KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, JUNE 10, 1921

NUMBER 23

## LATAH COUNTY NEWS PARAGRAPHS

### Clipped From The Columns of Neighboring Papers.

**Troy News:** Ross, the small son of Mr. and Mrs. Chas. Thompson, was seriously injured by a large farm dog while visiting at the Nelson farm east of town last Thursday afternoon. He was playing with the children on the place and the dog became enraged and jumped at him, fastening his teeth in the boy's throat, inflicting deep wounds and narrowly missing the jugular vein. The little fellow was brought to town at once and his injuries cared for by Dr. Stockslager. He is being closely watched for any further developments and it is hoped that the injuries will heal without any further trouble.

**Deary Press:** The big road job between Helmer and Park has been pretty well finished and the machinery is being brought out. There is no doubt but that this highway will be the making of the Boulder creek section in addition to opening up quite a territory along the Potlatch which has heretofore been inaccessible. The job has been a long and difficult one, but the people will find in time to come that it will be of inestimable benefit to a section that has been held back for thirty years because it had no good road to the outside. The new road, besides being easy to travel, is scenically beautiful and will be used by hundreds of people on camping and fishing trips.

**Juliaetta Record:** Mrs. Eben Adams is in a hospital at Moscow where she was taken Wednesday as the result of a broken arm sustained the same day. The accident happened while Mrs. Adams was standing on a small step ladder endeavoring to take down a piece of stove-pipe, she fell in such a manner as to break her arm at a point just above the elbow. At last accounts she was getting along as well as could be expected.

**Star-Mirror:** A remarkable feature of the commencement of the University of Idaho this week is the presence of six brothers who are graduates of the school, who brought their families here to attend the commencement exercises and to hold a family reunion, and attend the alumni day banquet and dance. They are the six sons of G. M. Nichols, a pioneer of Latah county, who took a homestead near here forty years ago. The only member of the family not here is a sister, also a graduate of the university, who was unable to attend. The parents of this family died several years ago, but one son is living on the old homestead, a short distance from Moscow.

### Kendrick Defeated Potlatch

Last Sunday afternoon Kendrick had an easy victory over the Potlatch team, winning the game by a score of 8 to 2. It was one of the best played games of the season and was interesting from start to finish. Kendrick had a batting streak and hit Wardrop hard, but the good work on the part of the Potlatch players held the score to 8 runs.

Densow pitched a whirlwind game, striking out 12 men and allowing but 2 hits. George Carlson caught for Kendrick. Wardrop and Utz did the battery work for Potlatch.

Following is a summary of the game: Hits: Kendrick 11, Potlatch 2; Errors: Kendrick 7, Potlatch 5; Base on balls: Kendrick 3, Potlatch 1; Struck out by Densow, 12, by Wardrop 3; 2 base hits, McCall, McCrery, Bullfinch and George Carlson; 3 base hit by McCrery. Umpire, R. F. Brown.

Mrs. Mary Hood went to Irrigon, Oregon, Wednesday afternoon to visit her son who is pastor of the Presbyterian church at Irrigon.

## Wendt-Heimgartner

(Special Correspondent)

Last Wednesday, June 1st, Miss Bertha Wendt of Cameron and Mr. Ernest Heimgartner of California were united in marriage at the Cameron Lutheran church.

The bridal party was conveyed in white decorated automobiles from the Keopp home and entered the church to the strains of the Wedding March played by Miss Martha Silflow.

Martha Brammar and Alva Larson as flower girls led the party to the altar. The bride was beautifully gowned in a white satin dress trimmed with white silk maline. She wore a veil of silk net, with a wreath of orange blossoms and carried a bouquet of white bridal roses.

The bridesmaids were Miss Martha Meyer and Miss Ida Silflow. They wore dresses of pink georgette crepe and carried pink carnations.

Mr. Henry Wendt and Mr. August Brammar stood up with the groom. Rev. Finke of Cameron performed the ceremony after which all went to the Keopp home where a splendid dinner was served.

Mr. Fred Riggers of Nez Perce entertained the crowd in the afternoon and the evening was spent in dancing. At midnight a big lunch was served after which the dancing was then continued until the early morning hours.

There were about 150 guests present.

The bride and groom received many beautiful and useful presents. The happy couple will make their home in Hanford, California, and their many friends join in wishing them a long and happy married life.

### Secured Traveling Library

Kendrick has needed a public library and rest room for some time. A place for her farmer friends to go and rest before returning home on Saturdays; a place where they may sit and read during those spare moments in which they have nothing to do; a place where the town people can secure some good literature to help improve their spare moments; a good novel; an interesting story; a helpful, practical edition by someone who knows.

A traveling library of 52 books has been secured from the State and these books will be at the disposal of the public for the next three months, after which a new set will be brot in and these sent back. The Rest Room and Library is established in Epworth Hall, (the basement of the Methodist Church). There is a reading table there on which are some of the late magazines. The books can be taken out, after being charged to your account by the librarian, for two weeks and can be renewed for one additional week. A fine of one cent a day will be charged on all books over due.

The library will be open Wednesday and Saturday afternoons from 2 to 5 o'clock. Don't hesitate to drop in and make yourself at home. The success of this venture depends on you. If you approve of it, make use of it at your every convenience. The rest room will also be open the afternoon of July Fourth. Everyone is most cordially welcome.

### Built Bath Houses

Kendrick has a splendid swimming pool but until this week there were no dressing rooms close by. To remedy this condition Mrs. MacPherson and Mrs. Leith circulated a subscription list around town and soon had enough money to buy material for two dressing rooms. Monday evening the men who are interested in swimming built the dressing rooms close to the bank of the pool. A new spring board was also furnished so that anyone who enjoys a good swim may have it with all the fittings. Those who come from a distance to the Fourth of July celebration should bring their bathing suits.

## BIG CONVENTION OF I.O.O.F. LODGE

### Held at Juliaetta and Well Attended

Juliaetta, Idaho.—The annual convention of District No. 18, I. O. O. F. and Rebekah lodges was held here Tuesday with the following officers in charge:

I. O. O. F.—N. M. Talbott, chairman; H. P. Hull, first vice chairman; Bro. Spencer, second vice chairman; N. Brocke, treasurer; R. F. Pepple, secretary.

Rebekah—Chairman, Nellie Bid-dison; first vice chairman, Mrs. H. P. Hull; secretary, pro tem, Bessie Hamill.

Delegations were present from Genesee, Moscow, Troy, Kendrick, Leland, Cavendish and Juliaetta. There was an open session at the M. E. church with invocation by Rev. H. Tudor; address of welcome, Mayor E. W. Porter; response, Pren Moore, D. G. M.; address of welcome on behalf of I. O. O. F., Rev. H. Tudor; response, Grand Master Reese Hattabaugh and W. F. Morgareidge.

At 2 p. m. the Rebekahs assembled in the Christian church and the I. O. O. F. in the M. E. church for the regular business of the association. After adjournment car rides were provided for visiting delegates. At 6 p. m. a banquet was given in the basement of the Christian church.

At 8 p. m. short I. O. O. F. talks were given by H. P. Hull, Kendrick; T. H. Christie, Troy, and others, followed by a business session including installation of officers for the coming year.

The Rebekahs had degree work in the evening after which many good and interesting remarks for the good of the order were made by visitors. In all about 250 members of the two lodges were present and much enthusiasm was displayed.

M. Reese Hattabaugh, G. M.; Pren Moore, D. G. M., and J. L. Woody, G. C., of the grand lodge, I. O. O. F., of Idaho, were in attendance as well as several past grand officers.

Officers elected for the coming year are:

Rebekah—Chairman, Mrs. T. P. Dawdy, Moscow; first vice, Mrs. C. G. Talbott, Juliaetta; second vice, Lizzie Bolton, Genesee; secretary, Mrs. W. F. Morgareidge, Moscow.

I. O. O. F.—Chairman, Robert H. Oldenburg, Moscow; first vice chairman, Clarence Larson, Troy; second vice chairman, Wesley Hartinger, Leland; secretary, Charles N. Jester, Moscow; treasurer, N. Brocke, Kendrick; chaplain, Rev. H. Tudor, Juliaetta; marshal, George Follet, Genesee; I. G., Frank LeBaron, Cavendish.

The next annual meeting will be held at Moscow in June, 1922.

### On Changing One's Business

A customer of a New York bank who had twice renewed his note with the positive promise to pay at maturity; for the third time approaches the banker for another renewal.

"Impossible," says the banker. "For how long has it you been in the banking beezness?" inquired the borrower.

"I have been a banker for over twenty years," replied the president.

"Sure; but before that, you was in some utter beezness, Yes?"

"I have never been in any other business," said the banker, with dignity.

"Well," observed the applicant for renewal, "eff you cannot renew dot note, you vill tomorrow morning be in der retail clothing beezness."

Ben Cummings has moved from Linden to Kendrick, having rented a house across the bridge east of town. Mrs. Cummings is visiting friends in Spokane this week.

## FARM BUREAU TO HAVE PICNIC

### Will Be Held June 16 in the Moscow City Park

The third annual picnic of the Latah County Farm Bureau will be held at the city park in Moscow on Thursday, June 16th. The time and place of meeting was decided upon by the executive committee of the farm bureau at the meeting on Wednesday, May 18th. The members of the committee felt that no better place could be found than that selected. The Moscow city park will accommodate a large crowd; cars can be parked near the grounds; plenty of water is at hand; mothers can let their children play around and know that they are safe; and, most important of all, everyone knows the location of the picnic site and will not get lost in trying to find the grounds.

The farm bureau will furnish ice cream and coffee free of charge. Cream for coffee and sugar will also be furnished. Every family should bring a well filled dinner basket and be sure to be at the grounds a little before noon. The dinner at noon will be the first thing on the program.

Following the dinner there will be a short, interesting program. Dr. A. H. Upham, president of the University of Idaho, and W. S. Sneider, president of the Idaho Farm Bureau Federation, will be the principal speakers of the day. Each of these men will have a special message for the farmers of Latah County. The last event of the day will be an excursion over the experiment station ground. Director E. J. Iddings is making special arrangements for this part of the day's program.

Every man, woman and child in Latah County, interested in the farmers' problems is invited to come and take part in this picnic. Everyone should take a day off; come out and meet the other fellow see what he is doing and get acquainted with him, and have a good time.

### May Organize Band

A meeting will be held at the city hall tonight (Friday) for the purpose of organizing a local band. Sentiment is very much in favor of a band here and those who have been approached on the subject are enthusiastic over the proposed organization. It is believed that at least 20 musicians can be found in this locality who have had considerable experience in band work. All the boys need is a little encouragement and some financial backing to make the organization a howling success.

A tentative list of available musicians has been prepared. It was prepared hurriedly so that there are no doubt a number of musicians in the community who have been overlooked. If this is the case it is hoped that those who can play a band instrument and whose names do not appear on the list will attend the meeting tonight and join the band. The band boys would also like to have a good representation from the business men to show their interest in the new organization. Everyone is urgently requested to be present at the meeting.

Following is the list of musicians and the instruments which they play: Cornets: R. D. Newton, Dan Jones, Joe Gardner and Leo Grau; clarinets: Ed Deobald, H. W. Mort and E. Sackett; trombones: Lester Crocker, O. E. MacPherson, Gabriel Forest and Harry Benscoter; baritones: F. E. Erickson and A. K. Carlson; altos: Marvin Long and Leo Raaberg; tuba: N. E. Walker; drums: E. E. Bechtol and Aaron McCrery.

Gabriel Forest and M. O. Raby went to the Elk River country, starting Wednesday morning. The purpose of the trip was to do a little fishing.

## Deobald-Schupfer

Just before going to press the wedding of Miss Josephine Deobald to Mr. Otto Schupfer was reported to the Gazette. The marriage was performed at the home of the bride's sister, Mrs. Elmer Bechtol, at 6 o'clock, Thursday evening, Rev. Robert M. Hood officiating. The ring ceremony was used, little Edwardine Bechtol acting as ring bearer.

The wedding was a quiet but impressive affair and took place in the presence of just the immediate relatives of the bride and groom.

Mr. and Mrs. Schupfer are very popular young people of the community. Mrs. Schupfer is the daughter of Mrs. M. A. Deobald of American ridge and is a charming young lady. Her husband is manager and part owner of the Potlatch Telephone Co. which serves Kendrick and Juliaetta. While the plans of the young couple have not been made known, it is reported that they will make their home on the Schupfer farm near Juliaetta.

### Two Noted Lecturers

Emerson Hough in an article on "Burns of the Mountains" in the American Magazine, said, "There was something I wanted to say to him and never did say—I wanted to tell him how ashamed I was of my life, which had made so little out of good opportunity, whereas others have made so much out of none."

The life story of James A. Burns—the man who educated the feud out of the hearts of the Kentucky mountaineers—is a story of achievement. Born in the mountains of Kentucky, educated in the mountain schools of West Virginia, where his father had taken the family to escape the terror of the feuds, with no resources save his own physical strength and an abiding faith in the God he followed, this sterling American planted a College in the mountains of Kentucky to save her sons from fratricide. He has challenged the attention of the nation by his unselfish labors for his fellow men.

If Burns is like any man of our past or present, it is Abraham Lincoln—tall, rugged, angular of body, his language simple, clear and unaffected, every word ringing with sincerity. The very simplicity and elemental strength of his speech will thrill you when you hear his life story on the second night of Chautauqua.

Carveth Wells, formerly lecturer at Imperial College, London University, England, brings to Chautauqua audiences a remarkable story of exploration work in one of the least known lands on this round earth. For six years he was engaged by the British Government in the hazardous task of exploring the interior of the Malay Peninsula. In this wild jungle land of the tropics he was cut off from contact with everyone but natives for a half dozen long years. It is a country of tigers and tarantulas, scorpions and centipedes, peacocks and pythons, white animals, great apes and wild jungle men, and five kinds of flying animals. The story of his experiences during these lonesome years in this uncivilized land are thrilling to say the least. Very modestly he says, "It was nothing. In London I was instructor to Enver Pasha, the notorious Turk leader. How could the jungles have any terrors for me after that?" Carveth Wells, by word and picture, presents the wonders of the animal, reptile and plant life of this strange land as well as portraying the life, customs, religions and superstitions of the jungle folks. His story combines absorbing interest with real educational value.

### Kendrick Has New Banker

Phillip Brooks Lutz, son of Mr. and Mrs. E. W. Lutz, born at Lewiston, June 8, 1921, will no doubt have considerable influence in the affairs of the Kendrick State Bank, and with his father, the cashier.

## PREN MOORE CULLED NON-PRODUCERS

### Poultry Demonstration at the Hamil Ranch

Twenty-five people interested in poultry on the farm attended the poultry culling demonstration held at the J. C. Hamil farm on Tuesday, June 7th under the auspices of the Latah County Farm Bureau and the Agricultural Extension Service. Pren Moore, Poultry Specialist of the Extension Division of the University of Idaho, conducted the demonstration. In addition to showing the people how to tell the difference between the profitable and unprofitable hen, Mr. Moore discussed the general poultry situation at the present time. He stated that while eggs are cheaper now than they have been for some time the net profit is just as great as when prices were much higher. This is because feeds are cheaper. It was brought out that tho even if feeds are cheaper than they were, one cannot afford to feed low producing hens and every farmer should get rid of the boarder hen.

Steps necessary in getting rid of the boarder hen are: First, cull out the unprofitable hens to the best of your ability at the present time. Second, select your breeding pens with great care so that the egg laying average of the flock may be increased.

Mr. Moore pointed out that the only way that one can tell whether one was able to make profit on a flock of poultry was to keep production and cost of feed records. Blanks for this purpose have been prepared by the extension division and may be secured from O. S. Fletcher, county agricultural agent. It was also pointed out that chickens must be fed a balanced ration if they are to produce eggs.

Other points made by Mr. Moore were: "The more a hen is broody the less she lays. Beware of the society hen who gets a new suit in July and looks fine in the fall. Dispose of her and keep instead the hen you would send to the market, the ragged, late-moulting hen." "Forget the body of a hen except as a by-product, for her first business in life must be to lay eggs to be profitable."

"Don't think that a farmer cannot keep high producing hens. I know he can. The reason I know it is that he is doing it. Many farmers in Idaho maintain flocks with an average of 200 eggs per hen."

County Agent O. S. Fletcher helped to conduct the meeting and stated that poultry improvement work would be conducted in any community in Latah County where a sufficient number of farmers were interested in the work. He also stated that he had on file in his office a supply of three principal poultry bulletins prepared by the Idaho Extension Service and that copies might be had by writing to him at Moscow. The bulletins available are: "Feeding For Egg Production"; "Housing Farm Poultry" and "Poultry Husbandry in Idaho".

During the present week poultry meetings will be held in Kennedy Ford, Crane Creek, Farmington and Avon communities by Mr. Moore and Mr. Fletcher.

### Robbed Drug Store

Burglars entered the Red Cross Pharmacy some time during the night, Tuesday, and stole about \$20 worth of cocaine and morphine tablets. Entrance was gained by breaking the glass of the rear door, thus making it possible to spring the Yale lock. Marks of a "jimmy" were left on the frame of the rear window but as the window was nailed fast the robbers evidently gave up trying to force an entrance and tried the door instead. No clue was left as to the identity of the thieves.

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Subscription \$1.50 a year.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

If you are really interested in the success of the Kendrick chautauqua buy a season ticket. You pay more than twice as much to attend the entertainments unless you have a season ticket.

The city park is in fine shape for the coming Fourth of July celebration. There is plenty of shade and good water and there will be seats provided.

In Illinois they are trying to pass a bill requiring all automobiles to be equipped with devices to prevent them from going faster than 25 miles an hour.

Chancellor Lindley of Kansas University, formerly president of the University of Idaho, in a speech before a state bankers' association at Kansas City a short time ago, advised the bankers to get "closer to the people."

All business houses in Kendrick should plan to provide seats in front of their places of business for the convenience of the crowd that will attend the coming Fourth of July celebration.

It is encouraging to see the unusually large acreage of corn in the Potlatch country this summer. More corn means more stock and that in turn will mean an improvement in soil conditions.

Snake Fight a Fake

The snake fight which took place on the ball grounds Tuesday, proved to be a very peaceable affair. A rattlesnake was brought in, from the Cedar Creek country the first of the week.

At six o'clock Tuesday evening the reptiles were escorted to the ball park with automobiles, a ring was formed and the smaller of the two bull snakes turned loose with the rattler.

The snakes snuggled up to each other and were the best of friends. Even the rattler seemed to be in good humor.

The big bull snake was called into the ring. He was nearly six feet long and almost twice the size of the rattler. He didn't create a favorable impression for the rattler snow fight at once, but the bull snake was evidently a conscientious objector and refused to fight at any price.

Fairview Notes

James Helton and wife and T. J. Flesman and wife and Miss Edna motored to Lewiston, Monday, returning the same day. Edna is stay-

ing down a few days with her brother, Glen.

Wilfred and Wilbur Corkill spent the latter part of the week visiting on American ridge.

Most all the Fairview Oddfellows attended the I. O. O. F., convention at Juliaetta, Tuesday.

Mr. and Mrs. Homer Renfrew took their baby to Lewiston Tuesday for medical treatment.

Walter McCall was a business visitor in Lewiston, Tuesday.

Mr. and Mrs. Wm. Zeyen visited with Eddie Johnson, Sunday.

Miss Rosa Wolff is home from teaching school near Couer d'Alene.

Mrs. McCall visited at the Louie Ogden home, Sunday.

Louie Ogden was in the Grangeville country last week on business.

Frank Wilkens visited the Bier family on Texas ridge, Sunday.

Mrs. Leland Houck visited her mother, Mrs. J. L. Glenn, the latter part of the week.

Gordon, Elmer and Leo Peters visited their aunt, Mrs. Virgil Flesman, over Saturday and Sunday.

J. M. Woodward has been building a lot of new fence which improve the looks of his place wonderfully.

Mrs. Phillip Daugherty went to Lewiston, Tuesday, to help care for Homer Renfrew's baby.

Big Bear Ridge

Miss Claribel Ingle came up from Clarkston Saturday to spend several weeks with relatives and friends here.

Mr. and Mrs. Leonard Fairfield and son, Roy, of Potlatch ridge, were week end visitors with relatives here.

Mr. and Mrs. A. N. Rogstad and children autoed to Moscow Wednesday.

Stuart Reid has returned home from Hermiston, Oregon, where he attended school during the past year.

Rev. P. Hesby and A. J. Aas were delegates to a Lutheran convention held in Spokane last week.

Mr. and Mrs. Jim M. May and children, Lewis and Lucile, arrived here Monday from Ontario, Oregon, for a visit with Mrs. May's parents, Mr. and Mrs. Chas. Elliott and friends here. They made the trip overland in their car.

Mr. and Mrs. M. L. McGraw and daughters Miss Inabel and Mrs. Roy McCay of Texas ridge were Sunday visitors at the Lester McGraw home.

Mr. and Mrs. A. Galloway autoed to Moscow, Tuesday.

Funeral services of Will LaMar a brother of Mrs. M. L. McGraw were held at the McGraw home on Texas ridge Wednesday. Interment took place at the Wild Rose cemetery here.

Remember the date of the Union Sunday school group gathering Tuesday, June 14th, near the Steele school house. Come and bring your friends.

Master LaVern Dahlberg of Deary is spending the week with his grandparents Mr. and Mrs. J. J. Stind.

A large number of young people are attending the ball games in Kendrick and Deary on Sunday afternoons.

Kendrick Chautauqua, June 15 to 19.

A. Hooker spent the first of the week with friends on Burnt ridge.

Will Elliott was a recent St. Maries visitor.

D. J. Ingle was called to Ontario, Oregon, Wednesday, by the serious illness of his brother.

Linden Items

Mrs. Frank Abrams and children were Sunday visitors at the John Michael home.

Mrs. Sylvia Perry and children returned to Juliaetta, Friday. She was accompanied home by her father, Jim Garner.

Mrs. George Garner spent Saturday afternoon with Mrs. Gus Farrington.

Several from the ridge attended the dance at Dorendorf's, Saturday night.

Claud Peppinger and family of Cavendish spent Sunday at the McPhee home.

Mr. and Mrs. Clinton Wright spent Sunday on American ridge at Harry Langdon's.

Mrs. J. P. Alexander went to Winchester, Monday, to visit her son, Clyde and family.

Gus Farrington is running his sawmill full blast these days and

A new size package! Ten for 10c. Very convenient. Dealers carry both; 10 for 10c; 20 for 20c. It's toasted.

the lumber is disappearing fast. There were eighteen teams hauling from the mill the first of the week.

Mort Jenks spent several days last week at Lou Alexander's.

Mrs. Lou Alexander returned from Lewiston Saturday. She was accompanied home by Mr. and Mrs. Earl Dunnam and Elmer Stone, who spent Sunday. Mr. and Mrs. Dunnam and Mr. Stone returned to Lewiston Monday and were accompanied home by Mrs. Sylvia and Mort Jenks.

Miss Anna and George Smith went to Moscow Monday. Anna will attend summer school in Lewiston and George will visit relatives a few days.

Mrs. C. H. Fry and children, Mrs. S. H. Fry, Mrs. Vaughan and Ted, Mr. Shingler and children spent Sunday picnicking at Boulder Creek.

An item that was overlooked last week was that Memorial day was observed here by the neighbors gathering at the cemetery and re-fencing it and clearing off the graves.

Everyone welcomed the gentle showers the first of the week.

Presbyterian Church

Robert M. Hood, Minister.

Children's Day will be observed with appropriate exercises, Sunday evening at 8:00 o'clock. A good program is being arranged. All are cordially invited.

The morning sermon will be preached at the Steele school house on Big Bear ridge at 11:30. Sunday School and Junior C. E. at the usual hours.

Methodist Church

Howard W. Mort, Pastor

At the morning service at 11 o'clock the topic of the sermon will be "A Citizen of No Mean City." We are going to talk about Kendrick. We want Kendrick to be the "biggest, cleanest little city in the West". We can make it that if we only try. Come out and let's discover the process.

Remember the Sunday school at 10 a. m. Come and be in one of the classes. It is well worth your while. Epworth League at 7:15 p. m. The young people's service for and by the young people.

Evening Song Service and Worship at 8:00 p. m. A comfortable house and a comfortable service. We invite you to be with us.

Remember the library is open Wednesdays and Saturdays from 2 to 5 p. m. in Epworth Hall.

RESOLUTION OF THANKS AND APPRECIATION

WHEREAS, The Annual Session of the 18th District, I. O. O. F. of the State of Idaho, has held a most interesting and profitable meeting in Juliaetta, Idaho, and

WHEREAS, The entertainment has been so fine, the welcome extended has been so cordial, so fraternal, that an expression of appreciation from the visiting delegations seems meet and proper.

THEREFORE, Be it resolved, That the subordinate Lodge, the Rebekah Lodge, the people of the Village of Juliaetta and those other communities assisting are all entitled to and have our sincere thanks for the wonderful way in which they provided for their visitors.

The best of good eats without limit; hospitality running out of bounds; a service so unanimous, so unselfish, that when we close this splendid meeting and go back to our homes, we carry with us one thought: You have performed every act necessary for our comfort and uplift, so generously and in the name of that great order we love and in which we so earnestly believe, that we love your community, your people and we expect to be better men and better women, truer Odd Fellows and Rebekahs, because we came among you for this session.

## WAGE RATE ADVANCED TO HIGHEST AVERAGE

From \$17.69 a Month in 1895 to \$64.42 in 1920.

War Conditions Greatly Accelerated Upward Movement of Farm Labor Wages—One of Causes for Increased Cost.

(Prepared by the United States Department of Agriculture.)

Wage rates for farm labor reached their highest point in the history of this country in 1920, as national averages. As ascertained by the bureau of crop estimates, United States Department of Agriculture, the average wage rate for labor hired by the month was \$40.89 with board, and \$64.95 without board; for day labor at harvest, \$3.60 with board, and \$4.36 without board.

War conditions greatly accelerated an upward movement of farm-wage rates that began after 1895. The rate of that year for hirings by the month without board was \$17.69 as an average for the United States, and no other year in the record of the bureau extending back to 1868 had a lower rate, except 1870 with \$16.42.

By 1902, this wage rate had increased to \$22.14, by 1914 to \$29.68, followed by \$30.15 in 1915, with no evidence of war effect. This effect appeared, perhaps, as a small beginning in the next year, 1916, when the wage

City Residents Helping Harvest Wheat During Period of Farm Labor Shortage.

rate was 32.83, when followed rapid rise to \$40.43 in 1917, to \$17.07 in 1918, to \$56.29 in 1919, and to \$64.95 in 1920.

The rate of gain over 1895 was 70 per cent in 1915 and 267 per cent in 1920, so that the gain of 70 per cent in 20 years, from 1895 to 1915, was followed by a gain of 197 per cent in five years, from 1916 to 1920, or nearly three times as much in a quarter as many years.

From 1915 to 1920, farm labor working by the month without board received a gain in wage rate as high as 115 per cent. This was one of the causes of the greatly increased cost of producing things on the farm, which has hit the farmer so hard in the declining market for his crops of 1920. So high had the farm-wage rates become in the last two or three years that they were prohibitive in a considerable degree when labor could be found, and farmers more generally depended exclusively on themselves and members of their families, in addition to extending the use of labor-saving machinery.

### RICH FERTILITY IS WASTED

Comparatively Small Lots Where Cows and Other Animals Are Kept Are Often Overlooked.

Where a large number of dairy cows or other animals have to be kept in comparatively small lots at night, during the spring and summer months, the ground becomes unusually well fertilized. In most cases these lots are used year after year for the same purpose, thus allowing this rich fertility to be wasted. A fine way to utilize this is to have two or three lots of about two acres each, using one for pasture each year, and the other two for cropping. Such an arrangement purifies the soil, besides changing tons of manure into feed.

### BURNING STRAW IS WASTEFUL

All Trash, Weeds, Manure, Etc., Plowed Under Will Supply Needed Plant Food for Soils.

The man who burns straw or corn stalks is robbing not only himself of larger crops, but he is robbing his children and other people's children who will farm those acres in the years to come. Plow under all trash, weeds, straw, manure and other wastes and let them enrich your soil. Remember that "rich farmers live on rich lands, while poor farmers live on poor lands."

### KEEP RECORD OF FARM WORK

Few Minutes Each Day Will Enable Farmer to Record Important Details of Business.

A few minutes given at a definite time each day will keep a record of the farm business, and with accurate figures at the end of the season a person can see at a glance where money is being made and lost.

### MILK RECORDS AID DAIRYMAN

Both Profitable and Practicable to Know for Certainty the Full Value of Cows.

(Prepared by the United States Department of Agriculture.)

Reports coming to the United States Department of Agriculture often include stories of the surprises which cow owners meet with when they start keeping records of their cows' production. For instance, in a Missouri cow-testing association there was a man who, when he entered the association, did not appear to have a very good

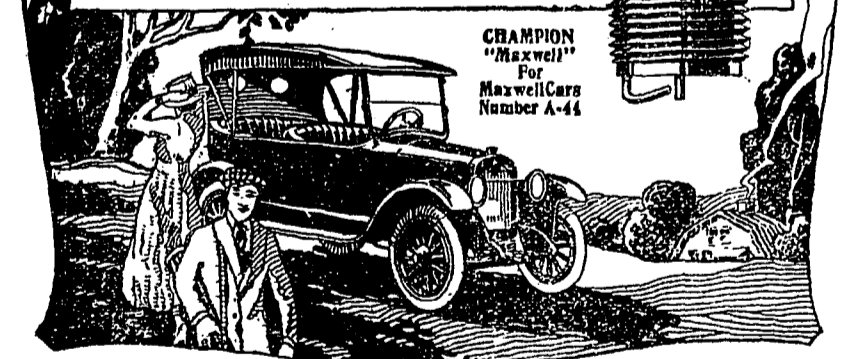

Milk Should Be Cooled Immediately After It Is Drawn.

herd; but among his cows was a crippled, ten-year-old Jersey named Goldie. Old Goldie led the whole association, with an annual production of approximately 9,300 pounds of milk and 526 pounds of fat, and an income over cost of feed amounting to \$267. In spite of the fact that when the test started she had already gone three months since freshening. The amusing part of Goldie's record is that her owner tried to sell her just before she went on test, for \$75. Six months later he refused \$275 for her. The whole herd of which Goldie was a part averaged over 300 pounds of fat for the year. In contrast with this was another herd of 37 cows in the same association, which had been reputed to be the best in that part of the state. Yet 14 of these were sold

Fisk Tires and Lee Tires  
Overland Service

Willard Batteries  
and

Champion  
Dependable Spark Plugs

Kendrick Garage Company

during the year as unprofitable, and it seemed likely that more of them would be.

Similar stories come from other states. The dairy division has been giving a great deal of time to the extension of cow-testing associations throughout the country, and there are now nearly 500 associations in various states.

The man who joins a cow-testing association never runs the risk of selling a \$200 milk producer for \$80 because her appearance is poor, nor of wasting his feedstuffs and work on a good-for-nothing cow because she looks like a good milker.

It is both profitable and practicable to know for a certainty the worth of a cow by weighing her milk. A man in a cow-testing association has the milk of every cow weighed and tested once a month, from which it is easy to calculate the total for a year. He saves the trouble of doing it himself by having the cow tester do it. The tester also weighs the feed, and figures out the cost of the milk; so that at the end of a year the owner of a

herd of cows knows exactly what each one has given, what she has eaten, and how much income over cost of feed she has brought him.

### HELP DEVELOPMENT OF CALF

To Keep Them Growing Rapidly Furnish Plenty of Good Hay—It Aids Digestive System.

The important thing is to keep the calves growing as rapidly as possible and to see that they are provided with plenty of good hay. This, more than any other one feed, will help develop the calf's digestive system and should, therefore, never be overlooked. Even if the calf is on pasture it should be given a chance to eat what hay it will consume.

Sure Sign.

## TEST—DON'T GUESS

1. Plant fewer acres of corn but raise more bushels per acre.
2. A dead ear planted means 900 missing stalks.
3. Missing stalks mean lost land and labor.
4. Testing is not expensive and its advantages are certain.
5. By testing there is everything to gain and nothing to lose.

## HANDY FEED BOX FOR STOCK

Barrel Cut in Two and Strengthened by Boards Placed Inside Is Quite Convenient.

A handy feed box for use in open lots or where cattle are fed upon grass is shown in this sketch, writes Claude Dieckman of Nebraska in Farm Journal. Cut a barrel in two and strengthen the halves by placing a frame of

Handy Feed Box.

two boards across the inside, as shown. This will prevent the tub from being smashed and will allow four animals to eat out of the box without bothering each other. A strong barrel must be selected, and the hoops must be nailed to each stave.

## MANURE IS BEST FERTILIZER

Contains Plenty of Humus and All Other Necessary Plant Foods—Add Acid Phosphate.

The home gardener who can get a load of well-rotted stable manure need not worry about fertilizer, anyone who has ever done any gardening is well aware.

Manure contains humus in plenty and all the necessary plant materials, as well as bacteria which put these materials into the most usable shape for crops. To get the full benefit of stable manure, however, it should be balanced with acid phosphate, which is comparatively inexpensive, gardeners at the Iowa state college of agriculture say.

An application of one ton of stable manure, which is about an average two-horse load, is not too much for a garden 30 by 60 feet, and 50 pounds of acid phosphate may be used with it.

Fresh stable manure should not be applied in the spring. It contains too much readily available nitrogen and may cause in some plants a growth of stems and leaves at the expense of fruits. This is especially true of tomatoes.

## UTILIZATION OF FARM LAND

Value of Place Depends Upon What Proportion of Total Area Can Be Made Productive.

Effective utilization of farm land means a high percentage of income-producing area, say specialists of the United States Department of Agriculture. The value of a farm depends upon what proportion of its total area is productive. Compare a farm of 100 acres at \$200 an acre, 95 acres being in shape to yield available products, with another farm of the same acreage at \$150 an acre, but with only 65 productive acres. If all the other features of the two farms are similar, the former should be the most profitable because its profit-producing land costs but \$120 an acre against \$280 an acre on the second farm.

## NEW SEED CATALOGUE HELPS

Pamphlet Is of Much Assistance in Planting Garden—Prevents Overlooking Anything.

Have you received a new seed catalogue? Get one—from a reliable firm—for it will help you in planting your garden and prevent you from overlooking something you may otherwise forget, say specialists of the United States Department of Agriculture. From \$2 to \$5 worth of seed will plant a vacant lot or a small home garden. Several of the seed houses offer special collections of seed that are suitable for various sized gardens.

## NICOTINE KILLS PLANT LICE

When Insects Are Discovered on Apples, Plums or Plants Spraying Is Recommended.

If plant lice are noticed on apples, plums or plants in early spring, spray with nicotine sulphate and soap (one-half pint of 40 per cent nicotine sulphate and two to three pounds of soap to 50 gallons of water), as soon as discovered. If the lice are numerous when applying regular sprays, the nicotine sulphate may be added to the regular mixture, but it is more effective when used alone.

## POULTRY

### DUCK RAISING IS PROFITABLE

Pekins Are Most Popular Breed for Production of Meat and Runners for Eggs.

(Prepared by the United States Department of Agriculture)

Although ducks do not appear to be as well adapted as chickens as a source of income to average farm conditions, yet many farmers are finding duck raising profitable as a side issue to their other farm operations. The demand for table ducks in the cities seems to be on the increase.

The period of incubation for ducks' eggs is 28 days, except for the Muscovy duck, which is 33 to 35 days. The eggs may be hatched either naturally by hens or ducks or artificially in incubators. Strong, fertile eggs are a prime essential to good hatching and are obtained only from stock properly mated and kept under the best possible conditions to secure health and vigor. Eggs from overfat breeding stock do not usually produce a large percentage of strong ducklings. Pekin and Indian Runner ducks rarely sit; consequently, if natural methods of incubation are to be used the eggs are usually hatched under hens. Duck eggs should be washed if dirty, for it does not appear to injure their hatching qualities.

Before setting a hen dust her thoroughly with insect powder. In applying this powder hold the hen by the feet, with her head hanging down, and work it thoroughly into the feathers. Siting hens should be fed whole or cracked grains, such as corn or wheat. Place 9 to 11 ducks' eggs under a hen, depending on her size and the season of the year, using the smaller number of eggs in cold weather and the larger number in warm weather. Confine the hens at hatching time and do not disturb them until they become restless, when it may be best to remove the ducklings that hatched first.

Hens must be well cared for in hatching ducks' eggs, as the period of incubation is a week longer than that of hens' eggs. It usually takes duck-

Hens Make Good Mothers for Ducklings.

lings from 24 to 48 hours to hatch after they pick the shells; therefore it is advisable to allow the hen to get off the nest for feed and water when the first ducklings pick the shell and then confine her to the nest until the hatching is over. Ducks' eggs need more moisture than hens' eggs at hatching time, as it takes the ducks much longer to get out of the shell. Poultry specialists in the United States Department of Agriculture advise, therefore, that the eggs should be sprinkled liberally with warm water previous to hatching.

All duck eggs should be tested at least twice during incubation, preferably on the seventh and fourteenth days, and the infertile eggs and those with dead germs removed. Dead germs in duck eggs decompose very rapidly and are often detected by their odor and should be removed from the incubator.

Duck eggs having pure white shells can be tested as early as the fourth or fifth day and the infertile eggs sold to bakers for use in the kitchen.

Ducks are much easier to brood artificially than chickens, but they may also be raised under hens successfully. If raised by the latter method, it is advisable to confine the hens and allow the ducklings free range, as the hens are apt to wander too far away with their broods. Ducklings which are to be sold as green ducks are not usually allowed much range, but are fed heavily and forced for rapid growth. The ducklings which are to be kept for breeding should have the web of their feet punched, using a different number of punch marks for each year so that their age can be readily determined.

## SELECT EGGS FOR SETTING

Avoid Those That Are Abnormally Small and Poorly Shaped—Stick to One Color.

Eggs that are abnormally small and poorly shaped should not be used for incubation; neither should eggs that have thin or very porous shells, say specialists of the United States Department of Agriculture. If possible, eggs should be set when fresh, and it is never advisable to use for hatching eggs that are more than two weeks old. One of the quickest ways to obtain uniformity in the offspring is to select uniformly good-sized eggs of the same color.

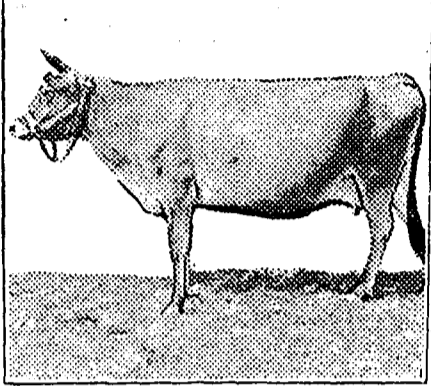

## DAIRY FACTS

### LARGE GROWTH IN DAIRYING

Dairy Division Directs Efforts Toward Increased Use of Milk and Dairy Products.

(Prepared by the United States Department of Agriculture.)

In the Southern states the work conducted by the dairy division, United States Department of Agriculture, to promote dairying and the consumption of dairy products has shown marked results. The efforts last year were directed largely toward increasing the use of milk and dairy products on the

Purebred Cow Found on Louisiana Plantation.

farm through campaigns for cows on every farm, and improving farm dairy products by practical demonstrations in schools and in farm kitchens. In Louisiana 274 cottage-cheese demonstrations, 207 butter-making demonstrations, and 236 demonstrations on milk products were made, and 26 meetings were held. As a result, 2,698 families were reported as using more milk, 178 cows were brought in where there were none before, 34 boys and girls' clubs were organized, and much improved dairy apparatus was purchased.

In South Carolina the activities resulted in the increased use of milk in 1,384 families and in the purchase of 73 family cows. Sixty demonstrations were given in butter making and 83 in making other dairy products. The work in Mississippi resulted in placing 322 family cows in 11 counties and in the purchase of 2,040 pieces of improved dairy equipment. Dairy clubs were organized in 11 counties, 49 meetings were held, and 76 demonstrations were given.

## CAUSE OF TEAT AFFECTIONS

Hands of Milker Should Be Kept Clean and Finger Nails Trimmed Quite Closely.

Milking with uncleansed wet hands is a fertile cause of teat affections. The teats and udder should be cleansed each time before milking and the milker's hands also should be kept clean. The finger nails of the milker should be kept close-trimmed and when milking care be taken not to squeeze the tips of the teats too hard. Such bruising is the cause of a condition which we have termed "corns" of the teats. The skin becomes hardened, horny or calloused and milking then becomes difficult, or the milk sprays during extraction. Dirty and contaminated stall floors and allowing cows to lie upon dirty, wet ground, or wade in stagnant water or drag their udders through wet and filth on the way to the stable are other causes; and a common cause of sores on the tip of the hind teats is bruises from stepping upon them when crossing a sill into the stable or by trampling in narrow stalls.

## TRAIN CALF FOR SHOW RING

Youngster Should Become Accustomed to Being Handled by Strangers and to Stand Erect.

When a well-fed and properly developed calf is brought into the show ring it should present a pleasing appearance. It should be clean, well groomed, hatter broken and trained. To train a calf, say specialists of the United States Department of Agriculture, put a halter on it and teach it to lead and to stand squarely on all four feet with head alert so as to exhibit its best features. It should become accustomed to being handled by strangers, seeing strange sights, and hearing unusual sounds. A good calf is frequently placed below an inferior one because the judge cannot put his hand on it to judge it correctly.

## COW-TESTING ASSOCIATIONS

On June 30, 1920, Number Had Increased 84 Over Corresponding Date in Year 1919.

Cow-testing associations in the United States numbered 467 on June 30, 1920. This number represents a gain of 84 over the corresponding date in 1919. Bull associations increased during the same period from 73 to 120.

## SUPERIOR RATION FOR COWS

Corn Silage, Clover or Alfalfa Hay, Corn and Bran Are Excellent for Producing Milk.

Here is a good ration for dairy cows: Corn silage, 25 pounds; clover or alfalfa hay, 10 pounds; corn, 4 pounds; bran, 4 pounds. In every case, silage is considered an excellent feed for the milk cow.

## GROOM COWS AFTER MILKING

Dust and Germs Prevented From Contaminating Milk Supply—Do All Work Between Times.

The cows should not be groomed, bedded, or fed immediately before milking. This fills the air with dust and germs which get into the pail and contaminate the milk. The grooming is as good for the cows as good bedding, but do it during the day when ample time will be left before the next milking to allow the dust to settle.

### Benefits of Silage.

Silage keeps the cattle in good physical condition. The hair is always oily and velvety, the hide is loose and pliable. The acids and juices of ensilage aid digestion.

### Balanced Ration Essential.

It is just as essential for the dairy cow to be fed a liberal well-balanced ration as it is for the working man to get a good meal of well selected food.

Duck-Laying Season. The duck-laying season generally ends with the last of August.

"Where There's a Will." You've got to get up every morning with determination if you are going to bed at night with any satisfaction.

### Periodic Bilious Attacks

Persons subject to bilious attacks at regular intervals know about when to expect an attack. They find that they have no desire for food when an attack is due but usually eat because it is meal time. Skip one meal and take three of Chamberlain's Tablets and you may be able to avoid the attack. Persons subject to periodic bilious attacks should not drink tea or coffee at any time.

### Texas Ridge

Mrs. Ray Bogar and little son are visiting her sister, Mrs. Chas. Dahlgren.

Mr. and Mrs. E. C. Babcock are attending the Seventh Day Adventist Camp meeting, which is held at College Place, Oregon, this year.

Mr. Orval W. Miller and bride will reside at Cheney, Wash., for a few months, where he will teach in the Normal during the summer term.

Fred Bailey was a visitor on the ridge this week.

Alfred LaBolle is replacing his barn with a new one, having lost the former by fire a short time ago. This is the time of year when every farmer needs to protect his buildings with insurance.

Malcom Drury who was seriously ill a short time ago is well again.

Chris Beyer is home over the week end, looking after his crop and garden.

Grandpa Dahlgren was a visitor in Deary one day this week.

Frank LaBolle is on the ridge visiting his brothers, Tom and Alfred.

Sam Anderson was a caller on the ridge, Wednesday.

Mr. and Mrs. Albert Pierce were shopping in Deary, Saturday.

George Drury's were Sunday guests at the Gus Birchmier home.

Ray Bogar came down from Moscow, Sunday, to visit his wife and little son.

Tom LaBolle, his family and sister, Fressie, were visitors Sunday at the home of Wesley Hartinger, on Big Potlatch.

Mrs. James Pierce was a visitor in Bovill over night with relatives.

Mrs. Chas. Weber and daughter, Elsie, were in Kendrick Monday, where Elsie received medical aid for an injured hand.

Rodney Drury departed for Spokane, Tuesday, to stay several weeks with his uncle and aunt, Mr. and Mrs. Ray Drury, where he expects to be under the doctor's care in getting an artificial limb fitted.

Tuesday morning we had much change in the weather from the previous day of intense heat. We were favored with a nice shower of rain, which was very welcome in this section to the farmers.

Mrs. Lena Gibson and Mrs. Bertha Anderson went to Clarkston for an extended visit with relatives and friends.

### Southwick News

Mrs. Smiley and children left for Bovill, Saturday, where Mr. Smiley is overseer of the logging camp. They will make their home at Bovill in the future.

Mr. and Mr. Carl Smith left for Lewiston Thursday, where they will make their home for the summer. Mr. Smith is going to attend the normal there this summer.

Ed Slipper and George Ziemann were Kendrick visitors, Saturday.

A community meeting was held at the Hi Alber home, Thursday.

Ziemanns enjoyed a visit with friends from Clarkston the last of the week.

Work on the rock crusher has been stopped on account of the crusher being broken.

Miss Nina Hunt and Mrs. Laura Langdon made a trip to Southwick Saturday from Crescent.

A large crowd attended the ice cream dinner at the Homer Hayward home, Sunday.

The Misses Flora Smith and Jessie Henderson spent the day with Miss Dorothy Stalnaker, Sunday.

The Misses Ella and Alma Holmes left for Lewiston, Tuesday.

Grandma Crawford is staying at the Philip Elvy home now and her son, Nute Crawford, came over Sunday.

Ralph Wright was in Southwick, Sunday.

### SILO INSURES NEEDED FEED

Good Silage Made of Corn Crop Planted Too Late to Reach Most Desirable Maturity.

A silo is an insurance. Very often the season is so late that the corn crop cannot be planted in time to get fully matured. Corn can be planted as late as July 1 and yet make good silage.

### Feed Cows a Variety.

A dairy cow should have plenty to eat of a combination of feeds, so balanced as to meet the requirements of milk production and body maintenance.

### Balanced Ration for Cows.

It is not injurious to feed a cow a properly balanced ration in proportion to the milk she gives. Usually the results from underfeeding are a great deal worse than overfeeding.

## News Items of Local Interest

County Agent Fletcher of Moscow was in Kendrick the first of the week on business.

Walter McCrea, Elmer Bechtel and Ralph Knepper spent the week end fishing in Bull Run creek near Elk River. Unfortunately Game Warden Brooks was also fishing along the banks of the creek, so the Kendrick party had to be satisfied with the limit of 50 each. Mr. Brooks stated last Sunday that he had inspected fifteen fish baskets in the Elk River country that day and found the game laws were being observed in regard to the size of fish caught and most anglers had a wide margin to spare without breaking the law as it applies to the limit.

Mrs. Neal Nelson of Clarkston arrived last Saturday to visit her parents, Mr. and Mrs. Frank Benscoter, on American ridge.

Mr. Westover, who is farming near Bovard, went to Moscow, Saturday, to attend the funeral of his mother. Mrs. Westover was over 80 years of age at the time of her death and was one of the pioneer residents of Moscow.

Jeff Buckles and daughter, Nellie, of Agatha, were in Kendrick last Friday on business.

A. V. Dunkle went to Moscow Tuesday afternoon to take one of the higher degrees in Masonry.

Mrs. Westendahl returned last week from the hospital at Moscow, where she spent several weeks recovering from her operation.

Cottonwood has issued a call for an election July 5 to authorize bonds in the sum of \$20,000 for paving and street work.

The electric power was off a greater part of the morning Tuesday, owing to a cross arm burning off on the line between Kendrick and Troy.

Mr. and Mrs. Adam Wagner drove to Walla Walla last week in their car to attend a Seventh Day Adventist camp meeting. They returned Tuesday.

Fred Bolon left Monday morning for Helena, Montana, where he has a job shearing sheep.

Dr. and Mrs. Moser and daughter, Lucile, were in Kendrick a short time Sunday visiting friends.

Jack Buckallew, little three-year-old son of Mr. and Mrs. Dennis Buckallew of Juliaetta, met with quite a serious accident last Sunday evening. He secured a bottle of vapo cresolene from a table and in removing the cork splashed some of the acid in his face, on his neck and hands, causing severe burns. The acid is a crude form of carbolic. Dr. Rothwell was called from Kendrick to attend the injured boy.

The tug of war between Potlatch ridge and the rest of the world is already creating considerable interest. It has been suggested that Harry Hupp of Little Bear ridge would make an excellent captain of the World team. It's going to take more than half a ton of muscle to defeat those Potlatchers.

Mr. and Mrs. Frank W. Candee of Moscow spent Sunday in Kendrick with friends.

E. R. Porter writes from Dayton, Wash., that since Kendrick defeated Lewiston's baseball team the chances were good to get a game with Dayton's crack team. Dayton and Lewiston played a very close game at Dayton about two weeks ago. Manager Wilcox is investigating the proposition.

Bob Brown received a telegram from the Alaskan Engineering Department offering him a position as gas pumpman at Anchorage, Alaska, at a salary of \$155 per month. Mr. Brown immediately wired his acceptance of the offer and expects to start soon for Alaska. He has a brother-in-law, Captain Jones, who is stationed at Anchorage. It was thru his influence that the position was secured. Joe Semarcia, who was section boss here a few years ago has a section job with headquarters at Anchorage.

Thos. McDowell was in Spokane the first of the week on business.

The Troy chautauqua will be held June 13 to 15 inclusive; Juliaetta chautauqua, June 16, 17 and 19 inclusive. A picnic will be held in the Juliaetta park on the 18th. Kendrick chautauqua, June 15 to 19 inclusive.

Mrs. Jennie Plummer left Sunday night for Pomeroy where she attended a convention of the Women of Woodcraft Lodge as a delegate from Kendrick.

The district court convened Monday at Lewiston with 120 civil cases on the calendar.

Mrs. Heck went to Lewiston, Thursday, where she will spend the summer. The Austin children, who are her grandchildren, went to Genesee to be with their father for the summer.

Commencement exercises were held at the University of Idaho, Wednesday of this week. The largest class in the history of the institution graduated.

John Kennedy of Gifford, a former resident of Kendrick and well known throughout the Potlatch country, is visiting friends and transacting business here. He expects to move his family here next fall so that the children may have the advantage of the Kendrick schools. Mr. Kennedy owns a house on the hill back of the Methodist church which he expects to improve this summer.

The American Legion will give a dance Friday evening, June 17, at the Fraternal Temple, right after the chautauqua program. A Moscow jazz orchestra has been secured to furnish music for the occasion. The Legion boys are also planning to install electric fans in the hall for the evening.

Mrs. Holden of Moscow was a guest at the Kight home Monday night.

M. B. McConnell was in Orofino the first of the week on business.

Jesse Collins of Lewiston was in Kendrick, Wednesday, on business.

There are but a few days left until the opening day of chautauqua arrives. The season ticket sale will have to be started in earnest. There are 340 season tickets to be sold and that means work for everyone.

William Rogers entertained the members of his Sunday school class at a most delightful picnic along the banks of the Potlatch near the McCrea home, Tuesday evening. A very pleasant time was spent by the young people.

The Kendrick baseball team will go to Troy Sunday to play the team at that place. The Kendrick Kids will also play at Troy the same day.

Members of the Epworth League spent an enjoyable evening at the old shooting grounds last Saturday. The picnickers left town about 5 o'clock, ate their lunch in the open and spent the remainder of the evening in games. "Leap Frog" and "Run sheep run" were the main attractions of the evening and the party broke "camp" at about 10 o'clock.

Mrs. M. B. McConnell and daughter, Jane, went to Lewiston last Friday to visit friends. From there they went to Culesar to spend a few days with the G. S. Porter family.

Mr. Sparber brought in a small bunch of volunteer wheat which grew on his farm west of town. Some of the heads were over 5 1/2 inches long.

The eldest son of Ed Baker had a painful accident Thursday morning. While chopping wood he nearly severed the big toe from his right foot. Dr. Rothwell dressed the wound and thinks it may be possible to save the toe.

Mrs. John Waide went to Deary the first of the week to spend a few days with her husband.

Mrs. W. Packer and daughters of Stites is visiting at the home of Rev. and Mrs. Hood.

H. D. Hayward of Southwick was a Moscow visitor the first of the week.

Rev. Mitchell, Episcopal minister of Moscow, preached a very interesting sermon at the Grand Theatre last Sunday evening. He has an appointment here to preach Sunday night at the theatre and may continue the Sunday evening services here for some time if the attendance justifies it.

The rest room and library in the basement of the Methodist church will no doubt prove to be a popular place during the celebration here July Fourth. It is a very pleasant, cool room and a comfortable place to rest. Everyone will be welcome there.

### Cameron News

Mrs. Louis Olday returned home from Genesee, Sunday, where she has been visiting for the past week.

Mr. and Mrs. Carl Meyer and family, and Mr. and Mrs. Albert Meyer of Deep Creek, Wash., returned to their home Saturday, after attending the Wendt-Heimgartner wedding.

### Treatment of Common Colds

"If all who catch cold could be persuaded to remain in bed for the first twenty-four hours of such an attack" says a well known physician, "there would be fewer cases dragging on with distressing symptoms for weeks and often ending in some more serious disease." To make sure of a prompt recovery you should also take Chamberlain's Cough Remedy. Whether sick or well the bowels should move each day.
