

## Now Proposing Bedrock Road

### More Propaganda for the Lewis-Clark Highway

Tribune: The work of locating a highway from the Clearwater river up Bedrock canyon to the Potlatch plateau between Leland and Southwick has been started under the direction of County Engineer W. P. Hughes. A portion of this highway will be in the Clearwater nigh-way district and some in Potlatch district and some in the unorganized district part of the county.

There are no immediate plans for constructing this highway but the residents of the canyon and many of the farmers residing on the plateau have indicated a willingness to donate work and money if the county commissioners will organize a construction program. It is stated the promise of extensive developments in the Clearwater timber district has aroused many of the farmers of the Potlatch section who are anxious to secure an easy grade to the Clearwater river in order that they may have access to the markets of the timber district for their poultry, dairy, garden and farm products.

The county is very naturally much interested in the construction of this road as it would bring to the Clearwater river and keep in Nez Perce county for assessment much of the grain and beans now delivered at Kendrick and Juliaetta and assessed in Latah county. It is stated this increased taxation alone will warrant the commissioners in making liberal appropriations for the construction of the highway as finances will permit.

The building of this road will make more necessary the improvement of the Lewis and Clark highway between Arrow Junction and the Clearwater county line above Peck. The plans are now being worked out to have graded and surfaced the Lewis and Clark highway from the end of the present surfacing to Arrow Junction and a movement is on foot to get the state highway department to adopt the Booth road from Arrow Junction to Myrtle in order that state and federal aid may be secured for widening and surfacing this link of the road but the important developments promised for the Clearwater timber belt and the improvement of the roads leading from the Potlatch plateau to the Clearwater river will make necessary an improvement program that will extend from Arrow Junction to the Clearwater county line.

It is stated an easy grade is being secured up Bedrock canyon and that the construction will not be expensive. It is proposed to build a road suitable for heavy traffic and of sufficient width so that teams can pass at any point but no effort will be made at this time to bring this road up to state standards. It is explained that if the grade can be constructed by county and donation money that no trouble will be experienced in getting donation labor for the distribution of surfacing materials from the county crusher.

### CRESCENT CLIPPINGS

Mrs. J. M. Kyle visited with Mrs. C. L. Trail, Sunday.

Mrs. Axel Ekman visited at the George Christensen home, Saturday afternoon.

Imogene Trail came home from Moscow, Monday. She has spent the last couple of months with her sisters, Mrs. Fred Darby and Mrs. Albert.

Mr. and Mrs. Wm. Kauder visited at the Henry Loeser home, Sunday.

Mrs. Frank Souders visited with Mrs. George Christensen, Thursday.

Mike Forest visited at the I. T. Kimbley home, Sunday.

Mrs. Frank Souders visited at the John Darby home Tuesday afternoon.

Wesley Thomas arrived the first of the week from Clarkston to visit relatives here.

## Kendrick News 20 Years Ago

### Item Taken from the Gazette Published in 1904

Chas. Hamlin is clearing off the debris from the St. Elmo ground and the streets are consequently being put in fine shape. In our estimation this will be practically the same as a cinder path.

Our baseball season has arrived and the second nine which won fame for Kendrick last year has again organized. The personnel of the team is as follows: Ed. Petrick, Dick Hechtner, John Mitcham, Will Hunter, Roscoe Organ, Elmer Béchtol, Sydney Browning, Ray Archer, Lester Hamley; John Terry and Emulus Brown substitutes. The team is now practicing about three times a week.

Van Horn & Son started their sawmill on Cedar Creek his week and as they have a large quantity of logs on hand will probably make a heavy run.

Geo. P. Barnum has finished shipping the apples in the cold storage. He has had a crew at work sorting and repacking.

It has been requested by various citizens that the candidates for village trustees declare themselves as to the various questions of importance now confronting the town. For instance, relative to the fire limits remaining as they now are; what stand they take should bonds be voted for their disposal, and what their policy will be the ensuing year. We place the Gazette at their disposal.

We are pleased to call attention to the work of E. Clem, painter, and recommend that parties needing the brush secure his services. We have noted the signs on the Beckwith store, which come to any requirements, and the finishing work in the McCreia building and judging from the work Mr. Clem is doing in the town, no outsider can do it better or more efficiently either lettering or decorating.

City Markets: Wheat No. 1 70c; cattle \$3.08; hogs \$4.75; chickens per doz. \$3.00; eggs 25c; potatoes 75c; cordwood \$4.00; cabbage 2c; onions 3c.

Cap Carlton had a close shave to seeing his house burn up this week. But for the timely appearance of S. Callison it would likely have done so. As it was, quite a hole was made in the ceiling where an entry was made to the flames.

The Kentenbach Co. have installed a gasoline engine and cleaner in their warehouse and Agent Bibb is now busy preparing to clean the wheat stored therein. The engine is six H. P. and the cleaner will roll out about a thousand bushels per diem.

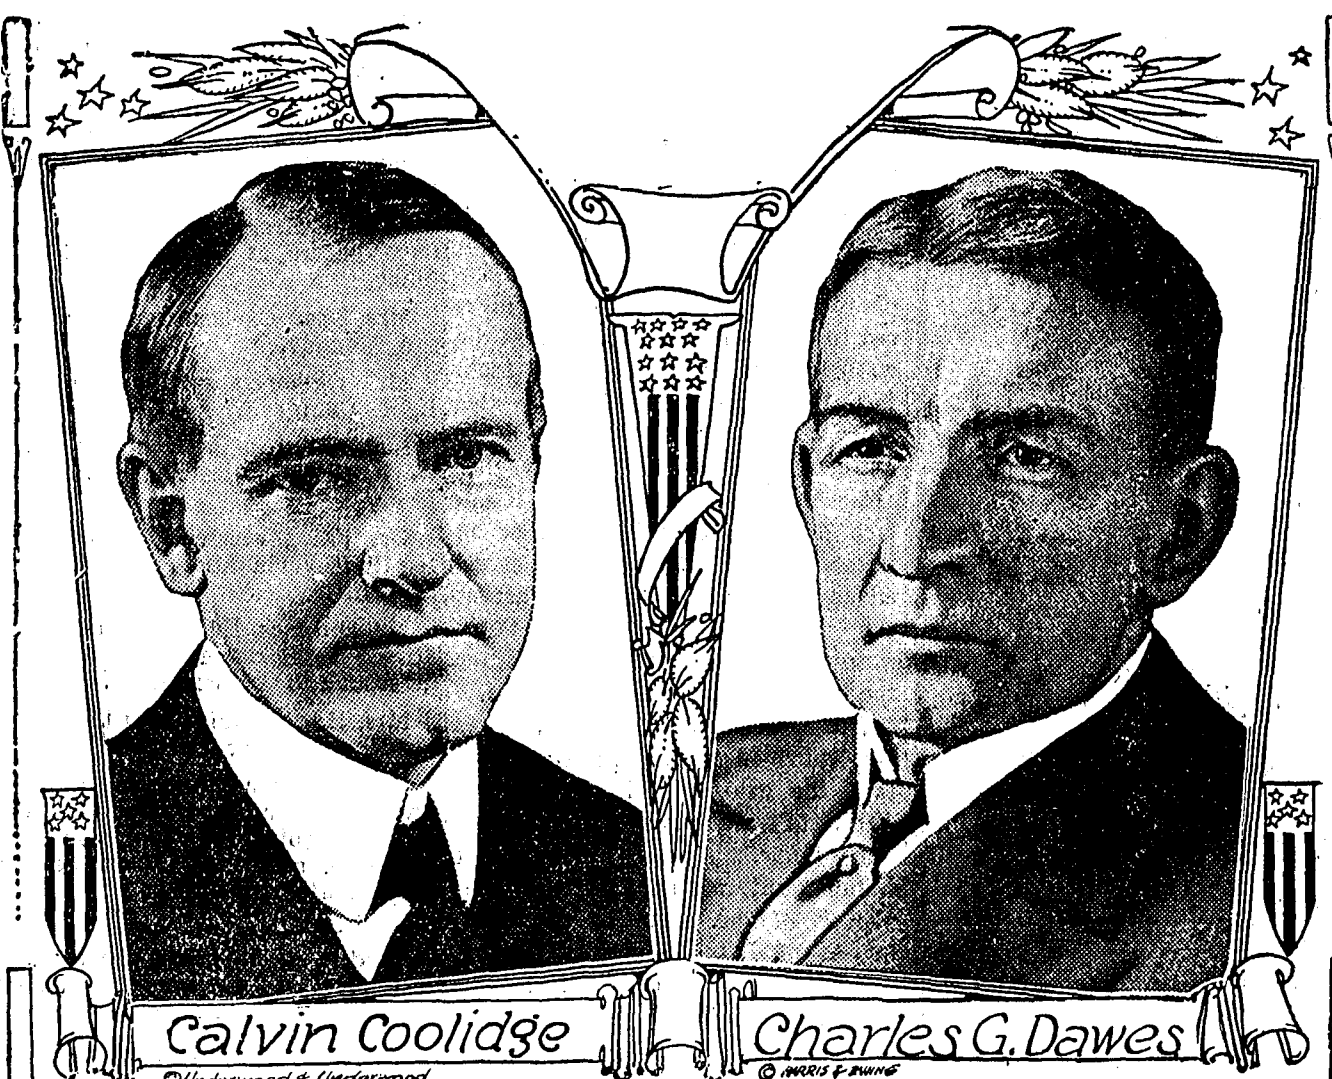

Among the sick Mrs. Sarah Crow is convalescing after quite a serious siege of grip.

Owing to the accident on the Temple, Roy Plummer has had his hand bandaged this week.

### Your Income Tax

In making out his income tax for the year 1924 the business man, professional man, and farmer is required to use Form 1040, regardless of whether his net income was or was not in excess of \$5,000. The smaller form 1040A is used for reporting income of \$5,000 or less derived chiefly from salaries or wages.

Forms have been sent to persons who last year filed returns of income. Failure to receive a form, however, does not relieve the taxpayer from his obligation to file a return and pay the tax within the time prescribed, on or before March 15, 1925. Copies of the form may be obtained from offices of collectors of internal revenue and branch offices. The tax may be paid in full at the time of filing the return, or in four equal installments, due on or before March 15, June 15, September 15, and December 15.

THIRTEENTH AMERICAN PRESIDENT INAUGURATED WEDNESDAY, MARCH 4

## Sent To Penitentiary      Councilmen Met Tuesday      Will Re-Dedicate Church

E. O. Dodge of Clearwater county, convicted on a charge of manufacturing and possession of liquor, and Abner White, also of Clearwater county, convicted of having liquor in his possession, were sentenced by District Judge Edgar C. Steele to serve from one to two years at hard labor in the Idaho state penitentiary at Boise.

Dodge was captured with two stills in his possession and a quantity of moonshine. White was operating on the North Fork of the Clearwater. This is the second offense for both men. They were brought to Moscow by Prosecuting Attorney Arthur Guerin, prosecuting attorney of Clearwater county and Howard Judd, deputy sheriff.

Dodge and White are the first men sent to the state penitentiary from either Latah or Clearwater counties for violation of the liquor laws and their sentence is taken as an indication that penitentiary sentences will likely be the rule with Judge Steele in the future, for second offense men.

Guerin, the prosecuting attorney of Clearwater county graduated from the school of law at the University of Idaho in June 1924, and was nominated for prosecuting attorney the following August.—Star-Mirror.

### Rented Collins Building

The Kendrick Hardware Co. has leased the Collins building, formerly occupied by Broeke Bros. Confectionery, and will use it for an implement display room. Implements are now being moved into the new quarters, in which a large stock will be kept on display at all times. Some time in the near future the company will hold an oil demonstration in this room at which time expert chemists will talk on lubricating oil and give demonstrations of the various brands of oil now on the market.

### K. H. S. Met Defeat

The Kendrick High School basket ball team lost both of its games at the tournament at Lewiston last week and was thus eliminated the first day. The morning game was played against Troy and was lost by a score of 28 to 23. In the evening Orofino won against them with a score of 37 to 22. In both games, Kendrick led the first half but couldn't keep up the pace.

Potlatch High School won the tournament and are now the conference champions of the district.

The town council met last Tuesday evening in the city hall with Trustees Dammarell, Newton, Deobald and Chamberlain present. Bills were allowed and the treasurer's report read and placed on file.

The following resolution was introduced by the street and alley committee and after discussion passed unanimously:

"Whereas, upon investigation by the Village Board of the condition of the shade trees on Ninth Street, against which complaint has been made by the Potlatch Telephone Co., it was found that unless these trees are kept trimmed to a height not to exceed 28 feet, they will seriously impair the efficiency of the telephone line extending along said street.

"We therefore, in the interest of the Potlatch Telephone Co. and the patrons of said company, recommend that the Board make it a matter of record that said shade trees along the street and in the parking strip, be kept trimmed under the direction of the Village marshal, to a height not to exceed 28 feet."

The Board ordered a notice published in the Gazette concerning the ordinance prohibiting domestic fowls running at large.

It was brought to the attention of the board that rubbish is being burned on the crushed rock streets in town, which is contrary to ordinance governing same.

The matter of grading and surfacing the alley south of Main Street was discussed and the general sentiment of the board was favorable to this much-needed improvement. The street and alley committee was directed to secure an estimate of cost and the matter will be acted upon by the board at an early date. According to a rough estimate made at the meeting the cost will be comparatively light and can be paid from the general fund.

There being nothing further to bring before the board the meeting adjourned.

### Managing Pool Hall

Frank Kemmes arrived last week from Montana to take over the pool hall here which he will manage until the owner, Mr. VanSkyke, also of Montana, arrives some time next week.

Jack Bechtol, who sold the business to Mr. VanSkyke, expects to leave some time this month for Lewiston where he and his wife will make their home.

Word was received here last Saturday that Mr. and Mrs. F. A. Vano of Leavenworth, Wash., are the proud parents of a baby boy, born last Friday.

Emanuel Lutheran congregation of the Cameron community will re-dedicate its renovated and altered church edifice on Sunday, March 8. There will be two services: The dedicatory services beginning at 10:30 a. m. with an appropriate sermon by the pastor and vocal numbers by the church choir. The evening service at 7:30 p. m. will be a continuation of the Lenten devotions; the pastor continuing his sermons on the theme, "The Way of Salvation in the Lutheran Church."

These Sunday evening services began last Sunday with a good sized audience. The public is especially invited to attend the services Sunday.

For almost a month a force of men has been at work on these improvements. The interior of the church has been covered with plaster board and panel strips and kalsomined in two colors giving it a most pleasing effect. A balcony, with a seating capacity of sixty people, has also been built, which will serve as a place for the organ and school. A much needed nursery and rest-room has also been added. Other alterations are in progress and are expected to be completed by Sunday. The work has been in charge of Mr. Carl Hartung of Cameron and shows well his recognized ability along this line. The Cameron congregation is now in possession of a fine church plant of which it can justly be proud and which is also a fine addition to the community in general.

### County Commissioners Here

A meeting of the commissioners of Latah county was held here Tuesday and Wednesday of this week at which time plans were considered for the completion of the unfinished portion of the highway between Kendrick and Juliaetta. The commissioners spent considerable time viewing the road in detail so that they would be in a position to get this construction work done economically and efficiently.

There is still about seven-eighths of a mile of this road to be built and the commissioners hope to get it graded and surfaced this spring. Kendrick and Juliaetta will then be connected with a standard highway that can be traveled the year round with comfort. When this work is completed the two towns should have a joint celebration in honor of the accomplishment of a dream which they have had for so these many years.

Rev. Wm. T. Russell of Clarkston was visiting friends in Kendrick a short time Saturday morning.

## Latah County News Paragraphs

### Items of interest Taken From Neighboring Papers

Thirty gallons of illegally brewed rye whiskey were dumped into two wash basins in the lower hall of the court house this afternoon before a small crowd of sorry onlookers. Following an order by the district court, Sheriff Charles Summerfield rolled up his sleeves and knocked the ends out of four kegs of moonshine "evidence" which was seized recently when V. C. Bisby who was arrested in a lonely cabin 15 miles northeast of here and a complete 30-gallon still discovered.

The big copper condenser also taken from the still for evidence and 40 feet of half-inch tubing will be broken up and sold for copper. Sheriff-Summerfield stated, although no order for doing so has been issued yet. The still was located up near the headwaters of the northfork of Hatter creek securely hidden under the bank of the creek.

Bisby started serving his six-months sentence for illegally manufacturing intoxicating liquor yesterday.—Star-Mirror.

The commissioners of Troy Highway District, and the overseers of the subdistrict met together in J. H. Felton's office on Saturday the 21st of February. They debated and discussed the maintenance and work for the coming year and the wages to be paid in such work. The wages for maintenance purposes were set as follows: Labor 37 1-2c per hour; Overseers 45c per hour; teams 25c per hour per team.

It was decided that this year the roads would be well dragged and the bridges would be taken care of and that in the way of construction the American Ridge grade would be built. It is the policy of the district this year not to make any little changes in the roads because these have been found to be more expensive than to permanently rebuild such sections as are necessary to be rebuilt. The Highway East of Troy will be surfaced with crushed rock, and for this purpose the moneys derived from automobile licenses will be used.—Troy News.

A call for bids has been posted at the local postoffice for carrying of a mailpouch daily between Genesee and Lewiston, this in addition to the regular mail service now being handled between Genesee and Pullman on the Northern Pacific. The time of arrival and departure of mail on the new route will be as follows: Arrive from Lewiston at 8:30; a. m., and leave for Lewiston at 2:45 p. m., daily except Sunday. Sunday mail will arrive from Lewiston at 5:30 p. m., but no mail will be sent out on Sunday. The service is scheduled to start April 1.—Genesee News.

An attempt was made last week to move the rock crusher onto the grade leading onto the Potlatch ridge but it was found that the roads were yet too soft and the attempt had to be abandoned until the ground settled some more.—Juliaetta Record.

### Editor Simpson, Craigmont

Gerald Simpson, better known here as "Jack," has taken over the ownership and active management of the Craigmont Register. For some time he was representing a popular paper house in Spokane and sold paper stock in this territory at the usual fabulous prices. It is a comfort to know that he is now in a position to "take a dose of his own medicine." But anyhow, we wish him success in his new undertaking and feel sure that the Craigmont paper will prosper under his management.

**GLEANINGS**

Betsy Olson of near Troy was transacting business in Kendrick last Saturday.

Wm. B. Deobald was transacting business in Moscow last Saturday.

Miss Nell Ameling was a Lewiston visitor over the week end.

Al McKee of Lapwai was transacting business in Kendrick the first of the week.

**LINDEN LOCALS**

Mrs. Earl Langdon and children spent the day Thursday with Mrs. C. H. Fry.

Mr. and Mrs. Edgar Bohn and Mrs. McPhee visited at the Claud Pipping home in Cavendish several days last week.

Mr. and Mrs. Arthur Bohn spent Tuesday evening at the Smith home.

Mrs. C. H. Fry and Aunt Carrie Allen spent Friday with Mrs. Whisler.

Mr. and Mrs. Lockhart and Miss Goddard spent Saturday at the Smith home and attended the dance Friday night.

Mrs. Sylvia Jenks of Clarkston arrived Monday for a visit at the Louis Alexander home.

Uncle Reube Garner is very poorly again.

Mr. Whisler returned from the Lewiston hospital where he underwent an operation some time ago. He is getting along nicely and is glad to be home again.

F. C. Lyons and family spent Sunday with Mrs. Longfellow.

Mrs. A. Alexander spent Sunday afternoon with Mrs. Ed. Darby.

Jim Ball returned Sunday evening from Lewiston, where he accompanied his wife, who had a growth removed from her arm. She remained in Kendrick where Dr. Seely will care for the wound for a few days before she returns home.

How Producer Can Get More Than Market Price

Start today! Now is the time to start making a market for your products. Start by getting individual customers to buy your products and build up a trade that will last. You may not think that this can be done, but others have done it and there is no reason why you cannot. Put day-old eggs on the market in individual packages. Soon you will see that everybody will want your eggs, and then, when the demand is great enough, your price will also go higher. You cannot expect more than the market

price unless you do create this demand for your eggs, thinks D. H. Hall, extension poultry husbandman at Clemson college.

When eggs are 60 cents per dozen, Mr. Hall adds, we never receive calls to find a market—but when they are 25 and 30 cents—we are always called upon to find markets. The law of supply and demand governs the market to a certain extent, but when a person has his own individual market already established he need not worry about a flooded or low market.

"An' 'ow be Lawyer Barnes doin' doctor?"

Doctor: "Poor fellow! He's lying at death's door."

Farmer: "There's grit for 'ee—at death's door an' still livn'!"—London Humorist.
