

## LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns  
of Neighboring Papers.

**Juliaetta Record:** The heavy frost Monday night is reported to have done considerable damage to tender fruits and garden stuff. While a few who took precaution to use smudges will save most of their cherries, others, it is believed, will sustain quite heavy loss. A scum of ice formed in many places and the thermometer is said to have registered as low as 29 degrees shortly before sunrise. C. C. Combs made an examination of some orchards and says practically all the blooms on the upper side of the limbs of the Bings are killed and he estimates that about 50 per cent of the crop is killed. The Lamberts however, he says seem to have stood it much better and are not much damaged. Considerable tender garden stuff was also killed. Reports from Lewiston and other outside points are to the effect that the damage is serious, in some places being a total loss.

**Troy News:** At the meeting of the School Board last Saturday the bids for excavation work in connection with the new addition to the school house were opened. It was found that Sly and Jensen were the lowest bidders and were awarded the contract. Their bid was \$1798.00. Work will commence within a few days or as soon as the necessary papers are completed. It is much satisfaction to note that home people have secured the work. This will give employment to people here as well as keeping the money circulating at home.

**Deary Press:** George Drury has ordered a silo, which he will erect on his farm this season. This is a step in the right direction and we dare say Mr. Drury's example will be followed by our farmers generally within a year or two. The silo is as necessary an adjunct to the economical feeding of stock as the kraut barrel is to the farm kitchen. Wherever dairying is successfully carried on, there you will find that every farm has its silo. The silo comes first and the dairy herd afterwards.

### Leland Items

The Leland school closed last Friday. A very nice program was rendered Friday evening at the I. O. O. F. hall by all grades.

Mr. and Mrs. Mushletz and Mrs. Dean have been employed to teach next term.

James Winegardner accompanied by his sisters, Edyth and Alice, drove over from Genesee Tuesday evening after school and took their mother back with them, to be present at commencement, Friday. They will all visit Spokane before coming home.

Mrs. Clifford Powell's little sister from Juliaetta is visiting her.

Miss Carrie LeBaron and sister, Mrs. Armstrong, were visiting friends here Sunday.

Parents' Day was observed Sunday. A short program consisting of songs and recitations were given also a number of good talks as tributes to father and mother.

Mr. and Mrs. R. M. Smith and Mr. and Mrs. R. Winegardner were dinner guests, Sunday, of Rev. and Mrs. Hall.

Mr. and Mrs. DeWinter drove to Lewiston, Tuesday, returning Wednesday.

Mrs. Jake Dawson visited Mrs. Marvin Vincent, Tuesday.

Mrs. Stoneburner visited friends here last week, returning home Saturday, accompanied by Misses Iheima and Myrtle Oylear.

J. A. Hall purchased a Chevrolet from the Nez-Perce Auto Co. of Lewiston, Wednesday.

Jack Heacox, proprietor of the Juliaetta confectionery, stated Tuesday, that he registered the names of those attending the New Kendrick a week ago last Saturday. There were 53 from Juliaetta, which is a good showing from that town.

### Commencement Exercises

The Kendrick High School commencement exercises will be held Thursday evening of next week at the New Kendrick theater, beginning at 8 o'clock sharp. The program has not been entirely completed at this time, but there will be special musical numbers and an address by Prof. H. C. Dale, head of political science department of the University of Idaho.

Those to be graduated are Agnes Jones, Carrie Bunker, Opal Jones and Norla Callison. The class is not a large one but the members have excellent scholarship records.

### OROFINO TEAM TAKES THE GAME

#### Defeated Kendrick by Most Decisive Score.

The defeat suffered by the Kendrick ball team at Orofino last Sunday is not a pleasant subject for discussion—not that a defeat is hard to take—but because it was so unnecessarily decisive. To have been beaten by a score of 5 to 2 or even 10 to 2, wouldn't have been beyond the bounds of baseball ethics, but to have to stand for a drubbing to the tune of 15 to 2—that's too much. There is no particular reason why this score should have happened, because Kendrick has good ball players on the team, notwithstanding the fact that appearances are to the contrary. The only way for the boys to "come back" is to defeat Juliaetta next Sunday, which is going to be a tough job.

The game at Orofino was a good one for the first five innings. The score stood 4 to 2 in favor of Orofino and both teams playing good ball. From that time on it was a case of counting runs for Orofino. A number of bunched hits and a succession of errors tells the story.

McCrery pitched the first 6 innings for Kendrick and was followed by Thomas. Neither pitcher was hit hard enough to justify the size of the score, as the score book only showed 8 hits off the Kendrick pitchers and 5 against the Orofino twirler. It seemed to be an off day for a majority of the Kendrick players.

The feature of the game was the fielding of Walter Thomas at center field. He made a number of sensational catches and threw well to bases.

Stewart Compton and Fred Bolon, who played on the Kendrick team last year, did good work on the Orofino team. Fred played third and Stewart right field.

Dr. Veon of Kendrick and Charlie Crumpacker of Orofino umpired the game and gave general satisfaction to both teams.

### Fairview Items

Miss Josephine Wilken visited at the home of Miss Edna Fieshman Sunday.

Miss Boyd was a guest at the Garry Hogrefe home near Leland this week end.

Jack Fieshman visited in Lewiston this week.

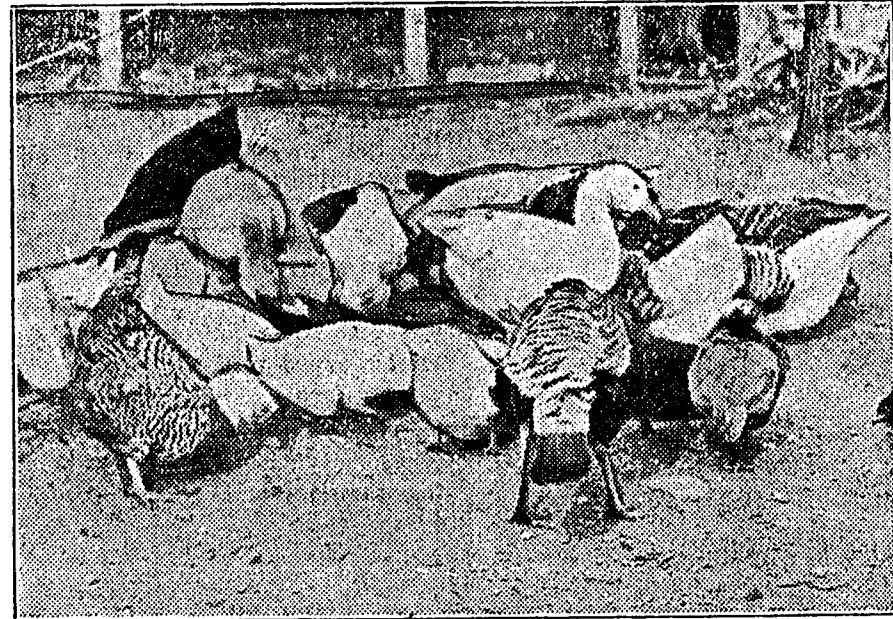

Mr. and Mrs. Frank Wilken were dinner guests at the Rawley home, Sunday.

Mrs. Mary McCall visited in Cameron Tuesday at the Dave Schoeffler home.

John Glenn went to Moscow on business, Tuesday.

George Banta, who was in the mercantile business in Kendrick about fifteen years ago, writes from Norwalk, California, that he and his family may come here next month to spend the summer, providing he can make suitable arrangements for furnished apartments. They have a desire to be here during the summer to get the benefit of the mountain air. Mr. Banta writes that in case they come and like it here as well as they used to, they will invest and make their home here.

### THERE IS PLACE ON MOST FARMS FOR TURKEYS, DUCKS OR GEESE

Hen Will Always Be the Leader Among Farm Poultry.

### High School Play a Success

The high school play, staged at the New Kendrick theater last Saturday evening, drew a packed house. It was rather a difficult play for high school students, but the members of the cast carried out their parts in a most creditable manner. It was a success from every standpoint.

Mr. Oldfield deserves mention for giving up his regular show for Saturday night and donating the use of the theater for the occasion.

### Big Bear Ridge

Miss Claribel Ingle is home from Clarkston for a few days' visit.

Mrs. Horace Mostock and children have returned home from a visit with relatives at St. Maries.

Miss Johanna Hooker entertained the Girls' Sewing Club, Thursday afternoon.

Mrs. N. E. Ware and daughter, Neva, left for Clarkston Wednesday to visit relatives for a few days.

Miss Rena Morey of Spokane is home for a visit with her parents and relatives here.

Mr. and Mrs. James S. Nelson and children of Clarkston were visiting Mrs. Nelson's sister, Mrs. D. Stevens on upper Bear ridge last week.

Lief Field of Moscow spent Sunday at the A. Hooker home.

Mrs. E. Miller is visiting at the home of her brother W. W. Reid and at the Ingle homes.

Misses Alta, Allie and Claribel Moore spent the week end at home.

A large number from here attended the High School play in Kendrick, Saturday evening.

A. N. Rogstad made a business trip to Moscow last week.

The dance given at the hall Saturday evening was largely attended. Large crowds came from the neighboring ridges and towns and everyone reported having had a most enjoyable time.

Ingvald Aas of American ridge and John Hogaboam of Culsacac were Sunday visitors here.

A splendid out-of-doors program was given by Miss Clara Bailey's school at the Bear Creek school house, Sunday afternoon. The winding of the May Pole was one of the pleasing features of the program.

Miss Bailey closed a successful eight months term of school Friday.

The Taney school enjoyed a picnic, a weener and marshmallow roast at a nearby grove Friday afternoon.

Miss Nettie Lacey departed for her home at Peck Sunday. She will attend summer school at the Lewiston Normal.

Mrs. A. Kieth was a Troy visitor Thursday.

### Baccalaureate Service

The Baccalaureate service for the Kendrick high school will be held at the Methodist church, Sunday evening. Rev. Pickering will preach the sermon and will be assisted in the service by Rev. G. A. Morton, Presbyterian minister of this place. Special music will be provided for the occasion.

A number of his classmates surprised Egnaz Flaig, Thursday evening of last week, with a birthday party in his honor. A very jolly evening was spent by the young people.

### Deeter Bought Murphy Farm

Mr. and Mrs. A. C. Deeter bought the old Murphy place in Bear Creek canyon the first of the week. It is a quarter section of bench land with 25 or 30 acres under cultivation. The place joins the Sam Stanton ranch and is about 2 miles from town. Mr. and Mrs. Deeter expect to make extensive improvements and will build a new house some time this summer. They expect to make their home on the ranch.

### Linden News

C. P. Israel finished sawing, Thursday noon.

Melvin Garner who has been ill with scarlet fever is improving at this writing.

F. C. Lyon and family spent Sunday at the A. W. Lungfellow home.

Mrs. Dick Winegardner and children spent Sunday with Mrs. Clinton Wright at Southwick.

Clyde Alexander of Winchester visited his mother and family, Sunday.

Miss Gertrude Keeler is assisting Mrs. Frank Farington with the household duties this week.

Miss Carrie Allen spent Monday with Mrs. Gilchrist.

A number of the boys of the ridge went sucker fishing Saturday night. They report the water a little high for good fishing.

Mrs. Longfellow lost a good milch cow recently by being poisoned on weeds.

Lyman Vaughan of Milton, Oregon, came up Friday for a few days' visit. He was accompanied home Sunday by his mother and brother, Ted, who will stay indefinitely.

The Weyen family spent Sunday at Cameron with relatives.

John Michael delivered two fat hogs to the Kendrick market, Monday.

County Agent Fletcher was on the ridge Monday and held a farm bureau meeting Monday evening.

Mrs. H. S. Weaver and children spent Monday afternoon with Mrs. Carr.

Ben Smith went to Palouse Monday to visit relatives and have dental work done.

Any one wishing to register may do so now. Registration closes, July 29 for the primary and opens again August 5, and closing Nov. 4. Eva L. Smith, Registrar.

### Surveyor Here

Mr. Oehler of the firm of Van Arsdol & Oehler of Lewiston, was in Kendrick last week looking over the road building project in the lower end of town. It was proposed at the last meeting of the town council, to build a section of new road to cross Brady gulch, a concrete viaduct to be included in the project. Mr. Oehler gave it as his opinion that the expense would be heavy and that the present street could be made to answer the purpose very nicely by putting in a short stretch of concrete work across the creek bed. This would cost very little in comparison to the building of the new road or street. The council has as yet taken no action in the matter.

Wm. Darlow, teacher of Leland, was in Spokane on business the first of the week.

### Presbyterian Minister Here

Rev. G. A. Morton, recently from the McCormick Seminary, Chicago, has been appointed to take charge of the Presbyterian church here. He and his wife and little daughter arrived Tuesday afternoon and will make their home temporarily in the rooms in the basement of the church. Rev. Morton is already busy reorganizing the various departments of the church. Preaching services will be held every other Sunday and Sunday School every Sunday morning at the usual hour.

### EPWORTH LEAGUE TO GIVE PLAY

#### Now Rehearsing "A College Town," for May 24.

Let's go! Where? To the play, "A College Town." You perhaps have often wondered or dreamed of what a college town would be like; well here's your chance to get all the thrills and excitement during football season—at the New Kendrick, Wednesday, May 24th. The cast is as follows:

Jimmie Cavendish D. E. Carlile  
A Rah-rah boy  
Tad Cheseldine, Buford Hogan  
The college cut-up  
Leviticus, Cecil Chamberlain  
The ace of spades  
Prof. Senhacharrub Popp, The chan  
of Philology, Claude Stanton  
Scotch MacAllister, Marvin Long  
Football captain  
Shorty Long - Wayne Herres  
The Ubiquitous Freshman  
Billy VanDorn, Arthur Pickering  
On the glue club  
Miss "Jim" Channing, A girl from  
Dixie, Dorothy Stanton  
Miss Marjorie Haviland, The popular  
college widow, Audrey Stanton  
Mrs. Baggsby, "Ma", Beulah Long  
The popular landlady  
Miss Jane Cavendish, Opal Jones  
From Wall Street N. Y.  
Mrs. Cleopatra Popp, A Faculty  
type, Edith Dammarell  
Mrs. Mollie Stiles, Violette Riley  
A Honeymooner  
Miss Twiggs, Rita Leith  
A relic of other days  
Mrs. Twiggs, Nell Ameling  
A motherly old soul.

This play is being given by the Epworth League at the Methodist church, the proceeds to be applied on the church debt. It is under the direction of Miss McAllister.

Albert Abitz of Bovill, is visiting relatives, in Cameron and also attending the summer school here.  
Miss Mable Bleck of Kendrick is visiting her sister, Mrs. Brunstiek of Cameron.  
A large crowd attended the English services Sunday evening.  
Rev. Rein, Aug. O. Wegner and family, Mrs. Siffow, Sr., and Miss Ida Siffow, motored to Moscow, last Thursday.  
Mr. Olday has painted his house, which adds to the appearance of Cameron.  
Little Erna and Harvey Wegner were visiting Miss Martha Siffow, Tuesday.

### Cameron News

Miss Elsie Wegner entertained the following as dinner guests Sunday: August and Bertha Hartung, Martha Abitz, Gustav, Laura, Etta and Minnie Blum. The afternoon was spent in picking wild flowers.

Miss Laura Blum visited her parents, Saturday and Sunday.

A little girl was born to Mr. and Mrs. Dave Schoeffler of Cameron, Sunday, May 14th.

John Michael delivered two fat hogs to the Kendrick market, Monday.

County Agent Fletcher was on the ridge Monday and held a farm bureau meeting Monday evening.

Mrs. H. S. Weaver and children spent Monday afternoon with Mrs. Carr.

Ben Smith went to Palouse Monday to visit relatives and have dental work done.

Any one wishing to register may do so now. Registration closes, July 29 for the primary and opens again August 5, and closing Nov. 4. Eva L. Smith, Registrar.

### MOSCOW LEGION WILL CELEBRATE

#### Making Plans for Big Day July Fourth

Fourth of July plans of the Dudley Loomis post of the American Legion call for the largest and most extensive Fourth of July celebration ever held. The Moscow Chamber of Commerce, the Moscow Business Mens' club, the Rotary club, the Volunteer Firemens' association and other civic organizations are co-operating in the work, now well under way, to make the celebration of the nation's birth day long to be remembered.

Features of the day will be fireworks of an hour and a half from the city water tank hill, a street dance, a baseball game and athletic carnival, a mammoth parade and a patriotic program. Plans are under way to make the street dance unique in that music will be furnished by radio. This will be the first time that radio music will be used for dancing in the Palouse country.

The parade will be held in the morning followed by the patriotic and speaking program in the city park. In the afternoon there will be free attractions of all kinds, athletic events, the baseball game, and a water fight between two fire companies of Moscow. The evening program will be for one long celebration and will consist of a pavilion and street dance, a sham battle at the Fair grounds, and the gigantic fireworks display lasting one hour and one half.

A dance will be held in the large open air pavilion in the afternoon and evening. Music will be furnished by the Mann Brothers' orchestra for both the afternoon and evening dances.

Rest room facilities for out-of-town women will be provided for and every effort is being made to provide the best of facilities for the comfort and convenience of Moscow's out of town guests on July 4. The city park will be turned into a picnic grounds and a special committee has been appointed to especially look after the convenience, safety and comfort of all visitors at the Moscow celebration.

The plans of the American Legion boys with the co-operation of the entire city will make the 1922 Fourth of July celebration at Moscow the biggest, best and longest to be remembered observance of the national holiday in the city of Moscow.

### Grand Lodge Officer Visits

Pren Moore, Grand Master of the Grand Lodge of Idaho, I. O. O. F., visited the Kendrick lodge last Saturday evening and gave a most interesting address to a large crowd of Odd Fellows. Members from Moscow, Leland, Juliaetta and Kendrick lodges were present and spent a most profitable evening. A very nice lunch was served by the members of the local Rebekah lodge.

### Good Road Work

Some good work has been done on the road below town during the past two weeks with the highway district machinery. Most of this road is very rocky, as it was at one time a part of the creek bed. The work on this road that has been done last year and this year, is directed toward a permanent road bed. Curves have been taken out and the high places leveled. The greater part of the road is almost ready for surfacing. Two years ago this piece of road was little better than a winding trail. Each year it was dragged and the loose rock raked out and it was let go at that. While the permanent road bed is still rough, it has been built with an object to permanency, and will eventually be surfaced with crushed rock.

"The Home of Good Things to Eat and Wear"

### ALFALFA SURPASSES FOR STOCK FEEDING

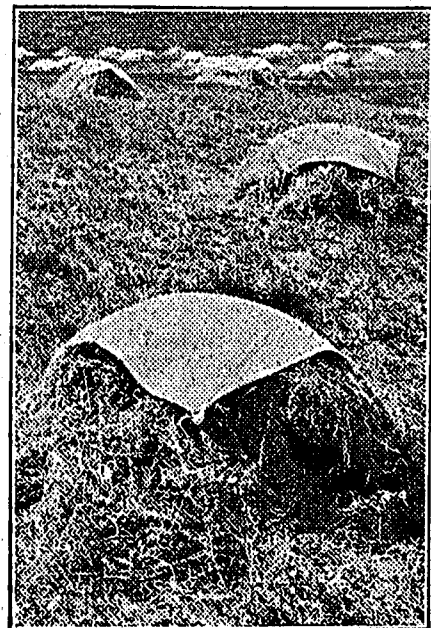

Good Qualities of Crop Enumerated in Bulletin.

In Addition to Advantages as Pasture and for Silage it is of Great Value as Soil Improver—Other Possibilities.

(Prepared by the United States Department of Agriculture.)

"A nearly perfect forage"—that is the highest of praise heaped upon alfalfa by R. A. Oakley and H. L. Westover of the United States Department of Agriculture in a new farmers' bulletin, Utilization of Alfalfa, just issued. And when the good qualities of this crop are enumerated it is evident that some such description is warranted. As a hay it is unsurpassed for general feeding; as a pasture it has a high carrying capacity and produces large gains; as a silage crop it is valuable with proper handling; it makes excel-

lent silage; and when ground into meal it is a good and easily handled feed. In addition to these good qualities it

Alfalfa is Praised as "A Nearly Perfect Forage."

is of great value as a soil improver.

Attempts have even been made to introduce it as a human food and as a medicine, but it cannot compete with other staples as a food and it has no special medicinal properties.

Although not detailed enough to make laborious reading, each subject from haymaking on through to alfalfa meal manufacture, and a consideration of fake and fad alfalfa products, is treated so fully as to give the reader a thorough understanding of the possibilities of this great crop. Those who are inclined to be too enthusiastic over certain uses will find reason in the collected experience of many growers and feeders to modify their views, for alfalfa is not a panacea for all the troubles of the farm and feedlot. Consideration is given to the needs of dairy cattle, beef cattle, hogs, sheep, horses and poultry, and to the crop in various forms, including hay, pasture, silage, straw, soiling feed, tea and meal.

Those who are interested should write to the United States Department of Agriculture, Washington, for Farmers' Bulletin 1229 which will be sent free of charge.

### HIGHWAYS ARE FLEECE LINED

Because Cotton is So Cheap, Ranchmen of California and Arizona Use It on Roads.

Fleece-lined roads for getting motorists over desert sands have recently made their appearance and have surprised a great many motor tourists travelling through certain sections of California and Arizona, says the Illustrated World. There is such a low market value upon cotton in certain sections that it scarcely pays to haul it to the railroad stations. Much that is raised, therefore, goes into the making of roads.

Ranchmen of the Salt River valley of Arizona are doing with cotton just what farmers in other, sandy sections do with straw or brush. Cotton is simply thrown down upon the road over stretches where the sand is annoying. Traffic over the road then packs the cotton down into the sand until it forms a firm, smooth and resilient surface, over which motor-vehicles may progress with almost as much ease as over a paved street in a city.

### NOTICE TO CREDITORS

Estate of John P. Alexander Deceased.

Notice is hereby given by the undersigned, administratrix of the estate of John P. Alexander deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers, within 10 months after the first publication of this notice, to-wit, May 12, 1922, administratrix at the home of the administratrix at Linden, Idaho, the same being the place for the transaction of the business of said estate, in Latah County, State of Idaho.

Hattie M. Alexander, Administratrix of the Estate of John P. Alexander Deceased. Dated May 2nd, 1922. H. R. Smith, Attorney for Administratrix, Moscow, Idaho. 19-5p

### Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879.

Subscription \$1.50 a year.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

According to the Department of Commerce there will be one million new homes built in the United States this year. This home-building may have something to do with the low quotations on second-hand automobiles.

How many miles did you travel on railroads last year? The average was 355 miles for each American. That was 90 miles less than the year before. You explain it by high passenger rates. There were other causes: Hard times and bringing families and homes together again.

Considering the fact that it is but a few months until election time, there isn't much apparent interest in the campaign. Possibly it is the calm before the storm.

If street traffic in New York is not to choke itself to death its traffic police say automobiles will have to be forbidden on certain down town streets. They recommend horses be barred from New York City entirely after 1925. Motor car congestion in cities is now so great that many persons in cities no longer go out in their cars for Sunday rides because they can move along only in a procession and there is no pleasure in it.

"Is the word pants singular or plural?" If a man wears 'em its plural, if he doesn't it's singular—very.—Ex.

One reason given for the fact that there were fewer wrecks in the old horse-and-buggy days is because the driver didn't depend wholly upon his own intelligence.

### A Certain Rich Man

"A Certain Rich Man" coming to the New Kendrick Theater, Friday and Saturday, May 26 and 27, is so vital and human, it rings so true and hits so close to the lives of ninety-nine out of every hundred individuals among us that it is truly universal in appeal. The spectator can fit himself into some niche of the plot and play his part; he will find himself represented by some character of the story. A cast of seventeen principals appear in the important roles, all fine artists who seem to realize their responsibility in portraying characters as famous as these, and to have given their best, sincerest work.—Adv.

### NOTICE TO REBEKAHS

You are requested to be present at a special meeting, May 25th, at which time the assembly president will be present.

Lucy Thomas, N. G. John Kite, Sec.

### CORRECTING A FALSE RUMOR

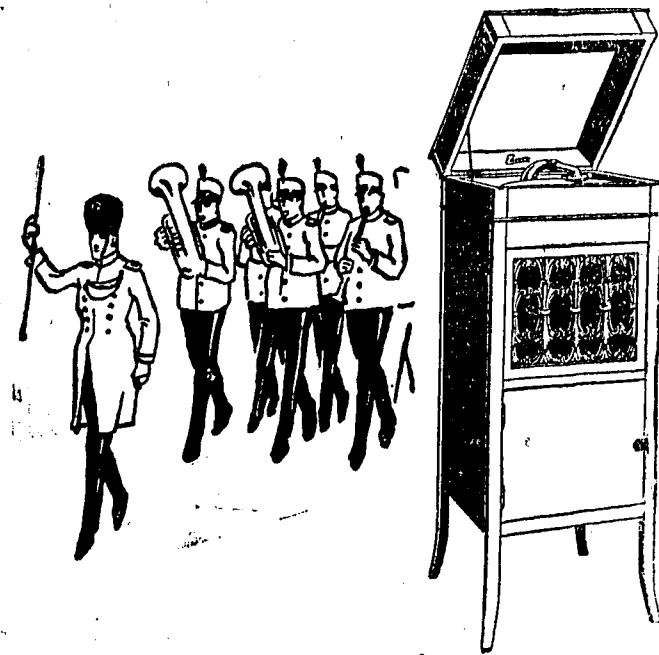

Our attention has been called to a rumor circulating throughout the surrounding country that we are out of the binder twine business. This is absolutely untrue, as we have a large stock of twine on hand and more to come if needed. We are in the twine game as usual at prices that will bear inspection. When in doubt call us up. Our No. is 312. We are here to serve you. Kendrick Roedale Co. By Theo Hanson, Mgr. 202t

### MILK 8c QUART

I have decided to start a dairy and can supply customers in Kendrick with milk at 8c a quart in any quantity. Phone E. E. McDowell, Kendrick. 20-2t

The Downward Path in Britain. A little girl was haled before the justices for killing a farmer's poultry, not without using bad language. "Little girl," said the magistrate, "you see how one thing leads to another. You began by cursing your Maker, and you end by throwing a stone at a hen."—London Daily Chronicle.

The Onion. The onion is mentioned in the oldest writings of Egypt and India and has been for ages cultivated and consumed in almost every country in the world, surpassing all other vegetables in antiquity and extensiveness of cultivation.

### BAND MUSIC

coming from the "New Edison" is so perfect that it is impossible to distinguish it from the original playing of the band.

The above pretentious model costs only \$145, and records, which, by the way, are twice as long as ordinary phonograph records, cost but \$1.00 for two selections.

The average home can hardly afford not to possess this wonderful instrument. We invite you to come in for a demonstration.

**MAINTAIN FLOCK OF SHEEP IN ADDITION TO OTHER LIVE STOCK**

A Grand Championship Prize Winning Rambouillet Ram.

(Prepared by the United States Department of Agriculture.)

Recognizing the adaptability of sheep to a wide range of territory, extension workers of the United States Department of Agriculture and the state agricultural colleges have steadily encouraged the maintenance of a flock of sheep in addition to other live stock on the farm in sections where farm flocks can be profitably handled. The introduction of purebred stock and the establishing of breeding flocks has been an important feature of extension work in Connecticut and Pennsylvania in the East, and in Utah, Washington state, and New Mexico in the West.

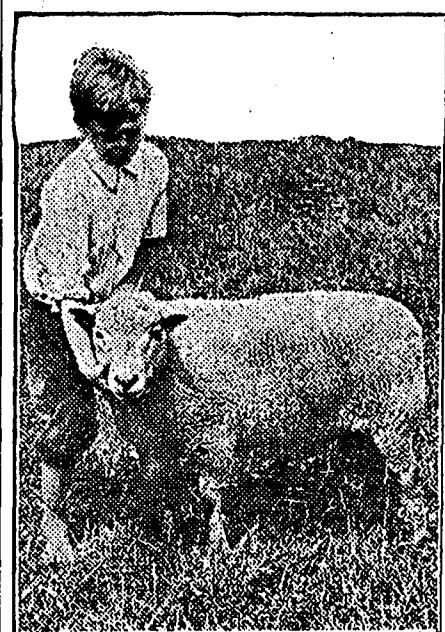

**Ram Club Comprises Three Flocks.**

In Pennsylvania purebred ram clubs have been organized and are operating successfully. These clubs consist of three units of farm flocks each. A ram is purchased for each unit. He is used in each unit two years and then transferred from one unit to another until he has been used in all three units of the club. The county agent in McKean county aided in organizing three ram clubs during 1920, providing nine good rams of Shropshire breeding for the flocks of members of these clubs. All of these rams are grandsons of Minton's 51, one of the greatest show rams at the International in the past few years. Rape pasture is being used to fatten lambs. These clubs will also procure purebred Shropshire ewes, so that each member will eventually have a purebred flock.

Through the assistance given by the sheep specialist at the state agricultural college nine ram clubs were organized in Pennsylvania during 1920; 33,000 worth of purebred sheep were selected and purchased by farmers in the state in this connection. Supplementing the organization of these associations and the introduction of new stock, 35 shearing, docking, and dipping demonstrations were held, attended by over 700 people.

Utah has made notable progress in making the farm flock a factor of importance in its livestock production. In Iron county, where practically all the rams are now purebred, the sheep breeders have concentrated on the Rambouillet and grow enough stock of this breed to supply largely the demand in southern Utah for pure-

bred animals. An outgrowth of this work is the Rambouillet sheep show, which is annually the big feature of

A Club Member and His Pet.

the county fair in Iron county and at which the competition among sheep breeders is exceedingly keen. The county agent in this county co-operates actively with breeders in selecting and improving the management of the breeding stock.

**Market Wool in State Pool.**

In a number of states county agents have urged successfully an increase in the number of farm flocks kept. Johnson County, Neb., where the number of farmers keeping sheep was more than doubled in 1920, is a notable example. Although the condition of the wool market was discouraging, one group of 10 farmers in this county shipped a total of 5,000 pounds of wool to the state wool pool. In Jasper County, Mo., a sheep breeders' association was organized through the activity of the county agent to encourage sheep growing, to pool the wool crop, and to fight the wolf menace. This organization took steps to encourage the introduction of purebred stock, and held a co-operative ram sale, at which all the grade rams owned by members of the association were sold and replaced by purebreds.

Boys' and girls' club members have

been encouraged to form sheep clubs and grow sheep, with marked success. Local banks have helped to finance these clubs, accepting the notes of club members and letting them run from 2 to 2½ years in order to enable the club members to establish small flocks and sell wool and surplus lambs before settling their indebtedness. Representatives of these banks have shown much personal interest in the work and have co-operated with extension workers in giving club members encouragement and advice. In Lake County, Minn., the cashier of the local state bank made a personal visit during the year to every boy and girl to whom money had been loaned for the purchase of sheep.

**Boys Raise Orphan Lambs.**  
 Orphan lambs in Carbon county, Utah, were taken care of last year by

Boys and Girls Have Shown Unusual Adaptability in Raising Sheep.

boys and girls who could not afford to start flocks by purchasing sheep. Those who could get milk or dried milk were given the lambs, and 19 boys and girls, altogether, took charge of 158 lambs. Only nine of these were lost during the entire season. Cows' milk was found to be the most satisfactory food, but dried milk was very convenient for use on grazing fields. One boy kept 15 lambs at his home, all of which did well. The same problem was met in a different fashion at Padillas, Bernalillo County, N. Mex., where five club members secured from two to five orphan lambs each and raised them with a goat for a mother.

The outlook for an increase in the number of farm flocks generally throughout the United States is promising. Adult farmers and farm boys and girls are finding the breeding of purebred sheep a profitable line of production, fitting in well with farm activities already established. Extension workers generally should feel encouraged in advocating the adding of flocks of sheep to live stock on farms where conditions are reasonably favorable to wool and mutton production.

**SQUASHES IN HOME GARDENS**

Small-Growing Plants Are Best Suited for Average Garden—Use While Young and Tender.

Two distinct types of squashes are commonly grown in home gardens—the summer squashes, the fruits of which are used while they are young and tender, and the fall and winter squashes, which are ripened and used during the winter months. The small-growing summer squashes are best adapted to planting in the average garden. The larger, or standard, varieties are better adapted to field culture, although one or two hills might be planted in a corner or along one side of the garden. The hills in which summer squashes are grown should be fully four feet apart and a little manure and fertilizer should be worked into each hill as it is being made.

**PLAN TO RAISE ARTICHOKE**

Seed May Be Planted in Spring as Soon as Soil is Warm—Use Well-Rotted Manure.

Deep, rich sandy loam, with a liberal supply of well rotted manure, is best suited for growing globe artichokes. Plant the seeds as soon as the soil is warm in the spring, and when the plants have formed three or four leaves they may be transplanted to rows three feet apart and two feet apart in the row. The plants do not produce until the second season, and in cold localities some form of covering will be necessary during the winter. This crop is not suited for cultivation north of the line of zero temperature.—U. S. Department of Agriculture.

**PRODUCTS THAT PAY FARMER**

Profitable to Raise Less Major Crops and Devote More Time to Poultry and Dairy.

Rather than raise staple crops that cannot be sold at even cost of production, it will be wise to devote less time to major farm crops and more labor to preparing to increase poultry and dairy products. There seems to be at all times active demand for poultry and dairy products at prices that pay well for labor and investment.

**The Savage Pike.**  
 When bathing in Frensham pond, Surrey, Miss Shallis of Aldershot was bitten by a large pike on the leg, its teeth making deep cuts. "When the monster darted toward me with its mouth open it looked like a shark," said Miss Shallis, "and I was so frightened when it bit my leg that I had difficulty in shouting for assistance."—London Daily Mail.

**Aluminum.**

Aluminum is the most abundant metallic element in existence. Although it is more abundant than iron, it has not been used until the last 25 years, for it is found locked up so tight with oxygen that only the electric furnace can easily separate the two elements. It is an essential constituent of nearly all rocks except limestone and sandstone.—Dearborn Independent.

**SUMMONS**

In the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah.

James Albert Craig, Plaintiff,

vs.

All Unknown owners of and Unknown Claimants to any right or title to, or interest in, or lien or claim upon the East half (E½) of the Southeast Quarter (SE¼) of Section Four (4), and the Northeast Quarter (NE¼) of Section Nine (9), all in Township Forty-one (41) North of Range Five (5) West of the Boise Meridian, containing 120 acres more or less, excepting therefrom six acres occupied by the right of way of the Washington, Idaho & Montana Railway Company, running in an easterly and westerly direction across said land, Defendants.

The State of Idaho Sends Greeting to each and all of the above named Defendants:

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature in general terms as follows: To quiet title to the East Half (E½) of the Southeast Quarter (SE¼) of Section Four (4) and the Northeast Quarter (NE¼) of Section Nine (9), all in Township Forty-one (41) North of Range Five (5) West of the Boise Meridian, containing 120 acres more or less, excepting therefrom six acres occupied by the right of way of the Washington, Idaho & Montana Railway Company, running in an easterly and westerly direction across said land.

And you are hereby directed to appear and answer said complaint within 20 days of the service of this summons, if served within said Judicial District, and within 40 days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

WITNESS my hand and the seal of the district Court of the Second Judicial District of the State of Idaho, in and for Latah County, this 4th day of April, A. D. 1922. (SEAL)

Harry A. Thatcher, Clerk.  
 By Adrian Nelson, Deputy.  
 Frank L. Moore, Residence Moscow, Idaho, Attorney for Plaintiff.

**POULTRY**

**SEX OF EGGS AND CHICKENS**

Department of Agriculture Says There is No Dependable Method to Determine Sex.

(Prepared by the United States Department of Agriculture.)  
 Raisers of poultry have long wished for a reliable means for determining the sex of chicks and of eggs to be used for hatching, but, in spite of the promise of various manufacturers of devices, the United States Department of Agriculture says there is no very dependable method for determining the sex of chicken that a certain egg will produce, and that it is extremely difficult to determine the sex of chicks of most breeds.

The department has made tests of a number of devices claimed by the

Barred Plymouth Rock Cockerel.

makers to give good results in sorting out male, female and infertile eggs. In all cases they have been found to be useless for the purpose, as two persons could never get the same result with a lot of eggs, and hatching tests showed that one could do just as well by closing his eyes and picking out the eggs at random.

On account of the difference in the color of the down of the sexes it is often possible to select with considerable accuracy the hens and cockerels of the Barred Plymouth Rock as soon as they are hatched, but in the case of most other breeds and varieties this selection cannot be made with any certainty until some time later. Those who know the breed well are able to distinguish between the sexes of Leghorns when they are three to four weeks old. The sexes of the medium-weight breeds, with the exception given above, have the same appearance until the chicks are 10 or 12 weeks old. The surface sex differences in the Asiatic breeds are not as apparent until the birds are three or four months old.

There may be differences that will make it possible to sort the sexes earlier, but so far poultrymen have found no reliable basis for selection.

**GREAT IMPORTANCE OF OATS**

Used in Ration of Growing Chick It Does Much to Build Up Strong Frame and Muscle.

The importance of oats in the poultry ration cannot well be overlooked. It forms the backbone in many rations. It is chiefly important in the growing ration for young chicks, for it will grow frame and muscle more economically than any other grain. Steel-cut oats, rolled oats, or growing mash containing ground oats or oatmeal as a base are exceptionally economical feeds for growing stock. Fed in connection with buttermilk, it makes the best growing ration now known. Of course, a grain mixture should be fed for variety.

**POULTRY NOTES**

Confine the hen until the chicks are weaned.

The busy hen is the one that lays the most eggs.

Chicks should not receive feed until they are 36 hours old.

The baby chick will not stand chilling. It must have access to heat whenever it desires.

Toe-mark the chicks as soon as they are hatched. This enables one to tell their ages later.

Disease control and sanitation are among the most important things in poultry management.

Chicks chilled at some time early in their development keep dropping off even after attaining considerable size.

The coop for hen and chicks should be well ventilated, easy to clean and of sufficient proportions to insure comfort.

The cockerel that can be marketed as a broiler in March or April brings more money than the one marketed in June.

In cold weather ten to thirteen chicks are sufficient for one hen, while in warmer weather fifteen to twenty can be cared for successfully.

**WEEDS AND BUGS  
 DESTROY CROPS**

Best Time to Kill Garden Enemies is Before They Appear in the Spring.

**CULTIVATION IS GREAT AID**

Cutworms, Potato Bugs, Flea Beetles and Plant Lice Are Most Troublesome Insects—Some Excellent Control Measures.

(Prepared by the United States Department of Agriculture.)

Weeds and insects are garden enemies, and the time to kill both is before they appear!

Careful stirring of the soil destroys the little weed seedlings just after the seeds have sprouted. Likewise, cultivation keeps the garden in such shape that insects do not find a hiding place, and are not so liable to injure the garden crops. However, insects are almost sure to attack certain of the garden crops and it will be necessary to take precautions against them. Cutworms, potato bugs, flea beetles, and plant lice are the most troublesome garden insects. Do not give them a chance to get started.

The common cutworm does its work during the night, cutting off the plants just below the surface of the soil within a day or two after they are set in the garden. One of the best ways to prevent this injury is to surround the stem plant with a tube made of stiff paper or light cardboard, extending an inch or so below the ground and two or three inches above. These collars, or cutworm protectors, can be removed after the danger of injury is past—generally not until about 30 days after the plants are set in the ground.

**When Potato Bugs Appear.**  
 The old-fashioned Colorado potato beetle, or "hard shells," come out of the ground usually when the potatoes are about four or five inches high. These beetles themselves do not do a great amount of harm except that they lay clusters of yellow eggs on the un-

One of the Best Known, But Not Altogether Reliable Ways of Bugging Potatoes.

der side of the potato leaves. In a few days these eggs hatch into soft-shell beetles or slugs as they are sometimes called. In the soft shell, or slug form the potato beetle has an enormous appetite and a colony of them will soon strip the foliage from a hill of potatoes.

Hand picking is perhaps the best method of getting rid of the hard-shell beetles. They may be killed by either crushing them or dropping them into boiling water. The slugs or soft-shell beetles cannot be gathered to so good advantage, but they may be poisoned by sprinkling the plants, while the dew is upon them, with a mixture consisting of a heaping teaspoonful of paris green to a pint of air-slaked lime or land plaster. The easiest method of applying the mixture is to place it in a cheese cloth or thin burlap bag and dust the plants by shaking the bag directly over them. It is not necessary to apply the poison to all the plants, but only where the bugs have made their appearance. The plants should be inspected every day or two to see that the bugs are not getting a start.

**Flea Beetles Eat Holes.**  
 Flea beetles are small insects that eat round holes similar to shot holes in the leaves of beans, tomatoes, and a number of other garden crops. They can be poisoned with the mixture of paris green and lime referred to for potato beetles, or they can be driven away by dusting the plants with fine road dust, air-slaked lime, or with very dry, powdery, sifted coal ashes.

Plant lice are more difficult to control, as they do not eat the leaves, but stick their beaks into the leaves and suck the juices. They are rather difficult to control, as they are found mainly on the under side of the leaves. One remedy is to spray with some form of tobacco extract or nicotine sulphate, using about one teaspoonful in a gallon of water in which there has previously been dissolved a one-inch cube of laundry soap. The mixture should be thoroughly stirred and applied underneath the leaves especially, using some form of sprayer or atomizer that will create a fine mist.

If the gardener finds some insect with which he is not acquainted he should write to the extension division of his state college of agriculture.

**Homely Babies Popular.**  
 "Homely babies, especially those with freckles and red hair, are adopted, as a rule, more quickly than pretty babies," said the nurse in charge of a ward in one of Detroit's homes for orphans. "It seems that pretty babies, relying upon their good looks, fail to attract the attention of prospective foster-parents, while infants who were neglected when good looks were passed out, win their way into the hearts of childless couples through their happy smiles and flashing eyes."

**Ingenious Scheme Failed.**  
 When I was in the seventh grade at school, relates a correspondent of the Chicago Journal, there were two girls I thought I was in love with, but I could not, decide which one I liked best. So one day I thought I would write each a nice love letter exactly the same and I would then choose the one who answered the most favorably. But when they got their letters, each let the other know, so as to make her jealous. I wrote each again, but I got no reply at all.

**You Can Paint—**

Ask us how to renew the beauty of the chair or table that's in the attic

PAINTING home things is easy and fascinating. You can do it as well as anyone with a few simple directions which we will give you.

You may have furniture in the attic which is old only on the outside. It will be as good as new when refinished.

Or perhaps there are floors, woodwork and other things about the home that need beautifying. It's fun to do it and a big saving, too.

Our "Home Service Paint Department" was organized especially to help you make a success of the work. Write us today, telling what you want to refinish and what effects you want to get.

Our experts will answer promptly, giving you explicit directions covering every phase of the work. Just follow these simple directions and you'll get excellent results.

We make special paints, varnishes, enamels, wall finishes and stains for

you to use. They are the finest materials of their kind that we know. We have been making these products for 73 years.

Take advantage of Fuller's Free Advice and Fuller's Products and you'll be surprised and delighted with the wonderful transformations you can make in your home.

**Silkenwhite Enamel**

Silkenwhite Enamel produces a rich, beautiful finish on woodwork and furniture. Floors out smoothly and does not show brush marks. Produces a mirror-smooth surface. Stays white and wears long. Gloss white, semi-gloss white and 8 colors.

We also make Decorat Varnish Stains, All-Purpose Varnishes, Rubber-Cement Floor Paint, Washable Wall Finish, Fifteen-for-Floors Varnish, Fullerwear Varnish, Floor Wax, Auto Enamel, Fuller's Hot Water Wall Finish (alkaline), Porch and Step Paint, and FLOOR WHITE LEAD.

ing  
That we are self-supporting, puzzles  
the will,  
And makes us wonder why the world  
Places so little honor on the honest  
laborer?  
Thus conscience does make cowards  
of us all;  
And thus the native hue of resolu-  
tion  
Is sicklied o'er with the thot of  
"What will my neighbor think of  
me  
If I really get out and work?"  
And so with this regard our cur-  
rents turn away,  
And we choose the job with the  
white collar. —Iad.

### Rural Home Survey

In expressing their opinion on the difference between farm and city homes, many people have said that the latter were naturally better, but in making a survey of the country homes, I find that this was not altogether true. Many of the country homes are as well equipped and as convenient as most city homes. Then, too, the appearance of the homes was almost as good as some of the town homes.

For instance, I found that out of fifteen homes surveyed, all but three had white houses, nicely painted, and the remaining were tan, or of some other light color. All but four of these had very nice lawns, considering the water supply. Most of these homes had beautiful flowers, and of course as all farms should, they had very good gardens. The first of these homes which I visited had a drilled well very near to the back door. The water was not piped into the house here but out of the remaining fourteen homes nine had water piped into the house, four had bathrooms, and seven had hot water boilers.

I found too, that the heating system, though not as good as the former, was very good for a rural district. Only two had regular coal stoves, but all had common heaters, and a good kitchen stove. One home had two very nice fire places, one upstairs, and the other down stairs.

Besides having good heating systems, these homes had many other labor saving devices. Out of the fifteen homes, only two did not have oil stoves, and one of these had a fireless cooker. Then, too, only one home did not have a cream separator, the much needed farm implement. All of the farms had at least three milch cows, and most of them had more. One had over thirty milch cows. This farmer had the separator in a milk house, near the barn, and all cream was kept there, except that used at the house. This means much to the hard working house-wife. Every home but one had a washing machine, one of the greatest things to have in the home. One of these was a power washer. Every housewife enjoys a handy kitchen, and I found that most of these country homes had very handy ones, or at least they had some very good labor saving devices. Most of the homes had a very good handy and handsome kitchen cabinet.

Another great labor saving device is a car. Out of the fifteen homes surveyed, nine had cars, and not a one of these was a Ford. Most of the remaining six farmers are planning on buying cars this summer. All of these farmers say that their cars have been one of their greatest enjoyments, and that they would not be without one.

They say that in the evenings after working all day in the hot sun, a car ride is more restful than a couch.

All homes have some kind of musical instrument, for home loving people love music. This in most of the homes was as great an accomplishment as their many labor saving devices. Out of the fifteen homes, ten had pianos, four had organs, five had phonographs, five had violins, and others owned cellos, trombones, guitars, etc. All musical instruments were in good condition, and some members of each family were able to play some instrument.

Then, too, about the pictures which I found in these homes. Many people have said that the pictures in country homes are usually of ancestors and of animals. While I did not find any pictures of animals ex-

cept in two homes, the pictures of ancestors were plenty. Most every home had some of these, if not in their front rooms, in their bedrooms. I also found that almost every one had at least one painting of some kind, and some had more than one. Several fruit pictures were hanging in the dining rooms of some of the homes, and there were also a few calendars.

The furniture too, was quite good. I found that out of the homes surveyed, six had excellent, two had very good, four had good, and three had fair furniture. In some of these homes I found a great deal of furniture, while in others, only enough to get along on comfortably. None of the homes were so very poorly furnished, and what most of them had was well kept.

The rugs, I found to be also quite good, that is for country homes. Although quite a few had real good rugs, linoleum seemed to rank highest. However, I found that eight out of every ten homes had rugs in their front room, that were large and quite expensive, not too brightly colored. While in four of the homes I found that small rugs were used most and some of these were highly colored with animals, bright flowers, etc. In the kitchen I found that only two homes did not have linoleum, and all had it in their dining rooms. Only two homes had kitchens and dining rooms combined.

Taking the preceding paragraphs into consideration, one would think that the housewife would need a great deal of help. However, most of the families only have help during harvest, and two or three during the summer. Only three or four of these families are large, therefore not much help is needed.

By following carefully my survey blank and the preceding paragraphs, I graded the homes, taking the appearance of the home, the people, their environment, etc. into consideration. I found that three homes graded excellent, four were very good, seven were good, and only one was considered fair. Taking all into consideration, I think that since so very much work is to be done on the farm, the homes are kept in a great deal better order, and are better equipped than many city people realize. —Neil Ameling.

### Soliloquizing

Apologies to Shakespeare.  
To work, or not to work: that is the question.

Whether 'tis nobler in the mind to earn

Your own bread by the sweat of your face,

Or to exist in endless luxury and comfort,

While the poor unlettered rabble produce our substance.

To work: To loaf no more; and in the toil

To say we end the pleasures

That we have anticipated for so long a time.

To work? To labor? To work, perchance to sweat:

Ay, there's the rub; for in that toil and sweat

What that may come of the many pleasures

We are sacrificing, must give us pause:

There's the thot that makes us rather choose

The life of ease and luxury, of comfort and

The white collar, than that of the good honest hard laborer:

For who would choose to grunt and sweat

Under a heavy load but for the thot of an honest living.

The unequalled satisfaction of know-

### School Notes

School has lately become a very busy place as many students especially in the high school are now trying to pay back some of the time they have borrowed from their school work during the past three or four months

The grades are working hard on the May Festival which will be given Thursday afternoon, May 25th in the City Park. Festivities begin at 2:30 and the following program has been arranged:

Procession led by May Queen, Opal Jones; Maid of Honor, Artyle Hollada; Page, Buford Hogan. Crowning the Queen of May.

Solo Dance, - Maid of Honor.

May Pole, (Red, White and Blue), 2nd, 3rd and 4th grade children.

Flag Drill, 5th, 6th grade children.

Bleeding Dance, 3rd and 4th grade children.

Single Circle games, 1st and 2nd grade children.

Apple Blossom Dance, 5th and 6th grade girls.

Highland Schottisch, 3rd and 4th grade girls.

Parasol Dance, 7th and 8th girls.

Dutch Dance, 5th and 6th girls.

Double Circle games, 1st and 2nd grade children.

Calisthenics Drill, 2nd, 3rd and 4th grade children.

Couple Dance, 5th and 6th grade children.

Hoop Drill, 3rd and 4th grade girls.

May Pole, (High school colors), 5th, 6th, 7th and 8th grade girls.

A very good program has been arranged for the Parent-Teachers Association meeting, Friday afternoon. The program consists of several excellent musical numbers, a discussion of the problem of underweight children, and other interesting papers. Refreshments will be served by the domestic science department.

All parents are urgently requested to attend the meetings of the Parent-Teachers Association and help in making our schools better serve the needs of the children. High school girls have volunteered to care for children in the home where parents wish to attend the association meeting. If you want one of the girls will you please notify the superintendent not later than Friday noon. The meeting starts at 3 o'clock. Come early and visit the school.

### Father and Son

Be more than his dad,  
Be a chum to the lad,  
Be a part of his life  
Every hour of the day.  
Find time to talk to him  
Take time to walk with him,  
Share in his studies  
And share in his play.  
Take him to places,  
To ball games and races,  
Teach him the things  
That you want him to know;  
Don't live apart from him,  
Don't keep your heart from him,  
Be his best comrade,  
He's needing you so!

Never neglect him,  
Though young, still respect him,  
Hear his opinions  
With patience and pride;  
Show him his error,  
Be not a terror,  
Grim-visaged and fearful,  
When he's at your side;  
Know what his thoughts are,  
Know what his sports are,  
Know all his playmates,  
It's easy to learn  
To be such a father  
That when troubles gather  
You'll be the first one  
For council he'll turn to;  
You can inspire him  
With courage and fire him  
Hot with ambition  
For deeds that are good;  
He'll not betray you,  
Nor ill repay you,  
If you have taught him  
The things that you should;  
Father and son  
Must in all things be one,  
Partners in trouble  
And comrades in joy.  
More than a dad  
Was the best pal you had;  
Be such a chum  
As you knew to your boy.—Selected.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.  
F. J. CHENEY & CO., Toledo, Ohio.  
Sold by Druggists, 75c.  
Hall's Family Pills for constipation.

### Whooping Cough

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.—Adv.

### Softening Hard Putty.

Putty that has become hardened by exposure, as around window glass, may be softened and removed by the use of the following mixture: Shake 3 pounds quicklime in water and add one pound pearlsh, making the whole about the consistency of paint. Apply to the putty on both sides of the glass and let it remain for about 12 hours. It should then be possible to lift the glass out without trouble.

## GLEANINGS

Ole Torgerson of Juliaetta passed through town this week on his way to his farm in the boulder creek country, where he will spend the summer.

Sam Bolon arrived Wednesday from Yakima, where he has been working for the past few weeks.

Wm. DePartee and brother came over from Winchester the first of the week. The DePartee family expect to spend the summer here.

An operation was performed Wednesday afternoon at Lewiston on the little daughter of Mr. and Mrs. Leo C. Raaberg. An abscess had formed in each ear and made the operation necessary to relieve the trouble.

Born to Mr. and Mrs. Leonard Sturdevant, Sunday, May 14, a daughter.

S. P. Callison left in his car Thursday afternoon for Moscow. From there he and C. B. Green will drive to Chatolette Lake to fish for bass. Mr. Green caught 11 bass there the first of the week and couldn't resist a return trip.

George Larson of Camern left the first of the week for Kellogg to work in the mines.

Born to Mr. and Mrs. Fred Zimmerman of Crescent, Wednesday, May 17, a girl.

While the audience at the recital, given last Wednesday evening at the New Kendrick, by Josef d'Havarda, violinist, and Miss Elsa Petersen, pianist-accompanist, was not large, those present enjoyed the program immensely and were delighted with the beautiful musical numbers rendered by these two talented artists.

Mrs. Ernest Bolon returned the first of the week from Lewiston. While in Lewiston she underwent a second operation for appendicitis and is now recovering rapidly.

Invitations are now being sent out by the Leland Sunday school for a big picnic, to be held there about June 21. Sunday schools in the surrounding country will be asked to participate in the affair.

Byron Tupper of Clarkston spent Thursday in Kendrick at the O. E. MacPherson home.

Mrs. E. W. Lutz was called to Lewiston the first of the week on account of the serious illness of her mother.

Any job of printing that is sent out of town takes the price of it out of this community. The same is true of any mail order buying. Moral: Keep your money in circulation where you have a chance to get at least part of it back.

Hugh O'Donnell, editor of the Lewiston Banner, who was recently appointed register and receiver of the Lewiston Land office, was at one time publisher of the Kendrick Times. He has published newspapers in various parts of the Inland Empire for many years.

Frank Chamberlain took a truck load of baseball fans to Orofino last Sunday. Several cars also went from here.

Herman Schupfer, radiotrician was in Orofino the first of the week where he installed a \$500 radio set in the moving picture theater at that place.

Two Fordson tractors on Big Bear ridge working in the same field, have been plowing as high as 20 acres a day. They have been turning over an immense amount of soil this spring and are helping the farmers of that ridge to catch up with their spring work.

Elmer Bechtol says that he has driven from Spokane to Colfax in his four cylinder car in one hour and fifty-five minutes. A number of local speed fiends have tried to equal this time but so far have failed. The record over this distance is one hour and thirty-two minutes, made with a Hudson super-six.

S. P. Callison is improving the appearance of his residence by having it painted. Don and Walter McCrea have been doing the work.

The old fashioned girl who used to recite "Curfew Shall Not Ring Tonight" is past and gone. The modern flapper has modified the demand somewhat and is willing to let the Curfew ring along about 3:30 or 4 o'clock in the morning. Ex.

Born to Mr. and Mrs. A. K. Carlson, Wednesday, a son.

Ole Lien left Wednesday morning for a visit with his daughter, Mrs. Einar Bruseth, in Spokane.

Miss Ruth Dammarell went to Moscow Wednesday and was accompanied home by her brother, John, who is convalescing from his operation.

Jesse Hoffman of Leland recently purchased a new Willys-Knight car. Theo Hanson and Herman Schupfer went to Spokane, Tuesday. When they returned Mr. Hanson was the owner of a new Overland car.

Mr. and Mrs. A. V. Dunkle and children spent the week end in Lewiston at the home of Mr. Dunkle's sister, Mrs. Scudder.

It is reported that G. S. Porter, cashier of the Coldeasac State Bank, has resigned his position there, his resignation to take effect June 1. He will be succeeded by M. D. Mitchell of Nez Perce.

Jack Heacox of Juliaetta was transacting business in Kendrick Tuesday morning.

A winter wheat crop slightly smaller than in 1921, but still above the average for the last 10 years for this state, is forecasted in the government crop report for May. The hay crop promises also to drop below that of last year, the report states. The winter wheat acreage in Washington May 1 is placed at 1,202,000 acres, compared with 1,333,000 acres harvested last year.

W. M. Duthie of Troy has agreed to take over stock in the First National Bank of Clarkston, owned by Ole Bohman. Mr. Duthie will make his home in Clarkston.

E. E. Bechtol was in Spokane the first of the week on business.

Former service men will be given 90 days preferential rights in filing on the south half of the Colville Indian reservation.

High school girls of Ritzville have decided that in future they will adopt a plain costume of middie blouses and skirts for school wear. Crepe and silk will be taboo.

P. B. Kramer, a farmer resident near Ritzville, received a letter from Russia on which the postage amounted to 30,000 rubles. The value of the postage in American money was 15 cents.

Columbus Clark and Jack Heacox were in Kendrick Tuesday selling season tickets for the Juliaetta chautauqua. They reported splendid success and expressed their appreciation of the manner in which the business men of Kendrick responded. They promised a return of the favor when Kendrick's chautauqua comes next month. They sold tickets at nearly every business house in Kendrick.

Mr. and Mrs. Charles McKeever went to Clarkston, Tuesday, where they were called on account of the serious illness of their daughter-in-law, Mrs. Harry McKeever, who has pleural pneumonia.

Mrs. Charles Fox arrived this week from Seattle to visit her mother, Mrs. Sam Bigham, on American ridge.

R. D. Newton went to Spokane the first of the week to attend the Rexall druggists' convention, which was in session the first three days of the week.

Donald Miller arrived, Wednesday, from Herrington, Wash., for a visit with friends.

Leslie Roberts drove to Moscow Wednesday afternoon to transact business.

E. E. McDowell, who owns the old Powell place below Kendrick, has decided to start a dairy and will furnish milk to the people of Kendrick the year round. He expects to keep in the neighborhood of thirty cows, so will have plenty of milk to supply the demand. He has an immense amount of good pasture land on his place and figures that with this cheap feed he can sell milk at a very reasonable figure.

Miss Nell Ameling has written a very interesting article which appears in this issue of the Gazette. It concerns a survey of 15 farm homes on American ridge and gives a great many details that prove the fact that American ridge farm homes are away above the average in the possession of many modern conveniences.

**Lightning Strokes.**  
With regard to the voltage of lightning strokes there are only estimates. These range from a few hundred thousand to several million volts, depending upon the ideas of the persons making the estimates. No measurements have been made. The amperage of lightning strokes is more definitely known, a few attempts having been made to measure it. The best measurements of this kind show that the current intensity may be as great as 25,000 amperes. As for harnessing lightning and turning it into energy useful to man, no practicable scheme has yet been presented.

**Lumbago**  
This is a rheumatism of the muscles of the back. It comes on suddenly and is quite painful. Every movement aggravates the disease. Go to bed, keep quite and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. F. J. Dann, Brockport, N. Y., writes: "I can honestly say that Chamberlain's Liniment cured me of lumbago a year ago last summer. When I began using it, I was flat on my back in bed and could not turn to the left or right. I had a bottle of Chamberlain's Liniment in the house and this was applied to my back. It promptly drove away the pains and aches."—Adv.
