

LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns of Neighboring Papers.

Julietta Record: The three county Commissioners last Saturday visited the section of road between here and Kendrick up to the Kendrick highway district line, with the view of getting an idea of the cost of graveling and fixing up this section of road to place it in as good condition as the other end which is being improved by the Kendrick highway district. County Commissioner Clark states that it is the intention to get at the work as soon as possible, if it is found that the county has sufficient available funds for the purpose, and the road will be completed to the Nez Perce county line as soon as it is possible to do so.

Troy News: The local Legion Post held a meeting at their rooms Wednesday night. It was decided to put on a membership drive and to stimulate interest in the drive, the post divided into two sides. Melvin Hagan is captain of one side and Austin Kelham captain of the other. The campaign will run for five weeks and at the end of that time the losing team be required to give a banquet to the winners. Each side has a hustling captain and much interest will be aroused with many added members to the post. The Post enjoyed refreshments following their business session.

Deary Press: Deputy Sheriffs Malone of Bovill and Robbins of Moscow spent last Wednesday night here. The Press man looked to see if there was smoke coming from the jail chimney next morning. Usually when the deputies and Marshal Poe do any congregating the hoosgow gets a tenant or two and smoke issues from the chimney, but this time there was none. If there was smoke anywhere it was made by the fellows who thought the officers might be looking for them, hitting the trail for the tall timber.

Genesee News: The weather has been excellent for the last several weeks, considering the time of year, but the roads are in very bad condition. Not only are the dirt roads badly cut up, but the state highway is practically ruined in many places, the ruts being almost as deep as if there never had been any gravel put on them. Unless different traffic rules are made in Idaho—especially in this section—the four inches of gravel that is to be placed on the road from the Washington line to Moscow will do little good.

It is very plain that the road bed was not made heavy enough in the first place for this soil, but that is a thing of the past and the only thing that can be done is to keep putting gravel on until it stops "going down" and that will never be as long as the county commissioners, or road commissioners, allow loads such as have been hauled during the past two winters.

A Lewiston truck went out of here recently with load of household goods that would have been a good load for two ordinary trucks and the large chained wheels cut and dug at every revolution. The stages that ply between Moscow and Lewiston, via Genesee, are also a detriment to the roads and will do the state highway more damage in one month than all the rest of the traffic put together. Last Saturday evening they came through our little city with eight passengers in one car and the running-board piled with baggage. Together with the heavy loads and the speed they travel, is it any wonder that the roads are almost impassable at places? While they accommodate a few people, they are a very expensive luxury to the tax payers and they should not be allowed to run while the roads are soft. Whitman county, Wash-

Parent-Teachers Met

The Parent-Teachers meeting at the school house last Friday afternoon, was pronounced by several to be the best yet, so far as securing a real understanding between the two factors is concerned. The entertainment features by members of the school were presented in a pleasing manner. Those present were then favored by a short talk on the Parent-Teachers Association by Mrs. Daniel, followed by a discussion of some rather new methods of teaching, presented by Superintendent Daniel.

Mr. Pickering led the discussion on "Other ways in which the school can help the pupils." His suggestion was that inasmuch as it is the universal opinion of the thoughtful people of the world that the greatest need of civilization today is to get back to God, the teachers could do no greater service for their scholars and the community than to get into some church and help work to that end. The question box was then opened and the first question, which asked "Why some children were favored more than others," provoked a lively discussion in which almost everyone took part. The next question, as to the propriety of having the children attend the meetings of the association, was also discussed by a goodly number, the opinion seeming to prevail that their attendance should be confined to their own exercises in the program, and then only at the afternoon meetings.

It was decided that the next program, for March 9, should be largely in charge of the parents, Mrs. Compton and Mr. and Mrs. N. E. Walker being appointed. This meeting will be held in the evening at the M. E. church after which light refreshments will be served, and a silver offering taken to defray the expenses which have been incurred by the association.

A. N. Rognstad of Bear ridge took first and second prize on light Barred Rock pullets at the poultry show, held at Moscow this week.

ington, stopped all stages long ago—and the same thing should be done in Latah county.

Are those who have the power to prevent going to allow this destruction of the only road of egress and ingress ruined, just to accommodate a few—the majority of whom have no interest in this section of the country only to get through it as quickly as possible?

It is high time something was being done. It is a splendid way to reduce taxes and save the roads.

Nez Perce Mutual Session

More than 50 men representing the holders of 13 policies issued to the Nez Perce Farmers' County Mutual Fire Insurance company met at the city hall Friday afternoon for the annual meeting of the company and spent a number of hours discussing reports and problems offered by the executive committee and suggested by members in attendance, says the Tribune.

An important action taken by the meeting was the approval of an improved system of accounts, this including the use of the new and condensed form of policy record and assessment sheet. A committee on this included W. E. Stoddard, Gifford; Jesse Hoffman, Leland, and John Daw, Lewiston. A committee was also appointed to formulate a revision of the by-laws to bring them into accordance with present day needs. The committee is Milton Wilson, Genesee; A. E. Fieser, Gifford, and Jack Crabb, Orofino.

Upon the consideration of election of three members of the board of directors, these to serve for a period of three years, the retiring members, E. F. Stamper, Lewiston; A. F. Harbke, Russell and Fred Riggers, Nezperce, were chosen by acclamation with three dissenting votes.

The executive committee in the meeting following that of the general delegation of policy holders and their representatives, re-elected as their officers, E. F. Stamper, president; Fred Riggers, vice-president and Jesse Hoffman, secretary-treasurer.

Three former presidents of the association were present at the meeting, these being, J. P. Hendrickson of Lewiston, S. I. Ringsage, Kendrick, who was influential in the organization of the farmers company in 1905, and W. E. Baird of Pullman, who addressed the meeting.

What Is An Anthem?

Elder Watkins, of Muddy Hollow, just back from the city, was telling his wife of the church he had attended. "Did you know any of their songs?" asked she. "No," replied the elder; "they didn't sing anything but anthems." "Anthems!" exclaimed his wife. "What is an anthem?" "Well," answered the elder, "I can't tell you just exactly, but if I'd say to you, 'Betsy, the cows are in the corn,' that wouldn't be an anthem. But if I'd say, 'Betsy-Betsy-Betsy, the cows—the cows, the Holstein cow, the muley cow, the spotted cow, the Jersey cow—all the cows are in—the corn-corn-corn. Ah men! Why that'd be an anthem.'—Ex.

Julietta Bank Change

Julietta, Jan. 28.—The controlling interest of the stock of the Bank of Julietta has been sold by E. W. Porter, who was recently appointed by Governor Moore as commissioner of finance, to Hawken Melgard, president of the First Trust & Savings Bank of Moscow, and A. H. OverSmith, a well-known attorney of Moscow.

Under the new organization the officers of the Bank of Julietta are: H. Melgard, president; Walter Clark, vice-president, and Carl Porter, cashier. The members of the board of directors are: H. Melgard, A. H. OverSmith, John L. Woody, Eben Adams, Walter Clark and Carl Porter. The Bank of Julietta is one of the oldest banks in the Putlatch section, and while it has always been considered a conservative and safe institution, the new elements will give added financial strength to it.

Mr. Porter leaves the first of February for Boise to take up his new state work. He was formerly state senator from Latah county.

Mr. Porter's son, Carl Porter, has resigned his position with the Idaho Trust company of Lewiston to become cashier.

Farmers Hardware Meeting

At the annual meeting of stockholders of the Farmers Hardware Co., held Monday, the following officers were elected: S. P. Callison, president; H. P. Hull, vice president; W. M. McCrear, manager and secretary-treasurer. The other two directors are Herman Koepf and Ed Lien.

Riggle-Marler

Delbert Riggle, who is employed at the Farmers Bank, was married last Friday, at Moscow to Miss Stella Marler of Hanford, Cal. The ceremony was performed by Probate Judge Nelson. Mr. and Mrs. Riggle will make their home here.

May Has Good Cow

Rufus May of Bear ridge, has a Holstein cow that is more than paying for her board. Mr. May tested her for butterfat production one day last week and found that from this one cow they were getting 2 pounds and 5 ounces of butter a day. This is more than double the production of the average ranch cow. The Holstein is a full blooded cow from a good dairy herd.

Obituary of A. J. Aas

Mr. A. J. Aas was born in Merager, Norway, February 21st, 1850. At the age of 8 years he came to America with his parents, locating at Cannon Falls, Minn. He made his home there and on May 20, 1875 was united in marriage to Miss Anne S. Merager. In 1893 the family moved to Silverton, Oregon. Here his wife died in 1895; a son Jacob having passed away a year before and their youngest son dying in infancy a year later.

Mr. Aas and his children then moved to a farm near Moscow in 1903; a year later they moved to Big Bear ridge where he has made his home. His son, Pete, made the Supreme Sacrifice on October 30th, 1918, and his body is resting in a military cemetery in France.

Mr. Aas peacefully passed away Sunday afternoon at 2:50 at the age of 72 years and 11 months. Those who survive him are Mrs. H. M. Larson of Grand Forks, North Dakota; Lewis of Deary; Zack, Mrs. Ed Lien, Ingvald and Emma of Bear ridge.

He had been failing in health for the past two years, but was confined to his bed only a few days. He was a devoted Christian from childhood, a faithful worker in the Lutheran church, which interests he always had at heart. He was also interested in work for the betterment of the community and stood for all things that were good, just and noble.

He was well known for his cheerful disposition, always having a pleasant greeting for everyone and ever willing to help those in need. Everything was done for him that kind hands could do, but he was prepared to go and look forward to, and spoke of meeting his loved ones in a place of Rest.

Funeral services were delayed until Saturday, awaiting the arrival of his daughter, Mrs. Larson, from North Dakota. The service was in charge of Rev. P. Hesby of Deary, at the Lutheran church on Bear ridge, at 11 o'clock in the morning. Although the weather was extremely disagreeable the church was crowded with those who wished to pay their last tribute to the memory of their kindly neighbor and friend.

A mixed quartet composed of Mrs. Stewart Compton, Miss Helen Lind, N. E. Ware and A. N. Rognstad sang several beautiful selections and a solo by Mr. Rognstad and duet by Messrs. Ware and Rognstad were also rendered as a part of the service.

The pall bearers were N. E. Ware, Ole Lien, A. Hooker, A. W. Jones, J. J. Sind and A. Kleth.

Decision Against Banks

Judge E. C. Steele of the second judicial district court has handed in his decision against the banks on the appeal of the First National bank of Moscow and the Latah County bank of Deary from the assessment of the board of commissioners of Latah county for the year 1921.

Judge Steele holds that the Latah county commissioners made an error in deducting the assessed valuation of the real estate instead of the amount the banks had invested in real estate from the capital stock. But on the other hand the court, on findings from the evidence on the value of the stock, finds that the value of the First National bank stock is \$200 a share and that with the reduction of real estate the assessment should be \$18.06 upon each share of stock. In reference to the stock of the Latah County bank of Deary the court finds that the assessed valuation of each share of stock should be \$57.41. Findings of the court on the stock of both banks are based on a 66 and two-third per cent basis.—Star-Mirror.

A large glass in the front of the postoffice building was broken last Friday night or early Saturday morning. It is believed that moonshine was at the bottom of the disaster.

NEWS NOTES FROM KENDRICK SCHOOLS

Events of Interest to School Patrons.

Don't forget the basket ball game with Asotin on Friday evening, February 2nd. As this will probably be a close game, the boys will need your hearty support. The line-up for the Kendrick team is as follows: Forwards, Claude Stanton and Egnas Flaig; Center, Harley Perryman; Guards, George Brocke and Merit Smith. After the game a party will be given in honor of the visiting team by the Associate Student body. The party will be held in the high school auditorium.

The domestic science class appreciate greatly the help the people rendered in preparing the dinner last Friday night. The class takes this opportunity to thank them.

The domestic science department has changed the course of study, giving the first year to sewing and the second year to cooking. Owing to the fact that the sophomores took a half year cooking and sewing in their freshmen year, they are taking sewing instead of cooking the second semester; thus giving them one full year of sewing and one of cooking.

The dinner given last Friday evening was a great success, and brought the amount the girls had to pay for the semesters work to a much smaller amount than it would have been otherwise.

Pupils of the seventh grade receiving 90 per cent or above in their geography test were: Delbert Turner, Ruby May, Murrell Onstott, Shirley Clem, Hester Knepper, Rush Chamberlain, Pearl Johnson, Dorothy Holt, Charles Sturdevant, Ellis Carlisle, Margaret McDowell, Manning Onstott and Earl Smith.

The students of the seventh grade are taking tests during certain periods to increase their speed and comprehension in Silent Reading. At the end of the period, each pupil counts the number of lines read to see if they have gained over the amount read the day before. This is proving to be a very good method as Silent Reading is being greatly stressed in our school.

Those leading in the Curtis Standard Practice test in the sixth grade are: Mae Freytag, first, and Hugh McDowell, second. In the fifth grade are Wilford Nowling, first, and Leora Aiken, second.

Mrs. William C. Carmin

A sad death occurred last Friday morning when Mrs. William C. Carmin passed away at her home near Crescent, after a lingering illness. She leaves a husband and eight children.

Grace Ruth Reed was born October 17, 1886, in Montrose, Iowa. She was married to William C. Carmin, July 12, 1902, at Keokuk, Iowa.

Funeral services were held in the Gold Hill church at 2 p. m., January 27, 1923, under the direction of Rev. B. W. Presnall.

Farm Bureau Meeting

There will be a farm bureau meeting on Bear ridge, Saturday afternoon at Community Hall, 1 o'clock, for the purpose of making arrangements for the squirrel campaign this spring. Everyone is urged to be present.

Joday Long returned the first of the week from Sprkane where he visited a few days with Mrs. Long. He says that Mrs. Long continues to improve as rapidly as she has been for the past few weeks, she will return home, probably within a month.

Mrs. Jennie Plummer left Thursday afternoon to visit her daughters in Spokane. She will probably remain there the rest of the winter. Her son-in-law, Wm. Coffey, visited her here a short time Wednesday.

MILK EXCELLENT FOR FOWLS

Productive of Good Money-Making Results and May Be Fed Alone or to Moistened Mash.

One class of feeds that is excellent for poultry and that can be used advantageously on dairy farms, includes milk, skim milk, buttermilk, sour milk, cottage cheese, etc. These are all productive of good money-making results and, where they are available, it is wise practice to feed them. They may be fed either alone or used to moisten the mashes.

The mash, however, should not be moistened one day and then fed dry the next. Follow one or the other of the two plans constantly. Fowls will convert what many times would otherwise waste, into meat and eggs if fed the milk and its by-products that are often obtainable on the farm.

When William Fox announces a "special super" production, this means exactly what it says—as experience has shown. Such a picture is "The Last Trail," based on the Zane Gray novel, showing at the New Kendrick Theater. We feel justified in recommending this as a genuine film treat.

What is described as a truly remarkable bit of realism of the most acute sort forms the big climax of "The Last Trail," the breaking of the huge concrete dam in the mountains and the consequent destruction by flood of village in the valley miles way. The effect is said to be startling in the extreme. It was achieved by Emmett J. Flynn, one of the most skillful and daring directors in the business.

The Sunday school contest is causing renewed interest all along the line. Last Friday evening Miss Newkirk and Miss Booth entertained their classes, and Saturday Miss Long and Miss Raby had a delightful party for theirs, which resulted in a decidedly increasing attendance on Sunday. There was only one break in the entire rank of officers and teachers, and that was unavoidable.

Saturday afternoon of this week, at two o'clock, Mrs. Rogers and Mrs. Housley will entertain all the children over three years old and below the second grade in school, who are attending our school or are not attending any. The latter are especially invited.

Judge Ben B. Lindsey, of Colorado Juvenile court fame, says that less than two percent of the young people brought into his court are Sunday school students. A very large percent of those interested in community betterment programs are products of the Sunday school. Which class do you desire your young people to affiliate themselves with? Let us bring our schools up to a respectable standard. There is room in every class for more students. Bring your family.

Brother Bramblett will preach Sunday morning. You will enjoy his message.

Life Lines

BY H.M.C.

LET'S stand upon the corner of most any town at all, and watch the march of people going by. Let's view the little youngsters and the grown-ups, short and tall—just give them all the overlooking eye.

There's Mrs. Anybody with a coat that's made of mink; her husband's by her side in brand new gloves. No doubt the Mrs. wonders what the neighbors all will think, for envy is a thing a woman loves.

And little Willie Jones is out and dressed up spic and span. The shoes he wears are patterned after dad. He hopes that folk who see him will remark that he's a man. You know how things like that make youngsters glad.

And sister Susie's on parade in fancy dress of blue. She has some brilliant ribbons in her hair. She struts around where folks may see—she has naught else to do. She simply feels the spirit in the air.

What spirit? you are asking Well, it comes but once a year. The aftermath of rushing Yuletide trade. When fancy frock and new things on the sidewalks will appear as folks take Christmas presents on parade.

SUPERIOR LICE KILLER

For kerosene emulsion take two gallons of kerosene, one gallon of water, one pound of bar soap and one pint of crude carbolic acid. Boil the soap in water until dissolved, remove from the fire and while the water is boiling hot add the kerosene and acid, churning with a spray pump for ten minutes, and then add six gallons of hot water, stirring well. Apply on walls, floor, roosts, fences, etc., with a spray pump.

WEARING

CUSTOM Tailored Clothes is one of the incidents of 20th century efficiency and intelligence.

The burden and expense of carrying ready made clothes in stock grows greater from year to year. Consequently prices are higher and styles

less desirable.

Increasing production of made-to-measure clothes has resulted in reduced prices and now tailor-made clothes are less expensive than hand-me-downs.

You don't have to go to the city for tailor-mades and you don't have to pay for the time and expense of the city tailor coming to you.

The newest goods and the latest styles are right here at your service. We incur no expense in selling you and no expense if we don't sell you, but we will be glad to show you the largest, the best and the most reasonably priced tailoring line in the world.

The International All-Wool Line

SHOES!

Our Spring Stock is Coming in

The largest and best assortment of footwear we have ever displayed. **Brown's Star 5 Star Make** is a mark of quality found on our 100 per cent leather shoes.

Brown shoes are sold at the same price to all dealers. A large buyer suggested that he should be sold at special prices and a wire was sent the factory asking what concession would be made on a \$10,000 order. We have seen the telegram from the factory in reply, in effect as follows: "Prices of Brown's Shoes are based on volume. The small dealer's business is part of that volume—therefore we sell at one price—the lowest possible—to everybody."

By buying at the lowest price our selling expense is less. Therefore it follows that you can buy Brown's quality shoes from us as low or lower than from the largest store in the world.

Ladies' and girls' pumps and oxfords in black, brown and patent leather.

Men's shoes and oxfords—too many good numbers for us to attempt a description of them; work shoes and dress shoes for old men and young men.
