

## KENDRICK BEAN-HOERS LOSE TO SANDEATERS

### Clarkston Hangs Another Scalp To Their Belt.

Kendrick had an unlucky day last Sunday and lost to Clarkston by the wide margin of 15 to 5. The visitors ran in 6 the first inning on a combination of hits, walks and errors on the part of the locals. While Clarkston made 11 errors to Kendrick's 8, the Sandeaters had the good fortune to have them occur at times when they were not costly.

Case for Clarkston pitched 6 innings and was relieved in the 7th by Smith. Meyer did the pitching for Kendrick for 6 innings and Harland was then substituted.

Kendrick had a good line-up for Sunday's game but evidently got off on the wrong foot. Forest was not in the game and his place on first was handled in good shape by Brown. Flaig at his old stand on second base played an air-tight game.

The following is an outline of the game:

	Ab	R	H	SO	E
Clarkston	6	3	2	0	0
Munden, rf.	6	2	2	1	2
Smith, 3rd.	6	2	0	3	4

Kendrick	0	0	0	2	1	0	1	1	0

Meyer for Kendrick allowed 8 hits, walked 3, struck out 2, hit by pitched ball 1.

Harland for Kendrick allowed 5 hits, walked 1, struck out 3, hit by pitched ball 1.

Case for Clarkston allowed 6 hits, struck out 3, hit by pitched ball 1.

Smith for Clarkston allowed 1 hit, struck out 4.

Umpires: Ramey and Green.

The results of the other league games played last Sunday were as follows:

Julietta defeated Culfadac at Culfadac by a score of 3 to 1.  
 Lapwai defeated the Clarkston Heights team at Clarkston by a score of 11 to 3.

League Standing			
Team	Won	Lost	P.C.
Clarkston	4	0	1.000
Lapwai	4	0	1.000
Julietta	2	2	.500
Kendrick	1	3	.250
Clarkston Heights	1	3	.250
Culfadac	0	4	.000

The Clarkston Heights have taken over the franchise of the Lewiston Red Sox who have withdrawn from the league.

Sunday May 23: Kendrick at Lapwai; Culfadac at Clarkston; Clarkston Heights at Juliaetta.

### Julietta Commencement

The commencement exercises of the Juliaetta high school will be held at the Juliaetta Methodist church tonight. There are three members in the graduating class: Miss Grace Evalyn Hoskins, John Carlton and Louis Reichman.

### The Baccalaureate Service

A most impressive baccalaureate service was held at the Methodist church last Sunday evening. The sermon by Rev. Rein was a splendid one and was full of good thoughts for the members of the class to carry away with them. Special musical numbers were furnished for the occasion.

## WOULD IMPROVE RURAL SCHOOL

### Favor Four-Year High School For Southwick.

A mass meeting of residents of six school districts in the Southwick community held Saturday evening at the Southwick school was unanimously in favor of a joint rural high school for that place and petitions are to be circulated for presentation to the county commissioners in Clearwater, Latah and Nez Perce counties at their July session, asking for special election, says the Tribune. The consensus of opinion is that a full four-year high school, the first on the entire Potlatch ridge, will be initiated with the beginning of the fall term.

The meeting was attended by 200 people from the following districts: Teakean, Betts and Crescent in Clearwater county; Southwick, in Nez Perce county, and Grinolds, joint Latah and Nez Perce county district, and Cavendish, joint Nez Perce and Clearwater district.

County Superintendent Miss Nellie Buckles, of Nez Perce, and Miss Evelyn Merwin, of Clearwater county, were present and spoke in favor of the consolidation, pointing out the benefits to be derived from the union, and the saving to people of the district.

Pupils from the entire Potlatch ridge will be eligible to attend this high school and this is one of the largest territories in the three counties not being served by a high school. At the present time pupils must go 16 miles to Kendrick or 22 miles to Orofino for their high school work. Leland is also making an effort to form a high school, but it is pointed out that the Potlatch ridge could easily support two large high schools, if necessary, from the very large school population.

George Brammer, Gifford, and James Crow, Culfadac, officials of the Nez Perce County Teachers' association, were present and spoke of the experiences of their communities in forming rural high schools and of the benefits of good schools to the community.

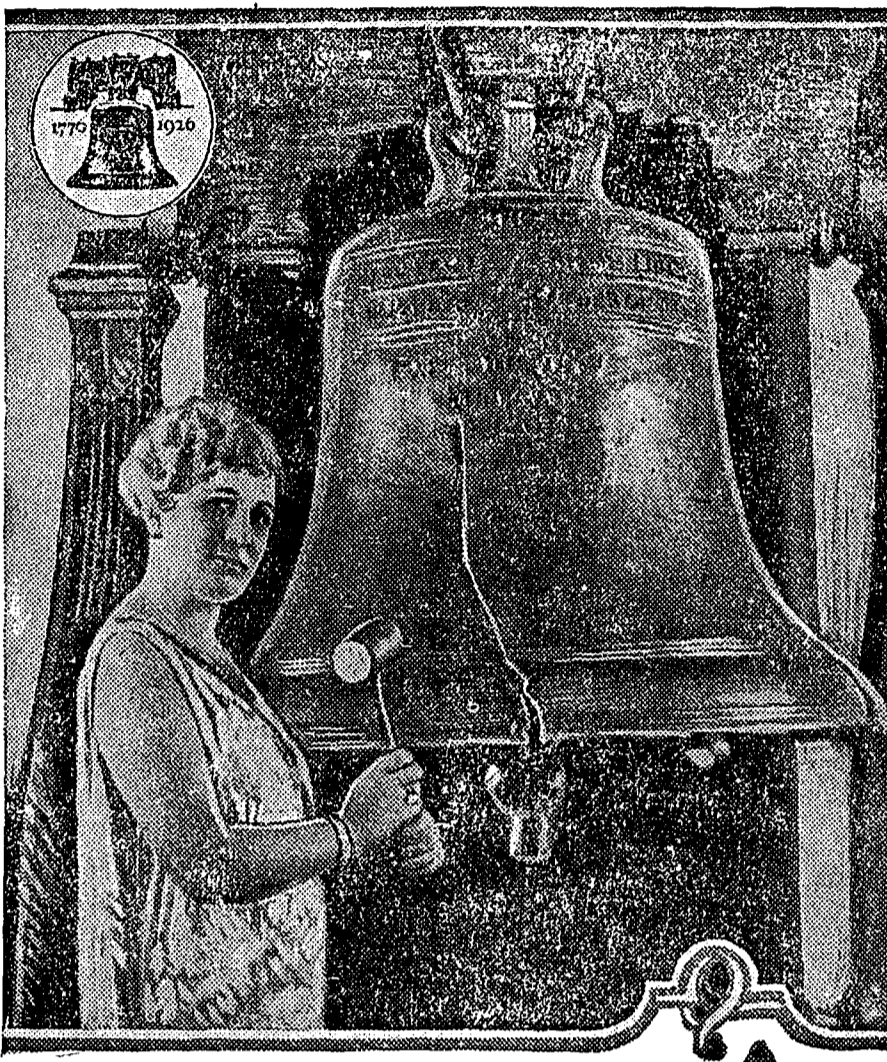

D. D. Wright, clerk of the Southwick school board, presided and called upon trustees from each of the interested districts, and also upon prominent residents of the communities to be served. All talked in favor of the consolidation, an when the vote was taken to determine how the people felt about the proposition, the entire gathering rose with a cheer.

Each district will now circulate a petition, which petition will be presented to the county commissioners in the county in which the district is located not later than 20 days before the July session. These petitions will be passed upon by the county commissioners and if approved the commissioners will call the special elections. The results of the elections will determine whether the consolidation will go thru.

The sentiment is so strong in the Southwick district favoring a four-year high school that this district will probably undertake a full high school course this fall regardless of whether the consolidation goes through, it is reported by Miss Buckles.

The meeting at Southwick started with a community dinner at 6:30 at the Southwick school, and the mass meeting followed. Besides the business a program was given consisting of music

## A FIRST LADY

Mrs. W. Freeland Kendrick, wife of the Mayor of Philadelphia, who also is president of the Sesqui-Centennial International Exposition Association, organized to stage a great celebration to commemorate the 150th anniversary of the signing of the Declaration of Independence. Mrs. Kendrick is shown beside the historic Liberty Bell, which she tapped at a recent broadcasting event when the world was told of completion of plans for the big exposition.

### Announces Candidacy

G. F. Walker, who is now a member of the board of commissioners of Latah county, announces that he will be a candidate for re-election from the third district on the republican ticket at the primary election August 3.

Mr. Walker has looked after the duties of his office in a manner that has been eminently satisfactory and his host of friends in the county will back him solidly for another term. He has been fair and impartial and this district has been well represented by him. It is safe to say that Mr. Walker will be Kendrick's choice for commissioner of this district.

### Scotch Thrift

A Scotchman was traveling from London to his home. At every station he got out and returned breathless and perspiring a few minutes later. An English traveler watched him in astonishment, and asked, finally: "Would you mind telling me why you keep rushing out at every station?" The Aberdonian replied: "Aweel ye ken, I've been to London to consult a specialist. He told me I was awfu' ill and that I might drap deid before I got home, so I'm just bookin' me passage frae station to station."

W. F. Behrens of Leland was transacting business in the Craigmont section, Tuesday.

and readings.

There is also a movement afoot at Southwick along with the consolidation for a new high school gymnasium, the plan calling for donation of money, lumber and work, so that this building can be completed for use the coming term.

Miss Buckles reports the entire region enthused over the prospect of a four-year high school. It is certain the residents of the area will support the project and send their pupils to the new high school instead of away to the distant village schools. Many boys, who have graduated from the eighth grade and never gone on to school, will resume their studies. The eighth grades this year are large and there will be a very large freshman class. The attendance is expected to grow and Miss Buckles expresses the opinion that within a few years Southwick will have a high school as large as Gifford, which has had over 80 pupils the past two years.

### North-South Highway Open

According to a statement by District Highway Engineer Oxley, the Idaho North and South highway is now open for automobile traffic. The highway is reported to be in very good condition except for short stretches that are under construction.

## THE LAST WEEK OF SCHOOL WORK

### General Rejoicing on the Part of The Pupils.

Picnics and exams have been the order of the day at school this week.

A fairly large crowd attended the entertainment given by the grades and high school at the New Kendrick theater Thursday evening of last week. The net proceeds amounting to about \$25 will be used to help pay for the lots back of the school which will be used for a playground for the primary pupils. The feature of the entertainment was the minstrel number staged by Mrs. Strauch's pupils. Music by the Glee Club and High School Orchestra was very much appreciated.

The pupils of the primary grades went to Juliaetta last Friday where they gave their minstrel stunt for the benefit of the Juliaetta school children.

The students consider this the best week of school, because it is the last. In spite of the semester exams there is general rejoicing.

A splendid program was rendered by the seventh and eighth grades at the New Kendrick Theater Wednesday evening, before a large crowd. The eighth grade graduates also received their diplomas.

### JOKES

Herman Hartung: "I want to ask a question about a tragedy." Miss Sealey: "Well?" Herman: "What is my mark?" Thelma P.: "I want 5 pounds of red lead, a bottle of glue, a package of calcimine, a sack of lime, a can of enamel and a good assortment of brushes." Hurried Clerk: "Land, but you women sure lay it on before your parties." Mr. Kerns, Jr.: "Have you liceences on both those dogs?" Roy Johnson: "No, sir. The big's all right, but the little one is just full of them." Mr. Kerns, Sr.: "I would like to see a suit that would fit me!" Tailor: "So would I." Mr. Strauch: "Where's the cow, Robert?" Bob Dammarell: "She's down by the railroad track flirting with a tobacco sign." Claude Cook: "What makes Shirley talk so much?" Carl Sparber: "She must have been vaccinated with a Victrola needle." Miss Heden: "Frederick, What do you do with your pants when you wear them out?" Frederick Carlson: "Wear 'em back home again of course."

### Troy School Children Injured

Only one of thirteen members of the Troy eighth grade class escaped injury Monday morning when a Ford touring car in which they were riding overturned.

The children were on their way to the country to secure flowers for their graduating exercises, which were to have been held Monday evening. It is said that the car was overbalanced by some of the children standing on the running board, and it turned turtle.

Oswald Myklebust suffered several broken ribs in the accident; Volga Simonen, a broken rib; Merle Woods, a broken leg and shoulder; Alice Donnelson, a broken arm; Archie Christie, broken leg and cuts. The others received minor injuries. Ellen Peterson was the only one to escape without injury. The graduation exercises have been postponed until the class recovers.

## NEWS FROM THE NEIGHBORING TOWNS

### Clipped From Papers Published in Latah County.

Actual construction work started on the Moscow-Bovill state road last Monday, with a crew of men and teams which has been added to during the week. At this time a considerable force is working. Last week was spent by Engineer Story in completing the cross-sectioning. The grading will be finished from Deary to the Troy district line, a distance of about four and a half miles. Then, as stated last week, the rock crusher will be started and the work of surfacing begun.

Moscow highway district has resumed surfacing on this road toward Cornwall. They have already rock for several miles in that direction. The Troy district is also surfacing toward Deary having reached a point near the Spencer place some two miles from Troy.

It is now up to the village of Deary to work out some plan for grading and surfacing Second avenue, which is a part of the state road. Sooner or later the road will be surfaced on both sides of town. If we've been cussed unanimously and completely for the condition of the avenue during the past year, what will happen if, with a surface road on each side, the street remains unimproved?—Deary Press.

### Preparing Booklet

The Troy Board of Trade is preparing to publish a little booklet, advertising the town and surrounding country pertaining to resources, possibilities of development, etc. It is the desire of the committee in charge to use some photographic views from the town and surrounding farming vicinity so they are asking anyone who might have a nice picture of their buildings or farm scenes, of post card size, to please loan the use of it for use in said pamphlet. Please leave photos with Mr. Myklebust, Dr. Faulkner or at the News office. The most appropriate ones will be selected and used, then the photos will be returned to owner.—Troy News.

### Warmest April on Record

April, 1926, was the warmest on record for this section, according to the monthly report of F. L. Burkart, cooperative observer, just issued.

It was, in fact, one degree higher than the normal temperature for May over a period of nearly 30 years, his report shows, and for the first time during that period April reported a higher temperature than May. The entire spring has been considerably warmer than normal for the Palouse country. Mr. Burkart declares, a total of 609 degrees of excess temperature being recorded. February showed an excess of 7.3 degrees, March an excess of 5.7 and April an excess of 7.3 degrees.

Precipitation, on the other hand, was below normal .98 inches. Only .61 inches fell during the month, compared to a normal fall of 1.59 inches.

Last year 1.04 inches fell during April, which in itself was .34 inches below normal precipitation for the month. Departure from normal for the year, January 1, is minus 2.15 inches the report shows, while only 12.67 inches have fallen since September 1, 1925, compared to 16.98 inches a year ago over the same period. This season's fall from September is 4.45 inches short of normal.

The mean maximum temperature for the month was 65.2 degrees, the mean minimum 40.8 degrees, with a monthly mean of 53 degrees. Maximum temperature for Moscow occurred April 29, when the mercury hit 88 degrees, with the minimum occurring April 6 when the silver thread fell to 25 degrees.—Star-Mirror.

It doesn't seem fair that 90 per cent of the people are taxed to keep up the courts and prisons for the 10 per cent who commit the crimes. Maybe some day the 10 per cent will be put to work to help earn the expense which they have incurred.

When you have a hull in your work, get away for a day or two. You will be glad to get back on the job and better satisfied with life in general.

We read of a farmer who has \$200,000 or more, a family of three sons and five daughters. Neither the father nor any member of his family own a car. They stick to their job, week in and week out, for they have no way of going anywhere. They refuse to buy a car on the grounds that it will distract their attention from their job. They may be looked upon as successful from one standpoint, but their life is a narrow one to say the least. No one needs a car more or has a better right to own one than the farmer. It is essential both from the standpoint of business and pleasure.

Newspapers of the United States carried seven hundred and twenty million dollars' worth of advertising during 1925, according to testimony given by the director of the bureau of advertising of the American Newspaper Publishers' Association given before the federal trade commission. Of this amount three hundred million dollars was invested in local newspaper advertising. The figures given showed a national increase of upwards of 400 per cent in newspaper advertising since 1916. And yet we recently met a man who stated that he was not sold on newspaper advertising as such.—Caldwell News.

**New Grain Elevator**

An additional grain elevator of 110,000 bushels capacity will be constructed for the Genesee Union Warehouse company, at Genesee, Idaho, at a cost of \$40,000. Work has already started and will be completed by July. The company, a farmers' co-operative, has one of the finest grain storage plants in the country. The new elevator will be the fourth and give the company total storage of 300,000 bushels. The addition was made necessary by enlarged business last year, when 60,000 bushels of wheat had to be piled outside. There are good prospects for a large crop this year.

**Here's Why All Eyes Are On McCormick-Deering Primrose**

**12 Distinctive Features**

1. Ball Bearings
2. Easy Turning
3. Slow Crank Speed
4. Greater Capacity with Less Labor
5. Long Life
6. Steady Running
7. Visible Oiling System
8. Improved Oiling
9. Easy Bowl Adjustment
10. Supply Can Locked in Position
11. Spun Metal Anti-Splash Supply Can
12. Improved Tinware

IN the McCormick-Deering Primrose the power is carried from the slowly turned crank over well-lubricated shafts and carefully cut gears to a bowl that runs on high-grade ball bearings. Friction has been reduced to the absolute minimum. A combination force-feed and splash oiling system oils every part. An efficient oil clarifier insures clean oil for all wearing surfaces. A short, sturdy bowl spindle prevents wobbling and vibration. And finally, the easy-turning bowl whirls the cream out of the milk with startling efficiency. You can't find a closer skimmer anywhere, nor one that does its work so easily. We're proud of the McCormick-Deering Primrose, and we'd like to have you come in and see these parts in the actual machine. It's a mechanical masterpiece, and a real money-maker into the bargain.
