KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, APRIL 22, 1921

NUMBER 16

Over The County

Deary Press: The early morning hours of Monday were slithered up by the roaring past of the Potlatch Lumber Company's logging train, and the noise was most welcome after the silence of the past few weeks. The logger is now making daily trips.

The Potlatch mills will start soon, according to reports. Road building in the vicinity of Camp 1 continues, but nothing has been given out as to when the logging camps will start. There are twenty or thirty million feet of logs already cut, it is said and these are now being hauled out by the logger.

Julietta Record: The little son of Leonard Fairfield narrowly escaped serious injuries one day last week on the A. J. Stevens place on the hill above Cherry Lanes, when the team his father was working ran over him. Mr. Fairfield had harnessed the team and was preparing to drive it to the field to plow. He hung a plowshare on the hames which frightened the horses and they ran away and the little boy being in front of them was run over and knocked down but escaped serious injuries, being more scared than hurt.

Troy News: Dr. Parr is building a separator to thresh garden seeds and beans. The cylinder of the machine is made from the trunk of the same fir tree that his nephew, Dick Parr, of Pullman, made a violin from that he sold to Patta Wenskia, the noted Russian Violinist, for \$250. Dr. Parr is making the machine to stand the work and is erecting it so that it will have a fanning mill to clean the seed as it comes from the separator.

Genesee News: The Sportsmen's and Tourists' fair held at Spokane last week proved to be as great a success as the most optimistic hoped. Many sections of the Inland Empire entered exhibits with a view to attracting business and great crowds thronged the show. The consensus of opinion was that the exhibition afforded a remarkable opportunity for constructive publicity and that the sections represented in the show would profit very substantially as a result of their enterprise. The exhibit of game fish was the most comprehensive in the annals of the Inland Empire.

Star-Mirror: The University of Idaho will this year offer a nine-weeks' summer school, beginning June 13, in addition to the customary six weeks' term beginning the same date, President Upham announced today.

"This action is necessary in order to accommodate the teachers of the state, as the last session of the legislature passed a new school code making it compulsory for all teachers seeking certification under the Idaho statutes to attend a professional school for the greater length of time.

"The new code also provides that hereafter all high school teachers shall be college graduates," said President Upham. "The nine-weeks term will give teachers an opportunity to advance their certification and at the same time secure college credits toward a degree.

"An extensive curriculum adapted to the specific needs of Idaho teachers is now being arranged."

The Only Way

If you toot your little tooter
And lay away your horn,
Within a week there's not a soul
Will know that you were born.
The man who tries to advertise
By short and sudden jerks,
Is the man who's always kicking
Because it never works.

The fellow who is on the job
A-humpin' every day,
And keeps forever at it,
He's the one who makes it pay.
—Hubbell's Individuality.

Jesse Collins of Lewiston was in Kendrick, Wednesday, on business.

Chautauqua Dates Fixed

The following letter, giving the dates for the Kendrick Chautauqua, was received last week from the Ellison-White Company:

It gives us pleasure to announce that this year you will be served by the longest and best Five Day Chautauqua Circuit in America. We have contracted for the most costly program we have ever presented on this circuit. Your Chautauqua, which will come on the dates now definitely set as June 15th to 19th inclusive, we feel will thoroughly delight you. This year we will bring to you among other attractions:

Carveth Wells, with his splendid illustrated lecture on the Malay Peninsula.

Judge George D. Alden of Massachusetts.

Valda Four, an all-star Male Quartet.

Witepskie's Concert Orchestra in joint appearance with Miss Olive McCormick, Prima Donna Soprano. A. Mather Hilburn, impersonator and make-up artist.

The Apollo Duo, for eighteen years leaders of the Apollo Concert Co.

"It Pays To Advertise", presented by the Keighley New York Players, an all-professional cast. Ever since we have been conducting Chautauquas in the West it has been our ideal to place our business on a purely "Non-Profit Basis". This has been impossible until now, but hereafter every dollar taken in by our many chautauquas will be used for talent or service and not one cent will be kept for private gain.

The Tobacco License Law

Every person or firm handling tobacco in any form, in the State of Idaho, must have a license. The penalty for operating without a license is a fine of not less than \$100 nor more than \$300 or jail, not exceeding six months, or both.

The license must be conspicuously displayed in place of business where tobacco is sold. If you have more than one store you must have a separate license for each store.

All licenses expire on December 31st, the year of issue. The license fee is \$50, and a bond of \$500, whether a whole year or a part thereof, but for the balance of 1921 the fee of \$30 is required, and bond of \$500.

A license can be transferred by returning the original license to the Department, and the filing of a new application and a new bond by the transferee.

The penalty for violating the laws pertaining to the sale of tobacco or cigarettes to minors is a fine of not less than \$50 nor more than \$100 for the first offense and not less than \$100 nor more than \$300, and by imprisonment in the County jail for a period of not to exceed six months, and the forfeiture of your \$500 bond on conviction.

If your license is once forfeited you cannot secure another license for five years from date of forfeiture.

A minor cannot have tobacco in any form in his possession. It is a violation of Chapter 262 to allow a minor to smoke or use tobacco on your premises.

School Notes

Egnaz Flagg was absent from school the past week, due to illness.

The Kleth family have moved to their ranch, decreasing the school enrollment by five.

The averages for the high school for the past six weeks, are as follows: Boys 80.1; Girls 87.8; Freshmen 79.6; Sophomores 83.66; Juniors 88.3; Seniors 91.67.

Walter Bencoter spent the week end in Clarkston with relatives.

TESTS OF 29,638 SEED SAMPLES

With This Equipment Grain Dealers Can Make All Tests Necessary to Determine Proper Grade of Grain.

During the year ending June 30, 1920, the United States Department of Agriculture tested 29,638 samples of seeds for farmers preliminary to planting. Of these, 16,442 were tested in Washington and 13,196 at the five branches. Under the seed importation act 69,000,000 pounds of seed were permitted entry during the fiscal year, which was more than the total for the previous three years. Nearly 5,000,000 pounds were held at port, more than half of which was reclaimed and the balance ordered destroyed or exported. Red clover and alfalfa, crimson clover, rape seed, and alsike were among the leading seeds imported.

Sale Draws Big Crowd

The auction sale of the Carlson Hardware stock drew an enormous crowd to Kendrick on the opening day. Weather conditions were very favorable and people came from all over the surrounding country to be present at the sale. When the doors opened Wednesday morning the crowd fairly seethed into the store and it wasn't long until standing room was at a premium. Many were not able to get into the store during the morning session. The sale is under the personal management of G. T. Gregson of the Gregson Sales Co., of Spokane. He is assisted by Colonel Walks of Moscow. They make a good team and at the end of the first day a big hole was made in the hardware stock at very satisfactory prices.

Thursday the weather was extremely unfavorable as the steady downpour of rain prevented many from coming in from the country. However, the store was almost full soon after the doors opened in the morning.

The prize of \$25 was drawn by Cecil Emmett, Thursday morning. The Presbyterian Ladies Aid served lunch at noon in the hardware building.

Installing Ice Machine

N. B. Long & Sons are installing an ice machine, received the first of the week. The machine is one of the latest types and will be the means of keeping frosted pipes in the refrigerator of the meat market during the hot weather, thus doing away with the inconvenience of handling ice.

The machine is operated by an electric motor. It isn't much larger than an ordinary cream separator but attachments can be put on making it possible to manufacture blocks of ice in large quantities. The local firm, however, will use it only for refrigerating purposes. With this machine installed they will be able to put frosted pipes in any of their show cases if they so desire. It is estimated that the cost of operating a machine of this size is approximately \$20 a month.

School Election Last Monday

Very little interest was manifested at the school election last Monday. M. B. McConnell was nominated to succeed N. E. Walker, whose term expired. As there was no opposition, but few votes were cast, only seven in all. The only other issue was the ten mill special levy which carried.

Mrs. Emory Jenks Dead

Tribune: At 12:30 o'clock Tuesday occurred the death of Mrs. Myrtle L. Jenks, wife of Emory Jenks, at the home in North Lewiston, after an illness of several months. Mrs. Jenks was in the 44th year of her age, having been born at Garnett, Kansas, May 25, 1877. She was united in marriage to Emory Jenks in 1900. She is survived by three brothers and two sisters: Otis L. Stone and Clifford Stone of Lewiston; W. L. Stone of Touchet, Wash.; Mrs. May Owens of Peck, Idaho, and Mrs. Sylvia Jenks of Lewiston.

Mrs. Jenks was a member of the Rebekah order and a woman of most estimable character and helpful nature. The funeral will be held Thursday morning at 10 o'clock from the Vassar chapel.

Do Hens Pay?

Nez Perce County Farm Bureau News: The country is full of abandoned poultry houses, yet many farmers who give their poultry the proper care and attention find it among the most profitable sources of income. It is very often the case that under conditions that the poultry is handled a farmer has to spend as much time taking care of 50 hens as he would 300 under a labor saving plan of operation. Mr. Fren Moore, the poultry specialist of the Extension Division, says that the four things that must be given proper attention in handling poultry are feeding, breeding, housing and culling. The neglect of any one of these would mean practical failure.

The following from the Sherman county, Oregon, Farm Bureau News, shows what a wheat farmer thinks about poultry: "Fred Cox, of Grass Valley, finds at the close of the year that his White Leghorn hens paid him \$4.07 each above the cost of feed purchased for them. Fred says they paid his store bill throughout the year and besides he purchased some gas at this store on the same account.

"Mr. Cox has a good hen house and sees to it that the hens are comfortable, are kept busy, and have proper feed and in return they shell out commodity that keeps Fred on Easy street while the wheat market sags."

According to the records of the Latah county assessor's office, 600 owners of automobiles have not taken out licenses for 1921. Last year there were 2,160 auto licenses sold against 1,560 so far this year.

Ask Damages For Injury

At an adjourned meeting of the Village Board, held Tuesday evening, a communication from H. P. Hull was read. The communication asks damages from the Village of Kendrick to the extent of \$250 for injuries received by Mrs. Hull last winter. The board will take no action in the matter.

Following is a copy of the communication:

Kendrick, Idaho, April 18, 1921
Hon. Chairman and Board of Trustees of the Village of Kendrick, Latah Co., Idaho.
Gentlemen:

On January 16th, 1921, my wife, Mrs. H. P. Hull, while returning from church, fell on the sidewalk on the west side of 9th street at the alley between Main and A Streets, badly spraining her arm, tearing the ligaments loose and was unable to use said arm for over six weeks, and is still able to use it only partially. She has suffered great pain ever since and her arm will never be in condition it was before the fall.

The fall was caused by water overflowing from the Village reservoir and being allowed to flow down said sidewalk, also by allowing children to slide with their sleds on the ice formed from said water.

I am informed by their negligence as above, the Village of Kendrick is responsible for said fall.

Mrs. Hull has been to considerable expense in having her arm attended to and has suffered from loss of work and great pain by said fall, and notifies you she holds said Village responsible for her damages. That if said claim is paid at once she will take \$250.00 in full settlement and trusts that she will not be compelled to seek her damages through the courts.

Yours respectfully,
H. P. Hull.
Acting for my wife Mrs. H. P. Hull.

Baseball Benefit April 29

Plans have been outlined for the baseball benefit basket social and dance, to be held at the Fraternal Temple, Friday night, April 29, which is a week from today. All of the net proceeds from the dance and sale of baskets will be turned into the baseball fund.

As much of the success of the dance depends upon the ladies bringing well filled baskets, it might be well to plan on fixing up baskets that will bring about fifteen dollars apiece. The management is advertising the proposition that any basket that is bid up to \$15, half of the amount, or \$7.50 will be refunded to the lady who brought the basket, so you see, it will be a money-making scheme both ways. The baskets will be auctioned at 11 o'clock, during an intermission of the dance.

Another feature that will prove attractive is that N. Brocke will serve coffee and it will be free.

The baseball management has secured the U. of I. Jazz Hounds to furnish music for the dance.

Four games have been scheduled this season as follows:
Kendrick at Julietta, April 24.
Bovill at Kendrick, May 1.
Julietta at Kendrick, May 8.
Kendrick at Lewiston, May 15.

Rock Crusher Delayed

The rock crusher, ordered by the Kendrick Highway District, has been delayed in transit. Mr. Davis, representative of the company, phoned from Lewiston last week that a carload of crusher shipped out of Portland had been in a wreck and the one billed for Kendrick had been damaged to some extent. He said it was optional with the commissioners here whether he should send this crusher or return it to the factory and have a new one shipped to Kendrick. As the commissioners will not be ready for several weeks to begin crushing rock, they chose to have a new machine shipped out of Portland. It ought to be here most any time.

Club Met Tuesday Evening

Last Tuesday evening the Get-To-Gether Club met at the Electric Cafe during the dinner hour to discuss matters of importance to the town. Owing to very poor weather conditions the attendance was not as large as usual, but those who were present enjoyed a splendid dinner prepared by the management for the occasion. The feast was most ample and well served and those whose places were vacant missed a real treat.

The first business of the evening was a report of the Sportsmen's and Tourists' Fair, which was held at Spokane last week. S. P. Callison gave a brief outline of the features of the fair and stated that the exhibit sent from Kendrick was unique, in that it was of a more general nature than from any other locality. Most of the exhibits were sportsmen's trophies entirely, while the one from Kendrick included agricultural displays, medals, cups, prizes, etc., as well as a fine display of mounted heads of deer, elk, mountain goat and specimens of stuffed birds and other interesting trophies. Mr. Callison stated that the Kendrick exhibit drew forth many favorable comments. The Club thanked Mr. Callison and Mr. Thomas for the interest they had taken in the matter.

Attention was then directed to the appointment of a committee from the Club to work with a committee from the American Legion to put on a celebration in Kendrick, July 4. Following was the committee named: Ralph B. Knepper, A. V. Dunkle, M. O. Raby, N. E. Walker and Edgar Long. The committee was instructed to meet with the executive committee from the American Legion and formulate plans for the coming celebration.

Harry Stanton, member of the local school board gave a short talk stating that unless there was some other means of raising money to run the school than the regular and special levy allowed by law there would have to be some retrenching done next year as it was impossible to get sufficient funds to keep the school going at its present standard. He suggested that it would be a good idea for everyone present to think over the proposition of forming an independent school district. This would necessitate the election of five trustees instead of three. The trustees would handle all school funds but no special aid could be received from the county. Good and bad points regarding the new plan were brought up.

A communication from the Ellison-White Chautauqua Company was read by Chairman McKeever. The letter stated that the dates for the Kendrick Chautauqua would be June 15-19 inclusive. It was decided to have a general meeting of the guarantors Saturday evening, May 7, at which time plans will be laid for the best method of handling the Chautauqua this year.

There was nothing further of interest brought up, and as the hour was late a motion to adjourn was unanimously carried.

Uppers vs Lower

A most thrilling baseball game was played on the local diamond last Saturday afternoon when the upper end of town boys played the lower end boys. The dividing line between the contesting teams was the city park. When the whistle blew for the contest to start there were only five men on each side. However, as the shortage of four players on each team was mutual, the game proceeded without any apparent inconvenience from the scarcity of players. The score at the end of the game was 12 to 1 in favor of the Uppers. Following is the lineup: Uppers: Wilson Rogers, Wallace Bramer, Robert Dammarrell, Howard Dammarrell, Wesley Austin; Lower: Delbert Turner, Tony Huffman, Car Sparger, Harry Flaig, Walter Brocke.

E. W. Lutz returned, Wednesday, from a business trip to Lewiston.

LUCKY STRIKE CIGARETTE

Texas Ridge

Grandma Tout is visiting a few days at the Tom Labolle home.

Mr. Randall and daughter, Mrs. Frantzick, were callers at Quesenberry's, Saturday.

Mr. and Mrs. Chas. Dahlgren visited at W. H. Head's place, Sunday.

Harry Baker made a business trip to Juliaetta, Monday.

Mr. and Mrs. George Eckers visited at Frank Bailey's, Sunday.

Mr. and Mrs. Frantzick and Mr. Van Randall were Sunday dinner guests at E. C. Babcock's.

Orville Miller, who is teaching at Peck, spent the week end at the L. K. Dahlgren home.

Nearly six inches of snow fell Friday night, but it had all disappeared by Saturday night.

Mr. Gentry and family are moving into the Carl Gustafson house.

Mae Weber spent Sunday with her parents, Mr. and Mrs. Chas. Weber.

Mr. and Mrs. Chester Bogar are moving into one of the Drury cottages.

Crescent News

Mr. and Mrs. J. M. Kyle returned from Spokane, Wednesday.

At the ball game Sunday it was decided to have a picnic at Mulkey's Sunday, April, 24th and clear a ball diamond.

"Come with a whoop,
Come with a call,
Come with a good will
Or not at all."
Bring your baskets and your wife
Come and have the time of your life."

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

J. C. Petersen of the Deary Press thinks the job of highway commissioner is a hard one at best. He sizes up the situation in the following manner: The job of commissioner may properly be called one heck of a post, calling for the wisdom of Solomon, the patience of Job, the diplomacy of Lloyd George, the sweetness of a June bride and the sacrifice of valuable time without remuneration or hope for salvation."

There were 61 lynchings in the United States last year. But gruesome as this is, it is a decrease of 22 from 1919. If this rate of decrease could be maintained in 3 years the record would be clear. There were 56 instances recorded in which officers of law prevented lynchings, tho in 4 cases only after mobs had been fired upon and 7 attackers killed.

Linden Items

Mrs. Vaughan spent Sunday at the McCallister home.

George Garner and family spent Sunday at Rube Garner's.

A large crowd attended the dance at C. T. Mulkeys, Friday night. All reported a good time.

Miss Hammond spent Saturday evening with Miss Sutton.

Miss Celia McPhee, Mrs. Vaughan and Teddie, spent Monday evening at the Bohn home.

Frank Starr went to the Meadows, Monday.

Miss Myrtle Hammond spent Monday night at the George Garner home.

Mrs. Foster, Miss Eva Smith and Mrs. Shingler and sons, spent the day, Monday, with Mrs. J. P. Alexander, it being her birthday.

Mr. Longfellow has been sick the past week.

School is out Friday at the Gold Hill school.

Mr. and Mrs. Stewart Wilson, Mrs. McPhee, Miss Celia and Mrs. Bohn, Miss Hammond and Frank Starr spent Sunday afternoon at Eva Smith's.

Mrs. Kunes returned to Lewiston after spending ten days on the ridge

visiting with friends.

Clem Isreal returned Tuesday, from Lewiston, where he had been under medical treatment for his hand, which was hurt on the saw last Tuesday.

The baseball fans were all out Sunday to the ball game at C. T. Mulkey's.

Mr. J. P. Alexander is visiting his daughter in Lewiston this week.

Mix Smith returned to Juliaetta after spending a week with Miss Eva.

Methodist Church
Howard W. Mort, Pastor

"Is God on Your Visiting List?" This is the title of the evening sermon at 7:30 o'clock. It might be well to discover whether or not you do not owe Him a call.

That also applies to the Sunday school at 10 o'clock. At least be a visitor, you might want to be a regular.

Epworth League at 6:45 p. m. It's really worth your while. Be on time if you don't want to miss anything.

Mid-week services 7:45 p. m. Wednesday evening.

American Ridge—Sunday school at 10 a. m. Preaching at 11 a. m. We want you with us both services.

MAKE RIGHT USE OF RABBIT SKIN

Value Depends Greatly on Their Condition and Are Always in Good Demand.

DIRECTIONS FOR PREPARING

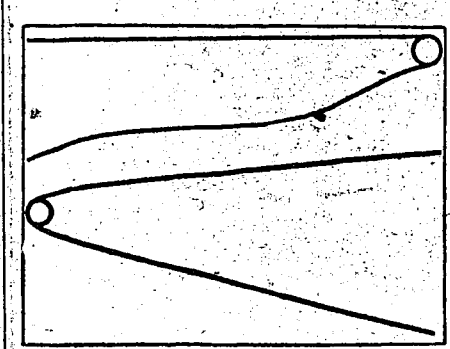

Department of Agriculture Bulletin Tells How to Skin, Stretch and Tan—Preferable to Sell to Local Fur Buyer.

(Prepared by the United States Department of Agriculture.) Rabbit skins should always be saved, as they have a value, depending on their condition, and are regularly in demand say scientists of the biological survey, United States Department of Agriculture. A skin may be prepared for market with less trouble than is required to bury it. It has only to be drawn, flesh side out, over a piece of thin board or No. 9 gauge galvanized wire, shaped to give it a uniform tension, and hung in a shady, well-ventilated place, such as an open shed, until it becomes bone-dry. Artificial heat should not be used to dry skins if it is possible to dry them otherwise before there is danger of their becoming sour or moldy. Usually after hanging a week or 10 days

skins may be removed from stretchers.

Skinnering the Rabbit. An experienced hand can skin a rabbit in less than one minute. With a sharp-pointed knife slit the rabbit from one heel past the under side of the tail to the other heel. Then twist each hind foot until the knee sticks out through the slit in the skin. Pass the fingers between the muscle and the skin to separate them and break the skin at the base of the tail so that the bone may be pulled through them, thus stripping off the skin. It is then convenient to hang the carcass by the hamstrings as high as the operator's head, from iron pins driven eight inches apart into a horizontal scantling. By using the knife a little around the flanks, shoulders, eyes, and lips and by severing the ears from the skull, the skin may be stripped from the body, inside out, as a glove is turned from a hand. If care is taken the skin may be removed whole, thus preserving the pelt and at the same time leaving no hairs on the meat.

Unless one is killing a great many rabbits, it is usually preferable to sell the dried skins to a local fur buyer, who will bale and ship for several producers. When there are a large number of skins they may be piled

Upper.—Wire Stretcher for Stretching Skin From Side to Side. Not Suitable for Skins Cut or Torn More or Less Along the Under Side. Lower.—This Wire Form Stretches Skins From Back to Belly instead of Side to Side.

between upright scantlings as stove wood is piled and kept thus until enough have accumulated to make a bale. They should then be baled under lever or screw pressure, securely bound, and covered with burlap for shipment.

If rabbit skins are intended for home use and not for sale, they may be tanned.

A good tanning liquor is composed of one quart of suit and one-half ounce of sulphuric acid to each gallon of water. As the acid corrodes metal, this liquid should be kept in a glass or wooden container. Rabbit skins will be tanned in this mixture in from three to four days, but they may be kept in it for a longer time without injury.

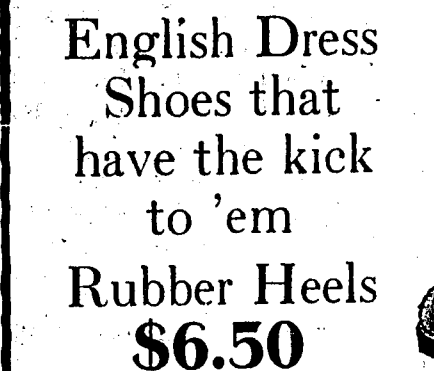

Drying the Skins.

When removed from the tanning liquor skins should be washed several times in soapy water, wrung as dry as possible, thoroughly rubbed on the flesh side with a cake of hard soap, folded in the middle lengthwise over a line, hair side out, and left to dry. When both outer surfaces are barely dry and the interior is still moist, the skins should be laid over a smooth, rounded board or plank and scraped on the flesh side with the edge of a worn flat file or other blunt-edged tool. In this way an inner layer of tissue is removed and the skins become nearly white in color. They should then be stretched, rubbed, and twisted until quite dry. If parts of a skin are still hard or stiff, it should be returned to the tanning solution and the process repeated until the entire skin is soft. Fresh butter or other animal fat worked into skins while they are warm and then worked out again in dry hardwood sawdust, or extracted by hasty bath in gasoline, increases their softness. Home-dressed skins should be matched for color before being made up into garments.

Horseless Farms

Horseless Farms are becoming more numerous every year. Schaal & Schaal operate a ten thousand acre wheat farm twenty-five miles southwest of Winnipeg, Canada, with Fordson tractors. It would require more than four hundred horses to operate this farm. These successful farmers have tried both horses and Tractors, and say the Fordson does the work for less than one-half the cost with horses. These men have not had a horse on this farm of ten thousand acres for four years and they are very successful.

Now that prices are on the decline, the greatest economy must be used everywhere. The Fordson furnishes the most economical power in the world today.

CONGRESSMEN FAVOR FILIPINO INDEPENDENCE

Washington.—"The appointed hour is here: let the Philippines be free." This was the keynote of a speech by Congressman Edward J. King of Illinois, (Republican) in which he reviewed the American occupation of the islands from the first day to the present time. He declared that the United States was bound to grant independence without further delay. Congressman King is one of an increasing number of Republicans in the House who are urging quick action on Philippine independence. Mr. King is the author of a bill which provides that within one year the Philippine government, under presidential proclamation, may assemble a convention and frame a constitution. After the constitution is ratified by the Filipino people the President may recognize the Philippine islands as "a separate and self-governing nation." The transfer of authority is to be completed within one year. Provision is made for safeguarding American investments in the Philippines and for the providing of coaling stations and submarine bases in the islands by the United States.

Word from the Philippines is that the people expect early independence and will be sorely disappointed if they do not get it.

"No nation has the right," said Congressman King "to hold another people in penance, even though it may be argued by the professoriate that the condition is simply one of tutelage."

"A little more observance of the golden rule in national and international affairs would sweep dispel that desire for exploitation, the fiercest foe of freedom in the world today."

"When we went to the Philippines we declared before the whole world that we were not actuated by any selfish desire of conquest or territorial aggrandizement, but solely by humanitarian impulses."

Congressman King called attention to the fact that Filipinos are now raising funds to erect a monument to Admiral Dewey, which he said was indirectly a tribute to the American people as well as to Dewey. He recalled the cable that Dewey had sent to President McKinley, which was as follows:

"In my opinion these people (Filipinos) are superior in intelligence and more capable of self government than the natives of Cuba, and I am familiar with both."

Congressman King then recited the preamble to the Jones law, passed August 29, 1910, and declared it was a definite pledge of independence. The preamble stated "It is as if has always been the purpose of the people of the United States to withdraw their sovereignty over the Philippine islands and to recognize their independence as soon as a stable government can be established thereon."

Congressman King stated there was no question but that the Philippines had established the specified stable government and, therefore, it is the solemn duty of the United States to grant the promised independence.

ASKS INDEPENDENCE FOR PHILIPPINES

Manila.—Francis Burton Harrison, former governor-general of the Philippine islands, offered to tender his resignation, effective ten months ago upon condition that the Secretary of War recommend to President Wilson that a Filipino be appointed his successor. He made the offer while in Washington in 1918.

Discussing Philippine independence, the governor general said: "I can see in the future a very beautiful vision. When the flag of the Philippine republic shall be hoisted, when the Stars and Stripes will come floating down to the strains of 'The Star Spangled Banner'—that flag, Old Glory, so rich in happy and honorable achievements, will be made doubly dear because it will mean that the United States will have kept its word to the people of the Philippine Islands."

School of Journalism in Philippines.—Manila.—A school of Journalism, the first in the Far East, has been established at the University of the Philippines in Manila.

Admission to the School of Journalism is limited to third and fourth year students who have shown marked ability in the use of English. The course is open to both men and women. A class of about 50 registered at the opening of the Journalism course.

Look to Your Paint

Is It Giving You Protection?

IF CHECKED or cracked, a new paint is needed, and it will be cheaper to paint now—for deterioration costs more than good paint.

A well painted house brings several hundred dollars more on sale and more in rent. Keep it painted and it stays new for years.

The best paint spreads more easily—saves labor cost. It covers more square yards—you buy more gallons of cheap paint.

The best paint then protects the house, if properly applied, from five to ten years longer.

There is no question as to which costs less. Don't allow surfaces to rot. It costs less to paint them.

The best paints are scientific in formula and preparation.

We've made them for 72 years—to meet weather conditions in the West.

The best materials—PIONEER WHITE LEAD, pure linsed oil, zinc and color—are combined in Fuller Paints in scientifically exact proportions with long-time skill.

Our process super-purifies and "whitens" the lead base. It must be fine enough to pass through a silk screen with 40,000 mesh holes to the square inch. Fine lead means easier spreading and a more elastic, tougher protective coat. The "Whiter" lead base means more beauty in the colors.

Such paint will, if properly applied last from five to ten years longer than cheap paint, and look better through the years.

Fuller's SPECIFICATION House Paints Pure Prepared Point

"Pure Prepared" and "Phoenix" are Fuller's Specifications for house painting. Get either and you have the best that anyone can make—long service, paint, WHERE TO BUY

THEM. These paints are important to you, so it's important to go to the right stores to get them. Dealers' names and addresses are printed in the memo coupon to the right. Cut it out and put it in your pocket now.

Free Advice on Painting

IF YOU cannot get a master painter and wish to paint your home yourself, but do not know much about painting, ask Fuller's Specification Department for advice. How to treat the old paint, what color scheme to use. How many coats. The proper brushes. The best time to paint, etc.

Take advantage of Fuller Service as well as Fuller Paints. Write us now. Take steps to paint now. Don't let weather depreciate your investment.

W. F. FULLER & CO.

Dept. 4, San Francisco, Pioneer Manufacturer of Paints, Varnishes, Enamels, Stains, and PIONEER WHITE LEAD for 72 Years Established 1849.

Branches in 16 Cities in the West—Dealers everywhere. Also makers of Rubber Cement Floor Paint, All Purpose Varnishes, Silicate White Enamel, Fifteen-for-floors, Washable Wall Finish, Auto Enamel, Barn and Roof Paint, Porch and Step Paint and PIONEER WHITE LEAD.

SAVE THIS

(Cut this out and paste it in your note book as a memo.) My house needs painting. Fuller's Specification House Paints are sold by the following merchants:

Farmers Hardware Company

FIREWOOD MAKES GOOD CASH CROP

Farmer Can Make His Farm Pay Substantial Profits by Producing Fuel.

USEFULNESS OF MACHINERY

Modern Apparatus Not Only Cuts Wood and Standing Trees, but is Used for Various Other Purposes About the Farm.

(Prepared by the United States Department of Agriculture.)

The farmer's problems appear, all of a sudden, to have become the leading national problem. Congress is talking of little else than legislation aimed to help the agricultural interests. The bankers are busy explaining why they can't lend the farmer the cash he needs. The plight of the farmer is the chief topic of discussion in railroad circles and among business men at all the big markets. Farmers themselves are organizing everywhere to force the prices of their products up to a point where selling will not mean a loss to them.

Meanwhile what the individual farmer needs is not talk, but cash. Certain things he must buy right along for himself and his family. He can't wait for the national debate to run down.

In this situation farmers who are hard pressed for cash may be overlooking the fact that all around them "money is growing on the trees," and the crop is just waiting to be picked. This is almost literally true. In other words the farmer can harvest another crop—his timber. All over the country thousands of farmers are turning to this immediate source of

Modern Machinery Reduces Hand Labor in Filling the Woodshed.

cash. In money value, firewood ranks as America's sixth crop. Government statistics show rank of crops in this order: Wheat, corn, cotton, hay, oats, firewood.

Money in Producing Fuel. With one of the practical, low-priced power log saws now on the market, the farmer can make his farm pay

substantial profits by producing fuel—a commodity that has held up well in price and for which there is an almost unlimited demand. Then, too, there is always a steady market for ties, fence posts and timbers that can easily and quickly be cut with these lightweight, portable machines. In this way the farmer, with little work or expenses, can realize good profits and still hang on to his grain and live stock if he wants to, until prices get better.

On nearly every farm in most sections of the country there is timber in more than sufficient quantities for home use. There are live trees that need to be taken out to give room for younger ones to grow, or to clear the land for cultivation; there are dead trees that are allowed to decay; and on thousands of farms, the banks of rivers and creeks are lined with great logs and other drift wood.

For many years the farmer has been interested in, and has readily accepted, machinery that would save him time, labor and money. Now he is seizing upon a machine that actually makes money for him—as well as saving him time and labor. Those who have used the 1921 Improved model log saws say these machines come near to being perfect sawing outfits. They do the work of ten to fifteen able-bodied men—cut down trees and saw up logs and branches of any size—at an average cost of about 1 1/2 cents a cord. Cutting 35 cords of wood is an easy day's work, and it is possible to cut as much as 50 cords in that time.

Machine Cuts Standing Trees. One of the most popular log saws makes over 300 strokes a minute, and its engine pulls over four horsepower. This particular machine cuts down standing trees, too. By attaching this clever device, trees can be cut down with the level of the ground, so there will be no stump, or higher up, as desired. By attaching a circular saw the outfit is quickly turned into a buzz saw, which rapidly zips up limbs and branches, those parts of the tree which usually go to waste, yet which produce fully one-third of the wood.

SOY BEAN GROWING POPULAR

Rapidly Becoming Crop of Special Importance Because of Big Possibilities of Seed.

The soy bean has become a crop of special importance throughout the country, which is indicated by the large acreage devoted to it in 1920 and the increased interest in the possibilities of the seed for food and for oil. The introduction of new varieties by the United States Department of Agriculture has been largely responsible for extending the growing area of the crop not only in the North and West but in the extreme South. During the past year the Mandarin, Easy Cook, Aksarben and Hoosier were placed in trade in the northern states. In the South, the Ooatun, Laredo and Bilozi are being widely grown.

TUBERCULOSIS OF CHICKENS

Affected Fowls Squat in Secluded Places and Gradually Become Quite Emaciated.

Tuberculosis of chickens is quite common and is caused by a type of tubercle bacillus which has become adapted to birds. Transmission of tuberculosis from poultry to man-

imals, including man, is rare except in case of hogs. Hogs contract tuberculosis from poultry, and are more susceptible to cattle tuberculosis than are cattle themselves. Chickens, when affected, squat in secluded places and gradually become emaciated. In dressing a diseased chicken the breast muscles are usually wasted and the lesions are most likely to be found in the liver, spleen and intestines. Cheesy masses in any of these organs is always suspicious. The disease may be detected by means of the intradermal tuberculin test.—George H. Glover, Colorado Agricultural College.

SEVERAL ESSENTIAL FACTORS OF MUCH WEIGHT IN FARM BUSINESS

Inefficiency and Efficiency—Extreme Types but True Ones.

these same farmers could make more money with higher yields. Profits increase at least until yields are obtained considerably above the average for the region, but beyond this limit very high yields are liable to be obtained at the expense of farm profits.

Quality of Live Stock Important.

On farms where live stock is an important enterprise, the quality of the stock is very important. On a majority of farms, except in the South and certain of the Western states, more of the crops are fed to live stock than are sold direct. On many farms the animals are the market for the crops, hence the production of these is a most important factor in farm profits. The best of corn and hay crops will count for little when fed to animals that make returns below the market prices for these crops. On the other hand, good live stock on the individual farms may not be profitable if not fed and cared for economically.

The exceedingly diverse nature of farm operations makes wide opportunity for inefficiency to enter into their performance. In a factory with modern machinery a man is expected to do a certain amount of work, and in many instances the machine sets the pace for him. Generally the worker on the farm must be his own boss and must set his own pace. He must also work under most adverse weather conditions at certain times. Often a great deal of work must be devoted to things which add little or nothing to the profits of the business. It requires twice as much time for some men as compared with others to do a certain kind of work. Work may also be so organized that a given amount of effort accomplishes more than the average. The efficient use of horse labor is also very important and bears a close relation to size of business.

On the one-man farm the horses must necessarily be unemployed every time the farmer finds it necessary to do work not requiring horse labor. On the larger farms the work can be so arranged as to have one man keep the horses busy while others attend to the work where horse labor is not needed.

Well-Balanced Farm Profitable.

A well-balanced farm business is nearly always profitable. The farms that are as good or better than the average of their community in all four of the factors here mentioned seldom fall to make a good profit. Thus, if a farm is devoted to a type of farming adopted to its conditions, if it is as good or better than the average in size of business, yield of crops, production of live stock, and efficiency in the use of labor, and is adequately and economically equipped, it is almost certain to be profitable. The weakest factor is the one that needs attention in improving the business. If the quality of the live stock is high, greater improvement in the farm business can usually be obtained by devoting attention to developing the size of the business or sale of cash crops, or increasing labor efficiency, rather than by further improving the quality of live stock.

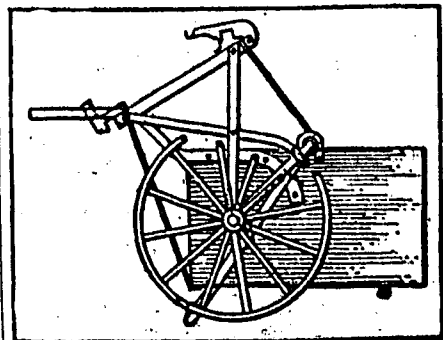

The Department of Agriculture has recently prepared a bulletin, "A Method of Analyzing the Farm Business," which contains valuable information for farmers who wish to organize their operations on an economic basis. This bulletin and other printed matter on the subject may be had by interested persons free.

SELF-LOADING GRAIN TRUCK

Particularly Useful on Farms and Can Be Transported From Place to Place With Load.

The Scientific American in illustrating and describing a self-loading truck, the invention of J. A. Klovstad of Hope, N. D., says:

The invention has reference more particularly to that type of hand trucks that are designed to be self-loading and useful on farms, in cars, and warehouses, its main object being to provide a hand truck that will

GEN. LEONARD WOOD

MAKES APPEAL FOR

NEAR EAST RELIEF

Says Two and a Half Million

Starving Armenians Need

Help at Once.

Ft. Sheridan, Ill.—Major General Leonard Wood, commanding the Sixth Corps Area, has issued a Lenten sacrifice appeal for funds to save the Armenians from annihilation by starvation and disease. "I feel that however many and however worthy the other appeals which are being made to the great heart of America these days may be," he says, "this cry from the little children cannot remain unanswered."

The Near East Relief, 1 Madison avenue, New York City, which has been charged by Congress with the

American relief work in the whole Near East, has formed a special "Lenten Sacrifice Appeal Committee," of which Major General Wood is chairman, Charles V. Vickery secretary and Cleveland H. Dodge treasurer, to put before the American people the desperate need of the Christian populations of the Near East, who have suf-

MAJ. GEN. LEONARD WOOD

ferred and are still suffering the horrors of war.

Among the prominent members of General Wood's Committee are Secretary of the Treasury Andrew W. Mellon, Mrs. Corinne Roosevelt Robinson, sister of the late President Roosevelt; ex-President W. H. Taft, Mary Gorden, President John Grier Hibben of Princeton University, Bishop-Elect William T. Manning of New York, Dr. Henry van Dyke, David Belasco, Samuel Gompers, Frank A. Munsey, Mrs. Carrie Chapman Catt, Mrs. Henry Morgenthau, John G. Milburn of the American Bar Association, Miss Elizabeth Marbury and Mrs. Medill McCormick of Chicago.

General Wood's Appeal

As Chairman of a Special Committee of representative men and women of the country, charged with placing before the American people the desperate need of two and a half million Armenians, the remnant of the oldest Christian nation, whose sufferings through sixteen centuries seem to have brought them no nearer peace, liberty or security, I beg your personal co-operation and influence to forward an appeal for a Lenten Sacrifice Offering to enable the Near East Relief to go on with its work of mercy.

Over one hundred thousand little children who have been kept alive by American generosity for the past three years are absolutely dependent upon the support which America gives them through the Near East Relief.

I feel that however many and however worthy the other appeals which are being made to the great heart of America these days may be, this cry from the little children of the land where Christ gave his life for mankind cannot remain unanswered.

Will you help to save this martyred people?

Leonard Wood
Leonard Wood,
Major General,
U.S. Army.

PLANS OUTLINED FOR PREPARING POULTRY

Best to Kill Fowl by Cutting Throat With Knife.

Dry-Picking Makes Better Appearing Product for Market—Cooling May Be Done by Placing Carcasses in Iced Water.

Birds to be killed and marketed should be kept without feed for at least 12 hours before killing, say poultry specialists of the United States Department of Agriculture. The best method of killing is to suspend the fowl by the legs and through the back of the throat with a sharp-pointed knife. After cross-cutting this vein once or twice, cut into the roof of the mouth so as to pierce the brain with the point of the knife, slightly turning the point after it has pierced the brain.

Fowls to be used at home may be killed more easily by chopping off their heads. The fowls may be either dry picked or scalded. Dry-picking makes a better appearing market fowl, but scalding, which is easier, is often preferred, if the bird is for home use. Dry-picking should be done immediately after the bird is killed, as the feathers then come out more easily. Be careful not to tear the skin. For scalding, use water heated just below the boiling point, immersing the fowl two or three times, or until the feathers pull off easily, but do not leave it in so long that the skin scalds.

Cool the fowls after they are plucked, either by hanging them up in a cool place or soaking them in cold or iced water. Fowls for market are usually sold undrawn, but for home or local use they may be drawn by removing the crop through an opening made in the skin of the neck, and cutting around the vent and then removing the intestines and all other visceral material, making an additional slit into the abdomen if necessary. Place the liver and gizzard back in the body cavity.

 ing at the Sliffer home Sunday.

Mr. Lonzy McGuire and Miss
 Winnie Marquette were united in
 marriage last Sunday. The com-
 munity wishes them a long and
 happy married life.

Miss Carrie Petersen and Miss
 Freda Hoffman were visiting at the
 home of E. Kelley, Sunday.

J. Daniels and family were visit-
 ing at the Mitch Blackburn home,
 Sunday.

Mr. and Mrs. Pete Olson and
 daughter, Eva, were visitors at the
 Helmut Petersen home, Sunday.

Mrs. L. Garrison and son, Claren-
 ce, returned from Lewiston, Sat-
 urday, where Clarence underwent
 an operation some time ago for ap-
 pendicitis. He is improving fairly
 well at present.

Cameron News

Miss Ida Siflow returned home
 Saturday, after spending the past
 three months in Lewiston.

Miss Bertha Werdt, who is work-
 ing at Lewiston, spent the week end
 at home.

Born to Mr. and Mrs. George
 Ehlers, April 9, a nine pound boy.

A birthday party was given Sat-
 urday evening, in honor of Otto Sil-
 flow. A large crowd of young
 people were present and all report
 a very good time.

Miss Edna Surbeck of Lewiston,
 is spending the week with Ida Sil-
 flow.

Miss Helen Mielke, who has been
 working at Portland, for sev-
 eral months, returned home Sunday.

The eighth grade pupils received
 the results of the examinations this
 week. The grades show a marked
 improvement over those received in
 January.

The Cameron school will close
 Tuesday, April 26.

**Proper Place for Keeping Apples or
 Potatoes is Often Lacking
 on Farms.**

The grower of either apples or po-
 tatoes who has no storage is frequent-
 ly at the mercy of the speculator. An
 efficient storage house would make
 these men independent of the buyer
 and beyond the danger of losing their
 crops through a car shortage or by
 frost in the fall.

**MANY FINE TREES CAN BE SAVED
 BY SIMPLE METHOD OF REPAIR**

Simple Treatment Saves Many Fine Trees Like This One.

Tree surgery is comparatively sim-
 ple and inexpensive and most persons
 can, with a little preliminary practice,
 undertake the simpler types of tree
 repair work that will prove immense-
 ly profitable in saving fine trees. A
 few fundamental principles must be
 observed to secure permanently good
 results.

- (1) Remove the dead, decayed, dis-
 eased or injured wood or bark. When
 on a limb this can often be done best
 by removing the entire limb; on a
 large limb or on the trunk it may
 mean at times digging out the decayed
 matter so that a cavity is formed.
- (2) Sterilize all cut surfaces.
- (3) Waterproof all cut surfaces.
- (4) Leave the work in the most fa-
 vorable condition for rapid healing;
 this will often mean filling or cover-
 ing deep cavities.
- (5) Watch the work from year to
 year for defects and if any appear at-
 tend to them immediately.

Removing Large Limbs.
 A large limb rarely should be re-
 moved by a single saw cut from the
 upper side, as this usually strips the
 bark and wood as it falls. A prelim-
 inary cut should be made from the un-
 der side, beyond the point for the
 final cut; and a second cut on the up-
 per side an inch or more beyond the
 first one. Then cut the stub close to
 the trunk. A coat of good shellac
 should be applied over the entire area
 of the bark, outer sapwood, and the
 cambium immediately.

Cresote should be applied to the

rest or the exposed wood not already
 covered by the shellac as a protec-
 tion, and the entire shellacked and
 creosoted surface should be finally wa-
 terproofed with thick coal tar or as-
 phalt. Grafting wax, particularly the
 thick liquid alcoholic kind, is excel-
 lent for waterproofing small surfaces.
 Another good method of treating the
 scars is to char the surface with a
 gasoline or alcohol blast torch and
 then quickly cover the hot surface
 with heavy tar, pitch, or hot asphalt.
 The treated surfaces should be
 watched from year to year and recoat-
 ed as necessary to preserve the wa-
 terproofing.

In removing small branches and
 twigs the cut should be made as close
 to the supporting branch as possible,
 so as to leave no projecting stub. The
 pruning wound must be sterilized and
 water-proofed. For very small wounds
 shellac is handy.

When a wound has been allowed to
 remain untreated for a year or more,
 decay-producing organisms are almost
 certain to have started an area of de-
 cay and insect activity behind the ex-
 posed surface. Such regions gener-
 ally require excavation of decayed
 and diseased wood and sterilizing and
 waterproofing of the cut surfaces.

The tools ordinarily required are
 two outside-ground socket-handled
 gouges (one three-fourths of an inch
 and the other 1 1/2 inches), a knife,
 mallet or hammer, and an oil-
 stone. Only keen edges should be
 used on the bark or near the cam-
 bium.

Remove Diseased Wood.
 Remove all the diseased or insect-
 eaten or water-soaked wood. In dis-
 eased areas of many years' standing
 there may be only a thin shell of
 healthy wood around the cavity, in
 which case the tree must be braced
 or guyed, and it is often better re-
 moved and replaced by a healthy one.

Do not leave a cavity so it will re-
 tain water. In shaping a cavity that
 is to be filled with cement, etc., have
 the sides undercut, if possible, so as
 to hold the filling more firmly in place.
 Inrolled bark at the edges of the open-
 ing should be cut away after the de-
 cayed and diseased matter has been
 completely excavated and the edges of
 the sapwood and bark adjoining the
 cambium shellacked. The remainder
 of the cavity also must be sterilized.
 Cresote is recommended. Over this
 a heavy waterproof covering should
 be applied.

Filling the cavity is of much less im-
 portance. Often a cavity is better left
 unfilled. A cavity must be watched
 from year to year and any tendency
 of the waterproofing to crack, split,
 or blister should immediately be coun-
 teracted by repainting.

Where sheet-metal covering is used
 there should be a narrow half-inch
 ledge of bare wood around the edge
 to which the margin of the metal can
 be tacked. The cavity must be thor-
 oughly sterilized and waterproofed,
 and the sheet metal fitted tight at the
 edges.

If a long cavity is to be filled with
 cement or asphalt, it usually is advis-
 able to place one or more bolts
 through it to hold the wood and filling
 more firmly together. Long cavities,
 as a rule, should be bolted every 18
 or 24 inches.

The most widely used material for
 filling cavities is cement, usually in
 the form of cement mortar or con-
 crete. Under certain conditions as-
 phalt and sawdust and sand used in
 combination with cement blocks or
 with wood would be better than either
 used separately, and they often are
 more economical. Often large pieces
 of wood or smaller sectional pieces
 can be fitted to the opening and the in-
 terstices filled with the plastic.

The Department of Agriculture in-
 vites correspondence concerning meth-
 ods in tree-repair work, and will be
 prepared to advise for or against any
 particular method so far as experience
 and the results of experiments will
 permit.

National Council of Women.

**Goodyear Welt
 SHOES**

For Comfort, Service and Durability

Mail order houses do not say much about their
 Goodyear welt shoes because a Goodyear welt in a
 shoe adds a value to it that the public cannot be
 flim-flammed on. Imitation welts, McKay sewed
 and nailed shoes can be thrown together just as
 quickly and cheaply as the manufacturers may wish,
 but a genuine goodyear welt in a good shoe is the
 peak of perfection in shoe manufacturing.

We are partial to Goodyear welt shoes because
 they are cheapest in the long run for the wearer.

**THESE PRICES
 Are Very Low**

Considering the quality of the shoes offered
 Men's Chocolate Veal, 12 inch top, heavy double
 sole, Goodyear welt—a live man's shoe \$10.00

Men's Chocolate Veal, 6 inch top, wing tip, Good-
 year welt, double sole for rough use \$7.75

Men's "Dry Sox"—this is a medium between a
 light dress and a work shoe, a comfortable last with a
 good, substantial water proof sole, Goodyear welt
 for \$8.50

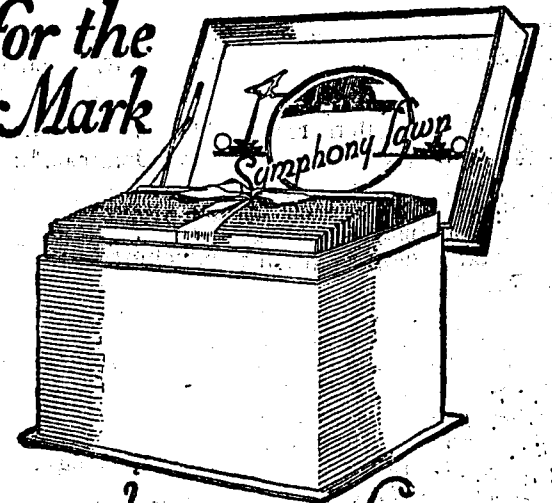

Men's Tan Army Shoe—you will have to see and
 feel this shoe to appreciate the extraordinary value
 offered, Goodyear welt \$7.50

Men's Brown Resisto Army Shoe, a farm and gen-
 eral work shoe of the highest order, Goodyear welt
 for \$6.95

Other Goodyear welts at \$6.50 and substantial well
 made work shoes with nailed soles at \$2.95 and up
 for both men and boys.

Symphony Lawn

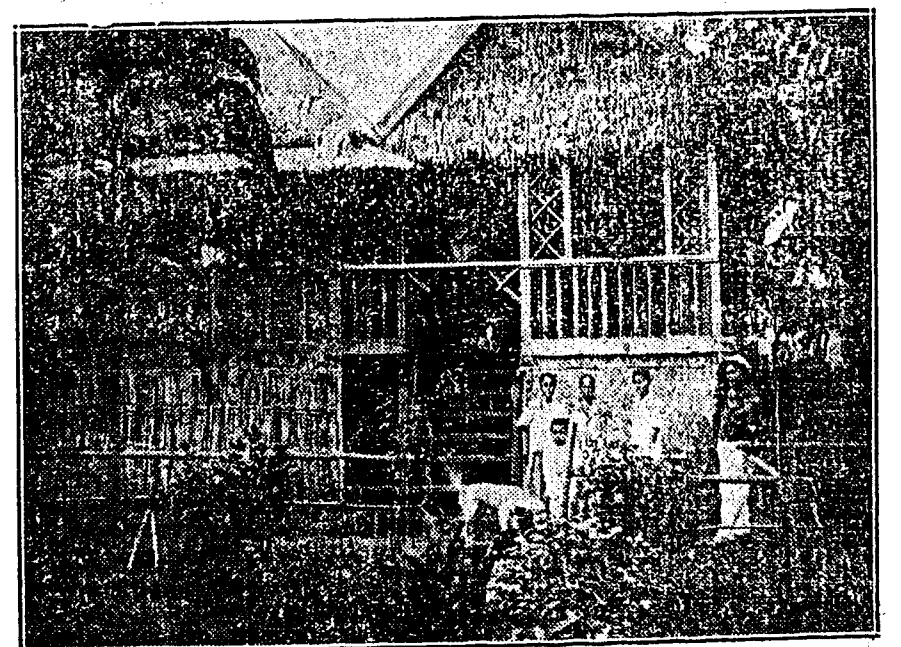

**The Writing Paper with
 the Delightful Surface**

WOMEN of refinement appreciate the
 quality of Symphony Lawn Writing
 Paper—a quality expressed in the remark-
 ably fine texture of the paper, the splendid
 writing surface, the opportunity for personal
 selection permitted by its varied finishes and
 delicate tints.

Symphony Lawn Writing Paper can be
 obtained in packages containing one quire
 or one pound. Made in several styles and
 sizes, to meet every dictate of good taste.
 Also correspondence cards, with envelopes to
 match.

A Typical Philippine Homestead

GLEANINGS

Mrs. J. B. Helman and daughter, Mrs. Frank Boyd went to Lewiston, Wednesday, to be with Mrs. Gregory Eaves, who underwent a serious operation last week.

Joe Ivy writes from Portland under date of April 13, that he and his family made the trip in fine shape. The roads were good and the trip was made on 22 gallons of gas. No car trouble was experienced and they arrived in Portland, Tuesday, April 12.

Mrs. R. F. Bigham returned from Troy, Saturday, where she spent several days with her son, Robert.

Mrs. Hollada and three daughters spent the week end in Clarkston. Miss Florence Hollada has a position in the State Bank of Clarkston. She has held a position in the Farmers Bank here for the past year, but owing to an unusual rush of work at the Clarkston bank she was transferred there.

Miss Josephine Zoyer of Troy spent Sunday in Kendrick at the home of Mr. and Mrs. Harry Grindols.

Walter Thomas, bank cashier of Everett, Wash., visited his folks here over the week end. He reports business very quiet on the coast.

Mrs. Gregory Eaves of Lewiston underwent a very serious operation at a Lewiston hospital last week. She is reported to be recovering. Mrs. Eaves was known here as Miss Ruth Helman.

Dr. Moser of Lewiston spent Sunday afternoon in Kendrick with friends.

Mr. and Mrs. J. C. Bibb and daughter, Mrs. Hugh Stanton, returned from Spokane, Monday, on the night train, after an absence of several weeks.

Wesley Thomas of Clarkston arrived Tuesday morning to visit his brother, Martin.

A. V. Dunkle went to Lewiston last Friday to visit his sister, Mrs. Scudder.

Clem Isreal returned from Lewiston Tuesday morning. He went to a Lewiston hospital last week on account of injuries received to one of his hands in a sawmill. His hand is healing nicely.

Born to Mr. and Mrs. Sylvester Evans of Lower Potlatch ridge, Sunday, an 8 1/2 pound girl.

A number of the local I. O. O. F. members went to Juliaetta, Monday night and put on a degree for the Juliaetta lodge.

Louis Oldag and H. Blum of Cameron were transacting business in Kendrick, Saturday. They are very much interested in the progress of the road work from Kendrick to the foot of Waundecheer gulch grade. This road will be a great benefit to a large part of the Potlatch ridge community.

A. Wilomt went to the Coeur d'Alene the first of the week to look after mining interests.

Joday Long has been quite ill for the past two weeks. He has been in bed for some time. Shortly after returning home from Spokane, after his operation, he contracted the grippe and hasn't been able to recover fully from it.

G. V. Barker, the Grangeville photographer has been taking pictures in Kendrick and vicinity this week.

The Juliaetta baseball team defeated the Troy team in a game played at Juliaetta last Sunday, by a score of 13 to 1. A number of Kendrick people went from here to see the game.

Virgil Fleshman of the Fairview neighborhood was transacting business in Kendrick last Saturday.

Walter Bateman of Southwick was brought home from Spokane, Thursday afternoon, where he was taken for medical treatment.

E. H. Dammarell returned, Wednesday, from a business trip to Gifford.

The degree team of the Kendrick I. O. O. F. Lodge has been invited to put on the first degree for the Moscow lodge next Wednesday. The local team has accepted the invitation.

Mrs. Frank Roberts of American ridge returned, Thursday, from Irrigon, Oregon, where she spent two months with her daughter, Mrs. Jesse White. A son was born to Mr. and Mrs. White, April 13, weight 9 pounds.

Mrs. Ernest Randall and little son of Orofino arrived Thursday morning to visit relatives.

Mr. Scott and M. M. Preston of Moscow were in Kendrick, Wednesday, to attend the Carlson Hardware auction sale.

William Rogers has added electric clippers to his barber shop equipment. It is a new model machine and is a great time saver.

Burglars entered six homes in Moscow last Tuesday night, steal-

ing clothing, jewelry, cash and food.

The continued rains during the past week or more have greatly delayed farm work in this section. There is a large amount of seeding and considerable plowing yet to be done. Even with favorable weather soon it will be several days at best before farming operations can be resumed. Spring wheat that has already been seeded is coming up in fine shape and will have a splendid start. The rains are also delaying road work here as it is too muddy to use the heavy machinery to advantage.

J. W. Riggles was a week end visitor in Lewiston.

Mrs. George Ehlers of Cameron was taken to a Lewiston hospital, Thursday, for medical treatment. She has been quite seriously ill the past few days. Her many friends in the community hope for her speedy recovery.

Mrs. Blackburn has a hen that has a habit of hiding its nest in the brush. John Reid found the nest this week and in it were three China pheasant eggs and a number of ordinary hen's eggs. He expects to put the pheasant eggs under a hen in his chicken coop and will then await results.

Epworth League Meeting

The Epworth League held a special business meeting last Friday evening at Epworth Hall for the purpose of electing officers for the coming six months. After the business meeting and election the entertainment committee provided a lot of pep for the evening. A surprise awaited the League members and especially the ex-president, Oscar Raby, upon their return from a march down Main Street in a body. As they marched into the hall they found the lights out and in the center a massive birthday cake with white frosting and candles all lit. It was in remembrance of Oscar Raby's birthday and his mother was the manufacturer of the beautiful confection. Refreshments were then served and the cake, after being cut by Oscar, was served to the members. The results of the election were: President, Wayne Herres; 1st vice-president, Audrey Stanton; 4th vice-president, Lena Bibb; secretary, Violet Riley; treasurer, Kester Dammarell; organist, Edith Dammarell. Oscar Raby and Elsie Bird were elected the other two members of the cabinet.

Big Bear Ridge

John Heath spent Saturday and Sunday at the home of his brother on Texas ridge.

Mrs. Stuart Compton and children are visiting her parents, Mr. and Mrs. N. E. Ware.

A Hooker was a Lewiston visitor the first of the week.

Mrs. O. H. Forest entertained the Lutheran Ladies' Aid, Monday afternoon.

Gustav Nelson returned home Saturday from Spokane, where he has attended Spokane College.

Mrs. A. Kleth and children have returned home from Kendrick, where they have spent the winter.

Christian Endeavor Topic for Sunday evening, April 24 is: "A Good Name and How to Obtain It." Mrs. Robert Clemenhagen, leader.

A great deal of plowing and some seeding was finished before the recent heavy rain. This has delayed spring work considerably.

SPREAD OF CORN ROT CAUSED BIG DAMAGE

Loss in 1919 Is Estimated at 125,175,000 Bushels.

Diseases Can Be Controlled According to Bulletin Issued by Department of Agriculture—Carefully Select Seed Ears.

Corn root, stalk, and ear rots are widely distributed in this country wherever corn is grown, and have caused heavy losses. The 1919 loss is estimated at 125,175,000 bushels, or 4 per cent of the total crop. Preventive measures are recommended in a recent bulletin of the United States Department of Agriculture—Farmers' Bulletin 1178. These diseases are caused by several organisms and probably by some other contributing factors.

Investigations now in progress clearly indicate that these corn rots can be controlled. Farmers are advised to select well-matured seed from healthy plants. Avoid all leaning or broken plants and all broken ear shanks, even though the ears look healthy. Select about five times as many ears as are necessary to allow for discarding later all those ears

found to be diseased. Cure and store the ears in a dry, well-ventilated place. After the ears are thoroughly dry, discard all that have too rough denting or that show discolored, pink, cracked, or shredded shank attachments, or with moldy, discolored, or starchy kernels.

Make germinator tests of ten representative kernels from each seed ear selected. Keep for seed only those ears represented in the germinator by ten healthy seedlings, cutting open the kernels to make sure they are not rotted, even if the sprout appears to be healthy. Discard butt and tip kernels. Then shell each ear separately by hand. In shelling discard any ears with kernels that are starchy, moldy, or dull in color.

HIGHER PRICES FOR GOOBER

Co-Operative Marketing Saved Alabama Farmers \$30 to \$37.50 Per Ton on Peanuts.

One of the functions of the county agent under the co-operative extension system carried on by the United States Department of Agriculture and the state colleges of agriculture is to devise new channels for marketing stock and produce. In Barham county, Alabama, mill prices on peanuts were lower than the farmers deemed profitable. Through the efforts of the county agent, 23 carloads, 400 tons, were sold to the confectionery trade at an advance of \$17,250 over the mill prices. Co-operative marketing saved the farmers from \$30 to \$37.50 a ton.

Statement of Ownership

Management, Circulation, etc., required by the Act of Congress of August 4, 1912, of the Kendrick Gazette, published weekly at Kendrick, Idaho, for April 1921.

State of Idaho

County of Latah ss. Before me, a Notary Public, in and for the State and County aforesaid, personally appeared Ralph B. Knepper, who, having duly sworn according to law, deposes and says that he is the owner of the Kendrick Gazette.

That the known bondholders, mortgages, and other security holders owning or holding 1 per cent or more of the total amount of bonds, mortgages or other securities are: None.

Sworn to and subscribed before me this 22th day of April, 1921.

M. B. McConnell, Notary Public.

The building is to be completed on or before August 1, 1921. Plans and specifications may be obtained from R. S. Loring, architect, Lewiston, Idaho, or of the Board of Trustees at Leland, Idaho. R. B. Parks, Clerk. 16-2t

Notice to Creditors

Estate of J. M. Brookings, Deceased.

Notice is hereby given by the undersigned, executors of the estate of J. M. Brookings, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within four months after the first publication of this notice, to the said executors at the home of H. J. Starr, Linden, Idaho, the same being the place for the transaction of the business of said estate, in Latah County, State of Idaho. H. J. Starr, Frank Lyons, Executors of the Estate of J. M. Brookings, Deceased. Dated at Moscow, Idaho, April 16, 1921. 16-5t

Summons

In the District Court, Second Judicial of the State Idaho, in and for the County of Latah. Edgar L. Latta, Plaintiff.

vs.

Lillian Mae Latta, Defendant.

The State of Idaho Sends Greeting To Lillian Mae Latta, the above-named defendant.

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature in general terms as follows: To procure a decree of divorce from the said defendant on the grounds of cruel and inhuman treatment.

And you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

Witness my hand and the seal of the District Court of the Second Judicial District of the State of Idaho, in and for Latah County,

"Everything to Eat and Wear"

"The Forbidden Woman"

Featuring Clara Kimball Young

If you are one of those who enjoy motion pictures of the finer sort, if you take pleasure in brilliant acting, lavish investitures, and wondrously directed cinema dramas, you will find expression for fullest enjoyment in this Parisian love story.

The Forbidden Woman says: "Be careful when you are driving ahead into the affections of more than one man. For you might accidentally skid into a mistaken marriage."
