

LATAH COUNTY NEWS PARAGRAPHS

Clipped From The Columns of Neighboring Papers.

As a community good turn, Scoutmaster Pendleton and the Boy Scouts spent the day last Saturday setting posts and putting up the "Genesee" signs which were made last year, to direct the traveling public to our little city, a total of 30 signs being put up during the day. John Meyer loaned the big International truck, with "Fritz" as driver, and the highway from the foot of the Lewiston Hill to Moscow was posted. They also went to Uniontown and placed signs at the road intersections. The road over the mountain from Moscow was also covered. If transportation is obtainable, the Scouts will continue work every Saturday until the signs have all been placed.—Genesee News.

Fall wheat? There never were better prospects for a bumper crop in this country. It is making a rank, rapid growth and has the very finest color, and so far there has been no damage by the fly that caused havoc in some sections last spring. Knight Reid has the best stand of fall grain we ever saw in this section, and if nothing happens to it during the growing season it will establish a new yield record.—Deary Press.

There are perhaps few people who knew that one of the richest men in America was a Genesee visitor Tuesday, passing through by stage on his way to Lewiston to inspect a proposed mill site in that city. Here's hopin' that Lewiston lands the big mill.—Genesee News.

Death of Elmer Grice

Elmer Grice formerly of Moscow, passed away at his home in Portland, Tuesday morning, May 8, at about 8 o'clock, death following an operation. Mr. Grice is the son of Mr. and Mrs. Thomas Grice, former Moscow residents. He lived in Moscow, Cornwall and Kendrick for many years, but for the past six years the family have resided in Portland, where Mr. Grice was manager of the Mark P. Miller Flour mills.

Elmer Grice was past 60 years of age. He is survived by his wife, five daughters and two sons: Mrs. J. J. Humphrey of Moscow, is one of the daughters.

His parents, Mr. and Mrs. Thomas Grice, and one sister, Miss Ada Grice, four brothers, Glen, Otto, Harry and Frank of Portland; all of whom formerly lived in Moscow, survive him.—Star-Mirror.

Scouts Camped at Atwater

Prof. Strauch, who has charge of the local scout troupe, took the boys to Atwater Lake, Saturday afternoon, where they camped until Sunday afternoon. They hiked from Kendrick with packs on their backs which included bedding and grub to last until their return. They had a great time.

It would be hard to find a better scout master than Mr. Strauch. He takes an interest in the boys and they like to be out with him.

Sold Bakery Fixtures

L. E. Pearson closed a deal last week for the sale of his bakery fixtures. Anderson Bros. of Coeur d'Alene bought the fixtures, which include the electric mixer and oven and other bakery equipment. The fixtures were shipped to Coeur d'Alene this week.

P. P. Oehler of the firm of Van Arsdol & Oehler of Lewiston was in Kendrick Tuesday finishing the engineering on the street work for final acceptance at the council meeting Tuesday evening.

The Fly Crusade

There are few people who stop to consider the danger and filth of the household fly. This subject has been carefully studied by the biology class and they are considering what is called a "Fly Crusade."

In studying the fly it was found to be oblong in shape, and has three black stripes down its back. The legs have joints covered with bristle like hairs. Each fly lays one hundred and twenty eggs, four times during the spring. These are deposited in any filthy place and are left to hatch. In twenty-four hours the eggs are hatched into tiny white maggots and within four or five days they become small larvae. From this time until the fly lays its eggs, which is about fifty days, they crawl around over food leaving many germs. Some of the diseases caused by the fly are: typhoid, smallpox, malaria and diphtheria.

These germs are carried on the legs and feet, but especially by the alimentary canal of the fly. When the insect lights on food it secretes a fluid thru the alimentary canal. This fluid dissolves the food to be taken up into the mouth, and a small amount of this is left. This contains thousands of germs besides the millions which are left from the feet and legs. It is said the death rate of our country is larger during the fly season than any other, being due largely to the germs carried by them. The biology class has given some very interesting demonstrations to the grade children in order to show them the danger of flies. Besides several of the students giving short talks, many slides were shown under the microscopes.

The crusade as planned is with the co-operation of the local business firms. The biology class will give a certificate to any student turning in to any member of the class, fifteen flies. When presenting this certificate to any of the local stores he will be allowed five cents in trade. In case a student turns in his certificate to the theater he will be allowed one third more or five cents for every ten flies.

This crusade will last for two weeks, and the credit extended to one student can not exceed one dollar. This crusade will not only be interesting to the children but it will be valuable to the community, as it will lessen to a great extent the flies here during the warm weather.—Audrey Stanton.

Civic Club Next Tuesday

Next Tuesday evening at the Methodist church at 8 o'clock, the first meeting of the Civic Club will be held. This meeting is in the nature of a farewell reception to the teachers who will not be back next year and also to plan civic work for the coming summer.

There will be an interesting program consisting of the following numbers: Music by members of the orchestra; reading by Mrs. MacPherson; drill, girls of the 3rd and 4th grades; vocal solo, Mrs. H. Thomas; piano solo, Freda Walker; short talks by Messrs. J. Long, R. H. Ramey and E. W. Lutz.

The program will begin promptly at 8 o'clock, followed by a short business meeting after which refreshments will be served.

Every man, woman and child in Kendrick community cordially invited. Bring ideas for civic improvement to help make our town "Kendrick The Beautiful".—Program Committee.

"So Long--\$10,000"

The Senior Class play of the Kendrick High School is going to be an exceptionally good production, judging from current rumors. Mrs. Strauch is training the members of the cast and they are making splendid progress with the various parts. The date set for this popular event is next Friday, May 18. This performance should draw a packed house.

Will Hunt Magpies

Plans have been made by the Latah County Fish and Game Protective association to do some active work toward controlling the magpies, crows and hawks which infest the canyons in southeastern Latah county, and which are a menace to the game birds, which have been brought in the country and protected in every way possible, says the Star-Mirror.

A hunt will be conducted on Sunday, May 13, and Sunday, May 20, under the auspices of the game association, and it is asked that all who are interested in the protection of the game birds take part. All who can are asked to take cars to haul the hunters to the field. Those who can take part are asked to report to C. L. Jain at the Moscow barber shop. The cars will leave the First National bank building not later than 8 o'clock Sunday morning.

The magpies, crows and hawks are found principally in the canyons below the rimrock, between Genesee and Kendrick. There are nine of the canyons and hunters will go through each canyon, killing all the birds possible and destroying the nests and eggs. These birds kill the game birds and raid their nests, breaking their eggs and killing the young, and their presence in large numbers constitutes a real menace to developing game birds in any great numbers.

Return From California Trip

Otto Schupfer and Ted Deobald returned Monday from their flying trip to California. They drove from here to Los Angeles in four days. After visiting points of interest around Los Angeles they bought a used Ford, having left the other car with Herman Schupfer at Long Beach, and started their homeward journey. They spent 5 1/2 days on the return trip, making 385 miles, in their best day's drive. They had a great trip both going and coming and no car trouble to speak of. They put in long days driving but kept within the speed limit most of the time.

Mrs. Pickering entertained the ladies aid of the Methodist church and a few other guests at a social afternoon Thursday.

Kendrick 8, Lapwai 4

The game of baseball played on the local diamond last Sunday between Lapwai and Kendrick, was interesting and well played by both teams. While Lapwai made frequent errors they were more than offset by a number of brilliant plays.

Kendrick had a well balanced team and played the game through with only two errors to account for. With "Gabe" Forest on third base that position was filled in a most satisfactory manner. Third base has been a "Jonah" for the Kendrick ball team for years but with Forest holding down that corner of the diamond there will be some sensational plays in store for the fans this season. Forest plays any position on the team equally well and is probably the most valuable man in the Kendrick aggregation.

Glenn Flesman pitched the full nine innings for Kendrick and held the visitors to a few scattered hits. Hard hitting by the locals was a feature of the game.

Organize to Celebrate

The executive committee for the big celebration to be held here July fourth, met at the town hall Wednesday evening for the purpose of organization. G. P. Barnum, who has had years of experience in directing celebrations, was elected chairman; George Carlson, secretary, R. D. Newton, treasurer.

Committees were appointed as follows: Finance, E. T. Long, A. Willmot, Theo Hanson; program, N. E. Walker, Walter Thomas, R. H. Ramey; sports, A. V. Dunkle, Geo. Carlson, Harry Benschoter; advertising, Ralph Knepper, Frank Boyd, G. F. Walker; concessions, J. G. Gardner, M. O. Raby, W. M. McGree; decorating, R. D. Newton, E. A. Deobald, John Kite, O. E. MacPherson; parade, A. Willmot.

Plans were outlined for securing attractions for the big day. The committee is enthusiastic over prospects and everything indicates that this celebration is going to be a hummer. The committee is making arrangements to accommodate 4,000 people.

Barnum Lumber & Mill Co.

Campbell & Barr, the road contractors, with a full crew of men are rapidly finishing the grading for the new planing mill plant and track for the Barnum Lumber & Mill Co.

Carpenters will begin the erection of the buildings next week and it is expected the buildings and track will be completed and ready for the machinery to be installed by June 15th.

This enterprise will not only add a payroll to the community but fill a long felt need of a complete wood working plant for handling the lumber output at this point.

George P. Barnum, the head of the Barnum Lumber & Mill Co. was for 12 years at the head of the Barnum Lumber & Construction Co., with yards and equipment both at Kendrick and Juliaetta and is a practical lumber and mill man with many years experience in all branches of the business.

It is the intention of the Barnum Lumber & Mill Co. to equip the new plant with machinery to handle all classes of lumber manufacturing, mill work, framing, cabinet work, box stock, screen doors, etc.

The plant will be electrically equipped and operated, electric stackers and conveyors being used for lumber piling and car loading.

When completed there will be ample room for piling, milling and loading out all the lumber, ties, poles, etc that can be delivered to Kendrick. A trackage of 1000 feet and a planing mill capacity of 40 thousand feet per day. The company already has contracts for over 4 million feet of lumber to be planed and shipped this summer and will also handle custom planing and local trade.

New Council Installed

At an adjourned session of the town board, held Tuesday evening at the hall, the old board wound up all unfinished business preparatory to turning over the reins of city government to the newly elected members.

The supplemental estimate, submitted by Van Arsdol & Oehler, which covered the completed work of street improvement, was passed by the board and accepted. The last cash payment due the engineers and contractors was made and all other bills paid up to date.

The newly elected trustees were installed as follows: A. V. Dunkle, E. T. Long, M. O. Raby, E. A. Deobald and R. D. Newton. A ballot was taken for the election of a chairman of the board and mayor of Kendrick, A. V. Dunkle being chosen.

Two applications were on file for the position of marshal, water and street commissioner, made by Ward Riggle and J. G. Gardner, the latter being appointed by the board.

There being but one application for the office of treasurer and that being made by Harry G. Stanton, who has held the position for several terms, he was appointed unanimously.

The appointment of clerk was held over until the next regular meeting as there is some question as to the legality of making a village clerk police judge in a precinct where there is already a justice of the peace.

Following a custom adopted by the board a number of years ago, that the village funds be transferred from one bank to the other every two years, the funds were ordered transferred from the Kendrick State Bank to the Farmers Bank as soon as a proper bond had been furnished.

In compliance with a ruling made by the last legislature two trustees were selected to serve for two years and three trustees to serve for two terms or four years. The selection was made by drawing lots. M. O. Raby and R. D. Newton each drew a two year term and the other three members were sentenced to four years.

As shown by the monthly report of the treasurer, the village finances have probably never been in better shape. All funds are in a healthy condition and there is considerably over \$2,000 in the general fund to run the town until the July apportionment, which should be more than ample. While all members of the board have worked faithfully and in perfect harmony during the past two years, it would be no more than fair to state that a large measure of appreciation is due N. E. Walker for the splendid management of the town affairs during the past six years. He has conducted the business of town government as carefully and consistently as though it were his own. That there has been wonderful progress in improving the town during the past six years is to evident for further comment. As mayor and chairman of the board of trustees he has done a splendid work.

The following committee were appointed to serve during the ensuing two years: Street and Alley: Trustees Raby and Deobald; Finance: Trustees Deobald and Long; Sewer: Trustees Deobald and Raby; Fire and Building: Trustees Raby and Newton; Park: Trustees Newton and Long; Cemetery: Trustees Raby and Long.

There being nothing further to bring before the board the meeting adjourned.

Carlsons Install Fixtures

A. K. and George Carlson arrived the first of the week from Nez Perce and began installing the fixtures for their hardware stock in the building formerly occupied by this firm. They are having their Nez Perce stock brought here by trucks and will soon be open for business.

NEWS NOTES FROM KENDRICK SCHOOLS

Events of Interest to School Patrons.

A "Sneak" was enjoyed by the Seniors and their class advisor, Mr. Strauch, Tuesday. The day was spent by hiking, boating, and fishing at Atwater Lake.

The following program has been listed for Commencement week: Senior Class play, "So Long—\$10,000", Friday, May 18.

Baccalaureate Sermon, Dr. H. O. Perry, speaker, Sunday, May 20. Commencement, Dr. Chinnoweth, of the University of Idaho, speaker, Thursday, May 24.

The grade students are taking a great deal of interest in the "Fly Crusade", and a large number of flies were turned in to the biology class this week. Up until Tuesday, 12,726 flies, were turned in, one student alone having as many as 10,488 flies to her credit. The fact that the business men are co-operating with the students has raised a great deal of enthusiasm.

Several students from neighboring school districts are in to take the state 8th grade examinations being given this week. Mrs. M. B. McConnell has charge of the examinations. The outside students are: Bruce Wilson, Rachael Riley, Matilda Riley, Kurt Wilson.

Fraser's Home Burned

The house on the ranch owned by Mrs. S. P. Callison and occupied by the Everett Fraser family, was burned to the ground last Friday. The contents were also entirely consumed.

There was no one home when the fire started, Mrs. Fraser being in Kendrick when the flames were first seen. It is believed that the roof caught fire next to the flue and was smoldering before Mrs. Fraser left the house, as she states she had put the fire out before leaving the house. This is the second time the Frasers have been burned out in the last few years, so they were always careful not to leave a fire in the house while they were away. The household goods were only partially covered by insurance.

Will Market Lime Fertilizer

A company has been formed to place ground limestone from the big deposits near Orofino on the market. Western farms have reached the point where commercial fertilizers must be added, and ground limestone seems to be one of the best and most economical that can be bought. At Orofino there are large deposits within a few rods of the depot, and a spur can be run right up to the foot of the hill at small expense, receiving the ground stone from bins so constructed that practically everything from the mine to the car can be handled by gravity, and the cost correspondingly low.—Lewiston Banner.

Jolly Birthday Party

Little Miss Mary Ellen Dunkle entertained twelve of her little friends at a birthday party Tuesday afternoon, from three to five. After an hour and a half spent playing games Mrs. Dunkle, assisted by her daughter Jean, served pink ice cream, animal crackers and a lovely birthday cake, decorated with four lighted candles. The children were given toy balloons as favors. Those bidden were: Vivian Wegner, Bernice Daniel, Eleanor Lutz, Gladys Fowler, Leora Atchison, Phyllis Thomas, Marvin Olson, Jewel and Phyllis Cummings, Chester Fowler, Donald MacPherson, Paul Dammarell and John Knepper.

Engineer Tiggelbeck of Lewiston was transacting business in this community over the week end.

Whooping Cough
 This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, codeine or other opiate is given, is easily cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.—Adv.

Siren of the Sea!

A challenge, and presto, the gay little sprite of the Jantzen suit is racing through the water, full speed ahead. And this little nymph knows she must have a Jantzen swimming suit to give her the freedom that puts such supreme joy into swimming.

We want to tell you and everyone in town, whether you're going to the beach, the lakes, or whether you're staying at home this summer, about the Jantzen swimming suit. Its patented features—the non-rip crotch, the bow trunks, and original Jantzen stitch which gives an elasticity like rubber—all combine to make Jantzen the ideal swimming suit for you.

Come in today. Our new stock is ready in the fashionable 1923 colors. Select your suit now, and get a full season's pleasure from it.

When a BANK ACCOUNT Looks Good
 When you have come to the end of your earning capacity—when your working days are over, then is when a bank account looks good. It is then too late to wish for the money you spent foolishly in early life.
 "Experience is the best teacher." No truer words were ever spoken, but let's not wait for experience to teach us, because then it will be too late.
 The mill will never grind with water that is past, and the money you spend foolishly is gone beyond recall.
 If you have not already made regular saving a part of your life plan, do so at once. You will never regret it and you may have cause for thanksgiving later if you practice savings bank thrift now.
