The comb is also a good index in judging the maturity of a male, as some are far ahead of others hatched at the same time. Good judgment goes a long way in selecting fowls.

HOG-PROOF GATE IS HANDY ARRANGEMENT

Cattle and Horses Permitted to Pass at Will.

Two Low Fences, About 18 Inches High, Serve to Keep Swine in Their Own Pasture—Other Animals Can Step Over.

A farmer uses this arrangement to keep the hogs in one lot, while allowing his cattle and horses to pass unrestrained into another pasture. The gate was removed from the hinges, and the space from post to post was boarded up solidly to a height of 18 inches from the ground. About 18

Two Low Fences Across the Gateway Will Stop the Hogs, but Allow Horses and Cattle to Pass.

inches from each gatepost, inside the lot where the hogs were confined, a short post was driven. Long boards nailed from one to the other of these posts made another panel of board fence, 18 inches high and parallel with

Cameron News

Mrs. Lucht and Miss and Mr. Winter of Minn., who are visiting at the Aug. F. Wegner home, departed, Tuesday, for a brief visit at Lewiston, Clarkston and Asotin, after which they will return to our ridge and finish their visit with their many friends here.

Mr. and Mrs. Fred Newman, Jr., entertained the "younger set" with a dancing party, Thursday evening. On Friday evening some of the "older set" gathered at their home to celebrate the birthday of Fred Newman, Sr.

Miss Helen Mielke, who has been visiting home folks for the past month, departed for Kennewick and Portland last Saturday.

Herman Wilken and his Ford are frequent visitors at Kendrick.

Many of the Cameronites attended the card party at Herman Koepp's, Saturday evening. "500" was the game.

August Brammer and Henry Wendt entertained at a "Stag Party", Wednesday evening at the Carl Koepp home.

Some of Cameron's younger set attended the Kendrick dance, Friday evening.

Mr. and Mrs. John Schultz and son from Montana are visiting friends and relatives on the ridge.

Gustav Blum was a Southwick visitor Wednesday evening.

Mrs. Dave Schoeffler, who has been on the sick list for the past three weeks, is still quite ill.

Mr. and Mrs. Henry Brammer have just returned from a visit at Spokane.

Some of the farmers are packing ice this week but none have been heard to boast of its thickness.

Mrs. Aug. F. Wegner who has been suffering from a bad knee caused by a wrench last September is still unable to walk much.

Alex Larson was on the sick list this week but is convalescent.

All Cameronites who were former residents of Minnesota gathered at the August F. Wegner home Monday evening to surprise Mrs. Lucht and to hear from old friends in the old home state.

the boarded-up gate, with an 18-inch space between the two low walls. When a hog comes to this detached panel, it will go to the end and pass round into the narrow passage between the two board walls, continuing on through and out at the other end till it tires of the performance. One that is short enough to turn in the 18-inch passage is too small to jump or climb over the boards before it, and one that cannot turn is unable to face the wall and make the attempt to climb.

All other stock, except small calves or colts, will step over the low walls. No wide cracks, offering footholds, should be left between the boards.—H. F. Grinstead, Columbia, Mo., in Popular Mechanics Magazine.

FARM SELECTION PERPLEXING

Study of Several Intricate Points Called For—Knowledge of Basic Principles Needed.

(Prepared by the United States Department of Agriculture.)

In choosing a farm one has the options of buying with the intention of operating the place as his entire business, buying a small farm and renting enough additional land to meet his needs, or renting a farm either on the share or cash basis. One's choice in the matter is usually determined by the funds available.

If one has only a small amount of capital and wishes to undertake farming as a business from which to derive his entire income, he should, in nearly all cases, begin as a renter. However, if he wishes to buy a farm on which to live, deriving a part of his income from other sources, then, possibly, purchasing is desirable, even if capital is limited.

Whatever course is followed, it is highly desirable that one thoroughly understand the basic principles governing the farm business before deciding some of the finer points. A disregard of these basic principles is responsible for a large proportion of farm failures.

A man may unconsciously work all his life against some economic barrier when success would have been comparatively easy if he had selected a farm where the economic principle would aid him instead of working against him.

GUTTERS KEEP CELLARS DRY

Cement Ditches Carry Water From House Far Enough to Prevent Injury by Seepage.

A few homemade cement gutters will drain away the water from the gutter pipes and help keep a cellar dry. The cement ditch can be 8 inches wide, 2 inches thick and widened at the receiving end to resemble a shallow platter, says the United States Department of Agriculture. It should be sufficiently long to carry the water from the gutter pipe far enough from the house foundation to prevent seepage. If the work is set flush with the ground it offers no hindrance to passing feet or to the lawn mower.

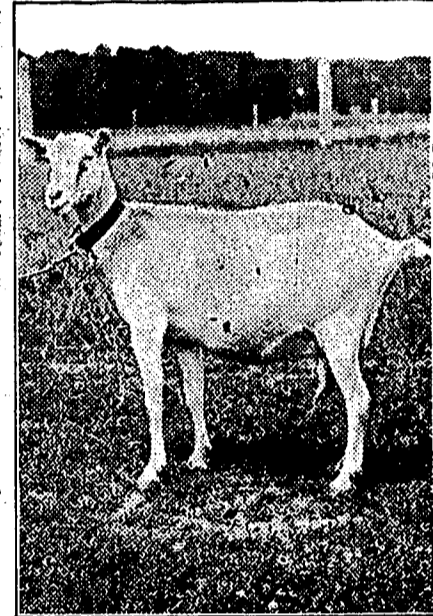

MILK GOATS ARE GOOD PRODUCERS

Particularly Well-Suited for Limited Space Where Cows Cannot Be Maintained.

WHOLESOME FOOD FOR CHILD

For General Use, for Drinking, Cooking, Etc., Milk Has Proved Quite Satisfactory—Does Need Nutrient Feeds.

In Europe the goat is often spoken of as "the poor man's cow." With us in America the animal has been considered more as an unfailing source of milk than as a milk producer of real value. The goat is naturally adapted for the use of those families who find it impossible to keep a cow because of limited space or an insufficient supply of food for the larger animals. There are many suburban homesteads and a few farms in this country where milk goats could be kept at a profit. One animal of

One Good Milk Goat Will Supply an Average Family.

good milking qualities will supply an average family with a fine quality milk for the greater part of the year.

How Much Milk?

About the first question that prospective goat buyers ask is "how much milk will a goat give?" A doe with an average production of two quarts a day for seven or eight months is considered a good animal. Three quarts is thought to indicate an excellent animal. Reliable authorities say that a good goat will yield ten times her body weight of milk annually. The lactation period covers from seven to ten months. The milk has a special value as food for infants and invalids. If a family keeps a milk goat, it can be well assured of a supply of clean, wholesome food, since it is then possible to control the sanitation of the dairy by personal attention.

The esteem in which the milk is held by those who have used it is indicated by the fact that it often retails at 50 cents a quart. Goat's milk can be utilized in all ways that cow's milk can, although for some it is not so well suited. For general use, for drinking, cooking and in tea and coffee the milk has proved very satisfactory. It is not so good, however, as a butter-making material. Good butter can be made from goat's milk, but the operation presents some difficulty due to the fact that the cream rises very slowly. Cheese made from goat's milk is very popular.

Most of the feeds that are valuable for the production of milk by dairy cows are also suitable for does. The advantage for the suburban family is that a smaller quantity of food is required by a milk goat than by a cow. It is ordinarily considered that from six to eight does can be kept on the feed required for one cow. When does are in milk they should be allowed all the roughage that they can consume, such as alfalfa, clover, or mixed hay, and corn stover. They should also receive a liberal quantity of succulent feed—silage, carrots, parsnips, and turnips answer this purpose. Corn, oats, bran, barley, linseed oil meal, or oil cake are the grain feeds best suited for a milk-goat ration. A ration that has been used and approved by the United States Department of Agriculture for the goat's milking season consisted of two pounds of alfalfa or clover hay, one and a half pounds of silage or turnips, and from one to two pounds of grain. The grain ration is made up of a mixture of 100 pounds of corn, 100 pounds of oats, 50 pounds of bran and 25 pounds of linseed oil meal.

Care in Feeding.

Care should always be taken to see that the food is clean and of good quality. Silage, turnips and similar foods that have a strong odor or flavor should be fed after milking, and all unclean food should be removed from the trough. A good supply of fresh water is necessary, and rock salt should be kept where the animals can reach it whenever they wish.

In purchasing milk goats it is much more satisfactory to observe the does during their lactation period. This gives the buyer an opportunity to study their conformation when they are producing, and the udder development, which is very important, can be better considered. Generally speaking, the marks and conformation which distinguish a good dairy cow should appear in a good doe.

SILLO WILL HOLD MOST FOOD

Keeps Various Crops in Best Form for Different Animals Till Needed Later On.

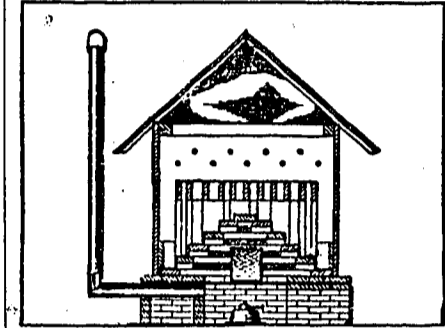

More food can be stored in a given space in a silo than in any other building, making it a cheap storage. The silo also makes possible growing the crop till it has produced the greatest amount of food per acre, and keeping this food in the best form for the animals till it is needed. Silage is like having pasture for the live stock the year around. The silage is nutritious and has a good effect on the digestion. It will mean a big milk production and good growth of the animal to which it is fed.

BROODER FOR YOUNG CHICKS

Adapted Especially for Outdoor Use or Independently of House for Older Fowls.

The Scientific American in illustrating and describing a chicken brooder, the invention of R. R. Murray of Milford, Texas, says:

This invention relates to poultry raising, and has particular reference to the care of young chicks. Among the objects is to provide a brooder adapted especially for outdoor use or

Transverse Section of the Device.

independently of a poultry house. The device comprises a hollow pyramidal chick support with a source of heat within the base, depending fabric strips, a ceiling of open mesh material, and a suitable roof, the products of

combustion being conveyed outward through a flue.

STEERS FATTEN ON SILAGE

Remarkable Gains, Considering Nature of Feed, Made at North Dakota Station.

Steers can be fattened profitably on corn silage alone according to a series of tests conducted at the South Dakota experiment station. The steers didn't get off their feed nor were there any bad results in feeding silage as the sole ration. At the close of the tests each year the cattle were shipped to the Chicago market, sold as killers, and brought within a few cents of the market top.

"The gains have been remarkable considering the nature of the feed," said J. Hector Wilson. "In many cases the gains have been larger than cattle of the same age have made on pasture. Hundreds of cattle are wintered on a half starvation ration when if they were fed corn silage from the time they were taken off of grass in the fall they could have been sold late next spring when cattle are usually high in price."

EASY TO FATTEN BABY BEEF

Good Breeding and Quality Are Chief Requisites for Most Profitable Results.

It requires no more skill or attention to fatten baby heaves than it does mature cattle, but good breeding and quality are necessary if the greatest returns are to be expected from the production of baby heaves.

PLACE PREMIUM ON QUALITY

Everybody Wants the Best if They Can Afford It—Quantity Not Always Desired.

The premium is on the best—on quality, not quantity—not the second best. Everybody wants the best if they can afford it. If people take the second best it is not because they prefer it.

The Farmers Elevator And Warehouses

Will pay highest market prices for grain and sells Binder Twine and all kinds of feed at the lowest possible margin.

Thrift Is Power

Japan's ambition to be a world power called forth an imperial edict telling the people to save.

In three years, since 1912, the number of Japanese with accounts in savings banks has increased to 20,655,830, one-half the whole population.

In the United States today, only 19 out of every hundred persons have savings accounts.

Saving is a duty you owe your country as well as yourself.

Kendrick State Bank

GLEANINGS

Miss McKinnon, primary teacher in the Kendrick schools, spent the week end at her home in Lewiston.

Mrs. Ernest Randall and little son, Donald, returned to their home in Orofino, Sunday, after visiting a few days with Mrs. Randall's mother, Mrs. N. C. Thomas.

Ben Callison was a Moscow visitor last Saturday, making the trip from his farm to the county seat with a sled.

Miss Woller of St. Paul, Minn., visited at the Herman Koepf home near Leland last week.

Mrs. M. B. McConnell was a Moscow visitor Monday.

Charles McKeever has two samples of hemp on display at the Kendrick Hardware, which he secured while in Portland, recently. The hemp was being unloaded from a freighter, while he was there, so he secured samples to bring home with him. The hemp was imported from Manila.

Mr. and Mrs. Harry Bellows of Bovill, who were visiting at the R. F. Bigham home last week, went to Palouse, Friday.

A barrel of mash was found in a residence in Moscow a block from Main Street, by the chief of police. Jesse Lamb and Joe Rudniger were arrested and charged with an attempt to make illicit liquor.

A resourceful North Carolina farmer placed a mule in the stall of a cow which a milk thief had been visiting at night. Awakened the next night by a terrific racket in the barn, he strode out, shotgun in hand, to find a battered milk pail, a wrecked milking stool, a hat and a self-satisfied mule.

As a result of the closing of the Putlatch Lumber mill three applications were made to the county for assistance. One case, a man and wife and 11 children, the oldest child 15 years of age, needed assistance. The man was thrown out of employment when the mill shut down, and the income of the family stopped.

Invitations are out for a Masonic party at the Fraternal Temple for Monday evening, February 14. No one except a member of the lodge and his lady, and sojourning Masons were invited as the accommodations at the Temple are limited, making it impossible to include outsiders. A banquet under the direction of Mr. and Mrs. N. Brocke and Mrs. John Brocke will be served at 6:30. Barton's orchestra of Lewiston has been engaged for the evening.

Work is progressing on the new power line between Kendrick and Juliaetta, with a crew of men digging holes. On account of the rocky formation which the line traverses it will be necessary to blast quite a number of holes from the solid rock.

A larger crowd than usual attended the American Legion dance here last Friday night. As long as the dances prove popular the officers of the local post expect to continue them at frequent intervals.

An item which was not brought to our attention last week was the marriage of Miss Hazel Mathes, daughter of Mr. and Mrs. John Mathes, and Mr. Dewey White, of Juliaetta. They were married at Moscow, Monday, January 31, by Rev. Snoddy at the Presbyterian Manse. They will make their home at Juliaetta.

Mr. and Mrs. H. P. Hull were Moscow visitors the first of the week on business.

Miss Carrie Buckles who is teaching school at Cameron, went to Lewiston last Saturday to spend the week end with her parents.

Miss Nettie May Jacobus of American ridge, who has been under the care of a specialist in Spokane for the past few weeks, returned home Tuesday.

Mrs. Mary Deobald of American ridge went to Lewiston, Saturday, where she underwent a major operation at the St. Joseph hospital. Reports are to the effect that she is getting along very well.

Mrs. John F. Waide and son, Darrell, went to Lewiston, Wednesday, to visit friends.

A business man received a letter from another business man that made him very angry. So he dictated this letter to the "adversary": "Sir, my stenographer, being a lady, cannot transcribe what I think of you. I being a gentleman, cannot think it. But you, being neither, will understand what I mean."

E. P. Atchison went to Lewiston, Wednesday, on business.

Mr. and Mrs. Henry Bramer of Cameron returned, Tuesday, from a visit at Spokane.

Rev. H. W. Mort went to Lewiston, Wednesday, on business.

The Kendrick Furniture Company sold a good, big order of furniture to a Lewiston party this week. It isn't the first time that the local Company has invaded outside territory. It's getting to be a common occurrence.

E. H. Dammarell said this week that he had marked down four bolts of dress goods in stock on which he took a loss of an even hundred dollars. Merchants are taking their losses as they come and making the best of it.

Luther Miller and family, who have been visiting relatives in the Cavendish neighborhood, started for Oregon, Thursday, where they expect to make their home on a farm.

Percy Bowers of Pullman arrived Wednesday to visit at the home of Mr. and Mrs. Fred Bolton.

Sam Bowers of Lolo, Montana, arrived Wednesday to visit relatives here.

A. H. Oversmith of Moscow was sent to Boise by the Moscow Chamber of Commerce, to keep the legislature on the right track regarding the educational institutions of the state, but particularly with reference to the interests of the University of Idaho. As usual a bill has been introduced to move the University to the south end of the state and also to establish an agricultural college there. Mr. Oversmith will use his influence to kill these bills.

A. K. Biddison of Moscow, father of C. S. Biddison of Juliaetta, and well known here, died suddenly from heart trouble at his home, Tuesday evening. The funeral was held at Moscow, Thursday afternoon.

Ralph Gehre of Cameron was a Lewiston visitor, Wednesday.

Pigs Wanted: half a dozen young pigs 8 or 10 months old. Phone Orphie Hupp, Kendrick. 6-2t

Alvin Babcock of Moscow, who was in Juliaetta on business Tuesday, stopped off in Kendrick on his way home, to visit his mother.

Mr. and Mrs. Fred Schoeffler and baby were Lewiston visitors, Wednesday.

Mr. and Mrs. Fred Black and son, who are living near Moscow, visited friends on Big Bear ridge the first of the week.

Mrs. Gabriel Anderson of Troy is visiting her daughter, Mrs. Cecil Emmett on Little Bear ridge.

A. H. Bolon and family of Juliaetta moved to Kendrick the first of the week to make their home here. They have rented a house in the northeast part of town.

"Step inside!" urges an advertisement posted in front of a large Jap store in Tokio. You will be welcomed as fondly as a ray of sunshine after a rainy day. Each one of our assistants is as amiable as a father seeking a husband for a dowerless daughter.

A fair sized crowd attended the benefit show at the Grand Theatre last Tuesday evening. Owing to the extremely bad weather it was impossible for many to get in from the country, so the attendance was drawn almost entirely from the town. At the last minute the film company substituted a different feature than the one ordered and advertised by the management of the local theatre.

There is no question but that pre-war prices are here on a great many articles. Stanton Bros. were unpacking a shipment of hosiery received this week and it was really astonishing how big the reductions were on the new goods. This country is getting back to normal in a good many ways.

FOR SALE: 6-ton Fairbanks wagon scale, good as new; 6-horse and 12-horse gasoline engines, in first class condition. Reasonable price. T. H. Sturdevant. 6-4t

TEAM FOR SALE: horse age 5 years and mare age 4 years, team weighs 2000. For quick sale will give the team away for \$75. Inquire of Jim Cain, American ridge. 6-2t

INFLUENCE OF LOAD ON PULL

Harder to Haul Wagon When Front of Load is Placed Near Front, Says Iowa College.

Tests recently conducted at Iowa State college show that a wagon pulls harder when the bulk of the load is placed over the front wheels than when it is loaded over the rear ones.

The actual difference in pounds of pull amounts to nearly a hundred pounds, so that the man who carried the load from the rear of a wagon to the front not only works harder himself but he causes more work to be done by the team as well.

One of the reasons for this, say the testers, is that the front wheels are smaller and that they open up tracks for the rear ones.

Where trucks are used it is of an advantage to load on the rear since it aids in the traction and keeps the wheels on the ground.

Chamberlain's Cough Remedy a Favorite

Chamberlain's Cough Remedy is a favorite with the mothers of small children for colds, croup and whooping cough. Its pleasant taste and the prompt cures which it effects has won the good opinion of mothers everywhere. As this remedy contains no opium or other narcotic it may be given as confidently to a baby as to an adult.—Adv.

For The Liver and Bowels

When your liver and bowels become torpid get a bottle of Chamberlain's Tablets. They will tone up your liver and cause a gentle movement of the bowels. They also improve the digestion.—Adv.

Eggs For Hatching

Single Comb White Leghorns. I will be prepared to furnish eggs after February 15th from select three and four year old hens, at the following prices: 1 setting \$1.50, 3 settings \$4.00, 5 settings \$6.00, 100 eggs \$7.00. Postage and packing extra. J. C. Hamill, phone 3425, Juliaetta, Idaho. 5-tt

Summons

In the District Court, Second Judicial District of the State of Idaho, in and for the County of Latah.

W. H. Leasure, Plaintiff,

vs.

Anna E. Baylor, Fred May and Caroline May, his wife, Defendants.

The State of Idaho Sends Greeting To Anna E. Baylor, Fred May and Caroline May, his wife, the above named defendants.

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature in general terms as follows: To foreclose a certain mortgage or record in Book 45 of Mortgages, at page 602, records of Latah County, Idaho.

And you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

Witness my hand and the seal of the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, this 24th day of January, A. D., 1921.

Homer E. Estes, Clerk (Seal) By Adrian Nelson, Deputy Frank L. Moore, residence Moscow, Idaho, attorney for Plaintiff. 5-6.

Ladies we have the long sleeve, straight line, belted house dress, size 36 to 50, **\$1.25.** Our business is based on quality, and we always furnish the best goods at the lowest possible prices. We will greatly appreciate the opportunity to serve you on all your wants in our line.

Pants and Mackinaws

The final clean-up on Men's heavy all wool pants, on display at this store, at prices that should not be over looked by any of us. Special \$3.13 to \$8.79.

If you're looking for a Mackinaw we have just what you want and are ready to serve you while they last. You can't realize it that we are selling these at less than cost. But we need the money. Priced at \$7.58, \$10.75 and \$18.75.

For good eats try our grocery department. Always neat and fresh. For bargains we have them.

Kendrick Store Company

"Everything to Eat and Wear"

Announcement

We announce to you that March 21 to March 26 inclusive, at this store, will be

Repair Week

In the meantime we ask you, for our mutual good, to go over each piece of machinery you have and note carefully all parts that are broken or worn out. Bring in the numbers or the old piece. We will devote the whole week to helping you to get these orders in correctly.

We will have a complete line of farm implements properly assembled on our floor, where you may see them, which will be helpful to you. We will have factory representatives here to explain and give you all the information possible, concerning the whole International line of farm machinery. It will pay you to place your order at this time, for any farm equipment you may need for this year.

Garden, Field and Grass Seeds

We are the seed house of the Potlatch country. A large assortment now in stock ready for your inspection. Garden seeds in packages and seeds in bulk. Prices are very low on all seeds. All field corn sold by us is home grown, well matured and thoroughly acclimated.

We solicit your business. We give you service.

The Kendrick Hardware Co.
