#### FISK and GOODYEAR TIRES

This replica of historic Independence Hall in Philadelphia is a fine example of the baker's art. It was made by the chef of one of Philadelphia's leading hotels to advertise the Sesqui-Centennial International Exposition, which will open in that city June 1 and run to December 1 to celebrate the 150th anniversary of American Independence. The "State House" stands on a table at the entrance to the wain dining room of the hotel.
