The "White Star Theatre" is the name the new management has tacked onto Troy's movie house. The building will soon wear its emblem on the exterior and an electric sign will guide the movie fans to the show house. The interior of the building is being painted and kalsomined, which greatly adds to its appearance. Various other arrangements are being made so that Troy will have an excellent show house. These arrangements are costing the management a considerable amount of time and money, but we believe their efforts will be rewarded by a liberal patronage. —Troy News.

Here is another reason that the farmers hold an optimistic view concerning the coming crop: Every drop of water caused by the rains and thaw during December, which dissolved a foot and a half of snow, soaked into the ground. This silt loam of ours is peculiar, in a way. Underneath it is a hardpan of considerable density, as all who have had excavating to do can testify. It will almost turn a pick point at any time except in early spring.

During the winter and spring thaws the snow water soaks thru the top soil and down into this hard subsoil as deep as three feet, depending upon the depth of the snow. The more snow there is to melt, the deeper the water goes into the hardpan.

During the growing season this water slowly evaporates under the summer sun, supplying moisture to the roots of the growing vegetation. At any time during the dry season soil that has been properly cultivated will be found moist and fine within an inch or so of the surface.

As stated above, the water from the recent thaw all went into the ground and the soaking process is going on. This looks good for the coming crop and the farmers are correspondingly elated.

In response to many queries as to costs of operating the University of Idaho the administration has prepared figures showing that the institution has been conducted on such an economical basis that the average taxpayer can scarcely feel his share. Out of each tax dollar, the university received only a little more than one cent. Says the Star-Mirror.

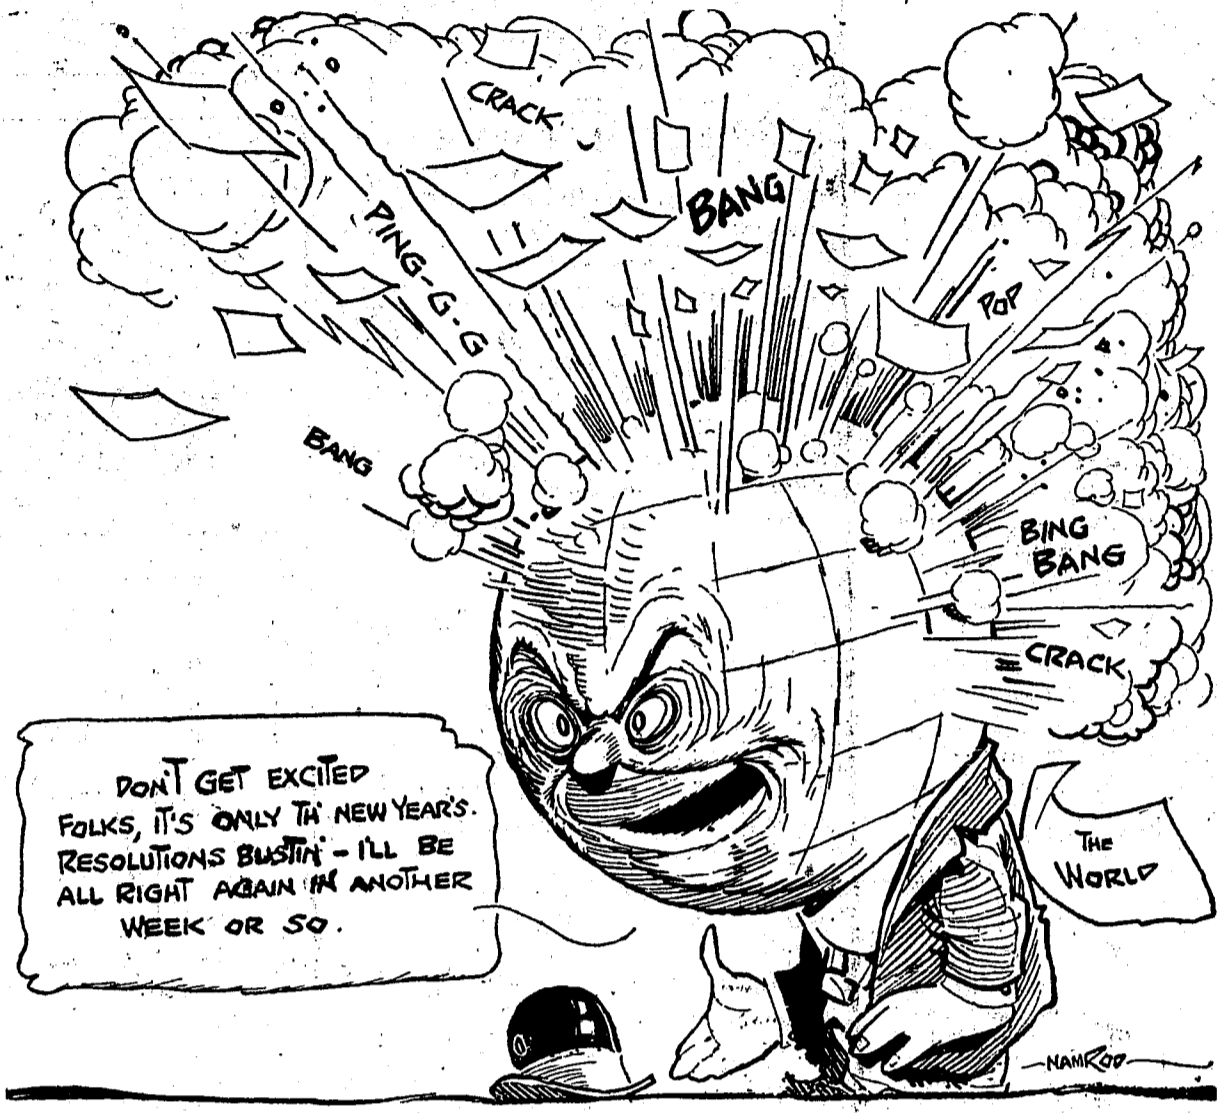

The figures show that out of his tax dollar for 1921 the Boise man contributed only 1 and 7-100 cents to the support of the university; the Coeur d'Alene man 1 and 7-100 cents, the Moscow man 1 and 7-100 cents, and the Idaho Falls man 1 and 3-100 cents. In the rural communities the per cent is higher but the average for the whole state is 1 and 8-100 cents.

This percentage means that the \$100 taxpayer, taken as the average in making the calculation, gives less than \$1.80 a year to the support of all the work of the university; pays 27 cents annually in state taxes to maintain the agricultural extension service; adds one cent a year to his tax burden to educate 10 additional students; would pay 25 cents a year for two years to provide the university with a new science building.

It has been suggested that Idaho compel non-resident students to pay tuition and in this way relieve the burden of taxation. Figures from the records of the United States bureau of education for 1920-21 show that all Idaho colleges educated only 202 students from outside the state, and not all of those attended the university. The same figures show that during the same year California institutions were educating 4043 students from outside the state; Oregon, 2023; Utah, 535, and Washington, 1652.

The same year, the bureau records indicate, 1102 students resident in Idaho were attending Idaho colleges; but 1304 Idahoans were getting college educations in other states. Of this number 179 were in California; 243 in Oregon; 237 in Utah, and 309 in Washington.

His Annual "Back to Normalcy" Season

FARMERS TO SHIP IN HIGH GRADE CATTLE

Will Help to Improve Stock in this Section

The assembling of orders for high quality purebred and high grade dairy cattle in Nez Perce County and adjacent territory will close Saturday forenoon, January 13, according to the statement of Waldo W. Skuse, Nez Perce County Agent. Several farmers have listed the kind of cattle desired, both with Mr. Skuse and with Dr. A. J. Powell, local Deputy State Veterinarian.

It is absolutely essential that deposits now be made with Mr. Skuse to cover the cost of cattle desired. Checks should be made payable to Mr. F. S. Wimer, the farmer representative of the Idaho County people that are pooling their orders with others from this section. Mr. Wimer has conducted a Guernsey dairy herd five miles from Cottonwood for the past several years, and he was selected by the Idaho County farmers and the Nez Perce County farmers to handle all funds in connection with the purchase of the cattle and to bring them back.

Mr. Gabby, of the Dairy Department of the University at Moscow, a very capable man in dairy work, will make the trip with Mr. Wimer, and they are due to leave Spokane this coming Saturday or Sunday night for Seattle and other coast points.

The animals will be selected by Mr. Gabby and, while his salary during the time of the trip will be paid by the University, his traveling expenses, as also those of Mr. Wimer, will be pro-rated against the cost of the cattle.

None of the females will be from cows of less than 400 lbs. annual production of butter fat, equivalent to 450 lbs. of annual production of butter fat. The bulls will be from cows of not less than 500 lbs. of annual production of butter fat. The bulls will naturally all be purebred, but the female stock will consist principally of high grades, although a few purebreds will be selected. Animals of this production are nearly three times as high producers as the average cow.

Deposits are being taken at the following rates: Bulls, \$300.00; Young bred cows, \$115.00 to \$125.00; Bred heifers, \$90.00 to \$100.00; Yearlings, \$50.00 to \$60.00; Calves, \$20.00 to \$25.00. These prices are figured very conservatively, as the delivered cost of the animals, and indications are that purchasers will receive a considerable balance from their deposits.

Death of W. C. Starr

The sudden death of W. C. Starr of Southwick, last Thursday, was a shock to the whole community. He apparently was in the best of health a short time prior to his death, going about his regular duties as usual. At about 11 a. m. Thursday he was working with a wood saw and went to the house to carry a bucket of water for his wife. When he went in the house, he complained of a pain in his chest and as it got more severe, he laid down. Mrs. Starr became alarmed and phoned for one of the neighbors, Homer Betts, who came to her aid as soon as possible, but before he arrived Mr. Starr passed away.

The funeral was held last Sunday morning at 11 o'clock at the United Brethren church, Rev. Berriman having charge of the service. Mr. Starr was one of the first settlers in the community in which he resided, and although the weather was extremely disagreeable, a large assembly of neighbors and friends attended the funeral.

William Clyde Starr was born February 4, 1867, in Lee County, Iowa. He died January 4, 1923.

He was united in marriage to Eva Bowman, July 17, 1898. To this union eight children were born, six sons and two daughters, who with their mother survive him. His aged mother also is still living.

The sympathy of the entire community is with the bereaved family in their time of sorrow.

Road Grading Started

Campbell & Barr started work Monday afternoon grading the road bed on the two miles of road from Kendrick to the district line beyond Hamill Hill. The contractors believe that with any kind of favorable weather conditions the grading can be finished by the first of March and then the crushed rock surface will be put on.

The Powell Hill grade, which was partly finished last summer, will be widened six feet and the dirt that is excavated will be used for fill at each end of the grade.

Campbell & Barr have demonstrated the fact in the street work here that they don't waste time on a job. The early completion of this section of road is now entirely dependent upon weather conditions.

Every week conditions look brighter for continuing the road work on to Juliaetta and then to the county line two miles below. From there we have every assurance from Lewiston that it will be completed at an early date to the highway below Arrow Junction.

KENDRICK HIGH WINS ONE MORE GAME

Defeat Fast Kamiah Team by Score of 40 to 35.

One of the hardest games of the season was played on the home floor last Saturday evening, when Kamiah lost the game to the Kendrick boys by only five points.

Kamiah has been classed as one of the strongest teams in the state, and since several of our boys were not in first class condition for playing a whole hearted game, there had been some doubt as to the winning side.

At the end of the first half, the score rested at 13 to 17, in favor of the visiting team. The Kendrick boys had played a hard game, and Kamiah had shown excellent team work, but in the second half it was even better. The score was repeatedly tied, and at the end of the game the score stood 31 to 31. Both sides probably played harder during the next five minutes than ever before. It was during this time that Kendrick won the game, with a decided score of 40 to 35.

K. G. Hunter, from the University of Idaho, refereed the game to the entire satisfaction of both teams. Mr. Hunter has had much experience in this work, and has the reputation of being fair in his methods of refereeing a game.

This game definitely places Kendrick in the lead as being one of the strongest High School teams in North Idaho. Both teams played a good clean game, and the Kamiah boys showed splendid sportsmanship both in the way they played, and in the manner in which they took their defeat.—N. G. A.

Porter Finance Commissioner

Governor C. C. Moore has selected former State Senator E. W. Porter, of Juliaetta, to succeed J. G. Frank, state commissioner of finance, who resigned. The date of the change of commissioners has not been agreed upon. Mr. Porter, who has been in Boise several days, has had conference with Governor Moore.

L. E. Brooks of Moscow, deputy state game warden, was in Kendrick, Wednesday. He was called here by the highway commissioners to dynamite a beaver dam between Kendrick and Juliaetta. The dam caused the water from the creek to overflow the road. It is said that if the dam is dynamited the beaver will hunt a new location.

MOORE WILL ABOLISH HICKEY CARD GAMES

Latah Prosecuting Attorney Making Clean-Up.

Prosecuting Attorney Frank L. Moore has sent a letter to pool halls in Latah county declaring his intention to enforce the gambling laws as they apply to card playing for value. His enforcement of the law will stop all card playing for hickies throughout the county. Following is a copy of the letter which he has sent to pool hall and card room proprietors:

"The law of Idaho relating to gambling is found from Section 8307 to Section 8315, inclusive, of the compiled statutes. Section 8307 is as follows:

"Section 8307. Gambling: Punishment. Every person who deals, plays or carries on, opens, or causes to be opened, or who conducts, either as owner, employee, or lease, whether for hire or not, any game of faro, monte, roulette, lausquet, rouge et noir, rondo, or any game played with cards, dice, or any other device, for money, checks, credit, or any other representative of value, is guilty of a misdemeanor or and is punishable by fine not less than \$200, or imprisonment in the county jail not less than four months."

"You will note from the above, that any game played with cards for money, checks, credit, or any other representative of value, is a violation of the law. There is no doubt in my mind that hickies as used in connection with the card games as they are presently played or conducted in your place of business, are representative of value, which come clearly within the inhibitions of the statute.

"The law relating to the liability of any person who permits the playing of card games for these hickies in his place of business, is prescribed in Section 8308, which is as follows:

"Section 8308. Proprietors of house punishable. Every person who knowingly permits any of the games prohibited by the preceding section to be played, conducted, or dealt in any house owned or rented by such person, in whole or in part, is punishable as provided in the preceding section."

"The duty of myself as prosecuting attorney of Latah county, is prescribed by Section 8314, which is as follows:

"Section 8314. Officers to enforce law. Every prosecuting or county attorney, sheriff, constable or police officer, must inform a gambler and diligently prosecute persons whom they have reasonable cause to believe offenders against the provisions of this chapter, and every such officer refusing or neglecting so to do is guilty of a misdemeanor."

"From the latter section you will observe that if violations of the gambling laws come to my knowledge, and I refuse or neglect to prosecute such violations of the law, that I may be prosecuted for a misdemeanor."

"I am writing you to advise you that it is not my intention to subject myself to such prosecution, and further that the playing of cards in your place or business for any representative of value, must cease at once, or I shall proceed against you under the provisions of the law."

Dr. Rothwell Returns

Dr. W. A. Rothwell, who has been visiting relatives in Toronto and Montreal, Canada, for a greater part of the past year, returned home last Friday. He will resume the practice of medicine here and will have his office room at the same location as before. Dr. Rothwell has practiced medicine here for a period of thirty years or more and his service to the community during that time is hard to estimate. His life has certainly been one of service to the community.

"Why Men Leave Home," is the title of a new play. A newspaper down south says it is because he hates to stay there alone.

It is to be hoped that the Kansas man who paid \$1,000 for a queen bee didn't get stung.

What would we do without the money if each man paid just what he thought was his "fair share" of the taxes?

The desirability of being connected with a surfaced highway to Lewiston becomes more apparent every day. Lewiston has great things in store for the future and good road connections with this growing city will work to great advantage in many ways for this community. Kendrick will be on the map to stay.

In this day and age, what time is bedtime?

It is said of a Kendrick couple that the only time they ever went out of their house together was the day their gasoline stove exploded.

An editor declared that a man can get along without brains if he will keep still. Another old bird rises to inquire how you can make a man without brains keep still.

The Kendrick High School basket ball team deserves better support than it has been getting. The boys have made a splendid showing so far this season and are among the top-notchers among high schools of North Idaho. There is no reason why the business men of the town can't subscribe a sufficient amount to cover any deficit that may occur in the expenses of the team.

A certain preacher once said that "no newspaper man who took the truth for his standard would make a pecuniary success." The press might return the compliment by remarking that no minister who told the truth about his congregation, alive or dead, would occupy the pulpit longer than one Sunday afterward. The press and clergy go hand in hand with the whitewash brush producing rosy spectacles, magnifying little virtues and kindly throwing little deformities into oblivion. The pulpit, the press and our grave-stones are partners in saint-making.

Something lodged in a Brooklyn girl's eye while she was walking along the street and a man offered to get it out for her. After removing the irritating object he gave the young woman a kiss, for which she had him arrested and sent to the work house for 15 days. That's pretty rough. Usually when a young woman gets something in her eye, she expects to be kissed.

hope that by bringing the Sunday school before the public, it will stimulate interest in both schools. Watch for later information.

"AT THE SIGN OF THE JACK O'LANTERN"

"At the Sign of the Jack O'Lantern," a story by Myrtle Reed, comes to New Kendrick Theater, Tonight and Saturday.

The story of "At the Sign of the Jack O'Lantern" concerns the trials and tribulations of a young married couple who inherit their uncle's home, known as the "jack o'lantern" house. Soon after the newlyweds take possession, however, they are beset by a swarm of near and distant relatives who hope to share in Uncle Ebenezer's fortune.

But strange things begin to happen. Peculiar noises are heard at night. Doors slam, the floors creak and mysterious shadows and forms float through the halls at midnight. Through this atmosphere of mystery there runs a strong vein of humor and a charming love interest which ends in a most delightful romance.

Remember that this is one of Myrtle Reed's most popular stories.

Borrowed From 60 Years Ago

THIS is Peggy Wood, star of "The Clinging Vine," which opened in New York Christmas night. She's wearing an "Empress Eugenia" gown, a style fashionable 60 years ago, which now seems likely to come into favor again. The bodice is of Cyclamen pink satin and the skirt is of the same shade of chiffon. From the neckline falls a bertha of fine ecru lace and the skirt is covered by triple rows of the same lace, decorated with pink flowers.

It's far better to have the cement floor of a greenhouse set on a 6 to 10-inch layer of coarse stones. Dampness is fatal to plants.

A teacher asked her class the meaning of the word "furlough". A little boy in the class said: "It means a mule; it says so in a book." The teacher asked for the book and it was brought forward. The picture was of a soldier sitting on a mule and at the bottom of the picture was written: "Going home on his furlough."

Don't you think twenty-five thousand dollars in cash would be punishment enough for his breach of promise?" asked the lawyer of his acrimonious defendant. "No, indeed, I don't," she answered, "I want him to marry me."

Postmaster Brown reports that the receipts for the year for the local postoffice were \$16 larger than for the year 1921. An increase of an increase of \$150 more in the year's business would have brought him \$10 a year more salary.

Mrs. Stuart Compton and two children arrived last Friday from Orofino to visit at the N. E. Ware home on Bear ridge.

Mr. and Mrs. Theo Hanson returned Monday from a week end visit at Lewiston.

Frank Ellis was taken to Moscow last Friday to the hospital. He underwent an operation Saturday morning and is reported to be getting along very well.

E. W. Lutz made a business trip to Lewiston last Saturday.

Harold Thomas and Ray Snyder developed a solder in the Kendrick Hardware workshop, that will solder aluminum. The solder is a composition of metals and apparently does the business. Several samples of the work it will do are on display at the hardware.

E. Erickson returned the first of the week from a business trip to Lewiston.

Miss Evelyn Hanson was in Moscow the guest of her sister over the week end.

Archie May, commissioner of Potlatch Highway District, was in Lewiston the first of the week on road business.

If all of our subscribers were as prompt in paying their subscriptions to the Gazette as Louis Herbert of Lapwai, the subscription department would be self-operative. The first of every January, as regularly as time itself, a check for the Gazette to pay a year in advance, arrives from Mr. Herbert.

While A. V. Dunkle was walking past the old Carlson Hardware building last Sunday night, the wind blew a brick off the top which landed with a tremendous concussion on the top of his head. The only inconvenience suffered since the accident is the discomfort caused the unfortunate victim, by wearing his radio head receivers.

The following trustees were elected Tuesday by the stockholders of the Fraternal Temple Company: N. Brocke, M. O. Raby, N. E. Walker, W. M. McCrea and S. P. Callison.

Miss Minnie Morsching, Nez Perce county public health nurse, was called to Southwick Wednesday to make contact inspection for diphtheria.

The writer spent several hours last Saturday afternoon in Elmer Bechtol's cabinet shop at Moscow. Mr. Bechtol is doing a splendid business and has a very well equipped shop. He is installing some new machinery and making a number of changes in the equipment for added convenience. It is the only cabinet shop in Moscow and has always done a thriving business.

Daughter—"Oh, pa-pah, what is your birthstone?"
Father of Seven—"My dear, I'm not sure, but I think its a grindstone."

Board of Directors for the Kendrick Theater Company to serve for 1923, are Jody Long, president; Ralph B. Knepper, vice-president; E. W. Lutz, secretary-treasurer. The annual meeting of stockholders was held Tuesday afternoon.

Dr. D. Smith, local dentist, has been quite ill at his home this week.
Born, Wednesday, to Mr. and Mrs. L. E. Bradshaw, a son.

Rev. Russell will not preach here Sunday morning on account of special meetings which he is holding at Lapwai. The Ladies' Aid of the Presbyterian church will meet at the home of Mrs. A. V. Dunkle next Wednesday afternoon.

The members of the Okoke Klootch man Club and their husbands spent a very pleasant evening at the home of Mr. and Mrs. M. B. McConnell, Wednesday. After several hours of bridge, refreshments were served by the hostess. The high score for the evening was won by Mrs. Knepper.

Signs of spring: Mesdames Rogers, Erickson, Leith, W. Thomas and MacPherson put on their hiking suits, boarded the afternoon train to Juliaetta and walked back to Kendrick, Thursday.

The Potlatch highway commissioners will hold their first meeting of the year at Leland, Saturday morning, at 10 o'clock. The commissioners expect to have a busy session that will take a greater part of the day to finish.

Artylee Hollada spent Saturday in Moscow visiting her sister, Miss Florence.

Lou Daugherty of Potlatch ridge was transacting business in Moscow last week.

Stewart Compton was an arrival, Thursday, from Orofino.

Mr. and Mrs. Wm. Rogers entertained the Circle Card Club at a party Tuesday evening. Cards were enjoyed until a late hour and after adding up the scores it was found that E. E. Erickson was high and the prize was awarded to him. Theo Hanson received the consolation prize. Mrs. Rogers served a dainty lunch.

Dr. Hoyt Not Injured

The many friends of Dr. Hoyt will be glad to learn that the item in the Spokane Chronicle, reprinted in the Gazette, was in error in stating that the Doctor was injured in an auto accident in Spokane Tuesday of last week. Following is a paragraph taken from a letter received the first of the week:

"I had a wreck alright but was not hurt at all. A cop came on the scene before we got cleared up and he gave the item to the Chronicle. I do not know what made him think that I was hurt or thrown from the car. I came down Cedar Street at 3 a. m. making an emergency call and at fourth Avenue a young fellow was coming up fourth as fast as he could make his car go and hit me square larboard. The damage to my car they estimate will cost \$200.00 for repairs."

Parent-Teachers Meeting

Our next "Parent-Teachers" meeting will be held at the school auditorium, Friday, January 26, at 2:30 p. m. A local program is being prepared and all are invited to attend.

We would like the parents to be thinking of other ways in which the school may be able to help the children, and be prepared to discuss the same.
