NEWS NOTES FROM THE KENDRICK SCHOOLS

What The Students Are Doing This Week.

There is a new border on the side back board of the primary room. It represents the story of the "Three Pigs". Small pigs are peeping out of the windows of their houses at a large fox, standing close by. This design is about eighteen inches high, and the width of the board.

Large red hearts, with quaint pictures on them are pasted on the windows. There are also a number of various kinds of valentines on the side wall.

The second grade has started reading a new book. It is "The Progressive Road to Reading". This is the sixth book they have read this year. These pupils have learned a new valentine song and a "Telephone Song", they also made some very pretty valentines, Tuesday.

The primary room is giving a Valentine party, February 14th. The mothers of the pupils are cordially invited to attend this party, and the students are very anxious to have them come.

More valentine decorations are being made every day by the primary students. They are decorating white paper napkins with cupid, for their Valentine party.

Miss Dick has ordered a new book for the students who want to do extra work at school. It is called "Work and Play with Words". The book is very interesting as well as beneficial.

The first graders have completed learning their two times tables.

The General Assembly which was given by the third and fourth graders last Friday was very interesting and much enjoyed by everyone. The seniors were responsible for the entertainment. The assembly this Friday will be given by the juniors. They are planning on a selection by the fifth and sixth grades, to constitute the main part of the program.

The high school had a party last Saturday night. The Culdesac basket ball boys were invited, but they could not attend because they left on the nine o'clock train. The party was held in the school auditorium, after the basket ball game. Lizzie Jones and Margaret McDowell were on the entertainment committee; Neva Ware, Shirley Clem and Marjorie Davidson were in charge of the refreshments. They served weenies, pickles, buns and coffee. Everyone had a very good time. Miss LaPine and Mr. Lynch chaperoned the party.

The Genesee basket ball team will play our boys here Friday, February 4th and at Genesee, Saturday. These are conference games. The game Friday will make the fourth conference game that Kendrick has played. The boy's team is in very good shape and they have been practicing well. The high school students hope to have a good attendance at the game and everyone should support the team.

The Girl's Glee club has sent for a new song. It is called "The Stars Brightly Shining." They will start practicing on it as soon as it arrives. The club has been doing splendid work.

The domestic science girls have taken up dietetics. They have a class in this in their regular periods on Tuesdays and Thursdays. It is very interesting.

The school has some new books in the library, and are planning on more. They would like to get a new set of encyclopedias.

Mr. Lynch has been giving his students special examples in conduct and manners.

In the state tests the 7th and 8th grades learned that they have yet much to learn this semester if they wish to be promoted at the end of the school year. They realize now that they will be graded on just what is on their paper, and not what they meant to put on. They now know that some of the work done in class is not thoroughly understood. This knowledge will help

The Potlatch Champion

Sam Lotspeich, who last week defeated R. H. Runey in a hotly contested checker tournament, claims the championship of the Potlatch. He also says that Leland is his home town and he wants the championship belt to remain there. Isn't there some long-whiskered checker artist that can take him down the line? He is willing to meet all comers. It is rumored there is an Indian somewhere in the Clearwater country that has specialized in checkers and some years ago defeated the best white checker players in this neck of the woods.

Rochdale Co. Will Enlarge

Wm. Watts, manager of the Kendrick Rochdale, stated this week that at a recent meeting of the stockholders and directors of the company, it was definitely decided to make extensive improvements in the equipment for handling beans through their warehouses. Next fall the company will buy locally grown beans and ship direct. In order to do this it will be necessary to purchase additional equipment in the way of bean-cleaning machinery. The company already has a big cleaner but in order to get the beans in first class condition to go on the market it will be necessary to add a picker and a polisher.

Mr. Watts stated that by cleaning and shipping the beans from this point it will be necessary during the winter months to put on several more men. This added payroll, while not large, would make it possible for several more families to spend the winter here.

The directors also authorized the purchase of a 20-ton air-controlled dump scales, which will be installed at the elevator before the next season's crop is ready to be marketed. These improvements are all along the lines of substantial progress.

To Open Store at Troy

N. Williamson, Moscow, businessman who now operates department stores at Palouse and Orofino, announced Tuesday, his plans to open a general merchandise and department store at Troy along lines similar to his other stores at Palouse and Orofino.

Mr. Williamson has leased the Johnston, Olson & Johnston building at Troy for a long term of years and fixtures now are being assembled at Grand Rapids and Lansing, Mich., for immediate shipment to Troy. The building has a depth of 120 feet and is 80 feet wide. At the same time, New York agents for Mr. Williamson are preparing shipments of new merchandise for the venture.

The initial investment will approximate \$40,000. The store will be managed by Herman Kreise.

Made Money With Cows

From six cows Mr. and Mrs. J. M. Phillips, who reside a few miles northeast of Harrington, in Lord's valley, produced 1587 pounds of butter during 1926. The gross revenue from this butter was \$714.50. Mr. Phillips raised his own feed, and, aside from the pasture, they fed six tons of hay, valued at \$72, and a ton and a half of barley chop, valued at \$40. This makes the net revenue from each cow, approximately \$100. They had all the milk, cream and butter needed for home consumption in addition.

materially in making our semester's work successful. Considering that the questions covered the whole year's work, a majority of the 8th graders made a very good showing. The test will be an incentive to do more intensive work and thereby insure success in May.

The 7th grade made a fairly good showing but as a class, too many are of a happy-go-lucky, I-don't-care type, which is not conducive to the best results.

ITEMS OF INTEREST FROM SOUTHWICK

Written for Gazette by Special Correspondent

Mr. and Mrs. Clarence Henderson and little daughter of Potlatch came in Sunday for a few days visit with his parents, J. W. Henderson and wife. Clarence is laid off from work on account of a broken finger, however it is getting along nicely.

Ray Luffman arrived from Camas, Wash., Monday evening for a visit with his parents, Mr. and Mrs. Luffman at Cavendish.

Rowena Russell spent the week end at the home of her aunt, Mrs. Ray Southwick of Cream ridge. Mr. and Mrs. C. A. Cuddy went to Lewiston, Sunday, returning home the following day.

Wm. Baker of Orofino is visiting at the home of his sister, Mrs. Darl Wright.

Funeral services were held at the M. E. Church, Tuesday, by Rev. George Pinke, for Bert Kimberly, who died at his home near Crescent last Saturday. The remains were laid to rest in the Southwick cemetery.

R. M. Wright and son, Darl and Wm. Baker went to Lewiston, Monday, on business.

Wm. Stamp and wife spent Monday evening at the home of Fred Weyen.

Mrs. R. M. Wright received word Sunday morning of the death of her sister, Mrs. A. D. McCoy at Jacksonville, January 25th. Mrs. McCoy will be remembered by her many friends, as she lived near Southwick for a number of years.

Miss Esther Whiting spent the week end in Leland at the home of her uncle, Claud Craig.

Mr. and Mrs. Fairley, Mr. Isaman, Miss Penney and Miss Hartung attended the teacher's meeting in Lewiston last Saturday.

Mrs. Wm. Jones was the dinner guest of Mrs. George Jones Tuesday.

Sunday guests at the home of J. R. King were, Mr. and Mrs. Floyd Russell and family, Mr. and Mrs. Elton McCoy and Mr. and Mrs. Ben McCoy and two daughters.

Mr. and Mrs. Floyd Russell were the dinner guests of friends in town last Friday.

The high school will give a play at the school house Saturday evening, entitled "Cyclone Sally". A small admission will be charged and the proceeds will go toward paying for the piano.

A very distressing accident happened at Wright's mill one day last week, when Comadore Perry, who was running the donkey engine for decking logs, slipped and fell, catching his left hand in the gearing, tearing his hand off at the wrist. He was immediately hurried to Lewiston for treatment at one of the local hospitals. Last reports are that he is getting along as well as could be expected.

A large crowd from in and around Southwick attended the services held at the Cavendish school house, Sunday evening by Rev. K. O. Pearson of Peck.

Horse Sale February 12

A carload shipment of Montana horses will be sold at Boyd's corral in Kendrick, Saturday, February 12. The horses are being shipped here by Gordon Harris and Mr. Cabe. They are young horses weighing from 1200 to 1500 pounds.

This is the second carload that Mr. Harris has been instrumental in bringing to this country. Two carloads were sold here last spring and it is reported that those who purchased this stock were well satisfied. For further particulars of this sale see ad in this issue.

Knew What She Wanted

Two old maids were planning for the holidays. "Anna," said the one, "would a long stocking hold all you'd want for Christmas?" "No, Elvira," responded the other, "but a pair of socks would."—F.x.

WEEKLY CHRONICLE OF LELAND NEWS

Happenings in And Around This Potlatch Town.

Mr. and Mrs. Robert Draper and family were Sunday visitors at the Marvin Vincent home.

Mr. and Mrs. L. L. Yenni took dinner Sunday with Mr. and Mrs. George Flesman.

Mr. and Mrs. Robert Smith entertained Mr. and Mrs. Hugh Parks and children at dinner Sunday.

Wm. Behrens spent several days last week in Moscow on business.

Dinner guests at the James Helton home Sunday were Mr. and Mrs. B. F. Flesman, Mrs. Lund, Kenneth and Francis Lund and Mr. Goudzward.

Mr. and Mrs. J. M. Woodward and family spent Sunday at the home of Mr. and Mrs. Russell Smith.

Jim Cook has rented the F. P. Easterbrook place and expects to move there in the near future.

Mr. and Mrs. J. E. Flesman entertained Rev. and Mrs. Gibbs at dinner Wednesday evening.

The three teachers, Mr. Calvert, Mr. Snyder and Miss Powell attended the Teacher's meeting at Lewiston Friday and Saturday. While there Mr. Calvert began arrangements for a high school track meet to be held at Leland sometime in the spring. The grade track meet for the county will be held at Southwick the latter part of April.

Donald Rodgers, recently from California, entered high school this week. The boys are pleased as the basket ball team is considerably strengthened.

Mrs. Ben Hoffman spent the week end visiting her parents in Clarkston.

Mrs. Gibbs was a visitor with the Glee Club Tuesday evening at the home of Mr. and Mrs. Calvert.

Red Cross Pharmacy Sold

The Red Cross Pharmacy, which for the past ten years has been owned by R. D. Newton, was sold Wednesday afternoon to Frank Nesbit of Juliaetta, who took immediate possession. The deal came as a complete surprise to the people here.

The Red Cross Pharmacy, for many years, has been one of the best paying business institutions in Kendrick and Mr. Newton has done exceptionally well since he took over the business. His only reason for selling is that he desires to move to a larger town.

Everyone in the entire Potlatch community will regret exceedingly to have this fine family leave. There are no more popular or public spirited people in Kendrick than the Newtons and they have made many warm friends here.

Mr. Newton has no definite plans in view but expects to leave soon to look up a new location. Mrs. Newton will probably remain until school is out, or until they dispose of their residence property.

While the people here regret losing one good family, it is encouraging to know that the new proprietor, Mr. Nesbit and his wife, will be a distinct addition to the community life. Mr. Nesbit is an experienced pharmacist and has conducted drug stores Ferdinand and Juliaetta. He has been very successful in a business way and will undoubtedly do well here. It is understood that he will move the stock in the Juliaetta drug store to Kendrick and combine it with the Red Cross Pharmacy stock. Mr. Newton took the furniture and fixtures of the Juliaetta store in on the deal and will probably move them when he locates.

Poultry Short Course

The second annual poultry short course at the University of Idaho, Moscow, will open February 7, continuing to March 7, it was announced recently by Professor R. T. Parkhurst of the poultry husbandry department of the university.

Bought Garage Building

Adam Wagner arrived last Saturday from Farmington, Wash., to close a deal for the sale of the concrete garage building, which for the past four years has been leased by Deobald Bros. of the Kendrick Garage Co. The building was purchased by Deobald Bros., the consideration being slightly over \$3,000. The new owners have already made substantial improvements during the past year by installing a gravity gasoline system. They expect to make other improvements in the building during the ensuing year.

Death of Frank Farrington

Frank L. Farrington, for many years a resident of the Linden community, passed away at his home on Cedar Creek ridge last Saturday. Death was due to cancer, from which malady he had suffered for several years. His death came as a blessed relief from the terrible disease with which he had been afflicted for so long a time.

Mr. Farrington was born in Salme County, Kansas, March 7, 1866, where he lived until he reached the age of 21 years when he came west and took up a homestead near Linden, Idaho, which has been his home since. August 8, 1891 he married Eddy Ann Berriman and to this union two sons were born, Gus and James, both now residing near Linden.

He had been a member of the Baptist church for the past thirty years and was a man who was held in the highest respect during his long residence in this community. He is survived by two sons, two brothers, William of Beverly, Kansas; George of Brookville, Kansas, and one sister, Mrs. Ella Hall of Brookville, Kansas.

Funeral services were held at the Linden church, Monday morning, Rev. Lester Taber, Methodist minister of Kendrick officiating. Interment was made in the Linden cemetery.

Big Lodge Meeting Monday

Next Monday evening the Odd-fellow lodges of Kendrick and Leland will hold a special meeting at the Fraternal Temple here. Seven candidates from Leland and five from Kendrick will take their first degree. The degree team from the Lewiston lodge will have charge of the work.

After the lodge work lunch will be served. It is expected that the meeting will be well attended. All members in this vicinity are cordially invited to be present.

Received Carload of Tractors

Wm. Behrens who has been busy all winter selling Cletrac tractors, received his first carload shipment Monday. There were five machines in the car, two of them being the new "Thirty". Mr. Behrens says he has these tractors placed and is expecting another carload shipment in the near future. He sold a number of machines in various localities in the Potlatch last summer. The machines are on display at the Kendrick garages.

Junior Musical Club

Tuesday night the Junior Musical Club met at the home of Marjorie Davidson. This club which meets once a month at the home of one of the members, has as its object, the development of musical appreciation by studying various composers, and the cultivation of assurance by playing for each other. The officers are: President, Mrs. R. F. Brown; Secretary, Eleanor Harris; Treasurer, Marjorie Davidson. Each member is entitled to a membership pin, which is shaped like a lyre. So far the work has been most successful as everyone shows an active interest in it. The members are hoping to present an operetta sometime during the spring.

Raise More Spuds

Densmore Stevens, president of the local potato growers' association, attended the big potato meeting at Moscow, Saturday. He says it was a cold trip, but he was well repaid for his trouble. He learned many things about spuds, their care and culture and their importance as a staple crop, which he will pass on to the growers at their meeting in February.

A nationally famous authority who attended Saturday's meeting said that this section produced the finest potatoes in the world. He seemed astonished to find that we don't seem to know it and make the potato one of our principal crops.

Incidentally, when Mrs. L. O. Beyer, who recently went to New York, went into the dining car for lunch she found prominently displayed on the bill of fare "Idaho Potatoes." It is well known that railway dining cars serve only the best, and they get their potatoes from Idaho, though other states produce spuds by the train load.

Experts will attend the local meeting in February, and growers may rest assured that they will get important information at that time. No man can know so much about any subject that he cannot learn still more; or of if he has reached that stage, he should never miss an opportunity to bestow a part of his unlimited knowledge upon his less fortunately endowed fellows.—Deary Press.

Bank Deposits Are High

In looking over the financial statements of the two local banks it was found that the total deposits reached the magnificent sum of \$675,023.94—not so bad for a small town. However it is doubtful if there is another community of like size that can show any more deposits than can the banks of Genesee—and this section of the country is as prosperous in all ways as can be found anywhere.

Our farmers are thrifty and frugal and most of them are well prepared for that proverbial "rainy day" that we hear so much about.—Genesee News.

Cupid Loafs on Job

Two cold spells during January must have hampered Cupid's style in his efforts in Latah county, for only eight licenses were issued from the auditor's office during the past 31-day period. The total is considerably less than that of last year. Normal months find Cupid allowing 13 to 15 couples to be united, although the office spuds that winter months are not especially attractive for those embarking on the matrimonial bark. Fall months have been favored for the past two years with October this year seeing 26 licenses issued.

January and February finds only one license department really busy, and those licenses, good for only a year, may be found on the back of almost any Latah county car.—Star-Mirror.

Store Closes

O. H. Lemberg, who has conducted a second hand store here for the past year recently disposed of his property to Elmer Green. Mr. Lemberg shipped his stock to Moscow where he had purchased the stock of the St. John second hand store and rented the building occupied by it. He will continue a second hand store at that place for a time at least but will later take up other work. Mr. Lemberg's departure leaves a good opening for a second hand store in Troy.—Troy News.

Cecil Emmett was a Lewiston visitor over the week end.

It is the busy dollar that makes good times. Keep your dollars moving fast enough and some of them will come back to you—if you don't move them too far away.

Ed Howe: Of all people I know anything about, telephone girls are the most polite and patient altho treated more impatiently and unjustly than any other class, I recommend that respectable young men marry telephone girls.

The writer heard the idea expressed somewhere that one reason why the bootlegging business is such a hazardous game is because a company of bootleggers can't draw up a valid contract—each has to trust to the other's sense of honor and a man with honor won't engage in the bootlegging business.

Four years ago the budget of the General Motors Company called for an expenditure of five million dollars for advertising. The announced sum for 1927 is twenty million as a minimum, with an additional ten million available in case the twenty million proves inadequate to the schedule outlined. Incidentally, 4,700 weekly newspapers will be used as part of the plan to carry the messages of the General Motors to the reading public.—Caldwell News.

A business must have vision and optimism to spend 20 million dollars for advertising, but they are two of the chief requisites of a successful business man and he must have both. He may have optimism and believe that he can mooch enough business from the advertising of the live merchant, without spending any of his own money for advertising purposes, but he is entirely lacking in vision and experience will verify the statement. There are men in business in Kendrick who would shudder at the idea of spending \$100 a year for advertising purposes. They might well spend four times that figure on a carefully laid advertising program and get big returns on the investment.

Kendrick Wins From Culesac

In a fast and hotly contested game played here last Saturday, the local high school basketball team nosed out with a two-point lead at the end of the last period. Culesac has a heavier, rangier team than the locals but couldn't quite keep up in speed. It was a good game and close from start to finish. Kendrick showed improved team work and fewer individual stunt plays.

This week end the locals play at Genesee and they are looking forward to a hard game.

Birthday Party

A surprise party was given on Mr. A. E. James at the home of Mrs. W. Buchanan, Tuesday. It was given by the Baptist people in honor of Mr. James' fifty-fourth birthday. The party was an all day gathering and a sumptuous dinner, brought in by the crowd, was served at noon. Before adjournment in the late afternoon all voices joined in the singing of hymns, and a prayer seemed to be the proper closing of the joyous day.

Sustained Painful Injury

Comadore Perry, who was employed at Wright's sawmill, up in the Cedar Creek country, got his left hand caught in the cogs of some wheels. Three of his fingers were torn off, leaving only his thumb and little finger and a small portion of his hand. He was taken to a Lewiston hospital where the doctors found it necessary to amputate the remainder of his hand at the wrist. He is still at the hospital under the doctor's care, but his injury is about passed the danger mark.

Juliaetta School Notes

This semester, in place of Commercial Law and Commercial Arithmetic, the classes are taking up Elementary Economics and Commercial Geography.

The members of the senior class have ordered several plays from which they will select one for their senior class play to be given about the first of March.

The high school is planning a Lincoln program for Friday afternoon.

The students who made grades of 85 or more in the state examinations were: William Whalen, spelling; Gleata Gallaher, history; Alice Harris and Adrian Johns, history and hygiene; Carol Groseclose, geography.

The seventh and eighth grade pupils are completing their drills for Palmer Method Merit pins this week.

The eighth grade Civics class members were assigned cabinet officers this week. Each pupil is preparing a paper on his officer, discussing his name, duties, and important events taken from the Current Events Magazine.

Those neither absent nor tardy in the 7th and 8th grades for the month ending January 28th were: Everett Bowen, Carroll Groseclose, Helen Halliday, Clair McCall, Ralph Millard, Helen Snyder, Ruby Spray, Thelma Spray, Alice Harris, Adriar Johns, Elizabeth Whalen, William Whalen.

Those neither Tardy nor absent in the intermediate room last month were: Fay Cochran, LaVern Hutchison, Addie Sams, Dorothy Bowen, Opal Spray, Pearl Richardson, Flora Perry, John Woodruff, Earl Gruell, Gertrude Gruell, Jack Claypoole, Windifred Gutlrie, Sasey Perry, Hazel Richardson.

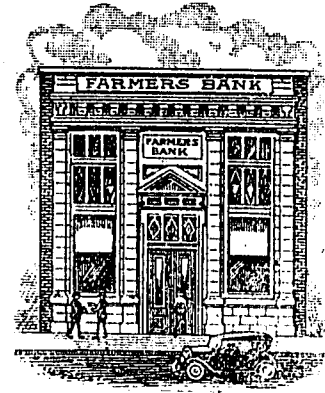

The room is enthusiastically working on valentines. Each youngster is going to remember his parents, brothers, sisters and friends.

The fifth grade geography class is traveling in Asia. They have visited the Holy Land, Persia and Turkey. They are now riding on the Trans-Siberian railway. They have crossed the plains, the Yenesei river, and are now ascending the mountains before entering China.

In order that the writing period may not become mechanical or uninteresting, the primary department is busy with an all year project. On Thursday each child is given a sheet of paper with a carbon copy to illustrate the topic the class has been studying about during the week. The picture is colored at the seat work period; then at the writing period the next day they copy an appropriate stanza underneath. On the next Friday, they color, cut out, and paste a picture to represent the week's study topic, at the top of their writing sheet. They prepare one sheet each week. This is an incentive to the children, as they can see the progress in a material way; as the work is displayed they note their individual improvement in cleanliness, straight margins and legible writing. At the end of the year they will be made into books and taken home.

Potato Relieves Burns

Freshly scraped Irish potato is credited with being one of the best treatments for burns, says the Pathfinder Magazine. The potato is scraped to a pulp and the burn covered over with the wet pulp. When this has dried another application is made. The moist potato pulp is said to exclude the air, relieve the pain and promote healing.

Mutual Benefit

Miss Lucile Grinolds returned the first of the week to Lewiston after spending two weeks here with her mother.

Jack Pickerd of Troy was a Kendrick visitor the first of the week.

A trainload of ice went thru Kendrick Wednesday morning. It was said to be supplying the employes of the company along the line. There were so many trains and cars on the tracks that the morning passenger had to take the siding until one of the freights got by.

Harry Ameling was a Lewiston visitor yesterday.

Percy Ware moved to one of the Collins' brick cottages Tuesday of this week.

Fred Crocker returned last Friday from Elk River where he was working in the woods. While driving a team in the logging camp he was struck in the side by the end of a log and quite painfully injured. He expects to return to work as soon as he has recovered.

The Kendrick orchestra is advertising a dance to take place at Peck tonight.

Charlie Summerfield and two of his deputies, Pat Malone and Roy Garrison were in Kendrick on business connected with their office the first of the week.

The Presbyterian orchestra will make its initial appearance at the Sunday morning church service. It is a seven-piece orchestra and the members have been rehearsing for the past two weeks.

Clarence Bell, who, after being graduated from the local high school, held a position with the Kendrick Store Co., and later went to Orofino, was recently made manager of the Netzel Store at Orofino. He is doing very well there.

The Woodcraft Thimble Club spent the afternoon with Mrs. Minnie McDowell last Saturday.

J. C. Bibb was a passenger on the afternoon train, Wednesday for Lewiston.

The Misses Ella Butler and Rachel Riley were Moscow and Troy visitors, Saturday and Sunday.

Mrs. R. H. Ramey entertained the members of her Sunday School class at a delightful party at her home Wednesday evening. Games were played after which dainty refreshments were served.

The town council met last Tuesday evening in regular session. All members were present. The board now consists of E. T. Long, M. O. Raby, R. D. Newton, E. H. Dammarell and E. A. Deobald.

Crescent Clippings

We regret to report the death of Mr. I. B. Kimbley, who passed away Saturday, January 29th. Mr. Kimbley had been ill only a few days and his death was a shock to the community. We extend our sympathy to the bereaved family.

The Crescent school has been closed since the twenty-first of January on account of scarlet fever.

Mrs. D. J. Hammond left Sunday to visit her son, Fred Hammond of Orofino. Mrs. Hammond has spent the last few months with her daughter, Mrs. John Darby.

Sue Robeson returned home, Sunday from Agatha, where she has been staying with her sister, Mrs. Art Anderson.

Mrs. Wm. Dorendorf visited with Mrs. John Darby Saturday afternoon.

Popular Young People Wed

The wedding of Miss Coryell S. Wilson of Kendrick to Mr. Leonard Albert Wolff of Leland was solemnized at Lewiston, Wednesday at the Lutheran parsonage, Rev. Knorr, officiating. The wedding came as a surprise to the many friends of the young couple.

The bride is the daughter of Mr. and Mrs. A. G. Wilson, pioneer residents of this section. She had a position at the local telephone exchange several years ago and has a large circle of friends in this locality. Mr. Wolff is the son of Mr. and Mrs. Herman Wolff of Leland, who are prominent farmers of that community. The happy couple will make their home near Leland where Mr. Wolff is engaged in farming.

BEN FRANKLIN RATED FERTILITY ABOVE MONEY IN THE BANK

Back in the days when Benjamin Franklin trod the streets of Philadelphia, many gems of Franklin wisdom went out of that city and into the copy of books of forthcoming generations. One of Franklin's best was, "The best investment is a deposit of fertility in the soil bank—surest and pays the best." True in that day of virgin soils, and truer by far today!

Since Dr. Franklin made that farsighted observation the boundaries of American agriculture have been pushed west, south, and north in our nation. New soils have been made old soils. The preservation of soil fertility has become a problem of vital importance to agriculture.

Thousands of experiments have been made. Many commercial fertilizers have been developed. But in most sections the old reliable barnyard manure remains the outstanding fertility restorer. Always considered a by-product of livestock production, in these days of highly intensive farming it assumes a role of first importance. No farmer can afford to waste its life-giving fertility.

Common sense says that every forkful should be put on the fields. The McCormick-Deering Manure Spreader makes this a comparatively easy task. Loads can be lifted easily over the low sides of the McCormick-Deering, after which the light-draft spreader carries the manure to the fields and spreads it uniformly and finely over the ground. Some pull their spreaders with their Farmall tractors. Others use horses or regular tractors. In any event, the work they do is of the most profitable kind.

If you are not now taking advantage of the McCormick-Deering Manure Spreader, we suggest that you talk to us about one for immediate use.
