

NEWS NOTES FROM KENDRICK SCHOOLS

Events of Interests to School Patrons.

The basket ball team went to Astin and Anatone on Friday and Saturday of last week. We are sorry to report that they suffered defeat at both places. Anatone, as was shown here before, was much too large a team for the Kendrick boys, and the score was 25 to 51. As a result of the Anatone game on Friday night, the boys were not in first class condition to meet Astin, and so lost the game with a score of 28 to 42.

The first semester examinations were taken on Thursday and Friday of this week. At the first of the year a rule was made in high school concerning the semester examinations, and who should be excused from them. It was decided that if a student had no absences he should be excused from examinations with an average of 80 per cent. If he had two excused absences, an average of 85 per cent was required. For four excused absences, the student must have an average of 90 per cent, and for six excused absences, an average of 95 per cent. If a student had any unexcused absences, he should be required to take all examinations. This system has worked wonders in attendance as well as scholarship and as a result only a few of the students are taking the semester exams. Those excused from examinations with an honor grade for the semester are as follows:

Algebra: Vera Ameling, Velma Ameling, Charles Crocker, Pearl DePartee, Dorothy Erickson, Guy Foster, Velma Heath, Clarabelle Moore, Marian Pickering, Grayce Plummer, Violette Riley, Pansy Riley, Hervert Swartz, Fred Wegner.

Geometry: Elvira Atchison, Flossie Bradshaw, Edith Dammarell, Mildred Holt, Artylee Hollada, Elizabeth Hund, Milton Lockwood, Allie Moore, Ida Morey, Marian Pickering, Alice Wegner, Lena Wegner.

Biology: Vera Ameling, Velma Ameling, Elvira Atchison, Flossie Bradshaw, Nora Cox, Artylee Hollada, Dorothy Jones, Milton Lockwood, Allie Moore.

Chemistry: Rita Leith, Beulah Long, Audrey Stanton, Nell Ameling, Merit Smith, Alice Wegner, Lena Wegner, Elizabeth Hund, Elsie Bird, Chauncey Compton, Edith Dammarell, Dorothy Jones.

U. S. History: Edith Dammarell, Chauncey Compton, Beulah Long, Nell Ameling, Audrey Stanton, Edna Quirk, Dorothy Jones, Elizabeth Hund.

English I: Charles Crocker, Pearl DePartee, Dorothy Erickson, Guy Foster, Milton Lockwood, Rilla May, Herbert Mielke, Clarabelle Moore, Grayce Plummer, Pansy Riley, Herbert Swartz, Fred Wegner, Alberta Walker, Elsie Morey.

English III: Vera Ameling, Velma Ameling, Elvira Atchison, Flossie Bradshaw, Artylee Hollada, Allie Moore, Marian Pickering, Violette Riley, Dorothy Stanton, Velma Heath.

English IV: Edith Dammarell, Elizabeth Hund, Beulah Long, Jannita McDowell, Audrey Stanton, Merit Smith, Alice Wegner, Edna Quirk.

Domestic Science II: Velma Ameling, Vera Ameling, Nora Cox, Elizabeth Hund, Allie Moore, Ida Morey, Violette Riley, Marian Pickering, Audrey Stanton, Edna Quirk, Dorothy Stanton.

Domestic Science I: Pearl DePartee, Dorothy Erickson, Velma Heath, Clarabelle Moore, Grayce Plummer, Pansy Riley, Alberta Walker.

Comm. Civics: Charles Crocker, Velma Heath, Pearl DePartee, Dorothy Erickson, Guy Foster, Rilla May, Herbert Mielke, Clarabelle Moore, Grayce Plummer, Pansy Riley, Herbert Swartz, Fred Wegner.

Buckles-Wilken

Miss Carrie Buckles of Lewiston, daughter of Mr. and Mrs. Jeff Buckles, was married to Mr. Herman Wilken, last Sunday morning at 9:30, Rev. D. J. W. Somerville, rector of the Episcopal church, officiating. The wedding took place at the home of the bride's parents in Lewiston. The bride was attended by her sister, Miss Nellie Buckles, and George Wilken, brother of the groom acted as best man.

Following the ceremony a dainty wedding breakfast was served to the bridal party, which included a few intimate friends and relatives of the bride and groom.

In the afternoon the happy couple left for their home near Fir Bluff where Mr. Wilken is engaged in farming.

Mrs. Wilken has taught very successfully at Cameron and Kooskia. She is a graduate of the Kendrick High School and Lewiston Normal. Mr. Wilken was in the mercantile business and was postmaster at Cameron a few years ago.

Miss Lucile Antonsen and Mr. Clifford Elliott were married in Spokane, January 13. Rev. Wallin of Spokane performed the ceremony. Mr. Elliott is a son of William Elliott of Bear ridge.

Bathing Girl of Year 1923

HERE'S a cap the bathing girl of 1923 will regard with favor. With a number of variations, it's popular now at the Florida beach resorts, and style leaders say this is an infallible test for the rest of the country a few months later.

ner, Alberta Walker, Elsie Morey. The state examinations are being taken this week by the seventh and eighth grades. Several students have come in from the country to take these examinations. They are: Rachael Riley, Kirk Wilson, Fred Van Wert and Bruce Wilson, all from District No. 91.

Don't Be a Weather Prophet

Dr. W. A. Rothwell, who is now the pioneer resident of Kendrick stated this week that the mild weather experienced in the Potlatch so far this winter doesn't signify anything to him. He has a picture on the wall of his office that was taken on the first of March a good many years ago. It shows a frozen waterfall that came from the old mill race near where the flour mill used to stand. Several people were sitting on this huge block of ice. The temperature on this particular day was 12 below zero and ice houses were being filled with 8 inch ice. Two weeks prior to the day the picture was taken buttercups were in full bloom along the slopes of the Potlatch.

Death of Elmer Bigham

Elmer Bigham, son of Mr. and Mrs. R. F. Bigham of this place, died last Monday at the Northern Idaho Sanitarium, the cause of his death being epilepsy.

Funeral services were held here, in charge of Rev. C. A. Pickering, Methodist minister, interment being made in the American ridge cemetery.

When the deceased was but a boy he was kicked in the forehead by a horse and his skull badly fractured. A doctor at Orofino stated that his death was due indirectly to this former injury.

Robert Bigham, brother of the deceased went to Orofino, Monday and brought the remains here for burial. A sister, Mrs. Harris Benscoter was here for the funeral.

Blind Mule

Rastus—"Dat mule you done sold me is blind."
Bowles—"Oh, dat mule ain't blind."
Rastus—"I say that mule am blind. He ran plum into a tree when I put him in the field."
Bowles—"No, Rastus, dat mule ain't blind nohow. Dat mule just don't give a damn.—Ex.

"This is the 4th morning that you've been late, Susan, said the mistress to her maid. "Yes' ma'am, replied Susan. "I overslept myself, ma'am." "Where is the clock I gave you?" "In my room, ma'am." "Don't you wind it up?" "Oh, yes, ma'am, I wind it up, ma'am." "And do you set the alarm?" "Every night ma'am I set the alarm." "But don't you hear the alarm in the morning, Susan?" "No, ma'am. That's the trouble, ma'am. You see, the thing goes off while I'm asleep, ma'am."

Rebekahs Install Officers

The installation of the officers of the Rebekah lodge took place last Tuesday, Mrs. Pearl Long, district deputy president, acting as installing officers. Following is a list of the officers: Mrs. Effie Kite, N. G.; Art Ozman, V. G.; Mrs. Pearl Long, Reg. Sec.; Tom Sturdevant, Fin. Sec.; Minnie McDowell, Treas.; Dolly Lewis, R. S. N. G.; Mrs. Grinolds L. S. N. G.; Mrs. Housley, Warden; Mrs. Lester Hill, Conductor; Mrs. Brocke, I. G.; Tom McDowell, O. G.; Lester Hill, R. S. V. G.

After installation refreshments were served.

Commends Village Board

As an outsider I wish to congratulate the people of the Village of Kendrick upon the passing of the ordinance relating to the attendance at dance halls by children under sixteen years of age. I believe that children of that age are too susceptible to evil influences to be permitted to attend public dances. I only wish that other and larger cities would follow the example of advanced ideas as set by your Honorable Mayor and Councilmen in Ordinance number 186.

Respectfully,
Asa M. Calvert,
Principal Southwick High School.

Retain Latah County Agent

The work of the county agricultural agent in Latah county will be continued according to a decision reached by the Latah county board of commissioners who have appropriated \$2500 for the continuance of the work with O. S. Fletcher, county agent, in charge, says the Star-Mirror. The appropriation is the same for the coming year as in 1922.

Dr. F. M. Leitch, of Moscow, was appointed coroner, succeeding Glen Grice, resigned. Mr. Grice has given up his undertaking business and has moved from Moscow. Dr. Leitch is a republican.

The Idaho Post has been named the official county paper by the county commissioners for the coming two years.

Dr. J. W. Stevenson was reappointed Latah county health officer. Sam Hunt will continue as superintendent of the Latah county poor farm, according to the commissioners' decision.

The Kendrick and Orofino basket ball teams will play here a week from Saturday, at the local gym.

Death of L. A. Stevens

Lamott A. Stevens was born in Iona county, Michigan, March 26, 1845. He died at the home of Mr. and Mrs. J. L. Johnson on American ridge, January 15, 1923, age 77 years, 9 months and 20 days.

Mr. Stevens came west when but 14 years of age and lived in California for a number of years. From there he moved to Oregon where he engaged in farming for several years and then moved to Idaho, settling on the reservation near Peck. Recently he has made his home with relatives as his home at Peck was made lonely by the death of his wife.

The deceased is survived by one brother, living at Alhambra, Cal., and one sister, Mrs. Mary Lawrence, who lives at San Pedro, Cal., besides a number of other relatives. He was a Christian and had no fear of death, waiting patiently for the end to come.

Funeral services were held at the Methodist church Tuesday morning, Rev. C. A. Pickering, having charge of the service.

Bear Ridge Report

The Big Bear Ridge Red Cross branch is organized on a peace time basis, and is prepared to give home relief when necessary.

The annual volunteer roll call closed with splendid results.

The 43 members are namely: Emma Aas, Mr. and Mrs. Fred Bailey, Mr. and Mrs. Wallace Emmett, Mrs. O. H. Forest, Bertina, Gabriel and Edwin Forest, Mrs. Kate Galloway, Dewey and Andy Galloway, Oscar Huffman, Fred Hecht, Mr. and Mrs. A. Hooker, Johanna Hooker, Mr. and Mrs. D. J. Ingle, Mr. and Mrs. K. D. Ingle, Mr. and Mrs. A. W. Jones, Mr. and Mrs. Ed Lien, Mr. and Mrs. Ole Lien, Anna and Evan Lien, Mr. and Mrs. John Mathes, Wayne Mathes, Mr. and Mrs. Rufus May, Thorvald Nelson, Mrs. A. N. Rogstad, Carrie Solli, Marit Vaguild, Mr. and Mrs. Will Whybark, Mr. and Mrs. N. E. Ware, Percy Ware.

The annual Red Cross business meeting and election of officers will be held at the U. B. church on Saturday afternoon, January 27, at 2 p. m. You are urged to be present.

Last week L. E. Brooks, deputy state game warden, promised W. M. McCrea that he would send 80,000 eastern trout here in the spring for stocking streams tributary to this locality. It is proposed to stock Three Bear Creek, as that is an ideal stream for eastern trout.

Spain's Fairest Woman

TRINI, proclaimed by beauty experts, almost without a dissenting voice, the most beautiful woman of Spain, is filling a dancing engagement in America. She is a characteristic type, as the picture shows, of southern loveliness.

LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns of Neighboring Papers.

B. C. Rowe, secretary of the Moscow chamber of commerce, is in receipt of a letter from Representative C. A. Hagan, acknowledging the receipt of the resolution adopted at the last meeting of the chamber, asking the legislature to memorialize congress to enact legislation fixing a minimum price of \$1.25 on wheat. Representatives Hagan and Anderson from this county had introduced a resolution in the legislature, prior to learning of the action of the Moscow chamber of commerce, in which a price of \$1.50 a bushel was asked.

Mr. Hagan is a member of the agricultural committee and writes that the resolution will come before that committee, and that he hopes to secure favorable action. He stated that he and Representative Anderson were glad to put forth their best efforts, and desired any local information at any time that might be of aid.—Star-Mirror.

The Puget Sound country hasn't anything on this section of the country just at this time—either for rain or warm weather. There has been a plenty of both during the past two weeks—but if the weather had been made to order it wouldn't have been better for fall sown grain, and the more installments of that "million dollar rain" that comes the better it will be, just so long as it all goes into the ground.

R. F. Lambert brought to the News office on Tuesday a bunch of as pretty pussy willows as one ever gathered in March, or any other season of the year, and they are now on display at the News office. Herr Von Smith, pig specialist of the Genesee schools, tried to make the News man believe that he had captured some of the little willows, and we tried to find out where he got the stuff that made him see things like that at this time of the year. But it must be a fact, as we have some of them to show.—Genesee News.

The Farmers Warehouse & Elevator, Ltd., property will be sold, and the company disorganized and dissolved, should the stockholders so decide at special meeting to be held in Deary on February 10. The board of directors, as well as a number of the stockholders have come to the conclusion that, in view of the fact that the business has been unprofitable and the company is deeply in debt, this is the only practicable course to follow.—Troy Press.

Edw. Solberg recently installed a large radio outfit in the telephone office and residents who have been fortunate enough to be on hand have heard some fine concerts from various points. Troy, New York; Fort Worth, Texas; Los Angeles, Calif.; and Calgary, Canada are some from a great distance that have been heard.—Troy News.

A very unusual sight at this time of the year was a game of ball being played on the local diamond last Saturday by the small boys of Juliaetta. The mild weather of the past two weeks resembles that of the month of April. There is no snow and the ball diamond was in very good condition for the game.—Juliaetta Record.

Injured by Axe

Milton Benjamin of Southwick, while cutting wood on the Finks place, met with rather a serious accident. An axe which he had driven into a tree above his head, fell and cut a deep gash in his scalp. He was taken to Leland where the doctor took five stitches to close the wound.

JANUARY CLEARANCE SALE!

Starts

SATURDAY, JAN. 20th

Clearance Sale of all winter merchandise, over 2 months left to use this merchandise this season. Buy at these low prices. It is our aim not to carry over merchandise from one season to the other. These are genuine bargains. Buy.

Sugar 4c a Pound

With each \$1.00 cash purchase during this Clearance Sale, excepting flour, we will sell 1 pound of Sugar at 4c. Butter and Eggs not considered as cash for this feature.

\$2.75 Flannel shirts, Clearance price	\$1.98	4 buckle all rubber overshoes, sale price	\$3.59
\$8.75 Army shirts, clearance price	\$3.19	Rubberized kitchen aprons, clearance price	.59
Army wool gloves, clearance price	.29	27 in. heavy outing flannel, clearance price	.19
Jersey gloves, clearance sale per pair	.14	\$1.25 wool heather hose, clearance price	.84
\$9.00 Men's wool mackinaws, sale price	\$7.29	1 lot 27 in. gingham, clearance sale, per yd.	.17
All Stag shirts at clearance prices, 20 per cent off.		82 piece gold band dinner set, sale price	\$5.95
1 lot Men's all wool overcoats, sale price	\$13.89	All wool dress goods, less 20 per cent during sale.	
\$4.25 Heavy Ball Band rubbers at	\$3.49	Men's wool pants at clearance prices.	
		Many other items at clearance prices.	

SWEATERS

Buy now, good for all-year-round wear. Clearance prices 20 per cent discount.

UNDERWEAR

All children's, ladies', men's underwear at clearance prices, 20 per cent discount.

Save Money on Groceries

No more complete stock in the entire Potlatch country. There will be bargains galore in this department. Buy your groceries here during this sale and save at least ten percent. Ten per cent discount on all groceries and meats, on purchases of \$1.00 or more during this sale, unless otherwise specially priced. Flour and sugar excepted.

French Troops Ready to Force Germany to Pay Up

THIS is a detachment of poilus held in readiness to enter the great German industrial region of the Ruhr to collect by force France's war claims which Germany is in arrears. The French plan is to hold this territory until these damage payments are brought strictly up to date.

Leland Items

- ✕ Mrs. Denzle Kuykendall is visiting her sister at Dayton, Wash.
- ✕ The Ernest Schmidt family were visitors at the C. Craig home, Sunday.
- ✕ Little Miss June Parks, weight six pounds, arrived at the home of Mr. and Mrs. Hugh Parks, Sunday, and bids fair to be a very popular Miss as she is the first and only grandchild in the Parks or Hund families.
- ✕ Mrs. Spear is visiting her daughter, Mrs. Jesse Hoffman.
- ✕ Mrs. Lucy Hoffman is visiting her children here.
- ✕ Mr. and Mrs. Koepf dined Sunday with Mr. and Mrs. Lloyd Kuykendall.

LELAND SCHOOL NOTES

Three of the primary pupils were absent Monday on account of illness. They were: Irene Davis, Jay Fleschman and Helen Russell.

The first grade have just completed the Gordon Primer and are beginning on their Young and Field book.

Mrs. Dean spent the week end at

her home on the Clearwater river. Clifford Woodward is again in school after several days absence on account of sickness.

The second grade will begin another reauer Monday, having finished two.

The first semester examinations were given last week and this week begin our second semester, the 6th grade have taken up their new history "American Beginnings in Europe."

Those in the intermediate room receiving a prize for spelling were: Zella McVicker, Murial Oylear and Kenneth Hund.

The state examinations will begin Wednesday and continue until the end of the week.

Ethel McVicker, Alice Thornton, Raleigh Smith and Clyde Gephart will take the examinations in geography and physiology.

The high school has begun practicing their play "All A Mistake." This will be given sometime in the near future.

Just received at the Kendrick Rochdale Elevator, a carload of eastern corn. Prices that will attract you.

Cameron News

Rev. E. A. Rein left for Lewiston, Monday, and from there went to Genesee to attend a Lutheran conference.

✕ Mr. and Mrs. Gus Kruger entertained the following at a dinner, Friday evening: Ida, Herman, Otto and Walter Siffow, Henry Wendt, August Brammer, Wanda and Wilbert Brunstiek, Gustav, Laura and Minnie Blum.

✕ The Misses Martha Finke and Henrietta Blum went to Lewiston last week, where they are working.

Word was received here of the marriage of Mr. Herman Wilken to Miss Carrie Buckles. Both of the young people are well known on this ridge as Herman was our store keeper and postmaster and Miss Buckles was the teacher here a few years ago. They have a large circle of friends who join in wishing them a long and prosperous married life.

Miss Hatie Wilken went to Lewiston last week for a few days visit.

✕ Announcements and invitations have been received for the wedding of Miss Martha Meyer to Mr. Sam Whidmer of Spokane. The ceremony took place Wednesday of this week at Spokane. Miss Meyer is a well known and esteemed young lady of this community, and Mr. Whidmer is a young business man of Spokane. The young people will make their home in Spokane. The following left Tuesday to attend the wedding: Mr. and Mrs. Carl L. Wegner and children, Mr. and Mrs. Aug. Meyer and children, Mr. and Mrs. Fred Uttke and son, Miss Wanda Brunstiek and Mr. Aug. Brammer. Miss Brunstiek acting as maid of honor and Mr. Brammer as best man, Mildred Wegner and Mithilda Groh of Bovill, both nieces of the bride were flower girls.

✕ George Wilken went to Lewiston, Saturday, to attend the wedding of his brother, Herman. Mr. Wilken acted as best man.

If anybody has any news to be sent into the Gazette, please leave it with Minnie Blum.

Fairview Items

✕ Mr. and Mrs. Virgil Fleschman and family spent Friday evening at the home of Mr. and Mrs. Lyle Harrison.

Mr. and Mrs. Roy Morgan were Leland visitors, Saturday.

✕ Miss Rosa Wolff has been quite sick for the past week, but is some what better at the present writing.

Mr. and Mrs. James Helton were callers, Sunday afternoon at the Byrne home.

Miss Edna Quick spent the week end at the home of her aunt, Mrs. Karmode.

✕ Emma Glenn spent Sunday visiting Edna Fleschman.

✕ Miss Edyth Boyd was a visitor Saturday evening and Sunday at the Virgil Fleschman home. Mr. Vincent was a guest also at the Fleschman home Sunday.

✕ Frank Wilken spent several days last week at the home of his father, helping to do some carpenter work

on the home.

✕ Mrs. Mary McCall and sons, Walter, Jack and Claire, were Sunday guests at the home of Mr. and Mrs. Hertung at Cameron.

The seventh and eighth grade pupils of the Fairview school took their examinations at Leland, Wednesday and Thursday of this week. Hazel Carlton is out of school at present with an attack of chicken-pox.

CARD OF THANKS

We wish to thank our friends and neighbors for their kindness and assistance since the death of our son, Elmer.

Mr. and Mrs. R. F. Bigham.

CARD OF THANKS

To all the friends and neighbors who assisted us during the illness and death of Lamott A. Stevens, we wish to extend our thanks and appreciation.

Mr. and Mrs. J. L. Johnson and family.

Prayer service, Thursday 7:30 p. m.

There will be preaching services both morning and evening at Kendrick, Sunday.

The Sunday school contest is getting under way. Come out Sunday and help us in getting started.

REDUCE INJURY BY INSECTS

Vast Number of Pests Can Be Destroyed in Fall by Cleaning Up Trash in Garden.

It is a truth that a stitch in time saves nine; in one case it may save nine hundred. That is in the garden where it is likely the last survivors among the insect pest colonies are harbored in the trash, weeds, and old stalks and vines. Invariably a vast number of these insects can be destroyed simply by cleaning up the garden and burning out the harboring places of the pests. Then to make the job still more complete, a late plowing will turn still more of the pests out where frost can get in its work. This will not replace the spraying next season, but it certainly will reduce the insect injury a lot.

Bilious Headache.

When you have a severe headache, a disordered stomach and constipation take three of Chamberlain's Tablets. They will correct the disorders of the liver and bowels, effectually curing the headache.—Adv.

KEEPING YOUNG

WHEN you are 89 years old, do you think you will still be active enough to be a traveling salesman, working eight hours a day?

That's what B. C. Ball is doing, at 89. He is an active book salesman, covering Ohio, Indiana and Kentucky. He is out on the road the year-round, except five weeks at Christmas time, which he spends at his home in Indianapolis.

Ball is the father of 14 children. He has been a traveling salesman for 70 years, but is not yet thinking of retiring.

Old age comes only too soon, to most of us. Ball, however, says it is easy to "keep young." Here is his formula: "Keep the mind young and the body will stay young, barring the development of maladies to which all flesh is heir. I'm an old man, but I do not let it worry me. If I did, I'd be in a wheel chair, wearing a nightcap. Too many men start aging at 40. They start kidding themselves that they are old. They dodge strenuous recreation on the grounds that they are old, and in a short time they ARE old."

The more we talk to cheerful old people, like Mr. Ball, the more it becomes apparent that youth of the spirit and mind is what counts, rather than youth of the body.

Inevitably our bodies wear out, just as leaves fall from the trees in autumn. One is less spry as the years slip by, and weights become heavier to lift and distances longer to walk.

But if we think young thoughts and keep in touch with the young folks, old age never will come to us mentally and spiritually. Old age, like youth, is largely a state of mind.

DWINDLING FORESTS ARE FORCING MUCH DECREASED USE OF LUMBER

The Exhaustion of Our Timber Supply is Coming About Because We Have Failed to Use Our Timber-Growing Land.

(Prepared by the United States Department of Agriculture.)

If the food consumed by each man, woman, and child were reduced by one-third, the pinch of hunger would soon be felt and the cry of famine undoubtedly raised.

Yet substitute the word "wood" for "food" and you have exactly what has happened in the use of lumber. The per capita consumption has dropped from 500 board feet in 1900 to 318 board feet in 1920, says the forest service, United States Department of Agriculture.

This decreasing use of a fundamental commodity, according to forest experts, is not a result of decreasing needs but a result of forest exhaustion. It is not being accomplished without economic hardship or without curtailment of industrial expansion. It is not a temporary condition that will automatically adjust itself, for even at this reduced rate of consumption we are still cutting our forests more than four times as fast as they grow. The situation proclaims, according to the forest service, that if we are to remain a nation of timber users, we must become a nation of timber growers.

Reached Highest Point in 1906. In 1906, when American lumber production reached its highest point, the average per capita consumption of lumber in the United States was approximately 500 board feet. Since that time the per capita consumption has rapidly and consistently decreased until in 1920 the average citizen used approximately 318 board feet. This is a reduction of 37 per cent in 13 years, or nearly 3 per cent a year. Should this decrease continue at its present rate, by 1940 the downward sweep of consumption would approach zero. This, of course, will not happen. The average consumption will ultimately reach a fairly stable level, which will depend mainly upon the extent to which our devastated forests are made again productive.

The consumption of lumber is not evenly distributed. Previous studies indicated that the states of the Pacific Northwest, now the last great stronghold of big lumbering operations, had a much higher per capita consumption than those of other regions, but the present figures are the first to give information for all states upon the same basis. Naturally the greatest per capita consumption occurs where wood

is plentiful and the population is relatively small. In Washington and Oregon the consumption appears to be between 900 and 1,000 board feet annually per person.

Next come California, Montana, Idaho, and Wyoming, where the rate of consumption is from 500 to 800 feet per person annually. In these states timber is relatively plentiful as compared with the density of the population, and a very considerable expansion has been taking place in the development of farms and other natural resources.

The group next lower in per capita consumption includes the Lake states, and sweeps southwesterly across the prairie states through Colorado, New Mexico, and Arizona. In this group the annual consumption is between 300 and 500 feet, board measure.

Use Less Than 300 Feet. Practically all the remaining states fall into a class in which the annual consumption is 200 to 300 feet. This group extends in a broad belt from Texas along the southern and eastern Atlantic coast to Cape Cod, Mass. It also includes North Dakota, Iowa, Utah, and Nevada.

The lowest consumption of all is in Rhode Island, the District of Columbia, South Carolina, and Georgia, in which the average consumption is rated between 100 and 200 feet per year. In the District of Columbia there is an extreme situation in density of population. No lumber is produced, there is little farming or manufacturing, and the entire population consists of urban dwellers in the city of Washington who live mainly in houses of brick and stone and require relatively little lumber. All the lumber used in the District of Columbia is imported from other states, just as it is in some of the non-timbered prairie states.

In general, the older and more densely settled states show the lowest average consumption. The states characterized by heavy agricultural operations come next, and the greatest use per individual is indicated in those states where there is still considerable timber and where the extension of home building is proceeding at a rapid rate, using the abundant material provided by the forests. The states are going through an evolutionary process, building first of lumber and later of more costly materials as the forests recede before fire and axe.

"Where the New Things Are Newest"

Trying to Put Europe Back on Its Economic Feet

WORLD leaders have been making a fresh effort lately to restore economic order in Europe. It all goes back to Germany. If she can pay the allies' claims, they, in turn, can meet their obligations, otherwise not. There's been much talk of a loan to Germany, to enable her to do her part. Men who have figured prominently in the discussion are shown here, from left to right, as follows: J. P. Morgan, Secretary of State Hughes, President Harding, Premier Bonar Law of England and Chancellor Cuno of Germany

Grade Crossing Smash Missed By Margin of Inches

THE photographer who snapped this scene had set up his camera at a grade crossing to get a picture of a mile-a-minute express train. At the moment it was due to pass an automobile appeared, rushing for the crossing. The photographer clicked his shutter, expecting to catch the accident. But the chauffeur set his brakes and the train missed the car by inches.

Seed Corn Tips

There should be a free circulation of air around the ears while they are drying.

Corn should not be dried in the direct sunlight.

Poorly dried corn will be much lower in germination.

Artificial heat or kiln drying quickly expels the excess moisture from the ears and prevents injury by freezing.

Kiln-dried seed corn has the greater vigor and vitality.

Do not overheat the corn while it is moist.

Partially dried corn should not be exposed to wet weather.

After drying, corn should be stored in a dry room which is free from rats and mice.—R. A. Moore, University of Wisconsin.

MATERIAL FOR ROAD MAKING

First Shipment of Surplus Army Equipment Used in Germany Arrives at Brooklyn.

The first shipment of surplus war material used by the American army of occupation in Germany and now to be distributed among the states for use in road construction arrived at Brooklyn, N. Y., July 1. The equipment consisting of 30 trucks, 7 tractors, 4 concrete mixers, and 3 road rollers, will be distributed by the bureau of public roads of the United States Department of Agriculture in the same way as was several million dollars' worth of material from France and the arsenals and camps in this country. Additional material for road making to be shipped from Germany will consist of several hundred trucks, a number of tractors, and about 2,000,000 pounds of spare parts for trucks.

FIRST CALF MOST VALUABLE

One Reason is That Heifer Devotes Her Time to Nourishment and Growth of Youngster.

There are numerous reasons why the first calf from a heifer may be more valuable than succeeding calves, and one of these reasons is that the sole duties of a heifer are to grow and nourish her first-born, while her duties of future years include the production of milk and butterfat and these take toll from her and the food she receives in proportion to the magnitude of her production.

IMPORTANT IN CHICKEN YARD

Health of Fowls Depends Largely on Kind of Feed That is Given and How it is Served.

The health of our family depends largely upon the kind of feed that is given them and the way it is served. It is just as important to feed right in the chicken yard. Have the right kind of feed and see to it that it is of good quality, and not tainted in any way.

PUREBRED MAKES BEST GAIN

Puts on Weight Faster on Same Feed Than Either Grade or Scrub—Brings Higher Price.

The grade hog is more profitable for the farmer than the scrub or razor-back and the purebred is more profitable than the grade. The purebred gains weight faster on the same feed than either the grade or the scrub and finishes so much better for market that it invariably commands a much better price.

Most Profitable Hog.

The bigger a hog a farmer can make of himself the more profitable hog he is.

The Good

MAXWELL

Here's How New York Hopes to Solve Traffic Problem

AUTOMOBILES have given to all the world's big cities a traffic problem each find it hard to solve, but undoubtedly New York's is most puzzling. The metropolis is installing a series of bronze towers from which officials in control will do their work. This is the first of them, at Fifth Avenue and Forty-second Street. It's 23 feet high and from it all traffic signals will be flashed in every direction.

PREPARING FUEL FOR WINTER USE

Power Saws Enable Farmer to Utilize His Own Wood Lot With Very Little Expense.

GASOLINE ENGINE IS USEFUL

Coal Dealers Are Finding It Difficult to Obtain Sufficient Supply for All Their Customers—Skidway Saves Time.

(Prepared by the United States Department of Agriculture.)

A man, by taking thought, can grow a good tree in a lifetime, but it required all the inscrutable forces in nature's laboratory, working for ages and ages, to make the coal which we

now use so generously to run our mills and railroads, to heat our dwellings and drive our ships. By the exercise of care and foresight the farmer can assure himself of a supply of wood, but when the supply of coal is gone it will be gone forever.

Easier to Use Coal.
The large amount of labor required in preparing firewood for the stove has kept many farmers from using wood for fuel. It has been much easier to drive in to the nearest coal dealer and draw home a few tons of fuel already prepared for the stove. This winter, with coal touching top prices, the coal dealers are finding it difficult to obtain a supply sufficient for all their customers. Some of these customers must use coal, for the reason that wood is even harder for them to get; but the farmer with a wood lot is not in this class, and he will find it profitable to see how far modern machinery can replace the expensive hand labor in filling the shed with home-grown fuel.

A gasoline engine is a convenient farm-power unit. This machine will furnish the energy for operating the

wood-sawing machines and will earn its original price long before it has been worn out. The greater the length in which the wood can be cut and handled the less will be the cost of getting up the fuel supply. A power saw will make a cut much more quickly and economically than a man can make it with an ax. If a good skidway is built so that heavy poles and logs can be rolled up to the table of the saw, it will save a good many minutes with a man-operated crosscut saw or the slower ax. When the wood is being cut for the market it is usually cut into four-foot lengths, but such lengths are not necessary when the object is to get a supply of split wood for the farm kitchen and "chunks" for the big stove or furnace.

There is always an element of danger about a saw table that cannot be entirely eliminated by any safety devices yet on the market. The careful farmer will have these devices put on his saw, but he will take the additional precaution of keeping his hands and loose pieces of wood away from the moving saw blade. It never pays

Modern Machinery Reduces Hand Labor in Filling the Woodshed.

the sawyer to be hurried or to shove a stick against the blade without knowing that it is firmly held.

Requires Smaller Crew.

The drag-saw has its greatest efficiency when used upon wood over twelve inches in diameter. It does not require as much power to operate, does not cut as rapidly, and requires a smaller crew to manage than does the circular saw. One advantage possessed by the drag-saw is in the fact that its carriage rests nearly level with the ground, and there is less effort required to raise the wood to a position beneath the saw blade. One man can manage the drag-saw, but he

will have to stop the saw while he is clearing away the blocks and getting the logs into position.

GIVE BEES CARE IN AUTUMN

After Extracting Honey Beekeeper Should Watch Closely and Replace Poor Queens.

The beekeeper often loses interest in his apiary as soon as the honey has been extracted in the fall. That's often the time bees should be watched carefully, for they frequently need a new queen in late summer and early fall. Now is the time to look after the queens. Poor queens are occasionally supplied during the active season, and in such cases they must be replaced immediately after the honey crop is harvested.

Film Star in a New Frock

THIS is Gladys Walton, the film star, in a new dinner gown which dressmakers rave over. It's of black net and cream princess lace, with sash of black satin ribbon. Black satin slippers with rhinestone buckles complete the ensemble.

Build a Silo—Why?

1. It increases the feeding value of the corn crop from 25 to 30 per cent.
2. It helps the farmer make the best use of frosted corn, for even immature corn can be saved by putting it in the silo.
3. It gives insurance against short, drought-stricken pastures.
4. It provides juicy feed in winter which helps to make the cows healthy and productive when green feeds are lacking.
5. It furnishes the cheapest winter feed. Three tons of silage are worth fully as much as a ton of good hay.
6. It enables the farmer to feed his stock from fewer acres.

—Wisconsin Experiment Station.

Smoking Up to Pay a Bet

FILL SILO WITH BEET TOPS

Important That Dirt and Sand Be Eliminated—Well-Built Structure Is Safe.

A good crop of beets will yield from 3 1/2 to 6 tons of processed silage. The average cost of gathering the tops and filling, packing, and finishing the silo is about \$1 a ton. It is extremely important that the tops be gathered and put into small piles promptly after the beets are topped. The dirt may be easily shaken from the tops

while the leaves are still fresh. It is imperative that dirt and sand be eliminated. The same structure that is commonly used for putting up corn silage may be used for beet-top silage. Because beet tops pack in a very dense mass, the structure will sometimes crack and spread and thus allow air to enter. A well built silo is reasonably safe.

FEEDING VALUE OF ALFALFA

Surpasses Cowpeas, Soy Beans or Clover, Partly Because It is More Palatable.

Well-cured alfalfa has a higher feeding value than hay from any of the grasses. It has a greater feeding value than cowpeas, soy beans or clover, partly because it is more palatable. Experiments have shown that it is nearly equal to wheat bran and an economical substitute for high-priced protein concentrates. Hay made when the alfalfa is in full bloom is best for cattle, sheep and horses, but hogs and poultry find it too coarse and make considerable waste unless fed on hay cut in the earlier stages of bloom when stems are finer.

GUINEAS GROWING IN FAVOR

Raising of Fowls Becoming More Profitable Because of Gamey Flavor—Market in Fall.

Guinea fowl are growing in favor as a substitute for game birds, with the result that guinea raising is becoming more profitable.

They are raised usually in small flocks on general farms, and need a large range for best results.

Domesticated guinea fowls are of three varieties, Pearl, White and Lav-

Guinea Fowls Gain Favor as Substitute for Game Birds.

ender, of which the Pearl is by far the most popular.

Guinea fowls have a tendency to mate in pairs, but one male may be mated successfully with three or four females.

Guinea hens usually begin to lay in April or May, and will lay 20 to 30 eggs before becoming broody. If not allowed to sit they will continue to lay throughout the summer, laying from 40 to 60 or more eggs.

Eggs may be removed from the nest when the guinea hen is not sitting, but two or more eggs should be left in the nest.

Ordinary hens are used commonly to hatch and rear guinea chicks, but guinea hens and turkey hens both may be employed successfully, although they are more difficult to manage.

Guineas are marketed late in the summer, when they weigh from one to one and one-half pounds at about two and one-half months of age, and also throughout the fall, when the demand is for heavier birds.

Pretty Fat for a Wrestler

Oshiki, shown here, is wrestling champion of Japan. At a big tournament recently held in the mikado's country he downed all comers with ease. The photograph pictures him wearing his championship belt.

Mrs. James Langdon and Miss Carrie Allen spent Wednesday at the Alexander home, and Thursday with Mrs. Starr.

Mrs. Bud Harris and children spent Saturday with Mrs. Anna Morrison.

Mr. and Mrs. Granvill Wall and children and Mr. Fonburg were callers Sunday afternoon at the home of Mr. and Mrs. Arthur Bohn.

Mr. and Mrs. James Garner made a business trip to Lewiston and Moscow, returning home Monday.

Mrs. A. Alexander was called to Moscow, Monday, by the illness of her sister, Mrs. Dicks.

Clarence Fry and Ben Smith, who are working at Long Meadow, were on the ridge Sunday.

Mr. and Mrs. Addie and Mrs. Hattie Alexander, were Sunday visitors at F. C. Lyons.

Mr. and Mrs. J. B. Darby were dinner guests at the Smith home Sunday.

The Rev. Presnel and Pearson, are conducting revival meetings here every evening this week, beginning Sunday evening. It is hoped there will be a good attendance.

Mrs. James Langdon of Juliaetta is visiting at the home of her son, Earl, this week.

Elsie and Charley Zimmerman spent Saturday evening with their sister, Mrs. Stuart Wilson, at Long Meadow.

The annual meeting of the Gold Hill and Park Telephone Co., was held in the hall Saturday afternoon. Election of officers and other business was transacted.

SUMMONS

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF LATAH.
Lawrence W. Gebson, Plaintiff,
vs.
All Unknown Owners of, and all unknown claimants to, any rights, or title to, or interest in, or lien or claim upon the Northeast Quarter (NE $\frac{1}{4}$) of the Northwest Quarter (NW $\frac{1}{4}$) of Section twenty-five (25), in Township thirty-nine (39) North of Range Two (2) West of the Boise Meridian, in Latah County, State of Idaho, Defendants.

The State of Idaho Sends Greeting To each and all of the above named defendants.

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature in general terms is as follows:

To quiet title in plaintiff in and to the Northeast Quarter (NE $\frac{1}{4}$) of the Northwest Quarter (NW $\frac{1}{4}$) of Section twenty-five (25), in Township thirty-nine (39) North of Range Two (2) West of the Boise Meridian, in Latah County, State of Idaho.

And you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgement against you as prayed in said complaint.

Witness my hand and the seal of the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, this 5th day of January, A.D. 1923.
Harry A. Thatcher, Clerk
By Adrian Nelson, Deputy
(Seal)
Frank L. Moore, Residence Moscow, Idaho, Attorney for Plaintiff. 2-6t

RUPTURE EXPERT HERE

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO SPOKANE

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Davenport Hotel and will remain in Spokane Thursday, Friday, Saturday and Sunday, January 18-19-20 and 21. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. This result effected during the day—the repair continues of itself throughout the night during sleep while all strain is removed. Being a vast advancement over all former methods and exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in

England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate, without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State courts.—F. H. Seeley.
Home Office, 117 N. Dearborn St. Chicago. —Advertisement

FARM POULTRY

SPEED RECORD FOR PIGEONS

Birds Bred by Department of Agriculture Have Established New Marks in Flights.

(Prepared by the United States Department of Agriculture.)

The homing pigeons, bred and owned by the bureau of animal industry, United States Department of Agriculture, at the government farm, Beltsville, Md., have established a record during the past three years which stands alone and unequalled. Beginning with 1919, the year in which the loft was established, the Beltsville birds won first and second in the 100-mile and first in the 200-mile young-

Starting a Homer on its Journey.

bird races as well as best average speed in flights of from 100 to 300 miles. In 1920 the birds from this loft won first, second, and third in the 200-mile and first, second, and third in the 300-mile race. In 1921 they won first, second, and third in both the 400 and 500-mile old-bird races, and best average speed of the Washington Racing Pigeon club and the National City Concourse association under whose auspices the races were flown.

In 1919 there were 33 lofts competing, in 1920 35 lofts, and in 1921 over 40 lofts comprising the best birds of the best breeders in all of Washington. This record of first and second and first, second, and third in all races from 100 to 500 miles was won separately by individual birds and has never been equaled by any homing pigeon breeder in the District of Columbia or vicinity, which not only proves the superiority of the Beltsville birds, but is a tribute to the ability and untiring efforts of Mr. A. Jacobson, who has full charge of their breeding and training.

VERMIN DESTROYERS

One ounce of carbolic acid to each gallon of whitewash.
To one gallon of kerosene put one pound of naphthalene. Let stand two or three days. Shake before using.
To one pint of air-slacked lime stir in one ounce of liquid carbolic acid and three pounds of finely ground tobacco. Mix with a stick, stirring thoroughly.

KEEP ONLY PUREBRED STOCK

High-Class Stock of Any Kind Has Tendency to Bring Other Good Animals to Farm.

The first fundamental of successful poultry keeping, whether on the farm, in a city yard, or in the large plant, is good stock. It is true that a good many farmers and others get fairly good results from ordinary stock, but if the same care and attention were devoted to birds of better breeding more satisfactory returns would be made.

There is another benefit from keeping good stock that is not easily measured, but, nevertheless, is recognized as having a big money value in the long run. That benefit is the general improvement in the place, methods, and the man himself, that comes from having birds that are above the ordinary. A man who has well-bred stock talks about it and shows it to his neighbors. Naturally, he wants the surroundings of his flock to look shipshape, and he takes pride in showing a knowledge of feeds and the methods of feeding.

High-class stock of any kind has a

The Henery Hoozits By Garry

tendency to bring other purebred animals to the farm. A good purebred animal continues its work of improvement indefinitely, not only within its own class, but everywhere on the farm, from the field to the library.

GRAIN FOR GEESSE IN WINTER

Handful of Equal Parts Oats and Corn for Each Fowl Is About Right—Feed Green Stuff.

The grain rations for geese in winter should be equal parts oats and corn. Give about a handful to each bird once a day. Geese require an abundance of green feed every day throughout the year. Clover hay or alfalfa should be cut green, and when properly cured makes excellent winter feed for geese. Give them all they will eat of this, when possible to provide. Mangels, cabbage or potatoes can also be used to supply green feed for geese. They are also very fond of apples.

TRAP NEST HAS ADVANTAGES

Mighty Useful for Breeder Seeking Higher-Producing Hens—Necessary for Pedigreeing.

Trapping is usually not practical on general farms where chickens are kept largely for eggs and meat, though it pays well to head the farm flock with cockerels out of high-producing trap-nested hens. Trapping is tremendously practical for the constructive breeder and absolutely necessary for pedigreeing, unless birds are mated in pairs only and each pair separately penned. Pen matings, as compared with pair matings, make it impossible to identify the eggs laid by individual hens unless trap-nests are used.

EXCELLENT JOB FOR WET DAY

Before Cold Weather Sets In Take Few Hours Off and Oil Harness—It Keeps Out Water.

Take a few hours some wet day and oil the harness. Do it before cold weather comes on, so that the oil will penetrate the leather better. Well-oiled leather will last many years longer than that which is allowed to dry out and get full of cracks to let in water.

GEORGE WASHINGTON FAVORED PUREBREDS

Sires of Good Quality Are to Be Used for All Stock.

Enrollment of Owners of Estate, Latane Brothers, Regarded as of Particular Interest to Breeders of Live Stock.

(Prepared by the United States Department of Agriculture.)

Wakefield farm, Westmoreland county, Virginia, has been enrolled in the "Better Sires-Better Stock" movement conducted by the various states and the United States Department of Agriculture. This is the farm where George Washington was born in 1732, and the present occupants, Latane Brothers, come from straight Washington stock. It is noteworthy that purebred sires of good quality are henceforth to be used for all classes of live stock raised on this farm which is famous as the birthplace of the Father of His Country. The stock on the historic estate include, cattle, horses, swine, sheep and poultry. All sires are now purebred; the females are purebred, crossbred, and grade, and are to be gradually improved.

County Agent L. M. Walker, Jr., interested Latane Brothers in the nationwide movement for improved live stock, and John R. Hutcheson, director of extension for Virginia, regards the enrollment as of particular interest since George Washington was a good farmer and a lover of good stock.

TAKE GOOD CARE OF MANURE

Deteriorates at Least One-Half in Value if Allowed to Stand Out in Weather.

When a person stops to consider that, at the present prices of commercial fertilizer, one ton of average fresh stable manure is worth about \$3 per ton and that the same manure is worth only a little more than one-half that much after it has been allowed to stand out in the weather for a few months, he will see the value of taking proper care of this material.

"Listening In" on President's Address to Congress

GLEANINGS

The Goodfellowship Club will meet at the school house in Kendrick Tuesday evening. A banquet will be served by the domestic science class after which a program will be given. Rev. E. A. Rein of Cameron will be one of the principal speakers at the evening. Every member is urged to be present.

Last Friday, A. Wilmot Harry Stanton and Tom Long passed a subscription list among the business men here for the benefit of the basketball team. Their intention was to secure \$125 but the total amount subscribed was \$127.50. A part of this money will be used to pay for the balcony which was built by the manual training boys last fall. It is not known definitely whether the worthy cause or the personnel of the committee was responsible for the generous donations.

Albert Wegner arrived the first of the week for a visit with his parents, Mr. and Mrs. Carl Wegner.

The Epworth League will give a party at the league hall tonight. Everybody is invited to attend.

Virgil Flesman of the Fairview community is making preparations to plant several acres of onions in the spring. He says that at present prices he can make more on onions than anything he knows of. As long as onions can be successfully grown here there is no reason why we should have to ship them in from irrigated districts. Mrs. Keopp of Leland raised 50 sacks of onions from half an acre last year, which ought to represent a fair margin of profit.

Hank Bleck of Southwick was a Lewiston visitor this week.

Mrs. M. B. McConnell gave the eighth grade examinations here this week.

At the meeting of the Potlatch highway commissioners last Saturday at Leland, the principal business transacted was the appointing of road supervisors for the various districts, as follows: Soney Point, William Stephas; Fairview, Virgil Flesman; Leland, Lloyd Kuykendall; Cameron, Gus Blum.

Mrs. Earl Jones returned Thursday morning from a visit with relatives in Orofino.

Gus Wegner of Southwick said that one day last summer while hauling a heavy load up the grade on his truck he estimated that the wear and tear on his tires was at least \$30. It was muddy and the wheels couldn't get traction on the slippery, rocky, steep pitches. Mr. Wegner sensibly says that he would rather pay that \$30 in road taxes than to have it thrown away on damaged tires.

Leave orders for engraved calling cards at the Gazette office. 3-1t

Fred Bolon of Orofino spent the week end here with relatives.

Charles McKeever is recovering from a severe attack of the grippe.

Bob Spencer was a Spokane visitor the first of the week.

Milford Cox, who has been suffering with tuberculosis for some time, was taken to Spokane, Thursday morning, for treatment. He is an ex-service man and through the efforts of the local Legion post his case was brought to the attention of the U. S. Veterans Bureau, a representative of the Bureau, Mr. Woods, coming from Lewiston to look after the interests of Mr. Cox. If a connection can be established showing that tuberculosis was contracted during his service in the army, he will receive compensation and will be given the best of care by the Government.

Big Bear Ridge

Mrs. Hiram Galloway will give the eighth grade examinations, at the U. B. church, this week.

Miss Agnes Jones departed for Spokane last week to remain indefinitely.

Mrs. W. H. Fairfield underwent an operation at a Lewiston hospital last week, and is recovering nicely.

John Halseth of Kendrick is spending the week with his brother, Ed.

The many friends of Mr. A. J. Aas are sorry to hear that he is very poorly.

Preaching services at the Lutheran church, Sunday, January 21st, at 11 a. m.

John Heath and Will Davis were business visitors at Avon last week. Remember the special Literary program and basket social will be given at the hall, Saturday evening, January 20th.

A play is being prepared to be given at an early date. Further announcement will be made later.

Miss Emma Nelson spent the first of the week with Miss Bertina Forest.

Born to Mr. and Mrs. Will Whybark, Tuesday, January 16th, a son. Misses Betsy and Esther Kleth entertained the Girl's Sewing Club,

Wednesday afternoon.

Chas. Elliott is visiting his daughter, Mrs. Leonard Davis, near Leland.

Mr. and Mrs. Wade Keene were pleasantly surprised, Sunday evening, when a number of their neighbors and friends came in to spend several hours with them.

Miss Johanna Hooker is spending the last of the week with friends in Moscow and Pullman.

Southwick News

Mr. and Mrs. Lee Davis arrived here Tuesday of last week and are visiting at the home of Mrs. Davis' parents, Mr. and Mrs. L. J. Southwick. They have disposed of their property in Orofino and are on their way to Los Angeles, Cal., where they expect to reside.

Mr. Pape, a traveling salesman, was in Southwick, Wednesday of last week.

The town of Winchester was kept astir last evening by two loud and noisy charivaris. The offender was Floyd Reecer a popular and well known mill employe who had taken himself a bride, Miss Hazel McKay of Myrtle. They were married at Asotin, Wednesday, January 10.—Lewiston Tribune.

Mr. and Mrs. Floyd Reecer are well known here, he lived here for a number of years and his wife also lived here for a while. They have many friends here who congratulate them.

Mrs. Wm. Zimmerman and daughter, Elsie, of Gold Hill, were Southwick visitors last Thursday.

Mrs. John Stainaker called on Mrs. Gordon Harris last Thursday.

Mrs. R. G. Farris and Miss Francis called at the Ziemann home last Thursday.

Dr. and Mrs. Baker kept house for Mrs. H. D. Hayward while she was at Lewiston last week.

A. A. Baker has been quite ill. His daughter, Mrs. Ralph Wright is taking care of him.

Mrs. Frank Souders returned from Lewiston, Tuesday of last week. The last report from Mr. Souders was that he is getting along fine. Mrs. Souders returned to Lewiston last Tuesday to be with him again after a week's stay at home.

Mrs. H. D. Hayward returned from a business trip to Lewiston last Saturday.

Mr. and Mrs. Fred Genre arrived last Sunday to visit at the W. Stump home for a week or ten days.

The Calvert family were dinner guests of the John Stainaker family last Sunday.

The Ralph Wright family and George Christensen family were Sunday callers at the Darl Wright home.

Mr. and Mrs. L. J. Southwick returned home Sunday from Lewiston.

Chas. Shine and son, of the Dent country spent Saturday and Sunday in Southwick.

Fred Choate of Teakean was a visitor in Southwick, Sunday.

Henry Bunker spent the week end at home with the Bunker family last week.

Mrs. J. L. Harris was taken suddenly ill with heart trouble last Sunday morning.

Albert Mabry has quite recovered from his attack of diphtheria altho still in quarantine. There have been no other cases as yet.

Among those reported on the sick list last week are Mrs. Wm. Jones, Jessie, Nellie and Elvira Henderson, Gus Hayward, H. D. Hayward, Mrs. John Lettenmaier and Grandma Bateman. All are getting along nicely.

Margaret, the small daughter of Mr. and Mrs. Harold Whittinger, is reported quite sick.

Chas. Hall of Teakean was a Southwick visitor Monday.

Mrs. Back returned to Fonberg's at Gold Hill, last Thursday.

Mrs. J. Kimes and Mrs. Ben Presnal left for Spokane, last Sunday.

Miss Greenwood returned home last Saturday from Will Wright's where she has been helping Mrs. Wright cook for loggers.

A radio entertainment was enjoyed at the L. J. Southwick home by the Gordon Harris, G. H. Ziemann, Atly Mustoe and Irwin Helton families. Lee Davis, who is visiting there, installed his machine temporarily. He has since set the machine up permanently for Walter Terry at Cayendish. It can be very distinctly heard at this altitude.

The Community Club oyster supper was postponed on account of so much sickness in the community. It will be given Friday, January 19. Everybody welcome.

Dr. Triplett had 11 fine thoroughbred hens stolen last Saturday night. They were keeping a record of these hens and it certainly was a shame to lose such valuable birds in such a manner.

SCHOOL NOTES

The 6th grade, under the supervision of Mrs. Daugherty, is making a novel commercial geography map.

Miss Morsching, the county nurse,

visited Southwick, Wednesday, Thursday and Friday of last week, returning to Lewiston Saturday. She came back here again Sunday to finish up her work. This week she was called here to look after health conditions.

When school opened Monday there was a full attendance. Last week there were only a few pupils in school on account of sickness and bad weather.

Edna Jones has recovered from her illness and is again in school.

NOTICE TO STOCKHOLDERS TANEY TELEPHONE CO.

The annual stockholders meeting of Taney Telephone Company will be held at Taney school house, 2 p. m., January 20, 1923. Please be present. R. A. Hughes, Secretary. 3-1t

When a man becomes disappointed in love he goes around blaming the world in general for it.

You always think a man would make a fine boss until he gets the job.

Too many think they know what they think. Not enough know they only think they know what they think.

Diamonds are valuable because you can't use them up.

There are grown people who have never seen a train, but very few who have never seen an auto.

This is the age of specialists who specialize in age hiding.

What makes you madder than finding too late a story is continued?

Game is the easiest thing on earth to find. All you have to do is go hunting without a gun.

When a girl tells a man she likes him better than ever it is a sign that Christmas is coming.

The big show of the month next week "CONFLICT" the picture with a thousand thrills.

"If Universal offered me one million dollars to do again what I did in 'Conflict,' I would refuse. Life is too precious."—Priscilla Dean.

Life Lines

WITH vacuum cleaner, broom and mop, and pails of soapsuds, too, most any mother starts her workday. She sticks unto her cleanup work for hours, until she's through. It gives her very little time to play.

And then she'll find that loaves of bread, and cookies, cakes and pies are running short—she'll have to stop and bake. She realizes hanging 'round the oven is not sport, but even so, she does, for Tommy's sake.

On top of this the daily meals for morning, noon and night are bound to fill poor mother up with fret. She likes to have the choicest foods; she likes to cook them right. It always is a question, what to get.

Then Tommy's bath must come each day; that takes up quite a spell. When evening comes she's weary, head and hand. If dad would only stop to think his common sense would tell why mother gets so tired—he'd understand.
