The Man We Love to Honor

When Harold Moore was a ittler boy than he is now, his mother was giving him a lecture. You should always be exceedingly careful about your conduct," she said. "I want you never to do anything which you would be ashamed to have the whole world see you doing."

Harold let out a whoop of delight and turned a couple of handsprings in the exuberance of his delight.

"What in the world is the matter with you? Have you lost your wits?" demanded Mrs.

"No," was the answer. "I'm just glad because you don't expect me to take any more Saturday night baths."

Rhetorical grace and elegance of sentence structure are distinguishing characteristics of great literary mas-

Synonyms

Talkative, Loquacious, Garrulous: These three words are similar in meaning. But we speak of a talkative child; a loquacious old woman; a garrulous old man. Study their differences carefully.

Explicit, Express: Both these words denote clearness of expression, but the latter is much the stronger word of the two. We make an explicit—statement and give an express command.

Adequate, Enough, Sufficient: Every workman should receive adequate remuneration for his services. The glutton usually gets sufficient food, but never enough.

Incorrect.

Perryman's Confectionery

Cletrac Crawler Tractors

CLETRAC TRACTORS, as we all know have been in use for 10 years, and today there are 40,000 Cletracs in operation-not only in this country-but in seventy foregin lands as well. The Cletrac factory builds nothing but tractors and is now the largest tractor factory in the United States. The growth of their business and the increase of sales has enabled them to reduce the price \$300.25, which makes them slightly higher than a wheel tractor. Their broad tracks make them ride easy and help form a fine seed bed.

The Model W-12-20 handles two 14 inch bottom plows easily. The Model K is a 3-bottom plow tractor. Track trouble is almost a thing of the past, as they are built of the hardest magnazite steel obtainable. Roller and ball bearing throughout, oil air cleaner, high tension magneto and impulse starter. From 1 to 41/2 per hour speed. Plowing speed 31/2 miles per hour.

Model K weighs 4,000 pounds and will pull in pounds at draw bar some 3500 pounds. Model W weighs 3,500. Where this new tractor is demonstrated and known, there are few wheel tractors sold. One county in California has sold over 500 within the past year. These two models are the latest in Cletrac productions -right up-to-date, with the latest improvements.

The new Model K will be here about February 15th, and will demonstrate on set dates, on the steepest hills which can be found. You will see plowing, discing and harrowing and you'll be surprised what remarkable work it will do.

Model W-12-20, all equipped \$1145.00 Model K-15-25, without P. T. O. \$1875.00 P. T. O. Extra For further information see or call

Packing Apples Is Most Important Harvest Task

"Packing apples is a most important part of the harvest," says Prof. Joseph Oskamp of the New York College of Agriculture at Ithaca. "More attention should be given to racking or

shaking the barrel to settle the fruit. "To get a tight pack, rack the barrel after adding each half-bushel. Over-filling the barrel will not take the place of racking, as the apples will settle later on and the pack will

"A common fault in packing apples is to overfill. Contrary to what might be expected, it does not insure a tight pack, and is apt to bruise the fruit all through the barrel. A properly racked barrel needs but little pressing, and the fruit need be but slightly above the top of the barrel before the press is applied.

"If the fruit is of good quality, and the crop is large, a grading machine may be used economically. The sorting table is an important part of the grading equipment and makes grading a quick and sure job.

"The grower should be governed by his own conditions, however, and if there is a large percentage of culls.

This Bank was organized in 1907, by the late John P. Vollmer. For nearly nineteen years this institution has been of service to the people of Kendrick and the surrounding territory. During all these years this bank has been a safe depository for the thousands of dollars entrusted with it by the public.

We are today in a better position than ever to serve the needs of our patrons. At all times we are glad to discuss your business problems with you. We invite the farmers of this vicinity to make this Bank their headquarters when coming to Kendrick on
