Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

The ordinance which appears in this issue of the Gazette, prohibiting peddling or canvassing in the corporate limits of Kendrick with out first paying a license fee of \$5.00, is now in full force and effect. The town council in passing this ordinance did not do so with any intention of compelling peddlers or canvassers to keep out of town. The idea as expressed at the meeting of the council is to require outside business houses who wish to do a retail business here, to pay a reasonable fee for the privilege. The local business houses have to pay taxes and make donations to public affairs in order to keep up the community and it is no more than just that outsiders who wish to do business here should also pay their share.

The ordinance was drawn up by A. H. Oversmith of Moscow who states that its provisions will stand in court.

It is difficult to understand how the two young morons, Leopold and Loeb, after signing confessions to the kidnapping and murder of Robert Franks, are then allowed to enter pleas of not guilty. It is one of the mysteries of our present system of law enforcement.

We hear so much about the "economically governed Latah county" that it is becoming tiresome. The weeping taxpayers of this perfectly good county know that they pay plenty of money into the treasury every taxpaying time to expect some returns. We will concede that the county is out of debt but we will also have to admit that we have the most disreputable courthouse and the poorest system of roads of any county of like wealth in the state. Our tax receipts line up in size with the majority of the counties that have high taxes.

To some purpose, after all, we are amused at the gurgling we read, hear of diversified, dairy farming. It is interesting to note that the gurglers are mostly those who hardly would know a cow from a giraffe—bankers, lawyers, editors, such like who wish to show a patronizing attitude toward the farmers present difficulty. One is almost persuaded that these popular cows give 99.9 per cent cream, that the cows milk themselves, that they consume otherwise unusable food; but then if we farmers didn't have a few things to make us laugh perhaps we'd go mad.—From Kansas.

CARD OF THANKS

Miss Emma Hartung, Mrs. Ida Stoneburner and relatives wish to express their sincere gratitude and appreciation to their neighbors and friends, for their sympathy and help in their bereavement in the loss of their father, also for the beautiful flowers.

BIG BEAR RIDGE

- × Oscar Slind and Adolph Forest were Lewiston visitors, Wednesday.
- × Mrs. K. D. Ingle entertained the Ladies Guild at her home, Wednesday afternoon.
- × Mr. and Mrs. Gabriel Forest, Miss Johanna Hooker, Mrs. A. Sater of Greenwood, B. C. and Mrs. L. Strom of Spokane, autoed to Lewiston, Friday.
- × Miss Bertina Forest returned home Saturday from Spokane, where she spent several months.
- × Miss Emma Aas entertained the Girls' Sewing Club, Thursday afternoon.

× Mrs. Mary Halseth, Mr. and Mrs. Louie Pearson and daughter of Kendrick, Mrs. A. Sater of Greenwood, B. C., were Sunday visitors at the Ed Halseth home.

× Mr. and Mrs. Eddie Galloway, Mr. and Mrs. George Larson of Cameron returned home Monday from a fishing trip to Elk River.

Saturday evening June 21st is the date of the home talent play to be given at the Community Hall. Ice cream and cake will be served. The proceeds realized from both will go to the local Red Cross. Come! Bring your friends.

× Mr. and Mrs. Jake Berriman and daughters of Potlatch ridge were Sunday visitors at the home of Mrs. Berriman's sister, Mrs. N. E. Ware.

× Miss Johanna Hooker and Mrs. A. Sater spent the first of the week at the home of Mr. and Mrs. John Halseth in Bovill.

to their moving to Bovill. A nice supper was served by the guests.

Try a "For Sale" ad in the Gazette. You will get results at little expense.

"I see you have your arm in a sling," said the inquisitive passenger.
"Broken, isn't it?"
"Yes, sir," responded the other passenger.
"Meet with an accident?"
"No; broke it while trying to pat myself on the back."
"Great Scott! What for?"
"For minding my own business!"

METHODIST CHURCH

Sunday school at 10:00 a. m.
Children's Day program at American ridge at 11:00 a. m.
Preaching at 8:00 p. m. Subject: "Human Derelicts."
A cordial invitation to all.
James W. Poolton, Pastor.

Holsteln Excursion June 20

The second annual excursion of Holstein breeders of Latah County will be held on Friday, June 20, under the auspices of the Latah County Holstein-Friesian Breeders Association.

The excursion will start from the farm of G. P. Mix, of Moscow, promptly at 8:30 A. M. Visits will be made at the farms of the following Holstein breeders:—G. P. Mix, Ward Gano, Ross Abel, Theodore Koster, W. M. Schumacher, J. R. Collins, F. M. Gustafson, Carl Grendahl, and the University of Idaho. The dairy herd of the Washington State College will also be visited.

A luncheon will be served in the Moscow City Park at noon by the Holstein Association. Speakers at the luncheon will be W. E. Meyer, Western representative of the Holstein-Friesian Association of America; Professor E. V. Ellington, head of the dairy department of the Washington State College; and Professor F. V. Atkeson, head of the dairy department of the University of Idaho.

This excursion and the meeting at the luncheon will give Holstein breeders of this section an opportunity to get acquainted with one another and see what the other fellow is doing. It is hoped that all who are interested in Holstein cattle or dairying in general will take part in the excursion. Business men of Latah County are invited to attend and see what progress is being made in dairying and diversified farming in this section. All who take

the time to go on the excursion are assured a pleasant and profitable day.

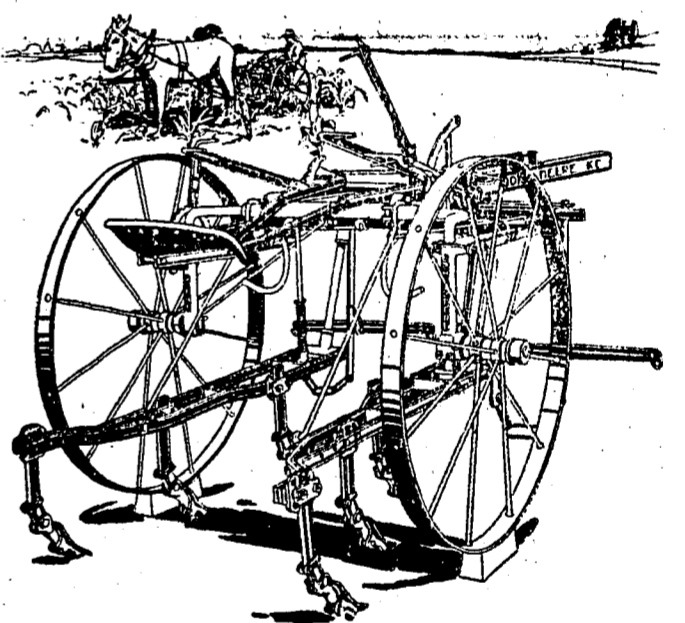

A special committee consisting of Ward Gano, president and Ross Abel, secretary of the county Holstein Association, and C. S. Fletcher, county agent, is in charge of the excursion.

John Deere KC Cultivator

Built the John Deere Way

The value of any cultivator to you is measured by its ability to save you labor and time and at the same time do you good work.

The Deere KC32 has been proven by actual field tests in your home country to be absolutely dependable and to do the work better and easier than the ordinary cultivator.

We guarantee our Ice cream to be the best that can be made. It stands in a class by itself.

Perryman's Confectionery

The DAIRY

FIRST STEP FORWARD IN CALF PRODUCTION

The dairyman should not overlook the fact that to produce high-grade milk his cows must be healthy. A cow in abnormal condition will produce abnormal milk and should the unfortunate condition arise of having tuberculosis in the herd, then the milk is a grave source of danger not only to the immediate family of the dairyman, but also to the public health in general. Fortunately the tuberculin test enables the dairyman to locate the cows afflicted with this disease.

Milk coming from cows which are off feed should be discarded, or at least not put in with the milk that is going on the route, or to be shipped to the distributor. If the cow is being treated with drugs or if she is about to calve, or if she has calved within five days, her milk should not be used for distribution.

The problem of keeping the cow clean is not such a difficult one if a few simple means are adopted and followed. Before milking, the cow's udder, flanks and tail should be thoroughly cleaned. The cow should be kept in a stall that has the right length. Sufficient bedding should be provided and a number of dairymen clip the hair from udder, flanks and bellies to make cleaning a little easier and possibly more effective. The hairs will drop off from time to time and they carry with them a large number of bacteria. The grooming of the cow, however, should be done a sufficient time before milking so that the dust will have settled when milking begins. —B. W. Fairbanks, Colorado Agricultural College.

Considerable Variation in Weights of Calves

Careful dairymen always weigh their new-born calves unless the herdman is sufficiently skillful in judging the weight. This is done in order that the right amount of milk may be fed to the calf. As a rule, male calves average considerably heavier than do heifers, and the weight of the calf usually is from 8 to 9 per cent of the weight of the dam. There is considerable variation in the normal weights of calves of various breeds, and men who have raised beef cattle and then acquired a Jersey cow to supply milk to their families often think the calves weak and puny. Calves of the beef breeds generally average heavier than the light breeds of dairy cattle. The following figures show the weights of normal calves:

Breed	Avg. Birth Weight
Jersey	55 lbs.
Guernsey	71 "
Ayrshire	76 "
Holstein	90 "
Milking Shorthorn	75 "
Brown Swiss	100 "

High Value of Alfalfa Shown at Iowa Station

The value of alfalfa in the ration is often underestimated. There is no comparison between it and timothy as a dairy feed. The Iowa experiment station recently conducted a feeding experiment comparing alfalfa hay and timothy hay as a roughage for milk production. Throughout the comparison a ration of corn silage and a grain mixture of four parts cracked corn, four parts ground oats and one part of oil meal by weight was fed. Alfalfa and timothy hay were fed alternately with the above ration. The results are compared on the basis of value per ton: When alfalfa is worth \$15 per ton, timothy has a value of 88 cents per ton. At the present time this would make timothy hay worth about \$1.50 per ton for milk cows. This low value is due to its low protein contents, high percentage of fiber, low percentage of ash and lack of palatability. Under these conditions it would seem advisable for dairymen who have only timothy hay to feed the herd, to sell it and buy alfalfa whenever possible.

Dairy Notes

Ventilation is imperative; drafts must be avoided in the dairy barn.

Give the dairy cow clean and comfortable quarters and she will, female like, chew in satisfaction.

A cow that has to use her energy warming the ice cold water she drinks can't use that energy to make milk.

Where bulk is not provided in the grain ration by other constituents, corn-and-cob meal will have a feeding value for dairy cows equivalent to an equal weight of corn meal.

The dairy farmer with the milk these days is likely to be the farmer who has a barn full of alfalfa hay.

The useful life of the average cow is 4.2 years. When those affected with tuberculosis are removed the average life in the herd is increased to 5.7 years.

A ration for dairy cows should contain a food rich in protein, that is, either alfalfa hay, sweet clover hay, cottonseed meal, linseed oilmeal or soy bean meal.

Improve Quality by Club Markets

High-Grade Products Bring More Money Than the Inferior Grades.

(Prepared by the United States Department of Agriculture.)

For several years past South Carolina has had occasion to feel proud of its club markets for rural women, maintained with the help of extension workers. Reports received by the United States Department of Agriculture from the various county home demonstration agents indicate that a large volume of business is done by some of these markets. Some of them are open continuously during the growing season, others two and three days a week, and some on Saturdays only, bringing in an acceptable cash income in return for the activities of the ambitious and hard-working farm women. As many of the markets are run on a 5 per cent commission basis, the total amount of sales is usually known from the commissions received by the market management; but these figures often do not include orders for eggs, poultry, butter, or other produce sent directly from the farm to the customer.

Increased Sales.

To give a few instances: In the Square Deal market at Spartanburg the market sales amounted to \$20,815.04, an increase of \$5,315.04 over last year's sales. One woman baked and sold 3,120 pounds of cake in nine and one-half months. Many kinds of flowers had a good sale, and those who made sausage meat reported excellent success. The Marlboro Club market doubled its business during 1923, sales amounting to \$4,735.95. One member sold \$100 worth of cake in one month. The market house has been enlarged to twice its original size.

The home demonstration agent for Greenwood county reports that the club market was revived this year after a lapse of two years. In Darlington county \$4,500 worth of produce was sold on commission, and the agent believes that other produce worth at least \$1,500, of which there was no record, was also disposed of at the market. In Marion county 15 producers made \$1,470.54 through their club market, which has been considered so successful that the chamber of commerce is taking steps to erect a permanent market house for next year. Newberry community market had sales totaling \$6,015.93 and additional orders amounting to \$2,500.

Improved Quality.

One conspicuous result of these various markets is the continued improvement in the quality of what is offered for sale. It is found that a high-grade butter brings better returns than that of poor quality and that keeping purebred poultry means increased profits in the long run.

Wool Production Shows Big Increase Over 1922

Wool production last year totaled 223,610,000 pounds, the United States Department of Agriculture estimates; This was an increase of 1,050,000

pounds over 1922 production, due partly to a larger number of sheep and to an increase of three-tenths of a pound in the average fleece weight, which reached 7.3 pounds.

Texas leads the states as a wool producer with 19,700,000 pounds, Wyoming was next with 18,900,000 pounds, Montana 17,775,000 pounds, and Utah 17,210,000 pounds. Idaho produced 15,455,000 pounds; Ohio, 14,313,000 pounds; California, 14,181,000 pounds, and Oregon, 13,200,000 pounds. In the leading producing states, wool is mostly a range product, except in Ohio where it is a product of the farm without the range.

The department's first estimate of the mohair clip is 8,851,000 pounds for 1923, as compared with 6,532,000 pounds in the census year 1919. Most of the mohair clip of 1923 was in Texas, for which state the estimate is 7,100,000 pounds.

Eliminate Unprofitable Lines by Farm Records

Of 17 farmers in Knox and Lincoln counties, Missouri, who kept farm account books last year under the direction of their county extension agent, nine have changed their methods of farming to eliminate unprofitable lines, according to reports to the United States Department of Agriculture. These farmers are all keeping accounts again this year and have influenced a number of their neighbors to begin keeping them. They found it required only a few minutes' time each day to keep the accounts. This, they state, is time well spent, for the records are proving valuable as an inventory, for reference, and as a guide in planning for better and more profitable effort the next season.

Farm Hints

Success never smiles upon the farmer who scorns improved methods; it laughs at him.

Fewer hens with plenty of room may lay more eggs than twice as many overcrowded.

Most of the losses in farm animals are due to carelessness and neglect on the part of their owners.

Chickens and animals relish changes in their feed. Even the best of rations need some variety.

If you have made a failure of farm-

ing don't blame the boy when he seeks some other occupation.

The man who thinks he knows it all is usually baffled by one thing—why it is that others always think he is wrong.

If you know more than the manufacturer about the running of your incubator, you had better stop raising chicks and start making incubators.

The time when feeding is most needed for feathered friends is when late snows and bitter weather catches the early bird that returns for spring.

GLEANINGS

Tom Blevins, local section boss, returned the first of the week from a business trip to Montana.

Mrs. Edagr Long was a Moscow visitor Wednesday.

Delbert Riggle and family left the first of the week for Clarkston where they will spend their vacation.

Lillian Long went to Lewiston, Monday, for a visit with friends.

Mr. and Mrs. H. P. Hull left Saturday for Nampa as delegates from the local Eastern Star lodge to the meeting of the grand lodge, which was held this week.

Mrs. Gregory Eaves of Lewiston visited at the home of her sister, Mrs. Frank Boyd, the first of the week.

Mr. and Mrs. Adam Wagner, of Farmington, Wash., were Kendrick visitors the first of the week, driving over in their car.

Mr. and Mrs. Don Phillips of Craigmont were transacting business in Kendrick last Friday evening.

Mrs. Hugh Helpman and little son of Mullan arrived last week for a visit at the home of Mrs. Helpman's mother, Mrs. Harry Grinolds.

John Kite and W. M. McCrea were summoned on the federal jury the first of the week.

Miss Maud Eichner and her uncle, Henry Eichner, left Tuesday by automobile for Omaha, Nebraska, for a pleasure trip. They will visit other points in the middle West before their return.

A. Wilmot left Tuesday for Moscow to serve on the trial jury of the federal court.

John Hottle of Juliaetta was transacting business in Kendrick Wednesday.

William Stump of Southwick returned the first of the week from a business trip to Spokane.

Emulus Brown was appointed by the town council to act in the capacity of town marshal during the absence of J. G. Gardner.

A party of Genese business men were in Kendrick, Tuesday, boosting the celebration to be held in Genese, July Fourth. They extended a cordial invitation to the people of Kendrick and surrounding territory to come to Genese to celebrate.

Mr. and Mrs. George Leith and daughters, Mrs. Robert Spencer and Clarice, drove to Moscow the first of the week for a visit with relatives. Clarice remained with her sister, Mrs. Spencer.

John Dammarell and Prof. McLain drove to Spokane last Saturday night where they spent the week end. They made the trip in Mr. McLain's new Dodge coupe.

J. B. Helpman of Northport, Wash., visited at the home of his daughter, Mrs. Frank Boyd, the first of the week.

Miss Getty of Clarkston spent the week end here with friends.

Mrs. Carrie Smith of Tacoma, Wash., arrived this week to visit at the home of Mr. and Mrs. S. A. McCullister.

Miss Batterton left Tuesday for her home in California after visiting several days at the Hanson home.

James DeFord left Wednesday afternoon for Dayton, Wash., where he will find employment.

A few years ago farmers generally believed that beans planted later than the 20th of May wouldn't amount to much. Now some of the most successful growers wait until after the first week in June to plant. Beans planted the last of June last year made a very good yield.

The Lewiston Yards of the Troy Lumber Co. were completely destroyed by fire early yesterday morning. The loss is estimated at \$20,000 and is about half covered by insurance.

Mrs. A. V. Dunkle and three children arrived Wednesday on the night train from Kellogg, Idaho, to visit, at the home of Mrs. Dunkle's father, A. Wilmot.

Rev. Taber of Juliaetta was a Kendrick visitor Wednesday afternoon.

N. B. Long & Sons are putting on their annual mid-summer sale this week, beginning Saturday. At the same time, the Carlson Hardware Co. is holding an aluminum and glassware sale which ends Saturday night. Saturday ought to be a big day in Kendrick.

Prof. D. L. McLain expects to leave this week in his car for Mt. Vernon, Wash., near Seattle, to visit his mother. He and his mother plan to drive to California or Yellowstone Park this summer.

A number of friends and relatives gathered at the C. C. Blackburn home Sunday to celebrate his seventy-fourth birthday. Mr. Blackburn said that he escaped the usual birthday spanking because there

was no one present at the party who was man enough to do it.

Mrs. C. J. Carr and daughter, Charlotte, of Sedro Wooley, Wash., spent the week end with relatives here. Mrs. Carr is a daughter of Mr. and Mrs. T. Y. Ellis.

Miss Edna Janes, who has been attending college at Milton, Oregon, is spending her vacation at the home of her parents, Mr. and Mrs. A. E. Janes.

The Ladies Aid of the Methodist church entertained the Presbyterian Ladies Aid at the church yesterday afternoon at a very enjoyable tea.

Charles Blank of Latah, Wash., is visiting at the Poolton home this week.

Dr. and Mrs. Seeley left yesterday afternoon in their car for Seattle, Wash., where they will attend the commencement exercises of Washington University. Dr. Seeley's son and daughter are members of the senior class at the university. During Dr. Seeley's absence, Dr. Russell Truitt will have charge of his practice. Dr. Truitt is well known in this locality, having practiced in the Southwick community a number of years ago.

Miss Bertha Onstott of St. Joseph, Missouri, who is visiting at the A. Onstott home, spoke to the members of the Presbyterian Sunday School last Sunday morning.

Mrs. Axel Swanson and younger daughter left the first of the week for a visit with friends at Palouse. Miss Alpha Swanson visited at Pullman the first of the week.

Mrs. Fred Kidwell and baby arrived last Saturday afternoon from Longview, Wash., to visit at the home of Mrs. Kidwell's parents, Mr. and Mrs. E. E. McDowell.

Truman Poolton, son of Rev. and Mrs. Poolton, arrived home from Moscow the first of the week, where he finished his freshman year at the University.

Mr. and Mrs. Owen Pepple of Juliaetta were Kendrick visitors Wednesday afternoon.

Ira Gentry of Little Bear ridge stated last week that he had 118 acres of beans planted before the recent rains. He said most of the beans were up and made a good stand. Harry Hupp has 65 acres on the same ridge that he says are as fine a stand as he has ever had. They had a good start before the rains.

Mr. and Mrs. Jenks Wilcox and son of Mullan, Idaho, returned home Tuesday after visiting at the home of Mrs. Wilcox's parents, Mr. and Mr. N. Brucke.

Politics are warming up slowly in Latah county for a whirlwind finish. So far only five have filed for county offices as follows: G. F. Walker for county commissioner; Judge Warren Truitt for senator; Thos. A. Feeney for prosecuting

attorney; for sheriff, Grant Robbins and Charles Summerfield. Grant Robbins is the only democrat filed.

S. P. Callison returned from Spokane the first of the week where he went for medical treatment. His many friends in this locality will be sorry to learn that his condition has not improved and is even more serious than was generally considered. His case has been diagnosed as cancer of the stomach.

William Hartung

Last Sunday night, June 8, the entire community was saddened by the death of William Hartung, one of the pioneer residents of the Cameron community. His death was caused from cancer of the stomach from which he suffered for several years. In his death the community loses one of its best citizens.

William Hartung was born March 7, 1842 in Germany. On the 29th of December 1868 he was married to Amelia Neumann, who preceded him in death, in 1915. Eight children were born to this union. A son, August, died in 1910. Seven children survive him, five daughters and two sons: Mrs. Fred Mielke, Mrs. John Schwarz, Mrs. Ida Stoneburner, Miss Emma of Cameron, and Mrs. Jacob Schmidt of Spokane, Wm. A. of Spokane and Carl of Cameron. He also leaves 27 grandchildren and 8 great grandchildren.

In 1873 he came to America with his family settling in Michigan. In 1877 he moved to Minnesota, residing there until 1901 when he moved to Cameron where he lived until his death.

Mr. Hartung served in the war between Denmark, Prussia and Austria in 1864 and in Austro-Prussian war in 1866, being awarded a gold medal in each war.

He was a member of the Lutheran Church, and a member of the Sons of Herman Lodge.

The funeral services were held at the Cameron Lutheran Church, Tuesday, Rev. E. A. Rein and Rev. George Finke officiating. The pall bearers were grandsons of Mr. Hartung, they being: Willie Mielke, Herbert Schwarz, August, Walter, Herman and Carl Hartung. Six of his granddaughters carried the flowers. Interment was made in the Cameron cemetery.

Federal Court Convened

The spring term of the United States court for the central Idaho division convened Monday morning, with Judge Frank S. Dietrich presiding, and with all the court officials present. The grand jury was impaneled and sworn in and commenced its work. The matters submitted to the grand jury will not be made public until after the returns are made.

Cases involving six Moscow men, charging possession and sale of liquor, and carried over from last fall's term of court, were dismissed for want of evidence. These cases created considerable local interest when the arrests were made. The charges were based on evidence alleged to have been secured by a man brought in for the purpose of
