KENDRICK, LATAH COUNTY, IDAHO, FRIDAY, JANUARY 30, 1925

#### NUMBER 5

#### Road Boosters Go to Lewiston

#### Large Delegation From the Student Activities as Told by Potlatch Country

A delegation of about 40 roads with the one idea of promoting win. sentiment for the construction of the highway from Arrow Junction up the Potlatch creek to the Latah absent or tardy for the past six county line. The Latah county commissioners were also there and took part in the meeting.

meeting from the Lewiston Tribune gives a very good idea of the business transacted:

A large representation from neighboring communities, including Kendrick, Juliaetta, Moscow, Cameron, Leland and other places was present at the meeting of the Lewiston Commercial club, Tuesday, for a conference in the matter of nighway improvement up the Potlatch creek from Arrow Junction to the Latah county line. The resuit of the conference was an agreement to carry out the pledges of cooperation made at a meeting here two years ago.

The first speaker was Elmer M. Paulson of Moscow, chairman of the Latah county board of commissioners, who said that he had always been interested in good roads and cation to our every day life, our special election for the purpose that it was surprising how many contact with others. Throughout of voting bonds, which will progood roads had been established in this country.".

which is awlays wide awake, and is more successful citizen. now about to do something wondertul, the building of the dam. There are many good roads out of Lewiston, but there is a chance for more. There may be a question as to where build it well.

"I am interested in the Potlatch year out of Juliaetta, both ways, producer. but nothing has been done between we must know what you are going sonality. to do."

G. F. Walker, a commissioner of Latah County, and a road commissioner also said that the Kendrick school. highway district had completed a road along the Potlatch and was waiting for the completion of the road to the Nez Perce county line.

that the board is ready to consider only one in Idaho who drew a prize a plan to build the road from Arrow to the county line. Funds would have to be borrowed from the sinking fund and returned by a slight in 1915 a report by the chairman increase in tax levy. A petition of the good road committee recomsigned by citizens indicated the mended that the project be put on wishes of taxpayers in the matter the calendar for immediate work. The proposed road would develop a Two years ago, at a large meeting large section of country.

when Lewiston starts after anything time, they have been depending she gets it. He noted that there is a good road to Spalding and a fair road to Arrow. A road up the pletion of the road. At that time Potlatch would open a large and it was found that the sentiment of fine territory, where a crop failure had never been known. It would work. Lieft that the pledge could mean much to Lewiston and the other communities if we had a road down the river. He quoted E. A. Cox, A. A. Seaborg and E. A. White, who spoke at a former meeting which pledged the building of the road. In Latah county about \$10,000 had been spent and the road been informed that it a petition finished to within 100 yards of the were signed a way would be found county line, but it could not be to do the work on the road, and he finished until it is known just where had secured the signing of the

E. A. Cox said that "the records the board. of the Lewiston Commercial club A. H. Oversmith indicated that this matter was under discussion. roads to Lewiston.

The American Ridge Literary tomorrow evening will debate the question "That fire is more ative: E. E. Jacobus, Bertha Davidson, Wesley Benscoter. Negative: George Dougharty, Mabel Benscoter, Byard Davidson. A full literary program in addition will also be given,

Our citizens have a new, old topic to discuss. Whether to bond the town for municipal improvments or no. The range of improvments contemplated embrace the installation of a new First we may say that psychology water system, a sewerage syselection of the trustees for the ensuing year.

The Kendrick Rochdale Co meets every second Saturday of each month for the present in the frame adjoining the State Bank.

Collins & Walker are building used by F. S. Beckwith as a store room. It will be large to build, but when you build a road dividual as a prospective citizen and commodious and frost proof.

The Kendrick Roller Mills started full blast this week after road. We built a little road last ual as a prospective worker and a few days enforced shut down, caused by the late freeze up.

> The county commissioners have created a new school district near Kendrick. It will be number 91 and was formed by the consolidation of Nos. 55

#### County Agent Writes

#### Kendrick Gazette:

In a recent issue of the Gazette you ran a news item calling attention to the fact that I had resigned accept a similar position in Lane County, Oregon, with headquarters at Eugene. I would appreciate the favor it you would give a message to your readers for me.

I have enjoyed my work in Latah County and shall always remember with pleasure the seven years spent ris. Peter Clyde. here. It is not on acount of dissatisfaction with conditions here, but on account of the attractiveness of the new field that I have resigned as county agent of Latah County.

I wish to thank all parties who have given me their support and cooperation in carrying forward a program for the development of the agricultural resources of the various communities of Latah County and of the county as a whole. Without the assistance and encouragement that have been given me at all times by the progressive farmers and business men of Latah County, it would not have been possible to achieve what results may have been secured. I trust that the same hearty support and cooperation will be extended to my successor.

> Yours, truly, O. S. Fletcher,

#### Kendrick 20, Asotin 26

Kendrick won a hard, fast game of basket ball at Asotin Thursday evening, last week. The game was close as the score of 20 to 16 would indicate. Kendrick led the first Half by a score of 17 to 9, but the rally of the Asotin boys came too late to take the game. Asotin high school has a good team and the locals were elated over the victory. The week before, Asotin won over the Kendrick five here by a score of 29 to 26.

The lineup last Thursday was Kendrick (20) Asotin (16) E. Flaig (2).. RF..(2) Cotter of pyrotol. Orders from 115 dif-H. Flaig (8)..LF..(1) Cotter E. Dammarell (8) C...(7) Berry Sparber (2) ..RG..(2) Farrish W. Brown....LG..(2) Robbins Sparber, Asotin: Sargent Bezona.

The owner is notified to appear before Monday, February 16, prove title to said estrays and pay all lawful charges which have been incurred in relation to the same, or said estrays will be sold at 10 o'clock a. m., Feb. 16, 1925.

J. G. Gardner, Constable, Kendrick, Idaho. 5-3t

#### Wood Wanted

Notice is hereby given, that the Board of County Commissioners in and for Latah county, Idaho, at a recess session of said board on February 24, 1925, will open bids for furnishing said county with Eighty (80) cords of wood, said wood to be good body tamarack, red fir or vellow pine, made from green timber and seasoned, delivered and properly at the County grounds, not later than September

Bids will be received for any part of the above named contract, in not less than ten cord lots, said bids to be sealed, properly marked, and filed with the Clerk of said Board not later than 2:30 o'clock p. m. of Tuesday, February 24, 1925, at which time and hour said bids will be opened.

The Board reserves the right to require a bond for the faithful perfomance of any contract awarded, and the right to reject any or all bids. Dated at Moscow, Idaho, this 26th

day of January, 1925.

HARRY A. THATCHER, Clerk of Board of County Commissioners.

## Rosette Disease

Malady Has Been Confined to Two States; Cause Not Determined.

(Prepared by the United States Department of Agriculture.) A disease of winter wheat known as rosette disease because of the excessive tillering in the spring and because the affected plants remain in day dinner guests, Mr. and Mrs. the rosette stage an unusually long Ernest Schmidt, Mr. and Mrs. time, has appeared in Illinois and In- Reiche, Mr. and Mrs. Henry Bramdiana in infested fields every year since its first discovery in 1919. For Herman Meyer. several years the disease took great tolls of the wheat crop in certain sections of Illinois and Indiana, says the United States Department of Agriculture. So far as is known, however, the disease has not been located in any other section of this country. The cause of the rosette disease has not yet been fully determined, but certain control measures have been worked out by the department.

May Ruin Affected Crop.

Farmers' Bulletin 1414 has been issued by the department, covering the subject thoroughly. According to the bulletin, where conditions are favorable for its development, the rosette disease may ruin the affected crop. Usually, however, the disease occurs in more or less irregular, scattered spots of different sizes. In all except the most severely affected fields, the reduction in yield has been less than 20 per cent.

The disease is recognized in the field in the spring by stunted and rosetted plants and by the bunchy, dying plants in the disease spots. All plants affected with this disease produce tillers excessively and look bunchy. At first they are dull blue in color, but they subsequently turn brown and often

In late spring, this disease may be confused with Hessian fly injury. In both cases the color of the affected plants is about the same. The rosette disease, however, shows no symptoms in the fall, while the fly causes marked injury. Later, the rosette-diseased plants may be distinguished by the much greater tendency to tiller.

Progress With Control Measures.

Various control measures for the disease have been studied and tested. and important progress has been made. It is known that the soil carries the causal factors, whatever they may be. Attempts to control the disease on infested land by seed treatment, therefore, are useless. Numerous varieties have been studied to determine their relative resistance to the disease. Red Wave, Early May, Shepherd, and Turkey are particularly immune. The general use of these immune varieties on infested land is now serving to control the disease per-

A copy of the bulletin may be secured, as long as the supply lasts, from the United States Department of Agriculture, Washington, D. C.

#### Sour Milk of Immense Value to Poultry Raiser

It is at least possible to reduce the amount of meatscrap in the mash ra-

tion if you keep sour milk or buttermilk before the hens at all times. Some have found it possible to do away with the meatscrap entirely, but this is not always a success in cases where it has been tried. It is best to reduce it to about one-half to one-third of the regular quantity called for in the mash, and then allow the sour milk or buttermilk for the hens.

Entirely aside from the food value in the milk, there seems to be a regulative quality to the sour milk. The fowls will remain healthier if given the milk at all times. It stimulates a healthy appetite, particularly for the laying mash. The sour milk seems to do away almost entirely with the difficulties generally traceable to close confinement, such as the clogging of the digestive organs, and for that reason, particularly for flocks in winter quarters, it is hard to overestimate the value of an abundant supply of sour skim milk.

#### United States Leads in

Machinery on the Farm

Farming leads all industries as a user of power and, in turn, the American farmer has more power and machinery at his command than the farmer of any other country, according to E. W. Lehmann, University of Illinois. Most of the machines of production for the farm have been developed during the last 75 years, and in that time the farmer has changed from "the man with a hoe" to a user of power and a large scale producer.

The last twenty-five years especially have seen a marked increase in the use of machinery and mechanical power on the farm.

#### Garden Recreation

The American people spend millions of dollars annually in recreation. They go on vacations in order to be better fitted to do their work when they return. Others who cannot afford the expense of a vacation trip often find recreation and daily change of scene in their own doorward, either with flowers or with a vegetable garden from which they draw a supply

of fresh and wholesome food.
