

Latah County News Paragraphs

Items of interest Taken From Neighboring Papers

Arrangements have been completed for the big free Fourth of July celebration to be given at Genesee all day on that day of days in the United States—when every young American—and every true American of any age, in fact—always feels a thrill of pride in the fact that he is an American whether he be native born or an American by adoption, and the business men of Genesee have decided that proper outlet for that enthusiasm should be in Genesee, and accordingly the old town will be one big noise all day and a blaze of fiery glory all night. Genesee News.

Rural High School District No. 2 Latah County, Idaho, is to have a new school building. Thanks to the interest of a vast majority of the patrons and taxpayers, who voted overwhelmingly in favor of issuing \$12,000 bonds, the building is assured. So far as the community's worries about a school plant is concerned, its troubles are over.

Out of a total of 142 votes cast on the bond question Saturday, 122 voted "Bonds, Yes." If there have been any doubts in the past as to the people's interest in our school situation the results of this election have dispelled them completely. It could not be expected that every voter would cast his ballot in favor of the bonds; but to see such a splendid majority was most gratifying to those who have been advocating the school. —Deary Press.

Some fellow might become an outstanding figure now by saying something good for the recent congress. Pretty nearly every paper one picks up has a statement by one or more persons criticising the late congress unmercifully. This, of course, is natural, as it is easier to criticize than to boost, for most people, and also because of the fact that congress didn't do a darned thing that one might commend, unless it was to adjourn, and there considerable opposition within its own ranks to doing that. —Star-Mirror.

Rally at Cavendish

Sunday, June 29th will be a big day among the churches here. All the Sunday schools in the surrounding country will meet promptly at 10:00 a. m. for a great rally meeting in Cavendish. Every man, woman and child is cordially invited and earnestly requested to be present. At 11:00 a. m. Prof. C. W. Chenoweth will preach. We are especially favored in having the opportunity of having this splendid speaker. He was an overseas army chaplain, a Methodist minister and is now instructor in philosophy at the University of Idaho.

At noon all will enjoy a basket-dinner at the grounds, followed by a social hour and a general "community sing".

In the afternoon addresses will be given by Rev. Will Martin of Orofino, Dr. W. H. H. Forsythe, superintendent of the Moscow District and also by the Captain of the Salvation Army of Lewiston. Good music will be rendered at various times during the day. A cornet quartet will be present.

This is expected to be the greatest rally meeting in the history of Cavendish. Plan to come! Bring your basket-lunch and your friends and enjoy the day.

C. D. Bell, Pastor.

Mrs. Ralph Knepper entertained the members of the Okoke Klootchman club and their husbands at a Bridge party, Wednesday evening, in honor of Mrs. A. V. Dunkle of Kellogg, who is visiting her father here.

Rose Queen at Portland

Miss Gwendolyn Moser, Lewiston's rose queen and the city's representative in the Portland rose show, returned Sunday morning after an exceptionally delightful and successful trip during which she carried off the honors in the form of first prize awarded to the winner of the contest for visiting queens. She was accompanied by Mrs. Lloyd Harris, who chaperoned Miss Moser's trip to Portland and who stated they were royally received in the Rose City, and that everywhere comments were made on the poise and beauty of the young Lewiston queen.—Lewiston Tribune.

News Notes From Cameron Folks

Written for the Gazette by
Special Correspondent

John Wilken and son, Harold, of Walla Walla, are visiting at the home of the former's parents, Mr. and Mrs. Herman Wilken. Harold will remain here with his uncle, George Wilken, for the rest of the summer.

Rev. and Mrs. Rein and sons, left for Castle Rock, Oregon, Sunday, making the trip in their car. They expect to be home in two weeks.

Quite a number of the Cameron people attended the Lewiston-Juliaetta Sunday school picnic at Juliaetta, Sunday. All report having had a good time and plenty to eat.

William and Helen Mielke and Ethel Custer were on Texas Ridge, Tuesday, picking strawberries.

Rev. and Mrs. Rein and sons, Eta and Minnie Blum and Alberta Walker were callers at the E. Schmidt home, Wednesday evening.

George Enlers and George Wilken were cutting wood on the Joe Schultz place Thursday and Friday of last week.

Otto Siffow was a Keisling, Wash., visitor the first of the week.

Miss Alberta Walker returned to her home in Kendrick, Saturday, after spending the week at Cameron.

John Wilken and Wm. Mielke were the Tuesday evening dinner guests of Mr. and Mrs. Blum.

Mrs. E. Bruniek has been on the sick list. We are glad to report that she is better at this writing.

Mrs. Herman Wilken and sons, George and John, and grandson, Harold, and Mr. Leeper were Sunday guests of Mr. and Mrs. Wm. Johnson of Peck.

The rain which visited this locality, Tuesday, received a very hearty welcome.

Some of the people of Cameron attended the I. O. O. F. convention at Kendrick also attended the show at the New Kendrick in the evening.

Mrs. Wilken and sons, George and John motored to Lewiston, Monday, returning the same day.

Crop Prospects Improving

Crop prospects look better every day in this locality. The recent rains have been of untold value and with ordinary conditions from now until harvest time there is every reason to expect a fair grain crop and an extra good bean yield. The acreage of beans is unusually large this season and a good crop with fair prices means comfortable condition in the Potlatch next fall.

Pay Taxes, Hurry

Tomorrow is the last day of the period during which the latter half of the 1923 taxes may be paid without penalty. The sidewalk and street improvement taxes in improvement districts No. 1 and 2 are also due not later than Saturday, June 21.

Idaho treasury notes were sold this week to a Portland firm in the amount of \$567,000. They bear 3 1/2 per cent interest and mature in one year. The notes are against the general fund of the state and were issued to provide funds to tide the state over until tax money might be collected.

YOUR FUTURE

To make the most money possible, a farmer should know exactly what it costs him to produce each thing he markets. And, to know his production costs, the farmer should keep a good set of books. Wallace, secretary of agriculture, makes this point in a speech before the Institute of American Meat Packers.

It is true of each individual, no matter what we do for a living.

The average farmer, in common with nearly everybody else, works on the law of averages. He makes money on some of his products, loses on others. At some time of the year, generally when he meets his obligations at the bank, he knows whether it has been a profitable year or not, but has only a hazy notion of what lines have been profitable and what unprofitable.

The average business organization used to be in much the same boat. Then, with the adoption of scientific book-keeping, Mr. Business Man learned his unprofitable lines—and dropped them. He also discovered what was making him money—and increased his activities in that direction. There is such a thing as getting too much bookkeeping. Many a business goes crazy on system, to the point where there are as many keeping books as there are producing. Failure lies ahead.

But bookkeeping, in moderation, is indispensable in modern times.

Bookkeeping shows us where we are making money and where we are losing—what to do and what not to do.

In the case of individuals, a simple set of books will strikingly bring home the money leaks that are keeping us from getting ahead. With this knowledge, one can go on a budget system, one knows where to limit expenditure, and thus can live within one's income and lay away so much regularly for savings and investment.

Ella McLaughlin

Miss Ella McLaughlin, age 17 years and a former student in the Kendrick high school, died at St. Joseph's hospital at Lewiston last Saturday afternoon at 2:30, following an operation, which was performed Friday for ruptured appendix.

Funeral services were held Monday afternoon at Lewiston at 2:30 from the Vassar parlors. Rev. M. F. Wood of the Clarkston Christian church preached the funeral sermon and a quartet from his church sang several beautiful hymns. The pallbearers were C. F. Wilmarth, Frank Miller, Peter Tertling, C. O. Wilmarth, M. Mattison and E. Code. Interment was made in the normal hill cemetery.

Ella McLaughlin was born at Cheney, Wash., February 3, 1907. During the past school year she attended the Lewiston high school where she made many friends. She is survived by her parents, Mr. and Mrs. J. P. McLaughlin of American ridge four brothers and two sisters.

To Certify Spuds

County Agent O. S. Fletcher has received word from E. R. Bennett, Field Horticulturist of the Extension Division of the University of Idaho, that applications for inspection of potatoes for certification for seed must be made before July 15. Latah County farmers who have not applied for inspection and who wish to have potatoes inspected should apply to the County Agent before that date. The inspection fee is \$4.00 for five acres or a fraction thereof and \$.50 additional for each acre over five acres. 50 per cent of the inspection fee must accompany the application. Checks should be made payable to E. R. Bennett.

In applying for certification, farmers should give their name and address, community, variety or potatoes, and number of acres to be inspected.

The growing of certified seed potatoes as a sideline is becoming more popular each year in Latah County. A number of farmers have adopted the practice of growing a limited acreage each year regardless of the prospect for a price. These people have found this profitable and are among the good potato growers of the county.

Dr. and Mrs. Wm. T. Seeley returned home Wednesday evening from their trip to Seattle. They were accompanied by Dr. Seeley's son and daughter and two of their college friends. They all left Thursday morning for the Little Salmon river, beyond Whitebird, for a few days' fishing and camping trip.

Which Yon Yonson?

Bay Yimminy, A'm glad to hear Yon Yonson's in the race; A son of Svaden, gude an' dear, Ay bet he'll vin the place, Ay'd lak to see heem mak' a win.

An' at the White House visit; The Svades will put Yon Yonson in—

But which Yon Yonson is it? Ay know Yon Yonson yumping logs.

Yon Yonson milking cows; Ay know Yon Yonson training dogs, Yon Yonson making house.

Ay know Yon Yonson railroad yack.

On heem ay make wan visit; Of Yonsons ay know wan big pack.

O, which Yon Yonson is it. In Stockholm, Copenhagen, too, Are Yonsons bay the score; Bay Yimminy, ay tell you true, In Minnesota more.

Yon Yonson coppers on the beat, Svade servant girls they visit; So many Yonsons ay have meet O which Yon Yonson is it?

You bat Yon Yonson gat ma vote.

Ay know heem gude an' true; Yon Yonson deckhand on the boat,

Or capting of the crew. Yon Yonson milking cows, may-be,

Ay don't care; ay won't miss it;

It makes no difference to me, Which Yon Yonson is it.

—Chicago Swedish Tribune.

Stanton-Dammarell

Miss Audrey Stanton and Kester Dammarell were quietly married at the Methodist parsonage here yesterday afternoon at 3 o'clock, Rev. Poolton officiating. Members of the immediate families of the bride and groom were present at the ceremony. After the wedding the happy couple left by automobile for Deary where they will make a brief visit at the home of the groom's sister, Mrs. Philip Asplund. The marriage of these two young people was a pleasing surprise to their many friends here. There are no better young folks in the community than Mr. and Mrs. Kester Dammarell. They are both graduates of the local high school and later Kester took two years at the University of Idaho. He is now associated with his father in the Kendrick Store Co.

Mr. and Mrs. Dammarell will make their home in the Waltz residence east of the school house.

Mrs. C. E. Smith is advertising a public sale to be held at Southwick, Saturday, at which time she will sell all of her personal property at auction.

Sportsmen to Organize

All those who are interested in fish and game protection are asked to meet at the town hall Wednesday evening of next week, June 25. It is proposed to organize a local Game Protective Association, a branch of the county organization. Some definite plans for protecting trout in the Potlatch are to be discussed. Everybody is cordially invited to attend.

Oddfellows Held District Meeting

Attendance Numbers About 400 Members

There was a good attendance at the District Convention of the I. O. O. F. lodge here last Monday. The weather was ideal for such an occasion and the events of the day went off according to schedule in a very creditable manner. It is estimated there were over 400 members present.

One of the pleasing features of the day was the dinner in the park, served by the members of the local lodge. It was a most delightful affair and was commended very highly by the visiting members.

Prominent members of the order were in attendance at the convention, from various parts of this district, as well as grand officers of the state. The session held intermittently from 10 a. m. until after midnight.

Officers were elected for the ensuing year, as follows: George Follett, Genesee, Chairman; Martin V. Thomas, Kendrick, 1st vice chairman; T. H. Christie, Troy, 2nd vice chairman; L. G. Peterson, Moscow, treasurer; Paul L. Cann, Genesee, secretary.

TEXAS RIDGE

Mrs. Charles Carlson was a Lewiston visitor last week.

About thirty-five young people gathered at the Slocum home Saturday evening and surprised Miss Helenn on her 13th birthday. A most enjoyable evening was spent. We wish Helen many more happy birthdays.

Mr. and Mrs. Babcock were Sunday evening guests at the Quesenberry home.

Mr. Sibert and son of Colfax Wash., spent an evening last week at the Drury home.

Mr. and Mrs. Frank Bailey motored up from Lewiston and were overnight guests at the Slocum home one night last week.

Mrs. Seeley and Mrs. Erwin Baker of Bovill spent the week end at the Viola Baker home.

The John Kennedy family of Park were Sunday visitors at the Weber home.

Mr. and Mrs. Frantzych and Gordon were Sunday dinner guests at the I. W. Swan home.

Herb Slocum and family motored to Bovill, Friday, and spent the night at the John Halseth home.

The Melvin Eatmon family were Sunday dinner guests at the Viola Baker home.

LENORE LOCALS

There are very interesting revival meetings going on at the Cream Ridge school house this week.

Mr. and Mrs. Harve Southwick were over night guests of Mr. Southwick's parents, Mr. and Mrs. S. R. Southwick.

Bill Blevins is working at H. Southwick's.

Miss Cleo Southwick and friend motored to Kendrick, Sunday.

Mr. and Mrs. Harry Legate were Saturday night guests of W. J. Green's.

Cream Ridge was visited with a nice shower Tuesday.

Lee McFadden went to Lewiston, where he purchased a second hand Chevrolet car.

Miss Edna Southwick was an all-week guest of Mr. and Mrs. Roy Southwick and family.

Kendrick News 27 Years Old

Items from Gazettes Found in Miners' Cabin

Joe and G. W. Perry of Juliaetta returned recently from a trip to the Elk River country. While there they found two copies of the Kendrick Gazette at the old McGann Bros. cabin. The papers were dated 1897 and had evidently been in the cabin for the past 27 years. Following are a number of interesting paragraphs taken from these old relics:

Harvest hands are very scarce. On Wednesday at least fifteen hands were wanted on the various ridges. We would suggest that the business men of Kendrick close their doors and go out and help the farmers take care of their crop, if there is no other way to save it. It will be one of the best moves our citizens could make.

The citizens in charge of the work of cleaning out the rock on the different grades leading into town have done some valuable work. Where the grades were almost impassable two weeks ago they are now in good condition for travel. But we hear considerable complaint about that piece of road between the Potlatch bridge at the mouth of Wandscheer gulch, and the Addison addition to Kendrick, and we think it should receive some attention.

Dr. Moser has fitted up neat office rooms in the Graham block and moved his furniture in Tuesday.

I will pay 2 cents live weight or 4 cents dressed for any and all kinds of beef. J. J. MARESECK.

Madam Bryant and King are the most fashionable milliners in Kendrick. White Block.

J. J. Mraseck wants a carload of hogs and will pay 3 1/2 cents on foot.

Joe Walker and Payne have received another shipment of "Old Jordan" whiskey.

A case of alleged battery occupied the attention of a jury in Justice Hull's courtroom yesterday. After a couple of hours' wrangle, the jury still disagreed and were discharged whereupon the state dismissed the action.

On September 6th the inhabitants of Vollmer held an election to determine whether its name should be changed or not. Thirty-eight votes in all were cast and by a majority of 20 it was decided to call the place in future "Troy."

If you need your hair trimmed in the latest style, or desire a shave, call on Kerr, next door to Hull's. Ladies shampooing and shear sharpening a specialty.

Get your horses shod at Meyer & Lucas.

McCrea Bros. & Co. handle the best line of Paints & Oils.

Salmon are reported very thick in the Potlatch in the neighborhood of Juliaetta. The natives there show themselves expert sparmen, as but few fish seem able to run the gauntlet, none having been observed near this city.

W. H. Berreman, Jacob Michael, Marion Helton and Fred Frederickson, all of Southwick, proceeded to Lewiston on Wednesday and made final proofs on their respective homesteads.

Willis Arnold keeps a force of four men constantly at work on the flume and intends pushing the work along as fast as possible, in order to have his planing mill and box factory in full operation this fall. About 100 feet of the ditch has been completed.

Mr. and Mrs. E. E. Bechtel recently closed a deal for a residence property in Moscow, the house in which they have been living since moving to Moscow. They expect to make extensive improvements in the property.

Rutus Fairfield came up from Clarkston, Friday to spend some time with his brothers here.

By coming to the Community Hall Saturday evening, June 21st, you will spend an evening of social enjoyment, as well as assisting the local Red Cross. Two short plays will be given by the Girls. Following this ice cream and cake will be served. Come! Bring your friends.

The Union Sunday school picnic was postponed on account of rain, and will be held Sunday, June 22 at Dillman's Crossing south of Helmer. Everyone is invited to come and bring a basket dinner.

It will do your heart good to go to "The Little Church Around the Corner." 25-1t.

LINDEN LOCALS

A. W. Longfellow returned Tuesday evening from a short business trip to Moscow.

Mr. Whitman is drilling a well for Bill Benner.

Mrs. George Garner and children spent Thursday with Mrs. Francis Stevens.

Mrs. I. E. Foster went to Kendrick Thursday to visit her sister, Mrs. Silas McCallister. She will also visit her daughter, Mrs. Harry Langdon on American ridge before returning.

Mr. and Mrs. George Garner and children and Mrs. McPhee visited at the Claud Pippinger home and attended the Sunday school picnic at Cavendish, Sunday.

Several of the farmers started making hay Monday while others are cultivating beans.

Mr. and Mrs. Clem Israel entertained at Sunday dinner, Mr. and Mrs. Ed Darby and children, Mr. and Mrs. Lou Alexander and children, the occasion being their eighth wedding anniversary.

Miss Joyce Hunt went to Lewiston, Saturday.

Miss Helma Kelburg of near Troy is a guest at the Allen home this week.

The many friends of Mr. and Mrs. Jim Langdon will be glad to know they will be on the farm during the haying season.

Mrs. Arthur Bohn visited friends at Troy the first of the week. Her husband is working there.

Come to the "Little Church Around the Corner." 25-1t.

SOUTHWICK NEWS

A large crowd from Southwick attended the Children's Day exercises and picnic that was held in the Cavendish grove, Sunday. The Salvation Army from Lewiston was there also.

Iver Longeteig and family of Craigmont spent the day Sunday with Mr. Longeteig's brother, Nels.

Floyd Russel and wife and Chester Melver and wife were Kendrick visitors, Saturday.

Mrs. C. K. Grant and children of Rossland, B. C., arrived Saturday to spend a few weeks with relatives. Mr. Grant expects to join his wife in a few days.

Miss Nadine McCoy left Monday for a short visit with her grandmother, Mrs. Locke of Clarkston.

Albert Mabry and wife of Mohler spent a few days of last week with his father, John Mabry.

Mrs. Carrie Smith of Tacoma is spending a few days at her home in

Southwick.

Miss Helen Jennings of Troy is here visiting with friends.

Harve Southwick and wife of Cream ridge spent Sunday afternoon with his parents, S. R. Southwick and wife.

Mrs. Wells is enjoying a visit with her brother and wife, Wm. Mouiry, of Long Beach, Calif. This is the first time Mrs. Wells has seen her brother for thirty-two years.

Mrs. Marie Thomas and son of Oregon, is spending a few weeks with her father, Steve Douglas.

Perry Baker and family were overnight guests of Mrs. Baker's brother, Steve Douglas, Monday night. They left Tuesday morning for their home in the Big Bend country.

Sunday guests at Grandma Wells were Mr. and Mrs. Frank Souders and family of Crescent, Mr. and Mrs. Frank Carey and children, Walter Hoffman and wife, Loren Patcher and wife, Frank Carey, Jr and wife, of Cream ridge and Mr. and Mrs. Wm. Mouiry.

Miss Gladys Starr is visiting her mother for a few days.

Mr. and Mrs. Harry Smith of Leland spent the day, Sunday, with Mrs. Smith's parents, Mr. and Mrs. Ben McCoy.

Born to Mr. and Mrs. Roy Martin the 7th of June, a daughter.

Mr. and Mrs. J. E. Hoppe motored to Lewiston last Wednesday. We had quite a heavy rain Tuesday, which will be quite a benefit to the gardens and crops.

Meet me at the "Little Church Around the Corner." 25-1t

METHODIST CHURCH

Sunday school at 10:00 a. m.
Preaching at 11:00 a. m. Subject: "Building the Walls of Jerusalem."
Preaching at 8:00 p. m. Subject: "Paul's Testimony for the Gospel."
A cordial invitation to all.
James W. Poolton, Pastor.

Protein Feed Needed by Higher Producing Cows

The importance of protein in the ration of dairy cows is stressed by J. O. Tretsven, dairy specialist of Montana, in answering a question on economical balanced rations, recently submitted through the feeding-problem service. This service, which is rendered by various states in co-operation

with the United States Department of Agriculture, enables a farmer to submit his specific feeding questions to specialists.

Blanks on which the farmer may present the facts involved in his problem are distributed through county agents and other agricultural workers.

In this instance the ration being fed by the inquirer was analyzed as being a fattening ration deficient in protein. A drop in milk production had resulted. A ration of corn silage, alfalfa hay, barley, oats and mixed mill feed was recommended by Mr. Tretsven as very satisfactory for milk-producing cows in that locality. He added that if the alfalfa and silage were of excellent grade, little grain feed would be required.

Stable Manure Is Best Fertilizer for Garden

Stable manure is the best garden fertilizer. It carries nitrogen, phosphorus and potash, the trinity of fertility. It contains also decaying plant material and bacteria already at work to make this material available to crops. Use plenty of manure, 20 tons to the acre, if you can get it. This would be roughly a two-horse load for a garden 30 by 60 feet. Partly decayed manure is best.

Yet, with all its virtues, stable manure needs balancing. It is relatively low in phosphorus. Use 40 to 50 pounds of acid phosphate to every ton of manure and you have an ideal combination.

Roughages for Cows

Good alfalfa hay is generally placed at the head of the list of roughages suitable for dairy cows. The value of alfalfa in the ration is often underestimated. There is no comparison between it and timothy as a dairy feed. A feeding experiment was recently conducted by the Indiana experiment station comparing alfalfa hay and timothy hay as a roughage for milk production. Throughout the comparison, a ration of corn silage and a grain mixture of four parts cracked corn, four parts ground oats and one part of oil meal by weight was fed. Alfalfa and timothy hay were fed alternately with this ration.

Bees Help Pollenization

A few stands of bees in the orchard also help during pollenization. But the spray outfit is one of the most important necessities for the present-day orchard. At least two sprays should be applied, one just after the petals have fallen, and one three weeks later.

FOUNDATION STOCK OF FUTURE EGG LAYERS

(Prepared by the United States Department of Agriculture.)
The buying of baby chicks is a far more important problem than most purchasers realize. Baby chicks constitute the foundation stock of the

future layers and breeders and, therefore, too much care cannot be exercised in deciding upon the hatchery from which to buy.

Officials of the United States Department of Agriculture have observed that practical poultry raisers and farmers are relying upon the hatcheries more and more each succeeding year as a source of supply

for their new crop of chicks. In other words, each year sees fewer and fewer chicks hatched under hens and the mammoth hatcheries are taking the place, to a certain extent, of the smaller incubators which are commonly operated on the farms. It is because of the fact that farmers are buying baby chicks from the commercial hatcheries in such large numbers that the officials of the department feel the necessity of urging them to exercise great care in deciding upon where to buy this year's supply of chicks.

At the same time it should be pointed out that many farmers, perhaps the majority, will still find it more economical to do their own hatching. This is especially the case where the farm flock is of good standard quality and has been bred for egg production. A farmer hatching his own chicks knows the quality of chicks he can expect.

The commercial hatchery business has developed to a very remarkable extent in the United States in the last two years. Some of the hatchery men have estimated that practically double the number of baby chicks will be hatched in mammoth hatcheries this year compared with last. There is a great increase in the number of hatcheries, each varying in capacity from a few thousand to several hundred thousand chicks.

The question of importance to a purchaser of baby chicks is the source of supply of eggs for the hatcheries. Many of the hatcheries have their own business well organized, and are able to guarantee the quality of the chicks. Some of the hatcheries, however, are not so particular where they purchase the eggs they use and are not able to guarantee high-quality chicks.

Purchasers of baby chicks would be well advised, officials of the department say, to make sure of purchasing from a reliable hatchery. Only pure bred chicks should be bought, and in addition to this, the purchaser should insist upon a satisfactory statement from the hatchery man as to the quality of eggs used. Were the eggs from a standard-bred flock with trap-nest records and was the flock in good breeding condition? Purchase baby chicks with great care. It is better to pay a few cents more for good quality chicks that can be guaranteed.

The dirt floor in laying house is a carrier of disease, unless five or six inches of the soil are removed and replaced each year. Board floors are all right, but expensive. Concrete floors are the most economical in the end.

Enough roosts should be provided in a poultry house to allow eight inches per bird. The roosts should be nine inches from the front of the dropping boards and nine inches from the back and they should be fourteen inches apart.

A Message of Importance

Where Security Reigns Supreme

We consider that our depositors are in partnership with us, and we have a real desire to help them increase their business, as their prosperity is our prosperity.

This bank has been helping the farmers and business men in this community for many years, and, naturally, has been of most help to those who have given us the greatest opportunity to serve them. Proper use of our bank facilities is one chief aid to scientific management and business efficiency.

In looking over your affairs, what place do you find that this bank has had in your transactions of the past year? Have you made as much use of this bank as you might have done, and do you know as much about its facilities by actual personal experience as you should.

Make it a point from now on to consult us in regard to your financial problems.

The officers and directors of this bank seek strength rather than mere size and solidity rather than show. This is a bank for prudent men and women, known far and wide as a "Solid Institution." You will find it to your advantage to broaden your business career by starting a checking account here.

Crowding of Chicks Is Bad in Brooding

Usually Caused by Little Fellows Getting Chilled.

(Prepared by the United States Department of Agriculture.)
One of the most disastrous conditions, according to the officials of the United States Department of Agriculture, that can occur in the brooding of chicks is to allow them to crowd together. Crowding is caused either through the chicks becoming overheated or chilled, usually the latter. Crowding may not only cause loss through death of many chicks, but many others may suffer to such an extent as never to regain normal health. Crowding is an indication of improper methods of brooding, and the normal development of the chicks is interrupted.

In order to prevent chicks from crowding employ the following suggestions given by the department:

Be sure to have good ventilation in the brooder, but avoid drafts. If there is danger from overheating, bank the fires in the coal brooder stoves or burn a lower flame in the oil-burning brooder. Open the windows slightly, but be very sure to avoid a draft over the chicks or they will catch cold. On the other hand, if the chicks are chilled they are bound to crowd. When they are first put in the brooders the temperature should be about 98 degrees F., and it should be maintained fairly constantly for a week or so, depending upon weather conditions. As the chicks get older the temperature should be lowered gradually; the cooler the weather the less the temperature is lowered. If the chicks start to crowd, it is fairly certain that they are too cool and more heat should be supplied. Watch the brooder room carefully and try to keep the chicks comfortable.

Grower of Spring Wheat Can Overcome Big Loss

How the spring-wheat grower can overcome losses from dockage by eliminating wild oats, pigeon grass, cockle, smut and other foreign matter at the thresher, is told in a new United States Department of Agriculture motion picture, "Wheat or Weeds."

This new film is a contribution from the grain investigations division of the bureau of agricultural economics. It tells the story of the average spring-wheat grower losing heavily on every bushel of wheat he sells because of dockage, and it prescribes the remedy—clean wheat!

Scenes include the actual operation of the aspirator and disk cleaners at the thresher, showing the separation of wild oats and small weed seeds from the grain. Animated drawings visualize minutely the actual workings of the disk cleaner.

"Wheat or Weeds" will be circulated through the educational film service of the department and the co-operating state institutions. Copies may be borrowed for short periods or may be purchased at the laboratory charge.

Select Clean Potatoes for Planting in Spring

In picking out the potatoes for seed, it is important to select not only good clean "spuds," but to make sure that the seed does not carry any diseases. Stem end rot is a common potato trouble maker, and was widely distributed last year. Those who are familiar with the disease say that it can be readily detected at the stem end of the potato by either a dark brown ring beneath the skin or in more severe cases by a dry rot affecting a part or all of the tuber. All potatoes affected with the rot should be discarded.

Black scurf, a disease which forms dark brown specks on the surface of the potato, is another disease which is said to be common, especially on northern grown seed. This disease causes a reduced stand, weakens the plants and causes small potatoes.

Common scab, another important disease, is very destructive, often reducing the yield and making the potatoes unsalable.

FARM NOTES

Harness need repairing? Why not do it yourself?

•••••
Soy beans are worth twice as much as oats per acre.

•••••
Goats are valuable for clearing up weeds and brush on the farms.

•••••
The value of a man's efforts depends on how much his head directs them.

•••••
One way of "beautifying the home grounds" is a good vigorous spring clean-up of the back yard.

•••••
One will sometimes get a good crop from good seed, but he will always get a poor crop from bad seed.

•••••
If your section can't supply a dairy improvement association ask your county agent about a dairy improvement club.

•••••
The merciful man is merciful to his beast and is as thoughtful of the way his family is housed as he is of the quarters for his cattle.

•••••
Home-grown protein helpeth to make a prosperous dairyman. Legume hay, and soy beans grown in silage corn, supply it cheaply.

MOUNTAIN GEM ABBEY

COMMUNITY MAUSOLEUM, LEWISTON, IDAHO

Concrete

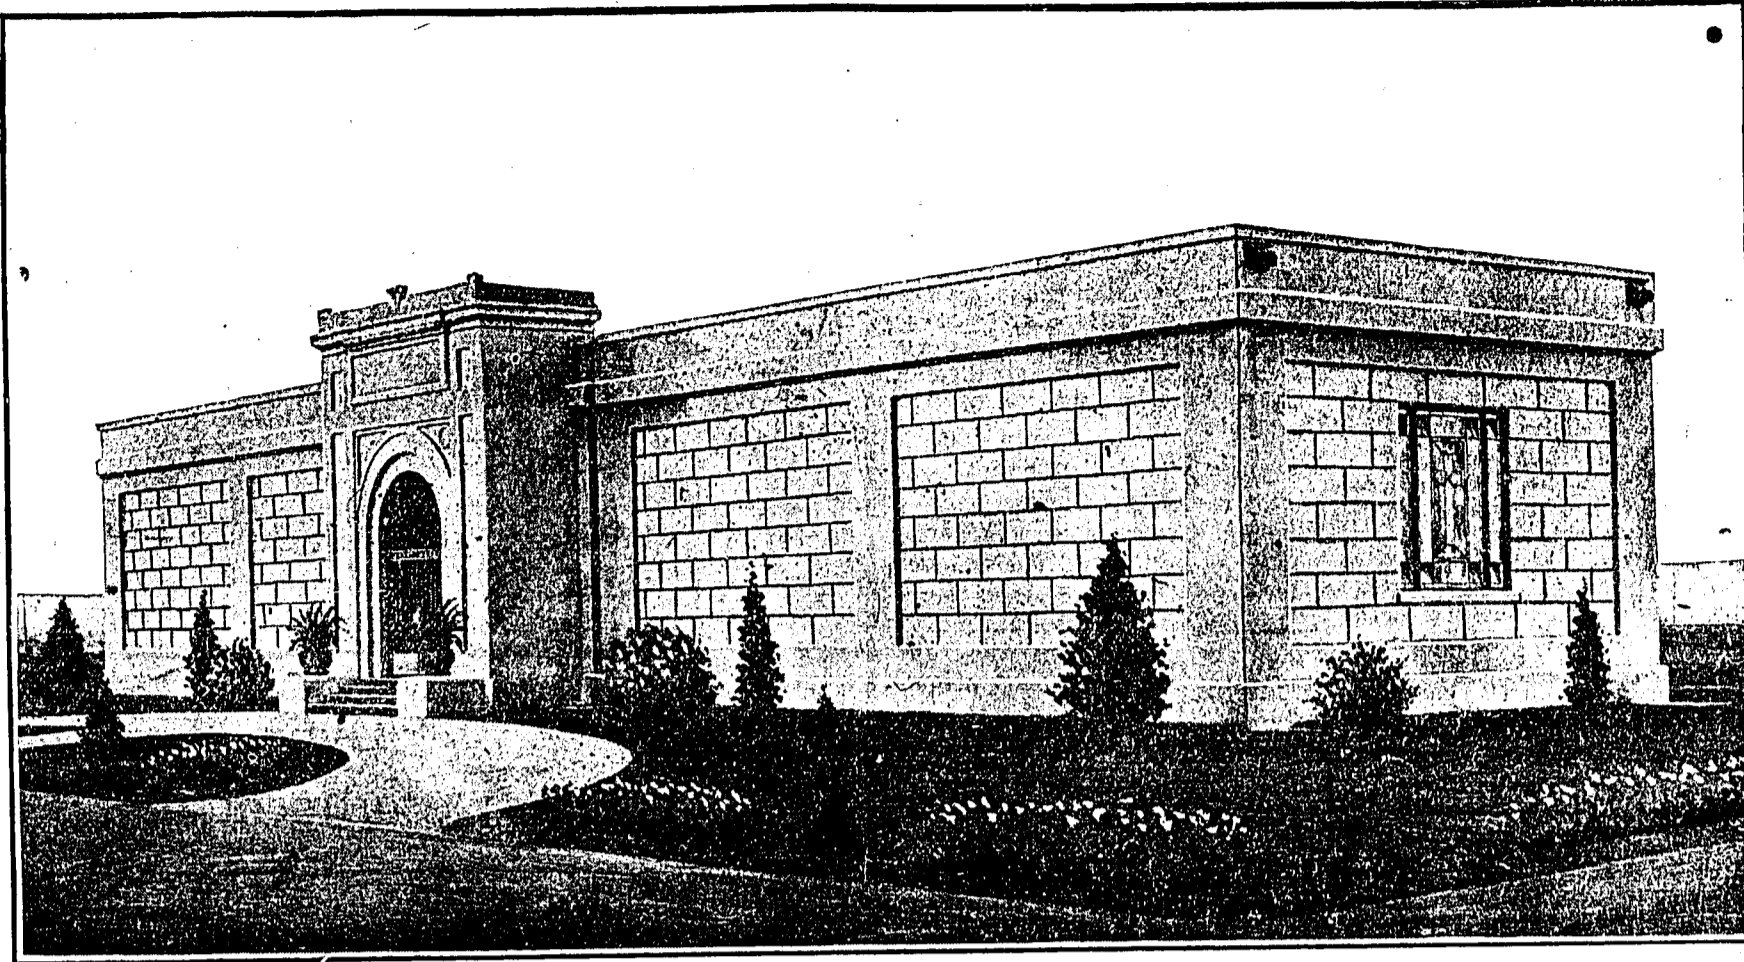

Marble

Bronze

Stately

Dignified

Enduring

A Mansion House for the Dead, Normal Hill Cemetery

Construction

Built of reinforced concrete, steel, marble and bronze, this beautiful memorial will stand for centuries protecting the remains of those entombed within and honoring their memory.

Sanitation

A scientific sanitary device will be installed which provides purified air to each crypt, thus insuring perfect sanitation.

Size

The size of the mausoleum will depend on the number of crypts subscribed for before construction starts. Only the number allotted before the building is started will be built. No extra crypts will be built in. Every opportunity will be given the citizens of the community to reserve space.

Each crypt owner has his own key to the gates and doors at the main entrance of the mausoleum and the use of the chapel section for services is free to all. The names of all crypt owners are embossed on a bronze memorial tablet in the chapel. This tablet will be unveiled on dedication of the building. Construction will be started in a few weeks and all who desire above ground entombment must make reservations soon. Many residents of outside communities are joining, hands with us in providing this beautiful resting place for their loved ones, and the future generations will be proud to point to the tombs of their forefathers in a building of this kind, which will be the center of reverential ceremonies long after present day cemeteries have been abandoned and forgotten. No Money is being collected. Make your reservations now, and pay for your crypts over a period of years. Send for free booklet.

Entombment

Behind marble tablets, in beautiful marble corridors, softly lighted by cathedral glass windows, the dead will reign alone, undisturbed by the rodents that infest the earth and safe from dampness and decay.

Endowment

An endowment fund is provided from the sale of the crypts, the interest from which will insure perpetual care.

Cost

The cost of space varies according to the location in the building, but in no case is it greater than the cost of earth burial when the cost of lot, care, excavation and marker is considered.

Tuberculosis Is Not Transmitted

Calves From Diseased Cows Found Free of Infection in Alaskan Test.

(Prepared by the United States Department of Agriculture.)

Thirty calves dropped by tuberculous cows in the valuable breeding and experimental herd of the United States Department of Agriculture in Alaska from 1917 to 1920 have been successfully raised and adjudged free from tuberculosis. While ordinarily the practice of retaining such stock in the herd is to be condemned, and should be allowed only in extremely exceptional cases, the success of the Alaskan experiment proves that a very valuable animal which has become infected with tuberculosis need not be slaughtered; and that the excellent qualities which such an animal would transmit to its offspring can be transmitted and perpetuated in the offspring without incurring any risk of transmitting the disease.

Appearance of Disease.

Considerable effort has been expended in developing a breed of cattle suitable for Alaskan conditions by crossing the Galloway breed with Holstein-Friesians, when in spite of all known precautions having been taken the disease made its appearance in the herd. Measures were adopted to retain the

diseased animals and to raise calves from them because of their value. The diseased cattle were placed in quarantine 15 miles from the healthy herd and treated as sound cattle, being given free access to pastures and receiving the usual feed. For the first 24 hours after birth the calves were allowed to remain with their dams in order that they might draw off the first milk, or colostrum, from the udders. They were then removed to separate quarters and fed the pasteurized milk from the tuberculous mothers. Milk, together with grass and such other forage as was eaten at will, constituted the entire ration until six months of age. When old enough, they were tested, and upon being pronounced healthy were added to the sound herd.

May Save Reactors.

Breeders of pure bred cattle probably will not retain reactors for breeding except in rare cases, even though the affected animals are valuable. The experiment proves however, that highly prized reactors need not be slaughtered. They cannot be cured, but they can be isolated and bred for the production of healthy offspring.

Object Lesson for Pure Bred Sheep Is Outlined

One lot of wool that lacked staple caused the importation of over forty head of pure bred sheep into Tyler county, West Virginia, in 1923, according to reports to the United States Department of Agriculture. The owner of this lot of wool had it graded while at the warehouse in the co-operative wool pool early in the year. It was pronounced good in quality but lacking staple. He then asked the extension service what he could do to improve it and, following the advice given, purchased a pure bred Delaine ram in an adjoining state. A number of sheep growers in the county were present when the new ram arrived, and as a result of the interest in improved stock thus aroused, a boys' and girls' sheep club was organized. For club members and adult farmers, together, 40 registered eyes and three registered rams were brought into the county before the end of the year.

June Is Best Time for Sowing Alfalfa for Hay

Probably the best time to sow alfalfa is in June. Prepare the land in the spring and harrow it to keep down the weeds till June, and then sow the alfalfa. Some delay the sowing if the ground is dry, until August. Many people, however, sow the alfalfa early in the spring with a nurse crop like barley or oats, not over one bushel of barley or oats per acre. If the sum-

mer becomes quite dry the oats and barley can be cut early and made into hay. This gives the alfalfa the entire possession of the soil. Common clover can be sown in the same way. If you have trouble in getting a stand of clover you can give it a better chance by sowing the seed alone as stated above, for alfalfa, because then it has the entire possession of the ground. If the seed is sown alone and the land is weedy you may have to clip the weeds so they will not rob the soil of the moisture and smother the clover or alfalfa.

Hawks Aid Poison Crews in Controlling Rodents

Hawks aid in rodent control work in Colorado, according to an employee of the biological survey of the United States Department of Agriculture. On a single day last fall there were noted 20 hawks feeding upon dead and dying prairie dogs on an area poisoned the previous day. At least as many more were flying in the immediate vicinity. These hawks, principally the rough-legged and prairie falcon, follow the poison crews almost as scavengers and are proving a valuable asset in follow-up and clean-up work. When the prairie dogs have been reduced by a 98 per cent clean-up, as in the case of most systematic poisoning campaigns conducted by the biological survey, it can be safely said that the remainder will be kept under control by these predatory birds.

FARM FACTS

- A cat is hard to lose, but a good one is harder to find. . . .
- Pasture helps make swine profitable. Do you pasture yours? . . .
- The early garden depends largely on the early hotbed or cold-frame. . . .
- Let the grass get a good start before turning out the cows; both pasture and cows will benefit. . . .
- Where sugar beets can be grown this crop may well take the place of small grain that has not proved profitable. . . .
- When buying fertilizer remember that it isn't what you pay that counts as much as what you get for what you pay. . . .
- Time invested in community meetings and farmers' institutes ought to be credited to the profit side of the ledger. . . .
- Do not feed young chicks within . . .

hours after they are hatched, and be sure that a little grit is in the first scratch feed. . . .

Uncle Ab says that the man who can't find anything to do on the farm in winter doesn't deserve to be there in the summer. . . .

If the same plot has been in garden for ten or twelve years, maybe it would pay to sow it in bluegrass for pasture and lay out a new patch for the garden. . . .

Should Avoid Lying Trade. He who has not a good memory should never take upon him the trade of lying.—Montaigne. . . .

GLEANINGS

Harold Hanson of Reardan, Wash., spent the week end here with his parents.

Stewart Compton came over from Orofino, Monday to attend the district convention of the Oddfellows.

Mr. and Mrs. Will Reece, formerly of this place, returned Monday from Montesona, Wash., and will again make their home here. They made the trip here in their car over the Columbia highway. Mr. Reece stated the lumber camps where he was working have closed down.

Miss Evelyn Hanson is attending summer school at the University of Idaho.

Miss Bertha Onstott of St. Joseph, Missouri, returned home Tuesday after visiting here at the A. Onstott home for several weeks.

O. W. Henry of the Cameron community is now milking 16 head of dairy cows. He says they are bringing a fair margin of profit above the cost of feed and time required for taking care of them. Mr. Henry has seeded down a considerable part of his ranch to forage crops and believes that the increased fertility of the soil is a consideration worth mentioning.

Mr. and Mrs. Walter Thomas spent the week end at Pierce visiting relatives. They left here in the car Thursday evening of last week. Walter reports good fishing in the vicinity of Pierce.

Mrs. F. A. Varo and little son arrived last Friday on the night train from Leavenworth, Wash., to visit at the home of Mrs. Varo's parents, Mr. and Mrs. N. B. Long.

The Brocke boys are offering a prize box of chocolates for the person submitting the most appropriate name for their new confectionery and lunch room. The contest closes tomorrow night, June 21.

Ed Rauschke, plead guilty in the federal court at Moscow late Thursday afternoon of last week to the possession of liquor. Sentence will be pronounced at the opening day of the fall term of the federal court.

W. L. McCreary, son of Editor McCreary of the Genesee News was a Kendrick visitor last Monday.

L. G. Peterson of Moscow, a former Kendrick citizen, was among the delegates who attended the I. O. O. F. convention here Monday.

A. H. Daubenberg drove to Spokane last Saturday afternoon to meet his wife who returned from a visit with her parents at Seattle.

Mr. and Mrs. Ralph Knepper and family returned Monday evening from a week end fishing trip in the Loehsa country. The writer, on his return, happened to read the following paragraph in one of his exchanges: "The good fishing a man has three or four times in his lifetime spoils him for steady work".

A Kansas breeze says that a good many candidates got their "dirt farmer" experience building political fences.

"Do you believe there is a devil? 7-year-old Johnnie Austin suddenly asked his companion in the Sunday school class. "Of course I do," was the reply. "Huh! It's the same as the story about Santa Claus," said Johnnie. "It's your father."—Ex.

At the annual convention of the Idaho Bankers Association, held at Boise this week, a resolution was adopted favoring the establishing of a federal reserve bank for Idaho. The contention at the convention was that the territory embraced by the Salt Lake federal reserve district was too large to be adequately served by one institution.

Prof. and Mrs. A. O. Strauch and daughter, Josephine, left the first of the week for Spokane. From there they will go to Pullman where Mr. Strauch will take work at W. S. G. summer school.

Mrs. E. H. Martin, better known as Miss Bernice Gentry arrived Thursday from California for an extended visit with her parents, Mr. and Mrs. Ira Gentry. Mr. Martin who is an English officer was decorated with seven medals for valor on the field of action during the world war. He was called to England again last month, by the English government. Mrs. Martin will join him in England this fall.

A. Wilmot and son, Billy, and grand-daughter, Jean Dunkle, left Wednesday afternoon for a few days' visit in Spokane.

Mr. and Mrs. H. P. Hull returned home last Friday from attending the meeting of the grand chapter of the Eastern Star at Nampa, which convened Tuesday, Wednesday and Thursday of last week. The Kendrick chapter was granted a charter at this meeting. Next year the Grand chapter will meet at St. Maries.

Considerable progress is being made in surfacing the Juliaetta streets. The street from the depot to Main street is being finished

with crushed rock as well as Main street from the town park west to the bridge. As yet no crushed rock has been put on the country's portion of the road below Juliaetta to the Nez Perce county line. It is understood that this work will be started as soon as the Juliaetta streets have been finished.

A party of friends of S. P. Callison drove down from Moscow last Friday evening to visit him. They were all men with whom Mr. Callison had enjoyed a number of pleasant fishing trips. Fishermen friends are always good friends.

G. W. Perry of Juliaetta was in Kendrick on business Thursday morning.

Mr. and Mrs. W. F. Janes and daughter, Cora Bernice, residents of Murphysboro, Illinois, who have been visiting Mr. Janes' brother, A. E. Janes, left for Spokane, Wednesday enroute for their home in the East. Before coming here they visited many points in California and the coast. Mr. Janes has been in the mail service for 25 years. He is much impressed with our fine climate and productive country. At some future date he and his family may decide to make Idaho their home.

Reports from Juliaetta are to the effect that here will be about one-third the normal cherry crop. Cherry picking started this week and will be well along by next week.

Some of the melon vines in and near Juliaetta are in bloom and prospects are that ripe melons will be on the market by August 1.

Word was received here this week that J. G. Gardner had undergone an operation at St. Maries hospital, Rochester, Minnesota, Monday of this week, and is getting along nicely. His operation was considered a serious one and his friends will be glad to learn that he is recovering from it.

Mr. Strong of the New West Trade, Spokane, was transacting business in Kendrick yesterday afternoon.

Mr. and Mrs. Theo Riley and family arrived this week from Spokane to look after farming interests here.

A new cable is being put on the Vollmer-Clearwater tramway this week. The cable was shipped in the first of the week on a big spool. It weighs over two tons.

Miss Geneva Stanton, who spent the past winter at the home of her brother, Lloyd, at Astoria, Oregon, returned last week to spend the summer with her parents, Mr. and Mrs. Sam Stanton.

Buck Phillips, prosecuting attorney for Nez Perce county, made a brief visit in Kendrick, Wednesday. He is a brother of Mrs. Harold Thomas.

Virginia Boyd came up from Clarkston, Monday, to visit at the home of her brother, Frank.

Wm. May returned the first of the week from Palouse where he has been working for some time. He says crop prospects in that locality are not very encouraging but that the recent rains have helped conditions to some extent.

Frank Ellis and Harry Fowler made their weekly pilgrimage to the Elk River country last Sunday and each reports a nice basket of trout which were caught in Bull Run creek.

Deputy Sheriff Robbins was in Kendrick last Friday on the trail of two sheep men who drove a band of sheep over American ridge and thru Kendrick toward the mountains. A number of dead sheep were left along the road without proper disposal, which is a violation of the state sanitation laws. No arrests were reported.

S. P. Gallison was a Moscow visitor Thursday of last week.

The C. F. Westendahl family returned Tuesday from Moscow where they visited at the Kroesing and Sten homes for a few days.

Mrs. H. Busse and little daughter, Bernhardine, arrived Wednesday from Kuna, Idaho, to visit friends and relatives here.

Mrs. Margaret Melony of Minneapolis arrived the first of the week from Lewiston to visit at the Hanson home.

Don Miller and Jack Bechtol are improving the appearance of their residence with a new coat of paint.

Elmer E. Armstrong, who for the past 14 years has carried mail on a rural route out of Troy, dropped dead Monday morning while getting ready to start on his route. His death was due to heart failure. He is survived by his wife and relatives in the East.

The sweetest story ever told is "The Little Church Around the Corner." 25-1t

TONIGHT and Saturday

We will present

"The Little Church Around The Corner"

The sweet story ever told. The greatest of all romantic melodramas. A story of conflicts and contrasts—a powerful theme that reaches way down into the souls of men and women.

For thrills, action and romance you can't beat it.

A good two-reel comedy

Admission - 10c and 25c

O. E. MacPherson, Manager

Number of Better-Sire Users Reaches Big Total

The systematic manner by which thousands of live stock owners in the United States are improving the quality of their animals is shown by a report just made public by the bureau of animal industry, United States Department of Agriculture. A total of 12,698 persons is shown to be using pure bred sires exclusively for all classes of breeding animals kept. This result, obtained under the "Better Sires—Better Stock" plan, involves close to 1,500,000 animals and fowls and a vastly larger number of offspring. There are also believed to be many indirect results.

The widespread operation of the better-sires activity is shown by an outline of progress during the last three months in 1923 and which is

available on request. Applications for participation in the work were received from 696 live stock owners in 25 states and 97 counties. This is an increase of about 50 per cent over enrollments for the previous three months. Persons who thus co-operate with state extension services and with the United States Department of Agriculture by pledging to use pure bred sires exclusively, receive helpful publications, a suitable certificate of recognition, and a lithographed sign bearing the legend "Pure Bred Sires Exclusively Used on This Farm."

Deer Becoming Nuisance. Deer imported to New Zealand have become so large in numbers and so destructive to farmers' crops that it has been necessary to place a bounty of two shillings a head on them.

Average Potato Yield. The Department of Agriculture says that the average yield per acre for potatoes in the United States is approximately 104 bushels, while approximately 27 bushels of corn are grown per acre.

WANTED

Cattle, hogs and sheep
Hides and Wool.
