

Over The County

Deary Press—Some people who have money in the bank are wondering where they would get off if thieves were to break in and steal it. There is no cause for worry on that score. Banks are fully insured against loss from holdups, burglary or theft, and when money is stolen from them the insurance company makes good the amount taken. So you see your money is much safer in the bank than it is in your pocket or hidden away in the cracked sugar bowl. Moreover, the insurance folks maintain the best detective service in the world and immediately after a bank has been robbed, sets its keenest sleuths upon the trail of the robbers. It nearly always catches them. If the editor had any money, and knew he had to have it stolen, he'd make every effort to have it stolen from the bank—because then he'd get every cent of it back.

Julietta Record—W. J. Harris, who resides a short distance up the creek, states that he will have lots of apricots this season, quite a few nectarines, but very few peaches. He has some walnut trees pretty heavily loaded and the indications are that he will get a good yield this year. Mr. Harris has recently purchased a drag saw which will cut about 12 cords of wood per day on good ground and is cutting wood on the place he purchased some time ago adjoining his home place. He expects to cut about 50 cords now and this winter intends to cut 100 cords more. There are about 300 cords of wood on the place, he says, including large and small timber. It is mostly yellow pine and fir.

Troy News—As a result of the playground movement started during the Chautauqua a swimming pool is to be built for the boys and girls. On Wednesday forenoon a meeting of interested citizens was held in the tent and a committee went from there to select a site. The boys stand ready to do as much of the work as they can and from the enthusiasm shown by both young and older workers the coveted pool will be a fact in a short time. Details for handling the movement will be worked out by the older workers and when it is opened the pool will be in charge of older men or women on the days allotted to boys and girls separately. One of the plans suggested is for a bath house where suits can be changed and a dam will be built to store the water during the season when the creek is low. The site chosen by the committee was a place in the creek adjacent to the Troy Lumber Company's plant and if the use of the spot can be obtained from the company work on the plan will be begun at once.

Gravel surfacing of the Rimrock highway is in progress and some three-quarters of a mile has already been finished. It is estimated that about a mile and a half will be surfaced this season. When completed it will give the people of that section a hard road outlet to both Genesee and Lewiston as it connects with the North and South state road at the Ingle school house.

Building New Road

The highway district machinery was taken to American ridge the first of the week and work commenced on the new stretch of road from the corner near the Wade Keene place to the old Russell prune drier. The building of this stretch of road has been contemplated for a good many years. Its completion will mark a wonderful improvement on American ridge.

The present road bed follows around and over a number of steep hills. It also has some very dangerous curves. The new location for the road practically eliminates all of the hills and will make a splendid stretch of road which is favorably located for a permanent highway.

Practically all of the work to be done can be handled with the tractor and grader as it is all dirt work. It may be found necessary to make one small fill but the expense attached to it will not be large.

The Horse Heaven country is expecting the largest wheat crop in years. Many fields are estimated at 30 bushels to the acre, which is a large yield for that district.

Return from California

L. A. Grjnolds, better known here as "Jake," arrived Tuesday from Lewiston. He and his family returned recently from a tour of California in their Dodge car. They spent twelve weeks on the trip, carrying with them a camping outfit. They saw a great deal of beautiful country but liked Idaho better so on their return they purchased 10 acres of land in the Lewiston Orchards, where they will make their home. The land has no improvements but they expect to build soon.

Fix Harvest Wages

According to O. E. Mitchell, manager of the city free employment office of Spokane, the minimum wage for harvesting in the Inland Empire this season will be \$2.50 per day. The following wage scale is being adopted throughout the Inland Empire, according to Mr. Mitchell: Haying, \$2.50 a day; shockers, pitchers and header box drivers, \$3; bundle drivers, \$3; cooks, \$3; flunkies, derrick drivers, pull binders and wheat haulers, \$3; workers in peas, \$2.50; forgers, spike pitchers, jig drivers and headermen, \$4 a day; stackers, head-punchers, firemen, sack sewers, \$5 a day; combine men, \$7; separator men and steam engineers, \$8 a day; gas stationary engineers, \$5.

Sixteen Years Ago

News items taken from the Gazette published sixteen years ago.

August and William Hartung left Cameron Sunday for Portland to attend the Fair.

Moscow is enjoying a good roads convention under the direction of the special corps of instructors now traveling under the auspices of the National Association.

J. V. Fifer had the misfortune to lose his house and the entire contents by fire last night. There was no insurance.

Mrs. A. W. Gordon accompanied Mr. and Mrs. W. M. McCrea on their trip to Shoshone last week. Mrs. Gordon attended the Grand Lodge of the Rathbone Sisters at that place in the double capacity of Grand Lodge officer and delegate from this lodge.

J. P. Alexander of Linden was a Kendrick visitor this week, transacting business and meeting friends. It is not often that J. P. comes to town.

The H. P. Hull residence is now enclosed and ready for the plasterers.

George Drury brought in the first picking of strawberries, Tuesday, which totaled 14 crates. This will increase and at the present price of berries will net him a neat figure.

The brick block of T. B. West which will be occupied by the Monogram Saloon is at a standstill until the brick now burning is finished. As soon as the kiln is opened the building will be rushed to completion.

The material for the school house addition is now on the ground and the building is rapidly taking shape.

Mr. Hackney is our night operator and agent at the depot, which assistance was necessary with the running of the owl train. The N. P. has also placed lamps on the platform for the accommodation of the patrons.

Kendrick members of Company B, State Militia are now the proud possessors of two uniform suits, one a dress suit of the regulation army color and the other a fatigue dress.

Bootleggers Caught

The sheriff's office at Moscow received a tip from Kendrick that a still was operating in a residence in Kendrick. Saturday night Sheriff Woody and Deputy Sheriff Summerfield raided the house occupied by George Palmer, Stella England and her brother, Leonard England. They found a copper still and about 50 gallons of mash. Leonard England was in quarantine for small pox in the upstairs of the house. He was quarantined by Dr. Kelly, local health officer, last week and is still in quarantine.

The parties implicated in the case came here about two months ago and Palmer worked on the section. They were taken to Moscow where they pleaded guilty to having intoxicating liquor in their possession. Judge Steele sentenced the woman to serve 60 days in jail and Palmer was sentenced to 90 days in jail.

Kendrick 17, Troy 1

The game last Sunday afternoon on the local ball grounds between Kendrick and Troy, was rather a one-sided affair and failed to arouse much enthusiasm from the crowd. The attendance was good but the game was a slow one and had no sensational features.

In the seventh inning the score stood 6 to 1 in favor of the locals. At the end of the inning it was 17 to 1. At one time during this inning there were three Kendrick runners on bases and all three of them stole home.

Pete Harland and Hagan were the Troy battery artists, while Walter Thomas, R. Densow and G. Carlson made up the battery for Kendrick. Thomas pitched three innings, one run for Troy being made in the first on a combination of two errors. Harland struck out 6, Thomas 2 and Densow 8. Kendrick made 7 errors Troy 11. Kendrick got 11 hits, Troy 2.

Herres in center field played his first game Sunday with the regular team. He gives promise of being a fast player and played a good game against Troy.

Linden Items

Mrs. Walter Kight and son, Dewain, spent Friday of last week with Mrs. Vaughan.

Clara Pippenger and family of Cavendish were Sunday visitors at the George Garner home.

Mr. and Mrs. Arthur Bohn, who have employment at Long Meadow, spent Sunday at home.

Clarence Harris was a Troy visitor Monday.

Miss Bertha McAllister spent the week end in Kendrick visiting friends and attending the chautauqua.

Mrs. McPhee and Miss Celia were Sunday guests at the home of Mrs. Vaughan.

Last Sunday Mr. and Mrs. Shingler and family visited at the Clem Israel home.

Granville Wall went to Moscow last week on business.

Albert Dorendorf is to be seen driving a new car through our streets. He purchased it in Moscow last week.

Jim Farrington is visiting his aunt, Mrs. Shoemaker, on the reservation.

Miss Alta Fonburg of Arcadia, Kansas, arrived for a visit with her uncle, Ed Fonburg.

All who attended the dance at Whislers last Saturday night reported a good time.

Miss Anna Smith, who is attending summer school at Lewiston, spent the week end at home. She was accompanied by S. A. Mitchell of Billings, Mont.

Ed Fonburg and Cleve McPhee each delivered a load of hogs to Kendrick the first of the week.

James Ball made a business trip to Lewiston the first of the week.

Mr. and Mrs. James Langdon of Julieta spent the week at the Allen home.

Mrs. J. P. Alexander returned Wednesday from a visit at Winchester. She was accompanied home by her grandchildren, Ruth and Raymond Alexander.

Mrs. James Garner and Florence Perry are visiting a few days in Julieta at the Joe Perry Home.

Hupp Has Tug-of-war Team

Harry Hupp of Little Bear ridge has his tug-of-war team lined up. The weight of the team approximates a ton. There is a \$25 prize for the winners of this contest, to be given away here July Fourth. The teams will each be composed of nine or ten men. Several Potlatch ridges last week suggested Lloyd Kuykendall as captain of the Potlatch ridge team. Lloyd is about seven feet broad across the shoulders and has been in the army, so he ought to know how it's done.

Miss O'Connor Married

Miss Irene O'Connor of Paradise, Montana, one of the grade teachers in Kendrick last term, was married to Eugene W. Thatcher of Lewiston, June 8. The wedding took place at the home of the bride's parents at Paradise. Mr. Thatcher has a position in the postoffice at Lewiston.

Mr. and Mrs. A. H. Oversmith were in Kendrick a short time Sunday afternoon with friends, driving down from Moscow in their car.

Idaho Produces Wood Oils

Star-Mirror—Idaho can produce its own wood oils for the concentration of lead, zinc and copper ores by the flotation process, rather than having to send to the south or to the Great Lakes or the eastern states, says a bulletin just published by the University of Idaho. The flotation process is extensively used in the concentration of these ores in Idaho and other western states. It is estimated that there will be 100 million cords of wood waste available in Idaho Forests for the manufacture of by-products.

The report embodies the results of investigations made jointly by the school of forestry and the school of mines of the university, in cooperation with the state bureau of mines and geology. The bulletin is the work of I. W. Cook and Henry Schmitz of the school of forestry and Louis A. Grant of the state bureau of mines and geology.

"The net result of the investigation," says the bulletin, "shows that certain of the oils are well adapted to flotation use, and the conclusion is reached that persons contemplating the manufacture of forest by-products would do well to consider the advisability of producing those fractions which are demonstrated as having a flotation value.

"The total stand of merchantable timber in the state of Idaho has been variously estimated at from 98 to 130 billion feet, board measure. Each billion feet of lumber manufacture entails a waste through logging and milling of a volume equivalent to from one to one and a half billion feet, board measure. If the lower figure is taken in each instance it is evident that in the manufacture of the merchantable timber of Idaho there will be a waste of approximately 98 billion feet, board measure, equivalent to eight billion cubic feet or 100 million cords. It is evident then that the supply of raw material for any industry utilizing wood waste is enormous.

"A large percentage of wood oils now produced and used in the flotation process is the by-product, either of wood turpentine plants in the southern states using southern yellow pine wood, or of the wood-alcohol plants in the states of the Great Lakes and in the eastern states in which hardwoods are used."

Of the western woods distilled the oils produced by the distillation of Port Orford cedar are found in general to be the most satisfactory, comparing favorably with the best flotation oils on the market, according to the bulletin. This species of cedar is not found, however, in Idaho forests.

Oils produced by the destructive distillation of western red cedar, yellow pine and white fir were classed as fair flotation agents, compared to the standard oils used.

The bulletin contains many columns of figures showing in detail the results of the experiments, both in the distillation of the oils and in their use in the flotation process.

Band Prospects Bright

With the arrival of Walter and Harold Thomas last week local band stock went to par. Walter is one of the most talented band leaders of the northwest. During the war he was leader of the band on the U. S. Steamship St. Louis and for the past two years has been leader of two large bands on the coast. Harold is a talented saxophone and piccolo player and will be a strong addition to the band. There is nothing to prevent Kendrick from having one of the best bands in the state.

Morgareidge Speak July 4th

Judge Will F. Morgareidge of Moscow has been engaged to deliver the Fourth of July address here. Judge Morgareidge is an eloquent speaker and has exceptional ability in delivering patriotic addresses. He is very popular in this community and his friends here will be glad to know that he has consented to speak here during the big celebration.

Mrs. Sam Taber of Fix ridge committed suicide at her home Monday morning by hanging. She had been ill for the past three years and became despondent. Her husband was in Julieta when she took her life. The funeral was held Tuesday afternoon.

Chautauqua Next Year

A contract bearing fifty-six signatures was made with the Ellison-White Chautauqua people for another chautauqua next summer. Sentiment is stronger this year than ever that the chautauqua is a community enterprise and the willingness for a large number of farmers to guarantee another series of entertainments for next summer is a good indication that they considered last week's program a success.

Following is a list of those who signed the contract: M. V. Thomas, Dr. Kelley, O. Hupp, G. Hogrefe, E. P. Atchison, F. Ellis, H. E. Emmett, E. T. Long, W. M. McCrea, Louis Pearson, E. E. Bechtol, C. W. McKeever, A. Wilnot, G. F. Walker, A. E. Wilcox, Rev. Mort, N. E. Walker, S. A. Eechtol, J. C. Hamill, J. F. Reid, A. Onstott, F. Sparber, Kendrick Garage, A. E. Robbins, Ed. H. Dammarrell, John Kite, A. K. Carlson, N. L. Hill, A. G. Peters, Herbery Wolff, T. H. Daugherty, Theo Hanson, A. Wegner, G. W. Leith, Clifford Davidson, L. L. Davis, D. M. Guy, Hotel Kendrick, R. D. Newton, Jody Long, F. Chamberlain, A. W. Perryman, M. E. McConnell, I. D. Bradshaw, R. Winegardner, C. T. Lewis, Ed. Wittman, Dr. Rothwell, A. C. Deeter, Thos. Sturdevant, Frank Roberts, George Bailey, Jesse Hoffman, Wm. F. Rogers, Ralph E. Knepper, E. W. Lutz.

Celebration Progressing

The members of the Fourth of July committee met at the town hall last Monday evening to review the work that has already been done and to perfect plans for the coming celebration. Everything is going smoothly and the indications are that Kendrick will have a big day here July 4th. The various sub-committees have their work well in hand and are looking after the details in fine shape.

Lumber is already being hauled to the park for the construction of the American Legion bovery.

A tentative program was outlined covering the main events of the day. Copies of the program will be distributed the morning of the Fourth so that everyone may become familiar with the schedule of events.

The Calithumpian parade at 10:30 sharp will be the opening event of the day and from that time on there will be something doing all the time. The committee is making preparations to accommodate an immense crowd as reports are coming in that many former Kendrick residents will be here from a distance to spend the day with old friends. It is going to be a general reunion for everyone and a day full of good old-fashioned Fourth of July celebration.

Julietta Wins Again

Julietta won her fourth straight victory from Kendrick in a hotly contested game at Julieta last Monday afternoon. It was a hard fought battle, the distinguishing feature of the game being the consistent hitting by both teams. The final score was 15 to 14, the deciding run being made in the ninth inning by Julieta.

Kendrick pitched McCrery, Densow and Thomas while Ross did the pitching for Julieta. At one stage of the game Kendrick had a six-run lead but hard hitting by Julieta and a number of errors on the part of Kendrick overcame the lead.

While both teams made numerous errors, the game was so close it kept the enthusiasm of the crowd at fever heat.

Lumbering Here

An average of two carloads of lumber a day have been shipped from Kendrick since early in the spring. Big auto trucks have been hauling the lumber from the Cedar Creek mills faster than cars could be obtained to handle it at this end of the line. Most of the lumber will have been hauled from the mills by the end of this week. There is an enormous pile near the Vollmer Clearwater Company's warehouses at the east end of town that is awaiting shipment. The auto trucks cleaned up the output of the Cedar Creek mills in a few weeks time. With teams and wagons it ordinarily took all summer to get the lumber to Kendrick.

Mash Stirs Up Trouble

There have been some rather interesting developments from the England and Palmer bootlegging case, regarding the use of the quarantine sign on the house in which the mash was found. The sign was placed there by Dr. Kelly, local health officer, after he had quarantined Leonard England for smallpox. According to Dr. Kelly only the upstairs portion of the house was under quarantine and England was confined to this part of the house, Palmer and Stella England having the lower part of the house, were not under quarantine.

Considerable publicity has been given to the idea that there was no small pox in the house, several daily papers publishing this as a fact. Dr. Kelly made the following affidavit before H. P. Hull, a notary public:

"On this 20th day of June, 1921, before me H. P. Hull as a notary public, personally appeared Dr. J. H. Kelly who, being first duly sworn, deposes and says as follows: That he placed the sign 'smallpox' on the house where the parties were arrested, and a still found, on the 14th of June, 1921; that at the time a man by the name of Hughes had the smallpox in said house and is now therein."

The following article concerning the general features of the case appeared in Tuesday's Star-Mirror:

"Pioneer day," June 15, which is a legal holiday in Idaho, may prove unfortunate for George Palmer and Stella England, who were arrested at Kendrick Saturday night for making and having in their possession illicit intoxicating liquor, according to the statement of Prosecuting Attorney Nisbet, who says that other cases are likely to follow the one in which this couple pleaded guilty and were sentenced to serve 60 and 90 days, respectively in the county jail.

"The couple admit they have been living together, but claim they came to Moscow on June 15 to get a marriage license and finding the auditor's office closed, did not get it and have simply postponed getting the license and being married, although they have been living in the same house together, she keeping house for him. I do not know yet just what action will be taken in the case."

"Another case that may prove interesting is that in connection with a smallpox quarantine sign on the door of the house where these people were living and which we found a still in full operation with 50 gallons of mash. There was no smallpox patient there and we want to know why this sign was posted. We understand a Kendrick physician had posted it, but Palmer who was working on the section, went in and out at will and there was no smallpox. The sign would naturally keep people away so that the booze could be made."

It is learned that Palmer and the woman came from Spokane two months ago and rented this house. Palmer worked on the section and, according to the officers, the woman "kept the home fires burning" under the booze during the day while Palmer was at work. Mr. Nisbet is investigating the law in regard to unlawful use of a quarantine sign.

Miss England was sent to Lewiston Tuesday to serve her sentence in the Nez Perce county jail, which has a woman's wing. As there is no place to keep women in the Latah county jail Judge Nelson, of the probate court issued an order transferring the woman to Lewiston and she was taken there Tuesday afternoon.

Southwick News

Mr. McAllister and family from Crescent are spending the week end at the home of Mr. and Mrs. George Baker.

Quite a group of Southwick people attended the convention at Julieta Sunday.

Misses Ella and Elma Holmes are visiting at the Grandma Thornton and Roy Southwick homes.

Albert Jones has been wearing a bandage over his left eye for the last few days. While slashing brush on the Phil Elvy place near town a limb struck him in the eye.

Zelma Wright is spending a few days in Southwick. Julieta has signed up for another chautauqua next year. They had the Radcliffe three-day chautauqua this summer and will have the same company next year.

Do you know why it's toasted

Subscription \$1.50 a year.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

The entertainments furnished by the Ellison-White chautauqua last week were vastly superior to the talent that appeared on the chautauqua platform here last year. While there was a difference of opinion as to which of the entertainments was the best, there was such a varied program that anyone who failed to be pleased with any of it, was surely hard to please. In securing the signatures of 54 people of the community the stamp of approval was placed upon a chautauqua for 1922.

A. E. Wilcox deserves a great deal of credit for the manner in which he has conducted the finances of the Kendrick baseball team. There have been no demands made upon the public for the support of the team other than the regular charge for admission at the games. It is very seldom that a baseball team in a small town is self-supporting, as it is customary to ask for subscriptions to the amount of four or five hundred dollars at the beginning of the season. While Kendrick's ball team hasn't won every game this season by any means, at the same time it has made a good record and is a credit to the town.

It is said that dried prunes have the same effect as raisins in the right mixture.

"Making both ends meet" is the big issue today with almost everyone. Let's hope that the ends will soon meet and get on speaking terms again.

It might be a good idea for Kendrick business houses to provide their Fourth of July decorations early, as it may be necessary to send for more in order to have a supply large enough to fill the requirements of everyone. The business section of the town can be made very pretty with red, white and blue decorations among the trees.

Infinity is the number of things that can happen to an automobile.

Beans are almost down and out in this part of the country. The average Potlatcher will wave his arms in wrath whenever they are mentioned. Next fall, however, if 2 or 3 cents is

lacked on to the present price people will again begin to eat beans and thus stabilize the market. At the present prices of around 3 cents a pound they fairly turn peoples' stomachs. During the war at 15 cents a pound everybody had to have them.

The headline "Wheat Again Declines" is in almost every paper these days.

There are hundreds of thousands of feet of lumber brought from the Cedar Creek sawmills every summer. This summer an unusually large amount is being hauled here by auto truck, loaded on the cars and shipped to market. If the lumber business can be made to pay after hauling 10 or 12 miles over roads in their present condition, what would it mean to the Cedar Creek country if the lumber could be brought to Kendrick, the nearest shipping point, over hard surfaced roads? There is an immense amount of fine timber that would net the owners a handsome profit if it could be brought to the railroad with less expense. It is possible that within the next two or three years this much-used strip of road will be put on a grade and surfaced with crushed rock. When this takes place, watch Cedar Creek grow.

ONCE A PORTER, NOW MILLIONAIRE

E. Howard Cadle Becomes Christian When He Receives Warning From Doctor.

WAS BUTT OF SALOON JOKES

Today He Has a Six-Figure Income, Beautiful Home, Servants and Everything—Spends Part of His Time in Evangelical Work.

Indianapolis.—If you had "gone broke" and worked as a porter in a saloon and on the "mop gang" of a janitor's force and then in a few years had made a million dollars, how would you enjoy it?

E. Howard Cadle of Indianapolis is the man who was the saloon porter and the mop handler.

Something like five years ago Cadle and his wife and children were living in poverty in Orleans, Ind. He was the object of the rough humor of the men who patronized the saloon where he worked.

Today Cadle has a six-figure income and a fine home and servants; and already is planning how to spend the coming winter.

He has decided to go on the road with Gypsy Smith, the evangelist, and Mrs. Cadle will accompany him.

To Tell Life Story. The Gypsy Smith meetings will begin at Omaha and Mr. and Mrs. Cadle will continue with the evangelist throughout the winter.

"I will make all the necessary arrangements for the meetings and will talk to overflow meetings, telling the story of my life," says Cadle. He already has been foremost in promoting Gypsy Smith meetings at Louisville and in Indianapolis.

After the Louisville meeting Cadle bought ground and built a permanent tabernacle in that city. On the wall is a tablet bearing the following inscription:

"Directed by E. Howard Cadle in honor of his mother, whose prayers saved him from a drunkard's and gambler's grave."

Cadle was born thirty-seven years ago at Salem, Ind. He made money rapidly at intervals, and lost it just as rapidly.

His mania for gambling was so strong, he says, that he would bet on any chance. For instance, with two raindrops running down a board, he would bet which would reach the bottom first.

He was receiving \$8 a week for his work as saloon porter when a doctor told him he had only four months to

live. Cadle says this was his first real awakening.

He went back to his mother's home and there he told her he had decided to live a Christian life.

Becomes Auto Salesman.

After ups and downs, he sought employment as an automobile salesman. In this job he achieved the record of selling a car a day for a year.

Finally, after he had paid off his debts he had \$300, and with this he started in the shoe repair business.

After a little while he organized a company, then found himself in disagreement with others in the company, and it was necessary for him to get out or buy the others out.

But he had nothing like the amount of money required for the purchase. He happened to think of James P. Goodrich, whom he had seen when the latter was governor of Indiana and Cadle was on the janitor's force at the statehouse.

He went to Goodrich and told him of his predicament. Goodrich wrote out a check to Cadle for \$25,500. Cadle then became president of the company and Goodrich vice president.

Today the concern has 16 establishments in the following cities: Chicago, Cincinnati, Louisville, Evansville, Ind., Terre Haute, Ind., Columbus, O., Fort Wayne, Ind., Indianapolis and Dayton.

It is not an easy task for Cadle to tell his life story. There are tears in his eyes when he frankly says that in the old days he was not worthy the unstinted devotion his wife gave him.

But the old days are gone and Mr. and Mrs. Cadle now are happy in giving their time and their money to the cause of evangelism.

Cadle's slogan befits his business: "It's never too late to mend!"

Girl's Politeness Wins.

Cambridge, Mass.—Politeness won \$1,500 for Miss Lillian Sherman, the wife of Jerome Thomas of Dorchester county, fled the other day, showed. Miss Sherman is cashier of the C. and P. Telephone company, and it was her courteous treatment of Thomas which caused him to name her in his will.

METHODIST CHURCH.

Howard W. Mort, Pastor.

Are you using the library and rest room? It is yours for use. Open Wednesdays and Saturdays from 2 to 5 p. m. Open the afternoon of the Fourth of July.

Sunday school at 10 a. m. Morning Worship 11 a. m. Epworth League 7:15 p. m. A cool place after a hot day.

There will be no evening service. We will adjourn to attend the farewell service of the Rev. R. M. Hood at the Presbyterian church.

Moosew District Institute and Camp Meeting at Asotin park beginning July 1st and lasting ten days. A beautiful park on the Snake river where the swimming is the best and the afternoons are the coolest. A fine place to rest and enjoy some good things. See the big red posters at the church and you sure will want to attend. Drive down and stay a few days at least.

Presbyterian Church

Robert M. Hood, Minister.

This will be my last Sunday here and I would like to have as many of my friends as possible at the services. In the morning I will preach at the Steel school house on Big Bear ridge. In the evening I will preach in the church here.

My relationship with the people of Kendrick has been pleasant and I trust that the church and entire community will make progress along all right lines. With best wishes.

Robert M. Hood, Minister.

80 Acre Farm for Sale

40 acres in cultivation, all fenced and cross fenced; house 14 by 32, 1½ story. Barn 20 by 40; 14 by 32 woodshed and machine shed; 1 mile to school and on R. F. D. 4½ miles from Deary, on Texas ridge. Price \$6400, part cash.

BEST DEVELOPMENT OF COWS

Feed is About as Important as Breed in Creating More Highly Developed Animal.

Feed, as a source of development, is about as important as breed, not in creating impossibilities, but in bettering the possible; so that the heifer, if well bred, if well and properly fed, and with discriminating judgment will be a more highly developed cow.

Wise Laws of the Ancients.

The Licinian law, effective 275 B. C. forbade anyone to own more than 500 acres of land and more than 100 large cattle, or 500 small animals. Another law of the same name, 56 B. C. imposed a heavy penalty on those who organized clubs for massing power at an election, while another law, 103 B. C. limited the funds one might expend for supplying his table.

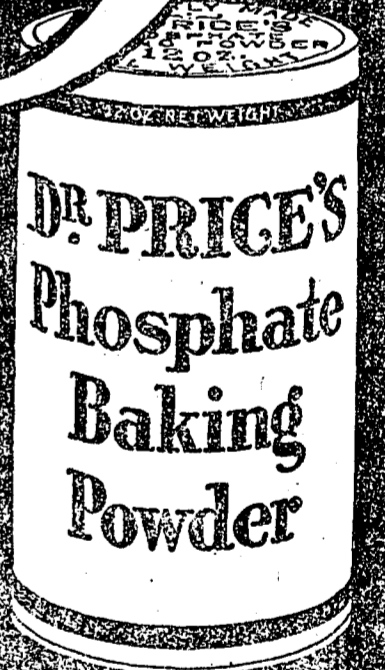

Periodic Bilious Attacks

Persons subject to bilious attacks at regular intervals know about when to expect an attack. They find that they have no desire for food when an attack is due but usually eat because it is meal time. Skip one meal and take three of Chamberlain's Tablets and you may be able to avoid the attack. Persons subject to periodic bilious attacks should not drink tea or coffee at any time.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O.

PERIL IN HOUSE FLY

Is Allowed to Spread Bacteria Over Food Supplies.

Duty of Every Community to Spend Money in Warfare Against This Enemy of Mankind.

Washington, D. C.—"The danger of the typhoid or house fly in the carriage of disease has been abundantly demonstrated, and yet it is allowed to breed unrestricted all over the United States; it is allowed to enter freely the houses of the great majority of our people; it is allowed to spread bacteria freely over our food supplies in the markets and in the kitchens and dining rooms of private houses."

Thus writes Dr. L. O. Howard in a communication to the National Geographic society. He continues:

"Even if the typhoid or house fly were a creature difficult to destroy, the general failure on the part of communities to make any efforts whatever to reduce its numbers could properly be termed criminal neglect; but, since it is comparatively an easy matter to do away with the plague of flies, this neglect becomes an evidence of ignorance or of a carelessness in regard to disease-producing filth which to the informed mind constitutes a serious blot on civilized methods of life."

"If we allow the accumulation of filth we will have house flies, and if we do not allow it to accumulate we will have no house flies. With the careful collection of garbage in cans and the removal of the contents at more frequent intervals than ten days, and with the proper regulation of abattoirs, and more particularly with the proper regulation of stables in which horses are kept, the typhoid fly will become a rare species."

"We have shown that the typhoid or house fly may carry typhoid fever, Asiatic cholera, dysentery, cholera morbus and other intestinal diseases; it may carry the bacilli of tuberculosis and certain eye diseases; it is everywhere present, and it is disposed of with comparative ease. It is the duty of every individual to guard so far as possible against the occurrence of flies upon his premises. It is the duty of every community, through its board of health, to spend money in the warfare against this enemy of mankind. This duty is as pronounced as though the community were attacked by bands of ravenous wolves."

HE WORKS AND LIKES IT

Found—A millionaire who gets up at five in the morning, works on a farm all day and goes to bed with the birds. He wears overalls and a slouch hat, milks the cows, hoes potatoes and feeds the hens at an hour when many a poorer fellow-being is sleeping. The millionaire farmer is Howard Parmenter of Wayland, Miss., who inherited the fortune of the late Johnathan Parmenter, original "overall millionaire." Farmer Parmenter is not a "gentleman farmer" by any means. He works harder than any of his farm hands and is proud of it. "It's worth more than money to me to work hard, eat plenty and go to bed at sunset. Tell the city people to come out and learn how to live," said Mr. Parmenter. The photo shows farmer Parmenter with one of his blooded cows.

BOY IS LIGHTNING READER

Twelve-Year-Old School Pupil. Read Twelve Books of Average Size in Single Day, and Wanted More.

Raleigh, N. C.—Raleigh claims to have in the person of Louis Silver, twelve years old, in the seventh grade of the public schools, one of the fastest readers for his age in the country. The boy a few days ago read 12 books of the average number of pages in a single day, and declares he could have read several more "if I could have gotten them."

In a test given him by his teacher, Miss Florence Fitzgerald, Silver read 824 words in a minute and answered every question correctly when she quizzed him on what he had read.

Quadruplets Born.

New Haven, Conn.—Three boys and one girl were added to the family of Michael and Josia Solso, No. 9 Oliver street, the other day. The quartette make eleven children born to the couple in their nine years of married life. Eight are living.

The weight of the babies ranged from 4 to 5 1/4 pounds. All are perfect and they and their mother were in good health.

REDS INFLICT 'THIRD DEGREE'

Brooklyn Communist Tells of Torture in Russian Prisons to Force "Confessions."

MEETS DEPORTEES IN JAIL

Found Twenty Men Shipped Out of the United States in Various Prisons in Moscow—Many Prominent Men Also Prisoners.

Reval, Esthonia.—The worst phase of imprisonment in Moscow is not the possibility or probability of execution, but the daily attempts made to wring confessions from the prisoners, says Dr. Morris Zucker, a Brooklyn communist, who arrived here recently after having served four months in the Russian jails.

Zucker was sentenced in New York in 1919 to 60 years' imprisonment for sedition, but was deported instead.

Speaking of the life of the prisoners in the principal political prison at Moscow, which is called the "O. O. V.," he said, "the daily third degree to which prisoners are subjected if they are suspected of a serious political crime is worse than execution."

Torture Repeated Daily. "These prisoners are taken every day, if their captors think there is a chance of wringing a confession from them, into the questioning room. There, whether they have anything to confess or not, they are commanded to 'reveal the truth.'"

"The commissar puts a revolver to the prisoner's head. 'Confess, or I'll shoot,' he commands. The prisoner waits for the shot. He never knows whether it is coming or not."

"This process is often repeated until the prisoner will confess rather than undergo any further ordeals, in which case he is shot anyway."

Meets Deported Radicals in Jail.

The mental condition of these prisoners becomes such that they would prefer death, said Doctor Zucker. The Brooklyn communist says that he met in the various prisons of Moscow 20 of the radicals deported from America and that he could well understand why the Bolsheviks arrested them, for they were chiefly anarchists who did not believe in any government, "particularly in a government so dictatorial as that maintained by the Bolsheviks."

Zucker said he found in prison also the president of the Turkestan soviet republic, Mohammed Hadjiz; Gen. Alex Gertor, once commander of the Russian southwestern front; eight members of the executive committee of the right wing of the social revolutionist party, three members of the executive committee of the left wing of that party, including Mayorieff, who was commissar of agriculture in 1918, and also a former minister of ecclesiastical affairs, M. Samann.

Zucker described the summoning of prisoners for execution in much the same way as did Schwartz, the San Francisco communist, who came out of Russia some months ago.

VIENNA BANKS GET IN JAM

Deposits Fail to Increase for Three Months and Aid is Sought From Government.

Vienna.—Bank deposits here remained virtually stationary for three months, thus forcing the banks to resort to emergency measures to meet demands of large depositors for payrolls and similar purposes.

They are depositing securities with the government and having money printed to order.

The curious situation is ascribed principally to the law governing depositors, which requires a complete identification of the individual. Many persons object to this, not wishing to disclose their assets for taxation and preferring to have many small bank accounts under different names. The bankers have asked for repeal of the law.

Another explanation is that there is so little faith in the Austrian crown that the people spend it as fast as they get it for something of tangible value.

USE CURRENCY AS HANDBILLS

Criticism of Berlin Government Are Written on the Margins of Bank Notes.

Berlin.—Widespread use has been made of German paper money for propaganda and political purposes and the directorate of the Reichs bank has decided that hereafter notes defaced with inscriptions, caricatures or stickers may be cashed only at the bank's home office in Berlin.

The directors have published an appeal to the people to refuse to accept mutilated bank notes.

It is said opponents of the administration recently made use of notes to circulate disparaging comment about the government and its money, which was written on the wide white margin of new 100-mark bills.

Quit Typhus Germ Hunt.

Mexico City.—Search for the typhus germ, for the discovery of which the newspaper Universal offered a prize of 25,000 pesos, has been abandoned by the numerous Mexican physicians who sought it and the newspaper's offer has been withdrawn.

HE WILL "HERD GULLS"

Harvard Graduate Is Engaged for Lonesome Job.

Private Philanthropy in Which New York Millionaire Has Been Engaged for Years.

New York.—Edward Hatch, Jr., who owns Four Brothers Island, near Burlington, Vt., a rugged rock that has become famous as the breeding place of seagulls, has signed up a Harvard graduate for the lonesome job of herding gulls during their nesting season, a private philanthropy in which Mr. Hatch has been engaged for some years.

There were 1,600 applicants for the position as the result of the insertion of an advertisement in New York City newspapers, which read:

"Wanted—A man to live alone on an island; inland lake; eight miles from shore; transportation, food, shelter, boat, etc., furnished; no work, no compensation. Address Summer-time, 600 Tribune building, New York."

"I have no faith in the theories of Thomas A. Edison when it comes to selecting the man for the place," said Mr. Hatch. "I have found in my experience that a search for the best personnel generally leads to the college man. He may start slowly, but he has the equipment and once started he goes fast and straight."

"That is why I selected a college man to be warden of the gulls. The job is one that requires aptitude and judgment such as an educated man may be expected to possess."

Among applicants for the wardenship of a lonely island were naturalists, lawyers, poets, authors, artists, ex-soldiers, sailors and ornithologists.

Mr. Hatch protects the breeding place of the gulls because he believes they are of the greatest value in conserving public health. He has been interested for many years in plans to prevent contamination of the waters of New York harbor. It is estimated that there are 200,000 gulls in and about the harbor and each of them is said to consume an average of two pounds of refuse a day. To protect the eggs of nesting gulls and save the young from destruction by vandals who visit Four Brothers Island Mr. Hatch has constituted himself protector of the breeding ground. This is the ninth warden appointed.

No Advocate but Itself.

Do not waste a minute, not a second, in trying to demonstrate to others the merit of your own performance. If your work does not vindicate itself, you cannot vindicate it, but you can labor steadily on to the something which needs no advocate but itself.—Thomas Wentworth Higginson, "A Letter to a Young Contributor."

About Digestion

It is claimed that only half as much food is required when it is thoroughly masticated. Digestion begins in the mouth and thorough mastication of the food is of the greatest importance. When needed take Chamberlain's Tablets to strengthen the digestion and insure a regular movement of the bowels.

DRUG FORMULAS PUT IN CHINESE

Translation of United States Pharmacopoeia Will Aid Drugmakers and Scientists.

GERMANY TRIED TO GRAB IT

Attempted Before the War to Corner Drug Trade in China—Use of Different Standards Has Been Confusing and Dangerous.

Philadelphia.—The United States Pharmacopoeia is being translated into the Chinese language, it has just been announced by the Philadelphia College of Pharmacy and Science. Through the adoption of the American standard formulas for drugs and medicines, which the pharmacopoeia will give, it is expected American drug manufacturers will benefit greatly.

Professors and alumni of the local institution, according to the statement it issued, are contributing more than any other city or institution to the work.

The statement follows: "Germany, before the World war, tried every means within her power to have the German pharmacopoeia translated into Chinese so that German manufacturers might export to China drugs of German standards. It is understood that since the war Great Britain has been trying to have the British pharmacopoeia introduced for the benefit of British manufacturers.

Practically Philadelphia Body. "That both of them have failed is due not to the efforts of American drug manufacturers, but to the merit of the work of the pharmaceutical laboratories of the Philadelphia College of Pharmacy pharmacopoeial revision committee, of which E. Fullerton Cook, director of the pharmaceutical laboratories of the Philadelphia College of Pharmacy and Science, is chairman.

"The United States Pharmacopoeia is a collection of official formulas of standard drugs and chemicals for making various compounds or simple preparations. It is published by the United States Pharmacopoeial convention, under the authority of the government, and, under the national food and drug act of 1906, it provides the legal standards of strengths, qualities, proportions, etc.

Thirty Different Formularies. "There are about thirty different pharmacopoeias in the world, the most important being the British, French, Belgian, Swiss, German, Austrian and American.

"Hitherto the Chinese have used German, British, French and American pharmacopoeial standards indiscriminately, according to the training of the particular druggist who filled the prescription. This has led to confusion and in some cases is likely to prove dangerous to the purchaser.

"With the Chinese government sanctioning the new pharmacopoeia uniformity and safety will prevail. American manufacturers will have the inside track and the American scientists, especially those of the Philadelphia College of Pharmacy and Science, will be accorded added recognition for their services to humanity."

URGE BENEFIT TO HAWAIIANS

Rehabilitation of Race by Providing Land Ownership Is Plan of Senator Wise.

Honolulu, T. H.—Rehabilitation of the Hawaiian race by placing government lands at that people's disposal will go to congress in a new form. If a concurrent resolution with certain proposals attached introduced by Senator John Wise weathers legislative investigation and debate.

Rehabilitation proposals went to the last congress, but languished in the senate at Washington after passing the house when strong opposition developed from the landed interests of Hawaii.

The new plan would provide for the creation of a Hawaiian homes commission to father the project; the confining of grants of land to Hawaiians and half Hawaiians, instead of to those down to one thirty-second Hawaiian, and an experiment with pineapple lands of the island of Molokai for five years before the scope of the project is enlarged to take in other acreage.

Upholds 'Sitting in Lover's Lap.' Oklahoma City, Okla.—Lovers have found a friend in Municipal Judge Tom Chambers.

He handed down a decision that sitting in your lover's lap is not disorderly conduct. The decision was given in the case of Denny O'Leary and Grace Reader. Police had preferred charges of disorderly conduct against the couple, claiming they found the girl sitting on O'Leary's lap.

Judge Chambers is young and unmarried.

"Combination Fish." Junction City, Kan.—A "combination fish" is the term that is applied to Arthur Johnson's twelve-pound catch for want of a better name. Fishermen who have almost lived on the Smoky Hill river for forty years say they have never seen anything like it. The fish resembles a salmon, but has a snicker mouth way under the jaw. The body is round and twenty inches long, with very few bones.

CLAIMS TO LEAD X-RAY WORLD

Bellevue Hospital, New York, Takes 36,000 Pictures in 1920; Use 22 Rooms.

New York.—Bellevue hospital claims to have the largest X-ray department in the world, occupying twenty-two rooms.

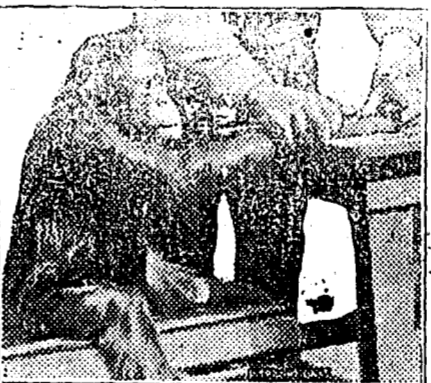

Very soon another room will be added to the department, to be used exclusively for treatment of cancer. Prof. I. Seth Hirsch, head of the X-ray laboratories of Bellevue, is at present in Europe studying the methods of treatment of the disease there.

Recently there have been invented in Germany two X-ray machines for treating cancer.

Fifteen years ago all the work was done in two rooms, when only in extreme cases was the X-ray used. No other medical institution in the world has taken so many X-ray pictures.

The first year of its installation something like 400 pictures were taken. Each year thereafter the number increased, and during 1920 over 36,000 pictures were taken of patients.

TAKE MONKEY FINGER PRINTS

A monkey from the Washington zoo being finger printed at police headquarters by a detective from the bureau of identification. The bureau is making an experiment in comparing the finger prints of monkeys with those of human beings.

BANK NOTES AS WALL PAPER

Geneva Innkeepers Find Austrian Currency Costs Little and Draws Trade as Decoration

Geneva.—Papering the walls with Austrian bank notes proved such a good advertisement for a St. Gall restaurant that the other innkeepers have taken up the idea.

They have found that the cost is little more than that of wall paper. A Geneva firm recently began printing Austrian notes of from 10 to 100 crowns on each corner's cement sold, according to the amount of the purchase.

DAIRY BULL FOR COMMUNITY

Farmers Should Organize Themselves and Raise Sufficient Money to Secure Good Animal.

In communities where there are no good dairy bulls, the farmers should organize themselves and raise enough money to buy and pay expenses in the upkeep of a good bull. If possible the bull should be used as a "community free service bull." This method has been tried out in many sections and is giving satisfaction.

Maple Is Much Used.
Makers of croquet sets use more maple than any other wood; but the mallet heads of fine sets may be lignum-vitae or teak; and the mallet handles may be of beech and birch as well as of maple, says the American Forestry Magazine of Washington. The balls wear out sooner than the other parts of the outfit. They gradually go to pieces by splitting, chips at a time.

DECREASE IN CROP ACREAGE

Total in 1920 Fell to 346,462,000 Acres or Less Than 2 Per Cent Below Previous Year.

Crop acreage for all crops for which the bureau of crop estimates, United States Department of Agriculture, estimates acreage, had the total of 300,622,000 acres in the census production year 1919, and 352,332,000 acres in 1918, the second year of this country's participation in the World war. This acreage remained almost exactly the same in 1919, but in 1920 the total fell to 346,462,000 acres, or less than 2 per cent. The acreage of these estimated crops in 1920 was only 11,000,000 acres below the total acreage of all crops in 1919.

Trout a Cannibal.
The trout is cannibalistic, feeding upon its own kind when necessity compels, says the American Forestry Magazine, and in numerous instances other species does not compete.

We Make Paints, Varnishes

For Women's Use at Home

THOUSANDS of women with keen home pride want to do their own painting and varnishing at home, and thousands do—with materials we make.

We make those materials especially for home use. You ask for "Fuller's Home Service" Paint Products.

And we maintain a special "Home Service Department" furnishing free information and detailed directions which will enable anyone to do his or her own work.

You simply describe the article, how finished now, and the effect you want to get. We tell you how, the kind of paint, the kind of brush—the things you need to know to do good work.

You'll be surprised, delighted

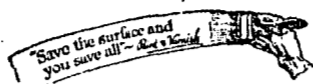

to see the transformation you yourself can make in home things—furniture, floors, walls, woodwork, bric-a-brac, etc.

"Just a can of paint or varnish and a little work that's fun," works wonders.

Our knowledge of paints and painting practice has been gained through 72 years' experience. We are one of the country's largest manufacturers of paint products and make the very finest kind of goods.

Don't think because you've never done it that you can't do work like this yourself. Try it with our help. Just follow Fuller's Specifications and you'll get the desired effects.

Remember—don't allow surfaces to rot. It costs less to paint them.

Fullerwear

"The All-Purpose Varnish"

Adapted for any surface either inside or outside. The most durable varnish obtainable. Withstands interior wear and weather exposure. Does not scratch, peel, rub off or turn white. Dries overnight.

Fullerwear is Fuller's Specification for all-purpose varnishing at home—for furniture, tables, chairs, linoleum, etc. Boiling water cannot harm it, nor rolling furniture. Dries dust-free in four hours. Walk on it overnight.

PERRYMAN'S CONFECTIONERY

PILOTS DENY CHARGES

Accusations Against Aerial Mail Men Are Disproved.

Accidents to Planes Due to Causes Beyond Control of Executive and Mechanical Forces.

Chicago.—The Chicago members of the Air Mail Pilots' Association of America have issued a formal statement in reply to charges against the officials and others connected with the aerial mail field near Maywood, Ill. In this the pilots flatly deny the accusations made by ex-pilot C. C. Eversole, who asserted the deaths of several pilots and mechanics were due to criminal negligence and inefficiency of the executives and personnel of the Maywood field. To disprove this they give a detailed statement of the fatal accidents that have occurred to planes from that field, showing they were due to causes beyond the control of the executive and mechanical forces.

"The Maywood field," say the pilots, "has always possessed an excellent reputation among the pilots of the association from coast to coast for keeping its ships in the best possible condition under all circumstances and for fair and conscientious executives who have on every occasion permitted them to use their own judgment as to when and how to get the mail through. That their methods were successful is attested to by the fact that this field, now so much under discussion, maintained an average of \$5 per cent throughout the winter just past, which, due to frequent fogs was the worst in the experience of the pilots."

"The pilots of this association flying from Chicago wish to express their appreciation of the fact that the executives of the field have never urged them in any way to leave the field against their own better judgment."

The statement concludes with a summary of the record made by Eversole while in the air mail service, which, the pilots hold, explains the fact that he is no longer in the service.

PREPARE FOR RUSH TO YUKON

Hundreds Are Expected to Seek New Oil Fields in the Mackenzie River Valley.

Edmonton, Alta.—Steamboat companies operating on the rivers that flow toward the Arctic from here are ready for the hundreds expected to travel north this spring to the newly discovered oil fields at Fort Norman, in the Mackenzie river valley of north-western Canada.

Although some believe the movement will assume the size of an early gold field rush, the steamboat companies have yet received no indications that a stampede is about to take place. It is certain, however, that travel toward Fort Norman will be heavier than ever this year. The three transportation companies can handle 3,000 men and their outfits, both ways, during the open months. Some predict only about 1,000 will make the trip.

Every person going to the oil country must have a round-trip ticket, the Royal Canadian mounted police have announced.

RICH GIRL JAILED AS 'VAG'

Runs Out of Money While Her Millionaire Father Is Traveling in Europe.

New York.—Miss Irene Davis, 22-year-old daughter of John Davis, a retired broker and a millionaire, was arraigned in Mount Vernon's court of Special Sessions, charged with vagrancy and carried on the police blotter as having no home.

It was shown she had been raised by an aunt in Plattsburg, enjoying an allowance of \$3,000 a year from her father, who for several months has been traveling in Europe. Recently the young woman decided to strike out for herself and came to Mount Vernon.

Mrs. J. S. Wood, probation officer of Mount Vernon, observed that Miss Davis did not work and thereupon suggested the police investigate the case. The investigation showed that her money was all gone and that her father had failed to send her regular remittance.

Miss Davis said if the court would free her she would go back to her aunt in Plattsburg. She was taken at her word.

Farmer Kills Lion.

Yokum, Tex.—N. P. Hagan, a farmer living near this city, reports that he killed a lion on his ranch near Kelly Creek, in Lavaca county, and sent the hide to San Antonio to be made into a rug. Since the killing, he says, three more have been seen in the same neighborhood, but were not captured.

Mr. Hagan is unable to account for the appearance of these lions in this part of the country, as they are the first ever seen here by the present settlers.

Prayer on Pin Head.

Murray, Ky.—C. H. Baker is exhibiting a pin head on which he has inscribed the Lord's prayer. There are sixty-five words of 254 letters. To be read the letters must be put under a microscope and magnified 308 times. The thing was three years and six months in the making and 3,000 pins were destroyed before it was perfected.

Doctrine of Reincarnation.

The doctrine of a previous existence being made manifest to the individual is very old, and certain sects, especially in the Far East, believe that man experiences many incarnations, carrying the memory to a greater or less degree from one incarnation to the other. Theological writers have taken up this strange state of feeling as an evidence that our mentality had an existence before our present bodily life—souls being created from the beginning.

The Farmers Bank

"The Bank that helps you Prosper."

News Items of Local Interest

Dr. S. A. Roe of Lewiston was in Kendrick on professional business last Sunday. He was accompanied by Mrs. Roe.

Mrs. H. N. Roberts of Lewiston arrived Wednesday to visit at the home of Mrs. John Waide.

O. E. MacPherson is spending the week at the N. E. Ware home on Big Bear ridge. Tuesday he caught a 13 inch trout in Pine Creek.

O. G. Compton went to Peck on the afternoon train Tuesday to visit his son, Stewart.

The village board has ordered two drinking fountains which will be placed on convenient corners somewhere along Main street, for the use of the general public.

It is said that James Hyland, who was arrested at Spokane as one of the three bandits who captured the cashier of the Addy State Bank and afterwards robbed the bank of \$3,800, has been identified as one of the men who tried to hold up Mrs. Crotinger, wife of the Bovill State Bank, about two weeks ago. Mrs. Crotinger went to Spokane to identify the bandit.

In 1920 the people of the United States spent \$22,700,000,000 for luxuries. This was more money than was expended on education in the entire history of the country.

Kendrick Star Rebekah Lodge No. 21, at the regular session Tuesday, June 21, elected the following officers for the ensuing term: Mrs. Dollie Lewis, Noble Grand; Mrs. Nellie Deeter, Vice Grand; Mrs. Mabel C. Kelly, Junior Past N. Grand; Mrs. Effie Kite, recording secretary; Thomas Sturdevant, financial secretary; Mrs. Minnie McDowell, treasurer.

Walter and Harold Thomas arrived last Friday evening from Everett, Wash., in their Ford coupe. They made the trip from Everett in two days and had no car trouble on the road. They will probably remain here all summer at least. Walter is helping with the work at the Kendrick Hardware this week.

John Roush was taken to a Moscow hospital last Friday afternoon. He has been in very poor health for some time and was in such a critical condition that it was thought best to give him the benefit of hospital treatment. He was taken to Moscow by E. W. Lutz, A. V. Dunkle and Lloyd Stanton.

Josephine Zoyer of Troy spent the week end in Kendrick with friends.

B. C. Johnson of Clarkston was transacting business in Kendrick Tuesday.

E. W. Lutz returned from Lewiston Tuesday morning after spending several days there on business.

An unusually large crowd attended the dance given by the American Legion at the Fraternal Temple last Friday night.

Mrs. F. F. Bigham was a Moscow visitor the first of the week.

The Kendrick ball team will go to Bovill Sunday for a game. Bovill has a good team and played Juliaetta 14 innings last Sunday. The game was won by Juliaetta.

Dr. Landquist returned from Burke the first of the week and is now back in his dental office here, looking after his practice. He spent about two weeks in Burke.

Walter Housley, Kendrick's marshal and street commissioner, has been mowing the weeds along the streets and alleys getting the town in good shape for the big celebration.

Rev. and Mrs. Robert M. Hood and family are shipping their household goods this week. They expect to leave some time next week for Rawlins, Wyoming, where Mr. Hood's church work will begin July 1.

In breaking up that "settlin' hen" here last week Sheriff Woody took all the celebration out of somebody's Fourth of July.

Great preparations are being made for the centennial parade to be held here the morning of July 4th, as part of the grand celebration. A. Wilmot is originating some unique entries which will be worth seeing. It's a "chuck," there's going to be some fun that day.

Mrs. M. Bleck received word last week that her sister, Mrs. Bertina Oberlande, had passed away at a Spokane hospital. Owing to the illness of Mrs. Bleck's daughter, Mable, it was impossible for her to go to Spokane to attend the funeral. Mrs. Oberlande lived on Potlatch ridge some time ago and will be remembered by some of the older residents.

E. H. Dammarell and two sons, Kester and Edgar, and Walter McCrea left early Tuesday morning for Chalco Lake for a few days' fishing trip. They drove to the lake in the Dammarell car.

Bill Mielke of Cameron and Orphis Hupp of Little Bear ridge are planning a wrestling match to be held here July 4th. Arrangements have not yet been completed but the match may be held under the auspices of the American Legion. Both men have had considerable experience on the mat. The match will no doubt create considerable interest.

A farewell reception was given at the home of Mrs. H. P. Hull Tuesday afternoon by the Ladies Aid of the Presbyterian church, in honor of Mrs. Robert M. Hood and Mrs. C. L. Guy. Mrs. Hood will leave next month for Rawlins, Wyoming and Mrs. Guy will probably move to Spokane some time this summer.

Mrs. E. W. McMichael of Columbus, Georgia, formerly Miss Ethel Grimes of Kendrick, will arrive here this week to visit old friends and school mates and to spend the Fourth. This is her first visit in Kendrick for twenty years.

Ben Callison and two children returned from Big Island last Friday afternoon. They brought home some beautiful cut-throat trout—several baskets full to the brim.

Mr. and Mrs. O. E. MacPherson and son, Donald, returned Monday from a visit with the Stewart Compton family at Peck.

Joe Gardner sold more chautauqua tickets than anyone else in town. He did good work in helping the chautauqua along.

Word comes from Spokane that the Oldfields expect to be in Kendrick July 4. There will be a host of their friends here who will be glad to see them.

Come and bring your friends to the ice cream social to be held at the Taney school house, Saturday evening, June 25th.

Mrs. Robert M. Hood and children left for Prescott and Walla Walla, Wash., yesterday afternoon to visit friends and relatives before going to Rawlins, Wyoming.

Mr. Michael of Portland is now working for Wm. Rogers at the barber shop. He started work here the first of the week.

A comet with a tail two million miles long will appear in the sky the latter part of this week and will reach a point about two million miles from the earth on June 27. It is traveling at a speed of 72,000 miles per hour or 1,728,000 miles per day. It is said that when it reaches its nearest point to the earth it will be near enough for the tail to hit the United States.

Mrs. Ernest Bolton went to Moscow Wednesday to visit friends.

Richard Rauschke went to Lewiston Wednesday afternoon to visit his folks, Mr. and Mrs. Wm. Freytag. He will also have charge of the cherry crop harvest on the A. E. Wilcox orchard tract next week.

Manford Nutt of Juliaetta was transacting business in Kendrick between trains, Wednesday.

Josie Cramer returned to Potlatch Thursday morning after spending a week here with friends.

Mr. and Mrs. Fred Schoeffler, H. C. Wilken and Miss Carrie Buckles visited at the home of Mr. and Mrs. Frank Wilken, Sunday.

Lewiston Tribune: "The Leland district is a picture these days—a rare picture in the miles and miles of beautiful rolling country now carpeted with a wonderful stand of grain." That was the remark yesterday of Colonel S. P. Walker upon his return from a trip to the Potlatch district. Colonel Walker knows all sections of the grain belt and he states that never before had he seen such a uniform stand of wheat.

Fire Near Leland

The C. H. Garby residence near Leland was totally destroyed by fire Wednesday about noon. The house was occupied by Mr. and Mrs. G. Hogrefe, who are renting the Garby place. Flames were discovered shortly after the family had eaten dinner, but the exact cause of the fire is unknown.

It is reported that there was insurance to the extent of \$1,000 on the house, but nothing on the contents. The loss was considerable as the insurance was small compared to the value of the property.

Big Bear Ridge

Mr. and Mrs. Jim May and children are visiting Mrs. May's sister, Mrs. Leonard Davis, near Leland.

Gabriel Forest and Albert Nelson autoed to Moscow Saturday.

D. J. Ingle returned home Tuesday from Ontario, Oregon, where he was called by the illness of his brother.

Mrs. Mary Halseth of Kendrick is spending the week with her son, Ed, and friends here.

Rev. Robert M. Hood of Kendrick will preach his farewell sermon at the Steele school house on Sunday morning, June 26th. He has accepted a call to Rawlins, Wyoming. Rev. Hood has made a large host of friends here who regret having him leave, but their well wishes will follow him and his family to their new home.

Mr. and Mrs. Will Whybark and

family spent the week end with the Dan Whybark family at Juliaetta.

Mrs. Leonard Fairfield and son, Master Roy, returned to their home on Potlatch ridge, having visited relatives here.

The Wallace Emmett, Ole Lien, D. J. Ingle, Will Hecht, W. W. Reid and Frank Whitcomb families autoed to Moscow Thursday to attend the annual Farm Bureau picnic.

A large number from here attended the chautauqua programs in Kendrick last week.

W. H. Fairfield made a business trip to Clarkston the first of the week.

Mrs. E. R. Porter and son of Dayton, Wash., are visiting at the home of her brother, Wallace Emmett and family.

Mr. and Mrs. Archie Clark of Juliaetta spent Thursday in Kendrick with Mrs. Clark's folks.

Wallace McKeever returned Tuesday on the night train from dental college, to spend his summer vacation with his parents. He has attended college two years and has two more years' work before finishing his course.

A Real Spud Race

One of the athletic or sporting events of the Kendrick Fourth of July celebration is a potato race. The race will differ from the average potato race in that those entering it must be mounted on some breed of animal able to cover considerable ground and do some quick turning. The animal may be any of the beasts of burden in common use—horse, steer, or the celebrated mule known as the Potlatch Canary. The main requirement is that those participating be mounted.

The course will be one block long and at each end of the block will be placed a box for each contestant. One box will be empty and the other will hold ten medium-sized potatoes. About five riders line up near the empty boxes and are armed with a long stick sharpened at one end. At the sound of the gun, each entrant rides to his box of spuds, spears one spud on his stick, rides back and deposits it in the empty box. The first to transfer all of his potatoes will be declared the winner of a ten dollar cash prize.

Coming

Dr. F. B. Walton, Eyesight Specialist of Spokane, licensed by State Board of Examiners of Washington and Idaho.

I am introducing some new and better glasses at a large reduction. Do not miss the opportunity as it's dangerous to delay.
