UNIONTOWN CONTINUES WINNING STREAK

Took Game From Kendrick 5 to 2. Last Sunday.

The local ball club suffered another defeat at the hands of the Colton team last Sunday at Colton, the final score being 5 to 2. Several times during the game the chances looked bright for Kendrick but the breaks apparently favored Colton from start to finish. In the eighth inning Kendrick had a man on second and third with Stanton at the bat. Claud landed on one that by all the rules of luck should have been a home run. The ball was traveling like a bullet and would have probably landed in the adjacent county, but Uniontown's left fielder flew up in the air and staged a spectacular catch that ruined Kendrick's chances for three runs.

Most of Uniontown's runs were made on errors, two being secured in the first and two in the second innings. The decisions of the Uniontown umpire assisted materially in securing the first two runs.

The features of the game were the fielding of Wilson and the hard hitting of Stanton. Turnbull for Kendrick was hit hard in the third inning and was taken out before the end of the inning. Sparber substituted for Turnbull and pitched good ball for the balance of the game.

Following is a resume of the game in detail:

Kendrick	Ab	R	H	SO	E
Wilson, cf.	5	1	0	1	0
Anderson, c.	4	1	2	0	1

NEWS NOTES FROM THE KENDRICK SCHOOLS

What The Students Are Doing This Week.

The primary room plan to give a school exhibit, Friday, from 8:30 to 4:30. Everyone is cordially invited. This exhibit will consist of the school work of the entire year in language work, reading, arithmetic, health and a good art exhibit.

The window decorations for the last two weeks of school are baby elephants with brightly colored saddle-blankets.

The primary children are illustrating by pencil and crayon a short poem about the rain. These will also be in the exhibit.

The primary children drew with a ruler, the music scale on a piece of paper and used pussy willows instead of notes.

The pupils of the fifth and sixth grades planned a hike and picnic as a surprise for their teacher, Miss Weaver, last Friday evening. After school they hiked to Byrne's Flat and spent a very lively and pleasant evening. They played games until everyone was hungry, then a gay time was spent around the big bonfire, roasting weiners and marshmallows. A tired but very happy group returned home about dark.

The fifth and sixth grades are having some of their semester tests this week.

Mrs. Knepper gave the state examinations to the pupils of the seventh and eighth grade, this week.

Mr. Lynch has been giving a series of tests in some of his subjects. These tests are numbered consecutively, and a group of "True and False" questions are given to the students each day. A general average will be taken which will count on the semester grade of the pupils.

Those in the high school who have been neither absent nor tardy all year are: Dorothy Holt, Helen Emmett, Gerald Ingle, William Ingle, Elbert Long and Gustav Wegner. Absent one day or less: Doris Emery.

The cast of the play "Go Slow Mary" is going to have a party Saturday night. Each one is inviting a guest.
The Juniors and Seniors are giving a banquet tonight. The menu will be: Fruit cocktail, roast pork, mashed potatoes and gravy, pickles, peas and carrots, rolls, salad, coffee, and Upside-down cake.
The D. S. girls cooked a very delicious luncheon, Wednesday. It consisted of olive and nut sandwiches, lettuce salad, pineapple sherbet, and sponge cake.

Commencement Next Thursday

The commencement exercises of the Kendrick high school will be held next Thursday evening at the New Kendrick Theatre. The senior class is composed of three members as follows: Dorothy Holt, Claud Cook, Wilbur Corkill and Raleigh Smith.
Dean Crawford of the University of Idaho will deliver the commencement address to the class. He is a fine speaker and the local school is fortunate to secure his services.
Dorothy Holt is the valedictorian of the class and Wilbur Corkill salutatorian.

W. F. Behrens, local dealer, shipped in another carload of Cletrac tractors yesterday. He is advertising a tractor demonstration to take place near Genesee tomorrow.

Clarkston at Genesee.
Uniontown at Pomeroy.

TOPICS OF INTEREST TO LOYAL IDAHOANS

Written for Publication by Mr. Guy Fleener

Anyone living in Idaho is extremely shortsighted to allow himself to be deceived by the little trouble makers and figure manipulators who attempt to make it appear that they are living in a state that is terribly handicapped. Those fellows are simply jabbing their finger into the public waters in the hope of making dents.

There are few, if any, states in this Union with better prospects than Idaho. That covers a lot of territory, but it's a fact. Other states are mostly settled. They have about reached their peak. Idaho has only commenced to climb.

One of Boise's newspapers, the Capital News, recently in an anniversary edition collected a mass of information revealing what Idaho is doing now. It told of the millions of production covering all lines. That fine and truthful story is only a small chapter, soon to be forgotten, in the great volume of development that is coming out.

One item, Finances have been provided to the extent of \$25,000,000 for a \$40,000,000 enterprise in this state, not railroad but something that will at that attract added transportation to the state where needed to supplement our present splendid systems. Within 60 days the details will likely be out. Keep your eyes open. That is only one of many things that are coming.

Let the little fellow fuss along with his dinky, small-minded stuff. He will not fool many people—none who have faith in their state. Let him go on with his "whoa" of woes and his pestering pessimism.

The mass of Idaho folks, with broad vision, well-grounded confidence and unquenched spirit, seeing the bigger and worth while things, are saying: "Gid-dap."

Those Who Serve

Wyoming saw a chance to acquire some revenue from the Jackson lake reservoir, via the tax route leading into Idaho, which uses the water. So it began an action to enforce a tax demand upon Idaho users of Jackson lake storage. The supreme court of the United States has decided it cannot be done. Among the men very active in fighting the case was R. E. Shepherd, daddy of the American Falls reservoir project. He proved a courageous and successful fighter. Every water user in the district effected ought to contribute to a purse to buy him a gold watch or a gold headed cane—for he is getting on in years.

The suggestion is not made seriously, of course, but behind it there is a thought that we do not show our appreciation for the efforts of citizens, private and public, who serve us loyally.

The vast majority of office holders make a sacrifice to hold their positions. True, the honor is attractive, but they would be much better off if attending to their own affairs. Apparently there is little praise for their well doing. If criticism, why not a word of praise when we all know it would be justified? We may have to toss a brickbat occasionally, but we should not forget the bouquet when it is merited.

What is said of public officials can be related with equal truthfulness and regret about private citizens who serve.

Cost of Our Own Demands

Many Idaho people can recall when 25 cents worth of steak was enough for the family and the butcher would throw in a set of brains and a soup bone. They can also remember when the crackers bore strange tracings and the sugar was not above suspicion. The well was on the back porch, the lamps had to be filled with coal oil daily and gave a poor light, there was no means of communication except we hiked, transportation was

CARLSON HARDWARE BURGLARS CAUGHT

Arrested in Spokane Last Tuesday With Part of Loot.

Two men were arrested in Spokane Tuesday of this week and charged with burglarizing the Carlson Hardware Store here last November. The men gave their names as Ralph E. Tillitt, age 22, and Glenn Butler, age 20, and their home at Opportunity, Wash. They claimed to be electricians. After a gruelling cross examination by Spokane authorities the men confessed to taking a number of radio sets, guns, ammunition, pocket knives, etc., from the Carlson Hardware. Most of the stolen property was located, some of the radio sets having been installed in Spokane and Craigmont.

Tuesday the men offered to sell a new shotgun at a Spokane pawn shop. The proprietor of the shop became suspicious of them. He offered them \$20 for the gun but they thought they ought to have \$25. Finally he told them to leave the gun at the shop and visit other shops in town and if they couldn't get more for it to come back and he would buy it.

As soon as they had left he notified a Spokane detective, who, with two other officers stationed themselves across the street from the pawn shop and waited their return. They were gone several hours and finally drove up, parking their car but leaving the motor running. They were then placed under arrest.

The number of the gun coincided with the printed description of the stolen property, sent out by Sheriff Summerfield of Latah County. This led to the arrest of the two suspects.

Electrical equipment and tools were found at the home of one of the men. It is alleged that Tillitt confessed to having stolen the electrical supplies at Craigmont about two years ago.

It is expected that the men will be lodged in the Latah county jail awaiting trial.

Big Bear Ridge News

Miss Helen Slind returned home last week, having spent several months with her sister at Colville, Wash.

Mrs. Wallace Emmett entertained the Ladies Guild at her home Wednesday afternoon.

Joseph Forest spent last week with friends in Spokane.

James S. Nelson is recovering nicely from a seige of pneumonia.

Mr. and Mrs. C. J. Arstee and Ernest Thoseth of Spokane were week end visitors at the Hooker home.

Mr. and Mrs. Halvor Lien, Mrs. Marie Slind and son, Oscar, drove to Moscow, Monday.

A Lutheran church convention will be held here, May 17-19.

Ole Lien and son, Anton were Moscow visitors last week.

limited and slow.

Then we began to make a little more money and to demand various means of making life more pleasant and profitable. We wanted the meat refrigerated and the groceries clean, a water system and the telephone, electric lights and fast trains. We craved a lot of service. We got it. We have to pay for it; and we are in better position to do so than we were in the former years.

We also demanded uniformed policemen, modern fire fighting equipment, paving, street sprinkling, arc lights, finer public buildings and homes, better sanitation. We got all that and have to pay for it. Sometimes it seems to be a bit tough to meet all these obligations, but we are bound to be more cheerful about it and more satisfied when we ask ourselves: Would we go back to the former discomforts, inconveniences and lack of health-giving and life-prolonging elements and pay only the former cost? The answer would be universally "NO!"

ITEMS OF INTEREST FROM SOUTHWICK

Written for Gazette by Special Correspondent

Mr. and Mrs. Presnal and family and Mr. and Mrs. Milton Benjamin spent Sunday in Palouse with relatives.

County Commissioner Whitman and son of Peck was in town, Sunday. While here he was the dinner guest of Mr. and Mrs. H. Southwick.

Wm. Thornton of Potlatch passed thru town Sunday enroute to Fraser to visit his daughter.

Harold Whiting and wife, Mr. and Mrs. Dave Schoeffer and Mrs. Vester Whiting went to Lewiston, Tuesday.

A birthday party was given at the home of Grandma Thornton, Monday, it being her 82nd birthday. Those present were: Roy Southwick and wife, Mrs. Arnold Cuddy, Howard Southwick and family and Mr. Luce.

Sunday guesst at the home of Howard Southwick were: Mr. and Mrs. Stalnaker, Given Mustoe and family, Rev. Pearson and family of Peck, L. J. Southwick and wife, T. J. Armitage and Jay Thornton.

Those attending the Mother's Day program at Cream ridge last Sunday, were Mr. and Mrs. Hoppe, Mrs. Bunger, Mrs. Homer Hayward, Mrs. Armitage, Nadine and Eva McCoy and Gertrude Baker.

Ray Cuddy has rented the Langdon farm at Linden and moved his family there last Saturday.

Ben Baker of Orofino came up Monday for a few days visit with his son and daughter and other relatives.

Mr. and Mrs. Ralph Wright and son, Marion of Potlatch, came in Saturday and were Sunday guests of Mr. and Mrs. Geo. Christensen of Crescent.

Mrs. Fairley went to Lewiston last Wednesday, returning home Sunday.

The ball game played between Juliaetta and Southwick resulted in a score of 8 to 2 in favor of Southwick.

Mr. Zoel Fairley spent the week end in Peek at the home of his parents.

Mr. and Mrs. Clarence Henderson of Potlatch spent the week end with his parents J. W. Henderson and wife.

Miss Penny and Cecil Phillips spent the week end in Lewiston returning home Sunday evening.

Mr. and Mrs. Gordon Harris and sons, Virgil and Earl, and Opal Southwick went to Colton Sunday to visit with Chas Harris.

Miss Hartung spent the week end in Colfax returning home Monday on the stage.

Grandma Harris left Monday for Lewiston to visit for a while with her son, Walter and family.

Mrs. James Crutcher of Ahsaka, came up last Monday for a visit with her parents, Mr. and Graham. She returned home the following Friday.

Mrs. Floyd Russell was the dinner guest of Mrs. Ben McCoy Tuesday.

Rev. Wolfe of Lewiston will deliver the baccalaureate sermon next Sunday at the old picnic grounds if the day is pleasant, if not at the school house. A picnic dinner will be served.

Baccalaureate Sunday Evening

The baccalaureate service for the senior class of the Kendrick high school will be held at the Methodist church Sunday evening at the usual hour. Rev. Taber will preach the baccalaureate sermon. Everybody cordially invited to be present.

Band Boys Meet Monday

All band men are urgently requested to meet in the town hall Monday evening at the usual hour. Walter Thomas will be present to meet with the members and strat active rehearsals. Each bandman is requested to bring his instrument Monday night.

NEWS FROM THE NEIGHBORING TOWNS

Clipped From Papers Published in Latah County.

Will Renew Search

Mr. and Mrs. J. P. Kleweno left Thursday morning for Camp Grizley where they will look over the situation and note the condition of the woods preparatory to again taking up the search for their son, Reuben Kleweno, who was lost in that section last fall while hunting.

When the snow has entirely gone and conditions are favorable, a body of one hundred or more men, who have indicated their willingness to again aid in the search, will go to that section and make concerted search of the woods where the missing man was last seen.

More definite information will be given next week.—Genesee News.

Repairing Potlatch Mill

The foundation of the Potlatch company's sawmill is being removed and rebuilt while the mill continues to run. This is a difficult feat, as the machines are heavy and in operation continuously. The foundation is being placed in sections and much of the work on the east end has been completed. This is a rare occurrence as the mills operate at high speed and logs are handled with great force.

The entire foundation will be rebuilt with the exceptions of portions repaired a short time ago. "Herb" Woodward is in charge of the carpenter crew.

Repairing machinery will possibly begin about June or July and if this is done each band mill will be closed. This will throw the mill behind in the cut, and shipping of lumber will be much greater than the mill will be able to cut. There is a shortage at present of various grades of lumber in the yards, and if repairing starts, more will have to be cut. A night shift would possibly be put on.—Star-Mirror.

Linden Items

Mr. and Mrs. Gus Farrington moved to their sawmill at Crescent last week.

Mr. and Mrs. McPhee went to Clarkston, Wednesday of last week where Mr. McPhee will take treatments.

Mr. and Mrs. Harry Langdon and sons and Mr. Ausman of American ridge spent Sunday at the Allen home.

Mr. and Mrs. Gust Wegner and family of Southwick and Mr. and Mrs. Wm. Deobald of Kendrick spent Sunday with Mr. and Mrs. Roy Bohn.

Mr. and Mrs. C. E. Harris are the proud parents of a nine pound son born Monday evening.

Miss Sarah Sweeney was a dinner guest of Mr. and Mrs. F. C. Lyons, Tuesday evening.

Mr. and Mrs. Edgar Bohn and daughter, Mr. and Mrs. George Garner and family and Cleve McPhee spent Sunday with Mr. and Mrs. McPhee at Clarkston.

I. E. Foster of Kendrick is assisting C. T. Fonburg with farm work this week.

Mr. and Mrs. Ray Cuddy of Southwick have rented the James Langdon farm and took possession Saturday.

Mr. and Mrs. Joe Perry of Troy came down to spend Sunday with Mrs. Perry's mother, Mrs. W. M. Sadler and family.

Miss Alice Wegner returned home Sunday evening after having spent the week with her sister, Mrs. Ray Bohn.

Mrs. Carr spent Friday with Mrs. George Garner.

The neighbors gave Miss Eva Smith a surprise birthday dinner at her home Friday.

The local tennis club is planning to start a tournament here in the near future. None but members of the club will compete, the finals to be mixed doubles. The losing side will be expected to put on a picnic for the winners.

JULIAETTA COMMUNITY NEWS

Thimble Club Meeting

The members of the Thimble Club of the Neighbors of Woodcraft of the Kendrick Circle met at the Thomas Stinson home Saturday afternoon. Eight ladies were present. The afternoon was spent in the hemming of napkins for the Woodcraft home in California. Refreshments were served and a social hour was enjoyed by all.

Entertainment Given

A benefit program for the Methodist church South was given by Rev. and Mrs. Metcalf, Thursday, in the theatre. It was attended by a very appreciative audience, as both Mr. and Mrs. Metcalf proved to be entertainers of high merit. Besides a one act play, each one gave several good readings. A number of vocal solos were rendered by Mr. Metcalf, accompanied by Miss Ruth Leland.

Baptist Missionary Meeting

"War in China" was the topic of the program given by the ladies of the Baptist Missionary Society last Thursday afternoon at the home of Mrs. Hulda Buchanan. The friends and neighbors having learned that Mrs. Buchanan's birthday was on that date gave her a genuine surprise during the social hour. The long table was centered with a large cake surrounded with many remembrances and tokens of love. Mrs. Buchanan was conducted to the seat of honor by the hostesses, Mrs. Langhton and Mrs. Woodruff, and not until then did it dawn upon her that the elaborate spread was given in honor of her birthday.

Genesee Defeats Juliaetta

The Juliaetta team was defeated on the local diamond last Sunday afternoon by Genesee. Owing to Albright's sore arm he was unable to pitch more than two innings of the game. However, it is thought that the score board will show a different final score in the future.

Juliaetta Gives Entertainment at Southwick.

The 4H Club girls and Rev. and Mrs. Metcalf gave a program in the Southwick school house Tuesday evening. The program was a combination of the one given by Mr. and Mrs. Metcalf here last week and the play which the club girls gave a short time ago. Altogether it was an entertainment well worth the admission charges to any one who attended. Southwick may be highly complimented on the loyalty shown by them in supporting the Juliaetta troupe for a goodly sum was realized from the program.

Family Reunion

On Mother's Day, the M. B. Pierce family had a family reunion, all the children being home together once more. For the past year the family has been quite badly scattered so they were quite glad to be together again. A table full of good things to eat enlivened their spirits and all had a jolly time.

Death of Sarah Turner

Mrs. Sarah Turner, aged 93 years, passed away at the home of her daughter, Mrs. C. C. Combs in Clarkston, Tuesday morning, after a lingering illness. The funeral services were held at Juliaetta, Wednesday afternoon at 2:00 o'clock in the Baptist church, with Rev. A. E. Janes and Rev. J. B. York of Clarkston in charge. Interment was made in the Juliaetta cemetery.

Sarah Hague was born January 1, 1834, at Salem, Washington county, Indiana. She was united in marriage to Andrew Turner. To this union 12 children were born, eight girls and four boys.

In 1857 they moved from Indiana to Missouri where they made their home until they came west and settled in Clarkston. They united with the Baptist church in Asotin soon after. In 1912 they came to Juliaetta and made their home with their only surviving child, Mrs. C. C.

Combs. Mr. Turner passed away in 1915. Mrs. Turner was a true Christian for 77 years and was beloved by all who knew her. She was known here as "Grandma" Turner.

She is survived by one daughter, Mrs. C. C. Combs of Clarkston, 10 grandchildren, 15 great grandchildren and 2 great, great grandchildren.

Juliaetta Locals

Mrs. C. F. Keefer made a business trip to Lewiston last Thursday.

Steve Walcher spent Thursday in Kendrick.

Mrs. Katy Keller went to Grangeville last Thursday.

Albert Cole was a Troy visitor last Friday.

Miss Crystal Ottsen returned to her home last week after teaching for the past eight months in Rockland, Idaho.

Mrs. Ellen Goans spent the week end in Pullman.

Roy Harris was a Lewiston visitor one day last week.

C. S. Biddison and W. J. Cochran made a business trip to Moscow Monday.

Mrs. M. A. Perryman was a Kendrick visitor Saturday.

Cecille Harris of Lewiston spent Sunday with her parents, Mr. and Mrs. Ray Harris.

Mrs. Mary Nutt and daughter, Crystal, were Lewiston visitors Friday.

Clarke Jennings made a business trip to Kendrick Monday.

Mrs. Chas Little went to Lewiston Tuesday.

Mr. and Mrs. Thomas Stinson spent Wednesday in Kendrick.

Mrs. O. H. Torgeson left Tuesday for a visit with her daughter in Lapwai.

Mabel Connick of Lewiston was home on a visit Sunday.

T. O. Greene was a Moscow visitor Saturday.

Mrs. Eben Adams of Lewiston spent Sunday with home folks.

Mrs. John Buck of Stites stopped off for a day or two to visit with her daughter, Mrs. Tom Weatherby, before going on to Palouse.

Mrs. J. W. Sutherland and son of Spokane are here on a two-week's visit with her parents, Mr. and Mrs. M. B. Pierce.

Mr. and Mrs. J. M. Hedler motored to Lewiston one day last week.

Mrs. L. W. Houck and Mrs. C. S. Biddison were Moscow visitors Monday.

Margaret Pierce is home from Lapwai, where she has been employed for some time.

Mrs. Amos Nigh and Mrs. McCall are those reported on the sick list this week.

Sunday morning Rev. Metcalf held Mother's Day services during the preaching hour. In the evening he gave an eulogy on fathers.

Juliaetta School Notes

The baccalaureate sermon will be given next Sunday evening, May 15 at 8:00 o'clock in the Methodist church. Rev Metcalf will deliver the sermon, his subject being "The Value of Man". The high school chorus will furnish special music. The friends and patrons are cordially invited to attend.

Dr. Russell, who is connected with the department of education at the University of Idaho, will deliver the commencement address next Friday evening, May 20th, at 8:00 o'clock in the Methodist church. In addition to the address there will be valedictory and salutatory speeches by Charlotte Nigh and Forest Gallaher, and songs by the high school girl's chorus. The graduate this year are: Charlotte Nigh, Forest Gallaher, Arta Groseclose, Wilfred Kimberling, Mabel Heimgartner, Ernest MeVieker and Vernon Gregory.

The high school boys' baseball team has two games scheduled to play on the local diamond next week, one with Southwick, Wednesday, and the other with Leland on Friday.

POULTRY

**SUNSHINE AIDS
IN EGG LAYING**

Tests made at different experiment stations as well as the results of practical poultrymen have demonstrated that direct sunshine serves two useful purposes. It not only helps the hen to see, but it also enables her to make proper use of the minerals in her ration. This is especially true of the lime that is used in making egg shells. In young chickens the effect is noticed in the formation of bones. Chicks not getting sunshine develop leg weakness due to poor assimilation of minerals in the ration.

Hens kept in houses that are entirely closed with glass windows do not get the beneficial influence of the sunshine, because glass does not allow the ultra-violet rays to pass through and they are the rays that carry the power of helping in the assimilation of the minerals. It is a good plan, therefore, to provide the hens with outside scratching lots where they can get the sunshine. It is also a good plan to put some of the glass substitutes which allow the ultra-violet rays to pass through, in some of the windows, or to feed cod-liver oil in the ration. Cod-liver oil contains vitamins that act as a substitute for sunshine in helping to assimilate minerals.

Recent experiments show that the sunshine not only helps in the assimilation of minerals, but that it also helps hatchability. At the Kansas station hens that were allowed access to sunshine showed a hatching record of 78 per cent as compared to 52 per cent for hens that were kept in houses with glass windows.

Early Hatched Chicks

Are Best Winter Layers

Late hatched pullets rarely lay until the middle of the winter or early spring. Chickens should be hatched not later than the last of May if they are expected to lay eggs in the late fall or early winter. Often it is difficult to get fully matured pullets before winter sets in. This can be done, however, by early hatching and proper feeding of the pullets during the later summer and early fall. If the pullets do not receive their proper growth by November and show signs of laying, it is doubtful whether they will lay to any extent until the following spring. The cockerels should be separated from the pullets as soon as possible, thus giving pullets ninety of

opportunity to develop size. If they are allowed to flock with the old hens and cockerels they may be stunted, as it is impossible for them to get their proper allowance of food. Keeping them out on the range separated from the rest of the flock is the best method of handling them.

Best Quality Eggs Are

Produced in the Spring

Early spring is the fowl's natural breeding season and the best quality eggs are produced at this time. These high quality eggs produce strong chicks, the mortality being lower than when late hatching is practiced. The conditions for chicks are more favorable in the spring than at a later season. The incubator is better ventilated and the hens have less trouble with parasites than in hot weather.

There is also an abundant green food supply which contains the necessary vitamins for proper growth. The early spring weather is much easier on the young chicks than are the hot days of June.

Good Test for Eggs

An egg may appear to be satisfactory, but when the contents are examined it may be found to be worthless for incubation. Some eggs may have cracked shells. These may be detected by the use of the tester or candle such as is used in testing eggs during incubation. Another method of detecting cracked shells is to tap two eggs gently together, and if there is a slightly ringing sound they may be considered all right. If there is a dull sound, one of the eggs is cracked and should be avoided.

Goslings With Weak Legs

Goslings that are weak in the legs and very thin sometimes are infested with worms. One remedy is to mix one-fourth pound sulphur, one-fourth pound epsom salts and two ounces powdered copperas in twenty-five pounds of the mash. The mash containing the medicine is used once each day. Goslings sometimes have congestion of the brain often due to fright, digestive disorders or worms. Two teaspoonfuls of castor oil to each gosling is sometimes a useful remedy.

Spread of Diseases

One of the common causes of the spread of infectious diseases among chicks is allowing soft feed to get mixed with the litter. If flat boards are used for feeding, have them wide enough so that the feed will not be scratched or carried off. It is better still to nail strips around the boards making them tray shaped, thus to prevent any chance of trouble from this cause. Feed that gets into the litter or on the ground should be removed promptly and never fed to the chicks.

No Blue Hibiscus

In many of the pink hibiscus the eye is crimson while the various shades are faded, at times, into the merest pink wash in an almost white flower, says Nature Magazine. Often there is more or less of the pure scarlet color, and then there is the dilution—the scarlet pink. There are all mixtures of crimson and scarlet combined in various forms with a tinge of yellow or orange. No blue has been found.

Sawmills and Squirrels

The side-striped ground squirrel or rock squirrel is a resident of the open forests of the western mountain ranges, says Nature Magazine, and is attracted also to the sites of old sawmills and abandoned mining camps. It ranges from quite moderate elevations in Oregon to an altitude of 11,000 feet in some of the southern mountains.

Iodine From Sponges

Iodine can be obtained from worn-out sponges by carbonizing them.

Barley for Fattening

Barley proved to be worth slightly more than corn for fattening calves at a test recently completed at the Colorado experiment station. The rate of gain for the corn and barley fattened calves was practically the same. The two lots under comparison were fed corn silage, linseed cake and alfalfa hay in addition to the grain ration. There was a considerable saving in alfalfa hay with the barley-fed calves. The calves fed barley outsoiled those fed corn.

"The Home of Good Things to Eat and Wear"

**McCormick-Deering
Tractor Power---for All Work!**

EVERY YEAR McCormick-Deering Tractors stand stronger with local farmers. The name McCormick-Deering has become the symbol of reliable power farming because it stands for carefully built, practical, many-sided, long-lived farm power—and the kind of service cooperation we are able to offer our customers.

Men who have used International Harvester tractors—for months or for years—are steadfast friends of McCormick-Deering farm power. They will recommend McCormick-Deering when you come to buy. Other men, who risked using cheaper, lighter tractors, found themselves underpowered. They fell short of reaching full production with the least possible labor and in the shortest possible time. After this experience they were ready for new and better power. There are many like these, too, who will recommend McCormick-Deering when you make your power investment.

**TO ALL HOLDERS OF
SECOND LIBERTY LOAN BONDS**

NOTICE OF REDEMPTION

All outstanding Second Liberty Loan 4 percent bonds of 1927-42 (Second 4s) and all outstanding Second Liberty Loan Converted 4 1/2 percent bonds of 1927-42 (Second 4 1/2s) are called for redemption on November 15, 1927, pursuant to the terms of their issue. Interest on all Second 4s and Second 4 1/2s will cease on said redemption date, November 15, 1927. Holders of Second 4s and Second 4 1/2s will be entitled to have the bonds redeemed and paid at par on November 15, 1927. Such holders may, however, in advance of November 15, 1927, be offered the privilege of exchanging all or part of their bonds for other interest-bearing obligations of the United States. Holders who desire to avail themselves of the exchange privilege, if and when announced, should request their bank or trust company to notify them when information regarding the exchange offering is received.

Further information may be obtained from any Federal Reserve Bank or branch, or from the Commissioner of the Public Debt, Treasury Department, Washington.

A. W. MELLON,
Secretary of the Treasury.
Washington, May 9, 1927.

HARRY A. THATCHER,
Clerk of the Board of County Commissioners, Latah County, Idaho 17-6

They're All Alike!

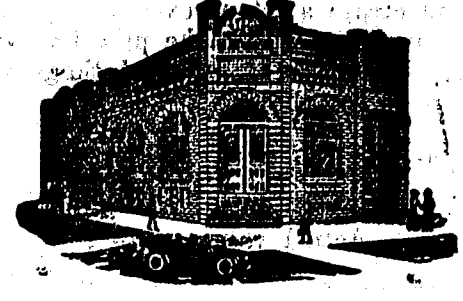

Ask any man past fifty years of age and he will tell you of some time in his life when he was sailing high. Things were coming his way. There are few exceptions. Why is he poor now? Well there are various reasons. One thing is sure. It is not because he placed his money in a sound bank and checked it out only when safe investments were secured. There are more ways to lose money than to make it. If you are making any money, no matter how small the amount start the saving habit by opening a bank account.

The FARMERS BANK

**A Food They Enjoy
Ice Cream**

is a great food for the children—and for grown-ups, too. The flavor of the finest confection, yet teaming over with health-building food elements.

**Our Quality---The Best
PERRYMAN'S**

For Ambitious Young Men

Our bank is a popular place for earnest, substantial young men, the kind who will become our leading citizens. Every boy who means business and expects to get ahead should be one of our depositors. If you will start off in this way and adhere strictly to the basic principles of success you can build up capital, credit and an acquaintance that will help you in after life.

Whatever your age, you are young enough to accomplish a great deal for the benefit of yourself and others by starting an account right now.

Timely Tips to Home Gardeners
For Greatest Success Keep Cultivating—Thinning Is Favored.

Thorough cultivation is one of the secrets of successful gardening. On a small scale this is best accomplished by use of a rake or hoe; when the plants are close together it may be necessary to use a hand scratcher, and for crops planted farther apart in rows the wheel hoe or shuffler hoe will give good results.
 There are four good reasons why we cultivate. First, cultivation destroys the weeds which if allowed to grow consume moisture and plant food. Second, it produces a mulch and conserves soil moisture which will be needed, particularly during dry weather. Third, it is necessary to allow air to get into the soil in order to allow friendly bacteria to enter; and finally a clean, neat, cultivated garden presents a much better appearance than one which is full of weeds and is not cultivated.

Mulching Pays.
 Straw manure or lawn rakings placed around a plant will conserve moisture. This mulch is an aid in cutting down weeds, and preventing the ground from becoming hard. If either of these materials is available, it would be well worth while to use them in this manner.
 Vegetables, like animals, need a certain amount of space for their best development. If they are planted too thickly they will not receive the proper amount of water or plant food, and will not do as well as if thinned to proper distances.
 Seed of beets, radishes, turnips, parsnips, carrots, rutabagas, onions, etc., must be sown rather thickly because many of the seeds will not germinate. However, when the plants have attained the size of from 2 to 4

inches, pull out the small ones leaving only the larger and best plants every 2 or 3 inches in the row.
Proper Thinning Pays.
 Proper thinning gives the plants a chance to grow large roots, enables the sunlight to get to the base of the plants and also allows room for a free circulation of air which will tend to ward off certain stem diseases. Instead of throwing away your thinned plants, replant them carefully in another part of the garden. They will grow and give very good results.

Road Building Increases in Middle West States
 License fees and receipts from the gasoline tax are believed to have done more for road building and highway improvement in the past year than any other element, according to a survey made of fourteen middle west states' reports on the season's highway activities.
 In the eleven states during the past year 8,950,000 passenger cars and trucks were licensed, and with this tremendous traffic bringing in revenue to the government, more than 9,000 miles of highway, were either newly paved or improved. The cost of the 9,000 miles is around \$94,000,000, covering the area of the states included in the survey. The taxes reported for this work totaled over \$125,000,000.

Segregate Breeders
 If a special breeding pen including the best male bird and a few choice hens is to be kept they should be isolated at once. If the hens used have been with other males no eggs should be saved until three weeks after isolation in order to make sure that the male heading the pen is the father of the chicks hatched. If the hens have not been with other males, the eggs will practically all be fertile after about a week. When the breeding season is over, discard the roosters.

FARM FACTS

Lack of fresh air will make work seem harder in winter or summer.

Litter on the poultry house floor should be clean and dry and from four to six inches deep.

Live poultry sometimes shrinks as much as 17 per cent in weight during the time it is in transit to market.

There is more profit and pleasure from one well-pruned and well-sprayed fruit tree than from ninety and nine neglected ones.

Numerous auctions will be held during the next few weeks and it is well to remember that cattle sell much better when it is known they have passed a clean tuberculosis test.

A slight improvement in his feeding methods made a difference of more than \$46 in the monthly returns of an Illinois dairyman last fall. A change in the ration made the feed cost less, yet the cows produced more butterfat.

Most bankers are much more willing to lend money on favorable terms to the farmer who can furnish a clean-cut statement of his net worth than to the farmer who never takes an inventory and who never keeps records which are evidences of his business efficiency.

FARM POULTRY

BAD VENTILATION BIG LIABILITY

A poultry house without ventilation is a source of trouble and a liability to the owner, authorities at the college of agriculture, University of Illinois claim.

Proper ventilation is the changing of the air within the house without causing a drafty condition, and changing it often enough to take care of moisture. In other words, the ideal desired by good ventilation is a house free from drafts and in a dry condition.

During winter months so many poultry keepers will make the mistake of closing their houses so tightly in an effort to get warmth that they will cause a stagnant air condition, and dampness will result. At no time during the year should the front of the house be entirely closed, and especially so if the pen is in any way crowded.

There are many schemes and mechanical devices made that will aid poultry-house ventilation, and while these have a value, the aim should be to establish conditions as efficient and fool proof as possible for getting fresh air into the house.

For the shed-roof type of house, the open front will solve the difficulty. This opening may have a rough weather protector of cotton, but a cotton screen is not necessary. Fresh air will never hurt the birds. Incidentally the open front will allow the birds direct sunlight on days of sunshine.

For the house with an A-shaped roof and which generally is wider than other types of houses, it would be advisable to put in a straw loft. The straw

"Famously Good Meals"
New-Type Diners
 For a quarter of a century the Northern Pacific has been improving its Dining Car Service. Today, we believe the variety of menus, cuisine and the service itself are better than ever before. The next time you travel, we invite you to judge. Our Big Baked Potatoes, Big Baked Apples and Individual Lemon Pies are particular favorites.
 New-type dining cars are being added to the "North Coast Limited" this spring and summer.
 R. H. Ramey, Agent, Kendrick, Idaho

Northern Pacific Railway
 "First of the Northern Transcontinentals"

will insulate against cold and heat and will help to absorb moisture from the pen. It is advisable to have an opening in each gable end allowing for an air current over the straw. This is a very simple and efficient way of ventilating a house, and has the advantage of keeping the house cooler in summer and warmer in winter.
 The one thing a person must guard against with a straw loft is the control of all mites and lice.

Pullets Hatched Early Begin to Lay in Fall

Early hatched pullets properly grown and matured will begin to lay during the fall and early winter, when fresh eggs are scarce and when egg prices are at their very highest point. It will make a great deal of difference in the returns from the flock whether the pullets lay fairly well during the winter or whether they do not begin to lay until spring, for in either case they will be consuming feed. Practically any pullet, whether late or early hatched, or even a very old hen, will lay during the spring season, but it is the early hatched pullets which must be depended upon for eggs during the fall and winter. The practice of hatching early as compared with hatching late will enable the poultry keeper to receive the very considerable added profit due to the production of winter eggs, and in many cases will make all the difference between loss and a good profit from the poultry flock; therefore, practice early hatching and secure winter eggs. It is very important.

Poultry Facts

Early roosting keeps the chicks from crowding into the corners.

Electric lights in winter is an artificial way of making things natural for hens, who do more work with longer days.

Never put chicks of different ages in the same coop or brooder unless there is a partition so that the tiny ones are separated from the older ones.

Don't neglect grass for the young chicks in the brooder house. It supplies the vitamins necessary to health and growth, that can be obtained nowhere else.

Poultrymen are placing stress upon the need of early hatching and early production from the pullets.

Duck eggs can be hatched very successfully in incubators, and most incubator manufacturers furnish special instructions for the hatching of duck eggs with their machines.

It takes 21 days for hen eggs to hatch; 28 days for duck eggs; 30 to 34 for goose eggs, and 28 days for turkey eggs. The time may vary somewhat according to conditions.

Even in the best of hatches there are always some chicks that are not just right. Such birds should be disposed of at once.

Exercise, grit and green feed all have their place in the development of the growing chick, but they cannot take the place of sunlight

Cows Mean More Profits in Diversified Farming

How is dairying going to make diversified farming more profitable?
 Diversified farming means the growing of larger areas in grain crops, legumes and other hay and forage crops. If these are sold directly from the farm large amounts of soil fertility will be carried away in these crops. By feeding these crops to dairy cattle at home and thus retaining most of their fertility on the farm for soil building, the farmer gets a profit in growing the crop and another in feeding it.—Clemson College News Notes.

One's "Second Wind"

What is termed "second wind" comes when the body and muscles of the body get accustomed to the work. For instance, if a man is running, at first he is fatigued and then he becomes accustomed to the exercise and it is not such a strain after the muscles and body are caught in the rhythm.

Sidney Dicks of American ridge purchased a new sport model two-door Chrysler brought

Sunday, May 15th at 8 p. m. Theme: "The Lamps of Education." Readers of Ruskin's "Seven Lamps of Architecture" will recall how luminously and eloquently he unfolds the principles of architecture under the figures of lamps, each lamp illustrating some fundamental law of right construction, adapting a somewhat different order. We propose to adapt these seven lamps to the principles of education.

Every citizen should attend this service. Come—show the class that you believe in them. Special music a feature. Preaching at American ridge at 11 a. m., May 15th.

Epidemic's Big Toll

An estimate of the deaths caused by the influenza epidemic, 1918 and 1919, was made by Laymonier in the Gazette des Hospitiaux, September 30 and October 2, 1919. He says that for the total of 11 months, allowing for analogous mortalities in Central Asia and the Far East, the world mortality could easily have exceeded 25,000,000.

Control Hog Cholera.

Cholera is a very contagious disease confined to hogs, and has a mortality of nearly 100 per cent. The only means of control is through strict quarantine measure and the judicious use of anti-hog cholera serum and virus. One should keep men, birds, and dogs away from his hogs, and be careful about importing feed from cholera-infested areas. If cholera is near, vaccinate. Also keep in touch with the state veterinarian and watch the sanitation.

PRESBYTERIAN CHURCH
