No. 16

THRILLING BALL GAME PLAYED HERE SUNDAY

Uniontown Wins by Close Score of 3 to 2.

In one of the fastest games seen here for many moons, the Uniontown-Colton team defeated the locals by the narrow margin of 3 to 2. Up to the eighth inning Kendrick led 2 to 0, but with one earned run Uniontown netted two more in the eighth. With a man on second and third, an overthrow over second caused the scores.

In the last of the ninth the locals staged a beautiful batting rally and would have easily won the game except for a decision on second base favoring Uniontown, which ruined their chances.

Weather conditions were anything but favorable on account of a cold wind, but in spite of this the game was fast from start to finish. With only three errors to account for, Kendrick's record was more than could be expected for the first game, while the veteran Uniontown team made five.

Sparber's pitching featured the game. He secured 12 strikeouts and demonstrated the fact that he could tighten up to the desired degree in the pinches. He had good control, speed, curves and a change of pace.

One of the sensational plays of the game was a running catch by Harry Flaig in left field. It was a spectacular effort and brought forth the cheers of the crowd.

The locals feel that they will have no harder team to go up against this season than the Uniontown aggregation. They have a real ball team made up of experienced players.

Following is a resume of the game in detail:

Uniontown	Ab	R	H	SO	E
Hattrup, cf.	5	0	1	2	0
Thiel, 1	5	1	0	2	0

Score by Innings

Uniontown 0 0 0 0 0 0 3 0
Kendrick 0 2 0 0 0 0 0 0

Klotsch for Uniontown allowed 2 hits, struck out 4.

Schornhorst for Uniontown allowed 4 hits, struck out 6.

Sparber for Kendrick allowed 3 hits, struck out 12, hit by pitched ball 1.

Umpires: Ramey and Schewenne.

Result of Other League Games

Pomeroy defeated Clarkston at Pomeroy Sunday by a score of 7 to 6. Clarkston led at the beginning of the eighth inning with a score of 6 to 0, and Pomeroy rallied in the eighth scoring 2 runs and 5 more in the ninth.

Juliaetta won from Culdesac on the latter's diamond, by a score of 6 to 2.

Schedule for Sunday, April 24

Kendrick at Juliaetta.
Culdesac at Clarkston.
Pomeroy at Uniontown.

League Standing

Team	Won	Lost	P.C.
Pomeroy	1	0	1.000
Uniontown	1	0	1.000
Juliaetta	1	0	1.000
Kendrick	0	1	.000
Culdesac	0	1	.000
Clarkston	0	1	.000

Low Temperature Tuesday Night

Early Wednesday morning the thermometer registered 20 degrees above zero in Kendrick. It is said that much damage has been done to the early fruit such as peaches, apricots and cherries. It was the lowest temperature ever recorded for April in this section.

LOCAL CAMPFIRE GIRLS WILL STAGE PLAY

To Be Given Next Thursday at New Kendrick Theatre.

The Potlatch Campfire Girls will present Mitsu-Yu-Nissi, or a Japanese wedding, next Thursday night, April 28, at the New Kendrick Theatre. The play opens with a scene from the American college where Mitsu, the Japanese girl, has been educated. The following scenes are laid in Japan at the home of her father and mother, Asano and Mao-Na.

Mitsu was betrothed when a child to Kimura, a rich merchant of Tokio and her marriage is to take place upon her return to Japan. She falls in love with his son, Tasaku and they plan to elope, but their plans are changed by the priest, Senkai. The wedding scene in the last act is a fitting conclusion to a very pretty Oriental romance.

The evening's entertainment will open with Campfire songs and pretty Japanese chorus girls will entertain with clever songs and dances between acts.

Wednesday afternoon at 2:30 o'clock a matinee will be given for children below high school. The tickets for the children's matinee will be 15 cents. Tickets for Thursday night's performance will be, adults 40c, children 25c.

Cast of Characters
Asano-Yu-Nissi, a nobleman of Tokio, Marjorie Davidson.
Mao-Na, his wife, Hester Knepper.

Mitsu, their daughter, Eleanor Herres.

Masatsura, her little brother, Elizabeth Carlson.

Kimura, rich merchant of Tokio, Ethel Cummings.

Tasaku and Yoma, his sons, Helen Clem and Rowena Ramey. Senkai, a Buddhist priest, Burneda Cummings.

Yuki and Haru, Japanese girls, Edna Bolon and Doris Emery Temple Boys, Bessie Blevins and Nettie May McDowell.

American College Girls: Helen Morton, Edna Santon; Lucy Brown, Lillian Long; Peggy Lampton, Marjorie Davidson.

Freshmen: Bessie Blevins and Nettie May McDowell.

W. O. W. Held Good Session

White Pine Camp No. 204, W. O. W. held a very interesting session last Wednesday evening. The local lodge had one candidate and the Juliaetta lodge one.

White Pine camp team putting on the work. A good representation from Juliaetta lodge was present. Next Wednesday evening White Pine Camp will visit the Juliaetta Camp.

On May 4, the local lodge will have a class to initiate.

District Manager Bateman paid the Camp an official visit and with his assistance they held a log rolling contest.

The members of the local Camp are looking forward to an open-air initiation to be held somewhere in the Lewiston district May 25.

Big Lodge Meeting at Leland

At a meeting of Leland Lodge No. 90, I. O. O. F., held last Saturday evening, the Kendrick degree staff conferred the second degree on one candidate and the third degree on two candidates. There were about 60 members present from Kendrick, Juliaetta and Troy. After the work was completed the Leland lodge served a fine lunch. Everybody reported a good time and ready to pay them another visit any time.

Name Changed to Spalding

After serving for almost a quarter century as a Northern Pacific station, the railroad, through Judge George T. Reid, Tacoma, vice-president, Monday gave official notice that hereafter Joseph will be discontinued as having identification with the road and would be known as Spalding.

Joseph has always been the railroad station for Spalding, the villages being directly connected. This step is taken at the instance of Representative Alex. Kasberg of Nez Perce county, who sought the aid of the state utilities commission to bring about the change. Spalding is among the most historic spots in the northwest. Bishop Henry Harmon Spalding and wife are buried there.

The village is held in great reverence by tourists and the change of the railroad station's name will serve to focus more attention on the spot. Spalding is 12 miles east of Lewiston.

Walter Thomas to Lead Band

The friends of Mr. and Mrs. Walter Thomas are glad to learn that they will come to Kendrick some time next month to make their home. Mr. Thomas will again be associated with the Kendrick Hardware Co. Incidentally the band will take a new lease on life under the direction of Mr. Thomas and a splendid musical organization is now assured. The band boys are delighted with present prospects.

Entertained Okoke Club

Dr. and Mrs. Geo. W. McKeever entertained the Okoke bridge club last Saturday night at a delightful bridge party. Guests for the evening were Miss Hooker Dr. Moorhead and E. H. Emery. High scores were won by Mrs. Daubenberg and Mr. Emery.

The occasion was Dr. McKeever's birthday and a big birthday cake decorated with candles, was served with ice cream and coffee.

Sold 200 Head of Cattle

Deaf Wright of Agatha, who operates a large stock ranch on the banks of the Clearwater river, sold 200 head of stock cattle the first of the week to an outside concern. The cattle will be taken to the mountains for summer range. This is one of the biggest stock deals that has been made here for years.

Band Held Meeting Tuesday

A business meeting of the Kendrick band boys was held at the city hall last Monday night with a good attendance present. It was decided to hold weekly rehearsals in order to get in shape for regular instructions when Walter Thomas returns. The meeting has been changed from Monday to Tuesday night of next week, after which the regular rehearsals will be held on Monday.

Bob Brown Acquitted

Bob Brown, who was tried last week on a charge of forging his father's name to a contract, was acquitted. The state failed to show that Mr. Brown was acting outside of his right to sign the contract as a member of the firm of J. F. Brown & Sons. Judge Steele instructed the jury to acquit Mr. Brown of the forgery charge.

Large Shipment of Hogs

One of the largest shipments of fine hogs ever to leave Genesee left Tuesday on the stock train. The shipment consisted of 245 head, requiring three decks of cars to load them, according to Frank Hoorman, manager of the Genesee Union Warehouse company. There are large numbers of hogs raised here and the shipments have been regular and of an excellent grade.—Genesee News.

Lad Shoots Sister

Merrill, 12-year-old son of Mr. and Mrs. Everett W. Hart, shot to death his eight-year-old sister, Hazel, at the family home Sunday morning shortly before noon as he was getting ready to go squirrel hunting.

The shooting was accidental. It occurred at the farm home northeast of Moscow. Just how it happened, Merrill did not know. He had gone upstairs to get his gun, an old bolt-action .22 caliber rifle, and coming downstairs, the gun in some manner discharged while pointed at the girl, standing in the doorway of the living room with a basket of Easter eggs she had just colored.

The little girl staggered to the dining room and died within a minute, the bullet penetrating her right lung. Both Mr. and Mrs. Hart were in adjoining room but did not witness the accident.

Merrill had been in the habit of hunting squirrels for several years and was accustomed to handling fire arms, his father said. The boy did not remember loading the gun and it is believed that a shell was left in it when last used about two weeks ago.—Star-Mirror.

Play at Juliaetta Sunday

The second game of the Valley League schedule will be played at Juliaetta next Sunday afternoon. A big delegation of rooters is expected to follow the locals to Juliaetta as a fast game is on the program for that day. Juliaetta has one of the best teams in the league and with Albright in the box will make a formidable aggregation for any team to take into camp. It is safe to say the game will be well worth the price of admission.

Prof. Lynch Goes to Post Falls

Prof. Lynch, principal of the Kendrick High School, has accepted a position as superintendent of the Post Falls, Wash. schools for next year. His work has been very satisfactory here during the school year. The Post Falls school is considerably larger than the school here.

Saturday Last Day to Register

Registration books for the village election to be held next Tuesday, will close Saturday evening, April 23. All those who did not register at the last village election, two years ago, must register in order to vote next Tuesday.

"Poverty Sociable"

The members of the Epworth League are going to give a "Poverty Sociable" in the basement of the Methodist church, tonight, (Friday). Everyone is expected to wear old clothes. Admission is two cents and eats fifteen cents. Also bring some pennies for fines. Everybody is invited.

Surprise Party For Oscar Slind

A surprise party was given Oscar Slind, April 11, in honor of his birthday. Twenty-six of his friends and neighbors were present to do honor to the occasion. A social evening was enjoyed after which refreshments were served. A three-color angel food cake was the center of interest and proved to be a delicious part of the refreshments. Everyone enjoyed the evening immensely.

Union Church Service Sunday

The Methodist and Presbyterian churches are holding a union service at the Presbyterian church, Sunday morning at 11:00 o'clock. The members of the Oddfellow and Rebekah lodges will attend in a body, meeting at the Fraternal Temple at 10:30 a. m., and marching to the church. Rev. Taber will deliver the address.

There will be special numbers by the union choir and the Odd-fellows quartet. Everyone cordially invited to attend.

Granted Power Line Certificate

The state public utilities commission this week granted the Potlatch Consolidated Electric Co. a certificate to build an electric power line from Troy to serve Deary and Bovill. The line will give these two towns 24 hour light and power service. The cost is estimated at \$35,000.

TO STRAY WORK ON THE ARROW-SPALDING ROAD

The Entire Distance Will Be Sur- faced Immediately.

The construction of the link of the Lewis and Clark highway between Spalding and Arrow Junction, known as federal aid project No. 33, will be under way within the next few weeks, says the Tribune. There will be approximately a half mile of new grade to construct, the remainder of the road having been graded to federal aid specifications several years ago. The entire distance will be surfaced.

The delay during the past two years has been on account of some uncompleted right-of-way and the approval of the Indian department where the road will cross Indian land held in trust by the government and where 100 per cent cooperation can be applied. The maps showing the location to the state highway were sent to the Indian department several weeks ago by O. H. Lipps, supervisor of Indian reservations, and through the efforts of Congressman Burton L. French quick approval was secured from the Indian department and the necessary papers have been forwarded to the state highway department at Boise.

The road committee of the Commercial club has been working on the matter of clearing up other right-of-way difficulties with the result that the county, the Clearwater highway district and the Lewiston highway district have joined in the appropriation of the necessary funds for the right-of-way deeds and these are now in the process of preparation.

Statement was made yesterday by Harland Hoyt, chairman of the Commercial club road committee, that all details necessary to the calling of bids for the improvement are now practically completed and that within a very short time the state highway department can call for the bids for the construction work and the actual road building should be under way before the end of spring.

Village Election Next Tuesday

The regular election of village trustees will take place at the city hall next Tuesday. Four trustees will be elected to serve for the ensuing term. But one ticket has been nominated, so that the names appearing on the election ballot will be as follows: M. O. Raby, T. A. Deobald, Herman Schupper and N. E. Walker.

Those desiring to vote at this election must register unless they registered here at the previous village election.

County Game Warden Appointed

E. C. Collins of Moscow has been appointed deputy game warden for Latah county. The appointment was made by the state game warden, R. E. Thomas. Mr. Collins succeeds Alfred S. Anderson who served three years. He took office last Monday.

Barber Shops Consolidated

Silvie Cook purchased the fixtures of the DeLuxe Barber Shop here the first of the week. The two shops are now consolidated. Earl Kulick will be associated with the Kendrick Barber Shop. One shop with two good barbers is enough for a town the size of Kendrick. It will make a good working combination.

Mrs. Louise Taylor will conduct her beauty parlor in the room at the rear of the barber shop. Mrs. Taylor's work has been very satisfactory and she is working up a good business here.

DIXIE JUBILEE QUARTET HERE MONDAY NIGHT

Will Appear Under The Auspices of Methodist Church Choir

A program full of fun and melody will be given at the Methodist church, Monday night, April 25, when the Dixie Jubilee Quartet will appear in concert. These singers and entertainers have been heard over the radio by local people and are said to be very good. Those who enjoy male quartet music will be pleased with the program which they will present.

The peculiar charm of the plaintive Southern melodies is imperishable. There is nothing so full of genuine sweetness as these old negro songs with all their simplicity and it takes the real negro to sing them as they should be sung. As rendered by the Dixie Jubilee Quartet these old plantation melodies take on new and more interesting charms. They get that harmonious blend of voices that always makes a male quartet so popular. Here and there they bring in the banjo in true Southern style. While the folk-lore songs are favored, the program is interspersed with many humorous and popular selections, which always meet with instant approval. These Grouch Removers cause many a hearty laugh.

The versatility of the company makes an intensely interesting and varied program possible. Mr. Morris, the first tenor, is a cartoonist of rare ability. In his chalk-talks his quick wit and rapid work with the crayons always provoke considerable merriment. It's hard to guess just how they are coming out. Mr. Starks, the second tenor, who possesses a pleasing tenor voice, also entertains with a group of instrumental numbers on the saxophone. The personnel includes a brilliant pianist whose repertoire ranges from the gems of grand opera down to modern popular numbers and includes some of his own compositions.

The flexibility of Mr. Stewart's fingers as they race up and down the keyboard will surprise you. He also plays the banjo and the ukulele. Mr. Bennette is a stringed instrumentalist of marked ability. In his hands the much abused Hawaiian ukulele played the American way, becomes a legitimate instrument.

He plays in the duo style in full harmony, carrying the melody and his own accompaniment at the same time, giving the effect of two instruments. However, the banjo is his favorite and when it comes to "pickin' on de ol' banjo" Mr. Bennette has few superiors. The faster he has to play the easier it seems to come. You simply can't keep your feet still. When Bennette and Stewart get together in the banjo and piano and try to beat each other to the end of the piece the fun begins. Hear these four clever artists.

Two Alarms Turned In
A fire alarm was turned in last Saturday evening about 8:30 and a crowd soon gathered in front of the Martin Thomas residence, but the fire proved to be a flue burning out. Fire Chief Ed Deobald had the hose cart on the job within three minutes after the siren sounded.

Another alarm was turned in Monday afternoon when an oil fire started near the stove at the rear of the Main Street Garage building. Paul Schulze, the proprietor, soon had the flames under control with no damage done.

School Election Quiet

At the annual school election, held last Saturday afternoon, an extremely light vote was cast, there being no opposition candidate filed against E. H. Emery, who was unanimously elected with 7 votes. The regular and special levy of 15 mills was also voted.

The board of trustees now consists of A. K. Carlson, N. E. Walker and E. H. Emery.

JULIAETTA COMMUNITY NEWS

**JULIAETTA PIONEER
TAKEN BY DEATH**
Funeral of James Groseclose Held Tuesday, April 19th.

James Albert Tyler Groseclose was born near Ceres, Bland county, Virginia, March 14, 1841, and departed this life at his home in Juliaetta, Idaho, April 14, 1927, at the age of 86 years, 1 month.

He served as a soldier for four years in the Civil War, was lieutenant in the 51st Virginia Regiment in the Confederate army and fought in many battles with the troops of his native state, for what they thought was right. He came out of many a hard fought battle without a scar.

On July 22, 1867 he was united in marriage to Miss Eliza Jane Groseclose, of the same surname, but a distant relative. To this union eleven children were born, three daughters and eight sons; two daughters and one son died in infancy.

Levi B. Groseclose, and Mrs. Bessie M. Shrewsbury, preceded him in death, and a grandson, James Woodrow, was accidentally shot and instantly killed, Dec. 14, 1924. His father Levi B. died two months later, Feb. 14, 1925. Bessie M. died Dec. 22, 1920.

The surviving children are: William J. and Edward J. of the Teakean vicinity, Rev. Albert L. of Norcatour, Kansas; Marion G., Grover C. and Houston L. of Juliaetta, Idaho.

He leaves to mourn his departure, his beloved wife, six sons, thirteen grandchildren, one step-granddaughter, two great grandchildren; one brother, A. D. Groseclose of Ceres, Virginia, and many relatives and friends.

He was presented to the Lord in Holy Baptism, in infancy, and he united with the Methodist Episcopal church at Ceres, Virginia, in 1895.

He had his faults as all other people have, but died in the faith and covenant relationship with Jesus Christ, who tasted death for every man. He was a good citizen and neighbor, honest and sincere, not boastful nor strong in his confessions but reserved in his spiritual convictions.

He was interested in education, relying largely upon self-development. He was a member of a school board having jurisdiction over ten schools in Bland county, Virginia, covering a period of twenty years or more, and was a pioneer member of the school board of Pilot Rock, on the Potlatch, at the time of its organization.

In 1902 he came to Idaho with his family and lived for a time southwest of Juliaetta. He homesteaded twice, both times relinquished his claims, because of disappointment in location. He bought a wheat farm on Fix ridge, and some timber land near Teakean, Idaho, but lately sold his wheat land and retired to Juliaetta, where he bought a nice home and resided there the last two years of his life.

His life's work is ended, and he is relieved from the severe suffering and feebleness of the last two years. We feel sure that he has been rendered more faithful and obedient to his convictions by the things that he suffered. "For I reckon that the sufferings of this present time are not worthy to be compared with the glory which shall be revealed to us afterward. But ourselves also who have the first fruits of the Spirit even we ourselves, groan within ourselves, waiting for our adoption, to wit, the redemption of our body."

The funeral service was held from the M. E. Church, Tuesday, April 19, at 2:00 p. m. Rev. L. E. Taber, preached the funeral sermon from the text: John 21:4, "When the morning was come, they saw Jesus standing on the shore." He was laid to rest in the Fix ridge cemetery, to await the Resurrection morning.

An Unusual Occurrence

Mrs. Mary Nutt was the hostess to a number of guests from quite a wide variety of places Easter Sunday. The dinner guests were: Mr. and Mrs. H. S. Irwin and son of Leland, Mrs. G. C. Ottosen and son of Seattle and Mrs. Frank Howell of Buffalo, N. Y. Her afternoon callers were: Mr. and Mrs. Bert Caneby and daughter and Mrs. Charles

Talbot and son all of Potlatch, Mrs. Dennis Buckallew and children of Clarkston, Mrs. Jess Cox and daughter of Potlatch ridge, Ruby Weatherby and Mrs. N. M. Talbot. It seems quite remarkable that people from so many different places should meet in one home at the same time.

Contest Closes

About three months ago the junior and intermediate Sunday school classes of the Methodist church were organized into a choir by Mrs. Tom Stinson. They started a contest then which ended Easter Sunday. Those who were neither tardy nor absent were awarded gold rings. Those who received rings were: Claribel Groseclose, Helen Halliday, Fern Perry; Jeweldene, LaVerne and Iris Hutchison, Agnes, Mabel and Aubrey Nigh.

Juliaetta Defeats Culesac

The Juliaetta baseball team played its first game this season at Culesac Sunday afternoon. In spite of the extremely cold wind that blew during the afternoon, the team made a very good showing for the first game, promising keen competition to all comers. Both teams however, played a good game. The final score was 6 to 2 in favor of Juliaetta. The next game will be played with the Kendrick team on the local diamond, Sunday.

Fruit Trees Damaged

Tuesday evening a hard freeze followed the skiff of snow which fell the previous night. The fruit crops, especially those of cherries and apricots, were very badly damaged in this community. It is said that even the latest buds were black so that the loss is estimated to be very high. Some of the flowers that had withstood the severest weather during the winter months were frozen this late in the season.

Juliaetta Locals

John Carlton of Lewiston spent the week end with his parents Mr. and Mrs. Marsh Carlton on Fix ridge.

Tom Stinson transacted business in Kendrick last Thursday. Steve Walker was a visitor in Moscow Friday.

Mrs. Amanda Alexander and sons of Lewiston spent Easter Sunday at the Eben Adams home.

Commodore Perry was a Kendrick visitor one day last week. Robert Groseclose, who has been visiting with his parents, Mr. and Mrs. J. C. Groseclose, returned to Walla Walla Saturday.

Miss Margaret Cox returned to Kooskia after having spent Easter Sunday with her parents, Mr. and Mrs. Wm. Cox of American ridge.

Mr. and Mrs. A. W. Behrens motored to Spokane, Saturday.

Mr. and Mrs. Wm. Lundstrom and children of Spokane visited last week at the W. L. Fields home.

Mrs. Roy England and children were Kendrick visitors Saturday.

Mrs. E. L. Taylor of Lewiston visited with Mrs. Sophie B. Taylor, Sunday.

Wm. Phillips visited at the W. L. Fields home last week.

Mrs. C. F. Keefer, who has been away visiting during the winter months, returned to her home last week.

Mr. and Mrs. Chas. Talbot and children of Potlatch spent a few days last week visiting with friends and relatives here.

Miss Minnie Glenn of Reubens spent Sunday with her parents, Mr. and Mrs. John Glenn of Potlatch ridge.

Mr. and Mrs. Frank Vincent and daughter, Wilma, and Clara Nye, motored to Lewiston Monday morning returning home in the evening.

Mrs. J. H. Millard came up from Lewiston to spend Easter Sunday at home. She returned Monday.

Rev. A. L. Groseclose of Decatur, Kansas, arrived Monday to attend the funeral of his father Marion Hanks returned to his work at Lenore, Tuesday.

Mr. and Mrs. Willard Kite of Kendrick visited at the G. W. Kite home Tuesday. R. J. Stuart of Fraser visited

relatives and friends here this week. He purchased a Chevrolet truck from Houck's Garage. Mr. and Mrs. Marion Hanks are the proud parents of a six pound baby girl.

Mrs. M. A. Perryman was a Lewiston visitor Tuesday.

A pleasing program was given at the M. E. church Easter Sunday by the primary and junior department.

Mr. and Mrs. Ed Fleschman of Leland visited at the G. W. Kite home Tuesday.

An egg hunt conducted by Mr. Metcalf was given for the junior and intermediate children last Saturday afternoon. Woodrow Nye won the prize for finding the most eggs and Walter Millard won a prize for finding a duck egg.

Mrs. J. C. Groseclose is on the sick list this week.

Mrs. Frank Howell returned from Moscow this week to resume her visit among relatives and friends here.

Quite a number of Juliaetta people attended the ball game at Culesac Sunday.

Mrs. G. C. Ottosen and son left Thursday for their home in Seattle.

Several of the gardeners are planting their watermelons this week.

To Preach at Juliaetta

Rev. Groseclose of Kansas will preach at the Methodist church Juliaetta next Sunday morning and probably in the evening. Everybody is most cordially invited to be present.

Card of Thanks

We, the wife and children of J. A. T. Groseclose, deceased, desire to express our sincere thanks to all the kind friends, brethren and neighbors, who assisted and comforted our beloved husband and father during his affliction and for the many kind words and deeds in the funeral service and burial; for the beautiful songs so well rendered; for the lovely flowers, for the decorations for the prayers and words of comfort, for the fine funeral sermon and assistance in every way which you have rendered in the care and funeral, and burial of our beloved one. May the blessings and sustaining grace of God abide with you in all its richness continually.

Mrs. J. A. T. Groseclose, children and families.

Card of Thanks

We wish to thank our friends for their kindness after the death of our sister, and for the beautiful floral offerings. We also wish to extend our appreciation to Rev. Rein for his comforting sermon and to those who furnished music for the funeral service.

Mrs. Mary A. Deobald, Mrs. Bertha Eichner, Mrs. Julia Brocke, Mrs. Liddie Ameling.

What is more harmonious than a good colored male quartet. Save the 25th for Dixie Jubilee program. 16-1

"THE WINCHESTER STORE"

Dixie Jubilee Quartet Coming

The Dixie Jubilee Quartet will appear at the Methodist Church on Monday April 25th at 8 p.m. This is said to be one of the finest entertaining troops on the road. Program consists of banjo and ukulele solos and duets, en and turky ranch. It will violin and saxophone selections,

original cartoons, piano solos, vocal solos and lots of male quartet numbers. 15-1

FOR SALE: A small ranch, one mile northeast of Kendrick, containing 45 acres about half under cultivation. A fine chick and turkey ranch. It will bear investigation. Call, or ad-

dress, Geo. E. Knepper, Kendrick, Idaho. 7-7f

Home Reflects Character

Every well-furnished house reflects personality. This personality may be that of the decorator, but if it is merely that, something is lacking. The true feeling of home is attained only when the expression is of the life and individuality of the owners.

POULTRY FACTS

WATCH DETAILS TO OBTAIN EGGS

Attention to a few details is often the deciding factor in making profits in the poultry business.

"For instance," continues L. M. Black, New Jersey extension specialist in poultry, "if good results in egg production are to be expected during cold weather, it is quite important that the pullets be confined to the laying houses. Cold wintry blasts and frozen ground are not conducive to high egg yields.

"Allow each bird four square feet of floor space in a well-ventilated house, and furnish a good ration containing plenty of green feed. The birds will respond by filling the egg basket with a high-priced product.

"Another detail is the buying of baby chicks for next spring's delivery. 'Do it early' is a good slogan, and its observance may save a disappointment. Many a poultryman has been forced to accept chicks hatched later than he desired just because he did not place his order with his hatchery man at an early date.

"The thoughtful poultrymen also determine now whether or not their incubators and brooder stoves are in readiness for the coming hatching season. Now is the time to inspect this equipment carefully and order any necessary parts that will increase the possibilities of a successful season. Thermometers and control wafers should be tested to see that they record varying temperatures accurately. It may even be advisable to set up the machines and brooders and run a short test on them. Above all, do not neglect them until the last moment and awake to find yourself unprepared to start off at the opening of the hatching season."

Success in Incubating Duck and Turkey Eggs

To get the best possible success in incubating duck and turkey eggs, secure a hygrometer. Keep it in the egg chamber during the entire hatch, the same as you do with the thermometer. By examining the eggs occasionally to determine the size of the air cell you will be able to know whether or not the moisture content is running down the right degree. If the egg is dry down to the shell is an

indication that too much moisture is being evaporated from the egg content. On the other hand, if the air cell remains small without much of a detectable change such often indicates too much moisture. A hygrometer can be purchased from most any incubator manufacturer or poultry supply house.

Egg-Laying Period May Be Profitably Prolonged

The fact that hens lay heavily in March and April as a result of nature's urge, causes many poultrymen to overlook giving the hens the sort of feed and care that will prolong the laying period. Nature has been preparing the hen for laying in the spring, and her body has a store of protein—the scarcest egg-making element. But a hen that lays five eggs a week will lay eggs in two months to equal one-half her own weight, and unless her feed has replaced this protein, she will lay little after May 15 or June 1. To avoid the slump, feed her heavily with rich protein feed at this time, and she will have the necessary egg elements to go right ahead during the summer.

Mothers for Guinea Chicks

Ordinary hens make the best mothers for guinea chicks. Given warm, dry weather, and plenty of range, turkey and guinea hens can be used successfully, but should a rain or heavy dew occur the mother turkey or guinea hen is apt to drag the chicks through the wet grass, and many are lost from becoming wet and chilled. Neither turkey nor guinea hens can be induced to seek the shelter of the coop at night and during storms, but will come out in the fields to hover their broods.

Potatoes for Ducks

Boiled potatoes are good food for ducks and should be mashed and mixed in the damp mash to make about 25 per cent of the total. The rest of the mash should remain the same as if the potatoes were not used. It is best to put the roofing on the outside of the building, both on the sides and roof, because if it then keeps the moisture out. On a single wall house we would put two or three thicknesses of tar paper between the boards and the roofing.

"Cemic" Testimonial

Omec Medicine Vendor—"Sir, I might mention as a slight testimonial to this world-famed 'Rejuvenator' that, a year ago, after taking one small dose overnight, upon awaking in the morning I said to my wife: 'Mother, give me my satchel—I shall be late for school!'"

Feed Beef for Spring Market

Plan Is Favored Because of Low Price of Cottonseed Meal and Hulls.

Because of the low price of cottonseed meal and hulls this winter, winter feeding of beef cattle for the spring market might be a good venture for farmers who are favorably located for the work.

Favorable Fattening Dates.

"The most favorable dates for fattening beef cattle are between November 1 and March 1," says Prof. R. S. Curtis, animal husbandman at the North Carolina State college. "Cattle do better in the winter months and there is not so much danger in feeding the meal. Those who wish to begin this work should do so at once, otherwise the finishing period may extend over into the warm months. Conditions then are less favorable for feeding cottonseed meal, farmers are busy in spring and the manure must be hauled out at an unfavorable time."

Professor Curtis states that when one starts to feed beef cattle with the meal, each animal should be given one pound daily and the amount be gradually increased so that a full ration be given at the end of 30 days. A safe rule to follow for the full ration is one pound of meal to each 100 pounds live weight of animal, using 2 1/2 to 3 pounds of hulls for each pound of cottonseed meal used. Where farm roughages are available the hulls should be decreased. It requires from 90 to 120 days to put a decent finish on beef cattle. Rations should be given them twice daily and water and salt kept before them at all times.

Gain of Beef Animal.

A beef animal should gain from 100 to 200 pounds during a feeding period of 120 days and under average conditions there should be a margin of two cents per pound between the buying and selling price. Most feeders figure that if they can break even and have the manure clear with 80 to 85 per cent of the fertilizing constituents of the meal in it, they have done a good piece of work. The finished animals are, usually marketed during the early spring.

Our Toothpick Business

How many toothpicks do you use in a year? At first thought one might think manufacturing them was a rather unenterprising industry. As a matter of fact, six factories are kept busy making approximately 100 toothpicks for American consumption every year—100.

Men In Your Town

Good Citizens

The Northern Pacific is a home-town institution—it is part of your town, your county and your state. We live here. The railroad is not, after all, essentially a lot of cars and miles of steel—it is a human organization of people. Men of the Northern Pacific and their families—your neighbors—are the kind of people we believe you will enjoy knowing and knowing well. Northern Pacific men are in the railroad business for their life work and they are giving to that work and to transportation service for the Northwest, their best ability and skill.

Check Diseases by Fertilizing

Phosphate, Limestone and Manure Benefit Corn Quality and Yield.

One of the outstanding results of the corn disease studies being made by the college of agriculture, University of Illinois, is the favorable effect of manure, limestone and phosphate upon the yield and quality of disease-infected corn. It is reported by E. E. DeTurk, chief in soil technology at the college.

As an average of 21 comparisons covering a period of four seasons at Urbana and Bloomington, the above treatment increased the yield of corn from good seed from 66.2 bushels to 77.7 bushels an acre, or 11.5 bushels; while with diseased seed the increase amounted to 14.3 bushels, the yield being raised from 52.4 to 66.7 bushels.

Obtain Yield of Sound Corn.

While some of the damage of corn rot diseases can be greatly reduced by soil treatment, other injury cannot be so reduced. The yield finally obtained in any case is the result of many factors, some working for and some against the corn, some for and some against the parasitic fungi. Whenever a set of conditions is established which are favorable for the growth of corn, but which affect the disease-producing organism unfavorably, or not at all, a good yield of sound corn will be obtained. On the other hand, if the particular disease organism involved responds favorably to the same influences which favor the corn, the corn produced may be even poorer in yield or quality than if the treatments had been omitted.

Thus, in one case the total yield of corn from good seed was increased 2.4 bushels, while from fusarium-infected seed the increase was 12 bushels for treatment with rock phosphate in addition to organic manures. The in-

creases in sound corn alone were 4.3 bushels and 18.4 bushels for good and fusarium-infected seed, respectively. In this case conditions favoring the corn plant did not likewise favor the growth of the disease-producing organism.

With diplodia-infected seed, a different situation exists. On early-planted corn, rock phosphate had a similar, favorable effect in raising the yield of sound corn. The increase from good seed was 2.6 bushels and from diplodia seed was 13 bushels. However, when the corn was planted late in the season, the rock phosphate had no effect upon the yield from good seed, but decreased the yield from diplodia seed by 4.5 bushels. In this case the disease-producing organism, instead of the corn, was being fertilized.

Discover New Possibility.

An important outcome of these investigations has been the discovery of a new possibility in combining corn breeding with fertilization for larger and more economical yields. It has been found possible, for instance, to develop, by selection and breeding, strains of corn which have more than the usual capacity for absorbing and utilizing phosphate from the soil and particularly from added phosphates. These developments may ultimately come to mean much to the corn grower.

Attacking corn diseases from many angles has taught the lesson that these important diseases cannot be eliminated or controlled by any one method. Some gains have been made through fertilizer treatment and much more by seed selection and breeding, but neither of these nor even both together can be expected to furnish the complete solution of the problem.

Find Impure Seeds Are Large Tax on Farmers

Clean seed and clean land will help the farmers to save hundreds of thousands of dollars this year, according to a statement just issued by the extension division, Department of Agriculture of the University of Minnesota.

The statement referred to prints figures obtained from C. P. Bull, weed commissioner of the state department of agriculture, to the effect that more than \$875,000 was paid by farmers for threshing the dockage of Minnesota, North Dakota, South Dakota and Montana, in a single year, and that more than \$800,000 was paid for shipping the same stuff to market.

It is further estimated that on the basis of the average acreage of wheat in Minnesota for the last five years, the total loss imposed by unclean seed and unclean land runs to \$1,900,000.

Losses of great amount in the growing of other crops occur in the same way.

Specialists at the Minnesota experiment station advise the planting of clean seed in clean land.

Planting Grapevines

The most popular distances for planting grape vines are 8 by 8 feet or 9 feet between the rows and 10 feet between the plants in the row for vigorous varieties such as Worden and Lucile. Grape vines should be planted in early spring and on thoroughly prepared ground. The hole should be about 15 inches across and about the same depth. The plants should be set so the upper end of the old cutting, used in propagation of the vine, shall be an inch or more below the surface of the leveled ground. Prune back to two strong buds at planting time.

Obliging

Yokel (relating his experience after a visit to town)—Nothing impressed me like the kindness of the bus conductor. Ol gets in an' stretches me legs, the conductor see I'm tired. "Why don't 'e 'ave a bus to yourself?" 'e says; as kind as you like.—London Opinion.

Dairy Specialist Warns Against Inferior Cattle

F. A. Gannon, dairy specialist of Purdue university, has just issued a timely warning with reference to the importation of inferior dairy cattle. The present demand for dairy cows has made business especially good, he states, in some sections for the trader who deals in inferior cows. As a general rule these cows are undersize, in poor condition and not good producers. He mentions one man who purchased four head, three of which were unprofitable producers and the fourth of which had to be sold on account of udder trouble. He recommends that any dairyman who wishes to increase his herd can find good cows from clean, healthy herds and owned by reputable men. This is good advice in any community.

Production of Butter Increased in Minnesota

Not only has the butter production of Minnesota greatly increased during the last few years, but the dairy cows and creameries have become more efficient. In 1920 the number of dairy cows in the state was 1,350,000, and the butter output 120,000,000 pounds. In 1925 there were 1,503,000 dairy cows, or an increase of only about 15 per cent, whereas the butter production in the same year was 245,000,000 pounds, or 100 per cent larger than in 1920. The peak in number of creameries in Minnesota was reached in 1917, when there were 805. After ten years of enormous expansion in creamery butter making, however, the state now has fewer than 800 creameries.

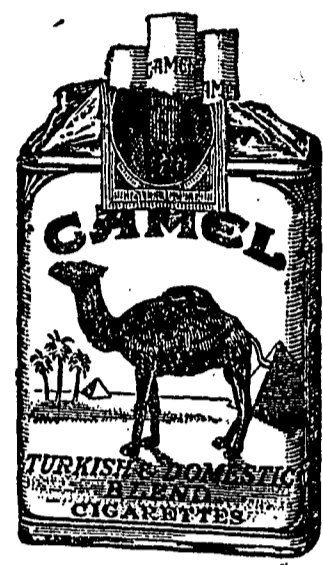

Modern preference finds its choice in Camel

PRESENT-DAY taste singles out Camel as its ideal cigarette. This age is the most exacting ever known and it rates Camel first. Camel taste and fragrance come from the choicest tobaccos grown. They lead to supreme smoking pleasure.

You'll never find a higher standard of goodness than in this favorite cigarette. Your own enjoyment will confirm the overwhelming choice of modern smokers.

To know how mild and mellow the quality cigarette can really be—"Have a Camel!"

Leading States in Cooperation

Increase Seen in Every Section of Country With Few Exceptions.

(Prepared by the United States Department of Agriculture.)

Although agricultural co-operative marketing in the United States from 1915 to 1925 increased considerably more in some parts of the country than in others, ten states that were well in the lead at the beginning of the period held approximately the same positions at its close. These states were Minnesota, Iowa, California, Wisconsin, Illinois, North Dakota, Kansas, Nebraska, New York and Michigan.

Increase in Associations.

In the ten-year period the ten states had an average of 63 per cent of the number of active associations in the country. Their association membership averaged 49 per cent of the national total. About 70 per cent of the co-operative business done by farmers in the decade was done by associations in these states. This appears the more remarkable in view of the great increase that took place from 1915 to 1925 in co-operative activity in the South. Eight South Central states, where comparatively little co-operative marketing was done in 1915, increased their association membership more than 700 per cent in the ten-year period.

In the ten years ending with 1925 agricultural co-operation increased in every section of the country except in a few remote corners, says the United States Department of Agriculture, which has assembled the foregoing information. In nine groups of states co-operative association membership more than doubled, the greatest gain being recorded in the South Central states and the least in the Pacific Coast states. Approximately 31 per cent of the country's co-operative membership at the close of 1925 was in the West North Central states, 21 per cent was in the East North Central states, 11 per cent in the East South Central states, and 10 per cent in the South Atlantic states.

Business Increased.

Volume of business, as measured in dollars, increased even more than membership. Business handled co-operatively for farmers in 1925 in the West South Central states, the East South Central states, the South Atlantic states and the New England states, was more than 1,000 per cent greater than in 1915. For the East North Central states, the recorded business gain was 520 per cent, and for the Rocky mountain states 246 per cent.

Grain marketing associations were the most important commodity group in 1915 and still held that rank in 1925, although their relative dominance was less. Their volume of business increased 159 per cent in ten years. Associations marketing dairy products handled 500 per cent more business at the end of the ten years than at the beginning. There was an increase for the ten-year period of more than 1,000 per cent in the number of active live stock shipping as-

sociations.

Although there were fewer cotton and fewer tobacco co-operative associations in 1925 than in 1915, the membership and business of these organizations increased enormously. Each of the two groups had a gain in membership of more than 1,500 per cent. Business handled by cotton co-operatives increased 9,887 per cent in the ten-year period, and that of tobacco marketing associations increased nearly 1,300 per cent.

United States Leading Road-Building Nation

Highway engineers in foreign nations are eager and conscientious students of the current engineering literature that is published in the United States. It was stated by Thomas H. MacDonald, chief of the bureau of public roads.

According to Mr. MacDonald, foreign engineers generally regard what is published in this country as final authority. This is probably due to some extent, he says, to the fact that the United States, as the leading road-building nation in the world, does extensive research work into highway engineering problems.

Lamb Is Easily Killed

A young lamb is very easily killed. Exposure to cold, especially cold rains, is nearly sure to prove fatal. Another frequent cause of loss is the failure of the lamb to get milk. The lamb may be too weak to stand and suck; there may be wool on the udder or belly that prevents sucking; or sometimes the mother does not want to own her lamb. All of these difficulties may be easily overcome if someone gives just a little more attention to the flock.

Ducks Easy to Raise

Ducks are not more difficult to raise than chickens. Expensive buildings and equipment are unnecessary. They do just as well in the cheaply constructed, low buildings, the main feature being that they have a comfortable place in which to stay during cold and stormy weather. Plenty of dry litter should be provided. No roosts are required and no nests. The eggs are dropped anywhere on the litter, and generally just before daylight.

New Japanese Pest

Indications of an entirely new American pest in New York and New Jersey have been received by the United States Department of Agriculture. The species is a scarab or beetle of Japanese origin, and is the third scarab that has been introduced from Japan. It is suggested that entomologists be on the lookout for it. Unlike the other two species which have been introduced, it is not of striking appearance. It is a small, brown scarab which superficially resembles a number of the species of the genus Serica.

The comparatively high prices that have been paid for summer milk for the past few years have had a tendency to make a shortage of winter milk now.

Secret of "Bigness"

To know how to fix the mind fully and squarely on the subject presented, involving duty, obligation or responsibility, and be able to act without hesitation or wavering, is an accomplishment that distinguishes the "bigger" man. It's the big men who do the big things in this world.—Grit.

Hung

A husband and wife sat on the same jury in Kentucky and—yes, you've guessed it: the jury disagreed.—Lafayette Lyre.

NEWS NOTES FROM THE KENDRICK SCHOOLS

What The Students Are Doing This Week.

An amusing comedy "Go Slow Mary" is to be presented by the high school, May 5th. The story centers around the difficulties in which a young married couple find themselves when they exchange occupations. The wife goes back to the business world, while the husband takes over the care of the house and the "Little Angelo", the grandchildren of his mother, who is on her way to California. Mary's friend and Billy's pal further complicate affairs by their rather untimely love-making. The triangle of the maid, the ice man, and the policeman furnishes many of the humorous situations with which the play abounds. The mystery element is supplied by Harry Stevens, accused of the theft of a diamond ring. The unravelling of the plot is cleverly accomplished with the result that—but come and see for yourself. The parts are well handled by the players, the story is interesting, the action is rapid, and the result is a highly entertaining performance.

There will be a matinee, at reduced prices, for the children, and those wishing to attend will be excused from school.

The Junior Assembly program last Friday was entitled, "The Buggy Cantata." It was:

"Marching Thru Georgia," a parody. "Down by the Old Mill Stream," by Robert Dammarell and Elbert Long. "My Bonnie," parody by Gustav Wegner, Lizzie Jones, Margaret McDowell and Arthur Foster. "Feas of Panama," by Gerald Ingle, Elbert Long and Robert Dammarell.

"One, Two, Three, Four," by Elbert Long, Pearl Johnson and Margaret Broeke. "The Preacher and the Bear," by Mabel Taber and Arthur Foster.

The costumes were varied as were the "Stage-names." Introductions were made by Shirley Clem, and piano accompaniment by Hester Knepper. This included all the Junior class and several from the high school. The program was considered very clever, and was enjoyed by the entire high school. This is the last assembly program given by the juniors this year.

Professor Middleton from the U. of I. will speak here April 26, on "Forest Preservation." The time has not yet been decided, but this will be very interesting to all the students.

The new pupils entered Miss Weaver's room Monday, June Davis, sixth grade and Wayland Davis, fifth grade. They attended the Cameron school before entering here. The entering of these children makes an enrollment of thirty-one pupils in the fifth and sixth grade.

Harley May and Donald Candler of the 7th grade have dropped out of school.

The 7th and 8th grades are busy reviewing for the final examinations which are to be held May 11-12-13.

The 8th grade has been nearly perfect in attendance. Regular attendance counts far more than many realize.

Several of the 7th grade have been and are irregular in attendance, making their success in the final exams doubtful.

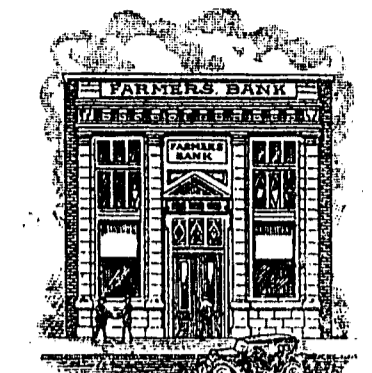

Farmer (to druggist): "Now, be sure an' write plain on them bottles which is for the Jersey cow and which is for my wife. I don't want nothin' to 'appen to that Jersey cow."—Ex.

Give Me Today

I would rather have one little rose
From the garden of a friend,
Than to have the choicest flowers
When my stay on earth shall end.
I would rather have the kindest words
And a smile that I can see
Than flattery when my heart is still,
And this life has ceased to be
I would rather have a loving smile
From friends I know are true.

Than tears shed 'round my casket
When I bid this world adieu.
Bring me all the flowers today,
Whether pink, white or red;
I'd rather have one blossom now,

Than a truck-load when I'm dead.
(Written by Convict No. 21706 in the Kansas Penitentiary. Name unknown.)

They're All Alike!

Ask any man past fifty years of age and he will tell you of some time in his life when he was sailing high. Things were coming his way. There are few exceptions. Why is he poor now? Well there are various reasons. One thing is sure. It is not because he placed his money in a sound bank and checked it out only when safe investments were secured. There are more ways to lose money than to make it. If you are making any money, no matter how small the amount start the saving habit by opening a bank account.

The FARMERS BANK

A Fine New Line of Delicious CANDY

Make a trial purchase and we know you will become a steady customer. No finer line ever sold in Kendrick.

We Always Have Ice Cream PERRYMAN'S

The Modern Bank

The modern bank not only provides the usual facilities represented by its several departments such as Commercial, Investments, Savings, Safe Deposit, etc., but in addition seeks to give council touching business problems—both general and special—advises in investment matters, and in every way desires to be helpful to its customers even beyond the receiving and paying of deposits and the loaning of money.

The facilities we offer for the whole range of financial transactions make it easy to transact business here and the helpful cooperation extended is often of great assistance to our customers.

Marvin Long drove to Moscow and return last Sunday evening.

Mrs. Frank Nesbit returned home Tuesday afternoon after visiting a week at the home of her son in Moscow.

It is a well known fact that every time you say business is rotten you help to make it worse.

Herman Schupfer bought a new Chrysler "70" two-door brougham the first of the week. It is one of the classiest cars in town.

Mrs. W. A. Perryman was a Moscow visitor last Friday.

Miss Winifred Davidson came up from Lapwai last Saturday to spend the week end with home folks on American ridge.

Merton Pierce of Deary was

transacting business in Kendrick last Saturday.

Born to Mr. and Mrs. Herman Ehlers of Texas ridge, Monday, April 18, a daughter.

Miss Esther Janes will teach the third and fourth grades at the Lewiston public schools the next school year.

Impressed With Kendrick

R. H. Pratt, state sanitary inspector, during his official visit here Tuesday, stated that he was most favorably impressed with the appearance of Kendrick and that in all of his travels over the state he hadn't seen a neater, cleaner or better improved small town than this.

To Give Donation Party

The Ladies Guild will give a donation party at the Community hall on Bear ridge, Saturday evening, April 23, for the benefit of the Knutson family, whose home was destroyed by fire. Everybody is cordially invited.

Store Changes Ownership

Announcement has just been made of the transfer of the Ekholm store from Alfred Ekholm to the Borlen Clothing Co. C. W. Borlen, who is in charge of the store, is from Spokane, where he had 29 years of experience serving the public. When 12 years of age he began his career in a grocery store, and after 6 years entered the clothing business.

Mr. Borlen followed the clothing line in Spokane 23 years, being associated with the Murray, F. H. Flanders, Foglequist and Dolby Clothing companies. He was with the last named company 13 years, serving in an official capacity.—Troy News.

Crescent Clippings

Sunday guests at the M. L. Robeson home were Mr. and Mrs. Vester Evans and son, Mr. and Mrs. Oral Craig and children, Mrs. Ella Robeson, Mr. and Mrs. Wm. Kauder and Antone Kirknopf.

The regular school election was held Saturday. Mr. Souders was re-elected for the three year term, and John Darby for the two year term.
