KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, JULY 1, 1921

NUMBER 26

Weed Control Excursions

One hundred and seventy-two people attended the weed control excursions held in Latah County during the past week under the auspices of the county farm bureau. Excursions were held in eight communities. The objects of these meetings were to make all who attended familiar with the noxious weeds of their community and of Latah County; to study control methods of these weeds; and to create a greater interest in the control of noxious weeds. In instances where some of the noxious weeds of the county were not growing in a community, specimens were taken for identification and study.

B. F. Sheehan, State Pure Seed Commissioner, and Field Agronomist of the Extension Division of the University of Idaho, assisted County Agent O. S. Fletcher and the local weed control committeemen in conducting these excursions. Prof. R. K. Bonnett, head of the agronomy department of the University of Idaho, substituted for Mr. Sheehan on Monday.

Following the excursion, Mr. Sheehan prepared the following suggestions in regard to the control of weeds in Latah County.

A week of weed excursions in Latah County has shown that there are several noxious weeds gaining a strong foothold on many farms over the county. Chief among these are the Canadian Thistle, Wild Morning Glory, quack grass, perennial milk weed, fanweed and Jim Hill mustard.

For the proper control of these weeds it is, of course, first necessary to appreciate their seriousness. There are many farms in the west where some one or two of these weeds have not only made profitable farming difficult, but have caused land values to recede greatly. Control measures have been demonstrated, but they have succeeded only after painstaking and untiring work on the part of the individual doing the work.

Probably 90 percent of the serious weeds appearing on many Latah County farms have been introduced in grass seed purchased. Dissemination has resulted from threshing machines in many instances. In the case of the perennial plants such as Canada Thistle and wild morning glory one can find where a heavy infestation of the farm has resulted from carrying many of the underground root stocks from place to place by farm machinery. This has happened before the individual was familiar with the seriousness of the weed and before precautions were taken to confine and eradicate the weeds.

With the weed problem, it is first necessary to eliminate the possibility of buying grass seed in which seed of noxious weed seeds may be present. Buy only high grade, tested seeds. Beware of cheap seed. Low priced seed usually means low quality. When in doubt as to quality, send a sample to your state seed testing laboratory to make sure of what you are getting.

In the eradication of the perennial plants such as wild morning glory or Canada Thistle, realize at the outset that it is going to be no small job. Also remember that these plants propagate by their underground root stocks which enable them to live and reproduce without seed production.

Confine the infested area and do not try to farm it. A single plowing and disking every year only invigorates its growth. Plan to start after the patch when the plants are most susceptible. This is usually just before they are ready to mature seed and it is at this time when one can expect the driest and hottest weather, which will make the work more effective.

Plowing just deep enough to turn the major portion of the underground rooting system to the surface is advisable. This depth depends in a large measure upon the weed and the character of the soil. After this has been done, a good harrowing to tear the roots loose

Mrs. Hugh Stanton

The entire community was deeply grieved last Sunday to learn of the death of Mrs. Hugh Stanton. Death came about one o'clock Sunday morning, following a hemorrhage of the lungs. A feeling of depression was spread over the town when the news was received as Mrs. Stanton's long residence here, combined with her sterling character and sweet disposition had made her a host of real friends.

About two years ago she contracted the dread disease, tuberculosis. Everything possible was done to check the malady but all efforts proved unavailing. She spent six months in a sanatorium near Portland under the care of specialists but they were finally forced to give up hope for her recovery. She patiently bore her sufferings until death came to relieve them.

Maude Elton Bibb was born in Montgomery City, Missouri, July 7, 1886. She came to Kendrick with her parents, Mr. and Mrs. J. C. Bibb, in 1900. Five years later she was married to Hugh Stanton. While Rev. Craig was pastor here she became a member of the Methodist church and her interest in church work and her exemplary life were a true insight to her Christian character. Her friends loved and admired her for her extreme patience, her kindly disposition and for her love and interest which she always had for her family. Her death is indeed a loss to the entire community.

Mrs. Stanton is survived by her husband, three daughters, Audrey, Hazel and Edna; her father and mother, Mr. and Mrs. J. C. Bibb; two sisters, Lena Bibb and Mrs. J. G. Gardner; two brothers; William J. Bibb of Pomeroy, Wash., and Kier M. Bibb of Ferdinand, Idaho. After an impressive funeral service at the church, Monday afternoon at three o'clock, delivered by Rev. H. W. Best of Ephrata, Wash., the body was taken to the Kendrick cemetery for burial.

Crescent News

Mrs. Ira Foster and children spent Sunday with her daughter, Mrs. Earl Langdon.

Mrs. Dick Winegardner and children accompanied by Mrs. Clinton Wright and son, spent Thursday afternoon at the Walter Hunt home.

Ed Fonburg and niece, Alta Fonburg, spent Sunday afternoon with Mr. and Mrs. C. T. Mulkey and family.

Remember the Fourth of July celebration to be held near the Clem Israel home on Cedar ridge. Speaking in the morning by Rev. John Galloway of Southwick with singing by the community. Sports of all kinds. Big picnic dinner by all. Baseball game in the afternoon, Gold Hill vs Cedar Ridge. Big bower dance in the evening and good music. Hot lunches may be had at the stand at midnight.

Mr. and Mrs. Dick Winegardner and children spent Sunday at the Clem Israel home.

Quite a few were present at the Lou Alexander home Sunday afternoon to practice the songs for the Fourth.

Louis Otnis of Moscow arrived the first of the week to transact business here.

will expose them to the hot sun and many will be killed.

Cultivation should be practiced at frequent intervals. Never allow any plant growth to appear. By such practice the rooting system will be eventually exhausted of its food supply. This generally is not possible the first season.

Smothering has been practiced with varying success. This method probably is not practical except with small areas. Covering the ground with a very heavy coating of well rotted straw or manure, to exclude the air, will often times smother out the plants. When this method is practiced, care should be taken to get the covering deep enough and extend it out beyond the patch to a sufficient extent to assure no air getting to the plants.

Ready for the Big Celebration

Immense Crowd Expected Here Next Monday to Enjoy A Day of Fun and Frolic

The big celebration at Kendrick will start with the roar of the cannon at sunrise next Monday morning. A program of interest to everyone has been arranged for the day, the first event being the Calithumpian parade, which will start promptly at 10:30. If you want to see this parade be there at the appointed time as the events are to take place according to schedule. A. Wilmot has charge of the parade and he is going to spring some surprises on the public. Don't miss it, because it is going to be something really worth while.

The program in the open air pavillion in the park will begin at 1 o'clock sharp. It will be a very pleasing affair consisting of some splendid musical numbers, a patriotic address, etc.

An intermission of one hour will be held for lunch. The afternoon will be devoted to sports, including a ball game between Orofino and Kendrick. This game will be especially interesting in view of the fact that Kendrick defeated Orofino one game and Orofino did the same thing to Kendrick in the second game. The Fourth of July game will be the "rubber."

During a part of the afternoon and most of the night the American Legion Pavillion dance will be in progress. The Legion boys have spent a great deal of money and time getting the pavillion ready. It will be an ideal location for a bowery dance and will no doubt prove to be a most popular place. The Legion boys are using every effort to make this the best dance they have ever given. It will be properly conducted and everything done to make it a pleasant time for everyone.

It might be well to bear in mind that the schedule of events will be followed rigidly, according to the printed programs. As the time will be fully taken up from 10:30 on, it will be necessary to have the events take place promptly according to schedule.

Until after the sports in the afternoon no cars will be allowed to park on Main Street from the corner at Wagner's garage to the corner west of the Catholic church and no cars will be allowed in the side street next to the park.

Rest rooms will be provided in the basement of the Methodist church, in the town hall next to the park, at Long's Store and at the Kendrick Store. Everyone will be most welcome to use any of these rest rooms during the day.

The picture show will be running all afternoon and evening.

A wrestling match will be staged in the Legion pavillion between Ophie Hupp of Little Bear ridge and Bill Mielke of Potlatch ridge. This promises to be a fast bout as both men are in fine condition and know the game.

There promises to be a large amount of competition and interest in the relay foot races which will be a feature of the Fourth of July celebration. Ordinarily, this event is one to which little attention is paid by the average celebrationist. This year, however, it has developed that the Bear Ridge Boosters have been grooming five dark colored horses to enter the race and they felt fairly confident of receiving the \$10.00 prize. The fact of the matter is that they have challenged the balance of the world left over after Bear ridge was cut out.

Land Plaster Effective

Star-Mirror: That land plaster has revolutionized alfalfa growing in this section is the statement of a number of farmers who claim the best alfalfa crops they have ever raised this year. H. L. Coates, pioneer farmer, now retired, who lives in Moscow but still retains his farm on the Little Potlatch, eight miles east of town, said today:

"I have the best crop of alfalfa I have ever raised. The general average height is above my waist, while many stalks are more than four feet high. I have 18 acres that promises the biggest yield I have ever harvested. I covered the field with land plaster and it has surely made a wonderful difference in the crop."

B. P. Luvaas, who has a 240 acre farm five miles northeast of Moscow and has the Sletto farm of 140 acres adjoining it leased, said: "I have a fine crop of alfalfa on both places. Last year the alfalfa on the Sletto place was so poor that we could hardly tell where the mower had gone over it. We used land plaster and it is more than waist high this year. On my own place used land plaster last year and the crop last year was more than double what it had previously been, and this year it is equally good, showing that the plaster makes more than one crop. If scientists would discover something that would help wheat, corn and other crops like this discovery helps alfalfa, clover and other grass crops, it would mean much to the farmers of the United States."

Land plaster is a comparatively recent discovery, but has proved very successful for grass crops and especially for alfalfa, wherever used. It has the same effect on grasses that inoculation with the culture discovery and made by the University of Idaho, has on peas and other legumes. It is being used extensively in this section where alfalfa growing has shown a marked increase in the past three years.

Picric Acid Blows Stumps

Fifteen carloads of picric acid, amounting to 300 tons, will be requisitioned from the government by Idaho farmers for land clearing, according to an estimate made today by E. J. Iddings, dean of the agricultural college of the university.

Bonner county will need 100 tons, says an estimate sent in by County Agent P. I. Fortner, and Kootenai county will need 50 tons. Estimates of needs of approximately 200 tons already are at hand.

Some weeks ago, according to Dean Iddings, the college of agriculture obtained information that large quantities of this acid would be available from the government. A survey was instituted immediately through the county agents in counties concerned and several reports already are at hand.

This acid will be delivered in cartridge form. The estimated cost of putting it in cartridge form and shipping it to Idaho in carload lots is from nine to 10 cents a pound.

In the most of the counties, according to Dean Iddings, arrangements are being made with the banks to guarantee the cartidging, transportation and distribution costs, so that the acid may be distributed in small quantities to meet the needs of individual farmers.

"Tests have been made by the bureau of public roads of the United States department of agriculture", said Dean Iddings, "and it has been found that when placed in cartridge form similar to stick dynamite, this acid is even more effective than the grade of dynamite ordinarily used for land clearing. It is used in the same way as dynamite.

"Requisitions are being assembled at the agricultural college and the order will be forwarded in the form of a general requisition for all sections of the state that desire to clear land in this way."

E. E. Bechtol was in Lewiston last Saturday on business.

Over The County

Deary Press: The Park-Helmer road has been finished, with the exception of some smoothing down. The road on the south side of Potlatch river follows around the mountain, with places where there is a sheer drop of hundreds of feet. At such points the grade is wide and safe, and it has been widened at the turns. The maximum grade is five per cent. On the north side of the river there is a strip that is more than five per cent, this being where the road passes through Highway District No. 3.

Genesee News: Chas. Mauch and Dick and Jack Vandenburg went fishin' Saturday afternoon, returning Sunday evening with some sixty speckled beauties. They went to Bear Creek, some distance beyond Kendrick. They report that they found decided evidence of many of the larger and deeper holes in the creek having been dynamited. At some of the places large numbers of squaw fish were lying on the bank and upon close investigation they found at one place some eight or ten inches of burned fuse. If there is a two-legged animal of this character running loose in that section of the country "it" should be looked up and taken care of. A man that will dynamite a small stream for the purpose of getting trout, when he knows there is a heavy penalty attached, would do anything on the calendar if he thought he could get away with it.

Julietta Record: The Radcliffe Chautauqua Company closed its engagement here Monday evening. The three day's program was fully as good if not better, than last year. The attendance was good considering the fact that money is rather close and while the sale of season tickets and receipts at the door fell a little short of paying the guaranteed amount necessary to get the company to come here, the citizens of Julieta are not discouraged and a contract with more than the required number of names has been signed, thus assuring the appearance of the company here again next year. The lectures and musical features were fine as were other parts of the program. In short, every number of the program was good and all those who attended and took an interest in the lectures and other features, could hardly fail to derive much good from each day's entertainment.

Trov News: W. H. Bennett, one of the Driscoll Ridge farmers, is trying an interesting experiment this season in storing green hay. To each load he is adding a small amount of lime, about a pint to the load, and he claims that this mixture will do away with all heating and keep the hay in the same condition as in a silo. Mr. Bennett's experiment is being watched with interest by the other farmers and it may show a way to save loss from hay being injured by having to remain in the fields during the wet weather.

Star-Mirror: Dr. J. W. Stevenson, county health officer, made a trip to Kendrick yesterday to investigate the case wherein a smallpox quarantine sign had been posted on a house where it was said there was no smallpox but an illicit still was found in full operation with 50 gallons of liquor in the course of making. Prosecuting Attorney Nisbet had made the statement that the case looked suspicious, as it was understood a Kendrick physician had posted the quarantine notice behind which the still was operating with impunity as intruders would not molest the operators in their work, while the smallpox sign was displayed. Dr. Stevenson exonerates the Kendrick physician. He said:

"I went to Kendrick yesterday to investigate the case of the quarantine placard, about which so much has been said. I found that a young man stopping at this house, had been exposed to smallpox and that he had some symptoms of the disease at the time when the quarantine

Hunter Carroll Married

The following account of the marriage of Hunter Carroll to Miss Eunice Black was published in the Lincoln Times in North Carolina. Mr. Carroll spent several years in Kendrick and made a large circle of friends here who will be glad to hear of his happy marriage.

Miss Eunice Black of Cherryville and Mr. R. Hunter Carroll of Cherryville and Lincolnton were quietly married Sunday afternoon at 2 o'clock at Bessemer City, the ceremony being performed by Rev. J. J. Harrill pastor of the Presbyterian church.

The wedding of this popular young couple will come as a complete surprise to their many friends as only members of the immediate families knew of their plans.

Immediately after the ceremony Mr. and Mrs. Carroll left by automobile for Chimney Rock and other mountain resorts where they will spend their honeymoon.

Mrs. Carroll is the daughter of Mr. and Mrs. A. H. Black of Cherryville. She is attractive and accomplished and has a winning personality which has won for her the love of all in her community.

Mr. Carroll is a member of the firm of Carroll and Davis which successfully operates stores in Lincolnton, Cherryville and Charlotte. He is a young man with genial manners and splendid business ability and with his partners is fast forging ahead in the business world.

Mr. and Mrs. Carroll will live in Lincolnton.

Federal Aid Roads

Of the 22,030 miles of Federal aid roads which have been built or are now under construction, more than two-thirds are earth roads, sand clay, or gravel, says the chief of the Bureau of Public Roads, United States Department of Agriculture. These have cost less than one-third of the total amount expended as compared with nearly 50 per cent of the estimated cost applied to 4,890 miles of hard surfaced roads. A study of local conditions by an engineer of the bureau is necessary before a road project may receive Federal aid. The type of road to be used, and the most suitable surface with respect to the traffic of the locality must be determined. Service must be satisfactory, while costs must be kept low, both building and maintenance. There must be a careful analysis both of the engineering and economic conditions for each particular project. There are individual considerations in every case which effect the determination as to the best type of road materials for that locality.

Poultry Culling

Prof. P. Ren Moore, state poultry specialist, will hold a poultry culling demonstration for the Leland community at the home of Mr. Segsworth, Wednesday, July 6th at 2:30 p. m. This will be followed by a weed spraying demonstration at a place which will be announced that afternoon. These weed demonstrations are given by County Agent W. W. Skuse.

Thursday morning, July 7, at 8 o'clock there will be a weed demonstration at Southwick to be followed at 9:30 by a poultry culling demonstration at a place to be announced later.

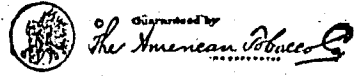

The public is cordially invite to attend these demonstrations, which are held under the auspices of the Nez Perce county farm bureau.

was ordered and this was a proper precaution. The law requires that where a person who had not been vaccinated within two years, is exposed to smallpox he may be quarantined for a period of 17 days. The Kendrick physician was within his rights and exercised proper precaution when he ordered the card posted on the house for a certain period. The young man did not have the smallpox and was given his liberty."

Cigarette

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Subscription \$1.50 a year.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Last year was a bad year for failures, but at that, Bradstreet reports 84 per cent of the business concerns that failed did not advertise. When this is compared with the fact that 84 per cent of the firms that did not fail did advertise the moral is rounded out complete and clear.

Look the country over, anywhere you wish to go, and you will not find better town, same size, than Kendrick. Anyone in the Potlatch who lives tributary to Kendrick ought to boost the town in every way possible because in so doing he is unquestionably promoting his own best interests. It's the short-sighted man who knocks his home town.

In order to stimulate our finances a little we have a notion to threaten to publish the name of a subscriber seen taking a drink of moonshine some time ago, unless he comes in at once and pays his subscription. We'll say our bank account would grow by leaps and bounds.

It is as certain as the sun that a 7-hour day would be followed by a demand for 6-hours day and that by a demand for 5-hour day. 8 hours to work, 8 hours to sleep, 8 hours to do what we will is a shibboleth to which we subscribed. The average fellow who doesn't want to work 8 hours is sure someone owes him a living; he doesn't want to work at all.—Ex.

Pullman, Palouse and Kendrick are to have big celebrations on July 4. Moscow and Troy will not celebrate. Troy citizens will join with Kendrick in celebrating the nation's birthday and many Moscow citizens plan to go to Pullman, where President Upham speaks, the Elks' band furnishes the music and the Moscow ball team plays ball. Others will go to Palouse. But we must not forget Kendrick, an Idaho and a Latah county town. Kendrick is our near neighbor, pays taxes to help keep up our county and state

government and our educational institutions. Kendrick has more claims upon Moscow than has either of the other towns mentioned. It would be a rank injustice if none of the people of Moscow go to Kendrick on July 4, and show the citizens of Kendrick that we appreciate their efforts to have a big celebration and we appreciate their friendship and help. Moscow must send some of her citizens to Kendrick on July 4.—Star-Mirror.

The Par Collections

Ramsay Walker, vice-president of the Wallace Bank & Trust Company, and well known throughout the Potlatch country and Kendrick, which was formerly his home, writes to M. V. Thomas here concerning a recent ruling of the U. S. supreme court in the matter of the Par Collections. He says that he believes everyone should be posted on this question as it is of great importance. He submitted the following article for publication in the Gazette, which will no doubt prove of interest to the general public:

That the federal reserve banks cannot force non-member banks to perform a valuable service without compensation;

That the federal reserve banks have no power to use what is termed "lawful methods" for unlawful purposes;

That congress did not intend to legislate against non-member banks;

That federal reserve banks have no right to use the power of the government to force non-member banks to join the federal reserve system; and

That when the federal reserve banks use oppressive methods and unlawful procedure in attempts to compel non-member banks to join the federal reserve system or be ruined, the non-member banks may appeal to the courts for protection.

These are a number of the main points of the decision of the United States supreme court in the case of the American Bank & Trust company and others, appellants against the Federal Reserve bank of Atlanta, Georgia and others, reversing the United States circuit court of appeals for the fifth circuit. Justice Holmes delivered the opinion of the court. Copies of the decision have been received here.

This is by far the most sweeping decision handed down recently in bank litigation and sustains the contention of the non-member banks that the federal reserve system was not created for the purpose of permitting it to be used as a club to compel those banks that remain outside to perform a valuable service for the federal reserve banks without compensation. In short, the edict of the federal reserve banks was that the non-member banks must accept the dictates of the federal reserve banks or be driven out of business.

In order to compel obedience to its mandates the federal reserve banks adopted methods that they contended were "lawful" but which the state banks insisted were "unlawful." In this the non-member banks have been sustained by the supreme court of the United States. The court makes plain that the United States did not intend by the statute of sanction illegitimate warfare upon the legitimate creations of the states, but more important than all, by their decision the court reestablishes that principle so fundamental to our Amer-

icanism that the power of the government shall not be used by one class of citizens to their advantage and gain at the expense of another class and in concluding says:

"If this were a case of competition in private business, it would be hard to admit the justification of self interest considering the now current opinion as to public policy expressed in statutes and decisions. But this is not a private business. The policy of the federal reserve banks is governed by the policy of the United States with regard to them and to these relatively feeble competitors. We do not need aid from the debates upon the statute under which the reserve banks exist to assume that the United States did not intend by that statute to sanction this sort of warfare upon legitimate creations of the states. Decree reversed."

METHODIST CHURCH.

Howard W. Mort, Pastor.

You are coming in to spend the day, the Fourth. Of course, and you are bringing your lunch and the whole family, and sometime during the day you are going to feel tired and want a cool place to sit and rest for a few minutes. Then is the time you will think of the rest room in Epworth Hall. There are magazines there and books and you are welcome there any time during the afternoon. If you have no place to eat your lunch, use the rest room. We want to help you enjoy the day.

Sunday school at 10 a. m. No morning service. Epworth League at 7:15 p. m. Evening Service at 8:00 p. m. Special illustrated lecture with colored pictures that will be a most interesting service. We invite your attendance.

Big Bear Ridge

Mr. and Mrs. Pete Halseth and children, Mabel and Howard of Deary, spent Sunday at the Ed Halseth home and with friends here.

Miss Esther Whybark spent last week with her sister, Mrs. George Lecker on Texas ridge.

A. N. Rognstad autoed to Clarkston, Saturday.

Mr. and Mrs. Chas. Elliott are visiting at the home of their daughter, Mrs. Leonard Davis near Leland.

Miss Claribel Ingle returned to Clarkston, Wash., Friday, having spent several weeks at home.

Mr. and Mrs. Z. A. Aas and children spent Saturday with relatives in Deary.

Mr. and Mrs. Ira Altig of Deary were Sunday visitors at the Gladden home.

Mrs. Ed Lien entertained the Lutheran Ladies Aid, Thursday afternoon.

A. Hooker is spending the week in Spokane.

The ice cream social held at Taney, Saturday evening, was largely attended. Over sixteen dollars was derived from the sale of ice cream and cake.

Rev. Robert M. Hood delivered his farewell sermon here Sunday morning. His many friends ex-

pressed their regret at his leaving, and wished him the best of success in his new charge.

Catarrah Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrah Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 76c.

GOMPERS IS AGAIN ELECTED BY LABOR

First Serious Opposition Since 1894 Defeated By Vote of 2 to 1.

Denver, Colo. — President Samuel Gompers, America's veteran labor leader—overwhelmingly defeating his first serious opposition since 1894—Saturday was returned to office with his entire administration for another year by the American Federation of Labor.

The labor chief's forces made a clean sweep from the beginning, when President Gompers was returned to the presidency for the 40th time by overwhelmingly defeating John L. Lewis, president of the United Mine Workers, by a vote of 25,022 to 12,324.

The vote was taken amid scenes of wild enthusiasm, rivaling those of national political conventions. The galleries were packed with spectators. The convention floor was overflowing with delegates and their friends. Cheers and applause swept the auditorium at every vote.

This was the first time that Gompers had been seriously opposed since 1894, when he was defeated by John Mc Bride, a mineworker, but was returned to office the following year.

When his victory was announced the labor leader, who is now 71 years old, could scarcely control his emotions.

The election of Gompers brought to a close one of the hottest political campaigns ever waged in the history of organized labor.

Cincinnati, O., was selected for the site of the next convention.

SOCIALISTS REJECT FOREIGN AFFILIATION

Detroit.—By refusing by 35 to 4 to affiliate with the third internationale of Moscow, the socialist party voted in its annual convention here against international relations and, for the next year at least, will pursue its course alone.

The vote came after Victor Berger, Morris Hillquit, Algernon Lee and other leaders had denounced the soviet government as the murderers of the socialists of Russia and as a "wrecking crew" bent on the destruction of socialist parties.

The convention voted down all proposals for foreign affiliations, including a motion to join the "two-and-a-half" internationale at Vienna.

Seized with what Morris Hillquit described as a "homicidal mania," the convention killed three resolutions which sought to define "dictatorship by the proletariat" as a part of the socialist policy, and then overwhelmed two others which asserted the dictatorship is not now an issue.

The three-hour session ended with all reference to working-class dictation barred from the party policy.

MARY PICKFORD WINS

Nevada Attorney-General Loses Fight On Decree.

Minden, Nev.—District Judge Langan has upheld the divorce of Mary Pickford and Owen Moore, motion picture stars, in March, 1920. The decision is to be appealed to the state supreme court by Attorney-General Fowler.

The action attacking the divorce was brought by the attorney-general on the ground that the laws covering divorce had not been properly lived up to by the principals.

In his decision Judge Langan held that the laws conferred upon the attorney-general no authority to institute an action for the setting aside of divorce decrees. The court, and not the attorney-general, was the representative of society and the state in divorce cases, the decision held. The judgment in the divorce action was the best evidence of the legality of the action and could not be contradicted, it continued.

Frank Breshears New Idaho Marshal.

Boise.—The question as to who will be the next United States marshal for Idaho has been settled. Senator Borah and Senator Gooding have agreed upon Frank Breshears of Caldwell, present head of the state constabulary, ex-sheriff of Canyon county. His nomination will be sent to the senate by the president and will be confirmed, but the change will probably not take place until Leroy C. Jones, present marshal, completes his term.

Valera Is Arrested And Then Released.

Dublin. — Eamonn de Valera, the Irish republican leader, was arrested Wednesday night near this city and later released, it has been definitely established. There had been earlier denials from the Sinn Fein authorities that he had been apprehended. It is declared here there was no intention on the part of the authorities in Ireland to arrest De Valera.

ERNEST I. LEWIS

Ernest I. Lewis of Indianapolis, one of the two new members of the interstate commerce commission.

MILLERS TO FIGHT STATE GRAIN LAWS

Portland, Or.—A resolution to disregard the grain discount laws of Oregon and Washington as unfair and unconstitutional and in conflict with federal grain standards was adopted by the North Pacific Millers' association at their convention here, and it was voted that purchases and sales of wheat be made on the basis of No. 1 federal grades instead of No. 2 grades, as provided by the state laws.

The association also recommended adoption of the rules for wheat discounts for handling new-crop wheat, which were adopted by the Pacific Northwest Grain Dealers' association at its annual meeting in Spokane last week.

The millers' association represents about 85 per cent of the milling capacity of Oregon, Washington and northern Idaho, and about 40 millers, representing 60 mills, attended the convention.

ROBBER KILLED IN BATTLE

Four Men Try to Rob Halsey State Bank.

Corvallis, Or.—Four men tried to rob the Halsey State bank shortly after midnight Sunday. The attempt was discovered and a posse formed. A gun battle ensued in which one robber was killed. The other three climbed into an automobile and fled. Two were captured at Corvallis.

The dead man is Henry Schultz of Corvallis.

The men under arrest at Corvallis are William Schultz and Irving Wright, both of Corvallis. They are suffering from gunshot wounds.

Trotsky Predicts War.

London.—A naval war between the United States and Great Britain as a result of maritime rivalry will occur in 1920, according to a prediction made by Leon Trotsky, bolshevik minister of war, in addressing the third internationale at Moscow Friday, said a dispatch to the Daily Herald, the labor organ.

Barrels of Beer Seized.

New Orleans.—Thousands of cases and barrels of beer, alleged to contain more than the prescribed alcoholic content, were seized by prohibition agents from six breweries. Officials said it was the biggest raid of its kind.

Greeks Again Take Ismid.

Constantinople.—The Greeks have recaptured Ismid on the Sea of Marmora from the Turks. Greek warships bombarded the retreating Ottoman forces. Thousands of refugees are arriving here.

THE MARKETS

Portland.

Wheat — Hard white, \$1.21; soft white, white club, hard winter and northern spring, \$1.13; red Walla, \$1.10.

Oats—No. 2 white feed, \$28.
Corn—Whole, \$40; cracked, \$43.
Hay—Willamette valley timothy, \$24 per ton; alfalfa, \$16.
Butter Fat—27@29c.
Eggs—Ranch, 23@25c.
Cattle—Choice steers, \$6.75@7.50; medium to good, \$6@6.75.
Sheep — Prime lambs, \$6.50@7.50; fair to good, \$6@6.75.
Hogs—Prime light \$8.75@9; smooth heavy, \$7@8.

Treatment of Common Colds

"If all who catch cold could be persuaded to remain in bed for the first twenty-four hours of such an attack" says a well known physician, "there would be fewer cases dragging on with distressing symptoms for weeks and often ending in some more serious disease." To make sure of a prompt recovery you should also take Chamberlain's Cough Remedy. Whether sick or well the bowels should move each day.

APPLE PRODUCTION HAS HEAVY DECLINE

Washington, D. C.—American production of apples has fallen away rather heavily in the 1909-1919 decade. The Pacific states have shown great increases, but not enough to keep up the national standard, according to a bulletin released by the census bureau.

Apple production in the nation fell from 345,000,000 bushels in 1909 to 136,000,000 bushels in 1919, while the apple trees of bearing age dropped in the same period from 151,000,000 to 115,000,000.

The bulletin revealed that Washington had become easily the premier apple state of the union, having a 50 per cent margin over New York and a three-to-one margin over California.

In going over the totals by divisions, it is found that Oregon, Washington and California have more than one-quarter of the total apple yield of the nation in 1919, but only have about one-ninth of the acreage in bearing. This proves that the coast states trees are the heaviest producers.

WILSON ATTENDS COURT

Ex-President Is Admitted to the Practice of Law.

Washington, D. C.—Woodrow Wilson appeared in person in the chambers of Chief Justice McCoy of the District of Columbia supreme court, to be admitted to the practice of law before that court.

Court attendants said the ex-president appeared in better health than when he retired from the White House, although he still had to have the assistance of an attendant in entering and leaving his motor car.

A special session of the court was called to admit Mr. Wilson. He was called to admit Mr. Wilson. He was accompanied by his law partner, Bainbridge Colby, ex-secretary of state, and by Joseph P. Tumulty, formerly his private secretary.

Montana Honors Custer.

Billings, Mont.—On the 45th anniversary of the massacre of General George A. Custer and his little band of Seventh United States cavalymen, the battle scene of "Custer's Last Stand" was re-enacted on the site of the engagement with the Indians. Between 4000 and 5000 persons witnessed the sham battle, in which Crow Indians took the part of the Sioux, Cheyenne and Blackfeet warriors. American Legion men and United States troopers represented Custer's force.

About Digestion

It is claimed that only half as much food is required when it is thoroughly masticated. Digestion begins in the mouth and thorough mastication of the food is of the greatest importance. When needed take Chamberlain's Tablets to strengthen the digestion and insure a regular movement of the bowels.

FORTUNE IN SHARKS

Extended Use Found for "Tigers of the Sea."

New Industry on the Pacific Coast Promises Big Profits for Its Promoters.

Victoria.—With the supply of raw material unlimited, an industry new to this country is flourishing at Parker Island, between Galiano and Mayne Island, on the Gulf of Georgia. It is the business of catching sharks, and a week's catch at the beginning of May ran to 80, with an average weight of more than a ton each. Nelson MacDonald of this city, who operated the first shark-catching machinery on the island, declares there will never be a shortage, as there are millions in the waters surrounding the island.

"In fact, the farther north you go the more sharks you will find, and from here to Alaska are their feeding grounds," Mr. MacDonald said. "Taking them from the bottom of the sea is automatic. Norway has hundreds of such industries. The only real hook for catching them, which works on a swivel, comes from there, and the so-called cod liver oil, which invades the markets of the world, is really shark liver oil, manufactured in Norway."

Nothing is wasted in a shark plant. There is no finer fish meat than that made from the bodies of sharks. As a fertilizer it is superior to dogfish. The head of the shark is full of glue of a highly valuable quality, and the fins are a much prized Chinese food delicacy, orientals here paying as much as \$30 a pound for it.

The liver content runs from 60 to 70 per cent of finest oil, of which about 10 per cent is glycerine. Shark's teeth are in demand in many parts of the world, and fetch a high price for the manufacture of ornaments. What bones there are, and they are few, go into the fertilizer part of the industry.

The greatest interest in this new industry is being manifested in the manufacture of hides. Several American companies have been formed, and much research work is being done at present. The shark hides run from an inch in thickness to the consistency of paper in the baby shark. In Seattle they are manufacturing hip-boots from shark hides and they are declared to be completely waterproof.

NOSE MADE FROM RIB BONE

Miss Hanna Karpmann suffered the loss of the bridge of her nose in an auto accident some years ago. Recently she underwent an operation in which a segment of one of her ribs was inserted in her nose. The photo shows the result.

Drove Weasel Out of Tree.

Hazleton, Pa.—As Calvin Waldron and friends were walking along the mountainside at Conyngham they spied a full-grown weasel up a tree. While two of them threw stones at the animal Waldron stood guard at the bottom, and when the weasel came down he captured it alive.

Cat Catches Two Trout.

Hollis, N. H.—It takes a cat to put to blush some of the fastidious Isak Waltons. A feline belonging to A. B. Eaton recently brought in two live trout, each measuring six inches. Where the cat got the trout Eaton does not know. She keeps her own secret.

Surgeon's Teeth Pulled. He Regains His Sanity

Duquoin, Ill.—Southern Illinois physicians marvel at the recovery of Doctor Bartz, prominent surgeon of Campbell Hill, who has just been released from the Southern Illinois Hospital for the Insane at Anna. Doctor Bartz became violently delirious several days ago and was ordered to the asylum. Physicians there discovered that defective teeth were the cause of his condition and after these were extracted Doctor Bartz, in two days' time, became perfectly normal and has been permitted to return to his home.

LOYD GEORGE ASKS IRISH CONFERENCE

London.—The British government has made the first official peace overtures to Eamonn de Valera, president of the Irish republic.

Premier Lloyd George made public a letter to De Valera, inviting him to a conference in London with Sir James Craig, premier of the new Ulster parliament, as the first step towards definite settlement of the Irish question.

Lloyd George's peace proffer was believed to be the culmination of lengthy subrosa interchanges, details of which were never proposed to meet the public. The fact that the premier made his letter public was taken to indicate that De Valera already has promised to accept the invitation.

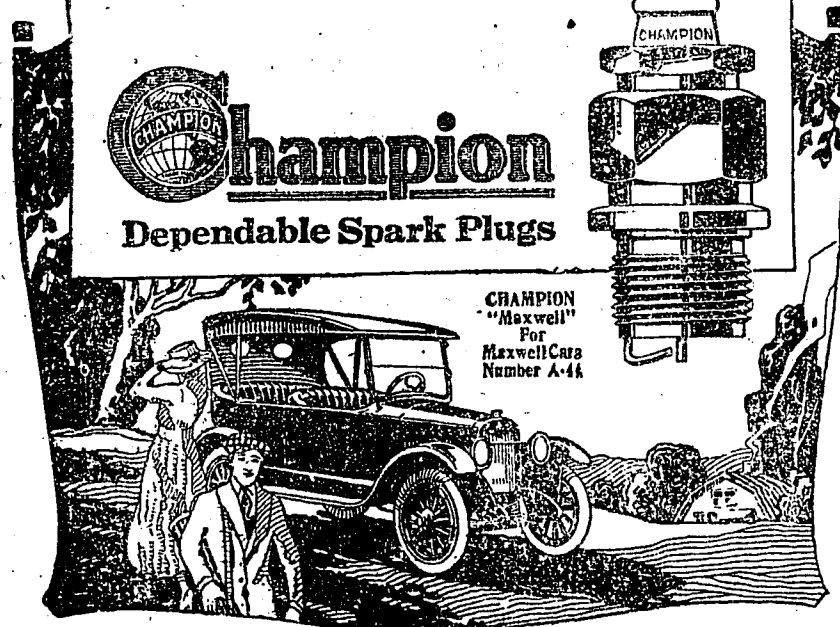

The letter addressed Valera as "the chosen leader of a great majority in southern Ireland," and stated the purpose of the conference was "to explore to the utmost of possibility of a settlement."

A similar letter was dispatched to Craig.

BRIEF GENERAL NEWS

Greece has declined the offer of France, Great Britain and Italy to mediate with the Turkish nationalists.

Wheat harvest will start in Walla Walla, Washington, in a week or ten days, the earliest it has been for years. Japan may take the initiative and propose a British-American-Japanese balance of power in armaments on the Pacific, it was stated at Tokio on good authority.

John A. Gustafson, chief of police, and other members of the Tulsa police department were indicted by the grand jury in connection with the recent race riot and on charges of permitting vice.

Charles A. Warren of Detroit, a lawyer and business man, who for a number of years has been a prominent figure in republican national politics, has been chosen by President Harding for ambassador to Japan.

The total of \$414,067,440 is carried

by the naval appropriation bill under final figures completed by senate and house conferees. This is an increase of \$18,065,000 over the original house appropriation and almost \$80,000,000 less than the senate provided.

Norris Export Bill Opposed By Hoover. Washington, D. C.—While expressing disapproval of the Norris bill to create a \$100,000,000 corporation to aid farm exports, Secretary Hoover told a senate committee that the administration recognized the serious economic plight of American farmers and was engaged in "mobilizing private banking credits to prevent the forced liquidation" of farm commodities, particularly cotton and sugar.

Jud Tunkins.

Jud Tunkins says he can't understand why some people think it's any kind of a comfort to explain to a man that his troubles are his own fault.

ALL ROADS INCLUDED IN RAIL WAGE CUT

Order Makes Reduction Effective on Practically All Class 1 Lines.

Chicago.—The United States railroad labor board extended its wage reduction order, effective July 1, to practically every large railroad in the country. No change from the average 12 per cent reduction granted 104 carriers on June 1 was made by the decision. The new order affects 210 roads.

The new decision will make a reality of the estimated \$400,000,000 annual savings expected by the roads.

The decision, drawn as an addendum to the reduction order of June 1, adds practically every railroad in the class 1 division to the original list of 104 roads authorized to make the 12 per cent reduction.

While no definite returns have been announced from the referendum being taken by all the railway unions on acceptance or rejection of the 12 per cent cut, it was expected that conferences here on July 1 would agree to accept the board's decision.

The new order involves practically all classes of employees. The only change in the rates of reduction made by the decision was in the case of some marine workers at Eastern points.

About one-half of the roads included in the decision were parties to the original decision, the duplication resulting from the fact that many roads did not include all classes of employees in their first petitions.

Rates of reduction for several minor classes of employees were added to the order.

Chefs and restaurant workers, dining car employees, laundry workers and porters were named for reductions of 60 per cent of the increases granted since the roads were returned to private control on March 1, 1920.

X-RAY ROOMS ARE DANGEROUS

Doctor Reports Neighbors of Laboratories in Paris Have Been Injured.

Paris.—X-rays pass through brick walls and have injured persons in buildings adjoining laboratories, members of the Academy of Sciences have just been told by Prof. Contremoulin, a radiograph expert.

He advised that X-ray laboratories be completely enclosed in lead sheet-

ing a quarter of an inch thick. It has been found, Dr. Contremoulin said, that rays sufficiently powerful to be useful in treating cancer, have affected persons in rooms on other side of thick walls and in apartments above and below the radiograph room.

His Own Stepfather.
Martinsburg, W. Va.—Charles Lentz is his own stepfather and stepdaddy to his five brothers and sisters. He married his stepmother, Mrs. Mary Frances Lentz.

Women Lead Men in Western Influx.
Washington, D. C.—More women moved into the Pacific coast states than men in the last 20 years, according to the sex population of the states of the nation, just issued by the census bureau.

Ash Leads in Tennis.
Good tennis rackets require choice woods. Strength is furnished by the bentwood rim or bow, which is usually ash or hickory, says the American Forestry Magazine of Washington. Elm is serviceable but its appearance is not regarded as equal to that of hickory or ash, and appearance counts for much.

Linden Items

Mrs. S. H. Fry spent Friday and Saturday with Eva Smith.

Mrs. Earl Langdon and little daughter, Helen, visited Saturday night with Mrs. Langdon's mother, Mrs. J. E. Foster.

Mrs. George Garner and children and Mrs. D. McPhee visited with Miss Alta Fonberg Monday afternoon.

Mr. and Mrs. A. Alexander and Mrs. J. P. Alexander were Sunday visitors at Lou Alexanders.

The farmers all welcomed the rain Thursday and Friday evening.

Miss Carrie and Arley Allen, Eva and George Smith, spent Sunday in Moscow. They reported Miss Leah Smith, who is in the hospital, to be improving nicely.

Mr. and Mrs. John Carr spent Sunday at Elmer Hudson's place.

Little Ruth Alexander spent a few days the first of the week with Fay Alexander.

Claud Pippenger and family spent Sunday at the McPhee home. Miss Fay remained to be with her grandmother while Celia is at Long Meadow with her father and cleve, who are hauling lumber.

C. P. Israel has purchased the store and building of the J. M. Brookings estate and is now ready for business. He will operate the business on a strictly cash basis.

GOLD MINE LURE FOR 300 YEARS

Fabulous Treasure Said to Be Hidden in Sierra Madre Mountains in Mexico.

DYING PRIEST TELLS SECRET

Mexico City Contains Records of the Old Mine and Prospectors Have Reported Seeing the Ruins, but None Reached Them.

Bisbee, Ariz.—For 300 years, according to reliable records, the Sierra Madre mountains of Sonora and Chihuahua, Mexico, have held the secret of a gold mine of fabulous richness and a vast treasure store of gold, mined and hidden away in an inaccessible tunnel.

The romance of the gold hunter is written in the history of man's efforts through the centuries to reach and bring back to civilization this wealth of the Old Tyopa mines. Murders and violence have marked many of these efforts, and still in many hardy breasts of this mining country today there still stirs the spirit which has prompted many to brave the dangers of starvation, thirst and death at the hands of Indian bands and outlaws in the search for gold.

Records at Capital.
Mexico City contains records of the old mine, and several prospectors, one of them Jack Dunn, accredited discoverer of the Warren district, have reported seeing the ruins of the old mine, but none ever reached there.

According to records at the Mexican capital, in the latter part of the Seventeenth century the isolated village of Old Tyopa was raided by Indians, who destroyed the town and killed all the inhabitants except a priest.

After wandering for several weeks the priest arrived at a little town called Anga Fria, on the Paqui river, where he was received and cared for by a Mexican family. His hardships caused his death, but before he died he gave the family a description and map of the mining camp. He also reported that the gold obtained from several years of mining had been stored in an old tunnel, because of the impossibility of shipment to civilization.

The story and map, it is said, have been handed down from family to family for generations. Those who attempted to reach the camp lost their outfits, and many did not return. The Indians for years menaced all prospectors and this condition still exists, augmented by bands of outlaws.

Max Covita, for several years Mexican consul at Naco, is said to have been the latest possessor of the priest's map.

Has Twice Seen Ruins.
He declared he twice succeeded in getting as far as Casa Blanca, from which the ruins of Old Tyopa are visible, and it was reported he had not given up hopes of reaching the place at his death several years ago.

Bert Grover, a local man, twice started with two companions to make the perilous journey, but was forced back because of insufficient equipment, Indians and outlaws.

Some remarkable gold specimens have been brought back from the vicinity of the Old Tyopa, but so far as known no one ever reached the mines since the old town was destroyed centuries ago.

THIS STATE HIGHEST, LOWEST

Survey by Government Bureau Shows California Sets Marks for United States.

Washington.—The highest and lowest points in the United States are in California, within ninety miles of each other, says a bulletin issued by the geological survey. Mount Whitney, the highest point, is 14,501 feet above sea level and in Death valley there is a depression that lies 276 feet below sea level.

The difference in height of these two points is small, however, the survey states, as compared with the difference in the height and depth of land in Asia. Mount Everest rises 29,002 feet above sea level, whereas the shores of the Dead sea lie 1,200 feet below.

Information in the hands of the survey shows that the greatest depth yet found in any ocean is 32,088 feet, a depth at a point about 40 miles north of the island of Mindanao in the Philippines. This would make the bottom of the sea at that point more than 11½ miles below the summit of Mount Everest.

Masonic Emblems in Quilt.
Jeffersonville, Ind.—The Pastors Aid Society of the First Presbyterian church is completing work on a quilt of unusual design. The quilt was designed by Dr. Giles E. Mowrer, formerly physician at the Indiana reformatory, and it will include the emblem of every branch of Masonry from the Blue lodge to the highest rank.

Many Children.
East St. Louis, Ill.—"He's the twentieth," declared Mrs. Sidney Johnson when her husband came home from work. "Again!" gasped the city's champion father, as he took the new baby in his arms. The Johnsons have been married twenty-three years.

The Farmers Bank

"The Bank that helps you Prosper."

News Items of Local Interest

Advertising can be made to be profitable to the farmer as well as to the merchant.

The meanest woman in the world hid her husband's wooden leg so he couldn't go to lodge.

Miss Mable McKeever, who is attending summer school at the Lewiston Normal, spent the week end here with her folks.

Mrs. Cavanaugh of Orofino arrived the first of the week to spend a few days with her daughter, Mrs. Leo Raaberg.

Dr. and Mrs. William Weniger and son, George Edward arrived Wednesday evening from Corvallis, Oregon, to visit at the home of Mr. and Mrs. Ralph B. Knepper. They drove from Corvallis in their car and report good roads all the way except from Lewiston to Kendrick. Dr. Weniger is head of the department of physics of Oregon Agricultural College. This is his first trip thru North Idaho and he is most favorably impressed with the splendid farming country here. Mrs. Weniger is a twin sister of ye editor.

Dr. J. T. Moser came up from Lewiston, Tuesday, to look after business interests. The Moser family are planning to leave soon for the Lochsa country, above Lowell, where they will spend several weeks camping.

Mr. and Mrs. R. D. Newton were called to Spokane Tuesday morning on account of the serious illness of Mrs. Newton's father, who underwent an operation there the first of the week.

Troy defeated Juliaetta at Troy last Sunday by a score of 16 to 15.

Waldo Thompson of Lewiston arrived on the afternoon train Monday to visit O. E. MacPherson.

Mrs. R. F. Bigham went to Moscow, Tuesday, on business.

Mrs. Gregory Eaves of Lewiston arrived last Saturday to visit her sister, Mrs. Frank Boyd.

Mr. and Mrs. A. R. Shumaker of Pullman drove over in their Ford coupe to spend Sunday at the home of Mr. and Mrs. Joday Long.

J. H. Cosgrove of Seattle was in Kendrick a short time Monday. He is a printer and worked on the Gazette a short time before the big fire, when Dan McIntosh owned the paper.

There will be band practice tonight (Friday) at the city hall. All members of the band are requested to be present.

C. L. Guy returned, Monday from a business trip to Grangeville.

Kendrick lost another game of baseball last Sunday at Bovill by a score of 15 to 9. Costly errors in the latter part of the game were responsible for the defeat.

Frank Chamberlain shipped in a carload of ice yesterday to supply the local trade.

Miss Blanche Canfield of Lewiston arrived Wednesday to visit at the home of Mrs. H. H. Stevens.

Rev. J. P. MacPherson of Spokane arrived last Saturday to spend the week end with his brother, O. E. MacPherson. From here he went to Dayton and Walla Walla where he had dates to preach.

Jeff Buckles of Fir Bluff was transacting business here Wednesday.

Rev. Howard W. Mort is at Asotin attending the Methodist camp meeting. He expects to return today and will remain here until after the Fourth when he and Mrs. Mort expect to spend the remainder of next week at Asotin.

Mrs. Bertha Schultz of Heardan, Wash., arrived Tuesday evening to visit her daughter, Mrs. F. B. Smith. She will remain here until after the Fourth.

There will be a dance held in the American Legion pavilion here tomorrow night, (Saturday), from 9 to 12 o'clock.

At an informal meeting of the town board last Tuesday evening, it was decided to install two 75-watt lights in the park. The lights will be used every night during the summer months, as people are making use of the park and find it a very pleasant place to spend the evening.

Mr. and Mrs. A. C. Deeter were in Lewiston Tuesday on business.

Two public drinking fountains have been installed in Kendrick this week by Marshal Housley. One of them is at the drug store corner and the other at the post office corner. They fill a long-felt want and will be found to be a desirable improvement for the town.

The ladies aid of the Methodist church entertained the Presbyterian Ladies aid at a reception Tuesday evening at Epworth Hall. It was a most enjoyable occasion and was largely attended. Refreshments of ice cream and cake were served.

Rev. Robert M. Hood left last Monday on the night train for Prescott, Wash., where he will visit a

short time with relatives and from there go to Rawlins, Wyoming with his family where they will make their home. The Presbyterian church is now closed for the summer, although there will be Sunday School every Sunday. It is planned to again open the church for regular services about the first of October.

"A colored man at the brick plant called on Jeweler Johnson with an Ingersoll watch," reports the Buffalo Blade, "that was supposed to have a luminous dial, asked: 'Boss, man, the luminosity of dis here dial has expired; kin ah get it recharged?'"

Band Going Good

Band prospects were never brighter for Kendrick. At a meeting held last Monday night a constitution and by-laws were adopted and the preliminary work started to make the band a permanent organization.

Everything seems favorable for a strong organization and indications are that in the very near future the band will number between twenty-five and thirty pieces, most of this number being experienced musicians.

Mr. Thomas, leader of the band, says that with the addition of two more clarinet players the town will have a well-balanced band that can handle some good music within a period of six months.

The members of the band are enthusiastic over the outlook and are already practicing consistently. The cornet section is particularly strong with the addition of Leo Grau of Potlatch ridge and Dan Jones of Bear ridge. They are both splendid musicians.

The band may need some financial assistance from the business men of the town a little later on, which they will undoubtedly get.

Band practice will be held tonight and the first public appearance of the band will be on July 4th. The boys have kindly consented to furnish several musical numbers for the occasion.

CARD OF THANKS

We wish to thank the many friends for their kindness and sympathy during our bereavement, and for the many beautiful floral offerings.

Hugh Stanton and family.
Mr. and Mrs. J. C. Bibb and family.

Two Best-Educated Countries, Scotland and Switzerland rank as the best educated countries in the world.

Exporters To Get Aid.

New York.—A committee appointed by prominent exporters has approved a plan for liquidating American merchandise piled up at Latin-American ports because of a credit situation unfavorable to countries south of the equator. This plan calls for creation of a corporation in which owners of unclaimed or rejected merchandise, deferred drafts or other foreign credits would be represented. This organization would take over the unclaimed merchandise and seek to effect delivery to original consignees or otherwise dispose of it.

Sims Again in Harness.

Newport, R. I.—Rear-Admiral Sims has returned to his desk at the naval war college, of which he is president. The matter of his speech in London and the public reprimand from Secretary Denby as a result is closed, he said.

Local Ads

Beware of the bug-a-boo sewing machine peddler, he will get you sure if you give him half a chance and will "soak" you anywhere from \$85.00 to \$100.00 for a sewing machine that your local dealer will be glad to sell you at \$50 to \$60; and further, the machines most of these "peddlers" have around and sell for fabulous sums are a make that an honest dealer would not handle.

A good way to do is to "sit down" on these peddlers good and hard if you don't they will "sting" you sure.

Sure, Bechtol can put you wise to their game. 26-11.

For Sale: 2 good milk cows, 6 years old, grade Shorthorns and will have calves about June 25, each \$60; 1 Shorthorn heifer, age 3 years, registered, \$60; 2 brood sows, each \$25; 3 1-4 inch wagon \$25; grain rack \$25; 14 inch gang plow \$30; McCormack binder \$30; registered roan Shorthorn bull, age 4 years, and gentle \$125; registered Poland China boar, big bone type, 2 years old, large and gentle, good breeder \$50 Wm. F. McClelland, Southwick, Idaho. 25-2t.
