Missionaro Pageant

A missionary pageant was held at the Methodist church Wednesday evening by the Epworth League. Various countries were represented by girls dressed in the costumes of the countries and each gave a short talk telling of the conditions exitsing there. The pageant was given under the direction of Mrs. Eaken and was a very a creditable affair. A large crowd attended, the church being well filled. A vocal duet by Miss Georgia Bell and Mr. Clarence

Can You Save Money?

Andrew Carnegie once said: "The man who does not and cannot save money, cannot and will not do anything else worth while.'

Andrew Carnegie amassed a fortune but the FIRST thing he had to do was to save his money. You may not be able to accumulate a fortune but you can, with the help of a Savings Account, take advantage , opportunities that you otherwise would be compelled to pass by.

Start a Savings Account with \$1.00 and Get a Liberty Bell Bank.

Family Sleeps in Sacking

Kipling Philosophy

Close to the famous Battle abbey, in After all, yourself is the only per-Sussex, England, a poor family of five son you can by no possibility get was found living in tents made of sack- away from in this life and, maybe, in ing and sleeping on straw with only a another. It is worth a little pains and money to do good to him .- Kinding, blanket for covering.

there is something wrong with you. You may be too lazy or too honest. Since 1900 the per capita average of the national wealth has increased from \$1,165 to \$2,918, but this does not represent nearly so rapid an increase in the true value of our possessions as it appears to do for much of the advance in the dollar value is accounted for by the great rise in price that has taken place in these years. The greatest increase has taken place m real estate, which is by far the largest item in our national belongings. The distribution of national wealth by states is most uneven. It ranges from about \$7,000 per person in Nevada to about \$1,200 per capita in several of the southern states. The average in Ohio is \$3,048, that in New York City is \$3,436. Kansas is beyond the average. So if you havent got \$2,500 you should take interest in yourself, examine your ways, means, ask yourself whats the matter. For its you -no one else thats to blame. Or it may be entirely to your credit that you have let wealth go by while you were getting some of the many things much more worth while. Anyway, your rich uncle has it. Its yours for the getting. So get out, hustle.--Wm. Allen White.

Have you got that much? If not

SOUTHWICK NEWS

R. M. Wright and wife went to Crescent, Thursday, to see their datighter, Mrs. George Christensen, who is ill.

Mrs. Orvil Best and children left for Portland, Monday, where she will join her husband, who has work there. She was accompanied by her prother, Ray Iriplett and also her sister, Mrs. Blanche Cuddy.

Miss Ivy Triplett left Sunday for Colton, Wash., where she has employment.

Mrs. Ida Carey was a dinner guest of Mrs. Wells, Monday. She was accompanied home by her brother, Burton Souders, who will work in one of the Teakean saw mills.

Mrs. R. M. Wright gave a party to her Sunday School class Saturday, and a good time was reported.

Mr. and Mrs. Wm. Berriman left for Lewiston, Sunday, where Mr Berriman expects to take treat. ments.

Normal Milk Source Is Principally From Feed Milk production in cows takes place normally and principally from the feed, and not by the transformation of body tissues, according to experi- ments conducted by Pennsylvania State college in co-operation with the United States Department of Agricul- ture, college dairy department men- said. The results of the studies, which aimed to determine the relation be- tween the amount of feed that goes into milk production and the amount that goes into tissue, have just been published by the federal department in the form of a bulletin entitled "Relative Utilization of Energy in Milk Production and Body Increase of Dairy Cows." It may be had free, as long as the supply lasts, by writing to the Department of Agriculture, Wash- ington.	Pure Bred Is Backbone The pure bred sire is the backl of one's herd, and every farmer shi use one. The improvement in y stock and the increase in your inc are two big arguments in his favor isn't always advisable to bother al paper and pedigree, but they add terest and selling value to your her Using Home-Grown Fee Calves fed an ample skim-milk tion (not over 14 pounds per h daily) with clover hay and a mix of corn, oats, wheat bran and lim meal, in addition, made excel gains, averaging 1.72 pounds per h daily. Other calves given access the same hay and grain, but fed n than ten pounds of skim milk e daily gained 1.52 pounds per h daily, which compares very well the gains made by those which all the milk they wanted.

sire is the backbone d every farmer should Improvement in your crease in your income ments in his favor. It sable to bother about ree, but they add invalue to your herd.

le-Grown Feed ample skim-milk ra-14 pounds per head er hay and a mixture leat bran and linseed ion, made excellent 1.72 pounds per head lves given access to d grain, but fed more of skim milk each 52 pounds per head pares very well with by those which had wanted.

Keep The Wings of Your **Dollars** Trimmed

' If you don't watch them, dollars have a way of flying over the fence and getting lost in the thicket of needless spending.

The best way to clip the wings of a dollar and make it impossible for it to get away, is to save the dimes, quarters and halves and put them safely away in a savings account.

It you do not have a savings account, start one today-it will come in handy some time- a dollar will do.

Drinking Cups Found to Be Excellent for Cows

Drinking cups for cows pay for themselves in three to four months, according to sixteen members of the Pine county (Minnesota) testing assoshall determine the purposes for ciation. Harold Roth, the tester for which the money derived therefrom shall be expended, naming in each this association, has the figures to instance the proportion of the whole show that five cows which freshened amount which is to be used for about the same this made an increase the various and separate purposes. in production amounting to \$1.68 a cow per month after the cups were inquestions pertaining to school and stalled. school interests will be taken up and

During the cold weather of last Jandisposed of. uary cows held up their production where cups were used. Others showed ates for election of trustees toa decrease and never came back. Cold gether with the term for which water taken into a cow's stomach denominated shall be placed on file mands energy and heat. Energy and with the Clerk of the Board of heat come from feed. Furthermore, Trustees at least six (6) days prior the cow that is obliged to go outdoors to the day of election, excluding, the day of election. to drink, perhäps in a bitter wind, will not take as much water as her will be by secret and separate ballot. body requires to produce milk in large quantities.

To Prevent Ropy Milk

Ropy milk is due to bacteria gaining entrance to the milk. The bacteria which cause the trouble are usually found in stale water. Such water used in washing or rinsing the milk utensils may infect them and, through them. the milk. Cows may wade in such wa ter and the udders and flanks may be coated with mud or otherwise carry the organisms. It is easily seen now that they can drop into the pail at milking time. The remedy is obvious. Rinse all pails and utensils with clean, fresh water.

Value of Sorghum Hay

According to analysis, ordinary sorghum cane hay should be worth about the same or slightly less than timothy hay for dairy cows. Actually, it is really a better roughage for dairy cows than timothy hay. At any rate the cows seem to find it more palatable. Like timothy hay, sorghum fodder is somewhat lacking in protein and, on that account, it is necessary to feed just a little more in the way of bran and oil meal with it than with such roughages as clover or alfalfa.
