Items of interest Taken From Neighboring Papers

A meeting of the officers and stockholders of the Giant Ledger Syndicate, Inc. was held at the office of J. H. Felton on Monday of this week. As the company is composed largely of people from Troy, the meeting was held here so that all interested could attend. Mr. Ross of Spokane gave a very interesting talk on the operations of the syndicate. Good progress is being made at the mine and things begin to look rosy for those interested in this proposition.—Troy News.

Just now it looks like there is going to be a big strawberry crop here. The late frosts did practically no damage, the young fruit has set on abundantly. Cool, moist weather keeps the berries growing nicely. One can't tell—the time to size up a strawberry crop here or anywhere else is after it has been crated. There is one thing, though, that is worthy of greater attention on the part of our strawberry folks. This section produces the finest plants for setting that can be found any where. These young runners have a mass of fine white roots that resemble nothing so much as a set of Santa Claus whiskers and when transplanted start growing just like old-timers—Deary Press.

Superintendent Frank E. Shaw of the Genesee Public schools has been appointed to the superintendency of the Vale, Oregon, schools. This is a very desirable promotion for Mr. Shaw, Vale is a city of 1000 inhabitants, and is the county seat of Malheur county. It is within easy driving distance of Boise. The Vale school system employs 13 teachers, including the superintendent, and operates four bus lines to carry children to and from their homes.

Mr. Shaw's friends in this section will be pleased to learn of his advancement. He will be succeeded at Genesee by Eugene Muhlitz, a graduate of the University of Idaho.—Genesee News.

Mr. Alshouse was showing this week a medalion in his possession, given to him by a shepherd in the Judith basin. The medalion is one issued by Lewis and Clark to the Indians as a peace offering at the time of their explorations. It is about the size of a small saucer. On one side is a cut of Thomas Jefferson, on the other are two clasped hands, a tomahawk and pipe of peace, with the words in English: "Peace and Friendship". As a souvenir it is a valued one.

A. W. Lee, one of our Potlatch farmers, and one of the permanent homesteaders of that ridge, has decided to run a meat wagon into Kendrick the same as he has been doing on the ridge. Mr. Lee has secured his license and will begin next week.

Leland Held Big Road Meeting

Talk Plans for Road Building Program

A road meeting was held at Leland last Saturday evening which was largely attended by residents of the Leland, Cameron, Southwick and Fairview sections of the ridge and also by a delegation from Lewiston. The meeting was held for the purpose of outlining a road program for the entire ridge.

As a result of the meeting a committee composed of two representatives from each of the four sections of Potlatch ridge, was appointed to make recommendations and report at meeting to be held the following Thursday, which was last night.

The committee was composed of the following members:

Southwick: Nels Longeteig and Gordon Harris.

Cameron: August F. Wegner and A. H. Blum.

Fairview: William Schetzle and Oney Walker.

Leland: R. B. Parks and Jesse Hoffman.

A proposition of incorporating Southwick into the district was suggested at the meeting and will probably be given further consideration.

In referring to this meeting an article in the Lewiston Tribune was published as follows:

"There was considerable discussion Saturday evening relative to the improvement of the Potlatch road between Arrow Junction and the Latah county line and which was pledged more than two years ago by the Lewiston road committee at a meeting with the county commissioners of Latah county and residents of Kendrick and Juliaetta. It is understood the pledge of the Lewiston committee was made conditional upon Latah county and the communities of Kendrick and Juliaetta joining in the permanent improvement of the road leading from Kendrick to the Nez Perce county line. These improvements have been made by the Latah county people and they are now beginning to ask when the Lewiston people are going to carry out their part of the agreement.

"A survey of the road between Arrow Junction and the Latah county line was recently completed by Engineer C. C. Van Arsdol, of the Lewiston highway district. The estimates of the cost of the improvement were recently submitted to the members of the highway commission and the estimate shows the cost to be considerably in excess of the amount first discussed with the taxpayers of the district. It is expected the road committee of the Commercial club will present the matter to the taxpayers of the district by petition which will allow for an expression as to their desires in the matter for the guidance of the commissioners. It is suggested the action taken in the Potlatch district will doubtless be reflected in the attitude of the taxpayers of the Lewiston district."

Kendrick Defeats Moscow

The Kendrick ball team defeated a team from Moscow last Sunday afternoon on the Kendrick diamond, by a score of 19 to 7. It was a loosely played game as the score indicates, with 15 errors chalked up against Moscow and 8 for Kendrick. Fleshman for Kendrick pitched a good game, allowing but 4 hits while the Kendrick bunch netted 12 hits from the Moscow pitchers. Fleshman struck out 9 and Moscow 4.

Gabe Forest appeared in uniform for the first time this season. He is one of the best all-around ball players that ever played on the Kendrick team, and plays all positions equally well. He played first base Sunday, as Bill McCall had a badly damaged finger, which he injured in the Genesee game the previous Sunday.

Miss Redfield Is Appointed

Now State Commissioner of Education

Miss Ethel E. Redfield of Lewiston was unanimously elected state commissioner of education Sunday afternoon by the state board of education under the terms of the new law passed at the last session of the Idaho legislature. The board of education opened its meeting here Saturday and has been sitting as the board of regents of the university.

Miss Redfield has been closely connected with Idaho educational institutions for eighteen years starting as instructor in the Lewiston high schools where she remained from 1907 to 1913. At that time she was elected superintendent of schools for Nez Perce county where she served until 1917 when she was made state superintendent of public instruction. This position she held until 1923 when she became an instructor in the University of Idaho. In August, 1924, she was appointed executive secretary of the state board of education.

Under the terms of the new Idaho educational law, the commissioner of education stands as the representative of the board in its relation to all the eight grand divisions of the board's work.

There are eight grand divisions of the work of the state board of education. They are the Idaho public schools, the University of Idaho, the Lewiston State Normal school, the Allion Normal school, the Idaho Technical institute, the Industrial Training school, the School for the Deaf and Blind and the Department of Vocational Education. Members of the state board of education are: Huntington Taylor, Coeur d'Alene, president; Stanley Baston, Kellogg, J. A. Lippincott, Idaho City; Clency St. Clair, Idaho Falls; Mrs. J. G. H. Gravelly, Boise; and Elizabeth Russum, Boise, state superintendent of public instruction.—Star-Mirror.

Jewett Heads Land Bank

George C. Jewett, secretary of the Spokane federal land bank, was named president of the bank Tuesday by the board of directors to succeed Daniel G. O'Shea who died in Chicago last month. Mr. Jewett served as secretary of the land bank since it was founded in 1917 until 1920. From 1920 until July, 1924, he was president of the American Wheat Growers' association. He returned as secretary of the bank last July.

Raleigh Albright stated the first of the week that spring wheat on his ranch below Juliaetta was four and one half feet high. It was seeded very early in the spring.

Band Concert Saturday Night

Will be Held at 7:30 in the Town Park

The second of the series of band concerts in the Kendrick park, will take place Saturday evening at 7:30 sharp. Everyone in the surrounding country is invited to come and bring a friend or two along. The concert will be held in the band stand in the park and is free to all.

The last concert, given several weeks ago, proved to be very popular and drew a large crowd. It is believed that with favorable weather conditions there will be even a larger attendance tomorrow evening.

Following is the program for the concert:

- The Enterpriser March - Lampe
- Loyal Hearts, Waltz - Wheeler
- Freedom, Grand March, Wheeler
- Autumn Leaves, Serenade - Miller
- New Colonial March - Hale
- Star Spangled Banner.

Open New Garage Here

A garage and repair shop has been opened this week in the former Carlson Hardware building west of the postoffice. Equipment is being installed this week and the garage is now open for business. It is owned by four men, J. J. Tierney, J. G. Moritz, both of Uniontown, R. M. Holiday of Deary and Roy England of Kendrick. The garage has been named "The Company Garage".

Craig-Daugherty

Miss Bertha Craig, daughter of Mr. and Mrs. Claud Craig, and Mr. Charles C. Daugherty, son of Mr. and Mrs. T. H. Daugherty, all of Leland, were married last Monday evening at Lewiston. Rev. George Funke performed the ceremony in the presence of immediate relatives of the groom. Mr. and Mrs. Daugherty are popular young people of the Leland community and the Gazette joins with their many friends in wishing them happiness.

Greer Plays Here Sunday

Another game will be played on the home grounds Sunday afternoon when the Greer team comes here to cross bats with the locals. Greer is reported to have a fast team, having defeated the Kamiah Indians recently by a score of 12 to 0. This should be a good game and worth the money.

Sunday, June 14, Kendrick will go to Orofino and on the 21st Orofino will play a return game here.

Advertising was printed last week in the Gazette shop for a Pioneer Picnic at Peck. The date is Friday, June 19. A goodly number of people are already planning to go from this locality. More particulars next week's issue.

Town Council Met Tuesday

Ordered Alleys Graded and Other Business Transacted

The town council held its regular monthly session at the hall Tuesday night and transacted considerable business. The session time many matters of interest to the welfare of the town were brought up for consideration.

N. Brooke appeared before the board with a request that the town improve the section of the road at the lower end of Brady gulch as he had plans under way to make extensive improvements in the gulch road as far as the town limits. The board agreed to do its part in the road work.

The ordinance providing for annual appropriation for the fiscal year was read the second and third times and passed. The ordinance provides for a budget of \$2,108.58 to take care of expenses in the general fund for the ensuing year. This appropriation will require a 10 mill levy, which is the same as last year and probably the lowest in the country. The income from the water system helps materially to defray expenses of running the town.

The matter of grading the alleys through the business section of town was turned over the Frank Chamberlain. He will have entire charge of this work which will start immediately. The alleys will be put in shape with a view of surfacing with crushed rock some time in the near future. The expense of this work will be defrayed from the general fund and will not require any extra tax levy as there are now sufficient funds on hand to pay all costs in connection with this project.

A motion was passed that all streets, alleys and vacant lots be turned over for the use of the Fourth of July committee for the one day—July 4.

The street and alley committee was ordered to purchase a valve for a fire hydrant near the Hanson property so that water for street sprinkling may be used from the mains for the lower end of town. This will save hauling the sprinkling tank back empty to the filling tank at the depot.

The street and alley committee was ordered to have 50 watt street lights put in between the corners of the depot and Standard Lumber Co. shed.

Plans for further improvement of the town park were discussed and referred to the park committee for action. The meeting then adjourned.

Advises Planting Great Northerns

Says Market Demands This Variety of Bean

With the bean crop just going into the ground over the country the necessity for planting the variety of beans that is most in demand and likely to produce the highest returns, is being pointed out by E. W. Eaves, president and manager of the Vollmer-Clearwater company, who has studied the bean situation for many seasons, says the Tribune.

Mr. Eaves reports that his daily mail carries from three to five letters inquiring about Great Northern beans. Almost no other varieties are called for he says.

"Both old and new crop inquiries are for Great Northern beans," says Mr. Eaves. "From the way the dealers in the east write, one would think we raise nothing else out here. Ever since this bean was introduced it has been the predominating choice of the consumer and the region that is slow in introducing this bean is naturally the loser. The central Idaho region has not been very quick to take to this bean, but the crops grown last year have proved all that has been claimed for it."

"We are interested in seeing the farmers grow the crop that will make them the most money. We like to handle a crop that is in demand and that there is a market for. We could sell right now all the Great Northern beans we could get our hands on."

"We are thoroughly satisfied that these beans will do much better and make much larger returns than the common white bean. We are so anxious to see this region adopt this bean extensively that we are giving the farmers an opportunity to get a start. For any farmer who may be interested in planting a few pounds of these beans for seed and just to try we will give a five pound package free, a charge of 25 cents being made to cover mailing and wrapping expenses."

"The Pinto beans that were shipped in this spring for trial have all been sold and farmers all over the region are testing them out. These beans come from Colorado and New Mexico and should thrive in warm and dry climate. For this reason they should be well adapted to the lower ridges of the Lewiston-Clarkston valley. At the present time the Pinto beans are commanding a premium of a cent over other varieties."

"Bean planting is just getting started good in our region, having been held up on account of the frequent rains the latter part of May. There is an abundance of moisture for the crop and if conditions continue favorable I look for one of the largest crops in years. At the present time warm, dry weather is needed. Many farmers are holding back until it does turn off warm. There will be a tremendous bean acreage this year if all plant beans who have prepared the ground and bought seed go through with their plans."

Are You Easy Mark?

A number of hosiery salesmen swooped down upon Kendrick this week and made their usual house-to-house canvass. They are slick salesmen and can out-talk the average individual. Anyone starting to argue with them is hopelessly lost. As one of them said "the hardest person to sell is the one who won't talk." One of them was demonstrating to a local merchant a number of tests that he could make with his dollar silk hose. The merchant threw him a pair of 50c hose that he carried in stock and told him it would stand up under any tests that his dollar hose would—and it did. There's lots of hookum in the peddling game.

Which Costs More To Have Hail Insurance and not need it, or To Need Hail Insurance and not have it?

You cannot prevent hail, but you can protect yourself against loss by a Home Insurance Company policy, whose policies mean absolute protection, with prompt and just settlements of all losses.

Give to your crop this year the same care and protection against a loss by hail that you give in working your ground and preparing it to produce a crop. It is good business.

Let us write you up today.

GLEANINGS

M. B. McConnell, R. D. Newton and A. K. Carlsson drove to Elk River Sunday evening to be on the grounds for the opening day of the season. They caught a few—enough to make the trip worth while.

Potlatch gardeners have had to contend with an army of cut-worms this season and considerable damage from this pest is reported. Early planted beans have been damaged to some extent, while tomatoes, melons, cabbage etc. have also been injured. The cool, damp weather is probably responsible for the worms being so numerous.

Wm. Watts, chairman of the entertainment committee of the Fourth of July celebration, reports that Congressman Burton L. French will deliver the address of the day here July 4th. The committee feels highly elated to secure the services of Mr. French as he is an extremely popular speaker in this part of the country, which was at one time his boyhood home.

Martin Thomas and Walter went to Peck Monday morning to fish. They got there in time to start fishing at 4 a. m. and returned home in time to cook the fish for breakfast in Kendrick. It is presumed they had enough fish for breakfast.

Ed Deobale had a sample of oats the first of the week that measured 30 inches long. It was pulled out of a field on American ridge belonging to his mother.

Wade Keene drove a new hack out of town last Friday, which he purchased from a local dealer. He attracted more attention than if he had been driving a new flivver. A new hack or a new buggy is rarely seen these days and will probably soon be obsolete.

Miss Opal Spence, Forrest Smith, Mr. and Mrs. Sam Hobart and son Cecil, were guests of W. D. MacGregor in Kendrick, Sunday. They motored down from Moscow.

Mr. and Mrs. Ralph Kuepper and family went to Chatcolet Lake last Saturday for a week end trip. The roads are very good to the lake, which is one of the scenic spots of north Idaho.

Mrs. Harvey Smith and two children of Moscow arrived Tuesday afternoon to visit at the Newton and MacGregor homes. Mr. MacGregor is Mrs. Smith's father.

Lester Crocker caught a 13 and one half inch trout in Bear creek last Monday. This is the largest one so far reported in. Most of the trout in Bear creek and the Potlatch are small, less than the limit of 6 inches.

E. H. Emery and Frank Brocke drove to Harrington, Wash. last Friday. Mrs. Emery and her two boys accompanied them back to Kendrick for a brief visit here.

E. H. Dammarell was unable to be at the store the first of the week on account of illness.

Mr. and Mrs. James Kayler of Winchester spent Sunday at the home of Mr. and Mrs. L. J. Herres.

Mrs. Julius Petrick and her sister, Mrs. Boight of Minneapolis arrived Thursday evening of last week. Mrs. Petrick has been making an extended visit with relatives in St. Paul and Minneapolis.

Miss Beulah Long returned home last Saturday from Cheney where she was a member of the senior class at the normal. She finished her work there and will teach next year. Miss Long was an honor student in her senior year at the Kendrick high school and her work at the normal has been of the same high standard. She has a promising future as a teacher.

Charles Riggle arrived the first of the week from Viola to look after property interests here. Mr. Riggle has been teaching a rural school near Viola. He has accepted the same position for next year, as he and Mrs. Riggle are very comfortably situated there.

Mrs. N. B. Long is visiting

her daughter, Mrs. F. A. Varo, at Leavenworth, Wash., this week.

Harry Stanton and M. O. Raby spent the first of the week in the Elk River country on a few days fishing trip.

Some of the ladies of Kendrick have developed acute cases of tennisitis. They play before breakfast, before lunch and before dinner. As a result of this epidemic some expert he-cooks are being developed in town.

Walter McCrea found a boy's fishing equipment in front of the store this week that proves the possibilities of having a big time on a small cash outlay. The pole was a willow stick fastened to it was one third of a 5c line and a plain hook—total value 24c. Any normal boy could have a million dollar time with such an outfit.

Dick Rauschke of Spokane arrived Wednesday morning for a visit with his folks here.

Alice Bell went to Moscow, Thursday afternoon, to visit her brothers, Homer and Clarence.

Mrs. Grinolds went to Lewiston yesterday afternoon to visit her son, L. A. Grinolds, in the orchard tracts.

Manning Onstott went to Lewiston, Thursday afternoon to pick cherries.

Word comes from the Ira Havens family who drove through to Iowa by auto, recently, that they had encountered considerable bad weather and had some car trouble and to cap the climax their little daughter developed an acute case of appendicitis and had to undergo an operation. She is reported to be getting along nicely.

Miss Beulah Long received notice yesterday that she had been elected to teach the first, second and third grades in Juliaetta schools. Mrs. Daubenberg was re-elected to teach in the high school there at a substantial increase in salary over last year.

The painting, calcimining and renovating of the Commercial Hotel building is practically completed. The rooms look very attractive and are now in fine shape. A new roof was put on the building and every thing put in first class shape. Mrs. McDowell states that if the public will support the dining room, she will open it in the near future and continue it as long as the patronage justifies it.

Jos. Tschantz of the Southwick community was transacting business in Kendrick, Wednesday morning.

Miss Edith Dammarell returned home Wednesday afternoon from her school work at the Lewiston normal. Commencement exercises were held there Thursday of this week.

A fire of unknown origin started at 1:30 o'clock Tuesday morning in the upper story of the N. B. Fox building at Winchester, destroyed the Wyatt & Murray meat market, the Charles Stevens Mercantile store, the Brown and Fountain meat market and the Mock pool hall. The loss of buildings and stock was estimated at \$56,600, with insurance covering to the amount of about \$30,900.

A hail storm visited Fix ridge the first of the week but little damage to crops was reported.

Mr. and Mrs. Mitch Blackburn and family passed through Kendrick, Wednesday, on their way home from Lewiston, where they spent the school year. They will make their home on their farm near Cavendish. Their daughter was graduated from the Lewiston high school last week and now has a position in Lewiston.

Mr. and Mrs. A. H. Daubenberg will leave tomorrow in their car for the coast where they will spend their vacation with relatives.

Egnaz and Harry Flaig, Clarence and Harley Perryman left Wednesday afternoon for Clarkston where they will pick fruit during the cherry season.

Miss Thelma and Doris Byrum, who have been attending school at Moscow, returned home Wednesday afternoon. They will remain here the greater part of the summer.

Tom Long drove to Cheney, Wash., last week. His sister, Beulah, returned with him.

LINDEN LOCALS

Mr. and Mrs. Oscar Torgerson of Elk River visited with her parents, Mr. and Mrs. Wm. Zimmerman, Wednesday of last week.

Mrs. Sadler spent Wednesday afternoon with Mrs. Jim Ball.

Charley Garner went to Elk River last Sunday, where he has employment.

Mr. and Mrs. Harry Thompson of Winchester spent Sunday, May 24, with Mr. and Mrs. H. J. Starr.

Mr. and Mrs. Clem Israel and children went to Lewiston, Wednesday, returning Thursday evening.

Mrs. Oat Stone and three daughters arrived from Lewiston, Wednesday evening, to visit a few days

at the A. Alexander home.

A goodly number of the neighbors observed Decoration day by decorating the graves at the cemetery.

Mr. and Mrs. Presnell were guests of T. P. Fisher and Mrs. Eakin, Sunday.

Mr. and Mrs. Will Carmin and children of Elk River were dinner guests of Mr. and Mrs. A. Alexander and Walter Carmin, Sunday.

Mr. and Mrs. Smith of Leland, Mr. and Mrs. Beck of Genesee and Mr. and Mrs. Jim Winegardner, who are enroute to Boise, spent Sunday with Mr. and Mrs. R. C. Winegardner, accompanied Mr. and Mrs. Beck home for a week's visit.

Mr. and Mrs. Quick arrived Friday evening to visit with Mr. and Mrs. Elmer Hudson before going to Butte, Montana, where Mrs. Quick expects to undergo an operation. She has been in poor health for sometime.

Mr. and Mrs. Granvill Wall and children and A. R. Wall left Monday for Dayton, Ohio, where they will make their home.

INSTALLED DISC SHARPNER

Frank Crocker has installed a new disc sharpener in his blacksmith shop here. It is operated by electric power and will sharpen one disc or a section of eight discs at one time. It makes an old, dull disc as good as new. There has been a demand for a disc sharpener in this part of the country and Mr. Crocker believes the new piece of machinery will be used extensively, as it does first class work.

Don't be Fooled by

FAKE

Silk Stocking Tests

When you go to a circus or a carnival you are prepared for fakirs and keep on the lookout for "skin games" and "grafts" of one kind or another. If you spend your money on any of the fake chances you find there, you do so just for the fun of it, and with your eyes open.

But when the suave door-to-door silk stocking agent sits down in your living room and puts his samples through some rough and tumble tests, you may marvel and believe that if his delicate samples will stand such hard usage, he must have a superior product.

Unfortunately most of the tests used by the peddler are fakes used for the purpose of getting your attention. Don't fall for them. They mean nothing.

The cheapest silk hosiery on the market will withstand the nail file test if one knows how to handle his file. Laugh at the peddler when he pulls that stunt on you. Let him know that you know he is faking.

The nail file test, the pull test, the hanging-over-the-door test

ALL ARE HOKUM

We'll make any of those tests on the cheapest silk stocking in our store to prove that we know what we are talking about. Make us prove it.

Ask the Peddler if He Can Equal These Values

Rollins Style 2320

A medium weight fibre silk stocking with long wearing lisle tops, toes and soles. Look at the price of this style, then compare it with the stockings you bought from the peddler for which you paid a third more. Season's newest colors.

OUR PRICE

\$1.00

Rollins Style 1818

A stocking of much better wearing quality and with more style than any peddler's stocking for which you pay more money. Pure, heavy weight silk with reinforcements at every wearing point. All the newest colors of the season.

OUR PRICE

\$1.50
