

Ordered Survey Potlatch Road

Prospects Bright for Road to Lewiston

The Lewiston Highway District has ordered a survey made of the road between Arrow Junction and the Latah county line. The work is to be started this week under the direction of C. C. Van Arsdol, engineer for the highway district. This agreement was reached last week at a joint meeting of commissioners of the Lewiston and Clearwater highway commissioners. The survey will be made for the purpose of determining the cost of grading and surfacing the stretch of road between Arrow Junction and the Latah county line. The following account taken from the Tribune gives an outline of the plans.

The commissioners of the Lewiston highway district are willing to take up this improvement and also join with the state in the completion of the road between the end of the surfacing near the Spalding bridge and Arrow Junction, in the event the taxpayers desire the district to participate in these improvements. The matter was brought up before the commissioners by a general petition that was largely signed by the larger taxpayers of the district. This petition asked the commissioners to confer with the county commissioners and the commissioners of the Clearwater district on the matter of the two improvements. These conferences have been held and the commissioners of the Lewiston district now propose to have such data prepared as will permit the submission of a concrete proposal to the taxpayers for approval or rejection.

The Juliaetta and the Kendrick sections have been clamoring for the improvement of the Potlatch creek road in Nez Perce county for the past several years. The road is now practically completed from Kendrick to the Nez Perce county line and much permanent road construction is under way beyond Kendrick and leading to the several ridges and big farming communities. The road committee of the Lewiston Commercial club has made a careful survey of the situation and has driven over many of the roads under improvement beyond Kendrick and the view is held the link on Potlatch creek in Nez Perce county is one of the most important lateral roads now needing improvements in the entire central Idaho country.

The state has complete data on the improvement of the Lewis and Clark highway from the end of the surfacing near the Spalding bridge to Arrow Junction. The state will furnish 14 per cent of the needed money for this improvement. Lewiston highway district is expected to furnish 28 per cent of the money and the federal government will furnish 58 per cent. The estimate shows the part the Lewiston highway district will be expected to furnish will be about \$8,000 and when the survey is completed from Arrow Junction to the Latah county line, the commissioners of the district will be able to state with definiteness the entire amount needed for the two improvements.

Business men and Lewiston taxpayers have generally appreciated the importance of the proposed improvements from a trade standpoint and from the reception given the petition circulated by the Commercial club committee recently, it is expected the petition authorizing the improvement will be largely signed.

Mrs. Robert Brown received a shipment of three Flemish Giant rabbits, Tuesday, of this week. They are purchased stock and will be taken to the ranch on Bear ridge where Mrs. Brown expects to raise rabbits on a large scale.

Kendrick High Defeats Lapwai

Took Game Friday by Score of 36 to 14

The basketball game last Friday between the Kendrick and Lapwai high school teams, was a surprise to local fans. The forecast was for a close score but the outcome was 36-14 in favor of Kendrick, who put up the fastest offensive game they have shown this season. Repeatedly they broke through Lapwai's five-man defense for baskets and at no time was the advantage with Lapwai. Lapwai's 14 points were made by long shots and free throws.

A rather unusual occurrence was that Lapwai failed to get a single basket in the last half except with free throws from fouls. This was a good indication of the defense put up by the locals.

Brown for Kendrick deserves credit for breaking up many chances for baskets for Lapwai. As safety guard he plays a very consistent game and it is seldom his opponents get a short throw for a basket.

Egnaz Flaig and Edgar Dammarell were high point men for Kendrick and McCormick for Lapwai was high man.

The lineup was:
Kendrick (36) (14) Lapwai
E. Flaig 13 RF 6 McCormick
H. Flaig 8 LF 1 Wendt
E. Dammarell 11 C 4 Stewart
Brown 10 RG Bailey
Sparber 4 LG 3 Wright
Subs: O. Thomas for Dammarell

Referee: J. Dammarell, Kendrick.

John L. Woody spent the week end in Moscow with his family.

Miss Georgia Bell left Tuesday afternoon for Peck where she will assist in the revival services now in progress there.

Wesley Thomas of Clarkston arrived Tuesday to visit his brother, Martin.

Disqualify Kendrick Player

At a meeting of the athletic board at Lewiston last Saturday, Egnaz Flaig, forward on the Kendrick High School team, was declared ineligible to participate in the high school conference tournament to be held in Lewiston next week. The reason given was that he had played high school basketball for more than four years.

The evidence upon which this decision was made is an affidavit signed by Floyd Millard of Juliaetta. The affidavit states that he, Floyd Millard, was a member of the Juliaetta basketball team five years ago and that he played against the Kendrick High School team in a game that season in which Egnaz Flaig took part.

Upon this simple affidavit the district board disqualified Flaig without giving the Kendrick High School an opportunity to refute the charge.

Largely through the efforts of Walter Thomas, affidavits have been secured from numerous quarters which are directly contrary to the one affidavit upon which Flaig was disqualified. These affidavits were filed with the secretary of the district board Tuesday. One of the affidavits was from Harley Perryman, who was captain of the Juliaetta team and played in the game in question. Harley's affidavit states that Egnaz Flaig did not play against Juliaetta that season.

It is well known here that Egnaz was playing on the "Kendrick Kids" team, which was under the management of Harry Stanton. He first played on the Kendrick High School team in the school year of 1921-22. This year makes his fourth year of high school basket ball.

There is a good deal of indignation felt here at the summary methods used by the district board.

It is hoped that the affidavits secured by Mr. Thomas, refuting the charge against Flaig's eligibility, will have sufficient weight to cause the district board to reconsider its unjust action.

Over a Huge Thank-You-Ma'am —Hold on Tight, All!

THEY used to call these hummocks in a snow-covered road "thank-you-ma'ma." Hitting one suddenly, at high speed, you get a tremendous bounce into the air. These Canadian tobogganists have just encountered a huge "thank-you-ma'am."

Death of Wm. E. Stilling

The death of Wm. E. Stilling, prosecuting attorney for Latah county, occurred at the Sacred Heart hospital at Spokane Thursday night of last week after a month's serious illness. His health had been failing for the past six months. He was taking medical treatment in Spokane and returned to Moscow January 12 to take the oath of office as prosecuting attorney. He immediately appointed Thomas A. Peeney as his deputy and then went to Spokane to the hospital.

Mr. Stilling was a resident of Latah county since his boyhood days, except for a period of a number of years when he made his home in Seattle. He was a graduate of the University of Idaho and served several terms as prosecuting attorney of Latah county, his first election to this office being in the year 1902. He was 51 years of age at the time of his death.

Mr. Stilling was a member of the Methodist church, Masonic lodge, Elks' lodge and United Artisans.

Funeral services were held at the Methodist church, Rev. H. O. Perry officiating. Interment was made in the Moscow cemetery.

Agrees on Compromise

The compromise measure that was submitted to the commissioners of Potlatch Highway District, some time ago, was passed upon favorably with minor changes, by the highway commissioners in session at Letland last Saturday. It is understood that the compromise calls for the withdrawal of the petition for the dissolution of the district, which was filed about a year ago. In return for this the commissioners agreed to abandon the Pine Creek road project and to return \$6,000 to the Lewiston Highway District, the amount which was furnished by the Lewiston district to be used on the construction of the Pine Creek road. This money was to be returned on condition that it be applied on the construction of the Potlatch highway from Arrow Junction to the Latah county line.

The commissioners also agreed to divide the Potlatch Highway District into three road districts and to apportion the funds now on and to these districts for road improvement.

The Basket Social

The basket social at the Methodist church last Tuesday evening, was a success from every standpoint. There was a good attendance and everyone reported a delightful time. The entertainment started with a musical program after which the sale of the baskets began. Prof. Strauch performed the duties of auctioneer for a time and then turned the job over to Clarence Bell. Baskets sold well and a goodly sum was realized.

Death of James J. Keane

James J. Keane, who served Latah county as sheriff for three terms, passed away at his home in Moscow last Saturday morning, after a long illness with chronic nephritis.

Mr. Keane was a pioneer resident of Latah county. He was born in Ireland, December 2, 1857 and came to this country when but a boy. He worked at Pittsburgh for two years and then he and his brother came west to California. From there they went to Washington, locating where the town of Auburn now stands. They bought land there and after remaining several years, Mr. Keane came to Idaho, taking up a homestead near the town of Genesee. This land still belongs to the family. He is survived by his wife and six daughters.

Mr. Keane was quite active in politics and was an ardent member of the democratic party. Aside from serving several terms as sheriff, he was game warden under Moses Alexander for two terms. He was a devout member of the Catholic church and belonged to the Elks, Woodmen, and Knights of Columbus lodges.

Funeral services were held at 10 o'clock Monday morning at the Holy Trinity Catholic church of Moscow. The body was then taken to Genesee where it was laid to rest in the Genesee cemetery.

Entertain at Kensington

Saturday afternoon Mesdames Walter and Harold Thomas entertained about twenty-five ladies at a Kensington at the Harold Thomas home. The house was tastefully decorated in keeping with the valentine spirit in rose pink shaded lights and bowls of fragrant cut flowers. The early afternoon was spent in social converse followed by two very clever pianologues presented by Mrs. H. Thomas, with Mrs. Ramey at the piano. Next a prettily decorated valentine box was brought in and from the top opening a pink ribbon streamer was presented to each guest who drew a dainty valentine. As the tea time hour approached the ladies were led to the dining room where a dainty two-course buffet luncheon was served. The dining table was attractive with cut flowers and softly shaded candle light. The menu was carried out in pink and white.

Mrs. John Phillips, mother of Mrs. H. Thomas and Mrs. E. G. Dirks, Mrs. W. Thomas' mother, and an aunt, Miss Fannie Dean were out-of-town guests. Those bidden from Kendrick were: Mesdames McKeever, Bell, Knepper, Strauch, Leith, Daubenberg, Boyd, Martin Thomas, McConnell, McDowell, Snyder, Carlson, Ed Long, Newton, Secley, Harry Stanton, Hugh Stanton, Herres, Hanson, MacPherson, Hull, Ramey, Robt. Brown; Misses Joy Bell and Georgia May Bell, and Mrs. Spencer of Moscow.

Latah Officers Make a Raid

Men Were Arrested at the Thorn Creek Dance

Telephone calls for assistance from a dance at Thorn Creek, 11 miles south of Moscow, Friday night, led to the arrest of five men on liquor and disorderly conduct charges. The arrested are: Roy Hanson of Genesee, charged with having liquor in his possession; Jack Culbertson of Moscow, charged with selling intoxicating liquor; Pat Devlin of Moscow, charged with disorderly conduct and resisting an officer; Lawrence Phelps of Moscow, charged with disturbing the peace; and Clifford Witche of Moscow, charged with disturbing the peace.

The calls came to the sheriff's office about 10 o'clock Friday night and immediately Sheriff Charles Summerfield and his deputies, G. A. Garrison, George Moody and Pat Malone, rushed to the scene of the disturbances and made the arrests. Outside the dance hall, Hanson, who was handcuffed, broke away from the officers, who were holding three other prisoners, and secured a car and went on home to Genesee. At the time he was only being held on a misdemeanor charge, so the officers did not shoot.

Sheriff Summerfield sent a friend on to Genesee, who found Hanson, unlocked the handcuffs, and brought him back to the county court house this morning. Devlin also made a spirited fight when arrested, but he was thrown into the waiting car and taken to jail. The whole night was spent getting the prisoners into jail and arranging for their appearance before the probate court and justice of the peace.

Culbertson and Phelps were arraigned before Justice of the Peace W. G. Barge, who set their bonds at \$500 for Culbertson, and \$100 cash bond or \$500 surety bond for Phelps. Phelps will stand trial before Judge Barge, but Culbertson was bound over to the district court on the liquor charge.

Hanson was taken before Judge Adrian Nelson of the probate court, who fixed his bond at \$500. Judge Nelson also set Witche's bond at \$250, and Devlin's at \$250 for disturbing the peace and \$500 for resisting an officer. Hanson was bound over to the district court.

It is understood that Witche will plead guilty. His attorney is Abe Goff of Moscow. Culbertson and Phelps have secured Robert Leitch of Moscow to represent them, and Devlin has retained Clayton Keane.

Thomas A. Peeney, deputy prosecuting attorney for Latah county, represented the state and drew up the complaints.

Mr. Peeney was appointed special prosecuting attorney of Latah county by Judge Edgar C. Steele of the district court, to act in that capacity until a prosecuting attorney is appointed by the board of county commissioners.—Star Mirror.

Hogarth-Daniels

Miss Ellen Hogarth and Vester K. Daniels were united in marriage February 11, at the home of Mrs. Ed. H. Killiam in Lewiston. Rev. Covington of the Children's Home officiated.

Miss Hogarth attended high school in Lewiston. She spent one year in the home of Mrs. Leonard Davis. She is a very popular lady of the younger set. Mr. Daniels is well and favorably known throughout this community. The young couple will make their home on the Chas. Hoskins farm near Agatha. We wish them a long, happy, and prosperous life.

Clarence Bell went to Spokane the first of the week for medical treatment.

Latah County News Paragraphs

Items of interest Taken From Neighboring Papers

Frank Jones returned to Genesee Saturday from a three months cougar hunt in the Okanogan country and reported that he had bagged three of the big cats. Besides the hides being valuable, he received \$75 bounty for each of the animals, making a total of \$450 received in bounty besides having received wages for a part of the time when he was hunting in that section.

Mr. Jones reported that he found one cat that would not tree, but was willing to fight it out—something unusual for these animals as about the first thing they generally do is to take to a tree.—Genesee News.

Carl S. Anderson of American Ridge whose household goods perished in the fire last week, stated to the writer that his loss was around \$500 and he carried no insurance. Friends and societies have given the family a few household articles, for which service Mr. Anderson and family express their heartiest thanks.—Troy News.

The annual meeting of the members of the Juliaetta Cherry Growers Association, Inc. was held Wednesday with a large per cent of the members present. The secretary's report of the finances of the association and business transacted during the 1924 season was read and unanimously approved by the members. Walter J. Cochran, Mrs. Mary Jones and Carl Porter were elected to fill the vacancies on the board of directors and the board for the ensuing year will consist of these three members and Asa Cook and Ray Harris whose terms do not expire until next year. Officers elected for the ensuing year are: Walter J. Cochran, president; Mary Jones, vice-president; and Carl Porter, secretary-treasurer.—Juliaetta Record.

The commissioners of Highway District No. 3, at Saturdays meeting, definitely decided to hard-surface that portion of the Moscow-Bovill state highway extending from the west line of the Deary townsite to the east line of the Troy highway district. The board will meet February 18 to consider matters pertaining to the sale of \$30,000 worth of the bonds authorized. Work on the highway will begin as soon in the spring as weather conditions will permit and continue steadily until finished.

The strip of road to be surfaced is approximately four and a half miles in length. At the coming meeting estimates of cost, the proportion of the cost to be shared by the state, and other matters of detail will be gone into by the board. The procuring of a rock crusher is one of the matters that must be worked out early. Grading will come first, of course—a considerable portion of the road will have to be built outright, and all of it must be brought up to specifications before the rock surface can be put on.

Home labor will doubtless be largely employed, which will mean a season's steady work for men and teams. A job of this kind would come in handy for a number of our farmers between crop time and the harvest. The rock to be used will probably be taken from the big shelving slide on Bear Creek, which is about half way distant from either end of the project.—Deary Press.

The K. S. Wilcox 80 acre farm on American ridge has been sold to Harvey R. Cronson of Lewiston. The deal was handled by A. H. Over-smith of Moscow. It is understood the consideration was approximately \$6,500.

This is the time of year to have your harness oiled at the Kendrick Harness and Shoe Shop.

Agatha News

Walter Hoffman and family moved from Leland to their home on the river, Saturday.

Art Thornton and Silvie Cook are helping Dean Wright saw wood in Pine Creek.

E. Cole and Denzel Kuykendall were on the river Sunday, looking for coyotes.

Ethel and John Lantz, Irma and Leon Stephens attended the literary given at Lenore, Friday evening.

Mr. and Mrs. D. W. Lantz and family spent Sunday in the A. P. Stephen's home.

Mrs. Mabel Johnson is sewing for Mrs. R. J. Hoskin.

Mrs. Art Thornton visited Mrs. Dean Wright, Wednesday.

Ernest Steigers was a caller at the Dean home last week.

STONY POINT

Bill Stephas made a business trip to Leland, Saturday.

Mr. and Mrs. Dan Smith spent the week end visiting their daughter, Mr. McDowell, near Cadesac.

Several of the Clearwater farmers are plowing this week.

Frank Hoisington, Robert Heimgartner, Albert Heimgartner and daughter, Mabel, George Dygert and Prince Carlton were among the passengers to Lewiston, Saturday.

Lloyd Eckman made a business trip to Cadesac Tuesday.

Frank Hoisington and son, Cletis, are repairing fence this week.

Mr. and Mrs. Frank Fairfield were Sunday visitors at the Cletis Hoisington home.

Mr. and Mrs. Gordon Penland visited the first of the week at the Jess Cox home.

Leonard Fairfield and Clarence Dygert butchered hogs, Tuesday.

Mr. and Mrs. Will Steigers made a business trip to Kendrick Wednesday.

FAIRVIEW LOCALS

Mrs. Frank Lancaster and son, returned to their home in Spokane after visiting a week with her parents, Mr. and Mrs. I. H. Daugherty.

T. J. Fleshman and Jack came down from Moscow, Tuesday, for an extended stay.

Mrs. R. M. Smith spent a couple of days at the Woodward home last week.

The Virgil Fleshman and Hugh Parks families were guests at the Lyle Harrison home, Sunday.

Donald Morgan was unable to attend school last week on account of illness.

The O. A. Walker and Glen Fleshman families were guests at the Robert Smith home in Leland, Sunday.

The school is going to give a "Washington" program Saturday evening.

T. H. Daugherty and wife and Arthur Heath's two boys, spent Saturday night with Mr. and Mrs.

Harrison Daugherty and took Sunday dinner with Phillip Daugherty and family.

New Fumigant for Control of Weevil

Specialists Discover Remedy Suitable for Use in Grain Cars.

(Prepared by the United States Department of Agriculture.)

A new fumigant, which is non-flammable and non-explosive but effective for the destruction of weevils in wheat in grain cars, has been discovered by specialists of the bureau of chemistry, collaborating with the bureau of entomology and agricultural economics of the United States Department of Agriculture.

Made Exhaustive Tests.

The new fumigant was discovered as the result of an extensive research to find something to take the place of the highly inflammable and explosive carbon disulphide which was used extensively for fumigating grain, but the use of which in fumigating box cars loaded with grain has been prohibited by nearly all the railroads in the country, except at a few isolated points, because of the danger of fire and explosion.

Tests were made of more than 100 organic compounds and various combinations of these upon three species of grain weevils and the Indian meal moth, before discovery of a suitable fumigant that was non-explosive, non-inflammable, and without injurious action on the grain or the products manufactured from the grain.

Old Method Outlawed.

Since the old carbon disulphide method, because of the danger of explosion or fire, has been outlawed by the railroads, except at two terminals, and allowed there only temporarily as an emergency measure, it is apparent that but for the discovery of a safe effective method for fumigating, the practice of fumigating in cars would soon have been discontinued.

The detailed results of this work will shortly be published in a department bulletin. A mimeographed sheet describing how to make and use the new mixture can be obtained from the bureau of chemistry, United States Department of Agriculture.

Further experiments are contemplated to determine the suitability and dosage of this mixture for fumigating elevators, flour mills, etc., and for fumigating human habitations to destroy various household insects.

Method Found Good in Ridding House of Mice

Barium carbonate is the most satisfactory poison for rats and mice. It can be obtained at most drug stores. Three types of bait are recommended, meat baits such as hamburger and fish, cereal baits such as bread and rolled oats, and vegetables and fruits such as apples and canned corn.

FARM FACTS

The best corn in 1924 was on fall plowing. Seed properly selected is good corn insurance. Nix on the burning of leaves; save them for the hungry soil.

Minerals for Fowls of Big Importance

Ground Bone and Oyster Shell Are Essential.

The importance of minerals in the ration of the laying hen is often overlooked and the production of eggs is sometimes materially decreased because the fowl lacks a sufficient quantity of the necessary mineral matter.

Ordinarily there is no necessity of adding specially prepared mineral mixtures to the ration if ground bone, oyster shell and the like are a part of the regular diet. And these should constitute part of the diet of every laying hen.

Young Peach Trees Must Have Careful Attention

Intelligent pruning is essential to a fruitful, long-lived peach tree. A thrifty tree of one year's growth from the bud should be selected for the planting.

Ration Recommended for Making of Winter Eggs

The following ration for winter egg production recommended by the Missouri College of Agriculture, satisfies the needs of the hens and is economical and practical.

Small Paper Pots

Small paper pots which can be obtained at the seed stores, or which can be made at home, are splendid to use for tomatoes, cabbage, peppers, flowering and other plants.

Farm Hints

When corn is cut with a binder many ears are often thrown on the ground. If they are left long and the hens range over the field they may pick up moldy or decayed corn and it is followed by serious digestive troubles.

Plan of Line Breeding

Line breeding can be done by using the same ancestry or blood lines with careful selection that avoids the bad effects of inbreeding.

One Nest for Six Fowls

One nest should be provided for each five or six fowls, and even more if trap nests are used.

POULTRY FACTS

PRODUCE MORE EGGS IN WINTER SEASON

"The Badger state's winter egg production can be increased very noticeably per hen by carrying out certain easily followed plans," says O. M. Johnson, superintendent of the Wisconsin College of Agriculture poultry flocks.

"We have discovered," avers Johnson, "that pullets must be separated from the old hens to get the best possible egg production. If this policy is not carried out, the older hens will keep the pullets from their feed and boss them around so that they do not have a chance to get full development."

By letting the pullets run with the older fowls, there is also a great danger of spreading diseases. This, too, is fatal to egg production. An underdeveloped pullet or one that is backward in her development should be sold, continues the poultryman.

These pullets, as well as cockerels that are not to be kept for spring's breeding, do not as a rule pay their board.

"Skim milk is one of the greatest aids in egg production, and it should be used to the limit," says Johnson, "and each pullet should never be without plenty of milk, either sour or sweet." Washing the dish thoroughly each time before feeding is a precaution so as to guard from diseases.

When hens have all the milk they can drink, very little water is needed. In fact it is best, advises the poultryman, that pullets do not have water if they have all the skim milk they can drink. The milk will furnish them with water and at the same time the proteins and minerals the pullets need.

Whole cabbages hung up in the scratching pens will furnish fine green feed, but other greenstuffs also serve their purpose. Many poultrymen make the mistake of throwing large amounts of green stuffs on the floor where it gets moldy and dirty.

For the mash, which the pullets should have access to at all times, equal parts of bran middlings, yellow cornmeal, oats and beef scraps or tankage has given the best results. If the chickens have all the milk they can drink, the meat scraps and tankage can be cut to one-half part.

"A dry, well ventilated hen house free from mites and lice is important. The litter in the scratch pens should not be too deep at first as the pullets do not know how to scratch deep, or else will not. Yellow cracked corn is as good a scratch feed as one needs, but one-third of any other wholesome grain can also be added."

Small Paper Pots

Small paper pots which can be obtained at the seed stores, or which can be made at home, are splendid to use for tomatoes, cabbage, peppers, flowering and other plants.

When corn is cut with a binder many ears are often thrown on the ground. If they are left long and the hens range over the field they may pick up moldy or decayed corn and it is followed by serious digestive troubles.

If you wish to have healthy, egg laying hens, it is not only necessary to feed them regularly and give them water to drink, but the yard and house in which they roost should be kept clean. Once a week is not too often to clean up.

Lovers of poles always look forward to the time when the ascension. This variety of blossom usually responds to a little care in preparation of soil before the young plants are set out.

The many colors and beauty to the home surroundings.

Automobiles are the great American luxury of the present day. American luxury is having one grand and glorious joy ride, but they all have to stop somewhere to eat, and more attention should be given the home garden, the United States Department of Agriculture points out.

A hen where two or three hundred pounds of scratch grain may be stored in the chicken house is a labor saver.
