

NEWS NOTES FROM KENDRICK SCHOOLS

Events of Interest to School Patrons.

Work has been started on the Senior Class play. It is expected to be given some time during the latter part of May. Watch for further information regarding it.

State examinations were given in the 7th and 8th grades during the latter part of this week. Mrs. McConnell was in charge.

The fourth grade geography for the year has been completed. Those receiving ninety percent or above in the final examinations were as follows: Billy Wilmot, Virginia Barr, Josephine Strauch, Iva Johnson, Lillian Long, Jaunita Stanton, Viola Schneider.

Sixteen little girls from the third and fourth grades will give a scared drill, Saturday, the 14th, at New Kendrick theater, preceding the play, "You'd Be Surprised," given by the faculty.

Faculty Play Tomorrow Night

Those who enjoy a really good home talent play that is brim full of amusing situations, will be delighted tomorrow (Saturday) night at the production to be put on at the New Kendrick Theater, by the faculty of the local schools, with the assistance of A. V. Dunkle, Walter and Harold Thomas.

It is seldom that a home talent play is so fortunate in having a cast of characters so exceptionally qualified to handle the various difficult parts. It is being predicted that, partly for the foregoing reason and also because the play itself is particularly good, this will be pronounced one of the very best home talent productions ever given here.

Corrects Report

Owing to the fact that the report is being circulated here and at Juliaetta, that the two other county commissioners were ready some time ago to sign up a contract with the contractors now working on the Kendrick highway between Juliaetta and Kendrick, to build and complete the section of road between the Juliaetta end of the Kendrick highway to the Nez Perce county line, I feel it my duty to correct this erroneous report. The fact of the matter is that I am very much in favor of building this piece of road. There is no question but what the work would be done this spring if funds available for the purpose were on hand, but they are not, consequently the commissioners could not sign a contract for the work at this time though they all might be perfectly willing to do so. At the time the levy was made last fall the work on this section of road was not in mind so no levy was made for the purpose and this cannot be done until the September meeting of the commissioners. However several hundred dollars will be spent in fixing up this part of the road this spring, and work to this end is now being carried on from the Kendrick end toward Juliaetta. As soon as a levy to cover expense of construction work can be made there is no doubt but what the section of road in question will be built and completed to the Nez Perce county line. As far as I am concerned I will do all I can to hasten the securing of the necessary funds for the work and assist in every way possible to get it started at the earliest possible time. I have never opposed the matter in anyway much less blocking it. Under the law the two other commissioners could not sign such a contract under existing conditions if they desired to do so, and to my knowledge they have never agreed to do so. I am making this statement simply to correct the false impression which seems to have gotten out concerning the matter.

A. E. Wilcox Leaving

A. E. Wilcox, local N. P. agent, made application for the position of agent at Orofino and was notified recently that he would be transferred there in the near future. Mr. Wilcox is making this change of location so as to be near his ranch which is in the vicinity of Orofino. The announcement of Mr. Wilcox of his decision to leave is meeting with dissatisfaction all over the Potlatch country as there is no more popular man in the community than he, and we'll venture to say that there are few better station agents on the whole N. P. system. The local baseball fans consider his leaving little short of a disaster as he has been a splendid manager and turned out a ball team here every year with very little expense to the business men of the town. We certainly begrudge Orofino's gain in this good citizen and can only hope that his successor will measure up to the standard that has been set by "Manager" Wilcox for the past 13 years.

Parent-Teachers Meeting

The Parent-Teachers association will meet Friday, April 20, in the high school assembly room at 3 o'clock.

Plans are being made to have Dean Messenger of the State university at Moscow here to speak. Dean Messenger is head of the educational department and will give us some vital suggestions for our organization. Several very enjoyable musical numbers are on the program as is also a reading. Our president, Mrs. Knepper, is urging that not only the parents be present at this meeting but everyone who is interested in making Kendrick a beautiful little city. At this time there will be discussed the turning of the organization into a civic club for the summer months. A good attendance is desired to make our last meeting a success.

—Program Committee.

Lenore Items

The rain has put a stop to some extent to spring work in this vicinity.

Frank Vaughan, who underwent a major operation at a Lewiston hospital some weeks ago, is much better and came home last Sunday.

Mrs. Wheeler's friends will be glad to learn she is slowly improving.

Born to Mr. and Mrs. Bill Pea, a fine big boy, at Clarkston, where the family now live.

J. Herbert Johnston, who went to Lewiston on business, was compelled to remain there a few days longer, while Florence Pea, who has been attending high school in Lewiston came home for the Easter holidays and was not able to go back until Sunday on account of train service.

Mr. and Mrs. J. H. Johnston are back on the farm again after spending the winter in Lewiston.

A few weeks ago Miss Irene Johnston spent the week end in Lewiston where her many friends gathered to welcome her visit in town. They gave her a shower of many beautiful and useful things. Her wedding is to take place soon but she has not let the exact date be known yet.

Mrs. Claude Huffman's father, who lives in Missouri, died last Thursday, with cancer of the stomach. Mrs. Huffman just returned from Missouri the first of April and has since been sick with the flu. You have our sincerest sympathy during your bereavement, Mrs. Huffman.

Mrs. Cecil Huffman, who was Miss Sadie Carey, writes that she is much better since going to Arlington, Cal. She says the doctors have pronounced her cured from the malady and only need to build up her system again. She writes that they are not coming back to Idaho until September, as Cecil is working and getting eight dollars a day. Her sister, Mrs. Walter Huffman, is with her.

Mr. and Mrs. Sam Harp have moved to Potlatch.

The Star school will soon close as they have just two weeks more of school.

VOTE BOND ISSUE BY SAFE MAJORITY

Biggest Vote Ever Polled in Kendrick

The result of the bond election in Kendrick Highway District, Tuesday, was highly satisfactory to the good roads boosters of the Potlatch. The substantial majority of 306 to 87 indicates in a most emphatic manner that the \$20,000 bond issue is a popular move. It also demonstrates that this community is still in possession of the booster spirit that has done so much for it in the past. One of the outstanding features of the election was the good feeling displayed by both those in favor of the bonds and those against them. It was one of the heaviest votes ever cast here and the interest in the outcome was intense, yet there was little demonstration made by the voters.

One of the heavy land owners of the community stated, after hearing the result of the election that he considered it to be the "greatest advancement and precedent in road building in the Potlatch country and was a splendid investment from every standpoint."

Much of the credit for the favorable outcome of the election is due to Martin Thomas. Ever since the big road meeting at Lewiston last December, when representatives from every part of the Potlatch were in attendance, Mr. Thomas has been very strongly in favor of completing the two miles of road from Kendrick toward Juliaetta. Upon the building of these two miles rest the construction of the Kendrick-Juliaetta-Lewiston highway, which will eventually serve the entire Potlatch country. Mr. Thomas stated yesterday: "In my opinion the carrying of the bond election Tuesday is one of the biggest things for Kendrick and the surrounding territory that has happened in recent years. I do not believe that anyone who voted for the bonds will ever live to see the day that he will regret the result of the election." Mr. Thomas is one of the heaviest taxpayers in the district, so his opinion ought to carry considerable weight along a progressive move if this kind.

Contractors Campbell & Barr installed the motors for operating their rock crushers, immediately after the result of the election was made known. They began crushing rock yesterday and will probably spend the greater part of this month completing the job of spreading crushed rock on the two miles below Kendrick and finishing the top coat from the Bear Creek bridge to the Wandcher gulch bridge northeast of town.

The commissioners canvassed the election ballots Wednesday morning and found the result as tabulated by the election board. Wm. Cox, Ole Lien and G. F. Walker, the board of highway commissioners, feel highly gratified at the result of the election and the confidence on the part of the residents of the district as displayed by the election returns. They asked that their appreciation of this endorsement of their work might be extended to the public through the columns of the Gazette.

There was one rumor current during the election Tuesday, started by an irresponsible party, that half the money raised from the bond issue was to be used to help pay for the work done on the streets of Kendrick. Anyone familiar with the law concerning such expenditure of highway money, knows how utterly impossible such an appropriation would be. However, if he has the slightest suspicion that any of the money from the \$20,000 bond issue is to be used within the corporate limits of Kendrick, he may have his fears allayed by consulting the assessment roll of Improvement District No. 2 of the Village of Kendrick, to be found at the office of the treasurer, Harry Stanton. GROWING CERTIFIED SPUDS FOR SEED

Information is Sent Out by County Agent Fletcher

As the time for planting potatoes draws near, farmers in the various parts of Latah County are considering whether or not to undertake to grow potatoes to be certified as seed. County Agent O. S. Fletcher states that he has received numerous inquiries as to the plan that will be followed this year in handling the certification work. E. R. Bennett, of the Extension Division of the University of Idaho, who has charge of the work of certification of potatoes, has just issued the following statement in regard to plans that should be followed in producing certified seed potatoes in 1923:

1. The use of only such stock for seed as is known to be reasonably free from disease.
2. Seed that is known to be of a desirable type and a high yielding strain.
3. That all seed be sorted to size and type.
4. That all seed be treated ninety minutes with the standard bichloride of mercury treatment.
5. That treatment be given at least two weeks previous to planting time.
6. The use of whole tubers for seed where expedient.
7. That pieces be cut large (3 to 4 ounces) if cut seed is used.
8. That the distance apart of planting on unirrigated land be 30 inches each way or from 18 to 24 inches in the row on irrigated land.
9. That planting be delayed until the latter part of June or early July for early potatoes and Idaho Rurals and not much earlier for Netteed Gems.
10. That seed, be planted at least 5 inches deep on unirrigated land and 2 1/2 to 3 inches on irrigated land.
11. That thorough and merciless roguing begin as soon as plants are up and continue throughout the season.

We require:

1. That the seed plot be at least 100 yards from any other growing potatoes.
2. That the potatoes be planted on land that was not in potatoes for at least the two previous years.

The certification of seed potatoes phase of this project has reached a stage of development where it is deemed expedient to make the work of field inspection partly self supporting by charging an inspection fee of \$4.00 per unit of five acres, or fraction thereof, and 50 cents for each additional acre.

Kendrick-Lewiston Highway

By the substantial majority of 308 to 87 the people of Kendrick highway district voted a \$20,000 bond issue to construct a highway between Kendrick and Juliaetta.

By this action an important link is provided in the highway system which is being built through the Clearwater country. By this link and the highway that is to be built from Arrow to Juliaetta, a fine road will be provided between Lewiston and Kendrick.

The contract has been let to Campbell & Barr, of Lewiston and Colfax. The road will be surfaced with crushed rock and will have a 16-foot driveway.—Lewiston Tribune

Born to Mr. and Mrs. Ray Snyder, Wednesday, a daughter.

assessment roll gives the figures of the engineer who had charge of the street work in Kendrick. It shows the total cost of construction and the exact amount assessed against each lot to pay said cost. The rumor is pure bunk.

It is a relief to everyone that the election is over and there is at least 76 per cent of the residents of Kendrick Highway District greatly pleased at the result.

Nelson-Field

A very pretty but quiet wedding was solemnized at the home of Mr. and Mrs. Anton Nelson, Tuesday morning, April 10, at 10 o'clock, when their youngest daughter, Miss Neva, became the bride of Liet E. Field of Moscow.

The ceremony was performed by Rev. Peter Hesby, Lutheran pastor of Deary, in the presence of the parents of both bride and groom, relatives and a number of friends.

The bridal party entered to the strains of Lohengrin's Wedding March, played by Miss Helen Lind, and paused under an arch of evergreen from which was suspended a huge wedding bell. Dainty streamers of pink and white completed the bower of loveliness.

Following the usual congratulations a delightful three-course dinner was served. The table decorations gave a very pleasing effect featuring a beautiful basket of pink carnations and an immense white wedding cake, thus helping to carry out the dainty color scheme of pink and white.

The bride was charmingly gowned in white satin and georgette etched with crystal beads, and carrying an arm bouquet of pink and white carnations. The bridal veil of filmy net was held in place by clusters of beads and a wreath of dainty pink and white flowers. The bride wore a string of pearls.

The two bridesmaids, Miss Emma, sister of the bride and Miss Johanna Hooker, were dressed in sheer pink organdy with corsage bouquets of pink and white sweet peas.

The groom wore the conventional black and was attended by Gust and Albert Nelson, brothers of the bride.

The bride is a most charming young lady of cheerful and pleasing disposition and with a wide circle of acquaintances on the ridge where she was reared, and prominent in social circles.

The groom is the only son of Mr. and Mrs. H. O. Field of Moscow, a graduate of Moscow High and had spent two years in the Electrical Engineering department of the University of Idaho, where he was known for his studious, splendid character.

The happy couple will motor to Santa Monica, Cal., leaving the latter part of the week from Moscow, where he has an attractive position awaiting him. They will be at home there after May 1.

Big Bear Ridge

Mrs. Hiram Galloway of Little Bear ridge, gave the eighth grade examinations here this week.

Mr. and Mrs. H. O. Field of Moscow spent the first of the week at the Anton Nelson and A. Hooker homes.

Miss Bessie May has gone to Burnt ridge to remain for some time.

Mr. and Mrs. W. H. Fairfield and family are planning on moving to Clarkston in the near future.

Miss Josephine Bergland closed a seven months term of school at Rimrock, Friday. The school and a number of visitors enjoyed a dinner and a social good time during the afternoon.

Miss Cowgill, home demonstration agent of the University of Idaho, will be with the ladies at the Community hall, April 23, 24 and 25, for the purpose of organizing a millinery class. Those interested in attending these meetings will kindly phone to Mrs. K. D. Ingle or Mrs. A. N. Rognstad, project leaders, as soon as possible.

Union Sunday school at the Steele school house, Sunday, April 14, at 10:30 a. m.

Preaching services at the Lutheran church, Sunday, April 14th, at 3 p. m.

Miss Marie Hamilton is visiting at the home of her uncle, A. W. Jones.

Adolph Forest was a Lewiston visitor the first of the week.

Miss Anna Reimer of Spokane was the guest of Miss Carol Sternberg at the D. J. Ingle home last week.

A number of young folks gave a party at the Toney school house, Saturday evening. Refreshments were served and everyone enjoyed the evening immensely.

LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns of Neighboring Papers.

Genesee News: Irvin Flomer brot to the News office the other evening another sample of a real "cackle berry" which was said to be the product of a Rhode Island Red biddy. The egg measured 7 1/2 x 6 1/2 inches in size and weighed 3 1/2 ounces plus—making it the same size and weight as the one brought in by Ed Taylor last week.

On this egg question the News man rises to a point of order. He has been accused of "grafting for eggs" by members of that Ku Klux Klan auxiliary, some of the members of which almost threatened him with personal violence and even went so far as to try to gain possession of one of the large "cackle berries" that had been given him for his breakfast. Again we rise to a point of order.

W. Nedvidek has filed suit in the Latah county probate court against W. M. Wright to recover \$225 alleged to be due the plaintiff on account of a breach of contract. The plaintiff alleges that he entered into an agreement, June, 1921, for a lease of certain saw mill equipment for the use of which the defendant agreed to pay the plaintiff \$1.25 for all lumber cut by the defendant with the machinery.

Nedvidek claims that Wright cut 180,000 feet of timber, for which the complainant alleges he should receive \$225, according to the agreement.—Star Mirror.

Auction Sale Huge Success

One of the largest crowds ever in attendance at a local store sale was present at the Kendrick Hardware Auction last Saturday. G. T. Gregson officiated as auctioneer during the entire sale. The sale was conducted exactly as advertised and was a credit to the local firm.

An orchestra, composed of Mr. and Mrs. Harold Thomas and Walter Thomas, played at intervals during the sale and was a pleasing feature. At the close of the sale the orchestra played for a short time when the floor was cleared for dancing.

Stony Point News

Mr. E. E. Curtis of Clarkston visited Sunday night at the home of George Dygert.

Leonard Fairfield and family and Will Zumhove and family were Sunday guests at the Garrott home.

Mrs. Will Schetzle visited with Mrs. Robert Heimgartner Sunday.

The 7th and 8th grade pupils of Stony Point school are taking exams at Juliaetta and Myrtle this week.

Clarence Dygert built a new phone line from the John Stevens place to the home of Dygert Bros., the first of the week.

Mrs. Will Heimgartner of Fix ridge visited at the Albert Heimgartner home.

(Too late for last week)

Bill Stephas and others went to Leland Monday to attend a good road meeting.

Bill Fowler and Lew Stevens were gathering up their cattle here Monday and took them to Culesaac.

A heavy rain and hail storm visited the Clearwater section Monday afternoon and nine rock and mud slides ranging from 1 foot deep and 5 feet long to 20 feet deep and 120 feet long were reported on the Myrtle section, Monday evening. Ditchers and section crews were busy removing the slides and traffic was delayed several days on the Clearwater short line. These nine slides were between mile posts 3 and 5.

Some scarletina is reported in the neighborhood this week. Now is the time to use every precaution to prevent the spread of this disease as it is a dangerous disease and to be dreaded.

Ralph Schetzle has 20 fine white leghorn chicks hatched the first of the week.

The New Version

Maude Muller once on a summer's day, while her tightwad Dad was raking hay put up a job on the stingy cuss and went for a ride in the old tin bus. This Maude was one who would step on the gas—no sleepy John G. Whittier lass. She was a model "twenty-three," but the car had taken its last degree. The antique Lizzie still would run, but its days as a first-class rig were done. Its gearzard was loose and its liver and lights were gone with the days "when we had our rights." But the lady was wise to brakes and gears, and so, forgetting the passing years, they clattered through town with a jerky roar, as the twilight fell, past the courthouse door. As Maude went by in her ancient car, the judge half swallowed a big cigar, and a moment later was heard to shout: "As sure as I'm judge, that tall light's out." He called to his henchman. "Bailliff, say fetch here that dame in the rattling shay." The bailliff got him to horse at once—he was used to "pulling such fancy stunts—and Maude was stopped in her old tin car and faced cold justice across the bar. She looked at the judge and he hemmed and coughed, for Maude was a beaut and the judge was soft. And he said, "I note with profound regret, if it happened to rain you would sure get wet," and he murmured softly across the bar, "If you'll permit us we'll fix your car." The car was fixed and Maude helped in and she continued her evening spin. And they heard her laugh as she drove away, "You'd better be handsome than rich, I'll say."

THE NEW VERSION

"Early to bed, early to rise, cut the weeds and swat the flies, mind your own business and don't tell lies, don't drink booze nor deceive your wives; pay your debts and advertise, keep your mouth shut but open your eyes, and you'll be healthy, wealthy and wise."—Exchange.

WINTER SHELTER FOR GEESE

Shed Open on South Side With Plenty of Straw or Shavings Is Most Satisfactory.

Except in stormy weather or in the winter mature geese seldom need a house. A shed open on the south side, a poultry house, or a barn usually is provided by breeders in the North, and is used by some breeders in the South, says the United States Department of Agriculture. Coops, barrels, or some other dry shelter should be provided for the young goslings. But wherever they are the geese should have a clean place, with plenty of straw or shavings for the floor during the winter.

Preventative Medicine.

The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.

FOWLS FOR EGG PRODUCTION

Old Hens May Return Profit, but Younger Ones Will Give More—Pullets Preferred.

Some folks have the right kind of fowls, house and feed them properly, and still don't get eggs early in the winter because their hens are too old. It seldom pays to keep hens for laying after they are two and one-half years old. They may give a profit, but younger fowls will give more. Many poultrymen who make a specialty of winter-egg production keep only pullets, disposing of even the yearling hens, before it is time to put them in winter quarters. Early hatched pullets, if properly grown, ought to begin laying in October or early November, and continue to lay right through the winter. Yearling hens seldom begin laying much before January 1, and older hens not until later. It is the November and December eggs that bring the high prices. The laying breeds should begin laying when from five to six months old, general-purpose breeds at six to seven, and the meat breeds at seven or eight months.

LIMBERNECK IS INCURABLE

No Cure Known for Paralysis of Muscles in Necks of Fowls—Decayed Flesh One Cause.

Limberneck, which is a symptom, rather than a disease, is a paralysis of the muscles in the necks of the birds which often results from eating decayed flesh. It is a form of poisoning that also may be caused by eating arsenate of lead and other poisons found on the farm. No cure is known for the trouble, the chief control of it being prevention. Special care should be taken to see that all dead chicks and animals are buried or burned to prevent the spread of the trouble.

"SHORE ACRES"
"Shore Acres", which will be shown at the New Kendrick Theater, tonight, is a story of plain New England folk on the rock-ribbed coast of Maine. Martin Berry, a stern old lighthouse keeper, forbids his spirited daughter Helen to speak to the man she loves. It is Martin's fondest hope that Helen

will marry Josiah Blake, the village banker. Helen refuses to obey her father, and elopes with her sweet heart on the "Liddy Ann," a vessel bound down the coast. Her father learns of her departure and, insane with rage, he prevents his brother, Nathan, from lighting the beacon that will guide the vessel safely out through the rocks of the harbor. Deperately the two men battle together in the lighthouse — one to save the vessel, the other to destroy her. A sou'easter is raging, and during their struggle the "Liddy Ann" goes on the rocks, and the passengers are left to the mercy of the storm. The scene fairly makes the nerve tingle with excitement. What befalls thereafter is thrillingly unfolded in this picturization of the greatest American play of the century. "Shore Acres" is a big human drama of thrills and heart throbs, replete with delicious humor and tender pathos.
