

GOOD PROGRAM FOR LOCAL CHAUTAUQUA

Dates Set For June 20 to 24 Inclusive.

The dates for the Kendrick Chautauqua have been definitely set for June 20 to 24 inclusive.

The outstanding number in the entertainment field will be the production of "Happiness" which will be given by the Elias Day Players of Chicago. Mr. Day is one of the best known actor producers of the middle west, and the announcement of his name as producer is in itself a sufficient guarantee of a standard attraction in every sense of the word. "Happiness" is one of the most discussed plays of the decade. There is a human element running throughout the play which gives it a universal appeal. It is clean, sweet and wholesome, just the sort of a play you would want your own family to see. It has to do with the ambition and the dreams of an uneducated, yet bright, shop-girl. There is abundant humor and pathos interwoven, and a delightful love story running throughout the play.

It is a safe prediction that the Garner Jubilee Company and Mate Quartet will draw tremendous crowds at Chautauqua. The Garner organization is conceded to be the finest of its kind in America.

The Biltmore Orchestra, a group of middle western artists bring to chautauqua a distinct departure in chamber music interpretations. The Biltmore play not only the classical numbers but popular numbers as well, and they never fail to please. They were a sensation on one of the eastern circuits last summer, and come to the west with the best recommendations.

The Loren Bates Company and the Patricia Trio are two the musical entertainment companies which will meet with popular favor. Loren Bates is a clever young characterist who specializes in "wig and grease paint" work. Miss Leatha Shriber, soprano, and Miss Helen Smith, pianist, are capable assisting artists to Mr. Bates. The Patricia Trio is built around Miss Patricia Hale, dramatic soprano and possessor of a glorious voice, whose work in the east has attracted wide attention.

Among the lecturers noted on the program are Dr. William E. Bohn, for fifteen years an outstanding educational figure of the east, who gave up his professorship at the University of Michigan to enter the larger field of instruction in the "Peoples University." His address in Chautauqua is to be "America Among The Nations," a sane discussion of some of the problems and responsibilities that we Americans are facing today. Also should be mentioned Judge Geo. D. Alden, eminent barrister and former Massachusetts Jurist, a man of brilliant intellect and platform talents, who gives his lecture classic "The Powder and the Match" on the third night. "The House We Live In" will be the inspiring lecture given by Virgil I. Shepherd. Mr. Shepherd is a gitted California writer and lecturer who is fast coming to the front in the Chautauqua world. The Junior Chautauqua, as usual, will be a big feature, and already there is considerable interest manifested among the children of the city.

A Hebrew and an Irishman were fishing in separate boats some distance apart. The Irishman got a bite, and was so nervous that he fell out of his boat. He sank twice, and as he came up the second time, the Hebrew rowed over and called out: "Mister, can I have your boat if you don't come up again?"—Ex.

Floyd Walker, local real estate dealer, stated this week that he had answered over a hundred inquiries from prospective land buyers, who were seeking information concerning North Idaho land.

Carlile Challenges

D. E. Carlile, athletic director of the Kendrick high school, writes that he is anxious to get a match with McTarnahan. He is a middle weight wrestler and is confident that he can defeat Mac, having trained under the bantam weight champion of the world. Mr. Carlile writes as follows: "I hereby challenge McTarnahan to a match to be held in Orofino or any other place he wishes to wrestle".—Clearwater Tribune.

McTarnahan has accepted the challenge and the match will be held at Orofino, May 27.

LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns of Neighboring Papers.

While out squirrel hunting Thursday, Ernest Chaney was the victim of a peculiar accident. He had not been feeling very well and went out to the home of his sister, Mrs. Tom Walker for a visit. When away from the place he spied a tin can and took a shot at it. The can contained explosives of some nature and the explosion which followed the shot nearly caused Ernest his life. It is thought that being in a sitting position is all that saved his life. He was near the Holland place and the explosion was heard by his sister, Mrs. Harry Arneberg, who thought it was someone blasting. He was brought home and attended by Dr. Nelson, who took out four pieces of tin that were imbedded in the flesh. He received a cut in the forehead and thigh and several minor scratches.

Deary Press: Did you salute the logger last Tuesday morning as it roared by, on its way to the timber, for the first time for months? It was a mighty pleasing sight, and as Helm, the engineer, approached the crossings and towns he tore loose with whistles that shook the hills, showing that he and his giant chooch bus were in a rejoicing mood with the rest of the Potlatch country. It is said that after May 15 the Potlatch mill is to run 24 hours a day, sawing 60 cars of logs daily.

LIVESTOCK MEN TO MEET AT LEWISTON

Will Organize a Five-County Association.

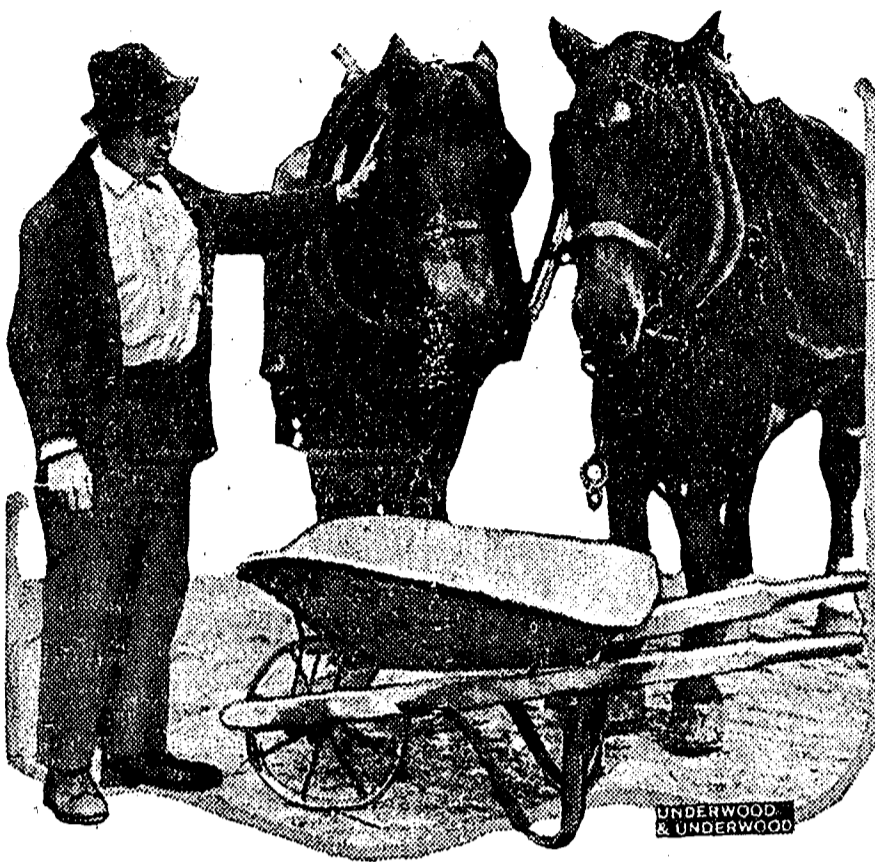

The farmers-breeders of registered livestock will meet in Lewiston on Saturday, May 20, for the purpose of organizing a five-county association. This plan was conceived by Edwin Nelson, well known farmer-breeder of Penn, and he is being assisted in the promotion of the plan by the Lewiston Commercial club and the Lewiston office of the State Department of Agriculture.

The purpose of the plan is to conduct annual sales of registered livestock grown upon the farms of the central Idaho counties and through this co-operative plan to build up an institution that will attract buyers from all sections of the Inland Empire. Notices have been sent out to a large number of farmer-breeders of the district embraced but the meeting is open to all breeders of registered livestock and a big meeting is expected.

The plan also provides for conducting an all-year clearing house at Lewiston where the breeders can register the sale stock on hand so that the Lewiston office can furnish inquirers with the names of the member-breeders having the stock on hand that is desired.

Mr. and Mrs. E. B. Bechtel went to Lewiston the first of the week for a short visit with the Moser family.

Yardman Is Now Director

John W. McElroy, yardman of the Philadelphia Rapid Transit company at his work. McElroy was recently elected a director of the company.

NEWS NOTES FROM KENDRICK SCHOOLS

Tickets on Sale for the High School Play

Tickets for the high school play "When a Feller Needs a Friend" are now on sale and going fast. People living in the country may make reservations by phoning the Red Cross Pharmacy. Only 250 tickets were printed, so be sure of seeing the play by getting your tickets early.

Preparations are in progress for the May Festival to be held on the Park green on May 25th.

The 4th grade has a spelling contest on for the last month of school and so far only four words have been missed.

The attendance in the 3rd and 4th grades is much better this month than for some time. Eighth grade state examinations are being given this week, Mrs. McConnell acting as examiner. Several children from the ridge schools are taking the examination here.

Physiology and geography were the two state examinations taken by the seventh grade Wednesday.

The fifth and sixth grade Girls' Sewing Club displayed some very nice pieces of hand work, Wednesday afternoon.

Commercial Clubs to Meet

The organization of the federation of commercial clubs of the central Idaho and southeastern counties will be held next Tuesday, May 16, at Lewiston. The meeting will be called to order at 2 o'clock in the afternoon and each club has been asked to be prepared to present at least one project in order that a workable program for the six-months period may be adopted.

The advices from Lewiston are that practically every commercial organization of the region embraced has expressed a deep interest in the proposed federation and will be represented at the Lewiston meeting.

This organization is proposed to work entirely upon regional programs and such projects as may be largely local in character but at the same time have an important bearing on regional development. It is proposed to hold meetings every six months and a regular bulletin service will be maintained so that all members may be fully advised at all times as to the progress of the work undertaken.

According to tabulations announced by the registrar's office of the University of Idaho, women out-classed men in scholarship last semester by quite a large margin of points.

PLEAD GUILTY TO BURGLARY CHARGE

Four Sentenced For Burglarizing Long's Store.

Star-Mirror: Pleas of guilty have been entered by the four men charged with burglary of the Long & Sons store at Kendrick and Judge E. C. Steele has pronounced sentence upon the men. The are men now being held in the county jail pending the arrival of a guard from the state penitentiary at Boise. Frank Koenig, with a bad record behind him, was sentenced to imprisonment in the penitentiary from six to 15 years. Koenig is 26 years of age and has served time in the Washington state penitentiary at Walla Walla and the Monroe reformatory in Washington.

Fred Carpenter, 19 years of age and the youngest of the quartet, received the lightest sentence, that of from one to 15 years in the penitentiary. Neil McIntyre, 58 years of age, and Phillip Reilly, 22 years of age, were each sentenced to from 18 months to 15 years.

The men have been held in the county jail for some time pending the jury trial of court in June. They all waived their preliminary hearings and entered pleas of not guilty before the district court. They subsequently changed their pleas to that of guilty.

The four men entered the Long & Sons store at Kendrick and took general merchandise consisting of canned goods, clothing, shoes, and tobacco. They were arrested a day later on the Clearwater branch of the Northern Pacific railroad by Sheriff John L. Woody and Deputy Sheriff Summerfield.

Pleasant Birthday Party

Nearly one hundred and fifty persons met at the home of Mr. and Mrs. Keopp last Friday evening to help celebrate her fiftieth birthday. As Mrs. Keopp is noted for knowing how to entertain big crowds and also for serving good things to eat, this time was no exception to the rule.

The evening was spent in a social way. Music was furnished by the Bear Ridge orchestra. At 11:15 a lovely lunch was served after which all departed for their respective home wishing Mrs. Keopp many more happy birthdays. She was the recipient of many nice and useful presents.

Between 50,000 and 75,000 sheep will be grazed in the national forests of the Clearwater district in excess of previous quotas. This is rendered possible as the result of increased trail construction which has rendered accessible large areas of old burns where quantities of forage are available.

Democratic Convention

The democratic state central committee selected Hailey as the place for holding the state nominating convention on August 22. The selection was made Wednesday. Thirty out of the forty-four counties of the state were represented at the committee meeting.

State Chairman Pope recommended that the democratic party abolish the commission form of state government; cut all appropriations to the bone; abolish the state constabulary; restore the direct primary; pass a law guaranteeing deposits in state banks; put into operation the initiative, referendum and recall.

LOCAL OIL STATION IS NOW ASSURED

16,000 Gallon Gas Tank Arrived Here This Week.

E. G. Roell, district superintendent of the Continental Oil Co., Butte Division, was in Kendrick the first of the week making arrangements for the installing of an oil station on the property which they recently purchased here. The station will be located along the railroad on the old Freytag lots, several blocks west of the Kendrick Roller Mill.

Mr. Roell stated that he expected to have the oil station in operation not later than the first of June. One tank with a capacity of 16,000 gallons, which is already here, will be installed immediately and later on another of the same capacity will be put in. He also stated that the company will build a warehouse for handling all kinds of petroleum products.

It is expected that Juliaetta, Leland, Southwick, Cameron and other smaller distributing points will be supplied from this station. A large tank mounted on a truck will be used to take oil to the surrounding towns.

T. H. Sturdevant has been appointed to take charge of the station here. He will be the local representative for the company and have entire charge of this territory.

Mr. Roell stated that the local freight rate from Lewiston here would be practically eliminated, which will mean considerable reduction in the price of gasoline in this territory.

PARENT-TEACHERS ORGANIZE HERE

Great Interest is Shown by Large Attendance.

Those attending school on visitor's day, Wednesday, were well pleased with the displays of work being done.

Gathering in the domestic science room, those present were delightfully served with tea and wafers by Miss Dirks and her class of young ladies. Mr. Daniel then gave a very earnest talk on the co-operation of the parents and teachers, after which he called for an open discussion. This led to the organization of a Parent-Teachers Association with the election of the following officers: President, Mrs. Ralph B. Knepper; vice-president, Mrs. Leo Raaberg; secretary-treasurer, Mrs. G. G. Oldfield. The president appointed the program committee as follows: Mr. Daniel, chairman; Mrs. Rogers, Miss Dirks, Mrs. Herres, Mrs. Hanson.

The suggestion that a meeting be held at 3 o'clock, Friday afternoon, May 19th, at the school house, was adopted. Everyone urged to be present at that time.

Prominent citizens of Moscow are agitating the construction of a natatorium to cost approximately \$30,000. To raise funds will require a bond election giving the city council power to issue bonds for the required sum.

FAMOUS ARTIST TO APPEAR HERE

Noted American Violinist at New Kendrick, May 17

Kendrick music lovers have a very rare treat in store, an opportunity to hear one of America's noted violinists, Mr. Josef d'Havarda. The appearance of this artist will take place at the New Kendrick Theater next Wednesday evening, May 17. With Mr. d'Havarda will appear Miss Elsa Petersen, a pianist and accompanist well known throughout the Northwest. The program which Mr. d'Havarda and Miss Petersen will present promises to be one that will appeal to all, such numbers as "Humoresque", "Swanee River", and many of the old songs loved by all will occupy a large part of the evening. As to the technical feats performed by Mr. d'Havarda on his \$3000.00 violin, the following excerpts will express the tributes from foreign and American leading music critics:

"Mr. d'Havarda, studied with the best masters of Prague Conservatory of Music, in Prague, Bohemia (Czecho-Slovakia) including, Ferdinand Lachner and the world renowned Maestro Otakar Sevcik, and was one of the leading pupils of the violin class. This school is famous the world over for the high quality of musicianship it exacts from its graduates. A successful European tour was the crowning episode of his work abroad."—Chicago Evening Post.

"Mr. Josef d'Havarda, American violinist, by special permission from the commanding general of the 88rd American Division, was the assisting artist on the occasion of the Soiree de Bienfaisance (Manifestation Franco-Americaine in memory of La Fayette and Wilbur Wright) at the Salle Municipale Des Concerts. Mr. d'Havarda played the Faust Fantasie by Wieniawski, which proved especially adapted to his style. A very gifted young artist, with a beautiful tone, fine technique and exquisite interpretation, his playing was a rare treat."—L'Hermitte, Journal du Mans, Dec. 22, 1918, Le Mans, France.

"He plays with genuine feeling and brilliant technique."—Spokesman-Review, March 26, 1920.

Tickets for this concert may be purchased in advance at the Kendrick State Bank or at the box office of the New Kendrick Theater the evening of the concert. Admission will be 55 cents for adults and 30 cents for children.

Bovill Took The Game

Last Sunday one of the wettest ball games ever played on the local diamond was pulled off for the full 9 innings. The diamond was a sea of mud and a steady downpour of rain continued to make it worse. Notwithstanding the unfavorable weather conditions, if half of two innings could have been eliminated, it would have been a good game. As it was, Bovill blew up in the second, allowing Kendrick to run in 6. This wasn't so bad, but when in the first of the ninth, Bovill got 7, it almost ruined the game. The final score was 13 to 9 in favor of Bovill.

Perryman played his first game of the season on second, and was one of the most consistent players on the team. Herres caught the entire game with credit to himself and the team. "Gabe" Forest on first was a howling success. He handles that position just right. The outfield played without an error.

Batteries: Kendrick, Herres and McCrery; Bovill, Evans and Stockwell. Hits allowed: McCrery 5; Stockwell, 7 Struck out: McCrery 5, Stockwell 6. Walked: McCrery 11, Stockwell 2.

Tom Long attended the district convention of the American Legion, held at Lewiston last week.

She'll Like this Shirt Of Course

Whether the wife helps you pick it out or not, she'll certainly like the shirt you choose from our stock of

Beau Brummels

A Real Combination of Style and Comfort

She'll like its style, its crisp fine fabrics, its attractive coloring. And besides— She will notice fine details of workmanship, the finish at cuffs and buttonholes, the perfection of making, the careful fit which assures you absolute comfort.

And because she will find in Beau Brummel shirts materials of real quality and durability as well as good looks, she'll give them her unqualified approval.

Marshall Neilan presents his story

"DINTY"

Six reels of mystery, drama, romance, laughter and thrill! Big cast of favorites headed by

Wesley Barry

Held captive by the Chinks—the district attorney's fiancée. Spirited away to Chinatown, sought for by police and detectives in vain. Then Dinty, freckled head of the Newsboys' Trust, butted in—and things whizzed!

Leaves a trail of mystery, drama, comedy and thrills you won't want to forget. Enacted right in the heart of Frisco's Chinatown!

Those who saw Dinty in our first picture "Go and Get It" will surely want to see HIM starring in this whirlwind of laughter and thrills.

Lumbago

This is a rheumatism of the muscles of the back. It comes on suddenly and is quite painful. Every movement aggravates the disease. Go to bed, keep quite and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. F. J. Dann, Brockport, N. Y., writes: "I can honestly say that Chamberlain's Liniment cured me of lumbago a year ago last summer. When I began using it, I was flat on my back in bed and could not turn to the left or right. I had a bottle of Chamberlain's Liniment in the house and this was applied to my back. It promptly drove away the pains and aches."—Adv.

One of the best attractions of a decade will be the entertainment offering at the New Kendrick next Friday and Saturday, May 19 and 20. It is "Dinty", in which Marshall Neilan presents Wesley Barry, the freckle-faced boy actor, in the first starring vehicle of his youthful career. It is the tale of a fighting newsboy, who has an old Irish mother to support. Among the unique characters who appear in support of Wes Barry as "Dinty" O'Sullivan are a Chinese youngster and a jolly pickaninny. Romance, pathos, humor and thrilling adventure makes this one of the most extraordinary cinema productions ever filmed. Wesley Barry's smile, freckles and inimitable acting made him famous in "Go and Get It," but his crowning achievement has undoubtedly been made in "Dinty". It is a motion picture triumph and cannot fail to delight every man, woman and child who will see it. "Dinty" has received the enthusiastic endorsement of critics throughout the country. "Nut sed."—Adv.

The newly elected president of a banking institution was being introduced to the employees. He singled out one of the men in the cashier's cage, questioning him in detail about his work, etc. "I have been here 40 years, said the cashier's assistant, with conscious pride, "in all that time I only made one slight mistake. "Good", replied the president. "Let me congratulate you. But hereafter, be more careful!"

Subscription \$1.50 a year.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

The organization of a Parent-Teachers Association in Kendrick, Wednesday afternoon, is a most gratifying expression of public interest in the local schools. The association can be made extremely valuable by co-operating with the teachers and members of the school board. This organization presages the awakening of a keener interest in school affairs for next year.

The Clearwater Tribune, published at Orofino by Messrs. Hamilton and Johnson, made its initial appearance last week. It is a combination of the Clearwater Republican and Orofino Tribune and if kept up to its present standard will be much more of a credit to Orofino than the two other papers were. It is a six-page home print, independent newspaper, with a splendid opportunity for a prosperous future.

Husbands are never more than 50 per cent perfect. The good provider is a poor companion, the good companion is a poor provider. If a husband is a good gardener, he will not wash dishes or do his bit with the family laundry. If he is willing to refinish 2nd hand furniture, he is a dub at a card party. If he is a general host, he never stays at home. If he is a bear, you can't drive him from his own fireside.—Ex.

CONSIDER THE WISDOM OF ROBINSON CRUSOE

With this opening sentence a magazine makes some interesting comments about the man who was cast on the Island of Juan Fernandez. Alone, with nothing but the raw materials of nature about him he clothes himself, feeds himself puts a roof over his head, accumulates property, lives happily, builds a merchant marine out of a hollow log, and finally establishes communication with the rest of the world, to its profit and his own.

How did he do it? By hard work; by foresight; by self-denial. Crusoe had to work or starve. He had to look ahead else his work would be labor to no purpose. And he had to deny himself some enjoyment of the gains of the day or he would starve on the morrow.

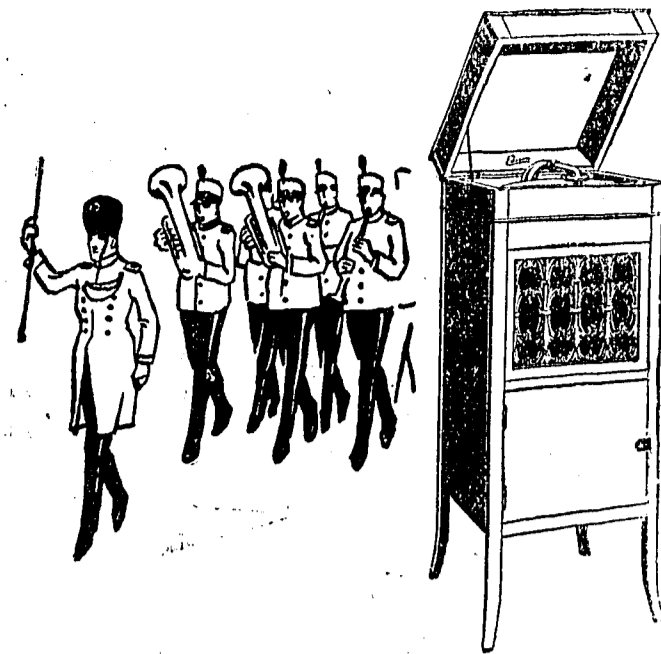

The world is only Crusoe's island on a bigger scale and with more people on it. Today it is a lot nearer the condition Crusoe found it in than it was seven years ago. If Crusoe had ever dared to be foolish, he certainly never would have had any illusions about what he had to do afterward. If a cyclone had razed his hut, ruined his crops, and sunk his canoe, he could have seen clearly enough that he had to go right back to work, harder than ever, deny himself luxuries that he had become accustomed to, and look keenly ahead to the future.

The most illuminating bit of this comment comes when Crusoe discovered Friday, and he realized that after all he was not "monarch of all he surveyed." He did not dispute with Friday about the title to the island, or try to kill him for the sake of undisputed possession, but promptly got him to help him do the work that needed to be done. Together, they found that two men could do three times as much work as one, and the state of civilization upon the island of Juan Fernandez advanced apace, and both men were better off than before.

Can we be as wise? Crusoe had good sense and good will. Little more than these virtues is needed. Add to these Crusoe's other virtues of industry and thrift, and civilization yet may be made safe for mankind.—Selected.

There is some question whether a garden makes any money, but it certainly is a fine subject for the city editor to write about.

Working of True Love. Put a seal upon your lips, and forget what you have done. After you have been kind, after love has stolen forth into the world and done its beautiful work, go back into the shade again and say nothing about it. Love hides even from itself.—Professor Drummond.

BAND MUSIC

coming from the "New Edison" is so perfect that it is impossible to distinguish it from the original playing of the band.

The above pretentious model costs only \$145, and records, which, by the way, are twice as long as ordinary phonograph records, cost but \$1.00 for two selections.

The average home can hardly afford not to possess this wonderful instrument. We invite you to come in for a demonstration.

KENDRICK FURNITURE Company

JOSEF d'HAVARDA

Noted American Violinist

At the New Kendrick, Wednesday, May 17

POULTRY

ANIMAL FEED IS IMPORTANT

Meat Scrap, Milk and Its Products, Tankage or Fish Scrap Increase Egg Yield.

(Prepared by the United States Department of Agriculture.)

A great increase in our annual egg production may be expected when poultrymen and farmers in general recognize the importance of animal feeds in the rations for the laying flock. The demonstration of the superiority of feed combinations containing meat scrap, milk and its products, tankage, or fish scrap is one of the most valuable additions to our knowledge of poultry management contributed by the United States Department of Agriculture and various experiment stations.

Practically all experimental tests have shown that these feeds will greatly stimulate egg production, especially during the fall and winter months. The fact that many farmers get no eggs at all during this period may usually be attributed to a lack of essential animal feed. The addition of from 10 to 25 per cent of one of those named would in most cases make a remarkable difference. Which one of these feeds should be used depends upon local conditions and prices. They are of about equal value when the protein content is taken into consideration. The fish meal and tankage have given just as good results as meat scrap. Milk is just as good when available at a low cost, and fresh buttermilk and skim milk produce good results. In some sections condensed buttermilk and semi-solid buttermilk have been fed with success.

In a test extending from November 1 to July 10 on the government farm

Hens Need Animal Feed to Make Big Egg Returns.

at Beltsville, Md., 30 hens on a ration without meat scrap or any animal feed averaged 74 eggs each. Another flock of 30 hens of the same breed during the same period laid an average of 113 eggs each, the difference of 39 eggs being attributed to the ration which contained meat scrap. Both flocks were out on range whenever the weather was favorable, which made the difference less than it would have been had the birds been kept in pens. In a test made by Purdue university agricultural experiment station animal feeds were shown to have a decided value in the ration of laying hens and pullets. The pullets fed skim milk averaged 140.2 eggs in a year; those fed meat scrap, 135.9 eggs, and those in the check pen that received no animal feed of any kind laid an average of only 61.2 eggs.

It has been shown that it is impossible to judge the value of a hen as a layer unless she has been fed a ration that would give her an opportunity to demonstrate her capacity. Pullets that have not yielded profitably because of a ration lacking in animal matter have become profitable layers when the defect in the ration was corrected.

CARE FOR INCUBATOR LAMPS

Some of Principal Reasons for Smoking Are Improper Trimming and Poor Oil.

Guard against smoking incubator lamps. Not allowing for wick to creep up as it warms, not fitting lamp shade tightly, improper trimming of wick, filling lamp too full, direct draft on lamp and poor grade of oil are the principal reasons for smoking. All of these can be avoided by care.

SEEK CONSTITUTIONAL VIGOR

Good, Strong Birds Are of Great Importance in Building Up Flock of Heavy Layers.

Constitutional vigor is most important in building up a flock of heavy layers. No bird should be used for breeding which ever has been sick. Good, strong, vigorous birds may be used for a number of years; longevity is a real test of constitutional vigor.

BEST GEESE FOR BREEDERS

Usually Waste of Time to Try to Dispose of Old Fowls—Keep Them for Breeding.

Old geese do not sell well in market, and it is usually a waste of time and money to attempt to so dispose of them. Keep the old ones for breeding purposes, as they will be serviceable for from ten to twenty years, and then sell the young ones at market.

TESTING SUGAR-BEET SEEDS FOR IMPURITY

Heavy Losses to Growers During Past Two Years.

Bureau of Plant Industry Conducting Experiments in Florida to Determine Presence of Mangel Wurzel Seeds.

(Prepared by the United States Department of Agriculture.)

Because of the heavy losses experienced by beet sugar companies during the past two years through the presence of mangel wurzel, or stock beet seed in the imported sugar-beet seed, the bureau of plant industry of the United States Department of Agriculture is making growing tests of samples of such seeds. The tests are being made in Florida in the open air. Lots of imported seed have been sent by beet-sugar companies for test.

Loading Beets for Shipment to Factory at Owosso, Mich.

ing. When any of these samples are found to contain stock beet seed, the growers will be notified before planting time.

Similar tests made in the greenhouses during the past year made possible the location of mixtures containing stock beets of red, or orange-colored varieties. It has been found that white-fleshed varieties of stock beets cannot be determined through germination tests alone but must be grown to a considerable size before their distinguishing characteristics are discernible. That the heavy losses experienced during the past two years due to this cause constitute a strong argument for the development of an American-grown supply of sugar-beet seed, sufficient for the needs of our beet industry, is the belief of the officials working on the problem.

Theology and Song.

Next to theology, I give to song the highest place and honor; and we see how David and all the saints have wrought their godly thoughts into verse, rhyme, and song.—Luther.

**WILD BIRDS DESTROY
INJURIOUS INSECTS**

Worth at Least \$400,000 Annu-
ally to Farmers.

Establishment of Community Refu-
ges Throughout Country Is on In-
crease—Useful Suggestions
Given in Bulletin.

(Prepared by the United States Department
of Agriculture.)
The work of wild birds in the de-
struction of injurious insects is worth
at least \$400,000,000 annually to the
American farmer and horticulturist,
and in recognition of their valuable
aid and charm, and to encourage their
presence, the establishment of commu-
nity bird refuges throughout the coun-
try, on farms, bird preserves, and else-
where, is increasing. Useful sugges-
tions for the establishment and main-
tenance of community bird refuges are
contained in Farmers' Bulletin 1230,
issued by the United States Depart-

THE STANDARD BRED JACK

Gen Vickers

Register No. 8278
Will be in Kendrick 3 days each
week on Thursday, Friday and Sat-
urday, May 11, 12, 13.
Terms: Season \$15 Insure in foal \$20
\$3 of the above amount to be paid
at time of service. Balance due
October 1, 1922.
Martin Kruger, Owner
Amos Nigh, Groom

ment of Agriculture, a copy of which

The Blackbird's Coign of Vantage.

may be obtained free from the depart-
ment at Washington, D. C.

"On the average there are in the
United States only about two birds
to the acre, but where they are pro-
tected and encouraged it has been
demonstrated that a very great in-
crease over the normal bird population
can be secured. No fewer than 50
pairs to the acre is the number
reached in the most successful of
these attempts reported. Valuing the
services of birds at 10 cents each—an
estimate ridiculously low, but used to
insure a safe minimum—the birds of
the United States prevent an increase
in the annual damage done by insects
of more than \$400,000,000.

"A particular farm may not have
so large a bird population as it should,
and therefore may not be deriving the
benefit which is its due. The most
effective means of increasing the num-
ber of birds is protection, and protec-
tion in its best sense is afforded by
the establishment of bird refuges."

A bird refuge may be established in
a small way on a farm or through a
co-operative bird preserve. In the lat-
ter case, the plan has proved popular
and successful as a means of estab-
lishing colonies of game birds, such
as pheasants.

"In creating a useful bird refuge,"
says the bulletin, "the first step is to
insure adequate protection against all
bird enemies; the second, to see that
plenty of nesting sites suited to the
needs of the various birds are avail-
able; and the third, to improve food

and water supplies, if necessary." Bird
refuges also may be established
along roadways and right-of-ways,
with particularly attractive and bene-
ficial results.

"Hardly an agricultural pest escapes
the attacks of birds," says the bulletin.
"The alfalfa weevil has 45 different
bird enemies; the army worm, 43;
billbugs, 67; cotton boll-weevil, 66;
brown-tail moth, 31; chestnut weevils,
64; chinch bug, 24; clover-root borers,
85; clover weevil, 25; codling moth,
36; cotton worm, 41; cutworms, 98;
forest tent caterpillar, 32; gipsy moth,
46; horseflies, 49; leaf-hoppers, 120;
orchard tent caterpillar, 43; potato
beetle, 25; rice weevil, 21; seventeen-
year locust, 38; twelve-spotted cucum-
ber beetle, 28; white grubs, 67, and
wireworms, 168."

PREPARE SOIL FOR GARDENS

Work Should Begin as Soon as Con-
ditions Will Permit—Cultivate
to Conserve Moisture.

In order to have a good garden it
is well to prepare the land as soon as
the soil conditions will permit, by first
plowing the entire area to a depth of
8 to 10 inches, applying stable manure
broadcast and harrowing thoroughly
until a perfect seedbed is formed.

The surface of the unplanted as
well as the planted land should be
cultivated in order to conserve mois-
ture.

ALSIKE CLOVER FOR FORAGE

Crop is Particularly Well Adapted for
Low, Poorly Drained Soil—It
Adds Variety.

Alsike clover is especially well
adapted for low, poorly drained land
on which common red clover refuses
to grow to advantage. It does not
yield as much forage as red clover
on soils that are well adapted for the
latter, and, therefore, should not be
grown in such places. It should, how-
ever, enter into every pasture mixture
if for no other reason than to add
variety.

**INJECTING SWINE IN
FLANK MEANS SAVING**

Use of Ham or Shoulder Often
Results in Infection.

Department of Agriculture Urges Vet-
erinarians to Avoid Possibility of
Injury by Selection of Some
Other Place.

(Prepared by the United States Department
of Agriculture.)

Complaints from packers indicate
that there are still many veterinarians
and farmers who persist in immuniz-
ing hogs against cholera by making
injections in the ham or shoulder, a
practice that often results in infection
and the formation of deep abscesses in
the hams and shoulders where the se-
rum and virus were injected. The
United States Department of Agricul-
ture has long advised against using
those parts as points of injection, and
the department veterinarians are in-
structed to avoid the possibility of such
injury by selecting some other place.

The ham has been favored as a place
for making the injections because they
can be made more rapidly and easily

Injecting Hog in the Flank.

at this point, but they can be made
with equal success in less valuable
parts, such as the flank or axillary
space, where there is loose connective
tissue that readily absorbs the serum.
In making an axillary injection the
front legs should be spread apart so
as to stretch the superficial muscles
between the legs, and the needle should
be directed so as to avoid the muscles
of the shoulder.

It is desirable to make the injec-
tions at a point that will make drain-
age easy should an abscess form. Se-
rum should never be injected into a
mass of fatty tissue, as it is not suf-
ficiently absorptive. Although the se-
rous membrane lining in the abdomi-
nal cavity takes up serum readily, ab-
dominal injections are not recommend-
ed because of the danger of punctur-
ing the internal organs with the
needle or of carrying infection into the
cavity.

Small pigs and sows up to 80
pounds in weight may be held up by
the hind legs, with the forefeet rest-
ing on the ground, and the injection
made into the loose tissue of the flank.
A pig so held is in a good position for
the taking of temperature, cleansing
the area of operation, and making the
injection. Farmers' Bulletin 834,
which has been recently reprinted, con-
tains full information regarding hog
cholera and the methods of control.

DESTROY LAST YEAR'S PESTS

Excellent Plan to Remove All Stalks
and Burn Them—Ashes Make
Good Fertilizer.

In getting ready to make garden this
spring, it is an excellent plan to see
that all the stalks of last year's vege-
tables which may have been left stand-
ing are removed and burned.

In the first place the ashes will make
good fertilizer as the stems of nearly
all vegetables contain excellent ferti-
lizing material in their ash, and an
even more important consideration is
that by removing and destroying them
the insect pests are likely to be
checked.

Many insect pests find refuge under
boards, among the dried leaves or
stalks over winter. Often the spores
of fungus diseases which create havoc
are only waiting in these old stems to
get into action with balmy weather.
By burning the refuse a great quantity
of them will be destroyed.

PREPARING POTATO SEED BED

Select Best Piece of Land and Put it
in Good Shape—Clover Sod
Is Excellent.

It pays to have the potato ground
in good shape. Select the best piece
of ground you have. You are putting
more money into the seed than for
any other farm crop and probably
more into the cultivation too, and so
you should have the best land. Clover
sod makes the best potato ground. Old
blue grass sod is all right if plowed
deep enough and worked up in good
shape. Timothy sod is not good. Avoid
fresh manure; it produces scab.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Hall's Family Pills for constipation.

Whooping Cough

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping-cough, with pronounced success. It is safe and pleasant to take.—Adv.

Softening Hard Putty.
Putty that has become hardened by exposure, as around window glass, may be softened and removed by the use of the following mixture: Shake 3 pounds quicklime in water and add one pound pearlsh, making the whole about the consistency of paint. Apply to the putty on both sides of the glass and let it remain for about 12 hours. It should then be possible to lift the glass out without trouble.

Cameron News

A surprise party was given on Miss Martha Meyer, last Wednesday. The evening was spent in playing games. At midnight a delicious lunch was served and all present seemed to enjoy themselves.
Miss Ida Silflow, was a business visitor in Lewiston, Saturday, returning, Sunday.
Miss Minnie Blum was a visitor at the Newton home in Kendrick, Saturday.
Quite a number of the Cameron people were present at Mrs. Herman Keopp's 50th birthday anniversary, last Friday evening.
Miss Woller has been on the sick list for a few days.
Miss Martha Finke of Southwick is assisting Miss Woller.
Mrs. Brunsiek is visiting her mother, Mrs. Bleck of Kendrick.
Mrs. Kein has been ill for a few days.
Mr. and Mrs. Silflow, Sr. and Otto and Martha Silflow, motored to Uniontown, Tuesday.
John Kitchel of Southwick was a business visitor in Cameron, Tuesday.
Ed Wegner and sons of Big Bear Ridge were visiting in Cameron, Sunday evening.
The school closed last Friday with a picnic and program. The afternoon was spent in playing ball.

Linden News

Miss Carrie Allen and Mrs. A. Alexander spent Saturday with Eva Smith, the occasion being her birthday.
C. H. Harris spent Sunday evening at the Whistler home.
Mrs. C. H. Fry was a caller at the Gilchrist home Saturday afternoon.
Ernest Schmidt of Potlatch was a week end visitor at the Weyen home.
Alex Bohn, Lester and Clarence Weaver were Sunday visitors at the Arthur Bohn home.
Mrs. J. O. Carr, Mrs. Anna Morrison and John Michael spent Sunday at Elmer Hudson's.
I. E. Foster and son Guy of Long Meadow spent Saturday evening and Sunday at home.
Arley Allen visited his Mr. and Mrs. Jim Langdon at Juliaetta, Saturday.
Gus Farrington started his saw-mill the middle of the week.
Mrs. Hattie Alexander spent several days the first of the week with Eva Smith.
Mrs. McPhee spent the day Friday with Mrs. Vaughan.
Mrs. Bert Miller of Mitchell, Neb., and Jim Keeler of Alliance, Neb., returned to their homes last Monday.
Decker Bros. mule pack train from Kooskia passed thru our neighborhood, Tuesday, enroute to St. Joe.
Mrs. Hattie Alexander and Eva Smith spent the day, Monday, with Mrs. A. W. Longfellow.
Dr. Otteraaen was called Monday to see Melvin Garner, who has been ill for several days. While on the ridge he made a professional call on Mrs. Frank Farrington.

FOR SALE

School house in District No. 10, Cameron. Bids must be in by June 10th. No bid under \$100 will be considered. Board reserves the right to reject any or all bids.
Aug. F. Wegner, Clerk.
Cameron, Idaho. 19-3t

FINEST QUALITY PEAS WIN FAVOR

Intermediate Variety Bear Better
When Given Support of Low
Brush or Wire.

LITTLE MARVEL IS SUPERIOR

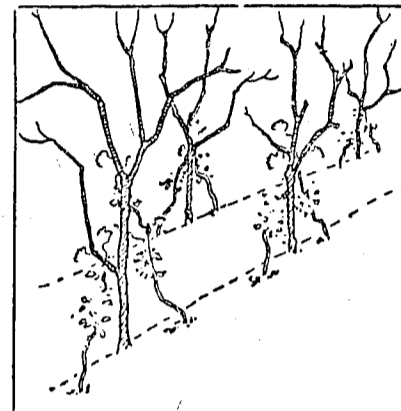

Best Plan to Depend on Succession
Planting a Week or Ten Days Apart
—Rotation is Also of Much
Importance.

The very finest quality peas at the present time are neither, strictly speaking, dwarfs, nor are they tall. They are intermediate and while they may be grown as dwarfs and without brushing, they bear better when given the support of low brush or a narrow strip of chicken wire. These are the Gradus and Laxton types of pea, which vary from 30 inches to almost four feet, according to variety. All do better with support, although commonly grown as dwarfs. They give a heavier yield when held upright.
Wrinkled Type Superior.
Of the very early peas of the wrinkled type, which is much superior to the earliest smooth-seeded type, Little Marvel still holds a high place among really dwarf peas, the vines being only about eighteen inches. It

matures in eight weeks and is very hardy and of the finest quality. A little earlier is Market Surprises Alaska and Maud S., smooth-seeded peas, still remain the earliest of all, of good quality if taken very young, but not equal to the wrinkled varieties, which are not so hardy and cannot be planted or cropped so early.
It is possible with the variety of peas now on the market to plan a good succession planting, starting with Alaska, Surprise, Little Marvel, Gradus, Laxtonian and Thomas Laxton.
However, it is better to depend upon a successional planting a week or ten days apart, as the season may be such as to bring the cropping of different peas too close together at maturity, if planted at the same time.
The planting of peas in double rows, six inches apart, these double rows to be three feet apart, is about right for the more dwarf varieties, but if the more vigorous growing dwarfs are to be planted they will need at least four feet between the rows unless they are given brush or wire.
The round seeded peas can go into the ground as soon as it can be dug, but it is best to wait a week or two for the wrinkled varieties to be on the safe side.

Rotation is Necessary.

The peas should not be planted this year in the same position that they occupied last year. Neither should

Method of Brushing Peas.

they be placed in ground occupied the previous season by beans for best results. A gardener should study his garden plan each year with an eye to moving the peas and beans across the garden, so that they will not occupy the same space in succeeding years. Of course, heavy fertilizing partly makes up for the exhausting of the soil, but it cannot wholly do so. These two vegetables take more out of the soil than the others and it is more necessary to see that they rotate.

SAN JOSE SCALE INCREASING

Lime Sulphur and Scalecide Must Be Applied if Orchard Trees Are to Be Saved.

During the last two or three years a good many people in the North with home orchards have believed that the San Jose scale was becoming extinct. As a matter of fact the scale which persisted so long on the trees the winter of four years ago suffocated the scale just as does the lime-sulphur spray when applied. After that winter, many old trees revived and have grown well since then. Now the scale is catching up again and, unless we have another such sleet, lime-sulphur and scalecide will have to be put on if the trees are to be saved. A still day is an ideal time to spray with lime-sulphur because it is easier to reach all parts of the tree when there is no wind.

SUMMONS

In the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah.

James Albert Craig, Plaintiff,

vs.

All Unknown owners of and all Unknown Claimants to any right or title to, or interest in, or lien or claim upon the East half (E½) of

the Southeast Quarter (SE¼) of Section Four (4), and the Northeast Quarter (NE¼) of the Northeast Quarter (NE¼) of Section Nine (9), all in Township Forty-one (41) North of Range Five (5) West of the Boise Meridian, containing 120 acres more or less, excepting therefrom six acres occupied by the right of way of the Washington, Idaho & Montana Railway Company, running in an easterly and westerly direction across said land, Defendants.

The State of Idaho Sends Greeting to each and all of the above named Defendants:

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature in general terms as follows: To quiet title to the East Half (E½) of the Southeast Quarter (SE¼) of Section Four (4) and the Northeast Quarter (NE¼) of the Northeast Quarter (NE¼) of Section Nine (9), all in Township Forty-one (41) North of Range Five (5) West of the Boise Meridian, containing 120 acres more or less, excepting therefrom six acres occupied by the right of way of the Washington, Idaho & Montana Railway Company, running in an easterly and westerly direction across said land.

And you are hereby directed to appear and answer said complaint within 20 days of the service of this summons, if served within said Judicial District, and within 40 days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

WITNESS my hand and the seal of the district Court of the Second Judicial District of the State of Idaho, in and for Latah County, this 4th day of April, A. D. 1922.

(SEAL)

Harry A. Thatcher, Clerk.
By Adrian Nelson, Deputy.
Frank L. Moore, Residence Moscow, Idaho, Attorney for Plaintiff.

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF LATAH.

Degrees of Affection.

Alma, who had gone to visit some relatives, developed a severe case of homesickness and, when asked if she didn't like her cousins, she replied: "Yes, I like them, but not as well as home-grown folks."

GLEANINGS

Percy Ware and Frank Fairfield went to Orofino, Tuesday. They have jobs on the fire patrol in the Clear-water forests.

Miss Esther Gardner of Pomeroy, Wash., returned home Thursday after visiting for the past two weeks at the home of her uncle, Joe Gardner.

Holbrook, Emmett & Reece shipped a carload of 90 fat hogs from their feeding pens, Tuesday afternoon.

Mr. and Mrs. S. P. Callison were Moscow visitors last Saturday. Miss Florence Hollada returned with them in their car in the evening to spend the week end here with her mother and sisters.

Egnaz Flaig cut his left hand quite badly with an axe, Monday morning, while splitting wood. Two stitches were necessary to close the wound. No bones were injured. Probably the worst feature of the case, from Egnaz' point of view, is that he can't play on the ball team until the injury heals.

Mr. and Mrs. E. H. Dammarell drove to Moscow Sunday to visit their son, John, at the hospital. John is recovering rapidly from his operation. Miss Ruth Dammarell is taking his place as book-keeper at the store while he is at the hospital.

Mr. and Mrs. Alec Killian and baby went to Reparria, Saturday, where they will make their home. Alec has a job there.

Residents of Orofino, Idaho, have successfully carried out an enterprise to mark points on the old Lewis & Clark trail with cairns where the explorers camped in 1805 including China Island in the Clear-water river about a mile above Orofino. At the dedication of the cairns the first flag unfurled over a public building in Idaho was displayed. It first felt the breeze at Pierce in 1861.

Richard Roe of Lewiston, son of Dr. Rce, played the cello in the orchestra at the New Kendrick last Saturday night. He comes up every Saturday from Lewiston to take lessons on the cello from G. G. Oldfield. All of the members of the Roe family are accomplished musicians.

Tom Mox Mox, Indian, who has been confined to the city jail at Lewiston on a charge of drunkenness, was arraigned yesterday in Judge Hattabaugh's court for the drawing of a check for \$50 upon the First National Bank of Lewiston in honor of the R. C. Beach Co. He had no funds in the bank to meet the check. Mox Mox lives a few miles below Juliaetta.

Roy Florance arrived the first of the week from Clarkston to take a position with the Kendrick Store Co.

The Kendrick Auto Co. now has a new gasoline pump in front of the garage. It makes a most imposing appearance with its electric light fixture at the top.

W. M. McCrea and son, Donald, went to the Three Bear country on business the first of the week.

There will be a Mothers' Day program at Steele school house on Bear ridge, Sunday, at 11 o'clock in the morning.

Mr. and Mrs. Theo Hanson entertained the Members of the Circle Card Club at a "500" party last Tuesday evening. Mr. and Mrs. F. E. Erickson, Miss McAllister and Harold Hanson were guests of the Club. Delightful refreshments were served.

The printer in the open shop set up a poster to advertise an address by a militant suffraget. Her subject was, "Woman, Without Her, Man Would Be a Savage." When the speaker called for the posters the proof-reader had to leave town suddenly, for the flaming sheets read: "Woman, Without Her Man, Would be a Savage."

Mr. and Mrs. James Benjamin are the proud parents of a nine pound daughter, Eileen Orabelle, born May 8, at the home of Dr. and Mrs. Kelley.

Mr. and Mrs. W. S. Baird were Spokane visitors over the week end.

Bob Spencer went to Lewiston Saturday afternoon for a brief visit with friends.

Carl Lohman of Clarkston arrived Thursday afternoon to transact business in this community.

Mrs. Shaffer and Miss Winifred McCrea arrived last week from Everett to visit their sister, Mrs. W. M. McCrea.

The Epworth League dinner at the Methodist church last Friday evening was very nicely served by the young folks. It was not a donation affair as all food supplies used in preparing the meal were bought from the stores. The sum realized was not very large, but it was strictly net profit.

Rev. James Thompson, district superintendent of the Walla Walla Presbytery, will preach at the Presbyterian church here Sunday morning at the usual hour.

William Chamberlain and daughter arrived last week from Oroville, Cal., for a visit here and in the Moscow country. Mr Chamberlain is Frank Chamberlain's father and formerly farmed extensively in the Palouse country.

American Legion Notes

Senator Borah of Idaho was accused of being a "novel hero" by Representative Hamilton Fish of New York, during a meeting of an American Legion post in Washington. Mr. Fish referred, he said, to Borah's alleged statement that members of Congress were attempting to purchase their election by voting for adjusted compensation.

There are more than 300 radical newspapers and magazines in the United States that disseminate un-American propaganda, Paul Davis, Chairman of the Legion's state Americanism committee, reported at a meeting of the third district council.

An American Legion home costing \$20,000 has just been completed at St. Maries, Idaho. The American Legion and the American Legion Auxiliary of that place carried on various enterprises to raise funds for erecting the building.

Members of the third district of the Idaho Department of the American Legion are opposed to Japanese owning or leasing land in Idaho. They passed a resolution to that effect at their district council meeting held in Boise last week. Delegates from towns in the Boise Valley reported that the Japanese menace is becoming a serious one in some sections, especially those sections where the lettuce and vegetable industry has become important.

Big Bear Ridge

Evils of Constipation

Perhaps the most serious of the diseases caused by constipation is appendicitis. If you would avoid this dangerous disease, keep your bowels regular. For this purpose Chamberlain's Tablets are excellent, easy to take and mild and gentle in effect.—Adv.

You Want to Cut Your Production Costs

The answer is Good Farm Implements—the kind we sell.

JOHN DEERE IMPLEMENTS

—by saving time —by saving labor —and by producing more per acre. Good farm implements are necessary to get these results. They multiply your working power. They are directly responsible for greater yields per acre. They are dependable profit-makers from the time you put them to work. But be sure you get good implements—that's mighty important.

We keep right here at your hand a stock of highest quality implements especially adapted for this community. You get satisfaction; it's doubly guaranteed—by us and by the manufacturer.

Do you know that it we had pre-war freight rates our prices would be lower than in 1913? It's a fact!

Be sure and drop in and let us tell you how satisfactorily we can fill your requirements

Premax Binder Twine
