

LATAH COUNTY NEWS PARAGRAPHS

Items of Interest Taken From Neighboring Papers

Farmers around Avon have made good use of the open winter by cutting a million or more feet of logs. They are now awaiting snow so they can get the logs to the railroad, and the weather man just now is indicating a willingness to help them out. The logs were bought by the Potlatch Lumber Co.

The biggest cuts are: Henry Brannon and Jack Sturman, about 350,000 feet; B. W. Dennis, about 300,000 feet; Wm. Kleer, some 225,000 feet. Others in the neighborhood have enough to bring the total to well over a million, and cutting will continue during the winter.—Deary Press.

A test pumping is being made at the City's new well this week. There is 140 feet of water in the well, which is 200 feet deep. With their present pumping facilities it requires about one hour to pump the well dry. The inflow thereafter is about six gallons per minute. This, together with the old well should prove an adequate supply for the city's future needs.—Troy News.

And now comes an Alaskan fisherman down to Seattle and makes the statement that they have no winter there to amount to anything and that the Japan current has probably gone astray again.

It was reported right after the great earthquake in Japan that the current had been changed, on account of the weather appearing unusually warm about that time. But what was the matter with the thing last winter when we had about ten days of zero weather and below, if that is the cause of our present warm weather?

It is generally believed among Alaskans that the earthquake caused a change in the direction of the Japan current. Shousthagen said: "Habits of the fish have changed and climate conditions have altered. This winter, for the first time since 1902, there hasn't been any snow. The days are sunny, with the temperature ranging around 45 and 50 degrees."—Genesee News.

Mr. Roy Metcalf of Montana has been appointed as pastor of the Juliaetta and Sweetwater M. E. churches. They drove from Butte in a car in less than three days, arriving in Troy Saturday, at the home of Mrs. Metcalf's parents, her father being pastor of the M. E. church at that place. Just as soon as their household goods arrive they will occupy the parsonage on 4th street.—Juliaetta Record.

A city on the coast, with at least twice the population of Moscow, expresses great satisfaction over the fact that approximately \$600,000 was expended in the community for improvements, private and public, during 1925. The record is a fine one. Moscow, however, has greater reason to be proud, with more than \$700,000 expended in improvements during 1925. To the casual observer it might not have seemed that Moscow was doing much in the way of improvement, but the figures, as compared with the record of other communities of like size, loom big.—Star-Mirror.

Legion Dance Tonight

Canyon Post No. 66, A. L. will give a dance at the Fraternal Temple, tonight, Friday. Chase's orchestra of Lewiston will furnish music. Everyone is cordially invited to attend. Bring your friends.

Death of James Pettet

James Rush Pettet passed away Thursday afternoon of last week, at the home of his niece, Mrs. James Holland at Moscow. Death was caused from cancer. Mr. Pettet was in the furniture business here but sold out last November on account of failing health. Funeral services were held Saturday morning at Moscow, the Elks lodge, of which he was a member having charge of the services.

TIMELY TALKS BY U. OF I. PROFESSORS

Specialists Write on Subjects of Interest

Poultry

In cases of roup where the swelling beneath the eyes is hard it may be lanced and the pus squeezed out. The sore should be washed with an antiseptic. A piece of iodine-soaked cotton, forced into the opening made when the swelling is lanced, will keep the wound open and allow it to heal satisfactorily.—R. T. Parkhurst.

Agronomy

Adapted varieties are increasing the average yield of corn. In Gooding county where special corn breeding and selection work has been directly supervised by the county agent, yields have increased an average of 10 bushels per acre. Registered seed corn will be available for this year's seeding.

Since 1922 there has been a great increase in corn acreage. In that year 52,000 acres which yielded an average of 38 bushels per acre were planted. In 1925 there were 94,000 acres in corn. The average yield was 41 bushels.—C. B. Ashlson.

Livestock

The outlook appears bright now for the man who has a few drafty, round colts running around the barnyard. There seems little doubt that more hopeful price will prevail when these colts are ready for sale. At any rate statistical evidence points to a more encouraging reward for the man who is getting horses than he has had in prospect for some time.—J. E. Nordby.

In The Home

If a child eats the right kind of food regularly, has no decayed teeth, infected tonsils, or adenoids; if he seems to be well, weighs what he should, sleeps well, is not nervous, has a good color clear skin and bright eyes—then his appetite should be a guide as to how much he should eat. If he is abnormal in any of these, have a physician examine him. Find out what is wrong.

Advocate Change in Route 1

All necessary papers, including maps, mileage chart, petition, etc., have been forwarded to Washington by Postmaster Stanton, asking a change in Rural Route No. 1, out of Kendrick. The change is asked on the grounds that it will allow the carrier to travel the best roads that cover the American ridge territory. The present route forces the carrier over the two worst grades. The change, if made, will add about 16 extra patrons to the route and will increase the mileage 3.88 miles.

The new sections of road to be added were measured this week, most of this work being done by chain and the rest by automobile speedometer measurement.

Mrs. Silvie Cook went to Agatha, Wednesday afternoon, to visit her mother, Mrs. Dean Wright.

KENDRICK NEWS 20 YEARS AGO

Taken From Copy of Gazette Published in 1906

James Hutchison of Fix ridge has left for Cuba where he intends purchasing land on speculation.

Judge S. S. Denning and Lawyer Oversmith of Troy were in town on legal business Wednesday.

H. A. Tyler is in from the Teakcan logging camps and reports a total of 5 feet of snow in the woods.

The Gazette office has installed the acetylene gas system and is now equipped for night as well as day work.

Politics are beginning to boil in these ere parts, though principally among the politicians and here are some of the rumors: That Latah county will be bound hand and foot by the Potlatch Lumber Co. and will be absolutely subservient to its wishes; that French and Steele are playing on the same cellar door, but that French is going to drop Steele out of sight. That Moscow's iron Grip on the county offices is now covered with velvet but is there just the same; that the harmony in the republican ranks is more a matter of tradition than of fact. So much for that party. So far, no rumor, to our knowledge, is extant as regards the democracy.

Birds Remain in The North

Boise—Migratory water fowls are 50 per cent below normal in Idaho this season, according to R. E. Thomas, state game warden because the open winter in northern points has kept the birds on the grounds instead of sending them to the Southland. Usually at this time of year the skies are filled with birds winging to warmer climates, where feed is plentiful, many of them making their sojourn around the open sloughs in Ada and adjoining counties.

This does not mean that there is 50 per cent scarcity of birds, Mr. Thomas explained. Hundreds of ducks are now in this region, but are not as plentiful in their migratory flights, with the consequence that the end of the open season, January 15, did not see hunters getting the normal kill as in former years.

Mr. Thomas made this statement Saturday, on receipt of a telegram from E. W. Nelson, chief of the bureau of the United States biological survey, Washington, D. C., who wanted to know whether there was an abundance of scarcity of migratory wild fowl in the state. He also asked to what extent ducks were affected by a sickness that had been reported in other sections. Mr. Thomas said that some ducks had died in Cassia county.

Campfire Girls Organize

The second meeting of the Campfire Girls was held at the Knepper home last Wednesday evening for the purpose of electing officers and perfecting the organization. At the previous meeting Mrs. Edgar Long was elected guardian and Mrs. Geo. W. McKeever, assistant, and at this meeting six ladies were selected by the girls to act as helpers.

Officers were elected as follows: Ernestine Callison, president; Thelma Perryman, vice president; Doris Emery, secretary; Clarice Leith, treasurer. There are 15 members who have signed the roll and a number of others have signified their intention of joining, so that a membership of at least 20 will soon be realized.

The meeting next Wednesday night will be held promptly at 7 o'clock at the Emery home.

Elbert Kuykendall was a Lewiston visitor yesterday afternoon.

IDAHO HIGHWAYS NOT ASSESSED

Last Legislature Makes Radical Change.

For the first time in the history of this state, land included in the public highways will not be assessed to the abutting property owners, the change being brought about by an amendment to section 3101 of the compiled statutes, passed by the senate and approved by the governor on February 25, 1925, says the Tribune.

Before the law was amended, real property for the purpose of taxation was designed to include, among other things, all wagon and turnpike roads and toll bridges.

Throughout the county, it is estimated, no less than \$100,000 in assessed valuation on farm, pasture and orchard lands will be effected, that is the tax return to the county will be less on that valuation, the Lewiston Orchards alone amounting to \$30,000 in assessed valuation on which owners will not have to pay taxes this year.

Under the old law a tract of land lying along a roadway of public use was compelled to pay taxes on the land extending to the middle of the road. In the Lewiston Orchards, an owner, for example, of a corner tract facing a roadway on three sides, would have to pay tax on one-half that roadway for the distance it extended along his property. Assessor James L. Armstrong stated that his field deputies would this year have to carry on investigations as to the amount of highway property involved on which the land occupants would not be assessed, this on account of the road plats of the county not being brought up to date. County Engineer W. P. Hughes, however, is at present working on a survey and by next year the assessor will have full knowledge of every avenue of travel threading the county.

The law provides that when a road has been traveled for five years as a public highway, it cannot be closed to use, this being aside from the large number of strips dedicated to the public. The county assessor has figured that 80 rods of 60-foot road would total 1.81 acres; 50-foot, 1.51 acres; 30-foot, 9.10 of an acre; 25 feet, 3-4 of an acre; 20 feet, 6-10 of an acre, and a 10-foot road, 3-10 of an acre, and 40 and 20-rod stretches in proportion.

Death of John M. Fowler

John Mathews Fowler, age 75 years and a pioneer resident of the Kendrick-Juliaetta community until the past three years, when he made his home near Culesac with his son, William, died last Monday night of cancer of the liver. He had been ill for a number of years with the fatal malady.

Funeral services were held at the William Fowler home, Wednesday, Rev. James of Juliaetta being in charge. Interment was made in the Juliaetta cemetery on the following day.

Mr. Fowler was a native of Kentucky and came to Idaho many years ago, making his home in this community until a few years ago. He is survived by three children, Harry of Kendrick; Mrs. J. D. Stevens, Winchester; William of Culesac.

Returning From India

Word was received here this week by Rev. and Mrs. C. D. Bell that their son, Rev. Wm. Bell and his family would arrive in Seattle from Burma, India, February 4. They will come direct from Seattle to Kendrick for a visit. Mrs. Bell was ordered by her physician to come home for a change of climate as her health has been failing.

Unkissed at 69

There are all sorts of distinctions these days. William Jones, 69 cowboy of Jensen, Utah, says he has never been kissed by a woman, believes this is a record. He was tempted once, he says. That was when he saw a pretty squaw skin a buffalo. "But a little later she was munching a chunk of the raw meat, that cured me forever."

STUDENT ACTIVITIES KENDRICK SCHOOLS

Written For Gazette by Student Reporters

The local high school team defeated Peck high school here last Saturday evening by a score of 32 to 14. It was not a particularly brilliant game but at brief intervals there were flashes of good team work on the part of both teams. At the end of the first half the locals led by 16 to 4.

Roy Sparber, center, was high man for Kendrick with 14 points while G. Berry, forward, with 10 tallies, led the Peck scorers. The lineup was:

Kendrick	Peck
Cook (6) RF (3)	Norris
Brown (12) LF (10)	G. Berry
R. Sparber (14) C (1)	Miller
C. Sparber RG	T. Bery
W. Sparber LG	Lurman

Subs: Kendrick, D. Miller for C. Sparber; B. Dammarell for W. Sparber; Long for Cook.

Referee—E. Flaig, Kendrick.

The standing of the conference teams, as given by the Lewiston Tribune, is as follows:

	Won	Lost	Pct.
Lewiston	3	0	1.000
Reubens	1	0	1.000
Grangeville	9	1	.900
Troy	9	1	.900
Lapwai	3	1	.750
Culesac	3	1	.750
Kendrick	5	2	.714
Orofino	6	3	.666
Nezperce	5	4	.555
Kooskia	5	5	.500
Gifford	2	2	.500
Kamiah	5	8	.384
Craigmont	3	8	.272
Cottonwood	3	8	.272
Pierce	1	3	.250
Genesee	1	6	.143
Winchester	0	4	.000
Peek	0	4	.000
Stites	0	3	.000

JOKES

Ernestine Callison, '26

"Who killed Cock Robin?"
"I did," admitted Prof Kerns.
"He perched on the window sill, listen to my lecture, fell asleep and dropped on the sidewalk. I couldn't help it."

Herman Hartung: "What are you doing?"

Claude Cook: "Don't bother me. I am adding up some figures and every time I look at you I put down zero."

Harley Eichner: "How does the poor working man support himself?"

Dorothy Holt: "I don't know, how?"

Harley Eichner: "With his legs of course."

Arthur Wayland: "Don't you think my new suit is a perfect fit?"

Ernestine Callison: "Yes, it is almost a convulsion."

Organize Sunday School Class

Members of the Presbyterian church, their families and a few friends held a social meeting last Saturday evening in the basement room. A lap supper was served after which instrumental and vocal music was enjoyed. Mr. Raynaldo, instructor of Spanish at the U. of I., presided over the meeting. He brought four students here with him and they furnished some very good musical numbers.

During the evening an adult Sunday School class was organized. E. H. Emery has been elected to have charge of this class, which started off Sunday morning with a membership of twelve.

WEEK'S EVENTS FROM SOUTHWICK

Written For Gazette by Special Correspondent

Walter Triplett arrived home Saturday night from Oklahoma, where he has been for the last three months.

Nels Longteig, Leslie Triplett and Clinton Wright left Sunday for Lewiston to serve as jurymen. Leslie was accompanied by his wife who will visit her parents, Mr. and Mrs. Mel McFadden.

Mr. and Mrs. Fred Whiting spent Sunday at the home of Wm. Henderson.

Miss Jane Ziemann and Esther Beckman of Lewiston spent the week end at their Southwick home, returning to Lewiston, Sunday.

Homer Hayward was a Kendrick visitor Tuesday.

The men who are logging in the timber are very glad to see the snow which has fallen to a depth of four or five inches.

Morrison Cuddy who has been logging at Wright's mill was quite painfully injured one day last week by getting one of his legs caught between two logs. He left for his home in Nezperce the next day.

Jim Cook and wife of Leland spent Sunday at the home of Ben McCoy. They were accompanied home in the evening by Mrs. Cook's mother, Mrs. Locke, who will visit them for a while.

Wm. Whiting and wife spent Sunday with their son, Harold and family.

Given Mustoe and family were the Sunday guests of Mr. and Mrs. Frank Wilmot.

Earl Akin and wife of Cavendish spent Sunday at the home of Wm. Jones.

Rev. Pierson held the quarterly meeting at the U. B. church Saturday evening. He also preached both morning and evening, Sunday. While here he was the guest of Mr. and Mrs. R. M. Wright.

Mrs. Frank Carey and daughter of Cream ridge were visiting at the home of Mrs. Carey's mother, Mrs. E. J. Wells, one day last week.

Nellie Henderson, Francis Farris, Minnie Bunker and Annie Triplett were the luncheon guests of Nadine McCoy, Sunday evening.

Dr. Sealey was called Tuesday to attend Mrs. H. A. Russell who is quite ill.

A party was given at the home of Harold Whiting, Tuesday evening, in honor of the birthday of Harold Whiting and Roy Southwick. At midnight a luncheon was served consisting of cake, coffee, sandwiches and salad. About thirty-six were present and all reported having had a splendid time.

Petrick Sold Residence

Julius Petrick closed a deal this week for the sale of his residence property northwest of the school house, to Mrs. Fern Wornstaff, daughter of J. O. Catlett. Mrs. Wornstaff arrived last Saturday from Canada with her family of three daughters and one son and is now located in her new home. Her husband, a brakeman on the railroad, was killed some time ago in a railway accident.

Mr. Petrick expects to leave soon for Seattle where he will make his home near his son, Ed. He intends to buy property there and while he regrets leaving Kendrick after his many years residence here, two of his daughters and three sons live in or near Seattle, so he and Mrs. Petrick are anxious to be near them.

The third carload of cattle from this point this week is being shipped by Dave Gentry. With three stock buyers, Gentry, Craig and Emmett, buying cattle in this section of the country, it makes Kendrick quite a heavy shipping point for stock.

Studies In English

By Wickliffe R. Smith

Rhetoric,—the science and art of speaking and writing effectively, is, without doubt, the most important subject taught in our high schools and colleges. As a branch of rhetorical culture the discrimination of synonyms holds first rank. Accomplished and scholarly writers and speakers—those whose works bear the imprint of immortality—are as discriminating in their choice of synonyms as the great painter is in his selection of colors. They know well that a slight infelicity in the choice of words mars the beauty of the thought just as a cloud obscures the grandeur of an Alpine scene.

No two words in the English language are always identical in meaning and use. Some have certain common grounds on which they meet, but they soon part company and are not interchangeable.

The master of style knows all the words from which he may choose, and then selects those that most perfectly reflect his thoughts.

"Word-mastery" is within the reach of all who are willing to spend a little time each day in the study of synonyms, and in the correction of common errors found in our every-day speech. For our first lesson let us take this group of synonyms.

Abandon—Desert—Forsake
 Abandon denotes a complete and final giving up of anything. The officer may abandon the ship that is no longer safe. The prospector abandons his claim when he finds out that it is worthless. Abandon is used both in a favorable and unfavorable sense.

Desert means to leave or give up without permission. The traitor deserted his post. The cowardly captain deserts his ship; passengers then abandon it. Desert is commonly used in an unfavorable sense.

Forsake means to leave or turn away from. Like abandon, it is used both in a favorable and unfavorable sense. The scoundrel forsakes his wife and children. The sinner forsakes his ways and lives a Godly life.

Incorrect Sentences
 Just between you and I, he cannot be trusted.
 He bought the book for Helen and I.
 She came down for we two girls.
 Us girls came early.
 Me and him have been here all day.

Correct Forms
 Just between you and me, he cannot be trusted.
 He bought the book for Helen and me.
 She came down for us two girls.
 We girls came early.
 He and I have been here all day.

Marvelous Memories
 Some years ago a well-known pianist gave an exhibition of his marvelous powers of memory by playing without a pause 400 pieces of music without a page of notes before him, and another eclipsed even this feat by similarly playing 1,500 separate compositions during a continuous sitting of 49 hours.

Canaries Once Green
 Canaries in their wild state were green and had louder and clearer voices than the domestic variety. They were first brought to Europe in the sixteenth century.

THE KENDRICK GAZETTE

The Pulse of The Potlatch
 Published every Friday at Kendrick, Idaho, by
 Ralph B. Knepper

Subscription Price - - \$1.50

Entered at the Post Office at Kendrick as second class mail matter.

Herbert Hoover says that washings sent out to our public laundries have increased from 300 million dollars to 750 million. This increase in spite of modern electric washing machines. It denotes any one of a number of things—increased prosperity, economic emancipation of women or maybe kinder and more considerate husbands.

An exchange remarks that the most drastic steps being taken now are the Charleston.

A funny man rarely sees any humor in his own product. A nationally famous comedian recently committed suicide because the world looked so gloomy to him.

A Kendrick woman: "Ernest Thompson Seton had the right idea. He only wanted two vacations a year—of six months each—to roam the country o'er."

In a nearby city a judge recently sentenced a man to pay a nominal fine and ordered him to leave the city. It simply meant this undesirable citizen was shifted to another community, where, as a stranger, he could continue to cause trouble. If this man was not fit to live in one community he is not fit to live in any other. He should be kept where he is known and punished according to the seriousness of his violation of the law. Shifting responsibility is a poor way to enforce the law.

Will Forget You Here

There is no that that could not be expressed differently, no writing with which we all agree. When we actually do things, we invite criticism. If you are worthy, successful, you will arouse envy. If you are incapable, folks will call you a fool. Successful or unsuccessful, people will talk about you. But criticism should only make you pep up and do your best. Unfavorable comment should simply make you more watchful. When you are no longer criticized, you have finished, the world will forget you.—Ex.

Latah Mica Mines

An output valued at more than \$100,000 has been secured from the mica mines located 25 miles northeast of Moscow, in Latah county, and prospects for future development in commercially-paying quantities, of mica deposits in this region are very good, according to pamphlet No. 14, issued by the Idaho bureau of mines and geology under the direction of Dr. Francis A. Thompson, secretary. The pamphlet was prepared by Alfred Anderson, graduate of the Idaho school of mines.

These deposits of mica, or "isinglass," as it is commonly termed, have been known to exist in Latah county for many years and have been worked intermittently since 1888. During the last few years disputes over ownership have caused the mines to remain idle.

"Latah county mica deposits from which commercial production has been affected in the past lie from three to six miles north of Avon," says the pamphlet. "They lie 3400 and 4700 feet above sea level along the crest and western flank of Mica mountain, a steep-sided ridge extending southward from the Thutina range.

"Eight mines in varying stages of development comprise the productive extent of the mica deposits in the county. The mines are the Museovite, so far the most productive, the Bentz, the Luella, the Maybe, the Levi Anderson, the Morning Star, the Sunshine, and the Avon.

"As a producer of mica for commercial uses the Avon district of Latah county is by no means exhausted. Litigation has enforced idleness on the property since 1918. The Bentz, Maybe, Levi Anderson and Luella claims have all preceded mica

in commercial quantities and they are worthy of systematic development. The mica that has been produced has a faint run color and comes in "books" composed of thin transparent sheets which split freely into sheets of uniform texture and thickness. The better "books" have yielded some of the highest grade material found anywhere in the United States in sizes up to 12 by 18 inches. —Star-Mirror.

Body Type in Fowls Is Quite Desirable Point

A bird of good body type must be deep and broad and show great length. She should be well developed in the breast and abdomen. Great length of back and keel is especially desirable. The bird should not be too loose feathered. This is generally shown by loose thigh feathers such as are

shown by the Cochon. The under line should be fairly straight and long. The back should be long and horizontal (level). This, of course, varies with the breed. The Rhode Island Reds have the most level back, while the Leghorns have the most erect. The most desirable top line is the one which is the most horizontal.

The carriage of the bird should show a maximum amount of activity. The legs are generally placed behind the central portion of the body and are straight and wide apart.

A poor-producing hen generally stands erect. There are several outstanding types. These birds may be very shallow and cut away at the breast and abdomen. In the case of beefy individuals, the abdomen appears to be mainly made up of hard fat. Another type is commonly known as "bagging down." This is generally due to a short keel. Most birds with a deformed back are generally poor producers.—University of Illinois.

A Bank Backing Community Interest

This bank is in reality a community business. No longer may a bank be conducted as a purely private enterprise, but as a public institution serving all those within its vicinity in a particularly important capacity.

It acts as a financial power station in the business life of its community, accumulating the deposits of its patrons in a reservoir from which flows out the stream of credit which keeps the industrial wheels of the community turning.

Because of the importance of the part it plays in the community, and the far reaching effect of its service on the welfare and business success of such a great proportion of the residents of the community, a strong, well managed bank, such as this one, receives, and deserves the deep-seated loyalty and support of all within its territory.

YOU need the service of a strong, sound, responsible bank. The community deserves your support of an institution which meets this requirement. We invite your business on this basis.

The BULL'S EYE

Another "Bull" Durham advertisement by Will Rogers, Ziegfeld Follies and screen star, and leading American humorist. More coming. Watch for them.

America is Safe with "Bull" Durham

A gang of Scientists left on a Boat for a year's cruise to study queer kind of Fish in the South Atlantic Ocean. They should have stayed here in New York and went to see and hear what I did the other day, a real Red Bolshevik meeting. They would have seen queer looking Fish there, Suckers, Eels, Flounders, Bullheads, and every Guy that got up was a big mouth Bass. They denounced everything in America, The Weather, The Constitution, White Gloves for Pall Bearers, Mah Jongg, Lower Taxes, Suspenders, Cross Word Puzzles, Shower Baths, League of Nations and Ice Cream Pies. After looking them all over I found what was the matter with them. There wasn't a one of them knew enough to roll his own. How are you going to improve on a Government if you dont know that much. Every man you see pouring "Bull" Durham into his paper, you can bet he is satisfied with America, because its the old right down to earth Americans that do it.

Will Rogers

For Sale: 16 inch fir and pine wood, delivered. Percy Ware. 2

For Sale: Registered roan Durham bull. Claud Craig, Leland, Idaho. 4-2

FARM NOTES
A self-feeder for hens will prove profitable.
The only stock that should be abundantly watered is live stock.
Give the rhubarb bed a liberal application of barnyard manure this fall.
Plow oat and corn land now. Every acre plowed this fall means one less to plow next spring.
Egg production from home is dependent not only upon the ability of the hens to lay eggs, but upon an abundant supply of the kind of food out of which eggs can be produced.
While picking fruit the grower should observe what kinds of insects are bothering the trees. During the winter plans and preparations can be made to resist their attacks next year.

Notice of Sale of Estray Animal
Notice is hereby given that the following described Estray animal will be sold at Public Auction, to the highest and best bidder, on the 4th day of March 1926, at 2 o'clock, p. m., to satisfy the cost of advertising, keeping and sale of said animal, as allowed by law:
One steer about one and one-half years old; reddish black with white spots; horns about five inches long and will weigh about 750 or 800 pounds.
Said animal was taken up by Mr. Bingman on the 18th day of January, 1926. Sale will take place at The Mrs. Ainslie place, about three miles east of Moscow, Latah County, Idaho.
Dated this 20th day of January, 1926.
Charles Summerfield,
Sheriff Latah County. 4-4

Another Pay Roll Lost By Lack of Support

Recently at Pocatello a receiver was appointed for one of the leading candy factories in Idaho. The plant and equipment is in fine condition and modern in every respect and for years the Yellowstone chocolates with their purity and quality have delighted the people of Idaho and surrounding states. In fact outsiders bought them more readily than Idahoans and tourists in the Yellowstone Park demanded those famous candies. Idahoans however, with lack of foresight, bought candy made in other states and paid higher prices for nationally advertised goods. The plant at Pocatello had a large pay-roll and the company contributed to the support of all institutions of the state in taxes as well as in other contributions. The pay-roll which supported several families has been discontinued and that section of the state has lost an institution which brought thousands of dollars annually into the state and built up its taxable wealth.

But the doors are closed now to this factory and the famous brand of candies will no longer be seen and enjoyed by the children of the state. Lack of support by Idahoans closed the plant. Idahoans closed the plant and shut off the pay-roll just as if they had gone in a body and mailed up the front door. Idahoans preferred to pay extra prices for nationally advertised goods and kill Idaho pay-rolls but they were thoughtless in doing so. When Idahoans realize the necessity of supporting Idaho products they will rally to the cause. Already thousands have pledged their support.—Norman B Adkison.

His Confession
She let him in, and he lounged with easy grace into the first chair that went past. "Moggart," he said, thickly, but with great earnestness, "Moggart"—his wife's name was Margaret—I've—I've gotta quickened coshience."
"A what?" she asked.
"A quickened coshience—I've gotta confession t' make."
"You can make it in the morning," she said imperiously.
"I'm going to bed."
"Naw," he protested, with much vehemence. "Can't—can't wait—can't go t' sleep 'ith th' load ommy mind. Been—carryin' guilty secret too long."
"What have you been doing?" she barked. "Tell me quick for heaven's sake."
"Sawful t' think 'bout it. Y—y—y wouldn't believe it of me; Moggart; I've been—"
"Speak!" shrieked the almost frantic woman. "Speak. Tell me all, quick!"

Radios
I have add a line of
HERALDYNE RADIOS
and will have one installed in the shop for your inspection, it is a Neutrodyne tpye of machine. I would be glad to install one in your home for a short trial which will not obligate you in any way if it does not meet competition all things considered.

Alfalfa Hay Very Rich in Protein Substances
Alfalfa hay is rich in protein and mineral substances. It contains other elements which supplement corn silage admirably. A mixture consisting of 300 pounds ground barley, 200 pounds ground corn, and 300 pounds bran will go very well with the silage and alfalfa hay. Feed one pound of this mixture for each 3 1/2 to 4 pounds of 3 1/2 per cent milk produced. Some cows will require a little more feed than this and others a little less. When more than 15 pounds of grain a day is fed a cow, much care should be exercised in determining whether the cow is receiving more than she can take care of.

Rest Room
After visiting various city emporiums the proprietor of Plunk Center's leading grocery has taken some cracker barrels and fixed up a rest room on his side porch.—Louisville Courier-Journal.

Notice of Sale of Personal Property to Satisfy Lien

Notice is hereby given that the undersigned, E. A. Deobald and W. B. Deobald, doing business under the firm name and style of Kendrick Garage, is now in the possession of one Ford Roadster, Motor No. 3850242 and has a lien thereon, together with all equipment thereon, for storage and for repairs in the sum of Seventy (\$70.00) Dollars, and which automobile was left in the possession of the undersigned by Duffield Comedians, and that more than two months have elapsed since the work was done by the undersigned in repairing said Ford Roadster.

Public Notice is therefore given that the undersigned will sell such automobile in the Kendrick Garage on Tuesday, the 26 day of January, 1926, at ten o'clock A. M., at public auction in order to satisfy the amount of said lien of \$70.00, together with the cost of the publication of this notice and the costs of sale thereof.
Dated and signed at Kendrick, Idaho, this 5th day of January, 1926.

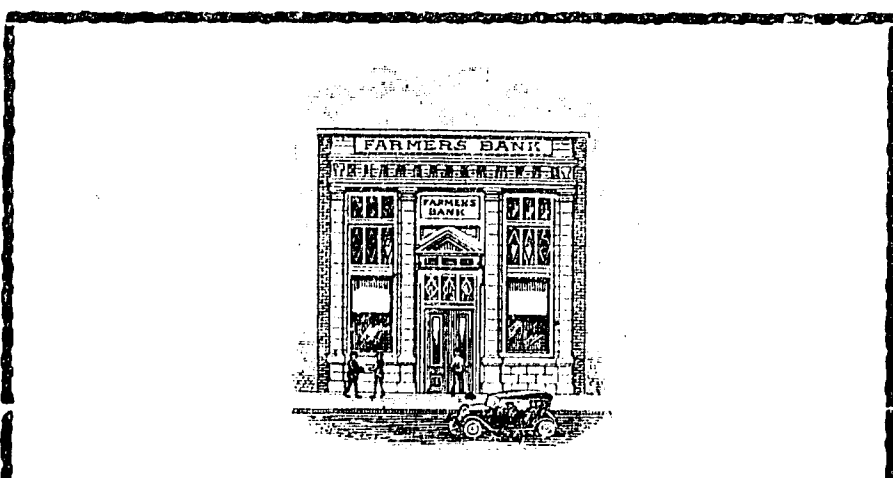

E. A. Deobald,
W. B. Deobald.
Members of the firm of Kendrick Garage. 2-3

OUR HIRED MAN
When I told the boss that I had smashed his truck in town the other day, and that it would cost \$65.00 to fix it up, he said, "The auto giveth and the auto taketh away."
I hadn't milked many cows before I learned it didn't pay to weight a switching tail with a brick. The other night, the boss and the missus had a spat over which was kept the cleanest, the kitchen or the milk house.
"I scrub the kitchen three times a week," says the missus. "And I whitewash the milk house three times a year," says the boss walkin' out of the room.
Now's the time you can tell where the drafts in the barn come from.
Discussing small top milk pails, the boss says, "The milk goes in just as easy—and it's sure harder for the dirt to get in."
Last week we heard a talk by the County Agent on Bacteria in milk—"It's the little things that count," he said.

This Bank was organized in 1907, by the late John P. Vollmer. For nearly nineteen years this institution has been of service to the people of Kendrick and the surrounding territory. During all these years this bank has been a safe depository for the thousands of dollars entrusted with it by the public.

We are today in a better position than ever to serve the needs of our patrons. At all times we are glad to discuss your business problems with you. We invite the farmers of this vicinity to make this Bank their headquarters when coming to Kendrick on business.

Hung
A husband and wife sat on the same jury in Kentucky and—yes, you've guessed it: the jury disagreed.—Lafayette Lyre.

GLEANINGS

Mrs. Frank Benseoter and son, Harry, went to Peck last Saturday to visit relatives.

The Misses Raehael and Matilda Riley returned to their home in Kendrick after enjoying a visit at the O. V. Johnson home near Troy.

G. P. Anderson made a business trip to Lewiston, Tuesday, returning the following day.

Miss Dorothy Stanton spent the week end in Lewiston with friends.

A. K. Carlson was transacting business in Moscow the first of the week.

County Commissioner G. F. Walker returned to Moscow the first of the week where the commissioners are in session. It will probably require part of next week to finish transacting the business that is before them at this quarterly meeting.

Claud Candler of Lewiston visited at the home of his brother, P. G. Candler last Sunday.

Frank Benseoter went to Clarkston last Saturday to visit his daughter, Mrs. Neal Nelson.

Mrs. Wade Keene went to Moscow Monday afternoon to visit Miss Johanna Hooker, who has been very ill.

Miss Joy Bell is visiting home folks this week.

Gus Nelson of the Deary community spent Tuesday night at the home of his brother-in-law, Gabriel Forest. Wednesday afternoon he went to Colton where he will work in a garage for the winter.

Two cars of cattle were shipped from Kendrick this week—one by Claud Craig and the other by B. N. Emmett. It is reported that among these cattle there are many good heifers that would be profitable if kept on the farm.

William Sparber of Potlatch, Idaho, is spending his vacation with his parents, Mr. and Mrs. Fred Sparber.

Mr. and Mrs. James Holland of Moscow visited at the home of Mr. and Mrs. Thos. McDowell, Tuesday afternoon and evening, returning home Wednesday morning.

Mr. and Mrs. Ray Snyder left the first of the week for Lewiston where they will make their home. Mr. Snyder has a position with the Erb Hardware Co.

Mrs. Thos. McDowell received a telegram the first of the week announcing the birth of a son to Mr. and Mrs. Lloyd Stanton, Saturday, January 16.

Miss Maymie Roberts returned Monday afternoon from a visit with relatives in Moscow.

All but about 50 yards of the crushed rock ordered by the town council from E. M. Booth, has been hauled. On account of the soft condition of the roads the trucks had to discontinue hauling until the roads either freeze solid or dry up.

Miss Rena Morey, a former Bear ridge girl, in sending in a change of address for her paper, writes as follows: "My sister and myself enjoy getting the weekly news from our home town and surrounding country very much and do not want to miss a copy."

The text book on Idaho Civics, which is used in the local schools, was written by Fred Lukens, assistant secretary of state and a brother of Mrs. Frank Crocker of Kendrick. In the geography used in Idaho is a picture of the dairy farm of Wm. Cox of American ridge.

Mrs. Frank Ellis returned last Saturday from a business trip to Lewiston.

James Karr Estes, pioneer resident of Moscow, died Wednesday morning at the family home. His death came quite suddenly and was due to his advanced age. He is the father of Edgar Estes of Potlatch ridge.

Mrs. Marvin Long accomplished rather a difficult feat in the way of floriculture by growing five poinsettias from very small plants so that they bloomed during the holidays. Mrs. Long has some of the most beautiful flowers in town.

Harry Ameling of American ridge returned Monday from a week end visit in Moscow.

The Women of Woodcraft installed officers at their regular

meeting last week. A candidate was also initiated and at the next regular meeting two candidates will be taken into the lodge.

L. F. Morley went to Lewiston Monday afternoon on business.

Joday Long was not able to be at the store the first of the week on account of illness.

Mr. and Mrs. Harold Thomas spent the week end in Lewiston at the home of Mrs. Thomas' parents, Mr. and Mrs. J. W. Phillips.

T. H. Daugherty was a passenger on the afternoon train Wednesday for Spokane.

John Dammarell received a telegram from D. L. McClain in which he stated that he had received an appointment on the faculty of Leland Stanford University. Mr. McClain was principal of the Kendrick high school the last school year.

Mrs. Lyle Harrison returned yesterday afternoon from a visit with her sister in Spokane.

Roy Long, son of Mr. and Mrs. Edgar Long, has a problem on his hands. He is a consistent member of the health crusaders in his grade at school but he can't figure how he can go to the picture show on Friday evening and still get his required eleven hours of sleep.

Jack Pickerd of Troy was a Kendrick visitor Wednesday of this week.

E. W. Lutz arrived yesterday morning from Lewiston to attend the annual meeting of the directors of the Kendrick State Bank.

The snow falling this week will be a boon to the sawmill men in the Cedar creek section. There is considerable logging to be done there and the work has been held up on account of insufficient snow to sled the logs to the mill.

Crescent Clippings

The Fred Richie and Henry Brammer families spent last Friday at the Andrew Dorendorf home.

Mr. and Mrs. Wm. Kauder spent Sunday at the Roy Southwick home on Cream ridge Mrs. Kauder remained for a week's visit.

The Bill Dorendorf, I. T. Kimbley and C. L. Trail families were Sunday guests at the Mike Forest home.

George Christensen is helping Clem Israel log this week.

The last word received from Will Darby of Wayene, Alberta, was that he was able to get around a little bit with a cane, after going over the grade with a load of grain a month or six week ago.

Cameron News

Mr. and Mrs. Frank Wilken had as dinner guests, Sunday: Mr. and Mrs. Frank LaBolle and daughter, Carl Hartung and Hannah and Walter Hartung, John Lewis, Miss Stella McClelland, Miss Emma Hartung and Mrs. Ida Stoneburner.

George Wilken went to Lewiston Sunday evening on business. He returned Monday.

Bill Mielke spent Saturday with John Lewis on Fix ridge.

Miss Josephine Wilken spent Saturday at the Carl Hartung home.

Mrs. Albert Schultz, Sr. arrived home after spending a week at the home of Rudolph Kazda in Lewiston.

The infant daughter of Mr. and Mrs. Henry Wendt was christened at the Lutheran church, Sunday.

Miss Marie Schwarz spent Sunday with Irene Meyer.

Mr. and Mrs. Fred Schoeffler spent Sunday evening with Mr. and Mrs. August Meyer.

Rev. and Mrs. Rein had as dinner guests, Monday evening: Mr. and Mrs. Carl Hartung and August, Hannah and Walter Hartung, Mr. and Mrs. Frank LaBolle and little daughter, Mr. and Mrs. William Wolff and sons, and Mrs. Walter McCall.

Mr. and Mrs. August Meyer arrived home from visiting relatives at Spokane.

Mr. and Mrs. August F. Wegner had as dinner guests, Friday evening: Mr. and Mrs. George Wilken, Mr. and Mrs. Fred Newman and children, Mr. and Mrs. Frank Wilken and family and Bill Mielke.

SELECT BREEDERS FOR NEXT SPRING

Now is the time to select the breeding stock for use next spring. This matter is often neglected until it is too late, and when the mating is made, mistakes are liable to be made. In the poultry business, success or failure starts in the breeding pen. If you select your birds for your breeding pen, you will have better stock next year. If they are mated with no selection, you cannot and will not make progress in the poultry business. The object of the breeding pen is to get good, healthy chicks, in the opinion of D. H. Hall, extension poultry husbandman at Clemson college.

In picking the males to breed from, remember that the male is one-half the flock. The male should be of the best type, and have vigor and strength. He should also stand up well on his legs, and possess the characteristics of his breed. For instance, your bird may be a Rhode Island Red in color, but may have a Wyandotte shape, and would not make a good breeder, because this Wyandotte shape would be undesirable in Reds. Do not purchase a fine male and expect him to do all in the flock. Select the very best females to mate with him. In the poultry world at least, the females are as important as the males. A good female breeder should possess a well-proportioned body, and should be deep, broad and long. She should never have the appearance of an undeveloped male, but should always look feminine. The best type shows constitutional vigor and characteristics of the breed.

In selecting the breeders, the breed characteristics should be strong in both males and females. You will never be able to obtain a perfect breeder. Every fowl will have some defects and we must make up for these defects by selecting fowls that are strong where the other one is weak.

Do not expect all the chicks to be up to the standard. According to the laws of breeding, at least one-fourth will be of inferior grade and should be culled out.

Statistical

A man's opinions depend largely on which set of statistics he sees.—Duluth Herald.

Bandmen, Attention!

All members of the Kendrick Band are urged to be present next Tuesday evening, at 8:00 p. m. sharp, as there will be important business transacted. Harold Thomas, Bandmaster.

Kendrick

TONIGHT and Saturday

Richard Talmadge

in "On Time"

This photoplay is built about the young man's rough and bumpy road to success during which he is called upon to surmount such obstacles as a stalled train, a dice-playing valet, an unscrupulous villain who strives to sacrifice the hero's life, a band of masked marauders, an insane doctor who switches the brain of a gorilla to a human being, and many other thrilling moments that will hold your interest to the final fade-out.

Don't forget the Legion dance which will start immediately after the show.

Tremendous Saving in Overcoats and Men's Suits

Kendrick Store Co.

"The Quality Store"

NEW RADIO RECEIVER

Don't buy a radio until you see the new 5-Tube Crossley Receiver featuring

THE NEW CRESCENDON "Knob of Mystery"

Engineers have proclaimed the Crescendon one of the wonders of Radio. With this "Knob of Mystery" it is possible to get any reasonable degree of volume where other 5-tube machines whisper.

This Crescendon control of the detector tube is equivalent to adding MORE tubes of Radio Frequency Amplification.

Distant stations of reasonable power are brought in without use of amplification gained by means of the CRESCENDON but when more volume is desired, a turn of the KNOB amplifies the volume to any reasonable degree. The volume on local stations can be cut down to a whisper without destroying the quality, or it can be built up as greatly as desired without less of perfect reception.

The New Crossley 5-Tube has a real wallop that appeals to those who desire great distance, great volume and perfect selectivity.

NEW CROSSLEY 5 TUBE

Eastern List **\$38.00** Without Accessories

We will make deliveries as soon as machines arrive on Pacific Coast.

Standard Tubes, Guaranteed 1000 Hours \$1.85

Bring your tubes in to be tested. No charge for testing. A poor tube may be what is making your machine work so poorly.
