Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

A number of business men of Kendrick have signified their willingness to donate labor for the construction of one mile of hard surfaced road east of Kendrick. This strip of road needs "fixing" badly. It is traveled more than any other leading into Kendrick. People coming from Southwick, Teakean, Cavendish, Cameron, Linden, Crescent, Texas ridge, Bear ridge and many from Leland, have to travel this mile strip to get to the Hub of the Potlatch. It is usually in bad shape, so the plans of the highway commissioners to have it graded and hard surfaced with crushed rock, will be received with joy. The commissioners expect to start

work on this road the first of April. We confidently believe the labor donations whose value will amount to several hundreds of dollars will be at the command of the commissioners whenever they call upon the business men of the town, because everyone is interested in seeing this strip of road put in shape.

The failure of the Consumers' Stores company with 37 sales agencies, fostered by the non-partisan league at Fargo, N. D., is another one of the miserable failures of the Townley big idea. Banks, newspapers, mills and stores under the league plan have been going "on the rocks" in quick succession in that unfortunate state during the past few months. Those whom the league was supposed to benefit—the farmers—have suffered most by the collapse in North Dakota. It is their money that has been used to finance the schemes that are failing so disastrously.

Everybody has it in for the rail-

roads, but according to press reports 36 railroads failed to earn their operating expenses and 28 did not earn their taxes during the month of January, 1921.

One of the latest estimates sent out is that the world wheat surplus is 170 million bushels. At any rate, there seems to be little demand for the wheat being held in the warehouses by farmers, judging by the prices offered.

The University of Idaho is arranging for a thorough course in athletic coaching to be given at summer school this year. It may be that in time our educational institutions will be so broadened and elevated to such a high standard that we will have the opportunity of receiving a thorough course in scientific billiards or maybe even auction bridge. The near-million dollar appropriation given to the university by the recent legislature ought to make possible the addition of such necessary finishing touches to a modern college education.

The road between Helmer and Park, a distance of between six, and seven miles, is expected to be finished within the next two or three months. It is on a grade not exceeding 5 per cent. No doubt there were people in the Park and Boulder Creek communities who said "it can't be done, but they were not the boosters.

Some people object to the Potlatch country because we have so much wet weather and mud. A good farming country has to have these unpleasant conditions.

If you are allowing your chickens to run at large you are likely to have "strained relations" between yourself and neighbors, who may have planted a spot of early garden. Gardens and chickens are not conducive to friendly feeling.

It is stated on good authority that there is more currency in circulation today than there was a year ago. The figures are for a year ago \$5,960,382,866 against the present figures of \$6,340,436,718, or a per capita circulation of \$59.12, against \$55.89. A few years ago the per capita circulation was around \$35.

A Sure Sign of Spring

We are accustomed to hearing the weather prophets tell that we are going to have a late or an early spring, depending on how they feel, and then refer to the ground hog story to prove anything pertaining to the weather. But a really sure sign of spring is to see the new Fords moving out. During the past week we have made deliveries as follows:

Ford Touring Cars to: Albert Theissen. B. F. Widick. A. A. Wilson, Pacific Coast Elevator Co. A Ford Sedan to Kay Thompson, and Roadsters to J. R. McPhail and Henry Jameson, and a Ford one-ton truck to the city of Lewiston.

This demand indicates a shortage of Ford Cars very soon. If you want a Ford this spring, place your order now.

CO-OPERATION SERVICE

A bank to a large extent is a partner of its clients. Its success depends upon their success. It must develop their business in order to develop its own.

With this in mind we are constantly looking for new service features.

We have just installed an exchange board in the lobby of our bank. If you want to buy, sell or exchange any stock, feed, seed or implements, just call or write and we will be glad to give your wants publicity.

We have but our service—the best we can give.

MARCH 21 TO 26
Repair Week

We have urged you to follow the present tendency to repair and fix up old machines and we are prepared to encourage and help this movement all we can.

This is a year for economy both on our part to render all the assistance we possibly can to you. This is indorsed by the International Harvester Co., who is doing its utmost to insure an adequate supply of repair parts. We have heard a great deal about price per bushel. It is a very interesting subject. But what we believe is more important is **MORE PER ACRE AND MORE ACRES PER MAN.** This is a paramount issue and basic requirement for the present and should not be lost sight of. In this country for a long time the problem will be greater production per man.

It is a wrong practice to repair a machine when it is too old to be efficient, even when repaired. Such a machine will make you lose money and defeat your purpose of more per acre and more acres per man. It is also poor economy for it will have to be abandoned too soon to make investment profitable.

It is also a poor investment to repair a machine of so small capacity that the labor cost of operating will exceed the cost of a new machine. High or low prices per bushel do not alter the basic necessity of more per acre and more acres per man.

Because it takes the same amount of seed and cultivation, interest and taxes or rent per acre, regardless of yield, so we conclude that the only way to increase PROFITS is to use efficient machines to make the available labor cover more and produce more.

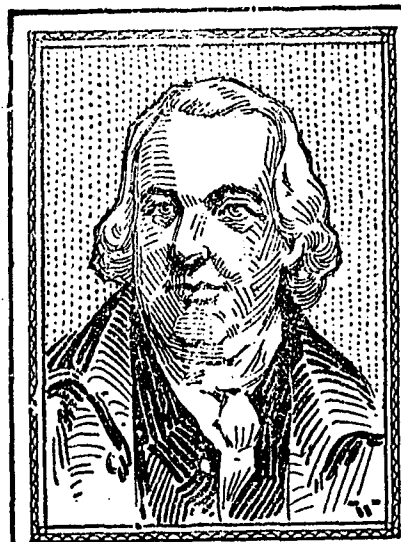

To this end we will endeavor to give you the most efficient service we have ever given both as to providing a stock of repairs, which will be larger than ever and much of which is arriving now, and also a full line of implements either in stock or in transit, for this year's use. For when it is a real necessity buy a new machine and thus raise more per acre and more acres per man.

We invite you all to come in and talk the subject over with us and if we can assist you we will do it gladly. It is our desire that you bring the boys along and allow them to see what we have and tell what their views are and hear what others have to say. And lastly the ladies are more than welcome and perhaps interested more than we give them credit for.

We will have some special feature during the week that will be of interest to all. The international Harvester Co. will have representatives here who will be glad to listen to any problems you may have about the operating of any machines you may possess.

Bring the Number or the Old Part for Any Repair You May Need.

GLEANINGS

Fred Bolon expects to leave next week to shear sheep in the country tributary to Whitebird. He says the sheep-shearing season usually lasts until about July 1, and that a fast workman can make as high as 15 a day.

Charles F. Houckens of Clarkston, Wash., was in Kendrick Monday on business.

Harry Langdon of American ridge was a Moscow visitor Saturday morning.

Charles Wortman went to Nez Perce Saturday, where he will make his home for the time being. His wife and children have been there for several weeks.

J. R. Haizlip was a visitor in Lewiston over the week end.

Archie May of Leland went to Moscow, Tuesday, to visit his mother at the hospital.

Ben Callison has 120 first prize ribbons and probably that many seconds which he took on his Rhode Island Red Chickens at poultry shows and fairs. He also has three silver cups which his poultry won for him. His father, S. P. Callison, is having a frame made for the ribbons, which he expects to take to Spokane for the exhibit next month.

Mrs. G. M. Lewis of Coeur d'Alene is visiting at the home of her sister-in-law, Mrs. Pearson. She arrived in Kendrick last Saturday. She likes her new home very much but says Kendrick will always seem like home to her.

The governor signed the cigarette bill which will cause all tobacco dealers to give a \$500 bond and take out a license of \$50.

A. E. Wilcox is beginning to get restless. His uneasiness is particularly noticeable when the sun shines. An explanation of his affliction might be found in the fact that baseball season is fast approaching and the Manager is still lacking a few players to fill all of the positions properly. He is looking for some new material that will help build up a winning team this season.

Mr. and Mrs. Ed Long and little son, Roy, returned from their trip to Washington and Oregon points. They spent five weeks on the trip and were so busy visiting relatives at Walla Walla, Dayton, Spokane and other points, that they didn't have time to get to the coast as they had planned. The only feature of the various localities which they visited, that seemed to appeal more strongly to them than the Potlatch, was the better roads. Mr. Long said nearly all other places are ahead of us on roads.

Rev. Howard W. Mort went to Lewiston on business the first of the week.

Wesley Thomas of Clarkston came up the first of the week to visit his brother, Martin.

The commissioners of Kendrick Highway District met in the city hall last Saturday afternoon. This was their regular monthly meeting. The regular routine of business was disposed of after which they viewed the road east of town, a mile of which they expect to surface with gravel.

A small boy who had been reprimanded by his mother showed signs of trouble on his mind when his father came home. "What's the matter, son?" the father asked. "Oh, nothing," was the reply. "I know better," said the father, "now

tell me all about it." "Well, if you must know," said the small boy, "I've had trouble with your wife."

Dr. Carsow was called from Lewiston, Thursday morning, to consult with Dr. Rothwell regarding the condition of the little son of Mr. and Mrs. E. E. McDowell, who has been seriously ill. While the child's condition is quite serious it is believed he will recover if no complications set in.

Mrs. J. E. Nessly of Moscow arrived Thursday afternoon to visit her sister, Mrs. Ralph Knepper.

Mrs. Raaberg and little daughter went to Clarkston Thursday afternoon to visit relatives.

Mr. and Mrs. R. E. Garrison came down from Moscow, Tuesday, to attend the Roll Call of the Rebekah Lodge.

"Is your husband much of a provider, Miilandy?"

"He jes' ain't nothin' else, ma'am. He gwine to git some new furniture providin' he gits de money; he gwine to git de money providin' he go to work; he go to work providin' de job suits him. I never see such a providin' man in all mah days." —Ex.

George Holbrook stated this week that while he was in Spokane last week he tried to get information regarding a shipment of 100 Duroc sows into this territory to be sold to the farmers at a nominal price; but the proper officers of his company were not in town. He hopes to get the proposition lined up on his next trip to the city, as a large number of farmers have mentioned the matter to him and have signified their willingness to buy one or more hogs from the shipment.

Kendrick ought to be able to support a tennis club. There is a splendid location for a court next to McDowell's store. It might be well to mention the matter to Leo Raaberg. He might start something along that line.

Sheriff John L. Woody came down from Moscow Tuesday afternoon to attend the annual Roll Call of the local Rebekah lodge.

Mr. and Mrs. A. C. Deeter and Mr. and Mrs. Lloyd Stanton, all of Moscow, attended the annual roll call of the Rebekah lodge, at the Fraternal Temple, Tuesday evening.

Mr. and Mrs. I. R. Morrison were Orofino visitors the first of the week.

A. K. Carlson and son, Frederick, spent the week end in Lewiston.

James Emmett is improving his property by building a substantial cement walk along the side of his residence lots.

Clarence Fry phoned from Linden, Thursday noon, that the Cedar Creek road along the Potlatch was undermined and in a dangerous condition. He said it would be unsafe for anyone to try to travel the road at this time.

K. D. Ingle has a White Leghorn hen that laid the biggest egg in Latah county last week. Editor McCrery of the Genesee News was talking some time ago in his paper about a Genesee hen that laid a big "cackle-berry", but we would like to have him take particular notice of the dimensions of the following egg, which were taken by a reliable engineer with accurate instruments. Its circumference around the long way is 3 1/2 inches and the smaller circumference is 6 inches, and weighs a little over a quarter of a pound. Mr. Ingle said that this remarkable hen lays one big egg every third day, so every third day he gathers his eggs in a wheel barrow, using a peevy to roll the egg into the conveyance.
