### NEWS NOTES FROM THE KENDRICK SCHOOLS

#### Good Attendance Shown in All Grades.

The primary room seems to be transformed into a childrens nursery for the small chairs are painted orange trimmed in black; also the back and seat of all the desks are painted orange and the top of the desks black. In the front of the room, on the black-board, are a row of clever foxes dressed in very attractive clothing. They are standing on a beautiful green lawn with flowers scattered over it. The lawn and flowers are made with colored chalk. On each side of the door are two clowns about nineteen inches high with very charming smiles.

There are fourteen first graders registered in the primary room and eleven second graders.

The first graders are progressing quite rapidly, for they know six nursery rhymes, about a dozen phonic cards, also they can label with cards nearly everything in the room.

The second graders have started their book of poems.

There are ten enrolled in the third grade, and fifteen in the fourth grade.

Every boy and girl were present the first week. Let's try to keep this record.

There is an enrollment of 29 in the fifth and sixth grade room.

All the pupils have their books and have been doing regular school work since the opening day.

The sixth grade arithmetic class have been working hard on a review in arithmetic and will soon be ready for new work.

A general assembly was witnessed by the members of the high school last Friday. The faculty took charge beginning the assembly with a song by the students. Miss LaPine gave two piano solos. Mr. Lynch and Mr. McCracken explained the purpose of an athletic association and the advisability of organizing one in our high school. The assembly will meet again today, from 9:15 to 10:10, the seniors taking charge of the meeting.

The high school organized an athletic association last Monday, for the purpose of promoting athletic and "school spirit." Clarice Leith was elected president, and Raleigh Smith, secretary. Margaret McDowell, Carl Sparber and Doris Emery were appointed to form the constitution.

The Girl's Glee club practiced Tuesday, Miss LaPine being the teacher.

The Boy's Basket Ball team has a promising future; as practically all of the boys attended the practice Monday, and there is splendid material for the team. Mr. Lynch will coach the boys.

The girls are planning on organizing a basket ball team, with Miss LaPine for a coach. Despite previous hard luck, they will try again.

#### JOKES

Mr. Lynch: "If you climbed to the top of a mountain, how would you know how high the mountain was?"

Carl S.: "Measure it on the way up."

Lloyd: "At school, they're hunting for something called the greatest common divisor."

Clarice (an honorable Senior): "Why, they were looking for that when I was a Freshman."

Harley E.: "Why did China not advance rapidly in civilization?"

Margaret M.: "Because they killed all the girls."

#### Seeing Things at Vernon

The strange monster which inhabits the Okanogan lake, near Vernon, B. C. and which has been reported several times, raced a motor car along the lake shore road recently. J. L. Logic, manager of a land company of that place, who drove the car, describes the monster as having a head like a sheep and dark colored body, about 15 feet long.

Three other persons in the car with Logic said the monster raised a swell about a foot high and made the spray fly ahead of it as it cut through the water at

approximately the same speed as the auto.

They used to see these things in the United States before the country went dry.

#### It Rains Frogs at Kelso

Harry Kays and his wife, Seattle residents, insist that scientific scoffers notwithstanding, it really does rain frogs.

Mr. and Mrs. Kays reported that while they were motoring along the highway between Kelso and Vancouver, Wash., recently, they encountered a rainstorm in which frogs came down by the thousands. The frogs struck their automobile with a plain impact, the couple asserted, and the road was blanketed with them.

#### Winchester Mill Shut Down

The Craig Mountain Lumber company's mill shut down Saturday for a 30-day period in order to allow the great plant to undergo thorough repair and overhauling, say the Lewiston Tribune. The company determining on carrying on this work at this time instead of shutting down the plant during the winter months, as has been the custom for years.

#### Linden News

Walter Carmin returned recently from a visit with his parents at Elk River.

Addison and Lou Alexander were transacting business in Lewiston, Thursday and Friday of last week.

Mrs. Sylvia Jenks and grandson, Wallace Dunham, returned to their home in Clarkston last Thursday.

Mr. and Mrs. Al Longfellow arrived Thursday evening for a visit with his mother, Mrs. Emma Longfellow.

Mr. and Mrs. C. E. Harris and children spent Sunday with his parents at Troy.

Miss Sarah Sweeney opened school Monday with twenty-two pupils in attendance, several families not being represented on account of having the whooping cough.

Mrs. Edgar Bohn and Mrs. McPhee were shopping in Kendrick Monday afternoon.

Len Bailey of California visit-

ed at the Allen home Thursday and Friday.

Frank Farrington is again seriously ill.

Mr. and Mrs. W. M. Sadler and daughters spent the week end visiting relatives at St. Maries, Couer d' Alene and Troy. Mrs. Joe Perry has been staying at the store during their absence.

Mrs. Mary Vaughan and son,

arrived from Milton, Ore., Friday evening and are guests at the C. H. Fry home. They expect to spend the winter at their home here.

Mrs. Carr and son, Tony, John and Jake Michael and Annie Morrison were Park visitors, Sunday afternoon.

Butterwrappers printed at the Gazette Office.

### RESENT ATTACK OF MOSCOW BIRD HUNTERS

Citizens of Little Bear Ridge For Game Law Enforcement.

The following article, by Mrs. H. Galloway, is in response to an article which appeared in the Moscow papers some time ago, and which was republished in last weeks Gazette, relative to shooting game birds out of season. Mrs. Galloway says:

An article recently published in the Star-Mirror and the Idaho Post, regarding the lawless slaughter of game birds, is resented by the citizens of Little Bear ridge. The people of this particular community are cited as "law-breakers" and "bird hogs."

We have always invited town sportsmen to hunt on our land, but we do not like the attitude of hunters with dogs, who come pawling around in our back yards, probably hunting for some kind of feathers. A bunch of chicken feathers were carefully examined by two such hunters, on Sunday morning, following the opening of the season, not more than ten yards from our door. We would gladly have given these men information or their breakfast, had they been gentlemanly enough to come up to our door.

The farmers of Little Bear ridge are progressive citizens; and take pride in feeding and protecting the game birds. Naturally they would resent the slaughter of such birds more than the Moscow hunters, if there were any reason for being alarmed.

Could one of these hunters follow the farmer from four a. m. to eight p. m. in his daily round, week after week, he would realize the futility of any farmer's attempt to distinguish himself as a "game hog."

Why jump at the conclusion that all the old weathered shells found had been lawlessly fired at game birds? Could not these have been fired at hawks and coyotes that molest our chickens? There are lots of things to shoot at. Why not give the farmer the benefit of the doubt.

Only last week a hunter told us he had gotten his limit in a short time in our canyons. This

doesn't sound as if there is an immediate danger of the people of Little Bear ridge annihilating the game.

A true sportsman glories in the cunning of nature's creatures outwitting his onslaught with gun and dog. Be a regular sportsman. Clean your gun, practice up a bit in your own back yard, and come back to try your luck on Little Bear ridge.

I wish to add that the people of this community stand for the enforcement of the State game laws, and hope to see a game warden appointed from the Potlatch locality.

Mrs. H. Galloway.

#### Ten Demands

Here are ten suggested rules of conduct for employees, by a "Moses" of modern business:

1. Don't lie. It wastes my time and yours. I am sure to catch you in the end, and that is the wrong end.

2. Watch your work and not the clock. A good day's work makes a long day short; and a poor day's work makes my face long.

3. Give me more than I expect, and I will give you more than you expect. I can afford to increase your pay if you increase my profits.

4. You owe so much to yourself that you cannot afford to owe anyone else.

5. Dishonesty is never an accident.

6. Mind your own business and in time you'll have a business of your own to mind.

7. Don't do anything here which hurts your self-respect. An employee who is willing to steal for me is willing to steal from me.

8. It is none of my business what you do at night. But if dissipation affects what you do the next day, and you do half as much as I demand, you'll last half as long as you hoped.

9. Don't tell me what I like to hear, but what I ought to hear.

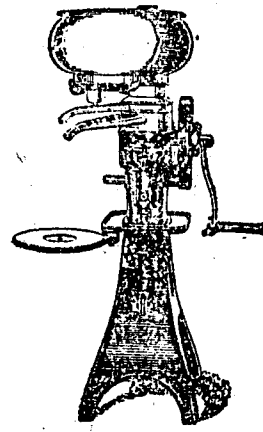

10. Don't kick if I kick. If you're worth correcting, you're worth keeping.—Informant.

Send your job printing to the Kendrick Gazette. Good printing, good service.

# The "EASY" McCormick-Deering Primrose Cream Separator

Runs on ball bearings!

Bowl-draining device. Saves time and trouble.

Patented faucet. Bottom of supply can shaped for complete draining.

**Contributed Poem**

A farmer had a seeder for sowing of his seed; 'twas a seeder made of cedar and I asked him: "Is there need of a seeder made of cedar?" and he answered: "Yes, indeed. I have never seen a seeder, sir, that I'd concede the speed to exceed a cedar seeder for the seedin' of the seed."—Boston Transcript.

**Early Baseball**

The first baseball "diamond" was square instead of a diamond as used now. The bases were wooden posts that stood out of the ground 4 feet. The sides were made up of from 10 to 14 players. The rule of play was, one out all out. The score was 100 tallies up. The side first scoring 100 runs was the winner.

**The DAIRY**

**PROPER PASTURE FOR DAIRY COWS**

The feed of dairy cows is over half the expense of producing milk, and the amount and character of the feed given largely determine the production of good cows. Therefore the dairyman has on one hand the problem of feeding a liberal ration to his cows at all times so that good production will be secured, and on the other hand the problem of keeping as low as possible the expense attached to such a large item in the cost of milk production as feed. He must select feeds not alone for their milk-producing qualities, but also for their economy.

A good pasture crop that will feed the cows for one-half of the year without supplement, except for high-producing cows, is certainly supreme in the realm of economy. It relieves the dairyman of much labor in feeding his cows right in the cropping season and at the peak of the labor load, and, in addition, cuts almost in half the acreage of crops that must be raised, harvested, and stored for barn feeding during the year by permitting the cows to gather their own feed for six months in the open, under the best possible conditions for milk production.

The vital pasture problem is to select some crop that furnishes a large amount of feed per acre and especially one that furnishes an even supply throughout the summer season.

Sweet clover seems to furnish such a large and even supply of feed throughout the summer, and dairy cows produce so well on it, that a questionnaire was sent out to 81 dairymen who had had experience in pasturing sweet clover with dairy cows. A summary of their reports shows that on the average three-fourths of an acre of sweet clover pasture will furnish sufficient roughage to keep a cow well fed for six months. Cows producing above 80 pounds per day should, of course, receive some grain.

The growing of sweet clover pasture causes a great saving of land as it requires only half as much acreage per cow as is usually devoted to bluegrass, and, in addition, a very small amount of crops is necessary to supplement it while with bluegrass it requires from an acre to an acre and a half of supplementary crops.

**Summer Grain Mixtures to Supplement Pasture**

Cows in good condition producing less than one pound of butterfat a day will undoubtedly prove most profitable on pastures alone, believes G. O. Humphrey, dairy husbandryman at the Wisconsin experiment station.

He suggests varying amounts of grain mixture be fed in addition to abundant pasture where a larger amount of milk is given. Here are suggested mixtures: For Holstein or Ayrshire cows producing 80 pounds of milk daily, 5 pounds of grain; 40 pounds of milk, 9 pounds of grain; 50 pounds of milk, 10 pounds of grain. For Guernsey or Jersey cows producing 20 pounds of milk a day, 3 pounds of grain; 30 pounds of milk, 6 pounds of grain; 40 pounds of milk, 10 pounds of grain.

Ration one to be fed when cows are on good pasture consisting of 100 pounds of ground oats, 100 pounds of wheat bran and 50 pounds of corn meal.

Ration two for cows on fair pasture consisting of 200 pounds of wheat bran, 200 pounds of corn meal, 50 pounds of oil meal. The third ration for cows on dry summer pastures is 500 pounds of corn and cob meal and 200 pounds of oil meal.

**Dairy Hints**

Provide fresh, pure water in abundance and easy of access.

The advantage of a scrub cow is that it doesn't take so long to milk her.

Clean the entire body of the cow daily; hair in the region of the udder should be kept short by clipping.

Why make the good cows support the scrubs? Let the scales and the Babcock test be your guide.

Home mixed feeds concocted with the correct proportion of different ingredients are now being successfully fed to young calves as a substitute for milk.

In milking be quiet, quick, clean, and thorough. Commence milking at the same hour every morning and evening, and milk the cows in the same order.

Milk utensils should be made of metal, and all joints smoothly soldered. Never allow utensils to become rusty or rough inside. Use them only for handling, storing, or delivering milk.

Have the herd examined at least once a year by a skilled veterinarian. Promptly remove animals suspected of being in bad health. Never add an animal to the herd until you are certain it is free from disease, particularly tuberculosis.

**Many Sires Are Killed Too Soon**

**Bulls Sent to Butcher Before Their Full Usefulness Is Known.**

(Prepared by the United States Department of Agriculture.)

What becomes of the bulls that head the average cow-testing association herds? Are the good ones recognized and kept in service, or are they unwittingly sent to the butcher before they have completed their full period of usefulness? Some idea as to the tendency in the disposal of the pure-bred sires in our dairy herds may be had from the results of a recent study made by the bureau of dairying, United States Department of Agriculture.

**Proved Sires in Aged Class.**

The bureau had previously gathered a list of 58 pure-bred sires, and ascertained their transmitting ability by comparing the records of their daughters with the record of the dams. Naturally these proved sires were in the aged class by the time their value could be determined in this way. Nevertheless, it was desirable to know which were still in service. Inquiry brought information about 22 of them. Of this number only five are alive and in service today. These are all good sires as evidenced by their 31 daughters, whose production is better than their dams by 17 per cent in milk and 23 per cent in butterfat. The other 17 were slaughtered for various reasons.

Eleven of the seventeen slaughtered bulls were good. Their 67 daughters showed an increase over their dams of 22 per cent in milk and 20 per cent in butter fat. Only 2 of them were slaughtered because of sterility, while 3 went to the butcher for other reasons such as unrecognized value, unruiness, and a need for new blood. Six of the 17 bulls were poor. Of these, 2 were slaughtered because of sterility, 1 died, and 3 were killed for beef. Perhaps it was recognized that the last 3 were inferior, and for that reason were discarded.

**Value Recognized.**

While this is a very small number from which to draw definite conclusions it is evident that the value of some of the good sires was recognized, which accounts for the 5 that are still in service. Perhaps some of the poor sires were also recognized. The unfortunate part is that in the weeding-out process, if such practice existed, 11 out of the 17 dead sires were outstanding from the standpoint of transmitting production to their offspring. Some means must be found to keep the bulls until the records of their daughters prove them either good or otherwise.

**Much Improvement Is Made by Poultry Raisers**

Much improvement has been made along many lines in the poultry business during the last few years, but the work which has been done by the rank and file of producers to improve sanitary conditions is undoubtedly the most important.

During the last two years there has been more loss from disease by the produce houses than previously. This was especially true two years ago. Last year these men handled the birds in a more sanitary manner and the losses diminished. Farmers appreciate that many of the diseases that cause loss on the farm and at produce houses may be eliminated by improved sanitary conditions.

The practice of raising chicks on fresh ground has spread rapidly. This movement is of prime importance. Worms, lice, mites, coccidiosis and tuberculosis are spread by the older fowls and infected premises to young chicks.

**FARM FACTS**

Change the water occasionally in the tractor radiator.

An average of the figures indicates that farmers are using appreciably higher protein feeds than they were five years ago.

Gather the eggs at least every day and better twice a day during the hot weather. Keep them in a dry, cool, well-ventilated place.

Culling costs about seven cents for each nonproducing hen removed from laying flocks during the past year. Can you afford to do without it?

Any time is a good time to kill burdocks. Cut them below the crown with a sharp spade. This will prevent future sprouts coming from the same root.

On short pastures the dairy cow does not get enough feed for both maintenance and milk production. Grain must be fed in addition to keep up the milk flow.

Good pasture for growing pigs, brood sows, and all other classes of hogs is so valuable that it often makes the difference between profit and loss in the hog business.

Blue ointment mixed with an equal part of grease or lard will get rid of lice on chickens if an amount about the size of a pea is rubbed into the feathers just below the vent. poultry specialists of the Pennsylvania State college say

**TONIGHT And SATURDAY**

**SWANSON**  
IN  
**'Manhandled'**

An ALLAN DWAN Production  
Presented by ADOLPH ZUKOR & JESSE LASKY

"Manhandled" is a comedy—a mad sizzling, jazzy and, at times, joyously slapstick comedy that doesn't give you a second to catch your breath between laughs! An appealing little love story is blended with the not pepper to give it that mellow flavor. It's the greatest Swanson picture ever made.

**Five Piece Orchestra Tonight**

Wegner Bros. Five Piece Orchestra will play several numbers at the theater tonight... They are also giving a dance at the Fraternal Temple after the show. Take it in and you will sure have a good time.

SHERIFF'S SALE

Notice of Sheriff's Sale of Real Estate Under Execution.  
R. G. Wood, and Eva Wood, Plaintiffs.  
vs.  
N. Williamson and Caroline Williamson, Defendants.  
BY VIRTUE OF AN EXECUTION, issued out of the Judicial Court of the Second Judicial District in and for the County of Latah, wherein R. G. Wood, and Eva Wood were Plaintiffs, and N. Williamson and Caroline Williamson were Defendants, upon a judgement rendered the 5th day of August, 1926, for the sum of Four Hundred Ninety Eight and 20-100 Dollars in U. S. Gold Coin besides interest and costs, I have this day levied upon all right, title, claim and interest of said defendants, N. Williamson and Caroline Williamson, of, in and to, the following described real estate, to-wit:  
Lot Six (6) except the North forty-two (42) feet thereof in Block one (1) of Cox's Addition to the Town of Moscow; and Lots Ten (10), Eleven (11), Twelve (12), Thirteen (13), Fourteen (14), Fifteen (15) and Sixteen (16) of Block Three of Misses A. A. Licualen's Addition to the Town of Moscow, as shown by the recorded plat thereof.  
**PUBLIC NOTICE IS HEREBY GIVEN** that I will on Monday, the 4th day of October A. D. 1926, at 2 o'clock P.M., of that day in front of the Courthouse door, Moscow, Latah County, Idaho, I will sell at public auction, for the United States gold coin, all the right, title, claim and interest of said defendants, N. Williamson and Caroline Williamson, of, in and to the above described property or so much thereof as may be necessary to raise sufficient amount to satisfy said judgement, with interest and costs, etc., to the highest and best bidder.  
Dated this 6th day of September 1926.  
Charlie Summerfield,  
Sheriff of Latah County, Idaho.  
By Geo. K. Moody, Deputy. 37-4

Dated and signed this 13th day of September, 1926.  
A. W. BEHRENS,  
Administrator with Will Annexed 38-6

Provide Separate Pens for Males for Breeding

The breeder who carries over only the males he needs in his own pens may let them run with the flock as the easiest way for himself, if not the best. But the man who carries surplus males for breeding must provide separate quarters for them. Preventable accidents and injuries are the ones that the breeder troubles over. It is maddening to feel that a valuable young male has been lost for lack of shutting up the pugnacious old cock; or failure to separate two cockerels that are suffering from incompatibility of temperament.  
The cockerel house needs small pens and a good outside run. A coop that will house three hens is about right for one male. Too small a coop in height and width will damage feathers and comb. Movable coops about the size of a good shipping coop, or a double exhibition coop, are very satisfactory since they are easily moved to fresh grass, and in winter can be gathered under one roof with separate runs.

NEWS FROM THE NEIGHBORING TOWNS

Clipped From Papers Published in Latah County.  
**Quitting Business Sale**

The Follett Mercantile company is putting on a "quitting business sale," which started last week and which will continue until their large stock of merchandise has been disposed of.  
The Follett store is the oldest place of business in Genesee and has served the people long and well, but they have decided they want to close out and quit, thus have inaugurated this big sale, which is your opportunity to get bargains such as you may never have again. The sale is in charge of Col. L. F. Marden, an experienced sales manager.—Genesee News.

**Closed Bakery**  
August Hedeen closed his bakery last Saturday, having sold the equipment to parties at Wallace, who moved it to that place yesterday. The Olson Motor Co. did the transferring with their big truck. This leaves Troy without a bakery and it is hoped that someone will decide to re-establish one as the town is greatly in need of it. Mr. Hedeen has not made public his future plans, but we understand he expects to move from Troy.—Troy News.

Deary Schools Start

The schools of Deary started last Monday, opening with an enrollment of 37 in the high school and 76 in the grades. The high class freshman class this year numbers 11, three being graduates from Deary and the others of country schools. The personnel of the teaching force in the high school is as follows: H. A. Salisbury, Superintendent, Pauline Reik, Lepha Decker, teachers, and J. Allen Miller, athletic coach. The teachers of the grade schools are J. Allen Miller, principal, Mrs. Lillian Ferguson, Miss Ruth McDonald and Mrs. David Ross. Both schools started the year's work satisfactory to patrons, pupils and teachers. There is every reason to believe that the term will be in every way successful.—Deary Press.

METHODIST CHURCH NOTICE

Rev. L. E. Taber will preach at the American ridge church Sunday morning at 11 o'clock. Theme: "Paradise Regained." At 7:30 he will hold services at the Kendrick church. Theme: "At The Old Well."  
A cordial invitation is extended to the public to attend these services. Come and hear the new pastor.

Dies Driving Car in Traffic

W. H. Edwards, a traveling salesman of the Portland Furnishing company of Portland, Oregon, died from an attack of heart failure at Lewiston, Tuesday night, while driving an auto on Main Street where traffic was dense. The car turned into the curb and a collision was averted. Physicians stated that his death had occurred when his hands left the wheel.

She Wins!

A newspaper publisher in another state offered a prize for the best answer to the following conundrum:  
"Why is a newspaper like a woman?"  
The prize was won by a woman who sent in this answer:  
"Because every man should have one of his own and not run after his neighbor's."—Ex.

BIG BEAR RIDGE NEWS

Miss Mildred Kleth has gone to Lewiston, where she will stay with her sister and attend school. Mrs. O. H. Forest entertained the Lutheran Ladies Aid at her home Thursday afternoon. A large number from here attended the funeral of Mrs. Erick Reiverson in Troy, Tuesday afternoon.  
Fern Hill school opened Monday with Miss Opal Jones in charge.  
Misses Alta, Allie and Claribel Moore have gone to Lewiston where the latter two will enter the Lewiston Business College.  
Mr. and Mrs. George Eaker and children motored here from Nebraska for an extended visit with Mrs. Eacker's parents, Mr.

ITEMS OF INTEREST FROM SOUTHWICK

**Written for Gazette by Special Correspondent**  
Miss Johanna Hooker returned home Tuesday, having visited friends in Couer d' Alene, Spokane and at the home of Mrs. Fred Black in Garfield.  
Miss Alma Aas has entered the Deary high school.  
The recent rains have caused considerable delay in the bean harvest.  
Mr. and Mrs. Wade Keene were Moscow visitors, Saturday.  
Mr. and Mrs. George Gentry are visiting at the home of his brother, Otis Gentry and family.

Fuchsia's High Place

The fuchsia is one of the gardener's most valuable plants, not only for the beauty of its flowers and graceful form of the plant but also because it is adaptable to flower beds and borders and grows with such freedom and such little care. As a house plant it is very desirable.

But Sail Ahead

I deem it no proof of inconsistency to regulate our opinions as we would do a ship and a ship's course in a voyage.—Cicero.

BLONDE PREFERRED

Ruth K. Patterson, seventeen, was chosen to represent New York at the Atlantic City beauty contest in September. She is a blonde with stateliness and pretty face.

Jake Berriman and family spent Sunday at the Gus Farrington home at Linden.  
Miss Alta Phillips left for Lewiston last Sunday where she will attend the Normal.  
Mrs. Fred Whiting went to Lewiston last Thursday to visit her father, Wm. Hewett, returning home Saturday.  
Bonnie Craig and little sister of Leland spent the week end at the home of Vester Whiting's. George Christensen and wife were in town Tuesday.  
School started Monday with a large attendance, but quite a number of scholars are at work in the bean fields. Prof. Isaman and Miss Penny have charge of the high school, Mr. Fairley the intermediate grades and Miss Hartung the primary.  
Mrs. George Kime left Tuesday for Dakota, having been called there by the serious illness of her father and two of her brothers.  
Mrs. John Hewitt received word Tuesday of the death of her brother, Sam Sheets, who died quite suddenly at his home in Portland.  
Mr. and Mrs. Cecil Hayward of Elk River came over Saturday evening for a short visit with his parents, Mr. and Mrs. Chas. Hayward. They returned home Sunday evening.  
Roy Southwick went to Lewiston, Monday, on business.  
Wm. Whiting and wife went to Lewiston last Thursday, where they are spending a few days.  
Mrs. Harry Smith and little daughter of Leland spent a few days last week with her parents, returning home Sunday.  
Jim Cook and wife of Leland spent Sunday with relatives here.  
Otis King and a lady friend are visiting at the home of his uncle J. R. King.  
Wm. Wright and family arrived Monday evening from Marshfield, Oregon. They expect to be here about three weeks. They brought the body of their infant daughter, which was laid to rest in the Southwick cemetery Tuesday morning.  
Mr. and Mrs. Earl Farley and daughter, Irene, of Peck, spent last Thursday at the home of their son, Zoel Fairley.  
Miss Bessie Ferguson of Teakcan is stopping at the home of Leslie Triplett and attending our school this winter.  
Howard Southwick moved his family, last week, from the Christensen ranch to the place he recently purchased in the east end of town.

**GLEANINGS**

The Misses Hazel Stanton and Maude Compton left the first of the week for Lewiston to enter the Normal.

Clarence Perryman received delivery of a new sport model Ford roadster last week.

Miss Edna Janes fractured the small bone of her left foot, Sunday, while scuffling with her sister.

Mr. and Mrs. F. Byron Smith and family of Peck spent Sunday in Kendrick with friends.

Mr. and Mrs. A. H. Daubenberg and M. V. Thomas drove to Peck, Sunday morning on a grouse hunt, returning in the evening by way of Craigmont and Winchester.

Garth Hill fell from a horse last week, which resulted in dislocating the elbow, and fracturing the end of the humerus in several places.

Mr. and Mrs. Theo Hanson of Troy spent Sunday at the home of Mr. and Mrs. George Leith in Kendrick.

Mr. and Mrs. L. J. Herres were Lewiston visitors Tuesday.

Mrs. Thos. McDowell was a passenger to Lewiston, Wednesday afternoon to attend a special session of the Women of Woodcraft, which was held there Wednesday evening.

Mr. and Mrs. Silvie Cook and the Misses Dick and LaPine drove to Avon, Sunday, to spend the day.

The Presbyterian Ladies Aid will meet at the home of Mrs. O. E. MacPherson this afternoon.

Hugh Helpman spent the week end in Lewiston with his family. Hugh has been assisting Engineer Jones with the Bear ridge survey.

Mrs. Edgar Long is spending a few days at the Lester Hill home on Potlatch ridge.

Dr. Moorhead has been suffering for the past few days with a severe acid burn on his left hand.

Mrs. Gibbs of Arrow Junction visited at the N. B. Long home the first of the week.

Joday Long and family drove to Potlatch, Sunday, and spent the day with Mr. and Mrs. C. Wardrop. Mrs. Wardrop will be remembered here as Miss Clarice Abrahamson, who taught several terms in the local schools.

Mrs. George Larson, who has been visiting her mother, Mrs. Kate Galloway, returned to her home at Kellogg, Wednesday morning.

J. F. Boyd of Clarkston spent Sunday in Kendrick at the home of his son, Frank.

J. B. Helpman returned Saturday from Spokane, where he attended the fair.

Mr. and Mrs. Ralph B. Knepper and son, John, and Mr. Geo. E. Knepper, left Sunday morning for Boise, Idaho, making the trip by auto over the North and South highway. Mr. Knepper and his father will attend a meeting of the Masonic Grand Lodge which is being held there this week. George E. Knepper is Grand Lecturer for the Masonic Lodge of Idaho. They will attend the Pendleton Round-up on their way home and expect to arrive here Sunday evening.

Mrs. Callison returned Monday evening from Couer d'Alene, where she has spent the past two week visiting with her mother, Mrs. L. M. Lewis.

Otto Schupfer and family returned Monday evening after spending several days in Spokane attending the fair.

Mr. and Mrs. H. P. Hull left yesterday morning for Spokane to visit with friends and relatives for a few days.

Mrs. Phillips and son, Roy, of Lewiston, spent Tuesday at the Harold Thomas home. Roy Phillips left Wednesday for Los Angeles, to enter the University of Southern California, where he will study dentistry.

Mr. and Mrs. R. D. Newton and family spent the week end at the home of Mr. and Mrs. M. B. McConnell in Tekoa.

G. P. Barnum was in Lewiston again the first of the week on business. Mr. Barnum was appointed an appraiser for the insurance company in the matter of the adjustment on the Grostein building at Lewiston as in-

involved in the disastrous fire which occurred last month.

Wm. Leith and family of Moscow spent Sunday at the home of his brother, George, in Kendrick.

Mrs. F. P. Bensecoter of American ridge left Tuesday afternoon for Clarkston to visit her daughter, Mr. Neal Nelson. Mr. and Mrs. Bensecoter expect to move to Clarkston in the near future, where they have property and will make their home.

Mr. and Mrs. O. E. MacPherson and son, Donald, and Mr. and Mrs. N. E. Ware and daughter, Miss Neva, drove to Nezperce, Sunday, to attend a social gathering of old timers which was held at the Christian church of that place. Mr. and Mrs. Ware homesteaded in the Nezperce section a good many years ago, at the time when their nearest railroad station was Culatesac. They greatly enjoyed meeting many of their old time friends and neighbors at this gathering.

**Gets \$400 And 60 Days**

Sam Pandos, of Elk River, was given a fine of \$400 and a 60-day suspended jail sentence by Judge Edgar Steele of the district court here Saturday afternoon, on a charge of transportation of intoxicating liquors.

Pandos has been held in the Clearwater county jail for nearly two months and for this reason the imprisonment sentence was suspended.—Star-Mirror.

**U. of I. Gets Many Prizes**

Three grand championships, 4 championships, one junior championship, and 39 first places were won by the University of Idaho livestock at the recent Interstate fair held in Spokane. In addition, the university entries also captured 21 second places and 11 thirds, besides seven fourths.—Star-Mirror.

**Bovill Worker Loses Arm**

Leo O'Keefe, employed by the Potlatch Lumber company, suffered injuries that necessitated the amputation of his right arm while switching and coupling cars for the company at Princeton last Tuesday night. His arm was mangled between the couplings. He was taken to the company hospital where the arm was amputated at the elbow. He has a wife and four children.

**Dance Tonight**

Wegner Bros. five piece orchestra will give a dance at the Fraternal Temple, tonight (Friday), after the show. Everyone is cordially invited to attend.

This orchestra will also play several selections at the New Kendrick Theater tonight before the dance.

**Cedar Creek School Wins Prize**

Cedar Creek school, with a total enrollment of less than 10 pupils, took second prize for school exhibits at the Latah-Whitman county fair, according to word received Friday by Miss Ellen Peterson, county superintendent of schools.

Displays of the school, which is in district 7 in the northern part of the county, were prepared under supervision of Mrs. Frank Berger, and consisted of both school work and exhibits made by pupils in their spare time. The feature of the display was a bedspread prepared by girls of the school, depicting various phases of school life. Farming schools took first place.

**Whose Noodle?**

"Say," yelled the traffic cop, "what do you mean by speeding along like a mad man? You'll kill somebody! Why don't you use your noodle?" "Noodle" gasped the new car owner, "Where in heck is the noodle? I pushed and pulled and jiggered every darn thing on the dashboard, and I couldn't stop her."—Ex.

**Just a Warning**

A clergyman was waiting to perform the marriage service, but the bride and bridegroom were late. At last they arrived, and the service was hurried through. At its close the clergyman turned to the happy pair and said reproachfully: "You were late—very late. Please remember next time to be more punctual!"—Edinburgh Scots man.

**BEAN RAKE**

**The Deere-Dain Rake--the Rake with the Inclined Frame.**

Use either 1 or 2 rear Caster wheels.

Lever for raising and lowering reel.

Lever to adjust angle of teeth from drivers seat.

The convenient bean rake.

Every adjustment made from the seat—great convenience. Solid tooth bar attachment—great strength.

Adjustment of mesh for the main drive gears—long life. Inclined frame—good work clear to the end of the reel. Independent lever connection to both caster wheels—either wheel can and will support the rear end of the rake. Dust proof caster bearings—high grade construction.

No clutch—trouble proof. Square pipe and angle frame—strength in torsion.

High, smooth arch—large clearance.

Set over main wheel—for turning windrows one-half over and raking beans.

Square shaft drive—no keys, pins, etc., to come loose.

Chilled bearing. Good oiling system. This means convenience and long life.

Use a Deere Rake and not only save money harvesting the beans but also save all the beans.
