

IDAHO UNIVERSITY FARM CALENDAR

Specialists Write on Subjects of Interest

Agronomy

The purchaser of seed should always ask to see the analysis or purity report. The highest purity may not always designate the most desirable seed for seed producing purposes. The purity may be as high as 99.60 per cent and still each pound may obtain 300 to 400 undesirable seeds, such as sweet clover in alfalfa or alfalfa in red clover, or fox-tail in both. The analysis states the number of foreign seeds in each pound.—C. B. Ahlson.

Poultry

Successful feeding of baby chicks for continuous rapid development depends more upon how the chicks are fed than upon what they are fed. They should be given a little feed often and at a regular time. Special care must be given to cleanliness and to guarding against overfeeding. The feeds must be highly digestible, palatable, and wholesome.—R. T. Parkhurst.

Dairying

The United States department of agriculture found from studies of Cow Test association records that for every 50 pounds increase in fat production from 100 to 400 pounds fat per year, the profits over feed cost increased about \$16. The cow that produces 400 pounds of fat in a year thus produces \$64 more profit than the 200 pound producer. One 400 pound cow is worth more than three 200 pound cows because it takes only one-third as long to milk her and only one-third as many stalls to keep her in, which means she produces much more cheaply.—G. C. Anderson.

Plant Disease

If wet seed treatment is used, increase the rate of seeding at least one-fourth to allow for swelling of the seed. Sow as soon after treatment as possible as grain which stands is liable to be injured unless thoroughly dried.—C. W. Hungerford.

Obituary

On Saturday, March 13, David McKinley, the little eight year old son of Mr. and Mrs. D. R. Shoemaker of Crescent, suddenly passed away from this life. The little fellow had been ill but a short time. Leakage of the heart seemed to be the cause of his death.

Funeral services were held at the Cavendish school house, Sunday, March 21, at 2:30 p.m. Rev. Margaret Joy Bell of Southwick officiating. The entire neighborhood joined in assisting in the funeral arrangements.

He is survived by his father and mother, five brothers and five sisters.

May Open Furniture Store

Wm. Leonard of Coeur d'Alene was in Kendrick yesterday looking over the field here with a view of locating. He is a furniture man and at one time was in the furniture business with James Petet, deceased. He has been looking over various propositions for the past two weeks and said that Kendrick looked the best of any, so far. He will make his decision known in the near future.

Fair Enough

After a preacher's physician had served for more than a year without rendering a bill, the preacher asked for a statement of his services. The doctor told the preacher he owed him nothing. "I am one of your parishioners," the doctor added, "and you are one of my patients. We will continue to exchange professional courtesies. You keep me out of hell and I'll keep you out of heaven."—Ex.

KENDRICK WINS ALL BUT ONE

Five Districts in Sectional Spelling Contest.

The sectional spelling contest, held in Kendrick last Saturday morning, with two districts from Bear ridge, one from American ridge, Juliaetta and Kendrick, taking part, resulted in Kendrick winning in all grades except the third, which was taken by Juliaetta.

For the 6th, 7th and 8th grades W. D. McGregor pronounced the words with Miss Beulah Long, Virgil Kerns and Miss L. Halsey as judges. The winners were: 6th grade, Enda Bolon; 7th grade, Jaunita Stanton; 8th grade, Doris Emery.

For the 3rd, 4th and 5th grades Mrs. Helen Jenkins pronounced the words with the Misses Agnes Jones, Hedeon and Holt as judges. The winners were: 3rd grade, LaVern Hutchinson; 4th grade, Margaret Schulze; 5th grade, Mary Johnson.

Improving Baseball Grounds

The first of the week a number of baseball enthusiasts put in some good work on the ball grounds. A front extension or sunshade was built on the grandstand, which will add greatly to the comfort of the spectators at the games. This season the grandstand will afford a cool, shady place for you on Sunday afternoons.

The baseball diamond was moved forward 15 feet, allowing the regulation space from the home plate to the backstop or grandstand. Bases will be fastened down with concrete "anchors," so that players sliding to a base will not be able to pick it up and walk around with it, as has been the custom. Manager Barnum has sent for regulation bases as a part of the new equipment.

Baseball prospects are very bright for the coming season. There is more interest being shown than for many years. The financial and playing organization is being handled in fine shape, down to the smallest detail. With a goodly number of players to choose from, finances already available and keen, active interest on the part of the management, should assure a good baseball year for Kendrick, sufficient to maintain it for another year.

Entertain Women of Woodcraft

Mesdames LaHatt and Thos. McDowell entertained the Women of Woodcraft, their husbands and several guests at a pinocle party in the dining room of the hotel, Wednesday evening. There were 21 present and a most enjoyable evening was spent. After several hours at cards refreshments consisting of banana pie, sandwiches and coffee were served. Those present were Messrs. and Mesdames. Deeter, LaHatt, Bolon, Helpman, Schulze, Emery, Joe Davis, Thos. McDowell, Mrs. Stella Plummer, Mrs. Jennie Plummer, Mrs. Alice Gibson, Mr. G. P. Anerson and Mr. Frank Chamberlain.

The Lewiston high school basketball squad, consisting of ten players and the coach, left Wednesday afternoon for Chicago to take part in the national high school tournament that will be held next week. Lewiston High has the championship of Idaho this year. The expense of sending the team is being paid by Lewiston boosters.

A negro was whitewashing a fence. A passer-by watched him a while and asked: "Sam, why don't you get a brush with more bristles in it?" "Wha' fer?" replied the aged and contented worker. "Why—if you had a good brush you could do twice as much work." "Yeh, but ah an't got twice as much work to do!"—Ex.

Testing the White House Silence

"Silent Cal" Coolidge lived up to his name when a scientific test of the loudness of noise in the vicinity of the White House was made by K. P. Royce with an audiometer. Comparative tests in other parts of the national capital were also made. Photograph shows Mr. Royce with the audiometer at the White House.

Death of Samuel A. Bechtol

This community was deeply shocked by the sudden death of Sam Bechtol, which occurred early Sunday evening. He had been in his usual good health until shortly after eating lunch in the evening, when he complained of a pain in his chest in the region of the heart. Within 40 minutes he was dead.

Mr. Bechtol was held in the highest esteem in this community and during his many years residence here had made a host of friends. He was a member of the local Woodmen lodge and formerly of the Methodist Church, South, but after coming to Idaho was not affiliated with any particular denomination.

Samuel A. Bechtol was born in Marshall County, Indiana, July 12, 1858. In 1897 he moved from Indiana with his family to North Dakota, where he lived for five years. In 1902 he moved to Kendrick, Idaho, which has been the family home since.

One November 7, 1880 he was united in holy wedlock with Mary A. Osborne. To this union were born 7 children, 4 girls and 3 boys. The three sons and daughters, Clarence E. of Corona, Cal.; Elmer E. of Moscow, Idaho; John L. of Lewiston, Idaho; Mrs. Jessie Riley and Mrs. Harry Riley, both of Spokane, and his widow are left to mourn his departure, together with 17 grandchildren and 2 great grandchildren, besides a host of friends. He attained the age of 67 years, 7 months and 19 days.

Services were held at the Methodist church at 10 o'clock Tuesday morning, Rev. E. A. Rein, officiating. Interment was made in the Kendrick cemetery.

Death of Mrs. Cora Aldrich

R. F. Bigham received a telegram Wednesday morning announcing the death of Mrs. Cora Aldrich, better known here as Mrs. Cora Weber. She died in Spokane, Tuesday night. She was a resident of Kendrick about ten years ago and had a wide acquaintance in this community. She is a sister of Wm. Turner of Juliaetta.

Past Masters' Rings

At a recent meeting of the local Masonic lodge it was voted to present each past master now holding his membership in the lodge, with a Masonic emblem ring. There are seven past masters entitled to receive the rings.—H. P. Hull, Wm. Freytag, Neal Nelson, Ralph Knepper, M. O. Raby, M. B. McConnell and R. D. Newton.

LATAH COUNTY NEWS PARAGRAPHS

Items of Interest Taken From Neighboring Papers

New Home Started

Ray Bogar has started work on his new home, on the property opposite the Congregational church. He built the cement foundation last fall and will incorporate the small house in which he lives in the new one. Knight Reid, who will do the carpenter work, went to Potlatch yesterday to buy a carload of lumber for this and a number of other jobs which he has on hand.—Deary Press.

Organize Baseball

At a meeting of ball fans held last Tuesday evening, Wm. Fields and Eben Adams were elected managers, Arnold Behrens, secretary-treasurer, Chas. Noble to see to transportation when the team has a game away from home and Harry Kraemer was elected care-taker of the ball park, and he says one thing sure, no one will be allowed to run their cars across the diamond. The selection of a captain was left to the members of the club when they sign up. The boys are now anxious to secure a few early practice games with outside teams. The outlook now is very favorable for Juliaetta to have a winning team this year as there is a number of very promising young men to pick from.—Juliaetta Record.

Wedding Bells

One of our popular young ladies, formerly Miss Mary Shepherd, surprised her family and friends on her return to Troy last Friday with the announcement that she had been married to Mr. Cecil Blaine of Palouse, at Moscow on Monday, March 8. The news was an entire surprise to everyone but the young people, among whom Mary is a favorite, at once arranged a shower in her honor. About twenty-five of her friends gathered at the home of her parents, Mr. and Mrs. N. R. Shepherd, on Saturday evening, and presented the bride with numerous beautiful gifts. Mr. and Mrs. Blaine were charivariated by an unusually large party at Palouse on their wedding evening.—Troy News.

More Fine Weather

The fine weather has continued for another week and farmers are beginning to get their machinery in shape for spring work. Some plowing has been done on the rim south of town, but it is most too wet in other sections.

Just enough rain has been falling to keep things muzzed up a bit, but it is what will make the grain crop look like a million dollars—and it certainly is looking that way now.

And no wonder the price of gas has gone up—from the number of cars that are making tests of John D.'s product. The roads are crowded, especially the Lewiston Hill highway, which is a wonderful sight at this season of the year, when everything is coming into green and bloom. The picture from the top of the hill can never be forgotten, whether it has been seen once or hundreds of times—and it never grows old.—Genesee News.

Sam Had a Reason

A negro who had an injured head entered a doctor's office. "Hello, Sam! Got cut again, I see." "Yes, sah! I done got carved up with a razor, Doc!" "Why don't you keep out of bad company?" asked the doctor, after he had dressed the wound. "Deed I'd like to, Doc, but I ain't got 'nuff money to get a divorce."—Ex.

WEEK'S EVENTS FROM SOUTHWICK

Written For Gazette by Special Correspondent

Mr. and Mrs. Will Stump returned from Lewiston, Wednesday, where they spent the winter with their daughter who is attending the normal. Mr. Stump reports the roads to be bad. Leaving Lewiston at 1 o'clock they did not arrive at his brother Pete's home near Southwick until 7:30 and had to be pulled out of the mud three times.

Mr. and Mrs. Attlee Mustoe were overnight guests, Tuesday, at the home of Mr. and Mrs. Ray Southwick on Cream ridge.

Ben Davis, Mr. and Mrs. Elton McCoy and Miss Nadine McCoy went to Genesee, Wednesday, where Mr. Davis transacted business.

Mrs. Clarence Henderson came over from Potlatch last Wednesday, for a visit with her parents, Mr. and Mrs. Ralph Wright and other relatives.

Mrs. Harry Smith of Leland spent the week end with her parents.

Mrs. Arnold Cuddy went to Lewiston returning home, Tuesday.

Morrison Cudy and wife of Wright's mill, spent Sunday with Mr. and Mrs. C. C. Wright.

J. W. Henderson and family, Milton Benjamin and wife, Ben McCoy and family, Harry Smith and family of Leland were the guests of Mr. and Mrs. Elton McCoy, Sunday.

Mrs. Chester McIver is visiting her mother, Mrs. Jap Triplett for a few days.

A son was born, Sunday morning, to Mr. and Mrs. Louis Wright.

The little eight year old son of Mr. and Mrs. Dolph Shoemaker of Teakean, passed away last Saturday. The funeral was held at the Cavendish school house, Sunday. Services were conducted by Miss Joy Bell of Kendrick. The body was laid to rest in the Cavendish cemetery.

Mr. and Mrs. Fred Whiting and family spent Sunday at the home of John Hewitt.

Mr. and Mrs. Fred Gehre left Saturday for Sildex, Montana, where Mr. Gehre has employment with the Amazon Dixie mine.

Rev. Geore Calvert and family of Cream ridge were dinner guests of Mr. and Mrs. J. E. Hoppe, Sunday.

The winners in the spelling contest held at Southwick last Friday were: Ruby McCoy, Lucile Whiting and Rupert Hayward in the primary, and Francis Faris and Frank Triplett in Mr. Farley's room.

Miss Alice Winegardner, who is teaching the Crescent school was an overnight guest of Miss Ardella Hartung at the Gorden Harris residence.

Mrs. Souders and Mrs. Kauder of Crescent were business visitors in Southwick, Monday.

Interest Centers in Lewiston

Lewiston was the mecca recently for hundreds of automobile parties from the surrounding region to view the site of the big sawmill and power dam which is getting under way. An estimate was made that during Sunday, March 21, more than 3000 people visited the site. Many brought their lunches and picnic parties at a point convenient to the swift flowing Clearwater river were common.

School Election April 17

According to a notice published elsewhere in this issue, the regular annual school election will be held Saturday, April 17. Three trustees will be elected to serve from 1 to 3 years. Who do you want on the school board?

Gorden Harris and Geo. Holbrook have shipped a carload of heavy horses from Montana and will dispose of them to the farmers of the Potlatch section.

QUEEN OF OZARKS

Barley Used in Laying Mash Meets With Favor

Farmers with barley to be used as poultry feed, might use it to the best advantage by adopting the Cornell scratch grain and mash mixture for laying hens. The scratch grain formula consists of 500 pounds of cracked corn, 200 pounds of wheat, 200 pounds of barley and 100 pounds of heavy oats. If good heavy oats are not available, they advise leaving the oats out of the scratch grain mixture.

In the laying mash 100 pounds of ground barley is used in place of the ground oats usually recommended in a ration of that type. The mash consists of 100 pounds each of yellow corn meal, ground barley, middlings, bran and meat scrap containing 50 to 55 per cent protein. Three pounds of fine table salt should be thoroughly mixed in each 500 pounds of the laying mash.

Exercise for Brood Sow

The brood sow should get plenty of exercise during the winter months. The sow that keeps out of doors most of the time when the weather is good is much more likely to produce a strong litter than the sow that lies around in the barn or shed. A sow that is too fat will not produce a strong litter of pigs—neither will she be able to take as good care of them. Give the brood sows the run of a pasture lot during the winter if possible, and scatter some feed over the ground so they will be induced to take plenty of exercise.

The Drawbacks
The two great drawbacks to the happiness of the motor tourist are the billboard and the board bill.—The New Yorker.

THE KENDRICK GAZETTE "The Pulse of The Potlatch"

Published every Friday at Kendrick, Idaho, by Ralph B. Knepper

Subscription Price - \$1.50

Entered at the Post Office at Kendrick as second class mail matter.

LELAND ITEMS

Mr. and Mrs. Virgil Fleshman and son, Melvin, Mr. and Mrs. Ed Fleshman and Johnnie, Mrs. Asa Calvert and children, Rev. and Mrs. Taber and J. M. Woodward were all in attendance at the District Conference at Juliaetta. The evangelist, Rev. Andrew Starmer was also in attendance on Tuesday.

Denzil Kuykendahl returned Sunday from Rochester, Minn., where he went to accompany home his brother, Albert, who has been doctoring at the Mayo Clinic there.

The farmers are beginning to work in the fields and everything promises an early seedtime and harvest.

Virgil Fleshman has a new Chevrolet ton truck which he brot home last Friday.

Mr. Schu, who spent the past year blacksmithing in Leland, is visiting here again.

Ed Fleshman traded in his old Ford on a Chevrolet commercial car. The old familiar car will be missed on our streets.

The revival at the church has been well attended and the interest is very good and we hope for a lasting good to come from it. The church has been almost full every night. Come and hear the evangelist. Pray for the meetings and come help in this great work.

Studies in English

By Wickliffe R. Smith

If the student of rhetoric would acquire a discriminating taste he must familiarize himself with the objectionable forms of expression—must learn what is incorrect or inelegant in order to avoid it in writing and speaking.

A as a preposition is used before English words; per,—its Latin equivalent,—is preferred before Latin accusatives. We should say five dollars a day; two dollars a bushel; six per cent per annum; per diem.

Adjectives follow verbs of feeling, seeming, existing; as I feel bad; the girl looks beautiful in her new dress; "A rose by any other name would smell as sweet.

Never use adverbs like now, above, once, then, sometime,—as attributive adjectives. It is incorrect to say: He was born in the then territory, the now State of Idaho. The above sentence is from the historian. The once friends of my childhood are gone.

Incorrect Sentences

The above words are misspelled.

She looks beautifully.
The rose smells sweetly.
She speaks fluently.
The horse runs swift.
The birds sing sweet today.

Correct

The words above are misspelled.

She looks beautiful.
The rose smells sweet.
She speaks fluently.
The horse runs swiftly.
The birds sing sweetly today.

Pronounce: obligatory, casual, preparatory, deaf, mirage, prelate, toward, forward.

We wish to express our appreciation for the kindness of our friends and neighbors during our bereavement and for the beautiful floral offerings.

Mrs. Mary A. Bechtol and family.

Parkhurst Advises on Feeding Young Chickens

The inexperienced grower always feeds too soon after chicks are hatched, says Prof. R. T. Parkhurst, head of the University of Idaho poultry husbandry department.

"No feed," he continues, "should be given before the chicks are from 48 to 60 hours old. This delay is to permit the absorption of egg yolk that has previously been taken into the body of the chick before it was hatched. Dip the beak into sour milk or buttermilk as the chick is put into the brooder. In addition to milk, the chicks should have plenty of chick grit, bone meal, and charcoal at their disposal. No water is necessary for the first two weeks if plenty of milk is given. The milk fountain should be cleaned thoroughly at each filling.

"For the first two weeks the young chicks should be fed five times daily with such feeds as dry oatmeal, bread soaked in milk and fed crumbly, or hard boiled eggs chopped up fine, or a little bran. A scratch feed of two parts fine cracked wheat and one part of hulled or "pinhead" oats and two parts of cracked corn, or a good grade of commercial feed can be substituted after the third day. The amount of feed should be regulated so that the chicks will be a little hungry at all times except after the evening meal. A small handful of scratch for each 100 chicks is about the right amount for the first few days for each feed. Besides mash and scratch feed, chopped clover, alfalfa, or sprouted oats is a very satisfactory additional feed."

CAMERON ITEMS

Miss Josephine Wilken spent Sunday with Miss Hilga Ehlers. Sunday afternoon callers at the Carl L. Wegner home were: Mr. and Mrs. George Ehlers and son, Mr. and Mrs. Aug. O. Weg-

ner, and Grandmother Wegner.

Carl L. Wegner and Grandmother Wegner returned from Portland, Saturday.

Miss Josephine Wilken spent Saturday night with Miss Hannah Hartung.

The spelling contest was held at Leland with great success, Friday. The winners from Cameron were: fifth grade, Irene Meyer, second winner; fourth grade, Mildred Wegner, first winner; eighth grade, Josephine Wilken, first winner. They will go to Lewiston, Saturday, the 27th to take part in the county spelling match.

Monday dinner guests at the William Wolf home were: Mr. Carl Hartung and family, Mrs. Frank Labole and children, Mr. and Mrs. Walter McCall.

Mrs. Herman Wilken, Sr. and daughter, Mary, returned from Lewiston, Sunday.

Mr. and Mrs. Frank Wilken and son, Milton, were Sunday dinner guests at the Fred Schoeffler home.

Miss Myrtle Gertje spent Sunday with Irene Meyer.

Sunday dinner guests at the Jake Berriman home were: Mr. and Mrs. Carl Hartung and family, Mr. and Mrs. Frank Labole and children, Miss Emma Hartung, Mrs. Ida Stoneburner, Miss Stella McClelland.

Farm Hints

A legume not only increases the production of crops which follow it in rotation, but provides a valuable feed in itself.

Cribbed corn shrinks on the average about 16 per cent from November to June. Most of the shrinkage occurs during April and May.

Are the brood sows getting plenty of exercise these winter days? Be sure that they also get sufficient protein and mineral matter to maintain their body weight and develop a good litter of pigs.

Fall-sown wheat on a piece of poorish land is a good place to apply winter manure. At the Kansas station only two and a half tons of manure to the acre increased the wheat yield seven bushels.

Tune up the wheel hoe. See that cultivator teeth and hoes are sharp, metal parts well greased, and handles in good condition. Order replacements for broken parts as well as some extra teeth and hoes to have on hand.

Fond of Their Coffee

The native of Algeria takes strong black coffee in the street, purchasing the beverage from vendors who boil it over portable stoves.

McCormick-Deering Primrose

Ball-Bearing Cream Separators

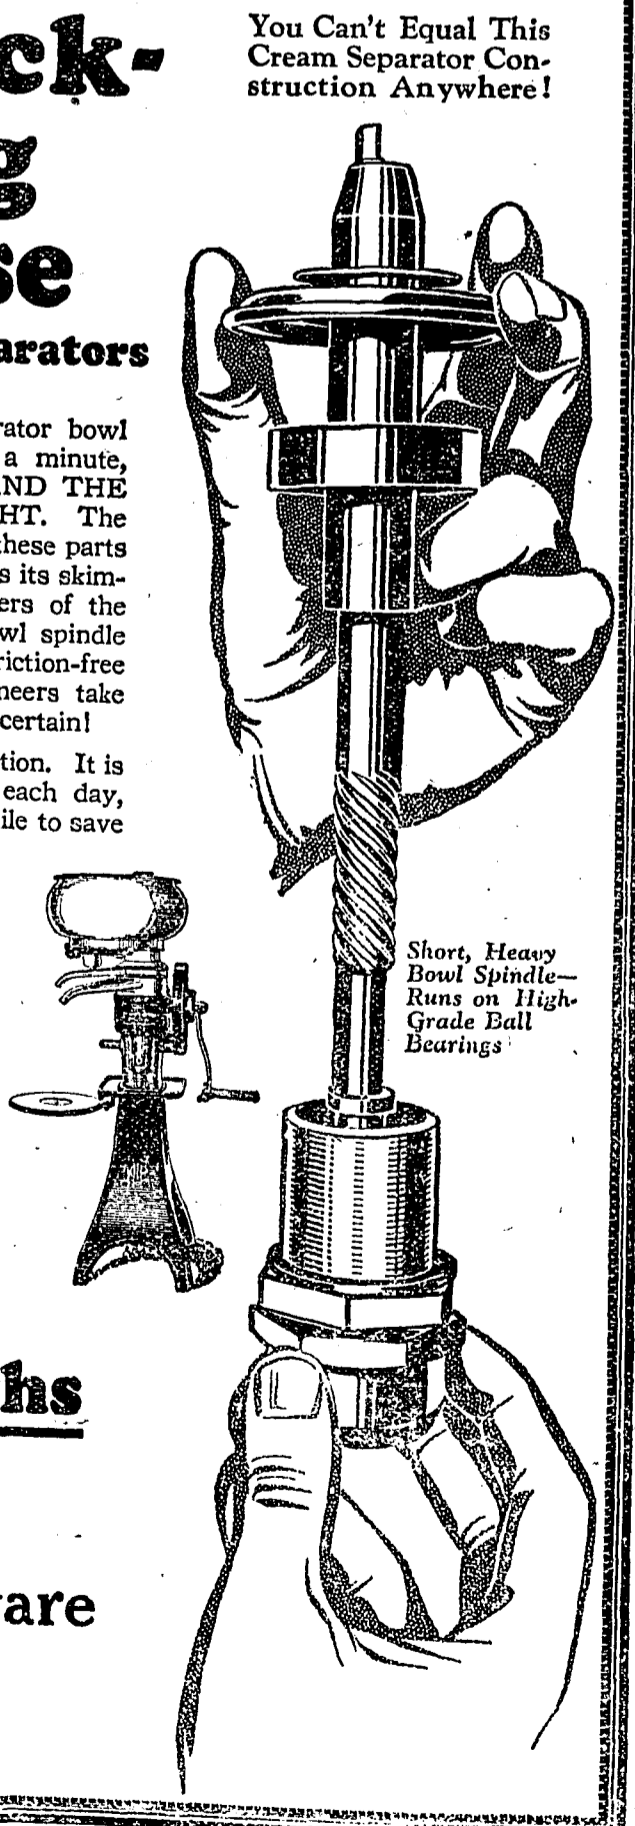

When you consider that a cream separator bowl turns approximately 9,000 revolutions a minute, you realize that THE BEARINGS AND THE BOWL SPINDLE MUST BE RIGHT. The slightest wobble, vibration, or friction in these parts makes the machine turn hard and lowers its skimming efficiency. That's why the builders of the McCormick-Deering Primrose use a bowl spindle heavier than any other and mount it on friction-free ball bearings. McCormick-Deering engineers take no chances—they make your satisfaction certain!

Don't think lightly of the turning question. It is vital. You'll turn your machine twice each day, or 730 times a year. Isn't it worth while to save seven or eight thousand backaches during the life of your machine? Let us demonstrate the Primrose on your farm. No obligation.

(© 1926, Western Newspaper Union.)

It is astonishingly easy to smile when things are going our way—but to smile when the other person is frowning, speak in a low tone when someone else is shouting, and then go home and make no complaint about his dinner, marks a really remarkable man.—Lloyd.

FOOD FOR THE FAMILY

A most attractive salad may be prepared with a grapefruit, an orange and a red skinned apple. Peel the orange and grapefruit and separate into sections, removing all the tough stringy fiber of the fruit. Cut the apple without peeling into eighths, removing the section of core. Arrange a section of grapefruit, then pieces of the red apple, a section of orange, another of grapefruit and apple, making a small hemisphere. Place on lettuce and serve with a spoonful of rich mayonnaise at the side of the salad.

Chili Con Carni.—Take one-half pound of fresh pork, lean and fat; one and one-half pounds of round steak, three good-sized onions, two cans of kidney beans, one chili pepper, two quarts of tomato, salt, pepper, and chili powder—two or three

tablespoonfuls of the powder will be needed. Chop or grind the meat (it is much nicer chopped) brown with the chopped onions, then add all of the other ingredients except the beans, which will be added just long enough to heat through well. Cook slowly for three hours, stirring often. Remove the chili pepper after the dish is well-seasoned with it, or it may be too hot for some tastes.

Sweet Potatoes, Southern Style.—Boil or steam three medium-sized sweet potatoes. Pare, slice and place in overlapping rows in a shallow baking dish. Add to one-half cupful of water, one cupful of brown sugar, two tablespoonfuls of butter, mixed with one-half teaspoonful of cinnamon. Cook these for ten minutes until slurry. Add one-fourth of a teaspoonful of salt and pour over the sliced potatoes. Bake covered for fifteen minutes, then brown.

Prune Whip.—Stew half a dozen prunes with a little sugar in the same water in which they were soaked overnight. Put them through a sieve, add the beaten white of an egg and serve heaped in a glass with a spoonful of whipped cream.

Rather a Different Candy

Aside from always being fresh—there is a different kind of deliciousness about our candy—this seems to have created the wide popularity it enjoys.

Once you try our candy you become a permanent customer.

PERRYMAN'S

Nellie Maxwell

Feed Value of Pumpkins

Pumpkins have some feed value for milk production, and should be fed when there is no market for them. They are of about the same feed value as fat turnips. There is an old tradition that they tend to dry cows up when fed in large amounts. It is considered advisable to remove the seeds when they are fed in any considerable amount, as there is probably more danger of trouble being in the seed than the other parts.

Dehorning Young Calves

When calves are a few days old clip the hair from the buttons where the horns start. This can be done with an ordinary pair of scissors. Secure a stick of caustic potash at the drug store and with it rub the buttons of the horns until the spot becomes quite red, but the rubbing should be stopped before the blood will run from the button. The end of the caustic potash should be inserted in some water before the application is made.

Dairy Notes

A good dairy barn slogan is: "Feed them grain even if they are dry."

In no way can the bills of our dairy farmers be reduced for purchased protein feeds so greatly as through further increase in the acreage of alfalfa, the premier hay crop.

The cost of feeding a dairy cow is now about 15 per cent below a year ago, according to rural economists at the Ohio State university.

In all dairy work, the cost of production may be reduced by the most efficient use and handling of the equipment.

During the extreme cold weather see that the cows and horses have an abundance of bedding—enough to keep them comfortable and clean. Contented cows make fuller milk pails.

Dogs Imported for Breeding Purposes

Conditions Favorable Here for Stock Raising.

(Prepared by the United States Department of Agriculture.)

An interesting sidelight on the breeding of domestic animals in the United States is the number of purebred animals imported for breeding purposes. Most of the live stock in this country is descended from foundation stock from foreign countries, but so favorable are conditions here for stock raising that this country now holds first position in live-stock resources.

During the last fiscal year ended June 30, 1925, according to the report of the bureau of animal industry, more pure-bred dogs were imported than any other kind of pure-bred domestic animal. The official figures are as follows: Dogs, 1,696; cattle, 1,426; sheep, 840; horses, 339; swine, 21; cats, 14. Compared with the preceding year imported pure-bred dogs and sheep show a considerable increase and cattle a decrease. All of the foregoing numbers, department officials point out, are very small in proportion to the total number of domestic animals in this country, which is about 200,000,000 head. The figures are small also in comparison with native pure-bred live stock, which, though only about 3 per cent of the total, number several million head. The United States, though still acquiring small numbers of pure-bred breeding stock from abroad, apparently raises almost all of its finest bred domestic animals.

Food Supply Important for Success With Bees

As it gets warmer, bees will emerge from the hive in search of pollen for brood rearing. Examine the hives some warm day when the bees are flying well; see if there is enough honey for their use. Warm weather last fall led bees to consume more than the usual amount.

That makes it all the more important at this time to keep plenty of food in the hive. The instinct of race preservation is so highly developed in the bees that when the food stores get low the queen stops laying. This, too, comes at a time when the colony should rapidly be building up.

Here is a safe rule: If the stores in the hive drop below 20 pounds, feed honey or sirup. Honey left over from last year may be used. A sirup that will not granulate may be made as follows:

Dissolve two and a half parts of sugar (by volume) in one part of water and one tablespoonful tartaric acid to every twenty pounds of sugar. Care should be taken that this preparation is not scorched and that all crystals are dissolved.

A good way is to reserve at least a shallow extracting super of honey as a food chamber above each colony, using this as a reserve supply throughout the year.

These facts are taken from the bee bulletin of the Ohio State university.

Chance for Improvement of Herd Is Big Problem

The old saying that "a good sire is half the herd" might be truthfully completed with the statement "that a poor one is blame near all of it." The problem of a new herd sire is one which many farmers will be facing this winter. The main chance for herd improvement lies in the introduction of better blood through the sire.

At the Iowa experiment station, by using pure-bred bulls on scrub cows, in the second generation an increase of 130 per cent in milk yield and 100 per cent in fat production was obtained. And many other instances could be cited of the value of a pure-bred sire at the head of the herd.

FARM FACTS

A little attention to the new breeding ram may make him and the attention very profitable investments.

A large percentage of breeding rams that change hands every fall go direct from ram raisers and fitters to farm flocks.

Use tankage and minerals to balance corn in feeding hogs during the fall and winter. There are other feeds that may be used if bought right.

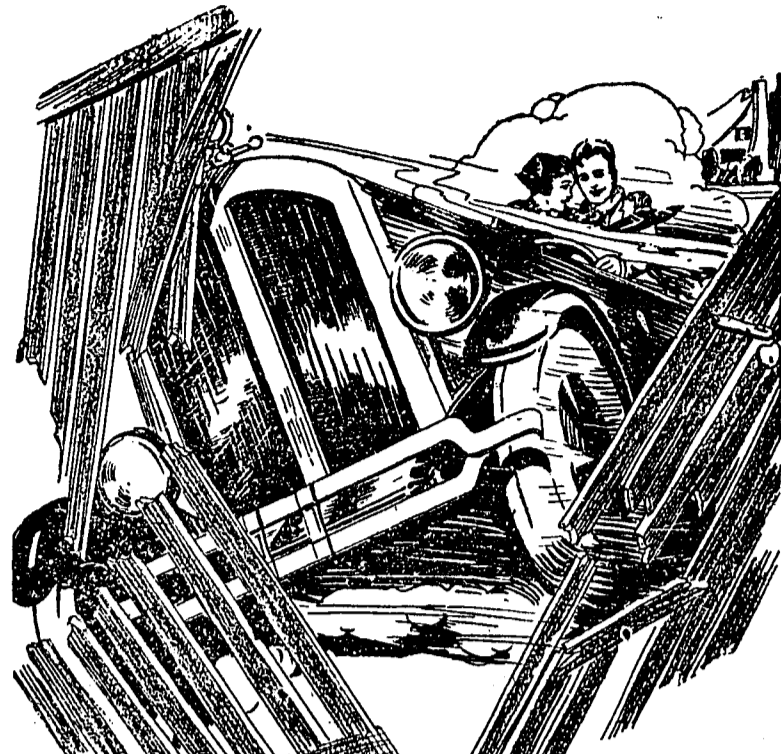

The egg contains a high percentage of protein and ash. They are the important building materials for egg construction. Common grains are very low in protein and ash.

Meat meal or tankage may be fed separately, but it is preferable to mix it with the mash and feed in a hopper so constructed that the birds will not waste the feed picking it over.

A lot of poultry sickness traces to the drinking water. This should be given fresh daily—oftener in summer. And the drinking receptacles ought to be washed and scalded frequently.

Alfalfa is rich in egg making and growth material—that is, protein. Some good poultrymen throw a bale of it into the house with the wires unbroken, for the hens to eat as they will.

TONIGHT And Saturday

Carl Laemmle presents Reginald DENNY and LAURA LA PLANTE in 'The Fast Worker' UNIVERSAL JEWEL

Don't miss this, the fastest, smartest, liveliest love story ever put in pictures. Packed with screaming situations and wholesome fun. Fast? Say, when most men would have been buying candy and flowers, he was complaining about her cooking. He'll take your breath away as he took "Connie's" heart—in ten seconds! It was a case of "Meet and Marry" at first sight! See the course of true love run swift, but not smooth through twenty-four hilarious hours of comedy, love, romance, thrills and screaming situations.

The BULL'S EYE

Editor and General Manager
WILL ROGERS

You Can't Smoke History

A fellow from Carolina wants to know where I get the idea that "Bull" Durham and George Washington come from the same state. He says, "Why don't you write and give the people the real history of 'Bull' Durham in its native State, South Carolina, that people would appreciate that more than these Bull Legends of yours."

Now thanks, Sir, for your good-natured suggestion. If I knew history I wouldn't be able to write "Bull" Durham Ads. I would be a College Professor, get everything right, and get nothing for it. Everything you suggested me telling the public about when and where "Bull" Durham originated, has been told for 66 years by typical Advertising writers. That's the only thing the Company asked of me was "please don't tell again where it came from, or how." You see you didn't read their Ads, but you *did* read mine and remembered it, because it was wrong.

Writing Ads that will be remembered is a queer game. This is an Ad, not a History. I selected Ads over History on account of the pay. (American Tobacco Company's pay is as good as its tobacco.) Where "Bull" Durham comes from or where it goes to is left for the starving Historian.

Will Rogers

P.S. You notice I named in this article the WRONG Carolina. That's so North Carolina will get sore because I named South Carolina, and South Carolina will get sore because I didn't name North Carolina. A true Southerner never forgets.

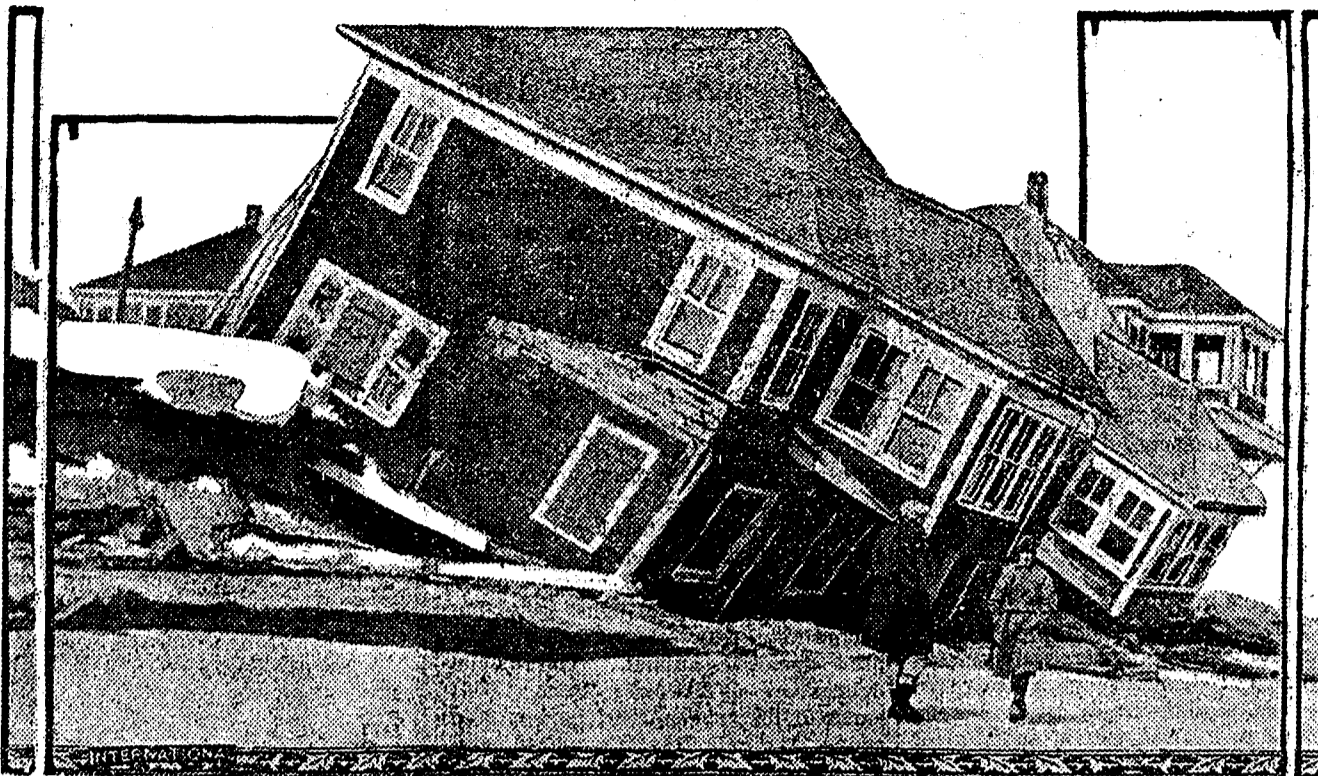

P.P.S. There will be another piece in this paper soon. Watch for it.

Atlantic's Waves Work Havoc in New Hampshire Town

The great storms on the north Atlantic wrought havoc in some of the New England coast towns. This picture shows how houses in Hampton Beach, N. H., were wrecked when the heavy seas broke down the break-water.

FARM POULTRY

RIGHT FEED WILL STOP SOFT SHELLS

At this time of the year no complaint is much more common than that hens are laying soft-shelled eggs. This means considerable loss through a corresponding reduction in the quantity of marketable eggs produced. The causes of soft-shelled eggs are well known to the well-informed poultryman. He understands that the appearance of such an egg is an indication of improper feeding and he governs himself accordingly.

The yolk of the egg is fully formed when it breaks from the hen's ovary and drops into the funnel-shaped mouth of the oviduct. It is at this point that fertilization of the egg takes place, if the egg is to be fertilized, and probably within a few minutes of the breaking loose of the yolk. In about three hours the formation of the thicker albumen is completed, this taking place in the upper and central sections of the oviduct.

The third and last section of this organ secretes the shell membrane, and it also requires about three hours for the shell to form therein. By the

expansion and contraction of the walls of the oviduct the egg is forced forward into the shell gland, where the lime is deposited, and within 12 to 24 hours the egg is laid. One can readily see that anything that would have a tendency to make the egg pass too rapidly through this portion of the oviduct would cause the hen to lay soft-shelled eggs.

The first and usual cause of soft-shelled eggs is that the bird is too fat. The muscular movement of the oviduct is hindered by layers of fat, and instead of the egg being controlled by firm muscles it merely slips through a flabby mass without getting its shell on. The difficulty will vanish if the birds are made to scratch hard in a clean, dry straw litter for all their grain, and the ration fed is not over-fattening. Sprouted oats will be a valuable food, as they are less fattening than either wheat or corn. In some cases it might do well to omit for a few days all mashes, especially moist mashes, if many soft-shelled eggs are coming through.

The second source of soft-shelled eggs is lack of lime in the hen's ration. In this case the shell-secreting part of the oviduct fails to do its work because of lack of material. Oyster shell broken fine enough for the hens to eat or dry granulated bone are good sources for the lime required. It is claimed by some poultrymen that the use of limestone grit also helps to supply material to the hen. It is often recommended that old plaster or mortar be broken or ground fairly fine and thrown into a

box in the pen for the birds to eat.

Keeping Records Shows Profits From Hen Flock

The year 1925 was a good one for the poultryman, who kept close tabs on his flock.

"Profits for the year ending November 1 ran slightly higher than a year ago in most counties I have visited so far for summarizing records," writes G. S. Vickers, poultry extension specialist at the Ohio State university, in a letter sent to the 1,070 Ohio farmers who keep flock records in co-operation with the university.

Indications are that these poultrymen will average 130 eggs or more per hen for the year. The state average is about seventy eggs.

In Medina county the high flock made a net profit of \$3.38 on each hen housed at the start of the year, while the low flock made forty-two cents a hen. The low man cannot possibly maintain the same standard of living the high man can. He has a problem to meet if he wants more of these worldly goods.

Poultry Hints

Eggs can be produced cheaply only from high-producing stock.

No one grain supplies all the feed-elements needed for egg production in the right proportion.

Yellow corn, according to scientists, is better food for poultry as it contains vitamin A which is essential to the poultry diet.

Egg eating is a hard vice to cure. It usually starts from the hens breaking thin-shelled eggs. To prevent the laying of such eggs give the hens plenty of oyster shells. Darkening the nests discourages egg-eating, and more beef scrap in the ration helps to break it up.

Most of the fault found with incubators traces to one big mistake—failure to heed the manufacturer's directions.

The shape or weight of eggs in no way shows what sex the chicks will be, according to Department of Agriculture tests.

You can't afford to fool around with hens if you are hatching for a flock of more than fifty layers. An incubator does the work about as well and at much less cost.

Hotbed Is Help to Early Garden

Protection From Cold Winds and Warm Sunlight Is Important.

To have plants in time for the early garden hotbeds and cold frames may be used by the home gardener with good results. Both of these garden accessories are easily built with small expense.

Place for Hotbeds.
"January is the time to prepare the hotbed over most of the central South," says Robert Schmidt of the department of horticulture at North Carolina State college. "Place the hotbeds in a sheltered spot with a southern exposure. There they will be protected from the cold winds and will receive the warm sunlight. The cold frames should be handy to both the house and the garden, so that they can receive constant attention. The soil in and around the frames needs to be well drained."

Professor Schmidt states that a hotbed six by six feet will be large enough for the average garden. Standard hotbed glass sash are three by six feet and can be bought or made at home.

Heating Material.
Fresh manure containing about one-third straw litter makes the best heating material for the hotbed. The manure must first be piled up under a shed until it begins to heat and should

be turned each two or three days until the whole mass is heating evenly. The pit in which it is placed should be about eighteen inches deep. Pack in the manure to within about four inches from the top and then build the frame out of inch boards to fit over the pit.

Do not put in the seeds until the first heating is over and the temperature has fallen to about 85 or 90 degrees, advises Professor Schmidt. Some moisture must also be added.

The cold frame is made in about the same way as the hotbed except that no heating material is needed. This frame is used to harden off plants from the hotbed before setting them in the open garden. The frame should be covered with a light canvas or heavy muslin.

Proper Food and Light Are Poultry Essentials

Feeds containing vitamin A, and arrangements for direct sunlight to utilize the vital ultra-violet ray are as necessary part of the poultry farm equipment as chicken houses and pens, experiments of recent years at the Kansas State Agricultural college under the direction of the poultry husbandry department and Dr. J. S. Hughes of the chemistry department have shown.

To prevent roup, according to Doctor Hughes, the flock must be fed such things as yellow corn, alfalfa hay, or green leaves—foods which contain vitamin A. Weak legs in growing chicks can be cured by treatment with ultra-violet light either from direct sunlight or from the quartz tube mercury vapor arc lamp. Foods rich in vitamin D also are a corrective for this condition.

Power of Vibrations
A Boston violinist says he can put out a flame with the vibration of his fiddle. But that's nothing. A saxophone slightly off key can put out an entire orchestra.—Cleveland Plain Dealer.

Cletrac TANK-TYPE TRACTOR

Cletrac Power on the Farm ---and More Money in the Bank

CLETRAC power on the farm means more work done at less cost—larger yields from every acre—and greater profits at the year's end. Cletrac Crawler Tractors make light work of the hardest farm tasks. Heavy plowing, discing, cultipacking, seeding and harvesting are all finished in less time—with far greater ease—and at a substantial saving in labor and money when Cletrac is on the job.

POSITIVE TRACTION — NO POWER WASTED

Cletrac power is usable power. The broad tracks prevent slippage—increase traction—and reduce fuel costs. The evenly distributed weight of this modern, powerful, easily-handled tractor means a pressure no heavier than a man's foot. The Cletrac never packs or hardens the ground. Turning easily within its own radius, the Cletrac works "close-up" in corners. It does excellent work on hillsides—travels sure-footedly over soft ground and wet spots—over ice, snow and slippery mud. And its operating cost is remarkably low.

Cletrac Crawler Tractors are made in two models: Cletrac "W," which pulls a two-bottom, 14 inch plow easily, and Cletrac "K," the latest model, which handles perfectly a three-bottom 14 inch plow. Write us today for complete details and actual working views of these two labor-saving tractors that can earn big dividends throughout a long lifetime of thoroughly dependable service.

THE STATE OF IDAHO SENDS GREETING To the above named defendants. You are hereby notified that a Complaint has been filed against you in the District Court of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature and general terms of which is to require each and all of the above named defendants to appear in the above entitled cause and to set forth any right, title or interest that said defendants or either of them may have or pretend to have in and to the above described real estate, and to quiet the title thereto in the name of the plaintiff. And you are hereby directed to appear and answer said Complaint within twenty days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer said Complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said Complaint. Witness my hand and seal of said District Court, this 20th day of February, 1926.

NOTICE OF FORECLOSURE SALE

Order of Sale and Decree of Foreclosure and Sale. William J. Tierney, Executor of the Estate of Thomas Tierney, deceased, Plaintiff vs. Lillian M. Jones and George L. Jones, her husband, Defendants. Under and by virtue of an order of sale and decree of foreclosure and sale issued out of the District Court of the Second Judicial District in and for the County of Latah, State of Idaho, on the 17th day of March A. D., 1926, in the above entitled action wherein William J. Tierney, Executor of the Estate of Thomas Tierney, deceased, the above named Plaintiff obtained a judgment and decree of foreclosure and sale against Lillian M. Jones and George L. Jones, her husband, Defendants, on the 17th day of March A. D., 1926, for the sum of \$1474.05 in United States gold coin, besides interest, cost and attorney's fees, which said decree was on the day of A. D., 1926, recorded in judgment book of said court, at page I am commanded to sell all that certain lot, piece or parcel of land situated, lying and being in East Moscow precinct, County of Latah, State of Idaho, and bounded and described as follows: South half of the Northeast quarter of Section Thirty-two (32) in Township Forty (40) North of Range Four (4) West of the Boise Meridian.

SUMMONS

In the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah. A. W. Behrens, Plaintiff,

Benjamin F. Aldrich, and Almira Aldrich, his wife, Thos. H. Peirce and Anna M. Peirce, his wife, Frank Housal, Lucy J. Aldridge, Chas. G. Aldridge, C. Hopf, Allen F. Aldrich, Charles Noble and Minnie Noble, his wife, Oscar H. Dasch, Isabel Dasch, J. L. McClanahan, Sarah C. McClanahan, his wife, and all unknown owners of and all unknown claimants to the following described real estate situated in Latah County, State of Idaho, to-wit: All of Block 3 of Aldrich's Addition to the Town of Juliaetta according to the recorded Plat thereof; Also the following tract of land to-wit: Commencing at the Southeastly corner of said Block 3 of Aldrich's Addition to the Town of Juliaetta, running thence in a Northwesterly direction along the Southwesterly boundary line of said Aldrich's Addition to the Town of Juliaetta 272 feet, more or less, to the West line of the Southeast quarter of section 4 in Township 37 North, Range 3 West of the Boise Meridian, running thence South on said West line 400 feet, running thence at right angles East 208 feet, more or less, to the County Road, running thence at right angles North 256 feet, more or less, to the said Southeast corner of said Block 3, or to the point of beginning; Also the perpetual water right as given and granted in a certain deed of record in book 32 of Deeds at page 102 of the records of Latah County, State of Idaho, Defendants.

THE STATE OF IDAHO SENDS GREETING To the above named defendants. You are hereby notified that a Complaint has been filed against you in the District Court of the State of Idaho, in and for the County of Latah, by the above named plaintiff, of the nature and general terms of which is to require each and all of the above named defendants to appear in the above entitled cause and to set forth any right, title or interest that said defendants or either of them may have or pretend to have in and to the above described real estate, and to quiet the title thereto in the name of the plaintiff.

Department of The Interior U. S. Land Office at Coeur d'Alene, Idaho, February 17, 1926. Notice is hereby given that, as directed by the Commissioner of the General Land office, under provisions of Sec. 2455, R. S., pursuant to the application of Joseph F. Cook, Serial No. 012386, we will offer at public sale, to the highest bidder, but at not less than \$3.75 per acre, at 10 o'clock a. m., on the 29th day of March, 1926, next, at this office, the following tract of land: Lot 8 of section 14, T. 37 N., R. 2 W., B. M.

The sale will not be kept open but will be declared closed when those present at the hour named have ceased bidding. The person making the highest bid will be required to immediately pay to the Receiver the amount thereof. Any person claiming adversely the above-described land are advised to file their claim, or objections, on or before the time designated for sale.

William Ashley, Register. Non-Coal Lands. 9-5

Public notice is hereby given that on Monday the 19th day of April A. D., 1926, at 2 o'clock P. M. of that day, in front of the Court House door of the County of Latah, I will, in obedience to an order of sale and decree of foreclosure and sale, sell the above described property or so much thereof as may be necessary to satisfy said judgment, with interest and costs, etc., to the highest and best bidder, for gold coin of the United States. Dated this 20th day of March, 1926. Charlie Summerfield, Sheriff. By Geo. K. Moody, Deputy. 13-4

Monday the 19th day of April A. D., 1926, at 2 o'clock P. M. of that day, in front of the Court House door of the County of Latah, I will, in obedience to an order of sale and decree of foreclosure and sale, sell the above described property or so much thereof as may be necessary to satisfy said judgment, with interest and costs, etc., to the highest and best bidder, for gold coin of the United States. NOTICE OF ANNUAL SCHOOL MEETING AND ELECTION

In Joint Common School District No. 24, Latah County, Idaho.

Notice is hereby given, That the Annual School Meeting of Joint Common School District No. 24, County of Latah, State of Idaho, will be held on Saturday the 17th day of April, 1926, and the said meeting shall convene at 1 o'clock P. M. on said day and continue uninterrupted until the business properly coming before said meeting is disposed of, at the school house in said district; that at said meeting the following business will be transacted: 1. One trustee to serve a term of three (3) years; one trustee to serve a term of two (2) years; one trustee to serve a term of one (1) year, will be elected. 2. The length of time school shall be taught in said District for the ensuing year and the seasons of the year in which the same shall be taught will be determined. 3. That at the said annual meeting in said District there will be determined the amount of money to be raised by special taxation, the levy

for which purpose shall not exceed ten (10) mills on each dollar of taxable property of the District, and shall determine the purposes for which the money derived therefrom shall be expended, naming in each instance the proportion of the whole amount which is to be used for the various and separate purposes. 4. That at said meeting general questions pertaining to school and school interests will be taken up and disposed of.

The name or names of all candidates for election of trustees together with the term for which nominated shall be placed on file with the Clerk of the Board of Trustees at least six (6) days prior to the day of election, excluding the day of election. That the election at said meeting will be by secret and separate ballot. Dated this 22nd day of March, 1926.

A. K. Carlson, Clerk of Joint Common School District No. 24, of Latah County, Idaho. 13-3

SUMMONS

You and each of you are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, by the above named plaintiffs, of the nature in general terms as follows: To quiet title to the above described lands and premises in plaintiff.

And you are hereby directed to appear and answer the said complaint within 20 days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint. Witness my hand and the seal of the District Court of the Second Judicial District of the State of Idaho, for Latah County, this 20th day of March, A. D., 1926.

HARRY A. THATCHER, Clerk. By Adrian Nelson, Deputy. Hanna, Miller & Hanna, Colfax, Wash. Frank L. and Latham D. Moore, Moscow, Idaho, Attorneys for Plaintiffs. 13-6

Time to Apply Manure

Midwinter is the time of the year when both the garden and orchard should be covered with barnyard manure. If it is hauled out and distributed as it is made about the barns and sheds, the soil will absorb nearly all of the plant nutrients contained in it. Twenty tons per acre for the vegetable garden and bramble patch and five to ten tons per acre for the orchard make a fair application.

Handling Seed Corn

Seed corn should be carefully sorted and prepared for planting during the slack winter months. It is an excellent plan before this is done to take kernels from 100 or 200 representative ears for a germination test. This will frequently give valuable indications as to how much sorting must be done. The state seed laboratory at Manhattan, Kan., will germinate the samples free of charge.

Time to Fight Scale

Again it is the time of year to spray the orchard for San Jose scale. This can only be done while the orchard is dormant, and the best time is in the late winter. A strong spray can be applied at that time, which will kill the scale but will not injure the tree. Oil scaleclides are most suitable and most effective.

Great Lawyer-Presidents Van Buren and Benjamin Harrison are considered the greatest lawyers who have been President of the United States.

GLEANINGS

Claud Craig of Leland shipped two carloads of fat steers, Friday of last week.

Gus Biehmier is moving from his home in Moscow to his ranch on Texas ridge, this week. His wife and children will stay in Moscow until the end of the school year.

Miss Beulah Long came up from Juliaetta last Saturday to spend the week with her parents in Kendrick.

Mr. and Mrs. G. M. Lewis of Coeur d'Alene arrived last Friday on the night train to visit friends and relatives here. They drove their car as far as Troy and came the rest of the way by rail, on account of muddy roads.

Mrs. McDowell announces that she will open the hotel dining room the first of April.

R. W. Bigham came down from Bovill last Friday to visit his father for a short time.

Miss Esther Gardner was a Moscow visitor Friday afternoon of last week.

A public sale is advertised to take place in Kendrick, Saturday, April 3. The sale consists of livestock, farm machinery, etc. and will be put on by DePartee, Candler and Boyd.

J. E. Pickerd of Troy was in Kendrick with his new ambulance and funeral car. It was put out by the Hudson Motor Co. and is the latest type. It is too bad that those of us who, in the future, may have an opportunity to ride in this beautiful, luxurious car, will not be able to enjoy it.

The band held an unusually good rehearsal last Tuesday evening, with the largest attendance since last fall. Splendid progress is being made and interest is growing from week to week. There will be some splendid concerts here during the spring and summer seasons.

F. O. Randall of Lewiston, district manager of the Mutual Life Insurance Co. of New York, with headquarters at Lewiston, was transacting business in Kendrick last Tuesday.

Martin Thomas was transacting business in Moscow the first of the week.

Earl Barton and Elzie Oylear of Moscow were Kendrick visitors Tuesday of this week.

Mrs. C. D. Bell, who has been quite ill for some time, was taken to Spokane the first of the week for hospital care. She will probably remain there for two weeks. Rev. Bell and daughter, Miss Joy, accompanied her there, returning home Wednesday on the night train.

Mrs. Louise Maxwell of Lewiston, Maine, is spending the week at the home of Mr. and Mrs. H. P. Hull.

Mrs. Hugh Stanton returned home Wednesday afternoon from Lewiston where she underwent a mastoid operation some time ago. She is very much improved in health.

Louis Westacott of Spokane was a guest at the home of Mr. and Mrs. R. H. Ramey, Tuesday.

Carl Carlson was a Moscow visitor the first of the week.

Elbert Kuykendahl returned last Sunday from Rochester, Minn., where he went to take treatments at the Mayo Clinic. Mr. and Mrs. Deniz Kuykendahl went to Rochester some time ago to accompany him home. He is still quite seriously ill.

The ladies aid of the Presbyterian church will hold a cooked food and fancy work sale, Saturday, April 3, in the room next door to Perryman's Confectionery. The sale will continue from 10 o'clock until 4.

Born to Mr. and Mrs. P. L. Huddleson, Tuesday morning, a son.

Wesley Thomas arrived yesterday morning from Clarkston to visit his brother, Martin.

E. A. Deobald and Herman Schupfer went to Lewiston yesterday afternoon and drove back in a new Chevrolet car.

Engineer Van Arsdol is expected here within the next few days to make the survey on the Bear ridge road, providing the weather holds good. He notified G. F. Walker to that effect. There is keen interest in this Bear ridge road project and the residents of Kendrick highway

district are anxious to get the survey completed.

The approaching marriage of Ralph Fenton, formerly of Kendrick, now living in New York City, has been announced. The wedding will take place next month.

Joe Gardner, manager of the Kendrick tennis club, has started putting the court in shape for the season. The club is in a flourishing condition with dues paid up and finances on hand sufficient to maintain the club for another year.

Big Bear Ridge

D. Hunter returned to his home at Peck, Tuesday, having visited at the home of his daughter, Mrs. Wade Keene.

Mr. and Mrs. Lewis Aas of Deary were Sunday visitors here.

Mrs. Otis Gentry entertained the Ladies Guild, Wednesday afternoon.

Dwight Ingle came down from Moscow to spend the week end with home folks.

Mrs. Stuart Compton and children returned to their home in Orofino, Sunday, having visited with her parents, Mr. and Mrs. N. E. Ware.

Mr. and Mrs. Louie Hunter and little son of Peck have been visiting at the home of his sister, Mrs. Wade Keene.

Mrs. James S. Nelson was called to Spokane last week, by the serious illness of her sister, Mrs. D. Stevens, who has been taken to a hospital there.

Gustav Nelson spent last week with his father, Anton Nelson, before leaving for Sunburst, Montana.

Miss Butler closed a very successful term of school at Rimrock, Friday. A picnic dinner and hike was greatly enjoyed by the pupils, their parents and a number of guests.

Miss Agnes Jones of American ridge spent the week end at her home.

Inter-County Fair

At a meeting of the committee from the Moscow chamber of commerce with the president and other officers of the Whitman County Fair association, held at Palouse, Wednesday afternoon, definite arrangements were made for the organization of the Whitman-Latah County Fair and Livestock Show, to be held annually at Garfield.

The committee from the Moscow chamber of commerce consisted of Herman N. Wilson, chairman; Dean E. J. Iddings and George N. Lamphere. The Whitman County Fair association was represented by the president, W. K. Whittaker, of Pa-

louse, and Houston McCroskey of Garfield. W. L. Stephens, district boys' and girls' club leader and Professor C. W. Hickman, head of the department of animal husbandry at the University of Idaho, were also present at the meeting. All present were enthusiastic over the plans for a two-county fair, which will make the fair one of the largest and most important in the Inland Empire.

The organization will be incorporated as a non-profit corporation, and the meeting Wednesday authorized the selection of 11 additional directors, from Latah county, Whitman county having an equal number. The directors will be selected from the various communities in the county, the plan being to call community meetings to select directors in the several communities. The details of this work will be looked after by W. L. Stephens, boys' and girls' club leader.

The fairs will be held at Garfield, which is centrally located for both counties, and which has one of the best fair grounds in the Inland Empire, with sufficient buildings to take care of large exhibits, and with an excellent half-mile race track.—Star-Mirror.

Kentucky County Is Rid of Scrub Sires

First Community in Country to Accomplish Feat.

(Prepared by the United States Department of Agriculture.)

The manner in which Union county, Ky., disposed of its last scrub bull is described by County Agent R. O. Wilson in a report received by the United States Department of Agriculture. A survey made early in the year showed that cattle owners in Union county had in use 103 pure-bred bulls, 22 grades and seven scrubs. Through publicity and personal interviews with owners of grade and scrub bulls, the county agent succeeded in getting the last scrub bull in the county removed during the year. Of the 22 grade bulls only four remained, and their owners are planning to replace them with pure breeds. This county appears to be the first in the United States entirely free from scrub bulls, and it is very close to a pure-bred sire basis with respect to its breeding stock. The present status is the result of five stock betterment work started five years ago by County Agent L. C. Brewer.

On January 1, 1926, 550 live stock owners in this county were participating in the "Better Sires—Better Stock" campaign conducted by the various states and the United States Department of Agriculture. All of these stock owners have agreed to use pure-bred males exclusively in all breeding operations. Material financial benefits already are evident in the superior quality of the on-coming young stock.

SPECIAL ON FLOUR

Now is the time to stock up on flour before the spring work starts in

- "400" per barrel - - \$7.80
- Princess per barrel - - \$7.60
- Asotin Best per barrel \$7.40

Men's and Young Men's Your Spring Suit is Here.

Kendrick Store Co.
"The Quality Store"

Mansfield Heavy Duty Cords
Built to Over-Serve

Built by an old tire manufacturer who has made a record for himself by operating at full factory capacity continuously since 1912.

The first tires sold by the Carlson Hardware Company in Kendrick, were Mansfields, which were sold to Dr. Hoyt in 1916.

This tire has been distributed thru hardware trade exclusively for 18 months, all factory branch houses being eliminated. This method of distribution costs 30 per cent less than old branch house method and this saving in distribution is put

back in the tire in the form of a larger, heavier and better built tire.

We sold more tires in 1925 than we did for many years prior. During the year 1925 we were not asked to make an adjustment on a Mansfield tire or tube, which speaks volumes for quality of this super-tire.

Prices no higher than other tires so buy the tire that gives you most miles in service
