

Latah County News Paragraphs

Items of Interest Taken From Neighboring Papers

HANDCUFFED MAN ESCAPES

Handcuffed, Andy Olson, arrested on a charge of being a persistent violator of the state prohibition law, leaped from a moving automobile, rolled down a 40-foot embankment and disappeared from Sheriff Charles Summerfield's view in a cloud of dust made by a passing automobile. Olson is still at large, presumably still wearing the sheriff's set of handcuffs. The escape was made about 9 o'clock last night near Troy.

According to Sheriff Summerfield, Olson was arrested near Troy and was being brought to Moscow. He had a quantity of moonshine liquor in his automobile when the arrest was made. The sheriff handcuffed him and turned his automobile over to Deputy Garrison and started to drive the prisoner's automobile, in the front seat of which was Olson, into Moscow. Deputy Garrison was bringing up the rear.

Olson, said Sheriff Summerfield, is one of the worst law violators in the Northwest. He has been in the Latah county jail three other times, two for liquor violations and once for obstructing an officer. Every effort will be made to recapture him, said the sheriff. The county commissioners will be asked Monday for authorization to post a \$50 reward for Olson's capture.

Olson, according to the sheriff, has been under observation for some time. It is known to the sheriff's office that he has been engaged in liquor traffic, and his plant has been under observation for some time. His automobile is being held at Troy. Should Olson be arrested again, said the sheriff, he will be charged with being a persistent violator of the prohibition law, which under Idaho statutes, is a felony subject to a minimum sentence of two years in the state penitentiary.—Star-Mirror.

BADLY HURT IN RUNAWAY

Bert Wishard was badly hurt Wednesday afternoon when a team of mules that he was driving ran away with him.

It was while Mr. Wishard was working at the Fred Hampton ranch and it seems that he was driving through a gate when one of the rear wheels of the wagon scraped one of the posts. The mules became frightened and in some manner Mr. Wishard was pulled forward and thrown under the wagon. While he was badly bruised, no bones were broken, according to Dr. Ehlen, who attended him.—Genesee News.

Reunion at Southwick

The celebration of their 60th wedding anniversary was the occasion of a family reunion at the home of Mr. and Mrs. S. R. Southwick Sunday. There were 35 children, grandchildren and great-grandchildren assembled for the occasion and a very enjoyable day resulted. A splendid dinner was a feature.

Mr. and Mrs. Southwick have resided here for the past 42 years and are still enjoying splendid health.

EARTHQUAKES IN MONTANA

Helena—Mother earth became uneasy again Friday morning. Breakfast dishes in most Montana towns in the belt shocked two weeks ago trembled under a quiver recorded at 7:48 this morning. The shock, as recorded by the Helena weather bureau, lasted about 10 seconds.

BIG DAM BREAKS

Great Falls, Mont.—Two children were killed, half a dozen or more homes were destroyed and other property wiped out or damaged at Nieha silver mining camp, 70 miles south of here, shortly before midnight Sunday, when the tailings dam at the Silver Dyke mine gave way and precipitated a 15-foot fall of water, mud and tailings down a coulee leading into Carpenter creek.

Auto Wrecked Here Sunday

LaHatt Narrowly Escaped Serious Injured

Sidney LaHatt, while making the turn on the highway near Bear Creek bridge, Sunday morning, in his Metz car, hit the end of the bridge which resulted in completely wrecking the car. Both wheels on the left side of the car were demolished, the windshield broken and the steering wheel completely smashed. There were three young men in the front seat of the car at the time the accident occurred and aside from LaHatt receiving a cut on the chin and a couple of bruised ribs the occupants escaped unhurt.

It seems that LaHatt had just purchased this car the day previous and was not exactly familiar with its operation. He had been used to driving a Ford, and as the gas feed on the Metz works in the opposite direction he attempted to cut off the gas as he approached the bridge but threw the feed lever in the wrong direction, as a result the car leaped ahead at a high speed making it impossible to make the curve.

11 Pardons Granted

BOISE.—Three murderers were denied pardons at the last session of the state board of pardons. They were John Vigue, who killed his wife in Bonners county, serving a 50 year term; Charlie Moore, a Macedonian, who killed a fellow countryman in Shoshone county, sentenced to hang, but commuted to life imprisonment; Robert Worth, serving a life sentence for murder committed in Nez Perce county.

Among those pardoned was Richard Patterson, sentenced from Nez Perce county for burglary in 1922.

Dwight J. Anderson of Idaho county, for burglary, sentenced in 1922.

Jack Raymond of Bonner and James Hiatt of Lewis county for a statutory offense, both released upon condition of good behavior.

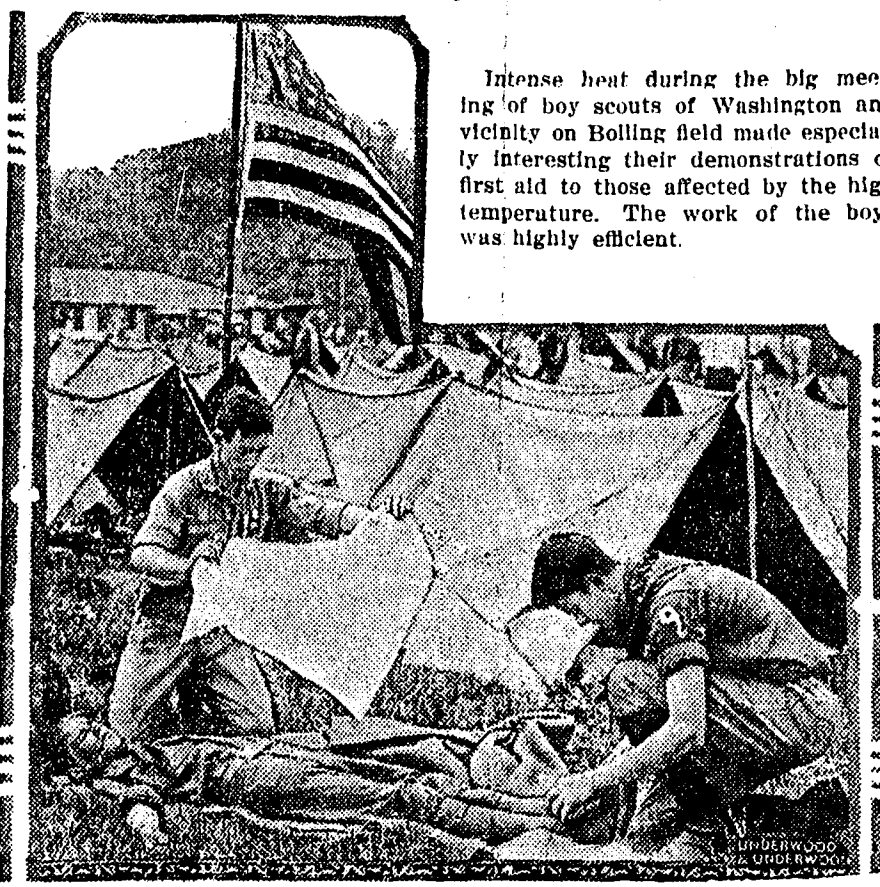

Doing Good Work

The junior prayer meetings, which is a continuation of the Boy's and Girl's meetings held in the M. E. church last March, was held at the Cummings home last Friday evening. There was a good attendance and a fine interest shown. These meetings are to be held each Friday evening from 7:30 to 8:00 at the homes of the different members. The study course for the summer will be Bunyan's Pilgrim's Progress, the first chapter of which will be taken up at the meeting to be held tonight at the home of Miss Eleanor Herres. The meetings are under the direction of Miss Georgia Bell and she is to be congratulated for the splendid work she is doing among these young folks.

Liquor Profit One Million

Winnipeg, Man., July 9.—Approximately \$1,000,000 profit was netted by the Manitoba liquor control commission for eight months ending April 30, it was announced today. The province through this commission dispenses all liquor legally sold.

First Aid Work by the Boy Scouts

Intense heat during the big meeting of boy scouts of Washington vicinity on Bolling field made especially interesting their demonstrations of first aid to those affected by the high temperature. The work of the boys was highly efficient.

Lapwai Store Robbed Saturday

Goods of Small Value Taken by Thieves

Some time Saturday, thought to have been between 2 and 3 o'clock Saturday morning, thieves entered the Roy Lane store at Lapwai and got away with goods of small total value. The burglars entered by taking out a pane of plate glass from the north side of the store and made way with a stag shirt, canned goods, tobacco and probably numerous other small articles. No attempt was made to enter the safe, which had been left open, as Mr. Lane was away and those in charge of the store were not sure they could work the combination. No money was taken and aside from the finger prints on the glass taken out, there is no clue. The finger prints will be used in the effort to locate the burglars. The same men, evidently, needed gas and broke the lock on the filling station pump opposite the Lane store and took considerable gasoline. Sheriff Code and Deputy Erskine investigated the robbery, but found no clues except the finger prints. It is believed the car used by the men was a Ford.

Church Service in Park

The open air church service held in the city park Sunday evening was well attended and a very forceful sermon was delivered by Rev. C. D. Bell. About thirty of the members of the Juliaetta Epworth League were present in a body and rendered efficient service to the delight of all present. The Kendrick male quartet gave two excellent numbers which was very much appreciated. Kendrick is to be congratulated on having such good talent available. These meetings will be held each Sunday evening during the warm weather and everyone is cordially invited to attend.

Liquor on Elk's Special

Bellingham, Wash.—Approximately fifty cases of assorted liquors, from beer to champagne, were seized by American customs officers at Elaine Saturday afternoon when they searched an Elks' special train "dead heading" thru from Vancouver, B. C. to Seattle. No one was arrested.

The train, customs officials said, carried Elks from eastern state to Vancouver. For diversion, the Elks were permitted to take the boat from Vancouver to Seattle, the train going through to that point without passengers but will pick them up at Seattle and take them to Portland, Ore., for the annual reunion of the lodge.

Between 40 and 50 cases of liquor were found in the baggage car and 10 cases scattered thru-out the train.—Tribune.

Found Liquor in Local Pool Hall

Summerfield Makes Another Haul Wednesday

W. J. VanSkyke, proprietor of the Kendrick Pool Hall was arrested Wednesday evening by Sheriff Charles Summerfield and his deputy, R. E. Garrison, charged with having intoxicating liquor in his possession and was taken to Moscow and placed in the Latah county jail.

The authorities raided the place about nine o'clock, searched the premises and found about 2 1/2 to 3 gallons of moonshine whiskey.

Van Skyke was arranged before Judge Adrian Nelson yesterday afternoon, charged with having liquor in his possession. His bonds were placed at \$500 which up to a late hour yesterday afternoon he had been unable to furnish.

Camp Fire Permits

Camp fire permits will be required on the Nezperce Forest on only 4 roads during the coming season.

These roads are:
South Fork road to Johns Creek.

Adams road to Slate Lake.
Elk City to Dixio road.
Red River Hot Springs road.

Permits may be obtained at Grangeville, Adams Camp, Fish Creek, Castle Creek, Elk City, Red River and Dixie during the fire season from July 1 to September 15 this year.

Camp fire permits are primarily for the purpose of fixing responsibility on campers who are careless with fire.

Additional Locals

Mrs. Herman Busse and daughter, Bernadine of Kuna, Idaho, arrived yesterday afternoon to visit at the home of her father, Geo. F. Knepper. Mrs. Busse expects to leave Monday on a trip to Honolulu. Bernadine will remain here during her mother's absence.

N. B. Long went to Elk River and Potlatch the first of the week to look after his timber interests.

Mr. and Mrs. W. B. Byrum were passengers to Moscow, Thursday.

To Tunnel Under Cascades

A provisional organization has been formed for the purpose of furthering the scheme for putting a tunnel through the Cascade mountains for the passage of trains and motor vehicles. A permanent organization will be effected at a state-wide meeting to be called at Seattle on September 19. The cost of the undertaking has been estimated at \$1,000,000 a mile for a 35 mile tunnel sufficient for a railroad and vehicle passage under the range of mountains.

GAS TRAIN EXPLODES

Taylor, Texas, July 12.(ap)—three unidentified men were burned to death and six others are unaccounted for in an explosion and fire which destroyed eighteen tank cars of gasoline and two box cars on a fifty car M. K. and T. freight train six miles south of here this afternoon.

Cause of the explosion was not determined, although the theory was advanced that some of the riders may have been smoking on the gasoline cars.

Band Concert Saturday Night

To Be Held in Kendrick Park 7:30 to 8:30

The business men of Kendrick again extend to the people of the entire Potlatch country, a hearty invitation to attend the band concert to be held in the Kendrick Park, tomorrow evening, from 7:30 to 8:30. Special musical numbers, it is expected, will be rendered. This will indeed be greatly appreciated by all who attend as the band concerts in the past few weeks have certainly been a credit to the organization. The Male Quartet will also assist in the open air concert. You will have plenty of time to attend the picture show after the concert as the management of the New Kendrick states that the show will not start until after the concert. Now jump in your cars and bring the family and enjoy a splendid hours musical concert with us in Kendrick, Saturday evening, July 18.

Resurfacing Kamiah Hill

Kamiah, July 10—Bliss Moore, highway maintenance supervisor, has a crew of men here setting up the rock crusher at the old pit about half way up the Kamiah hill, for the purpose of resurfacing the Kamiah hill. The crusher, elevator, bins, caterpillar engine and three trucks are on hand, and men are getting the crusher in place and work will begin as soon as the equipment is all installed. The resurfacing will take place about two months. Fine rock will be used and it is not expected to hinder travel.

Helped The Water Flow

Santa Barbara, Cal.—If the great increase in water flow which has followed the quake throughout the country continues and becomes the normal water supply of the district, Santa Barbara and its surroundings may expect from this source alone a benefit that will pay the quake loss many times over in years to come, according to estimates of ranchers in the Goleta, Carpinteria and Santa Ynez valleys.

Several geologists claim that the quake probably opened into the subterranean water flow of the valleys and other underground water reservoirs that before have been available to this district.

If this surmise is correct, the increased flow in wells and funnels, brooks and creeks may be counted upon to continue.

Practically all streams in the quake zone showed a marked increase in flow since the shake.

Seattle's New Traffic Code

Seattle.—A new traffic code which prohibits joy walking, bans horse-drawn traffic on the main streets during the busy hours and abolishes many downtown taxi stands, become effective here today. Maximum penalties for violation are 90 days' imprisonment and \$300 fine. A number of the provisions of the code are unreasonable and unenforceable, Mayor Brown and Corporation Counsel Kennedy agreed.

Three Arrested on Boose Charge

Local Garage Raided Last Sunday Afternoon

Jack Martz and Jim Tierney, members of the Company Garage, which recently opened for business in the building formerly occupied by the Carlson Hardware Co., were arrested here last Sunday afternoon about five o'clock, by Sheriff Charles Summerfield and his deputies, for violation of the prohibition law.

Sheriff Summerfield stated that this place had been under surveillance by his office for several days that the place was suspected as being a moonshine liquor dispensary, and following the receipt of evidence that sales of liquor had been made, the sheriff and his deputies raided the establishment and found a quantity of moonshine liquor. Martz and Tierney were placed under arrest and taken to Moscow and placed in the county jail.

Halliday was arrested Tuesday charged with maintaining a common nuisance. The three men are in the Latah county Jail in default of \$750 bonds each.

They were arraigned before Judge Nelson, Monday, and waived preliminary hearing, and were placed under \$750 bond each for maintaining a common nuisance, which carries with it a penalty of one year in the state penitentiary and \$1,000 fine. They were bound over to the district court.

An action seeking a writ of injunction for the abatement of the garage from selling intoxicating liquor was filed in the district court Wednesday against the three members of the firm, Jack Martz, Jim Tierney and Dick Halliday.

Upon the success of such proceedings, the establishment can be made to close, for being a public nuisance, which is provided for under the clause on abatements of the Idaho Statutes.

Held Family Reunion

A very enjoyable day was spent in the Kendrick Park, last Sunday, when members of the Emmett family held a family reunion. There were thirty-three present including children and grandchildren of James and Burl Emmett and their three sisters who arrived the last of the week for the occasion. This is the first time in fifteen years that the family have been together. It is needless to say that it was an occasion that will long be remembered by the participants. A basket dinner was spread at the noon hour and everyone did justice to the splendid array of good thing to eat.

Those present were: Mr. and Mrs. G. W. Owens and grandson, Richard Keller, of San Gabriel, Calif; Mr. and Mrs. E. Clouse and family, Mr. and Mrs. A. K. Tweedy and family and Ben Lewis of Clarkston, Wash., Mr. and Mrs. B. N. Emmett and family, Mr. and Mrs. J. W. Emmett and family, Mr. and Mrs. James Benjamin and daughter, all of Kendrick; Eloise Kelly of Lewiston; Mr. and Mrs. James Emmett, Cecil Emmett and daughter, and Master Roy Long of Kendrick.

Mrs. Tweedy, Mrs. Clouse and Mrs. Owens are sisters of Mr. James and B. N. Emmett.

Look For \$2 Wheat

Directors of the Northwest Wheat Growers association have expressed the opinion that wheat will probably go to \$2 a bushel before the summer is over. A survey of the wheat crop shows that the Northwest is the only section of the country that will harvest a surplus. All other parts of the country have been hard hit from one cause or another.

Harvest Dishes

You will want several pieces of extra dishes for your extra help. Our stock is complete and prices of course are right.

- Dinner plates, set of 6 **\$1.25**
- Cups and saucers, set of 6 **\$1.25**
- Oatmeals, set of 6 **\$1.00**
- Fruit dishes, set of 6 **.60**
- Pie plates, set of 6 **.85**

Will Install New Mill

Weippe.—Work on construction of the Schmidt Bros. sawmill at Lolo has progressed rapidly and the mill will be operating within the week. A small crew of men will start logging operations at once.

Get Stiff Sentences

William Schroeder and Mrs. B. A. Robbins appeared before District Judge Miles S. Johnson and pleaded guilty to liquor charges and received sentence. Schroeder received a jail sentence of four months and a fine of \$150, while Mrs. Robbins was fined \$400. The Ford sedan car in which was found 16 gallons of liquor, was confiscated by the sheriff, and is expected to be sold and the money added to the general fund of the county. Mrs. Robbins did not pay her fine, and in case it is not paid the fine will be served out in the county jail at the rate of \$2 per day.—Tribune.

Farmers Advance Wages

Spokane.—Farmers of Spokane county meeting at Waverly today adopted a 1925 harvest wage scale which increases wages 50 cents a day for manual labor compared with the 1924 scale. Thresher prices were increased two cents a bushel. Shockers will receive \$3 a day for 10 hours and pitchers \$3.50 for 12 hours. Other wages run up to \$7 a day for steam engineers and separator men.

Goats will eat anything, but don't make one of your hubby.—Bridgeport Star.

Poise is the precious quality which enables the impecunious sheik to look the dear thing straight in the eye and ask her whether she wouldn't like to eat in a cafeteria for a change.—Detroit News.

A Pennsylvania judge has ruled that a married man has a right to kiss a woman other than his wife if the woman does not object. The trouble with that decision is that the wife, if she cares to swing it, also has a right.—Detroit News.

Lo, The "Bum" Proofreader.

"Speaking of bad proofreading, ever hear about Smith's bad break?" asked the old-time editor. "It was like this: Mrs. Smith was exceptionally tall and thin. She was also an earnest church worker. When she died Smith ordered a fine monument, directing that the words, 'Lord She Was Thin,' be inscribed upon it. The engraver failed to calculate the space and the inscription read: 'Lord She Was Thin.'"

Buy and Sell Eggs and Poultry on Grade Best

The grading of both poultry and eggs is yearly becoming more important. Not so very many years ago hens sold for so much a dozen. Now the majority of dealers are discriminating between the hens of the best breeds and those of the general purpose and meat breeds. They are paying a premium for the heavier meated fowls for the reason that they make a plumper and therefore a higher-priced carcass.

A good many people say that cooperative marketing is the reason for

the added attention to grades. Others say that the regulations which have been advanced by the different departments of agriculture are responsible. Others say that the closer competition is making it necessary to buy on grade.

Perhaps all of these reasons are correct. At least all of them are partly responsible for the movement. However, there is still a good deal of confusion on account of grades not being standardized. The United States bureau of markets has worked out a system of grades which will no doubt help in standardizing the different grades as they are adopted.

The tendency to buy and sell on grade should receive the support of all poultry interests. A quality product always outsells a poorer product and the good stuff should not carry the burden of making a market for that of low grade that few care to buy.

Young, growing chicks need shade and free range, plenty of fresh water and proper food to make best profits for the owner.

A satisfactory type of portable house is one that is 10 feet wide, 12 feet long. The front should be about 7 feet high with the back 4 1/2 feet high.

The first feed in the morning is generally scratch feed, which is fed in the litter. The sooner this is fed in the morning the better, for it encourages the hens to get off the roost.

BIG BEAR RIDGE

Mr. and Mrs. J. Bramblett and children were Sunday visitors at the Newt Heath home.

Mr. and Mrs. W. H. Fairfield of Clarkston and Mrs. Grant Thayer of Portland are visiting relatives and friends, on the ridge.

Mrs. Ole Lien entertained the Lutheran Ladies Aid last Thursday afternoon.

Mr. and Mrs. Gabriel Forest spent Tuesday at the Lief Field home at Colton, Wash.

Several of the ridge people went to the woods near Bovill last week and returned with a nice supply of huckleberries.

Mr. and Mrs. Ed Lien are owners of a new Chevrolet touring car.

Mrs. Kate Galloway is spending the week at the home of her sons.

The Ladies Guild were entertained by Mrs. A. W. Jones Wednesday afternoon.

Miss Helen Slind spent the first of the week with friends at Moscow and Colton.

Mr. and Mrs. John Mathes and sons, Lelmer and Wayne, and daughter, Georgia, spent Tuesday evening with friends on the ridge.

Thorvald Nelson arrived here Thursday of last week, from Agawam, Mont., for a short visit with relatives and friends.

Mrs. Ed Halseth and children spent Tuesday at the Pete Halseth home near Dearv.

N. E. Ware returned last week from Stayton, Oregon, where he spent a couple of weeks with his brother who is seriously ill.

A large number from here motored to Moscow, Sunday morning, to attend the Norse-American Centennial Celebration, held at the Luvaas Grove. All report the concert by the Luther College Band as exceptionally fine.

The Ladies Guild invite you to come and bring your friends to an ice cream social at the Community Hall, Saturday evening July 18th at 8:00 o'clock. The proceeds will go to the Cemetery fund.

CRESCENT CLIPPINGS

Mrs. Percy Rew and children visited with Mrs. Wm. Kauder and Mrs. John Darby Wednesday.

Mr. and Mrs. Fred D. Hammond of Orofino visited at the John Darby home Sunday.

Alice Craimer left Sunday evening to stay with her sister, Mrs. Leroy Southwick.

LINDEN LOCALS

Mrs. Earnest Gounight of Nampa, arrived Tuesday to visit her mother, Mrs. Emma Longfellow.

Ben Smith made a business trip to Spokane, Wednesday.

Mrs. Louis Alexander and children are visiting with her mother in Clarkston this week.

Mr. McPhee and Cleve, Mrs. Geo. Garner and children were picnicing at Three Bear, Sunday in search of huckleberries but found them scarce.

Aunt Carrie, Arley and Virgie Allen and Eva Smith spent Sunday with Mr. and Mrs. Harry Langdon on American ridge.

Gus Farrington started his sawmill Monday to saw out the logs that have recently been put in.

Charley Garner, who is working at Elk River, spent Sunday with his parents Mr. and Mrs. Jim Garner.

Mrs. Goodnight spent Saturday with Eva L. Smith.

Walter Hunt enjoyed a visit from his brother last week who lives in Texas.

Mr. Luce, who is to be our new minister, preached his first sermon here Sunday, and was a guest at the Lyons home.

METHODIST CHURCH NOTICE

Sunday, July 19, 1925 KENDRICK

10:00 a. m. Sunday school
7:00 p. m. Senior and Intermediate Leagues will meet in park for their service. Leader, Alberta Walker.
8:00 p. m. Evangelistic service in Park. Sermon by Joy Bell. This is the second service to be held in the park. The first one was a decided success. There will be good singing, good music and a general spiritual uplift, let the entire city take advantage of these services.

AMERICAN RIDGE

Selecting Dairy Breed Important

Good Individuals Should Have First Consideration of Dairyman.

(Prepared by the United States Department of Agriculture.)
Good individuals of whatever breed selected should have first consideration by the man about to launch himself into the dairy business, says the

United States Department of Agriculture. As between breeds, there are three points that should be considered: (1) The breed that predominates in the locality where the new herd is to be located; (2) personal preference, and (3) market requirements for the product.

Number of Advantages.
There are a number of advantages to a dairyman in having the same breed as his neighbors, says the bureau of dairying of the department. A dairyman just starting with pure breeds may feel that since his neighbors have one breed of cattle, he should get another breed so as to have

a monopoly in the business of selling breeding stock. There is no question about the monopoly, says the bureau, but there would be no business to monopolize. It is difficult for an isolated small breeder to dispose of his stock to advantage, while if there are many breeders with the same breed, buyers are attracted to the locality because of the better chance to get the desired animals from one or more of the several breeders. Other advantages in having the same breed as the neighbors are the opportunity to exchange bulls, or to own good bulls co-operatively; to take advantage of breed sales of surplus stock, and lastly, the advantage of bringing the community together in other endeavors which usually result where there is but one breed.

Because a man will usually do best with a breed that he likes, it is well to give this personal preference the right of way when there is no other breed already established, providing, however, that just as high-quality animals are 'available' in the preferred breed as in some other breed.

Market requirements for the product should not be overemphasized, says the bureau, for the reason that these requirements may fluctuate from one year to another, and obviously, the dairyman cannot change breeds with every change of market requirements.

Summing Up Matter.
In summing up the matter of which breed to select, the bureau says this point should be kept in mind—there are good cows and poor cows in all breeds, and, other things being equal, the breeder or dairyman who gets good individuals to begin with will have a good chance for success, no matter what breed he selects.

The several breeds recognized as dairy breeds in the United States are the Ayrshire, Brown Swiss, Dutch, Belgian, Guernsey, Holstein-Friesian,

and Jersey. Although much alike in what is known as general dairy conformation, these breeds differ to some extent in certain characteristics. What these characteristics are, the factors to consider in selecting a breed, and the history and origin and development of the breeds, are questions of interest to both the beginner and the established breeder of dairy cattle. These topics are discussed in a new bulletin issued by the bureau of dairying as Farmers' Bulletin 1443.

A copy of this bulletin may be had free of charge, as long as the supply lasts, upon request, from the United States Department of Agriculture, Washington.

Alfalfa Sown in August Should Be Seeded Alone

When seeded in August, alfalfa should be sown alone, that is, without a nurse crop. Whenever there is a sufficient amount of moisture in the soil at that time of year to cause rapid germination of the seed, it is easier to get a stand without interference from weeds than in the spring, whether the alfalfa be sown alone or with a nurse crop. Bear in mind, however, that the seed bed for alfalfa should be very thoroughly compacted. If stubble ground is plowed late in July or the first week in August for alfalfa, disk it thoroughly afterwards and follow with a harrow until a fine, well-compacted surface has been secured.

Bird Babies' Photos

Never attempt to photograph bird babies until they are sufficiently sturdy to be taken from the nest without harm, says Nature Magazine. The best time for juvenile portraiture in the birdland is just prior to the breaking of home ties, when the youngsters are fully feathered.

Scene from "Where the North Begins" classic of the Screen

and general nervousness are among the early symptoms. These are quickly followed by a paralysis in the rear legs, which causes the typical stagger. This condition becomes rapidly worse until the animal gets down and is unable to rise. Cows suffering from milk fever are often found thus with heads thrown back with their muzzles pointed backward.

While the disease often results fatal within 24 hours, the "air treatment" is one of the surest cures. Inflate the udder by means of a milk-fever outfit and tie each teat with a strand of cloth to prevent air escape. In severe cases two or more inflations of the udder are often necessary. The air should remain in the udder from 12 to 24 hours, or longer in case of only partial recovery.

Have Hay Available for Calves From Very First

Hay for calves should be available from the first. By the time they are fifteen days old, they will be eating an appreciable amount. There is some uncertainty as to the kind of hay best suited for calves. Some dairymen have no bad effects where alfalfa hay is used for calf feeding, while others find that the calves scour badly. For this latter group, red clover seems to give much better results. It has been argued by some that if alfalfa is available from the beginning, there is less danger than if it is first fed after the calf is two or three weeks old.

Silage is a satisfactory calf feed if fed in moderation and care is exercised to remove all moldy portions. Calves at the Iowa State college dairy farm have shown more rapid and more economical gains when silage has been included in their rations.

Various figures have been given to indicate the feed requirements of a calf to six months. The following are from Eckles and are the average of the rations of seven calves: Whole milk, 360 pounds; skim milk, 2,804 pounds; hay, 270 pounds; grain, 113 pounds.

Wood Ashes Really Worth Their Weight

Chiefly Valuable as Fertilizer, Furnishing Potash.

It is throwing away money to throw away wood ashes, for it is throwing away fertilizer that can be replaced only at considerable expense. Wood ashes vary in effective fertilizing material, hardwood ashes being richest and soft wood least rich. Ashes of vegetable refuse are valuable also, being a good fertilizer, although not of the strength of the hardwood ashes. When you burn leaves or old vegetable vines or flower stems, spread the ashes over the garden.

Wood ashes are chiefly valuable as a fertilizer which furnishes potash, a necessary element in ripening of fruit and in forming roots. It is ordinarily furnished by chemical salts such as sulphate or muriate of potash or by a mineral fertilizer known as kainit. Our chief supply of potash fertilizers came from Germany before the war and there was a potash famine when they were out of commerce and potash fertilizers went sky high in price. Now they are again within reason.

Wood ashes are an old standby and more appreciated now than at any previous time, so much so that they are sold commercially by seed houses. Wood ashes are now known to be a dual-purpose fertilizer. Where formerly they were used merely for their potash content, now they are known to be an effective means of furnishing lime to the soil and an aid in sweetening the ground and liberating other fertilizing elements. These ashes contain from 50 to 70 per cent of lime. So when you spread wood ashes on

the garden you are both liming the soil and helping to correct any acidity or sourness that may exist and furnishing potash fertilizer as well.

The lime is as essential as other fertilizers to keep the soil up to the requisite growing quality although its application is not needed as frequently as other fertilizers. Without lime the efficiency of fertilizers is greatly lessened. It is needed in the soil to liberate other plant food elements. Save all wood ashes or ashes from bonfires. Spread them on the garden.

FARM FACTS

Sweet clover makes a good hog pasture.

Every thistle cut this year means a lot less next year.

Feed what eggs are made of. A ration is like a chain, just as strong as its weakest link.

A legume not only increases the production of crops which follow it in rotation, but furnishes a valuable feed in itself.

If we should have a dry season, shallow level cultivation will help conserve soil moisture and perhaps save the corn crop.

Ground-Hog Day Is Fast Losing Favor

Control Campaigns Begun in Some Sections.

(Prepared by the United States Department of Agriculture.)

Because of its burrowing and feeding habits, the ground hog is considered in most localities an undesirable resident, and to make matters worse its "weather predictions" on the second of February are no longer taken seriously. "Ground-hog day" thus bids fair to disappear in states where the habits of this rodent run counter to the interests of the farmer, and in such places ground hogs, or woodchucks, or marmots, as they are variously termed, will face forcible ejection if necessary. In places where they do little harm they may be allowed to live in moderate numbers for use as game and food.

Ground-hog control campaigns in Indiana and Illinois have been popular his spring, and the biological survey of the United States Department of Agriculture has been called on to cooperate with state officials and individuals in conducting them. Four county-wide campaigns just completed by the representative of the survey in charge of rodent control in the eastern district have proved successful and have resulted in requests for similar work in 20 other counties in the district. More than \$6,000 has been raised by county commissioners for the purchase of fumigation material, which will be distributed in most cases without cost to the farmers.

Milk Fever Is Serious Menace to Fresh Cows

All of the high producers should be closely watched for milk fever during the 48-hour period immediately following freshening, says John M. Shaw, dairy husbandry specialist, Iowa State college. The only man who may feel secure from loss from this disease is the man with low-producing cows. Restlessness, stamping of the feet

Marie Prevost starring in "CORNERED"

The Warner Bros. production which will be shown at the New Kendrick theatre next Tuesday night only. She is one of the screen's most beautiful women and is an exceptional actress.
