A large crowd attended the game between Lapwai and Kendrick high school teams, played here last Friday evening. Lapwai took the game by a five point lead but earned every score. The visitors lead by 7 points at the half, the locals diminishing the lead in the second period. It was a hard fought battle and close enough to provide plenty of thrills for the spectators.

Death of William Benner

William Benner one of the early pioneers of Cedar Creek community, passed away at his home near Linden, Monday, February 14 after a lingering illness. Death came peacefully after his many months of suffering. His death was caused from cancer.

William Benner was born at Peru, Indiana, December 27, 1851. He came to Cedar Creek ridge in 1883 and was one of the first four men to take up a homestead there. The first winter Mr. Benner, in company with Mr. L. Elliott, Wm. Ellis and J. T. Smith lived in one cabin. These sturdy pioneers were the men who blazed the way for the development of what is now a beautiful farming country. At that time it was a virgin forest.
Mr. Benner lived an upright life and was always interested in anything that was for the betterment of his community and always aided any forward movement. He is survived by a host of friends, a brother, George, who lives in Indiana; 2 sisters, Mrs. Mary Miller and Miss Margaret Benner of Carrigayo, New Mexico.

Funeral services were held at the Gold Hill church in charge of Rev. Ira Luce at 11 o'clock Wednesday morning. Interment was made in the Linden cemetery.

W. O. W. Entertain

The usual big time was had at the annual Woodmen entertainment, given Wednesday evening at the Fraternal Temple. A fine crowd was present and everyone spent a delightful evening. An interesting program was rendered after which refreshments, cards and dancing were enjoyed.

Bound to District Court

Wilbur C. Pettibone, Grangeville, was bound over to the district court late Tuesday afternoon by Judge Adrian Nelson, probate judge, on a charge of violation of the prohibition laws while carrying a concealed weapon, says the Star-Mirror. Bond was continued and the hearing set for the spring term of court here in April.

The witness stand was occupied by four witnesses for the state with none appearing on behalf of the defendant. Sheriff Charlie Summerfield was the principal witness and was the first to take the stand. Pat Malone, deputy, followed him and later two witnesses to firing of the shot testified.

Belief was expressed by two of the witnesses that the gun was of a small calibre, and although they could not determine in which direction the shot was intended, they were sure of seeing the besh and of hearing the report.

Baseball Benefit Dance Feb. 25

Announcement was made yesterday that a baseball dance will be given at the Fraternal Temple next Friday night. The Kendrick orchestra has kindly consented to donate their services for the occasion. The advertising and lunch will also be donated so that it is expected the receipts from the dance will net the ball team a goodly sum. Everybody is most cordially invited to be present.

A Surprise Party

On February 11th, Andrew Lien was pleasantly surprised by nineteen relatives and friends, the occasion being that of his sixtieth birthday. At noon a sumptuous dinner was served, this being a treat furnished by the relatives. A large white angel food cake was the center of interest and was covered with candles. A springtime atmosphere was furnished by a beautiful pot of golden daffodils. After dinner Mr. Lien was presented with a two-tone chime clock. Rev. Hesby of Deary gave a talk very appropriate to the occasion. The day ended pleasantly with everyone wishing Mr. Lien many more such happy birthdays.

Horses Sold Well

The carload of horses shipped here from Montana by Cabe & Harris, brought very satisfactory prices. They were sold here last Saturday at Public auction and averaged \$50 a head. There were 21 horses in the shipment and some of them were too light to bring big prices. However the sale was considered a success. A big crowd was present during the entire sale, showing an interest in horses in this community.

Heads Sheriff Organization

At a meeting of the Inland Empire Sheriff's Association, held at Lewiston, Thursday afternoon and evening last week, Charles Summerfield, sheriff of Latah county, was elected president of the organization, which has as its object greater cooperation between sheriffs of the various counties.

COMMERCIAL CLUB

MET LAST TUESDAY

Held Regular Session at Commercial Hotel.

A very enthusiastic meeting of the Kendrick Commercial Club was held at the Commercial Hotel last Tuesday evening. It started under most auspicious circumstances as Mrs. McDowell had prepared a particularly fine dinner and it received its full share of attention.

In the absence of the chairman, Joday Long, who was ill, the vice-chairman, E. H. Dammarell, presided. Minutes of the previous meeting were read by the secretary, Dr. McKeever, after which bills were audited and reports of the various standing committees received. Frank Boyd, chairman of the membership committee, reported that his committee was starting on a drive for membership and for collection of back dues this week. It is expected that there will be a paid up membership of at least forty by next meeting, which is the second Tuesday of March.

The proposition of celebrating the Fourth was brought up and by unanimous vote the decision was favorable. Committees to have charge of the celebration will be left to the regular chairman for appointment.

A board of six members was appointed by the chairman to elect a baseball manager and a finance committee for the ball club. The committee was composed of G. P. Barnum, Marvin Long, J. G. Gardner, R. B. Knepper, Tom Blevins and A. H. Daubenberg. The club voted to pay a deficit of \$41 incurred by the baseball season last year. This will give the ball team a clean slate to start the season.

Frank Nesbit, who recently purchased the Red Cross Pharmacy, was called on by the chairman for a talk. He expressed his desire to be considered a member of the organization and stated that he would always be found willing to do his part toward assisting in anything for the good of the town. His remarks were well received.

The sentiment was very strongly expressed that the meetings of the club be held regularly on the second Tuesday evening of each month and that in the event anything else of a public nature conflicts with the regular meeting night, then the following Tuesday evening be devoted to commercial club work.

Those present at the meeting were: E. H. Dammarell, C. F. Byrne, Rev. Taber, Thos. McDowell, John Dammarell, Rev. Lanphere, Marvin Long L. S. LaHatt, Geo. Barnum, Tom Long, A. H. Daubenberg, Dr. McKeever, Ralph Knepper, N. E. Walker, Frank Nesbit, Prof. McCracken, Prof. Lynch, Frank Boyd and Paul Schulze.

Appoint Baseball Manager

The committee of six, appointed Tuesday evening at the commercial club meeting to have charge of selecting a baseball manager and a finance committee, met Wednesday morning. Ira Bolon was appointed manager of the team. He has showed keen interest in baseball here for the past ten years or more and has been a regular member of the team during that time. His appointment seems to be generally satisfactory. Two members were appointed on the finance committee, Marvin Long and Joe Gardner, and they are to select the third member. The committee has already arranged for a benefit dance to be held next Friday night.

Clipped From Papers Published in Latah County.

Rodent Control Gains

More than 450,000 pounds of poisoned bait and about 20,000 pounds of calcium cyanide were employed to fight rodent pests in Idaho during the last year, according to the report of W. E. Crouch, state rodent control leader.

The 1926 war on rodents was the most active ever waged in the state. The poisoned bait figure represents an increase of 60,000 pounds over the amount used in any previous year, and 400,000 more acres than ever before were involved—the poison was applied on approximately 3,000,000 acres of land during the year.

To encourage the poisoning of rodents the control office continued its plan of buying strychnine and saccharin directly from the manufacturers and distributed to them at cost. Under this arrangement more than 32,000 ounces of strychnine and 3000 ounces of saccharin were supplied for work on private lands; with savings involved of approximately \$20,000.—Star-Mirror.

Want Potato Growers' Ass'n

At the last meeting of the Genesee Farmers union the question of forming a potato growers and marketing association in Genesee was taken up and discussed at length, to the end that a committee was appointed to make inquiries as to the feasibility of such an organization and report at the meeting to be held in the American Legion hall next Saturday afternoon.

The object of the association, if formed, would be for the betterment of all potato raisers; to study the situation thoroughly and try to raise the standard quality of potatoes for the market; to form a marketing association that would have charge of the sales, the same as the Farmers union handles the wheat and other grains of the members; to erect and maintain a suitable warehouse and storage plant, equipped with the necessary machinery for sorting, handling and grading of potatoes.—Genesee News.

Early Chickens

During a pleasant call at the News office, Mrs. Charles Carlson gave us the most unusual record of a Barred Rock hen in her flock. This hen was hatched May 1, 1926. At 4 months of age she began to lay and after laying about 80 eggs, began to set. Mrs. Carlson gave her 15 eggs, which she faithfully hovered during the sub zero weather, hatching 11 fine chicks February 4th. Some record for a pullet only nine months old. Troy News.

Another Landmark Gone

The old Dry Creek sawmill has been dismantled and the machinery sold. At present the big boiler is being taken down and will be taken to the Johnson-Lewis mill, near Park, and added to their equipment. Fritz Peterson and Ole Bjorklund are moving the boiler. The Dry Creek mill, which was one of the country's landmarks, was operated for many years by the Troy Lumber Company.—Deary Press.

A Daylight Holdup

John Galloway, who returned last Friday from California, isn't very much impressed with some parts of that state. While waiting for a train at Sacramento he took a stroll around a nearby park. It was broad daylight and apparently safe enough. As he rounded a corner on his way back to the station a man stepped in front of him and said: "Give me a dollar or I'll knock you down." There's nothing cheap about John. He handed the stranger a five dollar bill and made his escape.

Early Hatching is Best

Early hatching has become very important in Idaho, according to R. T. Parkhurst, university poultry husbandman.

In most sections of the state, he says, it is best to hatch in March so that the pullets will be fully matured and in the laying house by August 15 or September 1. Pullets should be in full lay early in September to give the greatest profits for the year.

The high price period for eggs now extends from October 1 to January, with the peak in November or early in December. A few years ago the high prices continued into February and early March.

Indications at this time are that the present session of the Idaho legislature is going to get by without doing the state any serious damage. As a rule the public draws a long sigh of relief when a session closes.

A Farmers' Institution

Mr. Farmer, do you do business through the bank? If not, why don't you? There was a time when the bank was considered beneficial only to the capitalist. The present day sees it of equal benefit to all and a necessity for the practical farmer. There are farmers who have not yet learned the convenience, safety and profit that a bank account affords, but those now using it are accepted at once as up-to-date, thrifty and business-like. Not alone as a safe and convenient place to leave his money, but as an ever ready resort in case of necessity of financial assistance does the average farmer view his bank. This bank is especially interested in the affairs of the farmer and it ever looks to their conveniences and necessities.

Girls Are Shy in Kansas

A Kansas scribe tells how shy girls are in that notorious state as follows: A Neodesha girl is so bashful that she cannot see a sleeping car without blushing; an Altoona girl who would faint at the sight of undressed lumber; a Cherryvale girl who locks herself in her room when she changes her mind; a Fredonia girl who never thinks of retiring without a copy of the Christian Observer in her room; an Independence girl who is so shy she will not wear undressed kid gloves. But all of these pale into insignificance beside the Chanute girl who shies at the bare truth of naked facts and has eliminated from her vocabulary garden hose, bureau drawers and dogs pants and always turns her head when she sees the salad dressing. The same damsel refuses to remain in the office when the forms are being made up. At Thayer there is a girl who will not enter a potato patch for fear that the eyes of the potatoes will notice her ankles and at Sycamore she has a sister who, when she wears her wrist watch on the inside of her waist, removes the hands.

Teaching Religion

A great schoolmaster was asked "When do you teach religion?" The answer was: "All day long. We teach it in arithmetic by accuracy, in language by learning to say what we mean, in history by humanity, in geography by breadth of mind. We teach it in handicraft by thoroughness, in astronomy by reverence, in the playground by fair play. We teach it by kindness

to animals, by courtesy to servants, by good manners to one another, by truthfulness in all things, and by showing the children that we, their elders, are their friends, not their enemies."
