

LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns of Neighboring Papers.

Johnson & Lewis, who recently purchased the O. K. Olson saw mill, three miles east of Troy, known as the Farmers Mill, have just completed the moving of the machinery to their new location near Park, Idaho. This mill is one of the oldest in this section and has done a vast amount of business. The new firm are now busy cutting logs for their Spring and Summer run. —Troy News

At the elevator meeting last Saturday the farmers voted unanimously to sell the company's plant and equipment. In the meantime the elevator will run as it is until August this year by which time some plan may be worked out by some of the farmers interested to take it over. Should there be a good crop this year we have no doubt but that something of the kind will be undertaken and successfully put through.—Latah Co. Press. —Deary Press.

Mr. Johnson, father of Fred Johnson, of the Fix ridge section, got his hand badly crushed Wednesday when he accidentally got it caught in the cogs of a feed mill. The flesh was badly torn on the hand and one finger badly injured. He went to Kendrick to have the injuries treated. It was fortunate no bones were crushed and it is thought that the badly injured finger can be saved.—Juliaetta Record

There is a howl going up from the Rimrock section of Nez Perce county regarding the doing away with the county agent of that county, W. W. Skuse. While some of the ranchers of that section have signed a petition for the discontinuing of that office, it is understood that many signed who did not really understand the situation.

A rancher who is very much in favor of the retention of Mr. Skuse, stated that it cost the ranchers only about \$1 for each 160 acres of land to pay the salary of the county agent and that more than twice that amount had been saved for each 160 acres on the purchase of squirrel poison alone, to say nothing of other services rendered in a beneficial way to the grain farmer. It is a fact, also, that the U. S. government pays a certain portion of the county agent's salary, which reduces the cost to the rancher to a negligible sum.

The Latah county commissioners voted unanimously to retain the county agent, O. S. Fletcher, and they, as well as the ranchers, certainly felt that it would be money well spent—and it is.—Genesee News.

Red Cross Elects Officers

At a meeting of the local Red Cross, held at the Methodist church last Monday evening, the following officers were elected to serve for the ensuing year: Theo. Hanson, president; Marvin Long, vice-president; E. H. Dammarell, secretary; Mrs. Edgar Long, treasurer.

A detailed report was given showing all receipts and expenditures for the previous term.

Legion Dance Tonight

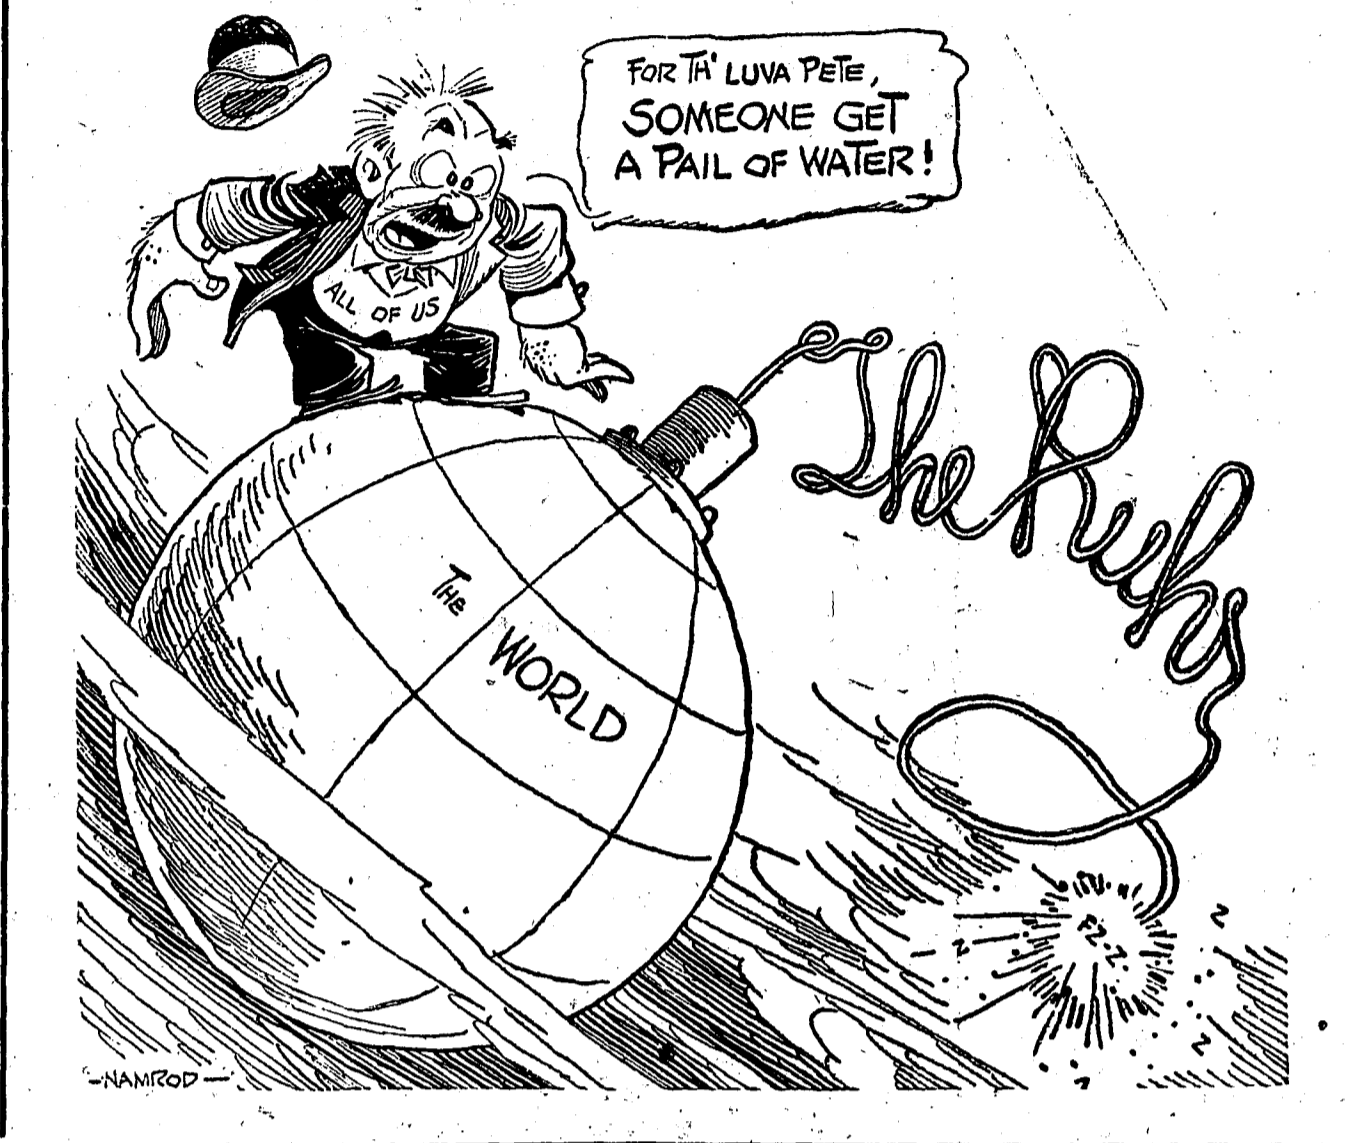

A George Washington Dance will be given by the local Legion Post, tonight, at the Fraternal Temple. There will be good orchestra music and lunch at midnight.

Dresher-Morgan

Isham Morgan of Juliaetta, formerly of Texas ridge, was married, Tuesday, to Miss Martha Dresher of Genesee. The couple will make their home on their ranch at Juliaetta.

The directories for the Potlatch Telephone Company were finished this week by the Gazette press. They will soon be in the hands of the local phone patrons.

THE FUSE

Lyceum For Next Winter

A representative of the Ellison-White Lyceum Bureau was in Kendrick last week for the purpose of interesting the business men of the town in signing up for a lyceum course for next winter. Ten names were secured on the contract, which insures a program for this place next winter.

The course will consist of five numbers—four lyceum and one home talent production. The lyceum numbers are a lecture, a male trio, a concert company and two young lady musical entertainers.

The names of those on the contract follow: Prof. Daniel, E. P. Atchison, A. Wilmot, Walter Thomas, John Kite, E. H. Dammarell, Theo. Hanson, Mrs. F. E. Erickson, Frank Chamberlain and A. E. Wilcox.

The Vincents Coming

The Ladies Aid of the Methodist church made arrangements to secure The Vincents, a lyceum entertainment, appearing here Tuesday evening, February 27. The Vincents are American-Hawaiian entertainers who put on a varied musical program.

Following is a report from Winchester, where the entertainers appeared Wednesday evening: "A program of Hawaiian music and cartooning was presented at the Community church tonight by the Vincents. A large and appreciative crowd was present."

Jail a Lodging House

During the past week the town bastille has been the lodging place for several tin can tourists, whose finances had become depleted to such an extent that a room and a meal were beyond their purchasing power. Marshal Joe Gardner locked them in the jail over night and gave them a good breakfast in the morning, sending them on their way rejoicing. They cleaned up the jail and left it in first class shape for the next financially-embarrassed tie counter.

Moscow is having the same experience only on a larger scale. The jail and city hall there are being used for hotel purposes to accommodate the hobo who pass through the town.

Kendrick Lodge No. 26, A. F. A. M., gave a Washington's Birthday program at the regular meeting last night. Musical numbers and addresses were pleasing features of the program.

Seed Bed for Legumes

Prosecuting Attorney F. L. Moore has issued a second letter to owners of billiard and pool halls in Latah county. The letter was sent under the date of February 20, and calls attention to the state law prohibiting minors under 20 years of age from loitering about pool or billiard halls conducted for profit. The first letter sent out by the prosecutor was to warn the owners of pool halls and card rooms against allowing patrons to play for "hickies."

The responsibility, Mr. Moore's letter states, rests with the proprietor, or the person in charge of the business; and the letter also states that the proprietor or manager will be held accountable. The letter also states that in the opinion of the prosecuting attorney a false statement by a minor regarding his age will not protect the pool hall owner, and concludes by expressing the hope that the prosecutor's office may have the hearty cooperation of the pool hall owners throughout the county in enforcing the law.

The following section of the law is quoted in the communication:

"Sec. 8299. Loitering about pool halls by minors prohibited.—It shall be unlawful for any minor under the age of 20 years to frequent or loiter in or about pool or billiard rooms or halls conducted for profit in the state of Idaho. Every proprietor, keeper, manager, conductor, clerk or person, having control or any table, pool or billiard room or hall conducted for profit in the state of Idaho, who allows any minor under the age of 20 years to frequent or loiter in or about such table, pool or billiard room or hall is deemed guilty of a misdemeanor."

The penalty for a misdemeanor is a fine not exceeding \$200, or imprisonment in the county jail not exceeding six months, or both fine and imprisonment.

It is understood that the prosecutor has sent letters to many minors, also, apprising them of the law in the matter.—Star-Mirror.

Nigh-Agrell

Miss Hazel Nigh, daughter of Mr. and Mrs. Amos Nigh of Juliaetta, was married last Tuesday to Tony Agrell of Troy. The young couple will make their home at Troy. Both young people are well known in Kendrick where they have a large circle of friends.

George Barnum purchased a planing mill at Orofino the first of the week. He will install it here for use in his lumber and mill operations.

May Organize Band

There is considerable interest developing here in the organizing of a local band. According to some of the old band men it will be possible to get from 16 to 20 experienced musicians who, with a month's practice, would be able to make a very good showing. There are three good musicians in Juliaetta: Carl Porter, George Calvert and Eben Adams, who have signified their willingness to join the band if organized here.

Walter Thomas, who has had wide experience in band instruction, declared this week that he would do anything he could to help with the organization and to keep the band going.

It has been suggested to have a banquet in the near future for the prospective band members and talk over the proposition of organizing. The early consummation of this plan will be the means of starting a real live organization.

Whisler Took Prizes

E. L. Whisler of Cedar Creek ridge took two prizes at the State Seed Show held at Burley recently. The exhibits at this show were in competition with seeds from all over the United States, so it is gratifying up known that the Potlatch can successfully stand up under such heavy competition.

Mr. Whisler took second prize in sweet corn and fourth prize in the White Dent class. Last fall he took first in both sweet and White Dent at the Boise State Fair. He stated the first of the week that next year he would have a finer quality of seed to display as this was his first year and he has learned a great deal about seed selection since starting to raise seed for market.

Rogers Sold Barber Shop

Wm. Rogers closed a deal Wednesday for the sale of his barber shop here, the purchaser being Charles Thornton, son-in-law of Mrs. M. Bleck. Mr. Rogers is one of the best barbers in the Inland Empire and has done a very good business since locating here. He has not made any definite plans for the future.

The New proprietor has recently finished a course at the Spokane barber college. He will have a man with him in the shop, probably Mr. Swayze, who is a first class barber and well liked here.

Ernest Davis was a Lewiston visitor the first of the week.

No Minors Allowed

On account of the constantly increasing area given over to the growing of legumes in northern Idaho, the following methods that have given best results for the University of Idaho Agricultural Experiment Station are outlined by G. R. McDole, the soil physicist of the station.

Since the northern Idaho rainfall comes in the late fall, winter and early spring, it is important that the ground be in a condition to absorb as much as possible. The moisture that enables a crop to withstand the long dry period during the summer months is found in the subsoil. The action of the frost is beneficial in improving the physical condition of the soil making it easier to prepare a good seedbed. The rain settles the soil bringing the plowed portion back in contact with the unplowed subsoil, thus eliminating air spaces.

When impossible to plow in the fall, good results have been obtained from early spring plowing. This does not mean that one should get on the land when it is too wet. However, the loss of the moisture in the soil should be prevented by plowing before the soil commences to dry out or the weeds get started. With spring plowing more work must be done in the preparation of a seed-bed to make up for the lack of the compacting effect of the winter rains. The land should be plowed slightly shallower in the spring than if fall plowed.

Legume seeds are small; in order to secure an even stand and uniform germination the seed-bed must be carefully prepared so that every seed is lightly covered with firm, moist soil. More failures probably are due to poorly prepared seedbeds than to any other cause.

On fall plowed land it is usually possible to prepare a satisfactory seed-bed by a thorough double disking followed by the spring-tooth harrow. On spring plowed land it is necessary to firmly unite the plowed surface and unplowed subsoil. This can be done by setting the disks straight and adding weight to the frame of the disk.

The great difficulty in the use of the drill for spring seeding has been in placing the seed too deep. Much better results have been obtained where the seed has been sown broadcast and covered with a spike-tooth harrow. The seeding can be done either by hand or with one of the many broadcast seeders designed for grass seed. A drill with a grass seed attachment can be used by removing the spouts and allowing the seed to be scattered on the surface of the ground. The small seeds need to be placed near the surface in moist soil where the first warm days will bring them up.

The swellings on the roots of leguminous plants, called nodules, are an indication of a desirable condition caused by a bacteria living on the roots. In order to be sure that a supply of these beneficial bacteria may be present in the soil it is necessary to add them in some form. This can be done either by adding soil from a field that has been growing the same legume or by obtaining the pure culture from the Agricultural College.

One of the most important cultural operations is that of rolling. The most satisfactory tool for this purpose is the corrugated roller. If this type of roller can not be obtained any roller that will compact the soil around the seeds will be of value. The corrugated roller is the most satisfactory because of the slight ridges left which prevent the blowing of light soils.

J. G. Bullock and Ernest Randall have entered the logging and milling business under the name of Bullock & Randall. They are now putting in a mill on the Cavanaugh and Griffin places. They expect to saw about a million feet of yellow pine this spring. The logging will be done by contract which has been let and the contractor is on the ground. The mill is one formerly belonging to A. M. Case and has a capacity of approximately 15 M per day.—Clearwater Tribune.

NEWS NOTES FROM KENDRICK SCHOOLS

Events of Interest to School Patrons.

Owing to the fact that Washington's birthday comes on Thursday and a holiday at that time would break into the school work, it has been decided best to substitute Friday.

In the last reasoning tests given in the 7th grade, Hester Knepper stood highest, and in the eighth grade Arthur Wayland.

Those leading in the Curtis Practice Tests in the eighth grade are Maude Compton, Elsie May, and Victor Gentry. In the seventh grade are: Hester Knepper, Harry Flaig, Muriel Onstott, Delbert Turner and Thelma Perryman.

The seventh grade have been devoting this week to writing poetry. The following was written by Pearl Johnson:

THE SNOW

Big, white, soft snowflakes
Now are falling fast.
Every coming snowflake
Seems larger than the last.
First they fall so slowly
Faster now they go;
Whirling round and dancing
With all the other snow.
Oh pretty little snowflakes
Is it not fun?
Oh pretty little snowflakes
Don't you dread the sun?
The snow is getting deeper
And oh! the coasting fun.
Now my pretty cloud dear
Please come and hide the sun.

For if you don't hide it
The snow will melt away.
Then we can't have coasting
Till next winter, some day.

Last year 94 Idaho high schools replied to questionnaires sent out by the University of Idaho, indicating the plans of their seniors for a higher education. This year these questionnaires were answered by the seniors of this school. It was found out of thirteen seniors there were three who intended to go on to a college or university; six to normal; three to some vocational school and one who was undecided.

Linden News

Mrs. Lou Alexander and children returned Wednesday evening from a week's visit in Lewiston.

Mrs. I. E. Foster spent Tuesday with Mrs. Karl Langdon.

Mrs. Winegardner entertained a number of friends at a Valentine party Wednesday evening in honor of her husband's birthday. The evening was spent in playing cards and other games until midnight, when refreshments were served after which the guests departed wishing him many happy returns of the day.

Mr. and Mrs. I. E. Foster went to Kendrick Friday to see Dr. Smith who has been seriously ill.

Mrs. Ed Darby and son, Walter, visited at the McClellan home at Southwick, Tuesday and Wednesday of last week.

Mrs. Gordon Harris arrived Tuesday to visit with Eva Smith.

The ladies of the community met Wednesday at Mrs. Longfellow's to tack comforts for Mrs. Gilchrist.

Dr. Otteraaen was called Tuesday evening to attend Fred Crocker who was quite ill a few days last week.

Jim Garner was called to Spokane Friday by the illness of his daughter.

Mrs. McPhee has been suffering considerable the past month with her eyes.

A large gathering of neighbors and friends gave Mr. and Mrs. C. P. Israel a very pleasant surprise party, Saturday evening.

Mr. and Mrs. Homer Betts and Miss Case of Southwick, spent Saturday evening with Mr. and Mrs. Weyen and were dinner guests of Miss Eva Smith, Sunday.

George Barnum and H. Voght were transacting business in Orofino, Monday, returning Tuesday.

New Spring Merchandise

Is Arriving Daily At This Store

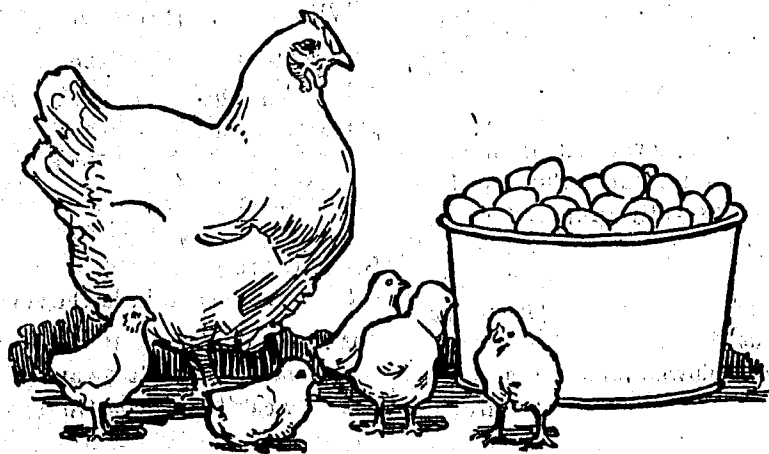

This list includes many things we have received in the last few days; gingham, zephyrs and tissues, organdies, cretonnes, curtain draperies, muslins, long cloth, 43 inch pillow tubing, kahki cloth, bloomers, Mina Taylor aprons, Bando corsets, etc.

These prices are of special interest to every woman at this time of the year— Phone your orders. We are always glad to mail samples.

Chamberlain's Cough Remedy Aids Nature

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its good qualities. Try it when you have a cough or cold.

THE AMERICAN PRESS ASSOCIATION

It is estimated that with ten days of favorable weather the grading and filling on the road below Kendrick will be finished. There will still be a strip about three-quarters of a mile in length, from the Kendrick Highway District line to Juliaetta, unfinished. However, the Latah county commissioners have given their promise that this part of the road would be taken care of as soon as the money might be available, and as it is generally understood there is sufficient money in the county road fund to do the work, there is no reason why it should not be completed at an early date. When this project has been finished in the spring, there will be approximately six miles of surfaced highway from the Wandcher gulch bridge through Kendrick to the town of Juliaetta.

A school teacher received the following note:

"Dear Madam, please excuse my Tommy today; he won't come to school as he is acting as timekeeper for his father and it is your fault. You gave him an example, if a field is 5 miles around how long will it take a man walking 3½ miles an hour to walk 2½ times around it? Tommy ain't a man, so his father will walk around the field and Tommy will time him; but please don't give my boy such example again, because my husband must go to work every day to support his family."—Selected.

To remove spots from linen so they will not return—use a pair of scissors. Cooking odors are easily destroyed by applying a coat of rubber on your kitchen stove.

Grass stains can be avoided by wearing green clothing.

To keep the dog from barking—shoot him.

Good tough inner tubes for your car can be made by cooking a batch of regular bulk macaroni.—Household Hints.

METHODIST CHURCH.

C. A. PICKERING Pastor

Sunday School - 10:00 a. m.
Preaching service either at the Methodist or Presbyterian church - 11:00 a. m.
Epworth League - 6:45 p. m.
Preaching service - 7:30 p. m.
Prayer service, Thursday 7:30 p. m.

The Sunday morning preaching service will be held at American ridge. Everybody on the ridge invited to attend.

Make a note of the lyceum entertainment; the "Vincents", which the Ladies' Aid are bringing to our church, Tuesday evening the 27th. Admission 35 cents.

Come to Sunday school. We are making a strong effort to begin and close on time so as not to conflict with any other plans you may make. Bring the family.

POULTRY NOTES

Always feed good laying rations.

Stimulants and poultry tonics are of no value if a good laying ration is fed.

The flock that is healthy needs no dopping.

The more room in the chicken house the easier it is to keep the house clean.

Treat every fowl on the farm for lice before they are housed for the winter.

Hens can stand cold weather, but dampness will soon undermine their vigor.

A Good Thing—Don't Miss It.

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchial, "flu" and whooping coughs, and tickling throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.—Adv.

LIVING LONG

HALF of us live to be 60, and nearly a fourth of us reach 75. This cheerful state of affairs is announced by Dr. Louis I. Dublin, chief statistician of the Metropolitan Life Insurance Company.

"The average person at 50," says Dr. Dublin, "may now hope to live to the age of 71—or, as we put it, the average length of life remaining to each one of the survivors at age 50 is 21 more years. Even at 70 there is more than nine years of expectation and so on in a diminishing degree to the end."

The average baby born in America in 1901 could be expected to live 49 years 3 months.

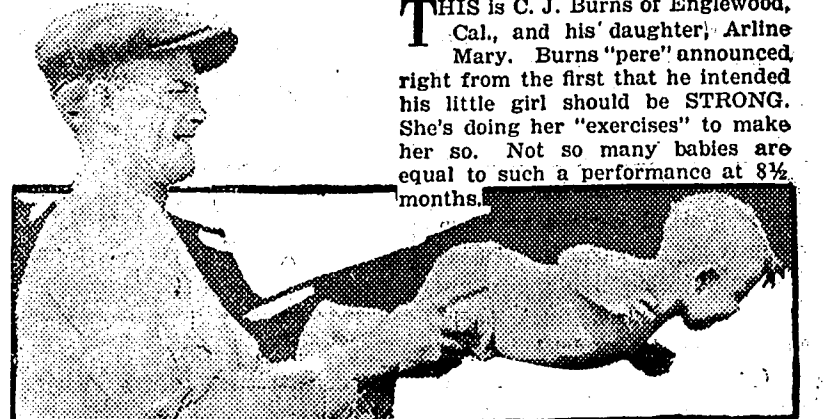

The average baby born in 1923 should reach 65, thanks to great strides by medical science, especially in saving the lives of children during babyhood and early childhood.

As a matter of fact, children born in 1923 may, for all we know, live to an average age of 100, 150 or more. Startling discoveries, in the way of prolonging human life, may be made before many more years, by the use of radium or artificially stimulating the endocrine glands of the body—thyroid, adrenals, etc.

The great strides that have been made in the last 20 years, in prolonging the average duration of human life, have been mostly by reducing infantile death rate. Science is turning its attention to similar service for mature people. Much is possible. And considerable is probable.

Some time when you have an idle hour, get out the family Bible or whatever you keep the records in, and figure up the average age at which people in your family die. It will teach you what years are apt to be most critical in your life—the time when health must be safeguarded most.

Developing Daughter's Muscle Right From the Start

THIS is C. J. Burns of Englewood, Cal., and his daughter, Arline Mary. Burns' "pere" announced right from the first that he intended his little girl should be STRONG. She's doing her "exercises" to make her so. Not so many babies are equal to such a performance at 8½ months.

Wealth That Works

Money saved and deposited in a bank is wealth that works. Wealth that works is capital. Unlike brain and muscle, it does not wear out or deteriorate. It grows and improves.

The only gain from labor is what is saved. Labor, therefore, makes wealth and when wealth works it is capital.

Capital at work pays wages, which, when saved, creates more capital. Labor is the producer when labor saves.

Savings bring independence. A savings bank is a public servant.

Southwick News

Rev. George Calvert and wife and small son returned to Juliaetta, Tuesday of last week.

William Stump came up Tuesday of last week and stayed a few hours at home before returning to Lewiston.

Mr. and Mrs. Howard Southwick and children visited Mrs. Southwick's parents, Mr. and Mrs. Joe Thornton near Leland last week. In their absence from home the hot water system froze up in their range and when they built a fire in the stove, on their return home, there was an explosion that completely ruined the range. No one was injured.

Mrs. Armitage and children returned home from Lewiston last Thursday.

John Birkemo of Orofino arrived here last week and is a guest at the L. J. Southwick home.

Grandma Southwick fell and sprained her ankle quite badly last week.

George Christensen and Howard Southwick went to Kendrick last Thursday, returning with the John Christensen household goods.

Mrs. A. Mustoe, Mrs. G. Mustoe, Mr. and Mrs. Irvin Helton and Emil Schessler took a big basket of lunch and went out to spend the day, Friday, at the logging camps.

The Southwick-Kendrick stage was compelled to use a team and sleigh instead of a car, a few days last week, on account of a big snow drift near Cameron.

William Jones went to Kendrick on business last week. His daughter, Edna, accompanied him.

Mrs. Frank Dygert of Cream ridge has been visiting at the S. R. and L. J. Southwick homes and at the Irvine Helton home, the past week.

Harry Smith of Leland was an overnight guest at the McCoy home last Thursday.

Mr. and Mrs. George Wells have a very sick child. The last reports were to the effect that she was improving some. Mrs. Monroe Graham was over helping to care for a few days last week.

H. A. Russell was transacting business in Kendrick last Thursday.

Mrs. R. G. Farris and Miss Frances were dinner guests of Mrs. Minnie Bunker last Thursday evening.

Elsie Zimmerman of Gold Hill is helping Mrs. Harry Wright with her work.

Phil Elvy hauled ice from the Southwick pond and filled his ice house last Friday and Saturday.

The Ladies Aid will meet Friday instead of Thursday at the L. J. Southwick home on account of the exhibit at the school house, Feb. 22.

Miss Greenwood and Ira Triplett were visitors at the Lettenmaier home last Sunday.

Miss Vena and Alice Craimer visited at their ranch near Crescent and at the Souders' home, where they were dinner guests last Sunday.

Mr. and Mrs. L. J. Southwick were Sunday dinner guests of Mr. and Mrs. G. H. Ziemann.

Gordon Harris and family spent the day, Sunday, with Mr. and Mrs. Harold Whitenger.

Mr. and Mrs. R. M. Wright entertained the following guests at dinner last Sunday: Mrs. and Mrs. William Kauder, Mr. and Mrs. Ralph Wright, Lottie Wright, Lillian Rawson and Frank Wilmot.

Mr. and Mrs. Berriman, Doc Betts and wife and children went over to Summit and Gifford, Saturday, to visit at the Edgar Lincoln and Fred Hessinger homes.

Rev. D. L. Clark was a Southwick arrival last Saturday. He expects to conduct revival meetings here all this week and next. Everybody is cordially invited to attend.

The Frank Thornton family were Sunday visitors at the Wm. Whitenger home.

Fred Whitenger of Russell ridge was a home visitor from Tuesday of last week until Thursday.

The Harry Thompson family have moved from Walla Walla to Marshfield, Oregon, recently, where Harry has employment.

Mary Thompson, daughter of Mr. and Mrs. Ed Thompson of Walla Walla, has just recovered from a severe attack of diphtheria.

Math Kazda and family left last Thursday for Jefferson, Oregon, to visit Mrs. Kazda's parents, Mr. and Mrs. John Lisa.

Wm. Jones and family were dinner guests of Dr. and Mrs. Baker, Sunday.

Mr. and Mrs. Will Stump returned home from Lewiston, Sunday. Pearl is at the C. Mustoe home at Asotin.

Clarence Henderson and Miss Zelma Wright were callers at the Frisbys home on Cream ridge last Saturday.

Floyd Russell and wife, J. R. King and wife spent Sunday evening at the Ben McCoy home.

Grant Bateman captured a live coyote last Friday in a trap.

Mr. and Mrs. Calvert gave a valen-

tine party last Wednesday evening. Thirty-five of the young people of the community were present. Prizes were given to those who drew the best picture of their sweetheart. Elbert Armitage received first prize, while Hub Holmes drew the consolation prize.

SOUTHWICK SCHOOL NOTES
The tenth grade English class has started reading Stevenson's "Travels With a Donkey."

The seventh grade finished the study of Europe and is now preparing to construct a class map of New Europe. The class is also writing the story of the Lewis-Clark expedition, as a history language lesson.

An exhibit of the work of the primary and intermediate rooms was held in the afternoon, Feb. 22.

Cameron News

August Brammar and Wanda Brunsiek were the Sunday evening dinner guests at the Blum home.

A kitchen shower was given in honor of Miss Hattie Wilken and Mr. W. R. Johnson, at the Lutheran hall, Monday evening. The hall was beautifully decorated with appropriate trimmings. The couple received many beautiful and useful presents.

We are glad to report that Walter Hartung is able to be around again.

Wilbert Brunsiek is visiting his uncle, Bill Bleck, of Southwick.

Rev. and Mrs. Rein and family, and the Herman Wolff family were the Sunday dinner guests of Mr. and Mrs. Albert Schultz.

Mr. and Mrs. Herman Wilken of Fir Bluff are visiting at the home of the former's parents, Mr. and Mrs. H. Wilken, Sr.

Rev. and Mrs. Rein and family and Mr. and Mrs. A. H. Blum and family were callers at the Herman Wilken home, Saturday evening.

Chamberlain's Tablets For Indigestion and Constipation.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Tablets," writes Melard F. Craig, Middle Grove, N. Y. They work like a charm and do not gripe or leave any unpleasant effect.

Look out also for moldy wheat or grain mash of any kind left in the bottom of the hopper. This will quickly kill.

When selecting breeding cockerels, choose the birds that matured early and show bright intelligent heads with short bills.

Patch the leaky poultry house roofs. This will improve the condition of the litter in the houses and help to prevent colds and roup.

SOMETHING ABOUT THE SAPH-HEAD

At New Kendrick Tonight and Saturday

"The Saphead" is a simple soul with an unlimited supply of money earned by his father, formerly a miner through energetic manipulation of the Wall Street market. In the belief that the pretty little schoolgirl with whom he is in love, wants him to be a "desperate character," he goes through wearisome rounds of late hours in New York cabarets and gambling places.

He is bored with being "bad" that he even falls asleep at a gaming table with \$38,000 in winnings in front of him. Then the place is raided and the young man wakes to find himself made notorious by the newspapers. His irate father, disgusted, orders his son from his home with a \$1,000,000 check to squander.

He buys a seat in the Stock Exchange, a lamb ready to be sheared. How he wins through is told in one of the greatest stories of the American drama. It is a tale tense with dramatic interest and full of hilarious comedy.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

HALL'S CATARRH MEDICINE consists of an Ointment which Quickly Relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus assisting to restore normal conditions.

Sold by druggists for over 40 Years.

F. J. Cheney & Co., Toledo, O.

CALL FOR BIDS

January 31, 1923.
The Trustees of School District No. 9, Nez Perce County, will receive bids up to March 1, 1923, for the delivering of 30 cords of 32 inch Red Fir wood, the same to be cut from green timber, seasoned and delivered on the school yard at Leland by September 1, 1923. A \$50.00 bond will be required of the successful bidder. The Trustees reserve the right to reject any or all bids.

R. B. Parks, Clerk. 5-4t

Chamberlain's Cough Remedy

This is a pleasant, safe and reliable medicine for coughs and colds. It has been in use for many years and is held in high esteem in those households where its good qualities are best known. It is a favorite with mothers of young children, as it contains no opium or other harmful drug. Try it when you have need of such a remedy.—Adv.

Bilious Headache.

When you have a severe headache, a disordered stomach and constipation take three of Chamberlain's Tablets. They will correct the disorders of the liver and bowels, effectually curing the headache.—Adv.

A SAVINGS ACCOUNT

Is a developer of character, thrift and energy. It is also a wise counsellor and a steadfast friend of every young person who wishes to rise.

Sound ideas should be instilled into the minds of the children. A very important one is the advantage of money-saving.

Open an account for your child today. A SAVINGS PASS BOOK is an encouraging helper.

One of our beautiful steel Savings Banks is given with each account opened of one dollar or more.

The Farmers Bank

GLEANINGS

Dr. Thompson, district superintendent of the Walla Walla Presbytery, preached at the local Presbyterian church last Sunday morning.

Mr. and Mrs. Leo Raaberg recently moved from Dayton to Walla Walla, Wash. Mr. Raaberg has a position as accountant for the Standard Oil Co.

R. D. Newton went to Spokane the first of the week to visit his parents. From there he expects to go to Vancouver for a visit with relatives.

G. Hogrefe of Leland was a Lewiston visitor the first of the week.

Mrs. Charles Schultz returned from Lewiston last Saturday, where she underwent slight operation. Dr. S. A. Roe performed the operation.

Donald MacPherson, son of Mr. and Mrs. O. E. MacPherson, has been quite ill for the past week, but is now recovering rapidly.

Mr. and Mrs. Jesse Hoffman of Leland left Tuesday for a brief visit at Lewiston.

Jack Bechtel returned Monday from a visit in Lewiston.

O. O. Smith, who has been staying on the Clarence Dougherty place on American ridge, went to Potlatch the first of the week to look for employment in the mill. His family will follow him as soon as he has found a job.

Here lies the car of William Gregg, a little piece of Williams leg; the rest of Bill was a total loss for he tried to beat the train across.

Rev. Wm. T. Russell writes from Lapwai that he will be here Sunday, and will hold communion service at the Presbyterian church in the morning.

Born to Mr. and Mrs. Guy Walston, Thursday, February 15, an 8 pound boy.

John Dammarell was a Moscow visitor Wednesday.

Charles McKeever was again able to be at his place of business, Wednesday, after a week's illness.

Holbrook & Emmett shipped a carload of cattle, Tuesday. This firm averages over a carload of cattle or hogs a week, shipped from this point. They handle about the same number from outside points. Last year approximately 60 carloads of stock were shipped from Kendrick.

Sidney Dicks of American ridge stated the first of the week that the snow had "scalded" part of his winter wheat. He had a very promising field that was seeded early and had made a splendid growth; but since the snow melted the grain has turned yellow and the leaves will probably die. However, if the roots are not injured by the freezing, new shoots will start and the field will probably make a good yield.

Dr. D. Smith, local dentist, who has been seriously ill for a greater part of the winter, suffering from pneumonia, is said to be in a very critical condition.

The Kendrick Hardware sold 26 cream separators last year. This is a most favorable indication that the farmers of the Potlatch are going more extensively into the dairy business. It is to be hoped that the local firm will sell twice that many this year and thus show an even greater interest on the part of the farmers to increase the dairy products of the Potlatch.

Mrs. Ernest Bolon arrived the first of the week from Lewiston to visit relatives here.

Mrs. Mary Cain of American ridge went to Lewiston for a visit, Thursday.

Hugh Stanton was in Troy the first of the week on business.

Mr. and Mrs. G. F. Walker were Lewiston visitors yesterday afternoon.

Leslie Roberts has completed the construction of an automobile cylinder grinder. The machine was tried out this week and proved to be very practical. It is a portable affair, light enough so that one man can carry it and is operated by a quarter or half horse power motor. Leslie is using it on his own car, so it evidently does good work.

Mrs. Herman Koepf of Leland returned Thursday afternoon from a visit with her daughter in Spokane.

Mrs. R. D. Newton and children went to Moscow, Thursday, for a visit with relatives.

Martin Thomas was transacting business in Lewiston yesterday afternoon.

W. A. Perryman was transacting business in Moscow yesterday.

What to do while waiting for a doctor in case of a draught of wood alcohol by mistake: Call a reliable undertaker.—Ex.

We wonder how many times Coue would have to repeat 2 times 3 to make it 7.

The beautiful sunshine of the last two days has been the means of awakening the baseball enthusiasm

of Manager Wilcox. He is considerably worried over the fact that this year he has more ball players than he knows what to do with. Some of the younger players, who last year showed signs of promise, will be hard competition for a number of the older heads. There is no reason why Kendrick shouldn't have a winning team this season.

Leland Items

Mr. Wright has been critically ill having caught cold from a trip to Kendrick last week, but we are glad to report his condition improved.

Burt Black, who came to take care of C. Craig, found him so improved and able to help himself that he returned home, Monday.

The little baby of Mr. and Mrs. Ed. Flesman has been quite sick.

Miss Elizabeth Hund spent the week end at home.

Mrs. Dean was a Sunday dinner guest at the Goudzward home.

Rev. Hall is attending district conference at Troy, Idaho, this week.

Mrs. Hund and Mrs. Hugh Parks visited Mrs. Hall, Tuesday afternoon.

Mr. Piper has been quite sick but is better.

Mrs. J. Thornton is caring for her daughter, Mrs. Grau, who has been ill.

The sleighing is again almost a thing of the past.

LELAND SCHOOL NOTES

There have been a great amount of absences in the school the past two weeks on account of illness.

The class in animal husbandry is busy these days working on practical farm problems.

The primary and intermediate rooms had a Valentine box party last Wednesday afternoon. The children took great pleasure in exchanging valentines. A short program was also given. Mrs. Julia Flesman, Mrs. Harry Smith and Mrs. Clyde McGhee were visitors.

This is examination week for the high school and that of course means many pleasant smiles for the teachers.

Friday evening, February 23, is the big event for the high school. At eight o'clock that evening the school will give a play at the Odd-fellows hall. The title of this play is "All a Mistake". The cast has worked hard for the past six weeks in order to make this play a success. The admission fees will be 15c and 25c. The proceeds will go toward a general fund for purchasing a piano. The following is the cast: Claud Hall, Margaret Schmidt, Homer Parks, Gertrude DeWinter, Heruert Goudzward, Lela Webster, Donald Goudzward, Ruby Daugherty.

Stony Point News

Mr. and Mrs. Will Schetzle spent Sunday at the home of Albert Heimgartner.

Mr. and Mrs. Cletis Hoisington were Sunday visitors at the Robert Heimgartner home.

Mr. and Mrs. Groseclose of Potlatch canyon visited the first of the week at the Ike Steensma home.

Cushman Davis made a business trip to Orofino, Saturday, returning Monday.

Mr. and Mrs. Robert Steigers are visiting this week at the Lew Stevens home near Culesac.

Mrs. Geo. Dygert, who has been sick for several days, suffering from a severe attack of pleurisy and bronchitis, is reported better.

Clarence Dygert went to Lewiston, Monday, and made homestead entry on a tract of government land adjoining the ranch which he is farming near Myrtle.

Mrs. Cushman Davis was a week end visitor at the home of Will Steigers.

Mrs. Ike Steensma spent Tuesday visiting with Mrs. Geo. Dygert.

Mrs. Dave Johnson visited Sunday afternoon with Mrs. Ike Steensma.

Big Bear Ridge

Miss Clara Morey has returned from Kendrick where she has spent several weeks.

Mrs. Zack Aas, entertained the Lutheran Ladies' Aid, Monday afternoon.

Mr. and Mrs. Hiram Galloway were week end visitors at the Hupp home on Little Bear ridge.

John Heath is spending the week in Moscow.

Miss Carol Sternberg is preparing a George Washington program to be given by her school at Taney, Thursday afternoon.

John and Ed Galloway and Clarence Morey write from Dinuba, California, that they plan on starting on their overland trip for home last Monday, February 19th. They expect to drive a different road and will make numerous stops at places

of interest.

Andrew Lien met with a painful accident Saturday, while driving to Kendrick, his team became frightened and ran away, upsetting the sleigh and he was thrown out against the bank, causing a dislocation of the shoulder blade. He was rushed to Dr. Otterassen's office and is now recovering nicely.

Ingvald Kleth spent the week end with his sister in Lewiston.

Mrs. Amos Moore spent last week with her daughters, Misses Alta, Allie and Claribel in Kendrick.

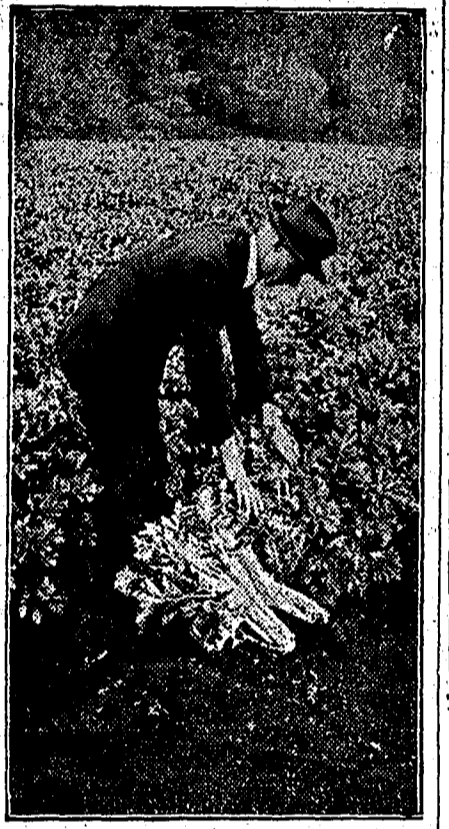

CELERY CROP LARGER THAN PREVIOUS YEAR

Florida Produced an Early Crop of 5,493 Carloads.

Late Product Was Grown in Other States Amounting to 16,846 Cars, With California in Lead of Michigan.

(Prepared by the United States Department of Agriculture.)

Production of commercial celery is estimated by the United States Department of Agriculture at 22,339 cars, or 13 per cent more than the crop of 19,771 cars in 1921. Of this total, Florida produced an early crop of 5,493 cars of 350 crates each, with four to five dozen bunches per crate. Other states produced a late crop, the total of which is 16,846 cars of 180 crates each, with eight to ten dozen bunches per crate. California leads with a crop of 5,000 cars, followed by

Crop of Celery is Estimated to Be 13 Per Cent Greater Than in 1921.

Michigan with 4,648 cars; New York, 4,327 cars; New Jersey, 1,150 cars; Ohio, 875 cars; Colorado, 590 cars; and Pennsylvania, 256 cars.

Florida's estimated commercial celery acreage increased from 2,260 acres in 1921 to 2,670 acres in 1922, and the acreage of the late states increased from 12,942 acres in 1921 to 14,460 acres in 1922. In yield per acre, Florida's average declined from 768 crates of four to five dozen bunches each in 1921 to 720 crates in 1922, but in the late states there was a gain in the average from 206 crates of eight to ten bunches each in 1921 to 210 crates in 1922.

Production as estimated includes carlot movement, movement in less than carloads, whether by freight in mixed cars, express, auto truck, or for consumption in home markets, and also that part of the crop which for any reason is not moved off the farm.

Why Dairymen Co-Operate

1. To assemble their products most economically at country points.
2. To establish and maintain plants for handling their products at country points.
3. To become a factor and wield an influence in the marketing of their products.
4. To undertake actual commercial distribution of their products.
5. To obtain commercial efficiency in the marketing of their products.
6. To stabilize the supply in accordance with the market demand.
7. To secure for producers the services of marketing experts.
8. To reduce the cost of supplies required in marketing.
9. To eliminate speculation and waste.
10. To secure direct and orderly distribution.

They Appeal to Our Sympathies.
The bilious and dyspeptic are constant sufferers and appeal to our sympathies. Many such, however, have been completely restored to health by the use of Chamberlain's Tablets. These tablets strengthen the stomach, invigorate the liver and improve the digestion. They also cause a gentle movement of the bowels. When you have any trouble with your stomach, give them a trial.

Life Lines

BY HMC

A MIRROR stands in our big front room where the folks who come and go must pass the thing a dozen times a day. And it really seems that this bit of glass is in a place to know a lot of things in its reflecting way.

It watches mother at her work, it watches tots at play. It casts a living picture of their acts. It's bound to see the happenings that transpire every day; it cannot help but register the facts.

And when Dad comes at evening time it sees his smiling face. Or possibly it casts a sulky frown. It knows the bit of cheer or gloom he spreads around the place, and also whether spirit's up or down.

All told the silent mirror has a story that is held within its soul—a soul that's trained in gold. To see the things that happen is this article compelled—and yet its story never can be told.
