

Over The County

Genesee News: Geo. Lamphere and Ben Bush were over from Moscow Tuesday afternoon in the interest of securing a certain piece of road to connect with the highway in the Paradise mountain section and were in session with the Genesee Highway commissioners.

They also pledged their support to bring pressure to bear upon the Moscow Highway commissioners for the completion of the Moscow end of the Paradise mountain road.

While this section of road will be of no particular advantage to Genesee they are very anxious that it be completed. It is very much to Moscow's interest to see that the "missing link" of that particular road be completed and there is no good and sufficient reason why it shouldn't be.

Moscow is making a fuss about the completion of the "missing link" near the head of the Lewiston grade—and she has one right at her own door and it is up to Moscow to build it.

Let's patch our own clothes before we begin to talk about the ragged condition of our neighbors.

Juliaetta Record: Mr. and Mrs. Julius Giese celebrated their silver wedding at their home last Sunday. The affair was a most elaborate one and about seventy persons were present, including children, and spent the day most pleasantly. A sumptuous dinner was a feature of the occasion, and there was plenty and to spare of everything good to eat for all present. Mr. and Mrs. Giese were the recipients of numerous handsome and useful presents, including silverware. Those in attendance report it one of the most enjoyable events of the season.

Deary Press: Deputy Sheriff Pat Malone arrested two men at Bovill Wednesday, and upon searching them and their belongings found a full equipment of cracksmen's tools, including guns, masks, "soup" etc. Pat took the whole caboodle to Moscow where the men were jailed and the personal property turned over for evidence.

The men, who were apparently foreigners, dropped into Bovill last Tuesday and went to Camp 6 where they said they were from Palouse and were looking for work. They stayed over night at the camp. On Wednesday morning Pat, who had reasons for suspecting that there was an Ethiopian in the fuel heap, went to Camp 6 to look the men over but they had gone. Upon returning to Bovill Pat found the gentlemen there and gathered them in. A reasonable supposition is that they were about to pull off a "job" here or at Bovill, but Deputy Malone's watchfulness upset their plans.

Star-Mirror: Expenditures in running the 94 Latah county school districts for the past year, ending July 11, 1921, amounted to \$271,072.77, according to the annual report of Miss Lillian Skattaboe, Latah county superintendent of public instruction, to Miss Ethel E. Redfield, state superintendent of public instruction. The report was made public Saturday.

This is an increase in expense over 1920 of \$49,638.66. Total expenditures for the year of 1920 were \$221,434.11.

Of the 94 districts 84 are regular districts and the other 10 are divided as follows: Independent districts, two; consolidated districts, four, one rural high school district, and three joint districts. In the 94 districts there are 99 school buildings used, nine of which are buildings with more than four rooms, 75 one-room buildings, 11 two-room buildings, one three-room building, and three four-room buildings.

One hundred eighty-nine teachers are employed in the county. There are of this number, 27 men and 162 women. The average annual salary of all teachers is \$984.15. The average annual salary of the women is \$909.15. The average annual salary of the men is \$1467.12.

During the year there was a total

Bakery to Have New Home

Mr. and Mrs. Fred Braden and little daughter left this week for Texas where Mr. Braden has a good position in the oil fields. He received a telegram last week from a former employer, offering him \$10 a day to come back and work for him. He wired his acceptance at once.

Plans now are to discontinue the dining room in the Hotel Kendrick building. The room will be used entirely to accommodate the growing business of the Electric Bakery, which will be carried on by Louie Pearson, sole proprietor.

School Notes

The members of the sophomore English class are working on a debate to be given in the near future. The question for debate is, Resolved, that labor unions, in spite of occasional damage occasioned by them, are beneficial. Those on the affirmative are Elsie Bird, Ignaz Flaig, Claude Stanton, Mildred Holt and Evelyn Hanson. Those on the negative are Audrey Stanton, Wm. Brown, Lena Wegner, Alice Wegner and Oscar Raby. This debate is the forerunner of one, or several, to be given between the different English classes.

The Domestic Science class has been successfully canning fruits and jelly this week.

Basket ball season is at hand and everyone is looking forward to the first game of the season, which is scheduled for the 29th of October.

The 8th grade pupils, under Prof. Daniels' instruction, took the Northwest Arithmetic Test, which is used as a means of attempting to determine a standard in this particular branch. This test is sent out by Dr. Stone of Washington State College.

Luther League Social

A week from tonight the Luther League of Cameron will give a basket social at the Cameron school house. This promises to be a most pleasing social event. Everybody is most cordially invited to attend and enjoy the evening with the young people.

Seth Wilson, manual training teacher of Troy, got the first prize in the lottery at the Troy fair last week. He drew a house and three lots. F. Benschoter of American ridge got fifth prize, a full set of kitchen furniture, including range.

enrollment of 5934. This is a substantial increase in enrollment over 1920. In 1920 the total enrollment was 5857.

The total income from all sources totalled \$88,474.88. The current income amounted to \$214,704.60, the special income, \$13,770.28; and the balance on hand from the last report of \$18,781.22.

Costs of instruction the school year just ended a total of \$196,221.96.

Salaries of the men teachers amounted to \$39,618.26. Salaries paid to the women teachers made a total of \$146,284.24. Costs of instruction for the year previous totalled \$155,644.89.

The yearly average cost of educating each child in the county, including grade and high school pupils, is approximately \$44. The yearly average cost of educating each high school pupil is approximately \$119.

Troy News: Erick Oller, who has been one of the leading farmers of the Troy district, has leased his Burnt Ridge farm to Ivan Dragsteed and has purchased a home in Moscow. The family was moved there last week and the children have entered the Moscow schools. Mr. Oller will offer at public sale next Monday at the farm the greater portion of his farm machinery and stock. A great many Troy folks regret this move on Mr. Oller's part, as he has been active in the public life of the town as well as the district in which he lives.

The army of the disabled keeps growing

In Hospitals under Government care

The Red Cross is spending Ten Million Dollars a Year to help the ex-service man and his family

Annual Roll Call Nov. 11-24, 1921

1919-3,300
1920-17,500
1921-26,300
1922-?

To bring before the country in visual form the vast problem it is helping to solve, the American Red Cross has prepared for its Annual Roll Call, Nov. 11 to 24, a poster showing how rather than diminishing the total of World War veterans entitled to Federal aid continues to grow. Red Cross Service to these men is costing \$10,000,000 a year.

Has Fine Fruit Farm

Dave Waltz has one of the best fruit ranches in Potlatch canyon. He has some fine apples this year. They are not large but are free from worms and scab. He only sprayed once for worms this season. Mr. Waltz says that some years the worms are much worse than others and this is one of the favorable years. He had a good crop of prunes this fall but the market has not been very good. His vineyard has tons of fine grapes. Some of the vines from which the leaves have fallen, look like purple mounds. He raises principally Concord and they are very fine. Judging from the appearance of his vineyard the slopes of the Potlatch canyon are adapted to the growing of grapes of the very finest quality. They thrive with a little care.

Cameron Store Sold

Herman Wilken sold his stock of merchandise at Cameron this week to Miss Voller, who will conduct the store in the building where Andrew Emtan used to have his store and the postoffice. Mr. Wilken is planning to go to school at Lewiston.

Big Bear Ridge

Mrs. D. J. Ingle entertained the Lutheran Ladies' Aid, Monday afternoon.

Mrs. H. Sneve and Miss Carrie Solli are spending the week with relatives in Spokane.

The Hupp families of Little Bear ridge and Mr. and Mrs. Lacey and family from Peck were Sunday visitors at the K. D. Ingle home.

A large number from here attended the Troy fair Thursday and Friday.

Mr. and Mrs. Ed Wegner and family are moving to the Dan Jones farm this week.

Ed Halseth made a business trip to Spokane the first of the week.

Mr. and Mrs. A. Galloway accompanied by Mrs. Galloway's brother, Ed Baker, departed Tuesday for an extended visit at their old home in Missouri.

Mr. and Mrs. A. N. Rognstad and son, Vernon, were Troy and Pullman visitors, Thursday.

Otto Gladden is spending some time in Spokane with his mother, who is slowly recovering at a Spokane hospital.

John Christensen was taken to the railroad hospital at Missoula, Montana, the first of the week for medical treatment. T. Y. Ellis took his place at the pump station.

Cedar Creek Land Sold

W. D. Barkhoff of Colton, Wash., purchased 40 acres of land from Elmer Shinger this week. The land lies near the Jenks place not far from Crescent. The deal was made through G. F. Walker, last Saturday. Mr. Barkhoff is an old resident of Colton and is buying the land for an investment. He is talking of planting a big vineyard on the 20 acre south slope of his land.

Donate Carload Wheat

An attempt is being made to secure the donation of two carloads of wheat from Latah county for the Near East Relief. Dewitt Davis of Moscow has charge of the drive in this county. The apportionment for Kendrick is 100 sacks. Anyone who will contribute a sack of wheat for the relief of these starving people may leave same at the warehouse of the Kendrick Rochdale Co.

Cameron News

The young people have now organized their Luther League. There will be special services for the installation of officers, Sunday evening at 7:30. Following are the officers: August Brammer, president; Alvina Vollers, vice-president; Martha Meyers, Secretary; Henry Wendt, treasurer. All come for the special service and bring your friends.

Rev. and Mrs. Rein and two sons, were dinner guests of Mr. and Mrs. Carl Koepf, Sunday.

The Luther League will give a basket social October 14. Girls, bring a big basket and boys bring your pocket books. The basket social will be held at the parsonage.

The Luther League will give its monthly meeting October 12.

Surprise parties seem to be quite frequent. One was given on Henry Wendt, Sunday afternoon at 2:30. Everybody took refreshments along and a dainty lunch was served at 5:30. Miss Ida Silflow baked the large birthday cake and there were 22 candles on it, representing Mr. Wendt's age. We all wish him many happy birthdays.

Mr. and Mrs. August O. Wegner and Mr. Herman Silflow, motored to Gifford, Sunday to visit Mr. and Mrs. Fred Becker and family.

Mr. Blum, Gus Blum and Herman Wilken went hunting Sunday, but didn't quite get the limit.

Mr. and Mrs. F. Senupfer of Juliaetta, attended services Sunday evening.

Born to Mr. and Mrs. J. W. Rouse of American ridge, Wednesday, a daughter.

Federal Road Aid

On June 30, 1921, the close of the fifth fiscal year since the passage of the Federal aid road act, which is administered by the Bureau of Public Roads, United States Department of Agriculture, the State and Federal Government had completed 7,469 miles of road, and 17,977 miles were under construction. Including the work completed on projects still under construction, the States have completed work which entitles them to draw on the Federal Treasury for \$118,915,515. There is also a balance allotted but not yet earned on projects now under construction amounting to \$66,375,636. Of the two appropriations which have been made for Federal aid there is now only \$18,793.54 remaining unobligated. Twelve of the States have obligated their entire allotment and several others have only a small amount to their credit.

During the last fiscal year the total of completed projects jumped from 1,677 to 7,469 miles and the projects under construction increased from 14,940 to 17,977 miles. The money earned by completion of work has grown from \$40,097,881 a year ago to \$118,915,515 at the end of this fiscal year. The amount earned during the year was \$78,817,634, or nearly twice as much as the amount earned during the four years preceding.

The new projects submitted during the year bring the total amount of Federal aid obligated up to \$247,956,456, as compared with \$109,830,366, which was the amount obligated on June 30, 1920. At this rate it is expected that the small balance of \$18,000,000 still unobligated will be taken up in a very short time.

The month of June was a record month in every way. The mileage of completed projects increased by more than twice the amount reported for the month of May. Funds allotted to work actually under construction increased by \$13,670,925.

Fairview Items

Will Hetchner was up from Lapwai last Sunday visiting his sister, Mrs. Mae McCall.

Jeff Flesman and family drove to Lewiston, Sunday.

Little Miss Iolla Ogden, who is in the St. Joseph's hospital at Lewiston, due to infantile paralysis is reported to be getting along quite well, and may be able to return home soon.

Walter McCall was over from Central ridge and spent the week end with his folks.

Denzel and Wayne Kuykendall are going to farm the Hetchner place.

Mr. and Mrs. Jim Helton have moved to the cottage formerly occupied by the Wm. Zeyen family.

Mrs. Virgil Flesman and son returned to the ridge Saturday, from Lewiston.

Mrs. Frank Wilken and children spent Saturday in Juliaetta, visiting her mother.

Sunday school is to begin soon in the Stony Point school house.

Mr. and Mrs. Fred Becker from Gifford were visiting in the Fairview community last week. The Becker family formerly lived here.

Miss Olga Wolff is recovering quite rapidly from her operation, which she underwent at White's hospital in Lewiston, last week.

Mr. Woody from Lapwai was visiting the John Glenn family last week.

Prune picking is in full swing on the John Glenn ranch.

Will Drive to California

Mr. and Mrs. A. C. Deeter are planning to leave for California the latter part of this week or the first of next. They will arrive through in their Dodge car. The Walter Kight family will be in the same party. Mr. and Mrs. Deeter expect to spend the winter in California while the Kight family may locate there. Deeters have rented their house to Mr. and Mrs. Walter Housely.

City Fathers Meet

Last Tuesday night the city dads held their monthly parley at the city hall and transacted considerable business. Bills were lighter than usual, which occasioned some satisfaction to the five members present. They also gloated over a \$1,000 cancelled water bond, which is the second bond paid within the year. There is now but \$3,000 bonded indebtedness against the water system. This will probably be paid off within the next two years, providing nothing unforeseen happens to increase the operating expense of the water system.

The Fire and Building committee reported upon several pieces of property which had been brought to their attention at a previous meeting of the board. After inspecting the property they found it to be in a very unsanitary condition and in its present state, a menace to adjoining property. They presented the following resolution to the Board for consideration:

Upon investigation of the following properties against which complaint has been made and referred to this committee, we find that all buildings located on Lots 1, 2, 3, and 4, Block 10, and on West half of Third Street (vacated) adjoining Lot 1, Block 10, Original town of Kendrick, and known as the Sterling property, is in a badly dilapidated condition, a dangerous fire trap, unsanitary and totally unfit for habitation. We therefore in the interest of public health and safety, recommend that the above described buildings be at once condemned, and that the buildings and rubbish be removed from grounds within 30 days. We find that the barn located on Lots 5 and 6, Block 10, adjoining the above described, and known as the Sterling property, is a fire trap, unsanitary and a menace to public health and safety. We therefore recommend that it be removed and all rubbish, manure and fifth cleaned from off the ground within 90 days.

Upon investigation of buildings, walks fences, etc., located on Lots 1 and 2, Block 16, Original town of Kendrick and extending into Kirby Street and known as the McGovern property, we find them in a dilapidated and filthy condition, unfit for habitation and a menace to public health and safety. We therefore recommend that all buildings, sheds, fences, rubbish, etc., be removed within 90 days.

Upon investigating the premises known as the Malinda Hamley property located on Lot 3, Block 16, Original Town of Kendrick, we find the buildings are in bad condition, with such an accumulation of rubbish and decaying vegetation as to constitute a serious danger of fire and a menace to public health and safety. We therefore recommend that the owner or owners be required to remove all adjoining sheds, porches and outside steps, privies, board walks, weeds, vines and other rubbish so that the premises will be safe and sanitary, within 90 days.

If the above demands are not complied with within the time specified, the necessary work to accomplish them will be done by the Village and the expense charged against the property.

The report of the Building and Fire committee was accepted and un-animously adopted, and the clerk ordered to notify the property owners accordingly.

The Street and Alley committee recommended that street lights be put in near the Hanson property, at the turn in the street near the old Nelson property and at the Jones property near the ball park. The recommendation was adopted and street lights ordered put in.

The Board decided to have signs placed at both ends of town and at the bridge crossing the Potlatch at the foot of Sperry grade, to direct travelers and also giving distances to nearest towns. Speed limit signs will also be placed at proper places.

There being nothing further of importance to bring before the board, the meeting adjourned.

Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Subscription \$1.50 a year.

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

The business houses of both Troy and Deary went on a cash basis the first of the month. They also did away with delivering goods in town. The plan upon which they are now operating is cash and carry. When you buy goods from any of the merchants of those two towns you pay spot cash.

Last year credits were extended too liberally and it worked a hardship on merchants from which they have not yet recovered. If the people of the Potlatch will co-operate with the merchants of Kendrick and pay up as fast as possible, there is no reason why they will not be able to receive the same accommodations which they have had heretofore.

Frank Chamberlain started the street sprinkler Tuesday afternoon. Sprinkling streets in October is somewhat of an innovation in these parts.

According to efficiency tests made a short time ago, Babe Ruth was found to be 90 per cent efficient, while the average man is only 60 per cent efficient. No wonder Babe slaughters the pitchers.

Figures collected by the New York World show that 12,000 persons in the United States were killed in motor accidents or by motors in 1920, 3 million others injured, not to mention a property damage of a billion dollars. "Many a war," comments the Springfield Republican, "has done no more harm in a single year."

EMANUEL LUTHERAN CHURCH Cameron, Idaho.

Twentieth Sunday after Trinity. German services at 10:30 a. m. Sunday school at 9:30 a. m. Special Luther League services in English at 7:30 p. m. Subject: "Thinking Luther League Members," based on Rom. 12, 1-5.

Congregational meeting on Sunday afternoon at 2:30 p. m. Choir practice Thursday at 7:30 p. m.

Ladies Aid meeting Wednesday at 2:30 p. m. in the parsonage.

Young peoples' basket-social the 14th of October in the Cameron school-house at 7:30 p. m., to which all of the young people in the community are invited.

German school and catechetical instructions Saturday at 8:30 a. m. You are cordially invited to attend all these meetings and services.

Rev. E. A. Rein, Pastor.

METHODIST CHURCH.

Howard W. Mort, Pastor.

That trip around the world with the Epworth League is a week from tonight. Something new, something different. Ask any League member, they know. First train leaves the church at 7:30 p. m. Train every 15 minutes after that time. All aboard!

Sunday school at 10 a. m. There are nine classes. You belong in one of them. Be prompt.

No morning worship. Epworth League at 6:45 p. m. "Under new management." New officers were elected last Tuesday. Things will be doing this year and we want you with us.

Evening Song Service and worship at 7:30 p. m. A service you will enjoy no matter who you are.

American Ridge—Sunday school at 10 a. m. Morning worship at 11 a. m. Remember the Sunday school election. Everyone invited to attend.

COVER OR BLANKET FOR COW

Good Way to Keep Flies From Bothering White Milking—Obviates Tail Switching.

To keep flies from bothering while milking, make a cover or blanket for the cow from a large gunny sack, ripped open, and provided with strings for fastening under forelegs, and string across back to hold in place over the rump. If both the cow being milked and the one behind the milker are so protected there will be very little tail switching.

Chinese Superstition.

In some parts of China two coins are put into the sleeve of the dead, and are then shaken out, to test his satisfaction, or the reverse, at the arrangements made for his funeral and interment. If the coin falls with the side upward, it is taken as a sign of approval; if not, as a sign that something has been omitted.

CANTALOUPE OF FINEST QUALITY

Early Picking Is Reason Given for Melons Reaching Market in Inferior Condition.

AVOID BRUISING IN PACKING

Load Immediately in Iced Refrigerator Cars and Furnish Ample Ventilation—Floor Racks Are Also Recommended.

(Prepared by the United States Department of Agriculture.)

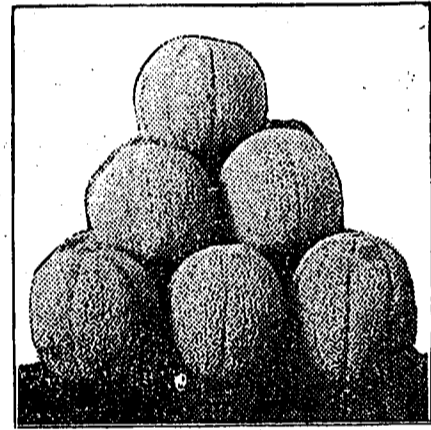

Fully 10 per cent of the cantaloupes produced in the western states reach the consumer so green that they are practically worthless for food. If only 1 per cent were picked and shipped unripe it would mean transporting and marketing more than 40,000 crates, for more than 20,000 carloads—or four-fifths of the production of the United States—are harvested in Colorado, New Mexico, Arizona, Nevada, and California, and shipped on a six to twelve-day journey to middle western and eastern markets.

During three recent shipping seasons specialists of the United States Department of Agriculture conducted investigations in the western producing sections and chief eastern consuming centers, in order to determine the most satisfactory methods of handling cantaloupes for long-distance shipments. It was found that too early picking was one of the chief reasons why melons reached the market in an inferior, tasteless condition.

When to Pick Melons.

Green melons have a depressing effect on both demand and prices. While it is necessary that they be picked before they are entirely ripe, in order to provide the essential keeping qualities in transit, they may be picked at a stage of maturity that will afford good flavor as well as keeping quality when they reach consumers, cantaloupes should be picked just after they will slip cleanly from the stem; that is, at the full-slip stage of maturity.

If properly handled and promptly loaded they will carry in satisfactory condition, even to long-distance markets. Allowance must be made, however, for a certain amount of rough

Unwrapped Melons Cool Quickly, Thus Preventing Mold.

handling and for some delay in transit. As a general rule, therefore, cantaloupes should be picked just before they reach the full-slip stage. Such melons possess not only the desirable eating quality, but also the necessary carrying quality.

The keeping and carrying qualities of cantaloupes are directly dependent on the care exercised to prevent mechanical injuries in harvesting and preparation for shipment.

Use Care in Packing.

During the operation of packing, melons should be placed carefully in the crates, and not dropped or tossed into place, as is frequently done. Injury caused by squeezing can be prevented if packers are careful not to force in over-sized melons when finishing the crates.

The reduction of serious market losses from over-ripe and decayed melons is dependent to a large extent upon the promptness with which they are placed under refrigeration. They should be loaded immediately in iced refrigerator cars, and, while being hauled from packing shed to the car-loading platform, should be covered to protect them from the sun.

Cantaloupes should preferably not be wrapped. They do not refrigerate so well in transit nor do they reach the consumer in so good condition as unwrapped melons. Loading different types of packages may obstruct air circulation and thus seriously retard refrigeration. In cars equipped with these racks, as well as basket bunkers, salt may be effectively employed to hasten refrigeration. The ability of refrigerator cars to cool melon shipments quickly and to maintain desirable temperatures in transit depends directly upon proper bunker and bulkhead construction, and upon the quantity and quality of the insulating material used.

MOLTING PERIOD IS TRYING

Feathers That Must Be Made Are Rich in Nitrogenous Substance—Coated With Oil.

Many owners of hens think that because the hens are not laying during the molting period, they do not need feed. This period is harder on a hen than heavy laying for the feathers that must be made are rich in nitrogenous substances and are coated with an oil.

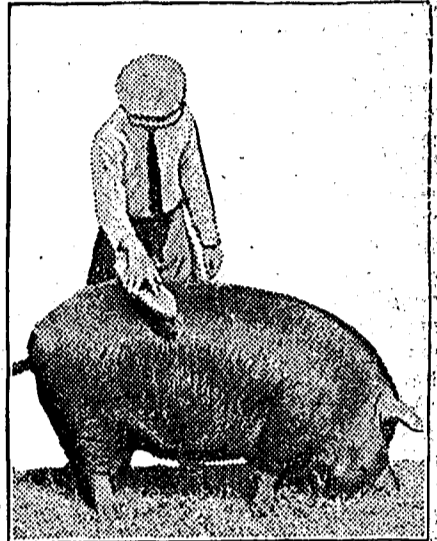

CLUB BOYS IN GREAT CONTEST AT ATLANTA

Teams From Many States to Compete for Prizes.

Seven Winners Will Be Given Trip to English Royal Stock Show—Leaders and Members Are Showing Interest in Event.

(Prepared by the United States Department of Agriculture.)

Probably the greatest gathering of boys in the history of club work will take place at Atlanta, Ga., October 19 to 21, 1921, when club boys representing practically every section of the United States will take part in an international club judging contest. The seven winners in this contest will be given a trip to the English royal stock show, and hundreds of dollars will be distributed as additional prizes. This contest is under the supervision of club leaders representing the state

A Pig Club Boy Preparing His Prize Pig for the Show Ring.

agricultural colleges and the United States Department of Agriculture.

Many club leaders and members are showing an interest in the contest and have expressed their willingness to send judging teams. The team from Texas, which defeated the entire field last year, is now completing preparations for the trip to Europe. That state will be represented again at the contest in Atlanta, but this year there will be more competition, for teams from Mississippi, Louisiana, Virginia, Oklahoma, Florida, Arkansas, Alabama, Kentucky, North Carolina and South Carolina are preparing to enter. Several other states in the North and West have signified their willingness to send teams to the contest if suitable arrangements can be made.

VALUE OF DOCKAGE IN WHEAT

Material Sometimes Contains Quantities of Nutritious Grain, Good for Farm Use.

Dockage found in wheat in some instances is of real value, while in others it not only may have no value but often may contain ingredients that are positively harmful if ground with the wheat, say specialists of the United States Department of Agriculture. The value of dockage, therefore, depends on the value of the material separated from the wheat. Dockage frequently contains quantities of nutritious grain and weed seeds, as flaxseed, wild oats, or other cereal grains. Much of this material can be used to good advantage as poultry or stock feed. Wild mustard and flaxseed can be removed from the dockage in practically a pure state by the use of special cleaning machinery, such as is sometimes found in terminal elevators and the larger flour mills, but even then the cost of cleaning will be considerable, and when so separated will ordinarily command a fair price.

Under the dockage system of the federal standards, the amount of foreign material separated and considered as dockage is deducted from the weight of the wheat purchased and, in any event, does not affect the grade of the clean wheat. This results in a higher grade and the price paid is on the basis of this grade for the dockage-free wheat.

CULLING OF CHICKEN FLOCKS

One Virginia Farmer Reports Selling Fowls to Amount of \$70 Without Lessening Eggs.

Good reports continue to come into the county agent at Smyth county, Va., from those who have taken advantage of the poultry-culling work given by him. There is still a great demand for information concerning the culling of flocks. One farmer reports that he sold chickens amounting to \$70 without reducing his egg production at all. Another reports that he sold poultry amounting to \$72.50 and is now getting just as many eggs as before.

RENOVATE OLD POTATO BINS

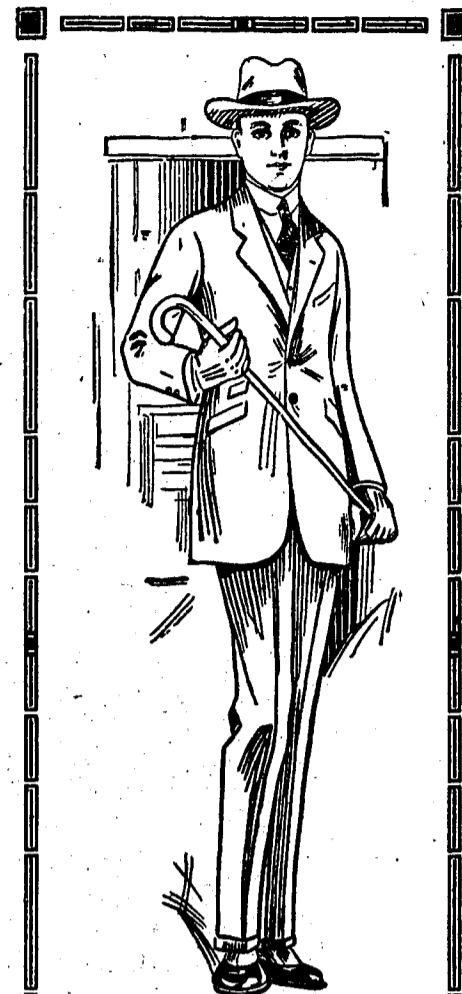

All Growers Are Warned to Thoroughly Disinfect All Storage Places Before Using.

Every grower who experienced trouble with dry rot in his potatoes is warned by A. G. Tolaas of University farm, chief inspector of the potato seed department, to disinfect thoroughly all bins before using them again. Either a solution of formaldehyde in ten gallons of water, or a solution of bluestone (copper sulphate) consisting of one pound of the bluestone dissolved in ten gallons of water, should be used for this purpose.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

United Doctors

Specialists

Do Not Use Surgery

Will be at

Palouse Hotel, Palouse

Friday, October 14

Commercial Hotel, Colfax

Saturday, October 15

Office hours 9 a. m. to 3 p. m.

No Charge for Examination.

The doctor in charge is a graduate in medicine and surgery, and is licensed by the state of Washington. He visits professionally the more important towns and the cities and offers to all who call on this trip, consultation and examination free, except the expense of treatment when desired.

According to his method of treatment he does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit many wonderful results in diseases of the stomach, liver, bowels, blood, skin, nerves, heart kidney, bladder, bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

If you have been ailing for any length of time and do not get better do not fail to call, as improper measures rather than disease are often the cause of your long-standing trouble.

Remember above date, that examination on this trip will be free and, and that his treatment is different.

Address: 336 Boston Block, Minneapolis, Minn.

You'll Need Money

When Opportunity Comes

This country is full of splendid business opportunities for the young man. Somewhere sometime your chance will come.

At such a time even a few hundred dollars, carefully saved and banked will help enormously, because the only sound way to start any proposition is to finance it in part yourself.

Save your money. Start a Savings Account at this bank, now, and be ready when your opportunity comes.

Chronic Catarrh

Our manner of living makes us very susceptible to colds and a succession of colds causes chronic catarrh a loathsome disease with which it is estimated that ninety-five per cent of our adult population are afflicted. If you would avoid chronic catarrh you must avoid colds or having contracted a cold get rid of it as quickly as possible. Chamberlain's Cough Remedy is highly recommended as a cure for colds and can be depended upon.—Adv.

SYNOPSIS.

CHAPTER I.—John Stuart Webster, mining engineer, after cleaning up a fortune in Death Valley, Calif., boards a train for the East. He befriends a young lady annoyed by a masher, thoroughly trouncing the "pest."

(Chapter II Continued)

"Give a dog a bad name, and it will stick to him," Webster retorted. "Of course I testified against him. As engineer for the Mine Owners' association, I had to. The high-grade ore was found in his assay office, and the circumstantial evidence was complete, and I admit Billy was acquitted merely because I and others could not swear positively that the ore came from any certain mine. It was the same old story, Neddy. You can be morally certain that high-grade ore has been stolen from your mine, but unless you catch the ore thief in the act, how can you prove it? I suppose you read the newspaper reports and believed them, just as everybody else does."

"Well, forget it, Jack. It's all over long ago, and forgotten."

"It wasn't all over so long ago as you seem to think. I suppose you knew the Holman gang was afterward sent to the penitentiary for those same high-grade operations? Billy Geary's acquittal didn't end my interest in the case—not by a jugful! I fought the case against the friends of the Holman crew among the mine owners themselves; and it cost me my good job, my prestige as a mining engineer, and thirty thousand dollars of money that I'd saved to get together. Of course you never knew this, Neddy, and for that matter, neither does Geary. I wish he did. We were good friends once. I certainly was mighty fond of that boy."

He drew the letter from the envelope and slowly opened it.

"And you never heard what became of Geary?"

"Not a word. I was too busy wondering what was to become of me. I couldn't get a job anywhere in Colorado, and I moved to Nevada. Made a million in Goldfield, dropped it in the panic of 1907, and had to start again."

"What have you been doing lately?"

"Borax. Staked a group of claims down in Death valley. Billy ground, Neddy, and I was busted when I located them. Had to borrow money to pay the filing fees and incorporation, and did my own assessment work. Look!" Webster held up his hands, still somewhat grimy and calloused. "The Borax trust knew I was busted, but they never could quite get over the fear that I'd dig up some backing and give them a run—so they bought me out."

"Somebody told me Geary had gone to Rhodesia," Jerome continued musingly, "or maybe it was Capetown. I know he was seen somewhere in South Africa."

"He left the Creek immediately after the conclusion of his trial. Poor boy! That dirty business destroyed the lad and made a tramp of him, I guess. I tell you, Neddy, no two men ever lived who came nearer to loving each other than Billy Geary and his old Jack-pardner. We bucked the merits of men and went to sleep together hungry many a time during our five-year partnership. Why, Bill was like my own boy. Jerome, I curse the day I took that boy out from underground and put him in the assy office to learn the business. How could I know that the Holman gang had cashed the stuff in his shack?"

"Well, it's too bad," Jerome answered dully. He was quite willing that the subject of conversation should be changed. "I'm glad to get the right dope on the boy, anyhow. Have another drink?"

"Not until I read this letter. Now, who the dickens knew I was headed for Denver and the Engineers' club? I didn't tell a soul, and I only arrived this morning."

He turned to the last page to ascertain the identity of his correspondent, and his facial expression ran the gamut from surprise to a joy that was good to see.

John Stuart Webster read it deliberately, after which he sat in silent contemplation of the design of the carpet for fully a minute before reaching for the bell. A servant responded immediately.

"Bring me the time-tables of all roads leading to New Orleans," he ordered, "—also a cable blank."

Webster had reread the letter before the servant returned with the time-tables.

"August, you go out to the desk, like a good fellow, and ask the secretary to arrange for a compartment for me to New Orleans on the Gulf States limited, leaving at 10 o'clock tomorrow night." He handed the servant his card. "Now wait a minute until I write something." He seized the cable blank, heaved himself, un-

vited, to Neddy Jerome's fountain pen, and wrote:

"William H. Geary, Calle de Concordia No. 19, Buenaventura, Sobrante, C. A.

"Salute, you young jackass! Just received your letter. Cabling thousand for emergency roll first thing tomorrow. Will order machinery. Leaving for New Orleans tomorrow night, to arrive Buenaventura first steamer. Your letter caught me with a hundred thousand. We cut it two ways and take our chances. Keep a light in the window for your old

"JACK PARDNER."

"That's a windy cablegram," Neddy Jerome remarked as the servant bore it away. "Why all this garrulity? A cablegram anywhere generally costs at least a dollar a word."

"That's my delight of a shiny night, in the season of the year," quoted John Stuart Webster; "and why the devil economize when the boy needs cheering up?"

"What boy?"

"Billy Geary."

"Where is he?"

"Central America."

Neddy Jerome was happy. He was in an expansive mood, for he had, with the assistance of a kindly fate, rounded up the one engineer in all the world whom he needed to take charge of the Colorado Consolidated. So he said:

"Well, Jack, just to celebrate the discovery of your old pal, I'll tell you what I'll do. I'll O. K. your voucher for the expense of bringing young Geary back to the U. S. A., and when we get him here, it will be up to you to find a snug berth for him with Colorado Consolidated."

"Neddy," said John Stuart Webster, "by my bottom, I love thee. You're a thoughtful, kindly old stick-in-the-mud—"

"No it's not but's. I'm your boss," Jerome interrupted, and waddled away to telephone the head waiter at his favorite restaurant to reserve a table for two.

Mr. Webster sighed. He disliked exceedingly to disappoint old Neddy, but—He shrank from seeming to think overwell of himself by declining a twenty-five-thousand-dollar-a-year job with the biggest mining company in Colorado, but—

"Rotten luck," he soliloquized. "It runs that way for a while, and then it changes, and gets worse!"

When Jerome returned to his seat, the serious look in Webster's hitherto laughing eyes challenged his immediate attention.

"Neddy," said John Stuart Webster gently, "do you remember my crossing my fingers and saying 'King's X' when you came at me with that proposition of yours? It just breaks my heart to have to decline it, but the fact of the matter is, I think you'd better give that job to your brother after all. At any rate, I'm not going to take it."

"Why?" the amazed Jerome demanded. "Johnny, you're crazy in the head. Of course you'll take it."

For answer Webster handed his friend the letter he had just received.

"Read that, old horse, and see if you can't work up a circulation," he suggested.

Jerome adjusted his spectacles and read:

"Calle de Concordia 19, Buenaventura, Sobrante, C. A.

"Dear John: I would address you as 'dear friend John,' did I but possess sufficient courage. In my heart of hearts you are still that, but after three years of silence, due to my stupidity and hardness of heart, it is, perhaps, better to make haste slowly.

"To begin, I should like to be forgiven, on the broad general grounds that I am most almighty sorry for what I went and done! Am I forgiven? I seem to see your friendly old face and hear you answer 'Aye,' and with this load off my chest at last I believe I feel better already.

"Jack, you poor, deluded old piece of white meat, do you think for a moment that I held against you your testimony for the operators in Cripple Creek? I thought you believed the charges and that you testified in a firm belief that I was the guilty man, as all of the circumstantial evidence seemed to indicate. I thought this for three long, neugre years, old friend, and I'm sorry. After that, I suppose there isn't any need for me to say more, except that you are an old fool for not saying you were going to spend your money and your time and reputation trying to put my halo back on straight! I doubt if I was worth it, and you knew that; but let it pass, for we have other fish to fry.

"The nubbin of the matter is this: There is only one good gold mine left in this weary world—and I have it. It's the sweetest wildcat I ever struck, and we stand the finest show in the world of staying to death if we make it without sufficient capital to

go through. It will take at least thirty thousand dollars, and we ought to have double that to play safe. I do not know whether you have, or can raise, sixty cents, but at any rate I am going to put the buck up to you and you can take a look.

"This is a pretty fair country, Jack—if you survive long enough to get used to it. At first you think it's Paradise; then you grow to hate it and know it for hell with the lid off; and finally all your early love for it returns and you become what I am now—a tropical tramp! There is only one social stratum lower than mine, and that's the tropical beachcomber. I am not that—yet; and will not be if my landlady will continue to listen to my blatherings. She is a sweet soul, with a divine disposition, and I am duly grateful.

"I would tell you all about the geography, topography, flora and fauna of Sobrante, but you can ascertain that in detail by consulting any standard encyclopedia. Governmentally the country is similar to its sister republics. It's a cold dry indeed when two patriots, two viva's and a couple of old Long Tom Springfield rifles cannot upset the Sobrante apple cart. We haven't had a revolution for nearly six months, but we have hopes.

"I am addressing you at the Engineers' club, in the hope that my letter may reach you there, or perhaps the secretary will know your address and forward it to you. If you are foot-loose and still entertain a lingering regard for your old pal, get busy on this mining concession P. D. Q. Time is the essence of the contract, because I am holding on to the thin edge of nothing, and if we have a change of government I may lose even that. I need you, John Stuart Webster, worse than I need salvation. I enclose you a list of equipment required.

"If you receive this letter and can do anything for me, please cable. If you cannot, please cable anyway. Do let me hear from you, Jack, if only to tell me the old entente cordiale still exists. I know now that I was considerable of a heedless pup a few years ago and overlooked my hand quite regularly, but now that I have a good thing I do not know of anybody with whom I care to share it except your own gential self. Please let me hear from you.

"Affectionately,
"BILLY."

Jerome finished reading this remarkable communication; then with infinite amusement he regarded John Stuart Webster over the tops of his glasses as one who examines a new and interesting species of bug.

"So Billy loves that dear Sobrante, eh?" he said with abysmal sarcasm. "Jack Webster, listen to a sane man and be guided accordingly. I was in this same little Buenaventura once. I was there for three days, and I wouldn't have been there three minutes if I could have caught a steamer out sooner. Of all the miserable, squalid, worthless, ornery, stinking holes on the face of God's green footstool, Sobrante is the worst—if one may judge it by its capital city. Are you going to chase off to this God-for-saken fever-hole at the behest of a lad scarcely out of his swaddling clothes? Jack Webster, surely you aren't going to throw yourself away—give up the sure thing I offer you—to join Billy Geary in Sobrante and finance a wildcat prospect without a certificate of title attached. Be reasonable. What did you wire that confounded boy?"

"That I was coming."

"Cable him you've changed your mind. We'll send him some money to

"Cable Him You've Changed Your Mind."

come home, and you can give him a good job under you. I'll O. K. the voucher and charge it to your personal expense account."

"That's nice of you, old sport, and I thank you kindly. I'll talk to Billy when I arrive in Buenaventura, and if the prospect doesn't look good to me, I'll argue him out of it and we'll come home. Let me go. I might come back, but I must go. I want to see Billy."

(To be continued)

When Birds Go Courting.
Many birds assume fine plumage during their courtship. In springtime this pigmentation of birds—especially the males—becomes very noticeable. Colors flush out, evident in the green wing, the blue cap and the russet breast.

Your Dollar's Opportunity

Your dollar's opportunity is now, today! Set it to work for you. Give it the task of multiplying itself. In doing so it will perform its part in the world affairs.

Every man's money should be making use of this opportunity. Farmers, for instance, can not only feed the world; through businesslike handling of their farms and businesslike handling of their incomes they can help to develop the world.

Thrift Is Patriotism

Saving is a form of serving. It is one of the biggest forms of national service—service to your country. Our first president said, "Economy makes happy homes and sound nations."

The way to start right is to start right now! Saving is as much a habit as spending or putting things off. Once formed, it is easy to continue. But unlike other habits, it is a good habit.

850 DISASTER DEATH TOLL FOR ONE YEAR

Red Cross Gives \$1,871,000 Relief When 65,000 Families Are Made Homeless.

Forty-three disasters, resulting in the death in the United States of 850 persons and the injury of 2,500 called for emergency relief measures and the expenditure of \$1,871,000 by the American Red Cross during the fiscal year ending June 30, 1921, says an announcement based upon the forthcoming annual report of the Red Cross. These disasters caused property damage estimated at \$30,000,000, affected sixty-seven communities and rendered 65,000 families homeless.

The year's disasters were of varying types, including several which previously had never been thought of as falling within that classification. The Red Cross furnished relief in seventeen fires of magnitude, five floods, seven tornadoes or cyclones, one devastating storm, three explosions, including the one in Wall street; one building accident, two typhoid epidemics, the most serious being that at Salem, Ohio, which affected 9 per cent of the population; one smallpox epidemic, in the republic of Haiti; one train wreck, the race riot at Tulsa, Okla.; the famine in China, emergency relief in famine among the Indians of Alaska, the grasshopper plague in North Dakota and an earthquake in Italy.

Pueblo Most Serious

By far the most severe of the disasters in the United States during the period covered by the Red Cross report was the Pueblo flood early in June, 1921. The rehabilitation problem confronting the Red Cross in Pueblo was one of the most difficult in recent years. When the first news of the horror was flashed throughout the country, the American Red Cross National Headquarters responded with a grant of \$105,000 for relief work. Governor Shoup of Colorado, appreciating the long and successful experience of the Red Cross in organizing disaster relief work, placed the entire responsibility for the administration of relief in its hands.

In response to appeals, from President Harding, Governor Shoup, and other governors of western states and through local chapters of the Red Cross and other community organizations, public-spirited citizens brought the total contributed for Pueblo's rehabilitation to more than \$325,000.

The terrible havoc wrought by the flood waters is a matter of record. More than 2,300 homes were affected and 7,351 persons were left homeless. Estimates of \$500,000 as an absolute minimum for rehabilitation were made by Red Cross officials in charge of the relief work.

Fast Work in Wall Street

The Wall street explosion was notable in that relief workers of the Red Cross were on the scene twenty minutes after the disaster occurred. The race riot at Tulsa also was unique in disaster relief annals in that outside of a small emergency relief fund contributed by the Red Cross, the only relief measures outside the city consisted of the service of social workers, nurses and a trained executive whose object was to assist local forces in directing their own efforts.

In decided contrast with the previous year, only one tornado assumed the proportions of a major disaster. This occurred on April 15, in the border sections of Texas and Arkansas with the city of Texarkana as the center. The significant feature of this disaster relief work was the fact that it covered so much rural territory as to make necessary a large number of relief workers.

The famine in China, necessitating relief expenditures totalling more than \$1,000,000 by the American Red Cross was by far the most serious of the foreign disasters in which the Red Cross gave aid.

Builds Up Its Machinery

In connection with the administration of disaster relief measures, an increasing effectiveness on the part of the Red Cross to deal with emergencies was manifested during the past year. In 328 Chapters of the American Red Cross there have been formed special committees to survey the resources of their respective communities and to be prepared in case of disaster. In others of the 3,402 active Chapters, a network of communication has been formed through which instantaneous relief may be dispatched to any part of the United States.

That its work in this field may be continued with ever greater effectiveness, the American Red Cross is appealing for widespread renewal of membership during its Annual Roll Call, to be conducted this year from November 11 to 24.

LIFE SAVING CORPS ENROLLMENT 10,000

Growth of Red Cross Life Saving Corps throughout the country continued unabated during the last fiscal year, a summary of the year's achievements by that Red Cross Service shows. There are now 100 Corps with a total membership of more than 10,000 members, of which 1,276 are sufficiently skilled in the work to act as examiners. Among the outstanding achievements of the Red Cross in this field during the last year was the organization at the United States Naval Academy, Annapolis, of what is perhaps the largest life saving corps in the world.

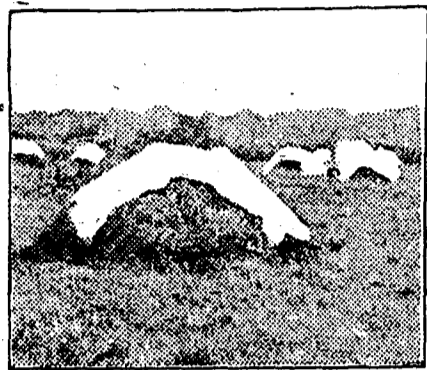

CAPS ADVANTAGEOUS IN PROTECTING HAY

Would Obviate Much Difficulty With Alfalfa Crop.

Old Methods Used in Curing Mixed Timothy and Clover Not Always Adequate for Good Grade of Alfalfa Hay.

(Prepared by the United States Department of Agriculture.)
Hay caps can be used to advantage on many farms in the eastern half of the United States, to keep rain from wetting hay in cocks, it is pointed out in Farmers' Bulletin 977 of the United States Department of Agriculture.

In the corn belt, where thousands of farmers are growing small acreages of

Alfalfa Hay, Showing Cocks Covered With Canvas.

alfalfa, and beginning to realize the great value of this crop, the use of hay caps would largely obviate the difficulty now experienced in curing the first and the last cuttings. The old methods used in curing mixed timothy-and-clover hay are not always adequate for alfalfa, and in many instances a good grade of alfalfa hay might be assured by the use of hay caps.

In the South, where the weather is rainy a large part of the time during the long haying season, the hay cap is an especially valuable addition to hay making equipment. Alfalfa, also alfalfa and Johnson grass mixed hay are cut from three to five times a year in the South, and a great deal of hay of inferior quality is made as a result of trying to cure by ordinary methods. In this section hay caps have been used to good advantage, especially with legume hay grown for market.

ESTIMATE OF LUMBER WASTE

By Careful Cutting Much Can Be Saved and Short Pieces Can Be Used in Odd Places.

Don't forget to estimate the waste in buying your lumber for building a poultry house, barn or other structure. In figuring on common sheathing add one-tenth for waste, and one-fourth for matched flooring and all kinds of siding. By careful cutting you can save much of the waste; and there are many places in a building where the short pieces can be used.

Don't buy too many nails. If you do they are almost certain to be scattered around the place, especially if there are children. Some specialists in the United States Department of Agriculture prefer wire nails as they are easier to use than cut nails, although the latter kind have greater binding power. Use 10 to 20-d nails for framing; 8 to 10-d for sheathing; 6-d finish or casing nails for clapboarding, and 8-d for siding. Four-penny nails are 1 1/2 inches long, 6-d are 2 inches, and 8-d nails are 2 1/2 inches. It takes about four pounds of 3-d nails to 1,000 shingles; 18 pounds of 6-d for 1,000 square feet, board measure, of beveled siding; 20 pounds of 8-d, and 25 pounds of 10-d for 1,000 square feet of sheathing; 30 pounds of 8-d for 1,000 square feet of flooring, and 15 pounds of 10-d, or 25 pounds of 20-d for 1,000 feet of studing.

Fruit Goes to Waste

In the total movement of fruit in this country, it is stated that at least 15 per cent of it is spoiled by carelessness or indifference in the handling of the fruit in the course of shipment.

A Grateful Letter

It is in trying conditions like that related below by Mrs. Geo. L., North of Naples, N. Y. that proves the worth of Chamberlain's Colic and Diarrhoea Remedy. "Two years ago last summer" she says "our little boy had dysentery. At that time we were living in the country eight miles from a doctor. Our son was taken ill suddenly and was about the sickest child I ever saw. He was in terrible pain all the time and passed from one convulsion into another. I sent my husband for the doctor and after he was gone I thought of a bottle of Chamberlain's Colic and Diarrhoea Remedy in the cupboard. I gave him some of it and he began to improve at once. By the time the doctor arrived he was out of danger."—Adv.

Wrong Ideas on Paint Economy

THERE'S one way to save on paint. That way is to use the best of paint.

Some think of paint economy as "cost per gallon." That is wrong. Cheap paint doesn't cover as much surface—you need more gallons.

Cheap paint is more difficult to spread, requires more labor, so the best paint costs no more when you've put it on the house than cheap paint does.

More than that, it lasts five or more years longer, if properly applied, while cheap paint on the average begins cracking in twelve months. Good paint is an investment that saves money by preventing deterioration of the house.

"Cheap" paint is the only paint that really costs you anything.

Don't allow surfaces to rot—it costs less to paint them.

We've made paints for western use for 72 years. We use pure PIONEER WHITE LEAD, pure linseed oil, zinc and color, but we mix them in scientific proportions with long-time skill.

Our white lead base must be fine enough to pass through a silk screen with 40,000 meshes to the square inch. That means covering capacity and ease of spreading. We super-purify the lead to make it "whiter," which means clear-toned colors.

The finished product on the house is a beautiful, elastic tough protective coating.

We call these paints "Fuller's Specification House Paints" because they are the very best made for the purpose.

Fuller's SPECIFICATION House Paints Phoenix Pure Paint Pure Prepared Paint

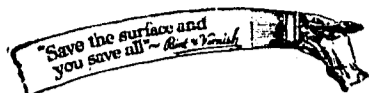

Manufactured by W. P. Fuller & Co.

"Pure Prepared" and "Phoenix" are Fuller's Specifications for house painting. Get either and you have the best that anyone can make—long service paints. WHERE TO BUY

THEM. These paints are important to you, so it's important to go to the right stores to get them. Agents' names and addresses are printed in the memo, coupon to the right. Cut it out and put it in your pocket now.

For All Exterior Jobs of Painting, it is Advisable to Secure the Services of a Master Painter

Free Advice on Painting

ASK our agent for our free advice. He will show you a color card which shows 32 shades of this desirable paint.

We have a Fuller Specification Department which will tell you all about the most desirable color schemes, color harmony and those other details you want to know.

Take advantage of Fuller House Paints. Take steps to paint now. Don't let weather depreciate your investment.

W. 1/4 of Sec. 29 and in the N. E. 1/4 of the N. W. 1/4 of Sec. 32, all being in Twp. 40, N. R. 3, W. B. M. and Lots 1 and 2 of Section 5 in Twp. 39, N. R. 3, W. B. M. in Latah County, Idaho, defendants.

The profitable production of wheat in the eastern part of the United States depends to a considerable extent on the choice of the best-adapted varieties. In general, the soft red winter wheats are grown, although soft white winter wheats are popular in the northeastern United States, especially in New York and Pennsylvania. In the extreme western portion of the eastern area, which is limited on the west approximately by the line of 30 inches of rainfall, hard red winter wheats of the Turkey type are grown. Along the line of 30 inches rainfall there is a transition zone in which hard and soft red winter wheats succeed about equally well.

Better Varieties for Many Farms. Many farmers are doubtless growing poorer varieties of wheat than they might grow if they knew exactly what was adapted to their localities and farms. The United States Department of Agriculture has just issued Farm-

tion thirty-two (32), all being in Township forty (40), North, Range three (3), W. B. M., and Lots one (1) and two (2) of Section five (5) in Township thirty-nine (39), North Range three (3) W. B. M.

Witness my hand and the seal of said district court, this 30th day of September, 1921.

(SEAL) Homer E. Estes, Clerk.

By Adrian Nelson, Deputy.

W. H. Winfree, Title Building, Spokane, Wn.

GROWING WINTER WHEAT IN NORTH

Hardier Varieties Introduced
That Give Better Yields
and Mature Earlier.

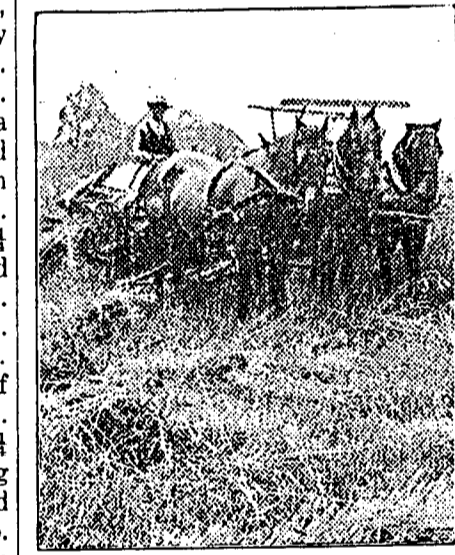

BETTER DROUGHT RESISTANT

Better Division of Labor Permits Fall Seeding and Earlier Harvesting—Careful Selection of Seed Will Aid Yield.

(Prepared by the United States Department of Agriculture.)
Since the introduction of the hardy varieties of wheat from southeastern Europe there has been a decided northward movement of the winter-wheat area. This movement has been rapid in recent years. The reasons therefor are the generally large yields of winter wheat due, first, to its earlier maturity, thus enabling it to escape hail, hot winds and disease; second, to its greater drought resistance; and third, to the better division of labor, which it allows through fall seeding and earlier harvesting.

The profitable production of wheat in the eastern part of the United States depends to a considerable extent on the choice of the best-adapted varieties. In general, the soft red winter wheats are grown, although soft white winter wheats are popular in the northeastern United States, especially in New York and Pennsylvania. In the extreme western portion of the eastern area, which is limited on the west approximately by the line of 30 inches of rainfall, hard red winter wheats of the Turkey type are grown. Along the line of 30 inches rainfall there is a transition zone in which hard and soft red winter wheats succeed about equally well.

Better Varieties for Many Farms. Many farmers are doubtless growing poorer varieties of wheat than they might grow if they knew exactly what was adapted to their localities and farms. The United States Department of Agriculture has just issued Farm-

Harvesting Wheat.

ers' Bulletin 1168, Varieties of Winter Wheat, Adapted to the Eastern United States, which charts localities in which various types of wheat can be grown to advantage, and lists the varieties adapted to each particular locality.

The bulletin suggests that there is a large local demand in New England for wheat as a poultry or stock feed, and it should not be difficult for several farmers in almost every neighborhood to sell all the wheat they can raise at a good price to their neighbors. Winter wheat will doubtless produce better average yields, where it can be grown, than spring wheat. If proper cultural methods and suitable varieties are used.

Improve Wheat Yield. Wheat can be improved in yield and in other desirable characteristics by the selection of good heads or good plants from the general field and growing the seed from each individual head or plant in separate rows. Continued selection will result in constantly improved seed. Another method of purifying a variety and increasing the yield is what may be called mass selection. This consists simply in picking out good heads from the field at large, sowing the selected seed in a small area, and reselecting it the next harvest time. The bulletin may be had on application.

Streets With Duplicate Names. London's duplication of its street names is notorious. A casual glance at the directory reveals no fewer than ten Charles streets and half a dozen Charlottes. Park street also appears half a dozen times, and Hill street only one less. Even our best known thoroughfares have their duplicates, for you will find an Oxford street in Whitechapel and a Regent street in Shoreditch.—London Chronicle.

RED CROSS GIVES ANNUAL BUDGET

\$19,361,657 Allotted for Current Program of Relief and Service.

MILLIONS FOR VETERAN AID

Medical Aid for European Children Will Cost \$6,000,000 This Year.

Washington.—Expenditures totalling \$19,361,657 for carrying through its program of relief and services in the United States and overseas are outlined in the budget of the American Red Cross for the current fiscal year. This total is more than \$5,000,000 lower than the expenditure during the last fiscal year, when the disbursements reached \$24,492,741, it is announced at National Headquarters in a statement calling attention to the necessity of continued support of the organization by response to the Annual Roll Call, November 11 to 24, if the vital work of the society is to be effectively carried on.

Outstanding among the items of the domestic budget is the appropriation of \$3,600,256 for work in behalf of the disabled ex-service man and his family. This appropriation represents the amount allotted to this work from National Headquarters only and does not take into consideration the millions being spent in chapters for relief of the World War veteran. It is in the chapter that the greater amount is spent in meeting this obligation of the Red Cross, the announcement continues, as manifested by figures of the fiscal year 1920-1921 when the total was approximately \$9,000,000, of which \$2,602,004 represented the disbursement of National Headquarters while the remainder was the chapters' contribution to this field of Red Cross service.

Vast Work for Disabled

Chief among the sub-divisions of the appropriation for work with veterans is that which concerns itself with assistance to disabled men and women in government hospitals. This item of \$1,700,000, an increase of more than \$500,000 over the appropriation for the same work in last year's budget, will provide those personal services for the disabled and their families which are indispensable to supplement those provided by the government. The director of the Veterans' Bureau has recently expressed his desire that the Red Cross should continue and extend these "humanizing services." Other items of the appropriation for veterans' relief are proportionately increased. An additional appropriation of \$469,600 has been made for Red Cross work in connection with regular Army and Navy hospitals and with the regular Army and Navy.

For disaster relief, the Red Cross has set aside for the current twelve months an appropriation of \$543,976, virtually doubling the appropriation for the same purpose for the fiscal year 1920-1921.

More than \$2,000,000 is provided for service and assistance to the 3,800 Red Cross chapters by the national organization.

Helping Destitute Children

Other items of the domestic budget include \$498,546 for miscellaneous activities, including contributions restricted for special purposes and \$768,600 for management. Each of these items represents large reductions over similar appropriations of the previous year.

From a fund of \$10,000,000, \$5,000,000 of which was contributed through the European Relief Council campaign and \$5,000,000 allotted by the Red Cross for child welfare work in Europe, there remains \$8,765,108 still available, of which it is estimated that \$6,000,000 will be required for this work during the current year. For Red Cross participation in the joint effort to relieve famine conditions in Russia, for final work in the China famine, for Junior Red Cross and other overseas activities including the closing of the old general relief program in Europe \$4,978,000 is made available.

In announcing the national budget, the Red Cross makes it clear that the figures do not include chapter expenditures or place any cash estimate on the invaluable service of volunteers in chapters.

CARRYING ON SERVICE FOR DISABLED VETERANS OF THE WORLD WAR THAT IS COSTING \$10,000,000 A YEAR, THE AMERICAN RED CROSS IS HELPING FULFILL THIS NATION'S OBLIGATION TO ITS DEFENDERS. HELP THE RED CROSS CONTINUE THIS WORK BY ANSWERING THE ANNUAL ROLL CALL NOVEMBER 11-24, 1921.

Notice of Sale

In The Probate Court of Kootenai County, State of Idaho
In the matter of the Estate of Alexander Hunter, deceased.

Under authority of an order granted by the Probate Court of Kootenai County, State of Idaho, dated September 8, 1921, I the undersigned executrix will sell at private sale the following described property:

The South half of the Southwest Quarter of Section thirty-six (36), Township thirty-eight (38), North of Range three (3), W. B. M., all of the interest of said deceased in and to the South half of the Northeast Quarter and Lots one and two (1-2) of Section two (2), Township thirty-seven (37) North of Range three (3) W. B. M., and the South half of the Southwest Quarter, the Northeast Quarter of the Southwest Quarter and the Southwest Quarter of the Southeast Quarter of Section thirty-five (35), Township thirty-eight (38), North of Range three (3) W. B. M.

The sale will be made on and after October 18th, 1921 and bids will be received at the office of Bert A. Reid, Coeur d'Alene, Idaho or at the office of the Probate Court, Coeur d'Alene, Idaho or at the residence at Coeur d'Alene, Idaho of the undersigned executrix herein. The terms of the sale will be cash upon confirmation of sale by the court, or part cash and the balance to be secured by a first mortgage on said real estate.

Katherine Hunter, Executrix of the Will of Alexander Hunter, deceased. 39-3t

They Call It Thinking.

"Think for yourself," said President Lowell—and this country is, in fact, precisely the place, where everybody not only thinks for himself, but for everybody else.—Boston Transcript.

Cleaning.

Can You Beat It!

No better vacation motto has been devised than that of which Pliny reminded Tacitus: "Better be at leisure than at nothing."—Boston Herald.

News Items of Local Interest

Can Jones of Big Bear ridge will hold a public sale at his place Monday, October 10. He expects to quit farming and try some other line.

Mrs. Katherine Kelley, who is teaching at Summit, Idaho, spent the week end here with her brother, John Reid.

B. C. Johnson of Clarkston was in Kendrick last Saturday on business. He is selling accident insurance.

Mr. and Mrs. Leo Raaberg spent the week end in Clarkston with relatives.

A report came from Lewiston the first of the week that Mrs. Charles Thornton was ill there with typhoid fever. She contracted the disease near Genesee and was taken to the Lewiston hospital.

The fall term of the second judicial district court for Latah county will be opened Monday, October 10, by Judge Steele.

A sale of two million dollars worth of state highway bonds was made October 1. They are 5 per cent semi-annual, 20 year bonds.

Kester Dammarell and Cecil Chamberlain, who are attending the state university at Moscow, spent the week end here with home folks.

Mr. and Mrs. Wm. Rogers and family and Mr. and Mrs. Carl Wegner spent Sunday in Moscow with relatives.

The Latah county commissioners will meet at Moscow next Monday in their regular quarterly session.

Little Evelyn Housely, who was run over by an automobile last Friday afternoon, is recovering rapidly and will be as sound as ever as soon as the fractured bones in her ankle knit.

A. V. Dunkle spent Sunday in Lewiston visiting his father.

C. G. Compton began drying prunes the first of the week. He is using a dryer near Cameron. The prunes got too ripe to ship, last week.

Mr. and Mrs. George Leith and daughter, Clarice, and Mr. and Mrs. O. E. MacPherson drove to Moscow last Sunday to spend the day.

G. A. Wayland was a Moscow visitor Tuesday afternoon.

W. M. Evans will hold a sale at his place on Tuesday, October 11.

Mr. and Mrs. Richard Winegardner of Leland were shopping in Kendrick Tuesday afternoon.

Waldo Thompson of Lewiston, who was employed several years ago by the Kendrick Furniture Co., as cabinet maker, was married last Saturday Miss Margaret Lewis, also of Lewiston.

Mrs. French of the French Shop, as announced last week, expects to leave for Spokane about October 15, to spend the winter. Her son will attend school there. Mrs. French expects to return in the spring.

Rev. H. H. Mitchell of Moscow will hold services at the Presbyterian church here Sunday evening at 7:30. Everyone is cordially invited to attend.

Little Miss Eleanor Lutz went to Lewiston the first of the week to visit her grandparents, Mr. and Mrs. W. C. Brooks.

An Indian named "Man-afraid-of-nothing" married a white woman in Wyoming. After his second week of married life he applied to his tribe to have his name changed.

Phillip Lettenmaier, formerly of Southwick but now night clerk at the Moscow Hotel, was married Tuesday to Miss Joe Harris of Moscow.

Dr. J. T. Moser of Lewiston was transacting business in Kendrick Tuesday.

H. N. Nelson of Clarkston was transacting business in Kendrick Wednesday.

Potlatch canyon was full of smoke Thursday morning, due to the fire in the pole yard at Bovill. A big loss was sustained from the fire which destroyed immense piles of cedar poles.

Reports at a late hour yesterday afternoon were to the effect that M. Bleck was in a very critical condition. The greater part of this week he has been but partially conscious and was growing noticeably weaker from day to day. He has suffered greatly during the past few months and his rugged constitution and careful nursing are all that kept him alive so long.

Born to Mr. and Mrs. Richard Blankenship, of Leland, Tuesday, a girl.

Charles McKeever received an inquiry this week from Yakima relative to the purchase of from 100 to 200 tons of Netted Gem potatoes for seed. It isn't likely, however, that this community will have that many seed potatoes to sell.

The Ladies Aid of the Presbyter-

ian church met in the basement of the church Wednesday afternoon.

N. Brocke states that a new cement sidewalk will be started next week along the side of the Fraternal Temple building. T. H. Sturdevant has the contract of putting in the walk.

Mr. and Mrs. G. M. Lewis drove down from Coeur d'Alene yesterday for a short visit with friends and relatives. They expect to return today.

Charles McKeever, chairman of the Get-together Club, received word from the Ellison-White Chautauqua Co. that the contract for Kendrick's chautauqua, signed by 54 people of the community, had been accepted.

The Kendrick band had a good meeting Monday evening and received much benefit from the instruction given by Bandmaster Thomas. It is to be hoped that there will be a full attendance at every rehearsal as it is most important to have all members present to get the band thoroughly organized.

The first of the week Doc Van Wert was exhibiting two elephant's teeth which he had clipped from the jaws of an unfortunate horse. Just why teeth of such magnitude should grow in the jaw bone of a horse is past understanding. They had worn off the opposite molars even with the jaw bone and were beginning to cause the horse a great deal of pain. Two other vets had, on different occasions, attempted to cut the teeth off by means of molar clippers, but were unsuccessful. Scars on the enamel of the teeth were all that resulted. Van Wert has the teeth and he told how he got them out, but that part of it is a secret.

Cap. Carleton of Tacoma made a brief visit here with friends Monday. He lived in Kendrick a good many years, leaving here about seven years ago to make his home with his daughter, Mrs. Wm. Crews. Mrs. Carleton died about a year ago. Wm. Crews used to run the barber shop here a number of years ago. He has done well financially in Tacoma where he owns considerable property.

A report comes from Peck to the effect that Stuart Compton is busy moving the stock of goods from the store there, to a new location at Orofino. A much larger stock of goods will be carried in the new store than at Peck. Stuart is managing the store for a banker who lives at Wenatchee.

Mr. and Mrs. Charles Watson arrived Wednesday afternoon from Dixonville, Oregon, to visit old friends for a short time. They went to Cameron for a brief visit with some of their former neighbors. Mrs. Watson's mother, Mrs. Mary Willoughby, died September 25, at Dixonville, at the age of 80 years. The body was taken to Albion, Wash., for burial.

Crescent News

Mrs. C. T. Mulkey and daughter, Clara, were visitors, at the Israel home Wednesday.

The farewell dance at W. Knight's last Friday night was well attended.

The surprise dinner at the home of Mr. and Mrs. Clinton Wright, Sunday, was well attended and all reported a good time.

Mrs. Dick Winegardner returned home Sunday from Leland where she spent a few days with relatives.

American Ridge

Earnestine Callison spent the week end at home with her father and brother. She is attending school in Moscow.

Byard Davidson was visiting on the ridge last Saturday.

Mrs. Bigham and son, Walter and Pete and Walter Benscoter, took rides in the airplane Thursday at the fair in Troy, and were much delighted with their experience up in the air.

Mr. Benscoter's Jenkins club wheat won the blue ribbon at the Troy fair. Many on the ridge now have this fine grade of wheat due to his careful selection and growing of same. The Bethel school, of which Mrs. Taylor is teacher, won the silver cup for the best display.

Mr. and Mrs. Dougherty of Julietta were visitors on the ridge, Tuesday.

Harry Langdon had his beans threshed the middle of this week.

Clarence Dougherty purchased three registered Duroc Jersey pigs at the fair last week.

Don't forget the election of Sunday school officers next Sunday. Come and help fill the vacant seats.

We Wouldn't, You May.

At a Chicago clinic the other day a lad's head was operated on to make him a better boy. "Would you call the gathering a weak-end party?" inquires Alice.—Boston Transcript.

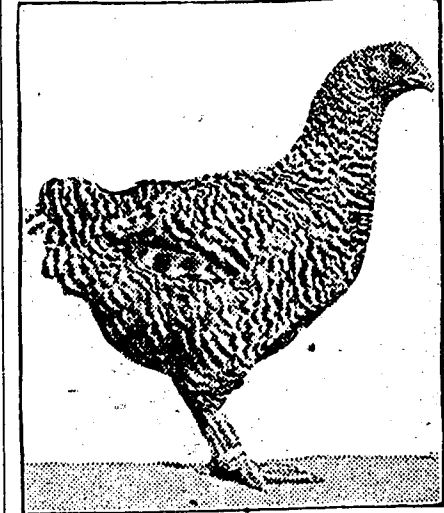

WELL-BRED POULTRY AROUSING INTEREST

Poultrymen Help Better Sires—Better Stock Movement.

Nebraska Live Stock Owners Enrolled in Campaign Report Standard-Bred Fowls—Plymouth Rocks and Leghorns Lead.

(Prepared by the United States Department of Agriculture.)

In the absence of census data on the quality of farm poultry, information being received by the United States Department of Agriculture in connection with the Better Sires—Better Stock movement is believed to be of interest to poultrymen. For instance, 75 livestock owners in Webster

Barred Plymouth Rock.

county, Nebraska, who in one day enrolled in the better sires drive, 65 reported standard-bred fowls. The flocks averaged 94 birds. The principal breeds reported are, in the order stated, Plymouth Rocks, Leghorns, Rhode Island Reds, Orpingtons and Wyandottes. Barred Plymouth Rocks were more numerous than other varieties in the breed. Of the Leghorns the White Leghorns were raised in largest numbers, while of the Wyandottes the white variety was somewhat more popular than the Silver-Laced Wyandottes, which were second. But Orpingtons were the only variety of that breed reported.

The facts stated are believed to show interest in the keeping of well-bred poultry, especially since the Better Sires—Better Stock blanks merely call for the number of poultry kept; and in all cases the live-stock owners volunteered the facts about breeds and varieties. It is also noteworthy that, whereas the better-sires drive is aimed chiefly at the improvement of breeding males, in the case of poultry a large majority of females likewise are standard bred.

Sports in Old English Park.

Evelyn and Pepys mention the horse and foot races that frequently took place in Hyde park. Pepys records how he went with "Mr. Moor and Mr. Creed to Hyde park, by coach, and saw a fine foot race three times round the park, between an Irishman and Crow, that was once my Lord Claypole's footman." This was followed by a horse race, and in the interval the humble spectators partook of "milk of a red cow," and the quality sipped siliabub with sack in it. The ladies wangled senlet stockings and Spanish scented gloves on their favorite steeds.

Oyster Dinner

Tomorrow night, (Saturday) the ladies' aid of the Methodist church will serve a real oyster dinner, one that you will remember for a long time. Not oyster soup but oyster dinner. Serving will begin at 6 o'clock and prices are 50 cents for adults and 35 cents for children. A "feed" worth twice the price. Come to Epworth hall and fill up. 40-1t

Coming Again
