

Over The County

Genesee News: The rock crusher for the Rimrock Highway district is being put in place and the crushing of rock will be begun at once. It is expected that the surfacing of the four miles of graded roadbed will begin about the first of May.

The commissioners of the Rimrock district are to be congratulated upon the progress made with the road and the people of that district will be duly appreciative of the road when completed as there has always been as in other sections, some considerable bad places to negotiate during the wet season.

Julietta Record: Bruce Glenn, son of John Glenn of Potlatch ridge, is nursing a pretty sore arm, the result of having been bitten by a stallion, Tuesday. He had been working the stallion and had come in from the field for dinner. While watering the other horses of his team he held the stallion back intending to let him drink after the other horses got through. This seemed to make the animal mad and he grabbed Mr. Glenn by the arm, just below the elbow, and refused to let go until he had been hit over the head twice with a club. Mr. Glenn had on his coat which protected his arm to some extent and prevented more serious injuries than a severe bruise. The animal also tried to strike him with his feet but Mr. Glenn managed to keep out of the way.

Deary Press: J. H. Spear, of Spokane, spent several days here this week inspecting the clay beds of the local brick plant. He took samples of ten different clays which he sent to Chicago for laboratory tests. Mr. Spear is a member of the pioneer Spear family of Spokane, which formerly owned a number of the largest clay products plants in the Inland Empire. The interests were sold some time ago to the Washington Brick & Lime company and the Spears retired, but Mr. J. H. Spears again contemplates entering the business, and after investigating clay deposits in all parts of the country has come to regard those of this section as the most promising for his purpose. He took samples from here some time ago, which he tested in his own laboratory at Spokane. The 50-pound samples of each of the 10 clays sent to Chicago will be given final tests, and if the analysis proves satisfactory Mr. Spear will very likely go further with his negotiations here.

Star-Mirror: The school board met Monday night and elected Ph. Soulen, of Moscow, superintendent of the Moscow city schools at a salary of \$3,000 per year. Mr. Soulen has been professor of education at the University of Idaho for many years and is well known in school circles throughout the state. He assumes charge on June 1, when Superintendent Shank's resignation becomes effective. The board requested Soulen and Shank to get together and try to fill the list of teachers as soon as possible.

Troy News: The first of the week H. N. Enholm returned to Troy from a short trip in Canada and other places in the north. He was accompanied on his return by John Larson, of Spokane, an old associate of the ex-senator Clark of Montana, in the mining and drilling business. In an interview with the gentleman, he says, that he is very favorably impressed with the country lying around Troy. He says that the ground here shows that the mother earth contains many good showings for minerals of different kinds and he believes if properly worked they would be very profitable. He is much impressed with the outlook for oil in this section, as according to different tests that have been made in the surrounding country shows that this section is located in the center of the oil sands of the northwest.

Mr. Enholm since his return states that he has now secured five thousand acres of leases and that he has secured a drilling outfit that will move here some time this summer.

Show Interest in Baseball

A large crowd gathered at the baseball grounds here last Sunday afternoon to watch the prospective players of the local team in the first real practice. There was a good representation of men who played in the team last year and a number of promising new men. "Gabe" Forest, the Ol' Reliable was in the catcher's box as usual. G. Fleshman, who displayed some fast work in the pitcher's box, was on deck and will likely be one of the "slab artists" of the team. McCall of Potlatch ridge held down first base, which is his regular position. Jack Fleshman, also of Potlatch ridge, shows up well in the infield. Aaron McCrery is both a fast pitcher and a good infield man. He is always on the job. Jack Bechtol is an old third baseman and has played that position for a number of years on the Kendrick team in the past. Ira Bolon and Stuart Compton have been star players in the outfield for Kendrick for a number of years past. They are both good men. Wayne Candler practiced in the outfield and will try for a position on the team. There are a number of new men on the string who were not out Sunday.

Manager Wilcox is giving a dance and basket social next Friday night at the Fraternal temple and the proceeds will be turned into the baseball fund. With a good start financially and the present prospective line-up of players there is every indication that Kendrick will have a good ball team this year.

Explosion Sunday Night

Last Sunday night at about 11 o'clock almost the whole town was aroused by a terrific explosion. On investigation it was found that parties had set off dynamite behind the blacksmith shop owned by Billy Meyer. The explosive had evidently been placed in an oil barrel, as pieces of the barrel were found scattered for two blocks around. This was the most vicious, hoodlum exploit that has ever taken place in Kendrick. Whenever a crowd of young toughs get together and perpetrate an outrage that endangers the lives of citizens of the town besides destroying property, it is time to put a stop to it. The dynamite which was used was stolen from the Kendrick Highway district a short time ago. Sheriff Woody was in town investigating the affair, Tuesday. He secured considerable valuable information and said that if there was a repetition of any more such actions, arrests would follow. An idea of the extent of the explosion may be gained when it is learned that windows 100 feet away were shattered and pieces of the oil barrel were driven through the sides of frame buildings.

Ray Dorace Fleshman

Ray Dorace, the infant son of Mr. and Mrs. Geo. W. Fleshman of Leland, died Monday at 3:30 o'clock from acute indigestion. He was but 22 days old when he was taken away by death. Funeral services were conducted at the grave by Rev. Hall at 10:30 o'clock, Tuesday morning. The parents have the sympathy of the entire community in their great loss.

Sold 40 Acre Tract

G. F. Walker sold 40 acres of land this week to Calvin Skinner of LaCrosse, Wash. The land is located near Deary.

The drill is now running in Western Washington and is owned by the Sealeone Petroleum Company of Spokane. Now don't get the idea that you are going to get rich leasing your land, but take an even chance and lease to Mr. Enholm. He says that it is a gamble with him and you must help if you want your country to develop. Let's get oil.

As a Modern Filipino Actually Looks

There are hundreds of thousands of this type of young men in the Philippines. They are to be the future rulers of the destinies of the islands.

The Filipino has been much misrepresented in the United States. This is largely because the Sunday supplements have made a specialty of portraying the semi-naked non-Christian hill tribes as "typical" Filipinos, which is far from the truth.

The total population of the Philippines is 10,350,040, of which 9,495,272 are Christians and civilized, and have been so for 300 years, possessing a culture and refinement that will compare favorably with that of other countries. The number of non-Christians is 855,

368, and only a small percentage of them are uncivilized. They are fast becoming educated, and will ultimately make good citizens.

Seventy per cent of the inhabitants of the Philippines over ten years of age, according to the last census, are literate. This is a higher percentage of literacy than that of any South American country, higher than that of Spain, and higher than that of any of the New Republics of Europe whose independence is being guaranteed by the Allies.

Leith's Entertain Circle Club

The home of Mr. and Mrs. George Leith was the scene of a very enjoyable card party last Tuesday evening, the event being the semi-monthly meeting of the Circle Card Club. The house was tastefully decorated with ferns and lilies which gave a very pleasing effect.

The usual game of "500" was played and after a number of interesting hands, Mrs. William Rogers was a awarded first prize and Mrs. Aaron McCrery the consolation prize.

At a late hour dainty refreshments were served, consisting of pressed chicken sandwiches, pickles, fruit salad, wafers, coffee, ice cream and cake.

Members of the Club present were Messrs. and Mesdames Rogers, Kite, Boyd, Compton, McCrery, Ed Long and Mrs. MacPherson. Guests of the Club were Mr. and Mrs. Theo. Hanson, Harold Hanson and Miss Esther Lowery.

Teakean and Cavendish

There was a surprise dance at the home of Mr. and Mrs. Pete Olson last week. It was well attended and a very enjoyable time was reported.

Miss Jaunita Blackburn and Mr. Jess Daniels of Cavendish were united in marriage at Teakean, Thursday of last week. A grand chavivari was given in their honor. The people of this community unite in wishing them much happiness and prosperity.

Mrs. Jess Parsley and Mrs. Will Carey spent Saturday at the J. C. Petersen home.

Mrs. Dave Daniels went to Spokane some time ago to visit relatives.

A number of young folks gathered at the home of Robert Davis, Sunday, and spent a very enjoyable day.

Mr. and Mrs. Earl Halerker have returned from California. They are now located at Teakean.

Mr. and Mrs. Helmut Petersen, Mr. Shiffer and family, Mr. and Mrs. Pete Olson, J. C. Petersen and family and Mrs. Ed Choate and family visited at the C. Hoffman place, Sunday.

Wealthy Lehman of Teakean was a Kendrick visitor, Saturday.

Helen and Lyle Adams were up from Orofino, Friday, to spend the week end with their folks.

Kendrick Will Celebrate

At a meeting of the local Legion post held some time ago it was definitely decided to put on a celebration in Kendrick, July 4. The sentiment at the last meeting of the Get-To-Gether Club was strongly in favor of a celebration and the members of the club stated that if the Legion boys would appoint a committee from among their membership, a like committee would be appointed from the Club to meet and act with them.

The American Legion has appointed the following committee as an executive body: Tom Long, George Carlson, Ted Deabold, Walter Big-ham and Gabriel Forest. A meeting of the committee has been called for Monday night, April 18. It is very urgently requested that as many businessmen of the community and anyone interested in a celebration be present at this meeting. It will take place at the city hall at the usual time.

The Legion boys have already formulated plans for the celebration. They state that if the people of the community will co-operate with them and give them the required amount of assistance, financially and otherwise, there will be a big time in Kendrick July 4. It has been a long time since Kendrick has celebrated the Fourth and as the sentiment here is so strongly in favor of the event, there is every reason to believe that this will be one of the best celebrations ever put on by the town.

A full account of the action at the meeting next Monday night will be given next week.

Texas Ridge

John Gentry and Herman Baker spent the week end in Lewiston.

Mrs. Ogden and Mrs. Viola Baker spent Friday afternoon with Mrs. John Adams.

James Miller and family, Albert Pierce and wife were Sunday callers at the Geo. Eaker place.

Mr. and Mrs. Moore spent Sunday evening at the Viola Baker home.

Mr. and Mrs. Frantzich, K. O. Knudson, Mr. and Mrs. E. C. Babcock were entertained at the L. K. Dahlgren home Sunday afternoon.

Get Larger Rock Crusher

At a special meeting of the commissioners of Potlatch Highway District, held at Kendrick last Saturday, it was decided to trade in the rock crusher now owned by the district for a larger model. The commissioners have contemplated this move for some time. They used the smaller crusher to surface some of the worst sections of road in the Leland community and have found that with the same power and same number of men the larger model can be used and a much greater amount of rock crushed, thus lowering the cost per yard to a marked degree.

J. M. Woodward, secretary of the district stated that the plan of the commissioners has been to surface the worst sections of road first and when they have been put in first class shape the strips between will be surfaced. He said that the crushed rock that has been put on during the past year or more has stood up in fine shape and makes a very serviceable road.

Mr. Woodward says that the greatest problem that the commissioners have to contend with in building the grade is that their funds are limited and it is impossible to build many miles of permanent road each year. All they can do is to gradually improve the bad places and in time the roads in the district will all be in good shape.

Considerable improvement is planned in the road at the head of the grade near Cameron. The commissioners expect to have a section of this road surfaced this summer.

Farm Bureau Wants Fair

At a meeting of the executive committee of the Latah County Farm Bureau, held at Moscow last Friday, resolutions were passed endorsing a fair to be held at Moscow next fall. Following is a copy of the resolution:

Whereas, the members assembled at the annual meeting of the Latah county farm bureau voted to co-operate with other interests and organizations in conducting a county agricultural fair, and left the details of this cooperation in the hands of the executive committee of the farm bureau; now therefore

Be it resolved that the farm bureau will pledge itself to undertake to get in exhibits of farm produce to help make a county fair, providing the county fair association, Moscow Chamber of Commerce, and other interested organizations will finance said county fair; and

Be it further resolved that the president of the farm bureau is hereby authorized to appoint a committee of three, of which he shall be chairman, to represent the farm bureau and work in connection with committees that have been or may hereafter be appointed to represent other organizations interested in a county fair.

Resolutions unanimously adopted by executive committee of the farm bureau at a meeting held in Moscow on Friday, April 8th.

Leland Items

Mr and Mrs. R. B. Parks visited their people near Peck over Saturday and Sunday.

Mrs. McVicker entertained the Missionary Society, Thursday. After the business and devotional meeting the subject for study, "Our Mission work in San Antonio, Texas", was discussed. Mrs. Parks and Mrs. Mund read papers and gave a brief outline of our missionary work in that city. A lovely lunch was served at noon by the hostess, consisting of baked beans, sandwiches, salads, pickles, pie cake and coffee.

Mrs. Dean, the primary teacher is on the sick list this week and is not able to teach.

Wesley Ward is on the ridge assessing and visiting with his old time friend, A. H. Smith.

Says Display is Fine

Wade Keene, who has lived in Spokane for several years past is still a good Potlatch booster as the following card would indicate:

"Mr. Callison and Mr. Thomas have their display up and it has everything beaten by a mile, and that is going some, as the displays are hne. The display is attracting much attention."

The display mentioned by Mr. Keene is on exhibition at the Sportsmen's and Tourists' Fair, which opened this week. The display from Kendrick is the only one from Latah county.

The following account of the Sportsmen's and Tourists' Fair was taken from Tuesday's Chronicle:

"Every exhibit is in place. We have had no disappointments. The exhibit of fish we have on display has taken 12 tons of ice to freeze. All the attractions will be even better than we have promised."

Thus spoke T. M. R. Keane, chairman of the committee in charge of the Sportsmen's and Tourists' Fair which was officially opened this afternoon at 1 o'clock in the new Culbertson building.

Mr. Keane predicted an attendance of 6,000 for the first day and evening. "We expect to have 25,000 visitors during the fair," he said. We had over 14,000 in three days last year."

A telegram was received from the Montana fish and game commission this morning congratulating "Miss Spokane" and wishing her success on the opening of the second annual fair.

Among the notable exhibits is one from Kendrick, Idaho, sent by the Kendrick Chamber of Commerce. The exhibit, which is in charge of S. P. Callison, contains mounted heads of elk, deer and mountain goats killed near Kendrick, and numerous varieties of prize winning grains and agricultural exhibits. One display of wheat took first prize at the St. Louis exposition and one at the Lewis and Clark fair. Both were grown by M. V. Thomas at Kendrick. The mounted heads are owned by the Thomas family. Another exhibit consists of 130 ribbon won by the B. E. Callison Rhode Island Reds of Kendrick. A United States flag made from 40 different varieties of beans raised in that section is on display.

The Newman Lake exhibit labeled "An Old Timer's Camp at Honey-moon Bay" has even the scent of the wilds. The soil, plants and moss of the woods have been brought to this camp. An "A" tent complete with blankets, a log fire with frying pans in which a "bannock" is cooking and the bark table and knots of log chairs are all redolent of the woods.

The school children's exhibit of sporting cartoons, for which the Carlson Fur company is offering prizes, will be judged late this afternoon. The judges are T. M. R. Keane, William K. Shissler and Ernest Tomowkske.

The Spokane Hardware exhibit of mounted animals and birds is among the best representative of this class of exhibits.

School Notes

The six weeks examinations are being given this week. The honor roll is as follows:

Rita Leith—Algebra, history and English II.
Nellie Dean—Geometry, Chemistry, English IV.
Kester Dammarell—English IV, U.S. history.
Juanita McDowell—Typewriting.
Cecil Carlisle—Modern history.
Edith Dammarell—English II.
Lena Bibb—English IV.

Mrs. Morrison is training a chorus of high school students for the commencement exercises.

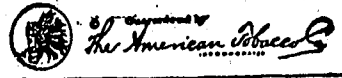

Friday afternoon a spelling match and a ciphering contest was enjoyed by the high school pupils. Egnaz Flagg was champion of the ciphering contest, and Nellie Dean won in the spelling match.

Cigarette

To seal in the delicious Burley tobacco flavor.

It's Toasted

Big Bear Ridge

Misses Winifred Roderick and Georgianne Suppiger departed for their homes in Pullman and Moscow, Sunday.

Miss Tora Halseth of Kendrick is spending the week at the home of her brother, Ed.

Preaching services at the Steele school house, Sunday morning, April 17th, by Rev. R. M. Hood of Kendrick.

Preaching services at the Lutheran church, Sunday, April 17th at 3 p. m., by Rev. P. Hesby of Deary. Axel Granlund of Deary spent Sunday with friends here.

Miss Johanna Hooker returned home Tuesday, having visited friends in Spokane.

Mrs. Leon Ingle was a Troy visitor, Tuesday.

A pleasant surprise was given Thorvald, Albert and Miss Emma Nelson, Saturday evening, when over forty of their neighbors and friends came in to spend an evening of social enjoyment.

The party was given as a surprise on them, and was in honor of the teachers, Misses Roderick, Johnson and Suppiger.

The girls appeared in their aprons, while the boys wore overalls, which added novelty to the occasion.

Delicious refreshments were served by the guests, while the taffy pulling proved a rare treat.

"We had so much fun", was the general comment when everyone departed for their various homes in the wee sma' hours of the morning.

The Test of a Man

The test of a man is the fight he makes,
The grit that he daily shows;
The way he stands on his feet and takes
Fate's numerous bumps and blows.
A coward can smile when there's naught to fear,
When nothing his progress bars;
But it takes a man to stand up and cheer
While some other fellow stars.
It isn't the victory after all,
But the fight that a brother makes;
The man, who, driven against the wall,
Still stands up erect and takes
The blow of fate with his head held

high;
Bleeding, and bruised, and pale,
Is the man who'll win in the by and by,
For he isn't afraid to fail.
It's the bumps you get, and the jolts you get,
And the shocks that your courage stands,
The hours of sorrow and vain regret,
The prize that escapes your hands,
That test your mettle and prove your worth;
It isn't the blows you deal,
But the blows you take on the good old earth,
That show if your staff is real.
—Quoted.

CLEAN COWPEAS MOST VALUABLE

Dealer Reaps Profit for Doing Work That the Grower Neglects to Perform.

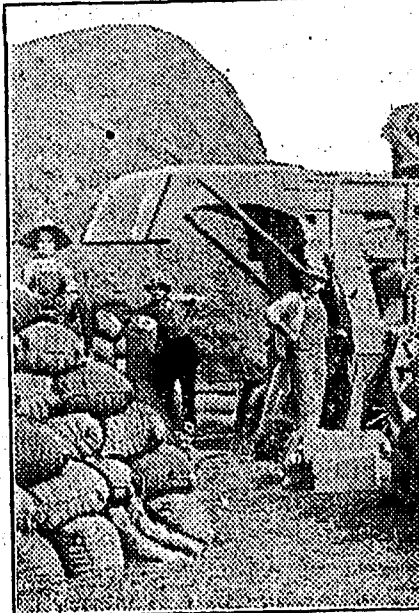

WIDE DIFFERENCE IN PRICE

Despite Commercial Shortage and High Market Prices Producers Do Not Sell More—Specialists Give Timely Advice.

Until the growers see fit to place their cowpeas on the market in a clean and attractive condition they may expect the wide difference between the price they receive and the wholesale price charged by the dealer to continue, say marketing specialists of the bureau of markets, United States Department of Agriculture. When the dealer is compelled to do work that the grower fails to perform, it is the dealer who enjoys the profits.

Marketing Factors.

According to estimates prepared by the bureau of markets some 100,000,000 pounds of cowpeas enter commercial channels every year. Of this quantity 25 per cent is of mixed varieties and sold at a discount of from 50 cents to \$1 per 100 pounds. A large percentage of it also is made up of poorly thrashed, unclean stock containing much foreign matter and packed in second-hand bags, improperly sewed. As a result of the use of these inefficient marketing methods the average wholesale selling price for re-cleaned stock during the spring of 1920 was 60

Cleaning Cowpeas Pays Well.

per cent higher than the average price paid the growers for the 1919 crop of cowpeas. Similar conditions prevailed

Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

A prominent business man and retired farmer of Kendrick was asked last week by a progressive farmer what method he would pursue if he were farming today. The answer was, "I would put in as big a crop as the Lord would let me at the least possible expense." Can you beat it for a piece of good advice? Many farmers have suffered heavy losses on account of the slump in wheat but they can't quit on that account. Next year may be a good year and much of the loss will be regained.

What Congress needs more than anything else is an investigating committee to investigate the investigating committees.

According to latest statistics the wild oats crop will be lighter than usual, owing to the high price of gasoline.

Considering the fact that the average mortal is endowed with eyes, ears and brain, he doesn't know very much.

Bootleggers over in the Clearwater country ought to wear buttons so that they will avoid the annoyance of trying to sell moonshine to each other.

with regard to the 1917 and 1919 crops. To secure higher prices for cowpeas, specialists of the bureau of markets, who have made a careful investigation of the matter recommend the following practices:

1. Clean cowpeas thoroughly before marketing. All hulls and other foreign matter, as well as light and immature seed, if any, should be fanned out.
 2. Keep the varieties pure. Only straight varieties should be planted for grain or seed production, and precautions taken to prevent mixing at harvest time.
 3. Sack in new even-weight bags, well sewed. This prevents waste in handling and the package will be more attractive to the buyer.
 4. Market in as large lots as possible. It costs the shipper or local dealer practically as much money to receive, weigh, record and pay for one bag of cowpeas as it does a ten-bag lot. If car lots are available the cost of handling per unit is still smaller.
- All efforts made by farmers or growers to improve the quality and marketability of cowpeas add to the initial selling price.

Cause of Shortage.

Cowpeas are usually grown as a catch crop, and on most farms regarded of secondary commercial importance. Yet the farm value of cowpeas produced in the United States is something like \$90,000,000 a year. Approximately 750,000,000 pounds of cowpeas are produced annually, about 45 per cent or 340,000,000 pounds of which is required for planting. Of this latter quantity 15 per cent is sold by growers direct to farmers and 30 per cent normally enters commercial channels to

be distributed by various dealers. In 1919, and again in 1920, the demand for cowpeas for planting purposes exceeded the commercial new crop supply, and abnormally high prices prevailed. Despite this shortage and the high prices, practically no effort was made to increase the commercial supply.

In the opinion of the bureau of markets the commercial shortage was not due to decreased production, but to failure on the part of the growers to prepare more of their cowpeas for commercial distribution. To increase the commercial supply it is seemingly necessary for growers simply to conserve the supply produced, and to prepare and market more of it for planting purposes. Such action would directly result in a larger profit to producers of cowpeas, and indirectly benefit farmer consumers who desire to grow the crop for purposes other than grain production. To feed cowpeas suitable for planting purposes to live stock is a practice that growers should readily perceive unprofitable in view of the prices that cowpeas now command.

FARMERS WARNED TO ERADICATE CHICORY

It Has Become Troublesome Weed in Many Sections.

Seeds of Plant Usually Distributed in Grass or Clover Seed in Which It Occurs as an Impurity—Readily Identified.

One man's meat is another man's poison; and chicory, grown as a vegetable in Europe, is likely to become a pest over here, says the United States Department of Agriculture.

Chicory is grown as a vegetable and forage crop in Europe and to a lesser extent as a vegetable in the United States. In some sections, notably in Michigan, there is a considerable production of the root for use as a coffee substitute. It readily runs wild, and the wild form has become in recent years a troublesome weed from the state of Virginia northward. Its spread has increased from year to year until the Department of Agriculture finds it sufficiently disturbing to justify a warning to farmers.

The seeds of the wild forms are usually distributed in grass and clover seed in which it occurs as an impurity. Farmers should watch for the appearance of the plants, readily identified by the blue flowers and thick roots, and eradicate it by cutting an inch or so below the soil surface. After cutting, drop a pinch of salt on the severed root, which will prevent sprouting. During the morning hours the bright, blue flowers are very conspicuous and it is easy to locate the plants and either pull or cut them. When it appears in quantity it may be eradicated by growing an intertilled crop, such as potatoes or corn, for at least two years. Continuous grazing by sheep or goats will also help destroy the weed.

Chicory was brought into Massachusetts from Holland in 1785. The principal use of the plant is as a coffee substitute and adulterant, for which the roasted dried root is used. Improved varieties of chicory are used as salads and greens. The young, tender roots are also edible. One variety produces witloof, a vegetable that is becoming increasingly important. As a forage plant chicory is little esteemed in the United States, but in Europe it is regarded as a valuable element in sheep pastures.

Information regarding the control and eradication of chicory is contained in Circular 108, United States Department of Agriculture.

PRESIDENT ENDORSES THE NEAR EAST RELIEF APPEAL

Washington.—President Harding has given his hearty endorsement to the appeal being made by Maj. Gen. Leonard Wood on behalf of the Near East Relief, 1 Madison Avenue, New York City, for a nation-wide Lenten Sacrifice Offering to save the starving Christians of the Near East.

The President's letter reads: "There ought to be no cessation or relaxation of our sympathetic American efforts to be of service to these stricken people. One can well believe that they will not survive if we withdraw the relief which has heretofore been so generous from the private American purse. It has seemed to me that all we have done has borne dividends tenfold in the consciousness that we have done an humane thing for a people well deserving our generous sympathy."

"I wish you the very greatest success in furthering the great relief movement to which you are now giving your attention."
"WARREN G. HARDING."

Chamberlain's Tablets Are Just What You Need.

When bilious
When constipated
When you have no appetite
When your digestion is impaired
When your liver is torpid
When you feel dull and stupid after eating
When you have headache
They will improve your appetite, cleanse and invigorate your stomach, regulate your bowels and make you feel "fine as a fiddle." They are easy to take and agreeable in effect.

Our White Goods Sale Ends Saturday, April 16

Many have taken advantage of the low prices offered during this sale. This is new, clean, crisp merchandise specially purchased for this selling event. We welcome you Saturday with prices listed below.

Ford Motor Company's Output For 1920

Was 1,027,677 cars and trucks; and 69,123 Fordson Tractors. On December 24th the Ford plant shut down for inventory, and on account of the general business depression, did not start general operations until March. Therefore there is a shortage of Ford cars at the present time, and many agents are entirely out. It will take from forty to 60 days for production to overtake the demand.

Anyone contemplating the purchase of a Ford car this spring should place their order now or they may be disappointed when they want delivery. The Ford cars will go to the agents who have the most orders. Remember—in buying a Ford car or Tractor, you get more value for your money than you do with any other car in the world, and the after service is unequalled by any other motor company.

PRICES CUT IN TWO

FOR EIGHT DAYS ONLY

Furniture at Half Price

BEGINNING

SATURDAY, APRIL 16

Disregarding all previous cut prices, we will quote For Eight days only, our entire stock, 8 or 10 items excepted, at 50c on the dollar.

But remember you must be here on these days to take advantage of this great
BARGAIN OPPORTUNITY

Space does not permit us to tell you of the ridiculously low prices that will stare at you.

READ THE WARNING BELOW

Here are just a very few examples: a big, massively built Colonial full quartered oak dresser, regular price of \$39.00, to go at \$19.50; \$39.50 heavy 8-foot quartered oak table for \$19.75; fine, big kitchen cabinets, with top and base complete, we have sold lots of them at \$30.00; now they will go at \$15.00 complete; full size all pure cotton mattresses which were considered bargains at \$15.00, will now go at \$7.50; \$25.00 rocking chairs at \$12.50; size 28x48 massive built quartered oak library tables, were low priced at \$30.00, now go for \$15.00; and so throughout the entire store. In fact, prices on furniture for these eight days only, will be 25 per cent less than they were in 1912, which you will admit is some real bargain.

Warning: This terrific slaughter of prices must not be misconstrued by the public, as meaning a permanent price level on furniture; it will be your loss if you let such a thought keep you away now. We say with absolute truth that we cannot replace these offerings for within 35 per cent of the prices we will quote for these eight days ONLY.

This is simply our method of raising some ready cash, and to help share a general loss that is felt by all the community.

PUBLIC AUCTION WEDNESDAY, APRIL 20 AT KENDRICK, IDAHO

Sale Starts Wednesday, April 20, 10:00 a. m. and Continues Until All is Sold ---Following is a partial list of goods to be sold and terms of sale

On Wednesday, April 20, at 10 o'clock, we will sell the entire stock and fixtures of the Carlson Hardware and Implement Stock at Kendrick, at Public Auction. Stock will be sold piece at a time or in lots to suit purchasers. There will be no by bidding or other fake methods used during the sale. This sale will be conducted the same as a regular farm auction. The auctioneer will start at one corner of the store /

used during the sale. I his sale will be conducted the same as a regular one. The owners have authorized THE GREGSON SALES CO., of and offer each article to the highest bidder, and the highest bid buys. To those who have attended a sale conducted by this well Spokane, to dispose of all their stock and fixtures at Kendrick by Public Auction. To those who have attended a sale conducted by this well known firm, nothing more need be said as you know there will be some tall stepping in Kendrick as long as this sale lasts. Read every word of this poster, then COME TO IT.

TERMS OF SALE

All amounts less than \$20.00, cash. For larger amounts, approved notes will be accepted, due October 1, with interest at 7 per cent per annum. Liberty Bonds and Thrift Stamps accepted, face value for any amount.

Auctioneer's Note

We are informed that an auction of merchandise is a new thing in this community, hence this explanation. The main thing is to be there when the door opens and keep your eye on the auctioneer every moment, as the bidding will be fast and furious. DON'T MISS one minute of the sale, as the thing you want may be sold during your absence. It's a bona fide auction sale; every article goes to the highest bidder. An Absolute Auction.

TRY TO GET IN

STORE CLOSED

Positively no goods sold after Saturday, until Wednesday morning, April 20, at 10 o'clock.

Free Lunch at Noon

There will be a free lunch served in the store at noon, free to all. Come on Dad, bring mother and the kiddies, enjoy the day, and profit.

G. T. Gregson Will Officiate In Person

I will be on the job personally and speed will be our motto from start to finish. I have looked over this stock and pronounce it one of the cleanest and best of this line we have handled this season. I urge you to attend this sale every hour and buy all you can.

WOODLOT WORTHY OF PROPER CARE

Like Other Farm Crops Trees
 Must Be Well Taken
 Care Of.

HARVEST SEASON IN WINTER

Two Types That Require Different
 Methods of Handling—Cutting As-
 sists Greatly in Thinning and
 Cultivation.

Wheat, corn and potatoes require
 planting, care and cultivation. The
 crop of wood that grows on the farm
 woodlot requires much less care than
 these others, and in the majority of
 cases it is already growing on the
 farm when the farmer takes the land.
 Doubtless this fact makes it difficult
 for the farmer to see this crop in the
 same light in which he regards the
 others. Any other farm crop must be
 cared for or it will fail, and the stand
 of wood on the woodlot is no excep-

Cutting a Crop From the Woodlot.

tion, though the progress of deteriora-
 tion is not so rapid and may extend
 over a long period of years.

A properly cared-for woodlot will
 furnish the farmer a cash crop at reg-
 ular intervals and will always afford
 a supply of timber and fuel for home
 use. The harvest season for the wood-
 lot comes in the fall and in the winter,
 and the gathering of the harvest as-
 sists also in the thinning and cultiva-
 tion of the crop.

Require Different Methods.

In general, there are two types of
 woodlots, says the United States De-
 partment of Agriculture, and each of
 them requires a different method of
 handling. The first type is character-
 ized by the presence of old trees
 which dominate the stand. The sec-
 ond type is made up of a nearly even-
 aged stand of second growth.

In the first type the old trees may
 almost exclude the younger growth,
 or they may exist as a few scattered
 individuals throughout the stand.
 Such material is very likely to be
 losing value. The way to check the
 loss is to cut the old trees which have
 attained a mature growth and make
 room for a new stand of seedlings. A
 mature tree should be cut for the
 same reason that one cuts a crop of
 wheat when it is thoroughly ripened.
 No dead or diseased timber should be
 allowed to stand.

A woodlot composed entirely of ma-
 ture trees should not be cleared at one
 cutting. The work should be carried
 on in stages with sufficient interval
 between the cuttings to allow a new
 crop to come up. If this method is fol-
 lowed carefully, the farmer will al-
 ways have a crop of wood ready for
 harvest on his woodlot. When the ma-
 ture timber is removed in two or
 three cuttings, the first cutting should
 be so managed as to open up the
 crown cover somewhat, so that the
 leaves on the forest floor may decom-
 pose more rapidly and the germination
 of the seed be made more certain.
 The remaining trees become more wind-
 firm, and, as a result of their crowns
 receiving more sunlight, they produce
 more seed. When the forest floor is
 in good condition the second cutting in
 a mature woodlot can be made during
 the winter following a heavy, seed
 year. Neither the first nor the second
 cutting should be so severe as to al-
 low an abundance of sunshine to reach
 the forest floor, since sunshine stimu-
 lates the growth of weeds and other
 trash.

Thinning the Stand.

In the second type of woodlot,
 where the farmer has an even-aged
 stand of second-growth timber, he may
 begin to harvest his crop by select-
 ing first the undesirable species.
 Often in such stands, such trees as
 ironwood threaten to overtop, crowd
 out, or damage the more valuable spe-
 cies like white ash or tulip poplar.
 Sprouts sometimes arise too thickly
 from the stump of trees recently cut,
 or the reproduction of a good species
 is too dense. In any of these cases
 some of the trees should be removed.
 This process is nothing more than
 the weeding out of the poorer individ-
 uals where they interfere with the
 better ones. In somewhat the same
 manner, a thinning cutting is used
 when, in from 15 to 20 years, the
 young stands reach a dense condition.
 The principle is exactly the same as
 that applied by the truck gardener
 who thins out his plants to secure the
 best development of a portion, rather
 than a poor development of the whole

CO-OPERATION SERVICE

A bank to a large extent is a part-
 ner of its clients. Its success de-
 pends upon their success. It must
 develop their business in order to
 develop its own.

With this in mind we are
 constantly looking for new service
 features.

We have just installed an ex-
 change board in the lobby of our
 bank. If you want to buy, sell or
 exchange any stock, feed, seed or
 implements, just call or write and
 we will be glad to give your wants
 publicity.

eW have but our service—the best we can give.

The Farmers Bank

"The Bank that helps you Prosper."

"Here's Real Tobacco"

says the Good Judge

That gives a man more
 genuine chewing satis-
 faction than he ever got
 out of the ordinary kind.

Smaller chew, lasts longer
 —so it costs less to chew
 this class of tobacco.

And the good, rich to-
 bacco taste gives a world
 of satisfaction.

Any man who uses the
 Real Tobacco Chew
 will tell you that.

Put up in two styles

W-B CUT is a long fine-cut tobacco

RIGHT CUT is a short-cut tobacco

Weyman-Bros. Co. Company, 1102 Broadway, New York City.

We Thank You for Your Patronage

During Repair Week

And we urge those who have not placed their orders
 to do so as soon as convenient.

Seed Time is Here

We believe that more alfalfa, red clover, alsike or
 timothy are good seeds to sow to build up the soil.
 These for hay or pasture, and corn for silage will re-
 lieve the one crop policy, make your farms worth
 more by producing more, and save a lot of plowing
 and seeding.

We have a limited amount of home-grown alfal-
 fa which you will want to sow. Also a full line of
 field and garden seeds. Any seed which we do not
 have in stock will be gotten for you promptly. We
 are the seed house of the Potlatch.

Splendid Weather to Paint

Remember that when you save the surface you save
 all. A full line of paint, oils, varnish, turpentine,
 stains and enamels. Brushes, automobile paints,
 sponges and chamois for cleaning your car.

Poultry Netting, Barb Wire, Field Fence

A full line for your spring requirements.

We are at your service at all times. Use the phone
 or mail.

The Kendrick Hardware Co.

Your Declaration of Independence

Follow your country's example. Declare your inde-
 pendence—freedom from the tyranny of financial
 worries. Banish the fear of the future. Win your
 complete freedom—and hold it. You do all these
 by starting to save and keeping at it.

Your signature to your initial savings deposit slip
 is your declaration of independence. Every daily or
 weekly deposit will be a celebration—safe and sane.

Save for Your Future

Ready cash makes you ready for opportunity. To
 be financially prepared is to have practical insur-
 ance on success.

You dream of the future. Why not plan to realize
 those dreams? Decide on a definite saving policy
 and stick to it with determination. You will be
 building character
 as well as capital.
 And character will
 bring you extra
 capital when you
 need it. Sign your
 declaration of in-
 dependence today!
