

## NEWS FROM THE NEIGHBORING TOWNS

Clipped From Papers Published in Latah County.

### Real Estate on The Move

Troy will soon need a new copy of "Who's Where" in Troy since the homes of the town have been changing hands so rapidly. Joe Corrip led off with the purchase of the McComb house south of the railroad tracks, Gustave Erickson bought the house now occupied by Dr. Peterson, who kept the ball rolling by purchasing the Axel Bohman home. Mr. Bohman replied with the purchase of the house in which Swante Johnson has lived the past seven years. Finding himself suddenly homeless, Mr. Johnson at once purchased the Grandma Smith house. This was the only one empty at the time of the transfer. Mr. Jensen also had a touch of the fever and sold his home. At present there is but one unoccupied house in town. But do not let that discourage you if you wish to live in Troy; there are some fine building lots in the town and lumber mills ready to serve you. —Troy News.

### Sues For \$25,000 Damages

Mrs. Charles Crowe, living just south of Moscow, who was seriously injured in an automobile accident near Dayton several weeks ago, Saturday instituted suit at Walla Walla against William O'Rourke of that city for \$27,076.

In attempting to pass an auto stage, O'Rourke, it is said, collided with the Crowe car, Mrs. Crowe being hurled through the windshield and terribly injured about the face, more than 300 stitches being required. She spent several weeks in a Dayton hospital.

Of the damages asked, \$25,000 is for injuries to Mrs. Crowe, \$167 for hospital costs and physician's bills, \$800 for auto damages and \$100 for injuries to Mr. Crowe.

Mr. and Mrs. Crowe had just purchased the automobile and in company with Mr. Crowe's father and mother, were on their way to Portland and Eugene, Oregon, to visit relatives, the accident happening on the first day of the trip. They were driving toward Walla Walla and O'Rourke and his wife toward Spokane. —Star-Mirror.

### Baby Clinic at Deary

The health clinic held here last week seems to have served its purpose in all ways. Upward of eighty babies and children were examined during the two days sessions, in which the state physician, D. Fouch, was assisted by Dr. Stevenson, county health officer. On the second day Dr. Faust was able to be in attendance, and Dr. Smith of Bovill was also present. The examinations were thorough and the advice given to mothers was clear and to the point. Dr. Fouch "shot from the shoulder" when he felt it necessary to give advice, and was profuse in expressing his approval of all those whose children showed the results of extraordinary care. There were a number of 100 per cent babies. —Deary Press.

### Life of Today

A real estate salesman was trying to sell a home to a pair of newlyweds. Said the young bride: "Why buy a home? I was born in a hospital ward, reared in a boarding school, educated at the university, lived in a sorority house, courted in an automobile and married in a church. I live in an apartment, spend mornings playing golf and my afternoons playing bridge. In the evening we go to a dance, a party or the movies. When I am sick I go to the hospital and when I die I shall be buried from the undertakers. All we need is a garage with a bedroom." —Sample Case.

## Rev. Mort Here Sunday

Rev. Howard Mort, who for two years had charge of the local Methodist church, will preach here Sunday evening. He and Mrs. Mort will arrive here today or tomorrow from the coast. They were very popular young people during their residence in Kendrick.

## Voids Road Contract

Action on a petition presented Wednesday to the board of county commissioners in session at the court house resulted in the authorization of the Potlatch highway commissioners to spend \$12,000 in the construction, maintenance and repair of trunk line highways in subdivisions of the Potlatch highway district in lieu of spending it on construction of the Pine creek road, says the Tribune.

The \$12,000 represents an apportionment made by the county commissioners December 4, 1922, to the Potlatch highway district which was to be used in handling the proposed Pine creek road from Leland to the Clearwater river. At that time it was understood that the highway commissioners of the Potlatch district were to furnish approximately \$35,000 additional with which to complete the proposed road.

Since then the construction of the Pine creek road has been opposed by parts of the district and the Potlatch highway commissioners then petitioned the county commissioners to allow the \$12,000 to be expended on trunk line highways within the district. The petition was signed by Charles Hill, president of the highway district, and R. B. Parks, secretary.

In the petition the Potlatch highway commissioners ask that the original agreement be so amended that this may be done. The petition states that the highway district is unable to finance the construction of the Pine creek road as it had originally agreed to do. The Nez Perce county commissioners acceded to the requests in the petition and authorized the amendment.

The allocation of the \$12,000 was made to the Potlatch highway district by the board of commissioners of Nez Perce county for the specific purpose of building the Pine creek road as a unit of the system then being adopted and upon which was to be applied the \$400,000 secured by the county from the Nez Perce county bond issue.

## Her Prospects

"Of course, my dear girl," said the indulgent parent. I know you are fond of that young traveling man, and that he's a good fellow, and all that sort of thing, but there's one little point you appear to have overlooked. How do you expect to live after you are married?"

"We haven't overlooked the point at all," answered the daughter. "We've considered it well, and it's all arranged."

"Oh, is it? I'm very pleased to hear it!"

"Yes, papa. Listen, this is what we've arranged. You know Aunt Belinda gave me a hen last year?"

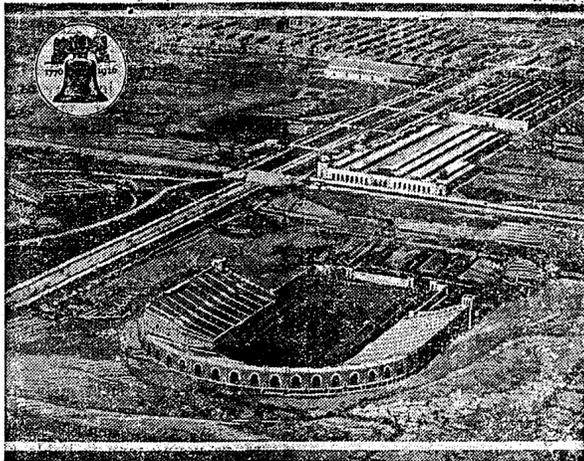

"Well?"

"I've been reading up poultry, and they say that a good hen will raise twenty chickens in a season. So next season we will have twenty-one hens, won't we? And, of course, the following year there'll be 420 chicks, and the next 8,400, and the next 168,000, and the next 3,360,000!"

"Just think papa! If we get only 50 cents each for them we shall clear over one and a half million dollars and that will be plenty for us to live on and perhaps then we will be able to help you a little, you dear old thing." —Sample Case.

Walter Housley went to Spokane last Friday to meet his daughter who arrived from the East to spend the summer here. She has been attending normal school for the past year.

## THE SESQUI FROM THE AIR

An idea of the size and scope of the Sesqui-Centennial International Exposition, which will be held in Philadelphia from June 1 to December 1, to commemorate the 150th anniversary of the Declaration of American Independence, is given in this photograph. In the foreground is the great Municipal Stadium, which seats 100,000 persons. North of the stadium can be seen two of the vast exhibition buildings. The first is the Palace of Agriculture and the second the Palace of Liberal Arts. Opposite the latter building is the big auditorium, which seats 20,000 persons on a single floor. To the left of the stadium can be seen the world famous Indian building, the Taj Mahal.

## Eastern Intolerance

A recent editorial by the Daily News in New York City, classing the citizens of Idaho chiefly as "hog walloppers", is typical only of the uninformed and intolerant extreme eastern citizens of the United States. The editorial betrays a sublime ignorance not only of Idaho but of the west, its people, its industries and the history of its development. We are thankful that only a few newspaper writers and others, cursed with intolerance, have this opinion of our state.

The most casual observer and every school child knows that the west has been populated, reclaimed and developed by the more courageous souls of the extreme states. These people are educated, have educated their children and have surrounded themselves with the finer touches of civilization. Thousands of residents in Idaho who are native sons of New York state and other far eastern sections resent, more than any other group, this puerile attempt to debase the land of their adoption.

Proximity to large cities does not necessarily mean civilization. In many ways it means the opposite. Those who came to the west brought with them a desire for better things, higher morality and a real sincere desire for advancement. Western civilization is built on a demand for improvement over the existing remains of olden days and places. Western civilization has been refined by the fire of sacrifice, burning away the dross of selfishness.

We are proud of our Idaho citizens, gathered from all points of the world. We can only sympathize with those who live in ignorance and intolerance and bid them to come to Idaho to shake off the mantle of greed and clothe themselves in the raiment of unselfishness.—Norman B. Adkison, Secretary and Manager of the Idaho Home Industries Association.

## New Man on Star Route

Claud Kimes has turned over his star route to Mr. Faye of Clarkston, Wednesday being his last day on the route after faithfully performing the duties of mail carrier and stage driver for a number of years. In order to keep this route it is necessary to underbid all competition. The bid has now reached such a low point that it is doubtful whether the route can be made to show a profit to the man in charge.

Dr. and Mrs. John E. Hoyt and two daughters, Jean and Mary, of Spokane, spent the week end at the home of Mr. and Mrs. Ralph Knepper, returning home Monday morning. The Hoyts resided in Kendrick for ten years and have many friends in this locality.

## Will Survey Bear Ridge Grade

Engineer VanArsdol, in company with his assistant and two Kendrick Highway commissioners, G. F. Walker and Ole Lien, looked over the possibilities of locating a grade on Bear ridge Thursday of last week. While it was impossible to make a definite decision in regard to the location, it is believed that a 5 per cent grade can be secured with two or three switchbacks, over the point which the road in a general way now traverses. The length of the grade would be approximately six miles and would come out at the top just in front of the James Emmett place. This grade would not disrupt the present road system on top of the ridge and would adequately serve the entire ridge as a main trunk line.

Mr. VanArsdol stated that he would be ready to run the preliminary line on the location survey some time next week.

It is generally understood that if a satisfactory grade can be secured a bond election will be called in the near future to make funds available to build this grade and to surface the Brady gulch grade which leads to American ridge.

## Kendrick Plays at Troy

The Kendrick ball team will take part in the baseball tournament to be held at Troy, July 2 and 3. Uniontown-Colton will play Genesee on Friday afternoon and Kendrick will play the winner Saturday. The managers of the three teams drew lots at Genesee last week in order to make the schedule. It is understood there is a purse of \$800 for these two games.

## Crescent Clippings

Mr. and Mrs. George Souders visited at the Frank Souders home, Sunday.

Sunday visitors at the M. L. Robeson home were, W. M. Evans, George Harrington and J. D. Perry.

Alice Cramer spent the week-end with her mother, Mrs. Wm. Kauder. Miss Cramer has been attending the Lewiston Normal. Mr. and Mrs. D. J. Hammond and Mr. and Mrs. Drury and daughter, Dorris of Spokane and Fred Hammond of Orofino, were Sunday guests at the John Darby home. Donald Drury, who has been visiting at the Darby home returned home with them.

Henry Loeser and son, Ernest, and Elmer Souders, are helping with the haying at Christensen's. Mrs. A. L. Anderson and sons, and Sue Robeson came to the M. L. Robeson home, Tuesday, and Mrs. Anderson returned to her home near Agatha, Friday, accompanied by her father, M. L. Robeson.

C. C. Wright and Lon Douglas are doing carpenter work at the John Darby ranch.

## Files Against Judge Steele

For the first time in 28 years Judge Edgar C. Steele of the second judicial district, will have opposition in the republican primaries. Guy W. Wolfe, Moscow attorney, declared his intention Wednesday of this week of opposing Judge Steele for the nomination on the republican ticket for the judgeship of the second judicial district.

## Fewer Idaho Marriages

There were 4,194 marriages performed in Idaho during the year 1925, as compared with 4,431 in 1924, according to figures announced by the United States department of commerce. This represents a decrease of 237 or 5.3 percent.

During 1925 there were 919 divorces granted in the state, as compared with 894 in 1924, representing an increase of 25, or 2.8 percent.

The estimated population of Idaho on July 1, 1925, was 508,289, and on July 1, 1924, 494,970. On a basis of this estimate, the number of marriages per 1,000 of population was 8.3 as against 9.0 in 1924; and the number of divorces per 1,000 population was 1.808 in 1925, as against 1.806 in 1924.

The number of marriages was furnished by the state department of public welfare and the number of divorces by the clerks of the district court. The figures for 1925 are preliminary and subject to correction, it is said.

Kootenia county leads in the number of marriages for 1925 with 609, and Ada county leads in number of divorces with 129. Ada county is next in marriages with 375, and Bannock is second in divorces with 94.

## Clarkston Heights Wins

Kendrick lost another game last Sunday to Clarkston Heights by a score of 12 to 8. The game was played on the Kendrick field. In the first 5 innings the Heights secured 10 runs off Sartain, who was relieved in the 6th by Ross. The lead was too long to be overcome in the remaining four innings.

Frequent errors on the part of both teams were made during the progress of the game and both teams hit hard, the visitors doing particularly good work at the bat.

The batteries: Kendrick, Sartain, Ross and Bishop; Heights: Weeks and Grim.

## League Standing

Team	Won	Lost	P. C.
Lapwai	8	1	.889
Clarkston	8	1	.889

## Auto Fatalities Lead

Boise—Idaho reported eight deaths by drowning, four suicides, one homicide, three deaths from shooting, 11 automobile deaths, two fatal industrial accidents, three crushed, one killed by a vehicle other than an automobile, two burned to death, one killed by an animal, and two poisoned during the month ending June 10. Statistics to this effect were made public Thursday by the state bureau of vital statistics. There were 368 deaths in all. Of other causes not listed, three died of tick fever, and one in an aerial accident.

Contrasted with the 368 deaths, of which two were colored persons, were 882 births. Whereas only 437 of the births were male, or less than half, 218, or almost two-thirds of the deaths also were males.

All the babies were white, and five were illegitimate. Ninety-two were the children of foreign born. There were eleven sets of twins reported.

**A Bad Citizen**

A paragraph from an article written by Sherwood Anderson in "Vanity Fair" reads: What nonsense for me to say I love my country, if I do not love my own house, my own street, my own town. If I am not interested in the life of the neighbors across the fence I am not interested in life at all. Living, emotionally and imaginatively in another place, in Europe or in some place far away, living in books or pictures primarily, I am nothing. When I want to reform or change life about me, because of some fancied superiority in myself, I am a pest and a bad citizen.—Ex

Good girls—and most girls are good—should be reminded, that getting into an automobile with a strange young man is liable to prove rough on the shoes. It may also be worth mentioning that a man—young or old—who will ask a strange girl to go joy-riding with him is not of the right sort and is the particular specie of biped that this comment has in mind. To a sensible girl the fact that he is a stranger should be sufficient warning against a long walk.—Caldwell News.

Entered at the Post Office at Kendrick as second class mail matter.

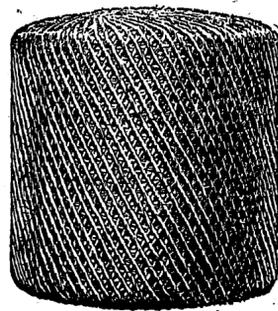

Why not start a booster campaign for Kendrick with the idea in mind of cultivating the habit on the part of every loyal Potlatcher to say a good word or do a good turn for this town. It is to everybody's interest to maintain a live business center in the community. Criticism seems to come easier to the average individual than commendation, but if you get the habit of commending your town it will give you genuine pleasure. Every town needs boosters, the more the better, and there is no limit to what could be done here with the proper booster spirit. As Kipling puts it: "It ain't the guns or armament, nor funds that they can pay, but the close co-operation that makes them win the day. It ain't the individuals, nor the army as a whole, but the everlasting team work of every bloomin' soul."

Abe Martin says: "Th' Local Council o' Women met t'day an' unanimously decided that the women's place wuz in th' home, an' then some o' th' women bot canned salmon an' went home t' repaint, while others whiled away th' hours at th' movies till time t' eat at th' drug store."

**A Thought For Today**

Glancing into an open door one night we saw a couple 85 years old sitting as close together as their chairs would permit. The husband was reading aloud from the Bible words of hope, comfort and cheer, to which his wife, with closed eyes and smiling face, was listening. If that scene could be reproduced on canvas and carried into the great religious conventions it undoubtedly would discourage a lot of the effort that is being made to destroy faith in the Scriptures by reducing them to a mere code of ethics. In millions of homes similar pictures could be made every day, people turning to that

**Prices Slashed!  
Cletrac Crawler Tractors**

The world's most powerful tractor, built in the world's largest factory. A tractor which stops for no hills nor balks at loads of many times its own weight. A tractor which is so easily handled a child can drive it.

This machine is built as nearly trouble proof and fool proof as any machine can be built. For many years this machine has done its work faithfully.

As years pass by engines are built better and last longer. The very best material is used to build this machine.

The Cleveland Tractor Co. builds nothing but tractors, therefore every effort is used to build a machine trouble-proof.
