## Kendrick Gazette

Ralph B. Knepper, Publisher

Entered as second-class matter 1892 at Kendrick, Idaho, under the Act of Congress of March, 1879. Subscription \$1.50 a year.

### CAMERON ITEMS

Mrs. Geo. Ehlers left for Spokane, Sunday, to be with her sister, Miss Anna Wegner who underwent an operation, Monday.

Mr. and Mrs. Gus Kruger motored to Lewiston, Monday.

Mr. Gildner motored to Post Falls, last week to look after business.

Those taking dinner with Rev. and Mrs. Rein, Sunday, were: Mr. and Mrs. Ernest Schmidt and family; Mr. and Mrs. Carl L. Wegner and family; Miss Larimore, Herman Meyer and Charlie Harris.

Rev. and Mrs. Rein drove to Lewiston, Tuesday, after apples.

A farewell stag party was held at the Herman Silflow home, Monday evening. Herman will leave for Canada this week.

Mr. and Mrs. Carl Lohman and family were visitors in Cameron, Sunday.

Mrs. Blum is visiting in Kendrick for a few days with her daughter, Minnie.

Mr. and Mrs. August Brammer, Mrs. Bruniek and two sons, Herbert and Wilbert, and Walter Silflow were Sunday evening callers at the Blum home.

### FAIRVIEW ITEMS

Miss Edna Quirk left Tuesday for her home in Canada after spending several years at the home of her aunt, Mrs. Karmode.

Mrs. H. L. Lewis and son, Kenneth, of Spokane, are visitors at the home of her sister, Mrs. Roy Morgan.

Miss Minnie Glenn of Moscow spent the week end with her parents, Mr. and Mrs. J. L. Glenn.

Miss Elizabeth Hund was the week end guest of her sister, Mrs. Hugh Parks.

About sixty people attended the Farewell party for Mr. and Mrs. John Carlton and family at their home, Friday evening. The evening was spent in playing games and visiting. A delicious lunch was served consisting of sandwiches, pickles, cake and coffee. Mr. and

Mrs. Carlton are leaving soon for California. We are certainly sorry to have them leave our community.

Mrs. James Helton spent the past week at the Jake Berriman home.

Mr. and Mrs. T. J. Fleshman and son, Jack, Mr. and Mrs. Oney Walker and son, visited relatives at Lewiston, Saturday and Sunday.

Mr. and Mrs. Ralph Corkill were Sunday dinner guests at the Wilfred Corkill home.

Mr. and Mrs. Jesse Cox and daughter, are moving to the John Carlton ranch, to live.

### CRESCENT CLIPPINGS

Mrs. Frank Scuders received word recently of the arrival of a boy at the home of Frank Scuders, Jr.

Ellsie Darby spent the night, Sunday, at the Wm. Kauder home.

Bill Dorendorf left Wednesday for the mines.

The Scuders home is taking a new lease on life since the papering and floor laying has started.

Mr. and Mrs. John B. Darby visited with Mrs. Darby's brother's family, Mr. and Mrs. Fred Hammond of Orofino, Sunday and Monday.

### LINDEN LOCALS

Mrs. James Ball returned from Spokane, Tuesday evening, where she has been taking medical treatment the past six weeks.

Mrs. I. E. Foster and children have moved to Faddins Mill to spend the winter. Mr. Foster and sons, Guy and Frank, are working in the mill.

Frank Lyons and Frances Stevens have each delivered several loads of fruit and vegetables to camps in the Elk River section.

Mrs. Hattie Alexander and Miss Eva Smith returned Sunday evening from a short visit in Lewiston.

Mr. and Mrs. Clem Israel and children visited at the McConnell home in Moscow, Saturday and Sunday.

Mrs. Lou Alexander and children are spending the week in Clarkston with her sister.

The last word received from Jim Smith, who is in a Lewiston hospital, was to the effect that he is getting along nicely.

Mrs. Reece of Portland and sister, Mrs. George Stewart of Moscow, spent several days at the Fry home, returning to Moscow, Monday.

Arley Allen spent Sunday at the

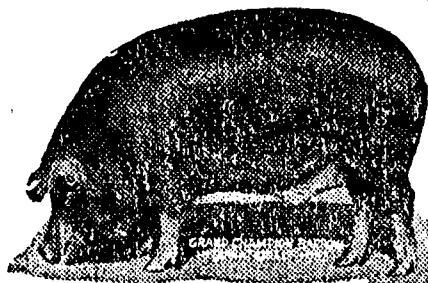

Kelburg home at Burnt ridge.

## Champion Barrow Has Traveled Far

"Oklahoma King" Has Been Exhibited in Different Parts of United States.

Not content with being declared the grand champion barrow of the world at the 1922 International Live Stock exposition, Oklahoma King has added to his honors the title of the widest traveled and most inspected hog on earth.

Instead of being sent to the block after attaining supreme honors at Chicago last December, he was purchased by two Duroc associations and sent on a tour of exhibition which has carried him to all parts of the country. Among

Oklahoma King.

the places visited were Nashville, Tenn.; Denver, Colo.; Lincoln, Neb.; Crookston, Minn.; Madison and Janesville, Wis.; Fort Worth, Tex.; Oklahoma City, Stillwater and Guyton, Okla.; Peoria, Urbana and Aurora, Ill.; Columbus, O.; LaFayette, Ind.; Lexington, Ky., and Des Moines, Ia.

His journey will continue throughout the fall months when he will be the center of attraction at many of the large fairs. It is planned to bring him back to Chicago the first week in December for the International, this being the first time that the grand champion barrow at this show has ever been returned the following year.

Oklahoma King has stood up well and actually gained flesh during his travels. This is all the more remarkable in view of the fact that he has been shipped as any ordinary hog would be moved about, in a crate by express. At his numerous stops, however, he has been accorded royal receptions and honors have been heaped high upon his porcine head. In one city nothing was considered too good for one of his royal standing and he was given quarters in the lobby of the leading hotel.

This noted animal began life in the classical environment of the Oklahoma Agricultural college. Under the con-

stant supervision of a former pig club winner he was grown and fitted for the great competition at Chicago and amply justified this faith by defeating nearly 500 of the finest market hogs in the world for supreme honors.

Competent judges have conceded that Oklahoma King is one of the most perfect types of market barrows that has ever been produced, and it is for the purpose of allowing as many people as possible to personally inspect this ideal porker that the breed associations have saved him from the butcher's block and have sent him on his history-making tour of the United States.

### Vaccinating Cattle to Prevent Shipping Fever

Although still in the experimental stage, the vaccination method of treating cattle to prevent their contracting hemorrhagic septicemia has reached such a degree of perfection that it is now in use by the United States Department of Agriculture.

Until the method has been more thoroughly tried out, the department will furnish vaccine produced in its laboratory and also trained veterinarians who will give the treatment at actual cost.

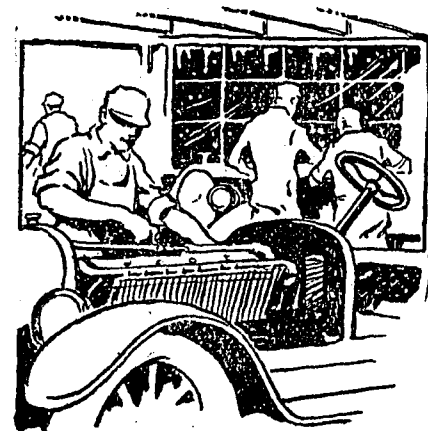

Losses from this disease have been steadily increasing for several years. During the past fall and winter the disease became more prevalent and virulent than ever before. It is most likely to show itself among animals shipped long distances, although it occasionally attacks those that have never left the home place.

### Great Value of Adding Protein to Hog Ration

The value of adding protein to a ration, even when pigs being fattened for market have the run of a good alfalfa pasture, was shown in a test conducted by the Kansas experiment station last year. One lot was fed all the corn it would eat, in addition to alfalfa pasture. The other lot was fed all the corn it would eat plus one-fourth of a pound of tankage per head per day in addition to alfalfa pasture. The pigs in the lot receiving no tankage made a gain of 74 pounds per day at a cost of \$5.55 per 100 pounds of gain. The pigs in the lot receiving tankage made a gain of 7.25 pounds per day at a cost of \$4.99 per 100 pounds of gain. The addition of one-fourth of a pound of tankage per head per day on alfalfa pasture reduced the cost of gains 56 cents a hundred.

### Proper Amount of Salt to Give Producing Cow

The cow producing an average amount of milk, requires at least an

Have Those Repairs Made Now?

Good Prices on Tires Expert Battery Service

**Kendrick Garage Company**

ounce of salt a day. A sure rule to follow is to allow three-fourths of an ounce daily for each 1,000 pounds of live-weight and an additional three-fourths of an ounce for each ten pounds of milk produced. Missouri College of Agriculture dairymen follow this rule. Many feeders mix three-fourths of an ounce of salt with each 100 pounds of grain fed and then allow the cows free access to salt where they can eat all they want.

### Poultry Notes

Don't crowd; better sell some of the birds and make room.

### CARD OF THANKS

We wish to thank our friends and neighbors who were so kind during the illness and death of our beloved father also for the beautiful flowers. Mr. and Mrs. Albert Baker Mr. and Mrs. Albert Baker Mr. and Mrs. Ralph Wright Mr. and Mrs. Carl Wright Ben Baker Walter Baker Will Baker.

E. W. Howe: It is the boast of admirers of Henry Ford that he employs several thousand men, pays no one else less than \$6 a day. From their work he makes so much profit that he is

now rated as the richest man in the world. The talk of Henry Ford for president is an indictment of the intelligence of Americans; there is actually not one sound reason for making such a man president. If all we demand in a chief executive is that he be widely known, why not Charley Chaplin, with Mary Pickford as vice-president, to please the women.

### METHODIST CHURCH

Services next Sunday as follows: Sunday school at 10:00 a. m.

Preaching at 7:30 p. m. Subject: "Who's to Blame?" Next Sunday is World's Temperance Sunday and pastors are being urged to preach on the subject of prohibition, especially calling attention to the rising tide of lawlessness in America which is attracting world wide comment.

Is it true that young men and women are found drunk on the dance floor? Is it true that young men full of moonshine found their way to the Methodist Church last Sunday night and that two young ladies left the building because the tunes arising were nauseating? "Who's to Blame?" This question will be the subject of consideration at the M. E. Church next Sunday night. You are cordially invited to attend.

James W. Poolton, Pastor

**Water Supply Essential for Pigs During Summer**  
Watch the pigs' water supply. You can help him help you make a profit this summer by giving him a chance to make the best possible use of feed. It is absolutely essential for the pig to have plenty of clean water at all times during the summer months.

### ALIAS SUMMONS

IN THE DISTRICT COURT OF THE SECOND JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR LATAH COUNTY, The Farmers Bank, a corporation, Plaintiff,

vs. Dan Jones and John H. Jones, Defendants.

The State of Idaho Sends Greetings To Dan Jones and John H. Jones, the above named defendants. You and each of you are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, by the above named plaintiff, and you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere, and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

The said action is brought to obtain a judgment against the defendants for the sum of \$766.53 with interest thereon from March 18, 1923, at the rate of ten per cent per annum, being a balance on a promissory note executed by the defendants to the plaintiff, at Kendrick, Idaho, on December 1st, 1921, and for \$100.00 attorney's fees and cost of suit.

Witness my hand and the seal of said District Court this 24th day of September, A. D., 1923.

Harry A. Thatcher,  
Clerk of said District Court.

### Hog Prices Were Very Low in 1922

Pure Bred Swine Business Suffered Depression With Other Farm Branches.

(Prepared by the United States Department of Agriculture.)  
Sale prices of pure bred hogs reached a very low level in 1922, according to a recent survey made by the United States Department of Agriculture. Analysis of the reports on the sale of 30,382 pure bred hogs in 1922 indicates that the pure bred swine business has suffered depression along with other branches of agriculture. The reports received present a fairly accurate picture of the business, in the opinion of department officials, although they do not represent a large number of animals.

**Number and Price of Hogs.**  
The number of hogs of the five breeds on which reports were received are: Berkshire, 1,762; Chester White, 8,922; Duroc Jersey, 8,556; Hampshire, 4,910; and Poland China, 6,232. The average price received for each breed, including all ages and both sexes at both private and auction sales, was: Berkshire, \$30.57; Chester White, \$42.72; Duroc Jersey, \$45.91; Hampshire, \$44.42; and Poland China, \$41.94. Auction sale averages were from \$10 to \$25 above those sold at private treaty. This difference, it is pointed out, is due partly to the large number of pigs under eight months of age sold privately, whereas auction sales are usually confined largely to more mature animals and involve a larger number of bred gilts, service boars and bred sows.

**Highest Prices by Breeds.**  
Sales reported at less than \$7.50 per head were omitted in calculating the averages, as sales at such low figures were not considered to be legitimate pure bred sales. The highest prices by breeds indicated by the reports were: Chester White, \$740; Poland China, \$500; Hampshire, \$500; Duroc Jersey, \$550; and Berkshire, \$250.

Of the 30,382 hogs reported upon, 421 brought \$150 or more. These were distributed by breeds as follows: Berkshire, 19; Chester White, 158; Duroc Jersey, 130; Hampshire, 47; Poland China, 67. A few bred sows and gilts sold above \$150, but the average price was about \$50.

This survey is a new feature of the new service work of the bureau of agricultural economics, of the department, and is the first of a series of surveys to be made at intervals of six months.

### Rye Is Most Excellent Crop to Pasture Swine

Rye probably is the best crop to use for fall, winter and spring pasture for hogs. By putting in successive plantings from two to four weeks apart it is possible to have fresh pasture all the time. Seeding for pasture should be much heavier than for a grain crop—from three to four bushels an acre on good soil. Pasturing probably can begin six weeks after seeding, and may continue, if the rye is not covered with snow, until the following April.

Hog raisers can "kill two birds with one stone" by plowing under barn lots and putting in such crops as rye. In the first place, hogs need good succulent pasture as much of the time as

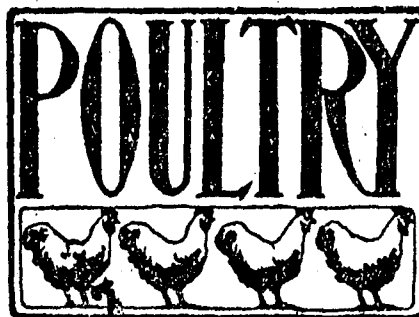

possible, and in the second place they need protection against internal parasites, such as roundworms, the eggs of which remain in the soil. Turning over the soil in the lots helps to get rid of the pests, and the crop of forage makes it a profitable operation. In addition to providing cheap protein feed, pasture crops aid as laxative and require the hogs to take a certain amount of exercise which is necessary to breeding animals and growing pigs.

### Cure for Blackhead Has Never Been Discovered

The United States Department of Agriculture has this to say concerning blackhead: "No positive cure for blackhead has been found. As in the case of all other infectious diseases, the sick bird should immediately be removed from the flock to prevent a further spread of the disease, and if very sick it is best to kill it and burn the body. Clean out the roosting place and spread lime in the places most frequented by the turkeys. Keep a disinfectant in the drinking water; potassium permanganate is most often used, a sufficient quantity of the crystals being added to the water to give it a wine color, which for every gallon of water will take about as much of the chemical as can be placed on a dime. If the turkeys are being fed heavily, their ration should be reduced, as overfeeding predisposes to the disease. The feeding of sour milk has been found to be of advantage in keeping turkeys in good health and in reducing the activities of the organisms causing blackhead."

### In Cooling Milk Entire Mass Must Be Stirred

In cooling milk it isn't sufficient to just set the can of milk in a tub of cold water. The milk must be stirred thoroughly until the entire mass of milk is about the temperature of the water. When the milk is not stirred, the milk in the center of the can is not affected by the cold water until the bacteria have had an opportunity to increase greatly in numbers and as a result the whole mass of milk sours. The milk in contact with the container will be cooled, but that isn't sufficient.

### Avoid Overcrowding of Chicken House in Fall

Overcrowding of poultry houses, which generally means overheating, and is likely to cause colds and finally roup, is strongly deprecated by poultrymen of University Farm. A. C. Smith, in charge of the division of poultry husbandry, says: "Because of the noticeable change in living conditions—from colony coops and free range to the poultry house and confinement—the young birds are timid and group themselves together in corners against the walls and partitions on the floors and roosting platforms. The birds become too warm while so closely grouped and, consequently, chill easily when they separate. To correct this habit, house only a few birds at a time. When these few become sufficiently accustomed to their quarters to take to the roost, house more birds, as those first in the winter shelter will act as teachers to those that follow."

"Until early winter sets in give all the air possible from one direction and do not subject the birds to a draft. In short, make the changes between the range and the winter quarters as gradual as possible. Provide a light loose litter of straw or leaves in which the fowls can get the exercise necessary to maintain health. Succulent food must be supplied as the birds are cut off from the green food of the range."

### Spray Will Keep Flies Away From Dairy Cows

One cent per head per day, invested in spray, will keep the flies away. Temper can be saved and the milk supply increased by using the following home made fly repellent while milking: 4½ qts. coal tar dip, 4½ qts. fish oil, 3 qts. whale oil, 1½ qts. oil of tar and 3 pounds laundry soap. Bring the whole up to 30 gallons by adding lukewarm soft water. This amount will spray ten cows, twice daily for forty days.

### Cockerels and Pullets Need Separate Runways

If possible, cockerels and pullets should be separated as soon as sex can be determined for obviously the former being stronger, will get more than their share of feed. As they develop the better birds can be selected for egg production and mating purposes. In selecting young birds, constitutional vigor is of paramount importance.

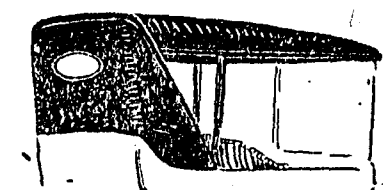

Do not handicap the chicks by unnatural restrictions. Let them hustle.

Keep all young poultry thrifty and growing. The profitable fowl is not the sick one made well, but the healthy one kept healthy.

Lousy fowls will not lay, and will require much more feed to keep in good condition than those free from the pests.

Hens like a dark nest for laying in. If a covered nest is used, it is well to have it face the wall, and to have a slanting cover, to prevent roosting.

# POULTRY

## Real Meaning of Term

### "Sports" Not Understood

The real meaning of the term "sports," as applied to fowls, is not quite understood by a good many poultry keepers. Now, in breeding many varieties there will often come a chicken that is contrary to the parent birds, and the reason for this sometimes seems very strange.

For example, those who have bred Silver Laced Wyandottes know that frequently a white one, and occasionally a black one, will be produced, and it was the breeding together of these so-called sports that gave us the two distinct colors, the White Wyandotte and the Black Wyandotte, as we know them today. Where very lightly laced birds are used there is a greater tendency to white, and just the opposite when a very heavily laced bird is used, the sport here coming black. Partridge Wyandottes will also throw a few white ones, and those who breed them in big quantities will produce perhaps four or five white ones during the year.

Another common example of "sports" is found in the fact that oftentimes a rose comb breed will throw a single comb fowl. There is always an occasional tendency in this direction, and it does not prove that the parent stock is bad, nor that it does not measure up to the required purebred standard. Many of our present-day breeds are the results of working from sports. The black Plymouth came first from the barred, and for years no one ever heard of a mite chicken coming black, these being all females. Today we have a distinct breed known as the Black Rock.

It is probable that all of our more than a hundred modern varieties of poultry descended from the one kind of original jungle fowl. In fact, most of our now numerous varieties have been created during the past 40 or 50 years. The old breeds, like the Black Langshans, do not often produce sports, for the reason that they have been bred pure for many hundreds of years, perhaps for thousands of years. But modern breeds, such as the Orpingtons, Rhode Island Reds, etc., are given to producing sports.

## Movable Roosting Coops

### Good for Young Fowls

When the chicks are old enough to leave the brood coops and when they are weaned from broody hens or brooders, they grow so rapidly that they need more room. To meet this requirement, poultrymen use what are known as roosting coops. These are structures about six feet long, three feet wide, three feet high in front and two feet high at the rear. They have waterproof roofs, but the front side and one end, or the front side and two ends, are covered with wire so that the air can circulate through freely in warm weather, but hostile animals cannot get in.

To keep out driving rains or for use in cooler weather, particularly when

## STANTON BROS.

"Where the new things are newest."

the chicks are first put in and the nights are chilly, curtains of cloth or burlap are attached to the tops of the open sides so that they can be rolled down and fastened to protect the chicks when necessary. The curtain covering each side is made, separate from the others so that much or little space may be left open according to requirements and according to which way the wind blows or the storm drives.

These little buildings should be movable and it is a good plan to place them on skids with rounded ends so that they can be drawn from place to place, thus affording a fresh, new location every day or two. Many poultry keepers block up these little houses so that there is a space between the floor and the ground which affords a cool, shady place for the chicks during hot days.

## In Shipping Live Birds

### Uniformity Is Big Factor

When shipping live birds, sort them as to size, age, color and sex, and don't crowd the coops. The buyer will always pay more for uniformity in color and size, because these factors appeal to his eye, just as good food dutifully served appeals to the palate.

## Egg Production Depends

### Greatly Upon Protein

Egg production depends more upon the amount and kind of protein eaten than upon any other feed. Hens are naturally grain eaters and will do well on almost any grain mixture if they have milk or meat scrap to go with it. By holding most of the whole grain until the night feeding, you keep the hens hungry and thus force them to exercise and eat the more concentrated protein feed through the day.

## Profitable Feed for Farm Stock

### Secretary Pugsley Sees Way for Two Classes of Farmers to Help Each Other.

(Prepared by the United States Department of Agriculture.)

Distress calls have been coming to the United States Department of Agriculture from two large classes of farmers—from the wheat growers, who find their market extremely bad, and from live stock feeders in the corn belt proper who have used up the corn in their own neighborhoods and are finding difficulty getting it at a reasonable price from outside. In view of these facts says acting Secretary of Agriculture C. W. Pugsley, these two classes may find it possible to assist each other. He calls attention to the fact that wheat is a good feed for live stock and that when certain ratios exist between the prices of corn and wheat the latter can be fed with as good results as are obtained by feeding corn if proper methods are followed.

### Supply of Corn Low.

The visible supply of corn on the first of July of this year was extremely low, in fact the lowest in more than ten years, and compared with the same time in 1922 the supply is very short indeed. Department figures show that on July first the visible supply of corn was 3,167,000 bushels, compared with 29,337,000 last year. The average visible supply on that date from 1915 to 1921, inclusive, was 8,500,000 bushels, and for the period from 1910 to 1914 was just about 8,000,000 bushels.

There is a possibility that in many places wheat may now be fed to stock, particularly the lower grades which have about the same farm feeding value as the better grades. However, it should be remembered that more labor is necessary in feeding wheat than in feeding corn because of the advisability of grinding or crushing it. The bureau of animal industry has studied the relative values of wheat and corn and the methods of feeding wheat to the different domestic ani-

mals. Price ratios have been determined so the farmer may make up his mind from this information when the relation of prices of these two grains makes it comparatively profitable to feed wheat to stock. Thus, for example, it is figured that when corn is 75 cents a bushel on the farm, 80 cent wheat can be fed profitably to all animals including poultry; 84 cent wheat to cattle and hogs but not for sheep and poultry; while 92 cent wheat is profitable for beef cattle only. However, it must be kept in mind that the cost of grinding or crushing has not been considered. A table showing the relative prices at which wheat can be used as feed has been prepared covering the entire range of prices at which these grains are likely to sell in the near future. It is as follows:

Percentage relation of wheat to corn in feeding value.....	Kind of stock:			
	Poultry and Sheep	Hogs	Beef Cattle	Wheat
100	100	105	115	115
95	95	100	110	110
90	90	95	105	105
85	85	90	100	100
80	80	85	95	95
75	75	80	90	90
70	70	75	85	85
65	65	70	80	80
60	60	65	75	75
55	55	60	70	70
50	50	55	65	65
45	45	50	60	60
40	40	45	55	55
35	35	40	50	50
30	30	35	45	45
25	25	30	40	40
20	20	25	35	35
15	15	20	30	30
10	10	15	25	25

Based on digestible nutrients, wheat and corn are practically equal pound for pound, according to officials of the department. But corn and corn products alone make a better feed for cattle than wheat and wheat products alone. It is pointed out, too, that it is not necessary to grind corn as a hog feed, while wheat should be coarsely ground or crushed. Wheat, according to experiments made in Nebraska, has proved 5 per cent more efficient than corn for fattening steers when fed with alfalfa hay, a little prairie hay, and straw, bran, and linseed meal.

**Wheat Is Good Feed.**  
With wheat at its present price, it is declared to be a desirable feed for poultry, both as a whole grain in scratch mixtures and in ground form mixed with mash. Fed alone, however, it does not give the best results, but should be mixed with corn. Wheat may take the place of corn in rations for dairy cows. It is figured that a bushel of wheat is about equal in feeding value to a bushel of corn, so that

in cases where the farm value of corn is only slightly less than that of wheat and where the farmer has surplus wheat but does not have corn it may pay him to feed wheat, since he will save haulage. Wheat for horses should be ground or preferably rolled, and must be mixed with other feeds because of its sticky qualities which are brought about in mastication, and also because, if fed alone, it may cause digestive troubles.

On the practicability of using wheat as a hog feed, the department says that 8 per cent less grain is required in the case of wheat, but that with corn at 70 cents a bushel and wheat at 79 cents gains can be made with

corn and tankage at 12 to 15 cents less per hundred pounds than with wheat and tankage. In a general way, it is held that the farmer might be advised to feed wheat or corn according to whichever can be fed at the least cost per pound.

### A Good Thing. DON'T MISS IT.

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a

trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchial, "flu" and whooping coughs, and tickling throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation; Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.—Adv.

## GLEANINGS

Paul and Mildred Seeley, who are attending the University of Washington at Seattle, spent the week end here with their father, Dr. Wm. T. Seeley. They drove through in their Ford coupe, leaving Seattle Friday morning and arriving here early Saturday morning. Paul and Mildred are twins and will both graduate from the university in the spring.

Mr. and Mrs. R. S. Whetstone, Mrs. J. Broeke and son, Donald, Miss Margaret Broeke, Velma and Vera Ameling, and Mrs. S. W. Bigham were Sunday visitors at the home of Mrs. M. A. Deobald, on American ridge.

Mr. and Mrs. Hamley and Mr. and Mrs. Coutts, all of Pendleton, Oregon, visited friends in Kendrick. Mr. Hamley was in the harness and saddle business here years ago and since made a national reputation at Pendleton for his famous Pendleton Roundup saddles. Mr. Coutts was an attorney here and was at one time prosecuting attorney for Latah county. The party made the trip here in Mr. Hamley's sedan.

A. E. Jones stated this week that he had sold over a ton of seed corn already this fall. This would indicate that a number of farmers are going to plant at least a part of their land to something besides wheat. It also might lead one to believe there are plans being made to raise hogs in the near future.

C. T. Lewis returned Tuesday afternoon from a trip to Clarkston where he disposed of a load of sorghum. He has found a ready sale for his sorghum this fall. He sold over 60 gallons near Bovill last week and is getting orders every day from the surrounding country. Potlatchers are always interested in home products.

Herman Siffow of Cameron left Wednesday morning for Alberta to indulge in a moose hunt. He will no doubt have some thrilling tales to tell when he returns.

Wallace O'Keefe and Fred Warren, both of Clarkston, were transacting business in Kendrick Tuesday.

Auctioneer Shepherd of Troy and Al Roberts of American ridge were Kendrick visitors Tuesday afternoon.

A masquerade dance will be held at the Grand Theater tonight and orchestra music will feature the dance.

Word was received here last Friday that Tom Hunter, former merchant of Kendrick, was killed in an auto accident. It was also learned that Mr. Keep, an old time resident of this place, died recently. Both were well known men and prominent in business affairs here in the early days of the Potlatch.

Moscow is making preparations to handle a crowd of 10,000 people at the football game today. Special trains will be run from Spokane and Lewiston.

Mrs. Mina Fry Reece of Portland visited friends in Kendrick the first of the week. Mrs. Reece was treasurer of Latah county years ago.

A. T. Casey, sales manager of Great Falls, Montana, was transacting business in Kendrick this week and getting his printing done at the Gazette for a big sale at Coverland, Wash.

The local depot is one of the garden spots of the town. Mr. Ramey has put a number of beautiful plants and hanging baskets in the office room and it is remarkable how decidedly cheerful and comfortable the place now looks.

Dunlap & Pierce are advertising a public auction to be held in Julietta Saturday, November 10. A herd of thoroughbred Holstein cows will be sold.

Mrs. L. A. Grinolds sent a crate of head lettuce to some friends in Kendrick last week. The heads were large and solid and of the finest quality. Mr. and Mrs. Grinolds raised 7 acres of lettuce this fall.

Mrs. Glover of Spokane arrived Wednesday to visit her sister, Mrs. H. P. Hull. Mr. Glover was the founder of Spokane.

Johnston & Smith of Agatha neighborhood will hold a public sale November 9. Mr. Smith has rented his ranch and will quit farming for a while.

Mr. and Mrs. E. W. Lutz and children were Lewiston visitors this week.

M. V. Thomas and Charlie Carlson returned Wednesday from a timber cruising expedition in the Big Island country. They experienced disagreeable weather there as it rained most of the time and the roads were quite muddy.

Matt Riley went to Spokane, Thursday, where he expects to spend the winter.

M. O. Raby returned Thursday

morning from a business trip to Lewiston.

The opening of the Chinese pheasant season yesterday saw many local hunters in the field. Judging from the number of birds brought in they must be plentiful. A number got the bag limit of four birds.

Sonny Nelson of Troy had an auto accident when his car turned over between Kendrick and Troy last Friday. No one was hurt but the top and windshield of the car were badly demolished.

Please don't overlook that unpaid Gazette subscription.

Miss Emma Nelson and Gabriel Forest, both popular young people of Bear Ridge, were married at Deary, yesterday. An account of the wedding will be given in next week's issue.

Kendrick suffered very little from Halloween pranks. The young people blocked Main Street with wagons, etc. in several places and no doubt derived an immense amount of enjoyment from their exertions. Marshal Gardner let them have their own way as long as they had no intention of destroying property. The only rowdy act so far recorded was the splashing of paint on the doors of the Grand Theater. This did no one credit.

F. E. Erickson arrived Thursday morning from Orofino on a brief business trip.

N. E. Walker left Thursday morning for Spokane on business.

Mr. and Mrs. Leslie Roberts left Thursday for Moscow where they will spend the winter. Ed Long moved their household goods in his big truck.

There is one ray of comfort to us newspapers—competition is becoming so keen that bootleggers will soon have to begin advertising.

The office of the county agricultural agent has been moved from the Eggan block on fourth street in Moscow to the Carl Smith Transfer office in the Masonic Temple on south main street. County agent Fletcher asks that all farmers of the county keep this change in mind, and call upon him at the new location when in Moscow.

A big Chicago newspaper says thousands of people were interested in Dempsey-Firpo fight

who think: The League of Nations plays baseball; the Esch-Cummins act is a vaudeville turn; that LaFollette makes a hair tonic; that Borah is a famous wrestler; that Magnus Johnson pitches for Washington.

Denying the charge that he had been drinking liquor, Allen Overstreet in court at Williams-town, Ky., was ordered to blow his breath into the jurors faces. The jury then gave a verdict of guilty.

An Irishman, coming out from under the influence of ether after an operation exclaimed audibly: "Thank God that's over." "Dont be too sure," said the patient in the bed on his left. "They left a sponge in me, had to cut me open the 2nd time." The patient on the right side said: "Why, they had to cut me open again to find one of their instruments." Just then the door opened, the doctor who had operated on the Irishman stuck his head in. "Has anyone seen my hat?" he asked, Pat fainted.

### PRESBYTERIAN CHURCH

The subject of the sermon next Sabbath morning at the Presbyterian church will be "Breakfast on the Beach". This is the first of a series of addresses on "The Table Talks of Jesus".

J. S. COLE, Minister.

### BIG BEAR RIDGE

Chas and Joe Bowers will finish bean thrashing here this week.

Mrs. Wade Keene departed for Spokane Monday for an indefinite stay.

An interesting program was given by Mrs. Hendron's pupils at Toney Saturday evening, after which refreshments were served.

Those attending the Lutheran Church convention here were: Rev. H. Forseth, Mr. and Mrs. Dahl from Spokane, Geo Wigen LaCrosse, Wash; Rev. Stenerson, Mr. and Mrs. J. Wigen, Mrs. P. Wigen, A. Arntzen Moscow; Rev. K. Bodin,

# Popularity Contest

Who Is The Most Popular Young Lady in The Potlatch?

The New Kendrick Theater will start a "Most Popular Young Lady Contest." Tonight, Friday, November 2, which will be concluded Saturday evening, December 22, 1923, at which time, the young lady who has the largest number of votes will be presented with a

### Beautiful Gold Wrist Watch

for the honor of being chosen the most popular young lady in the Potlatch.

The contest will be open to any young lady, married or single. A ballot will be given with each ticket as follows: Adults ticket, 25 votes; Child's ticket, 10 votes. A space will be found on the ballot to write the name of the young lady for whom you wish to vote, and each name must be written plainly or it will be thrown out by the judge.

Three Kendrick business men will be chosen to act as Counting Judges.

The standing of the contestants will be shown on the screen each show night.

Our Program for Tonight and Saturday is:

**'Loves Redemption'**  
Featuring NORMA TALMADGE.

You haven't seen Norma Talmadge in the full glory of her beauty until you see this wonderful drama of island fires that awaken love—and civilizations snows that chilled it.

Also a splendid Buster Keaton Comedy and its a scream.

Troy; Mr. and Mrs. T. H. Rogstad Clarkston, Wash. A large number from here attended the Dedication services of the Lutheran Church in Deary Sunday.

Mrs. Will Elliott and children have moved to Deary for the winter.

Mr. and Mrs. Hiram Galloway of Little Bear ridge spent the week end with relatives here.

Marriage license were issued at Lewiston Oct. 22nd to Frances E. Antonson and Miss Opal Huffman.

When you hear an item of interest kindly mail or telephone it to the Gazette.

In what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are easier and more pleasant to take, and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels but improve

the appetite and strengthen the digestion.

Wanted: Men or women to take orders for genuine guaranteed hosiery for men, women and children. Eliminates darning. Salary \$75.00 a week full time; \$1.50 an hour spare time. Cottons, heathers, silks. International stocking mills, Norris-town, Pa. 39-106

Start Saving Sensibly

Through Force of Habit--

We all find it hard to save money until we have "developed the habit." Everyone knows that it we do a thing once or twice it becomes a habit — we do it unconsciously.

The habit of saving money is not hard to acquire, as thousands of successful men and women will testify, but there must be a desire to get the habit.

Better than a gift of money is the gift of making money. A large part of that is the habit of saving, because it provides capital with which to work.

START NOW, and "develop the habit" of saving money—Save a definite amount each week, but START NOW.
