"The Home of Good Things to Eat and Wear"

Ocean Flight Further Postponed

Miss Ruth Elder, Florida aviatrix and beauty contest winner, who was supposed to have started on the trans-Atlantic flight to Paris a week ago yesterday, has been unable to take-off as yet, owing to the extremely bad weather. However, she and her co-pilot, George Haldeman, have everything in readiness at New York and will start as soon as the weather permits.

**Kendrick Methodist Church**  
 Sunday School ..... 10:00 a. m.  
 Sunday, October 9th will be observed as "Go to Church" Day, 11 a. m. and 7:30 p. m.  
 A special program is planned for this occasion.

Notice the slogan "Go to Church". This means YOU. Please do not fail us. The public is invited.

Theme for 11 o'clock service: "Macedonia."  
 Evening service, "Wanted, A Man."

L. E. Taber, Pastor.

### Divisions of Indians

Indian tribes were formed originally as family units—that is, the members of a certain family banded themselves, maintaining certain customs of life and religion. Various factors afterward caused the tribes to expand.

### SOUTHWICK MAN LOSES HORSE, FIVE MORE SICK

Other News From Around That Vicinity.

Attlee Mustoe had the bad luck of loosing one of his work horses, one day this week and five more are sick as a result of the horses having broken into the barn where the grain was stored.

A large number from town and vicinity attended the fair at Orofino last Saturday.

R. G. Farris and Homer Betts did a large amount of repair work on the Crescent telephone line Thursday. There is more work which should be done before winter sets in.

Wm. Whiting and wife spent Sunday at the home of their granddaughter.

Walter Need and family and Grandma Martin are visiting at the home of Roy Martin.

Wm. Jennings and family of Ohio were the overnight guests of Mrs. Ben McCoy, last Saturday night. They drove thru in their Ford car, making the trip from Dayton, Ohio, in 15 days. They expect to make their home here.

Homer Betts and wife were the supper guests of Mr. and Mrs. Zoel Fairley Wednesday evening.

J. R. King and family, and Mrs. Flyd Russell visited at the home of Ray Southwick on Cream ridge, Tuesday.

Theo. VanVoose of Umapine, Oregon, is sending a few days this week at the home of J. E. Hope.

Mr. and Mrs. Wm. Berriman spent Friday at the home of H. H. Betts.

Reports at this writing are that Grandma Harris, who is sick in Lewiston, is no better. Mrs. Gordon Harris is there helping to care for her.

Gertrude Baker was an overnight guest of Mrs. Alice Betts, Friday night.

Mrs. George Jones was a caller at the home of Mrs. Zoel Fairley Tuesday afternoon.

Miss Lucile Davis of the Grinolds district entered the Southwick high school, Monday, for the coming year. There are now about 40 pupils enrolled in the high school.

Harry Thompson and family of Lewiston spent the week end at the home of her sister, Mrs. Fred Schoeffler.

### G. H. MOODY ESTATE IS VALUED AT \$75,000

Widow and Five Children Will Share in Estate.

Petition of Harry A. Sampson and Howard J. David as executors of the will of George H. Moody, Moscow businessman, who died Saturday, Sept. 24th, was filed last Thursday afternoon in the Latah county probate court under Judge Adrian Nelson.

Estate calling for the distribution of approximately \$75,000 in real and personal property is left to the surviving widow, four daughters and one son under the terms of the will, made September 14, 1927.

Helena R. Moody, Moscow, widow of the deceased is left \$6000 and all household goods and furnishings; Myra I. Moody, a daughter, now in Boston, Mass. is left \$10,000; Clarice M. Sampson, Moscow, daughter, \$5000; Mabel M. Richardson, Alberta, Canada, daughter, \$5000; Ethel M. Byrne, Lewiston, daughter, \$5000, and Joseph E. Moody, son, Chicago, \$5000.

In addition, all remaining after these bequests, 28 per cent is left to Myra Moody, and 18 per cent to each of the three daughters and one son. The will was read at the court house Thursday afternoon in the presence of relatives.

Judge Nelson has fixed October 11th for hearing the petition.—Star-Mirror.

The men at the front are busy doing things—not talking about them.

Butterwrappers printed at the Gazette Office.

## ADAMS HOME WILL BE MADE SHRINE

HISTORIC STRUCTURE SOON  
OPEN TO PUBLIC.

Was Built in 1732 by Leonard  
Vassall, Planter.

Quincy, Mass.—America is soon to have another national shrine, the historic old Adams home with its wide grounds, old trees and old fashioned garden, beloved of two Presidents of the United States and their distinguished descendants.

Although the old home is to remain in the ownership of the Adams family, as it has since the very early days of the republic, the grandchildren of Charles Francis Adams have decided to give up the house to the public and it will be opened soon as a national shrine.

Tradition has it that Abigail Adams sat down on the horse block before the house and cried when she saw that the house was not large enough for the new furniture she had bought in France. That was why John Adams, the second President of the United States, added some rooms to the original structure, built in 1732 by Leonard Vassall, a San Domingo planter.

Vassall was a Loyalist and he fled the country at the time of the Revolution. The new American government bought the house and John Adams in turn bought it from the government.

Five generations of the Adams family were rocked in the cradle that is still in the house. In the wing chair that stands in the study upstairs the President died a year after his son, John Quincy Adams, had been inaugurated President.

In the stone library which Charles Francis Adams built in the garden in 1872, is the desk at which John Quincy Adams died in the house of representatives in Washington.

In addition to the furniture brought from France by Abigail Adams, are two chairs of Dolley Madison's that came from the White House. There is the old sofa on which President John Adams sat at 90 to be painted by Stuart.

There is a bed that was obtained from Daniel Webster for a bad debt. This is in the middle room in which Lafayette once slept.

The house always has been lived in and the passing years have seen each generation of the noted American family add to its heritage.

## FIRST TRANSATLANTIC FLIGHT THE FASTEST

1960 Miles in 16 1/2 Hours in  
1919 by Alcock and Brown.

New York.—Contrary to the belief of most newspaper readers, nonstop airplane flights across the Atlantic not only have failed to hang up any speed records in 1927, but actually have fallen short of the mark set eight years ago by the first plane to blaze this trail. A comparison of times and distance in this field follows:

1919—Alcock and Brown, from St. Johns, N. F., to Clifden, Ireland, 1,960 miles in 16 1/2 hours; average speed, 120.9 miles an hour.

1927—Lindbergh, from Roosevelt Field, L. I., to Paris, France, 3,610 miles in 33 1/2 hours; average speed, 107.7 miles an hour.

Chamberlin, from Roosevelt Field to Plymouth, England, 3,425 miles, in 34 hours; average speed, 100.7 miles an hour.

Byrd, from Roosevelt Field to Brest, France, 3,524 miles in 33 1/2 hours; average speed, 105.2 miles an hour.

Brock and Schlee, from Harbor Grace, N. F., to Plymouth, England, 2,150 miles in 19 1/3 hours; average speed, 111.4 miles an hour.

## Vikings Are Best

New York.—Vikings are the best motive power for lifeboats. In the first international lifeboat race, a pull of a mile to the statue of Liberty, eight from Norwegian boats finished first, second and third. Crews of six nationalities competed, the American entry finishing last.

## To Hunt Treasure

Vigo, Spain.—Pino is to hunt buried treasure. A corporation has been formed to explore Vigo bay for valuables thrown overboard from galleons 225 years ago.

## Campers Have Choice of 550 Natural Parks

Washington.—Motor tourists and enthusiasts for the out-of-doors now have at their disposal, in 48 states, about 550 state parks or similar areas, with a total area exceeding 2,500,000 acres.

The number is growing steadily, but the tourist who cannot find what he wants in the way of wild life or life in the wild among the parks can find numerous other reservations where he may take himself and his longing to "rough it." More than 150 state forests are open to public recreation. They contain 1,690,000 acres of "unimproved" land.

## PARALYSIS SPREAD ALARMS SCIENTISTS

INCREASE SEEN AS THREAT  
OF EPIDEMIC.

Decided Gain Over Same Period  
of Last Year.

Washington.—Are we on the verge of another infantile paralysis epidemic like that of 1916? Late summer and early fall are the times when this little understood disease is most prevalent, but the number of cases reported to the United States public health service in the last few weeks have shown a decided gain over those reported for the same period last year.

The figures for the week ending August 6 show 180 cases as opposed to only 66 for the corresponding week of 1926. Ohio reports several widely scattered cases, while California has 66 for one week alone.

Like influenza, poliomyelitis, as infantile paralysis is known to medical men, is one of the unfinished problems on which scientists are still hard at work. It is believed to be caused by a filterable virus, which is spread by contact with articles that have been touched by the infected person. From the way in which epidemics have spread in the past it is thought that it must be transferred either by animals or human carriers, but at this time little has been definitely established on this point.

In the big epidemic in New York city that occurred eleven years ago it was clearly shown that prompt hospitalization of all cases that could be safely moved checked the spread of the disease more effectively than any other measure. Another outstanding point that emerged from this experience was the fact that isolation of groups of children from contact with other children or adults, even when carried out in the midst of areas where the disease was prevalent, sufficed to protect almost absolutely from infection.

At the Rockefeller Institute for Medical Research attempts have been made to immunize monkeys to poliomyelitis but the results were too variable to be useful.

French workers have tried to use pieces of dried spinal cord after the same procedure as that followed in rabies treatment, but the results were too uncertain to be practical. Dr. E. C. Rosenow of the Mayo clinic has used an antistreptococcus serum to treat acute cases, but this has not received any general application.

## Strenuous Prince

Montreal.—The prince of Wales is a disciple of the strenuous life. A few of his activities on the last full day of his visit to the dominion were visits to two warships, a game of squash rackets, a round of golf and a formal dinner.

## Believe in Signs

Asbury Park, N. J.—Fish hawks here believe in signs. Unable to feed on the fish in a lake muddied by recent storms, two fish hawks attacked a four-foot imitation tarpon, hanging in front of a fish store.

## "Old Reliable Specialists"

# Camel

Climbing to new heights of  
popularity

Government figures show that  
more Camels are being smoked  
today than ever before. One  
after another Camels passed  
them all.

If all cigarettes were as good  
as Camel you wouldn't hear  
anything about special treat-  
ments to make cigarettes good  
for the throat. Nothing takes  
the place of choice tobaccos.

**SHIP 500,000 CANARIES FROM GERMANY A YEAR**

Large Demand in America For Feathered Warblers.

Berlin.—Germany, the world's market for canary birds, annually ships about 500,000 of the little feathered warblers to America.

Since the beginning of the Sixteenth century, when these songsters were brought from the Canary islands, they have been carefully and extensively bred in Germany. Within the last century the "Harzer rollers" in the Harz mountains have acquired world-wide fame.

Through careful breeding the original green color of the birds has been changed to a bright yellow, while incessant and careful training has markedly enhanced their original marvelous vocal qualities.

The features of the canary-bird exhibitions regularly held in Berlin are the "song tournaments," at which the birds' vocal abilities are carefully appraised by expert breeders, who have made the surprising discovery that the green birds—resembling in color their wild tropical progenitors—are frequently better singers than their yellow brethren.

**British Birth Rate Now Europe's Lowest**

London.—The birth rate in England and Wales has now fallen below that of France. With the exception of Sweden, it is lowest of the principal European countries, according to the registrar general.

The birth rate for 1926 was 17.8 per 1,000 population. Exceeding the rate of 17.7 in 1918, the last year of the war, which at that time was regarded as phenomenally low, that for 1926 is the lowest recorded since the establishment of civil registration in this country.

In view of the continued decline during the fiscal half of the current year, it is probable that the rate for 1927 will be lower than that for 1918.

**COMING! United Doctors**

The Doctor who has charge of the State of Washington is

**A SPECIALIST**

in Chronic Diseases and Clinical Medicine

Will be at

Davenport Hotel, Spokane  
Wednesday, Thursday, Friday  
October 12, 13, 14  
Cosy Nook Hotel, Palouse,  
Saturday, Oct. 15

Office Hours: 9 A. M. to 3 P. M.  
No Charge for Consultation

The doctor is a graduate in medicine and surgery, licensed in the State of Washington. He visits professionally the important towns and cities, and offers free consultation to all, except the expense of treatment when desired.

He treats Chronic Diseases of long standing and has to his credit many wonderful results in catarrh, ulcers of the stomach, disease of gall bladder, bowels, blood and skin, nervous disorders and disease of heart, kidney and bladder, bed wetting, rheumatism, sciatica, leg ulcers, varicose veins, rectal ailments and chronic constipation.

If you have been ill for any length of time and do not get better, call on the doctor, as improper measures rather than disease are often the cause of your long standing illness.

Special attention is given to each case, and an earnest effort made to attain the best possible results.

Remember the above date and that the doctor specializes in Chronic Diseases.

**TELEVISION TOO SLOW YET TO BE PRACTICAL**

BUT SHORT STEP TOWARDS SEEING BY RADIO.

Wireless Waves Travel 186,000 Miles a Second.

New York.—Forty thousand electric impulses a second, riding wireless waves which travel 186,000 miles a second—that is radio television today, and still it is not fast enough to be practical.

Now that the transatlantic beam radio transmission and television have been accomplished, laymen may regard it as a short step to the time when scenes and speeches from a Geneva peace conference can be carried into their homes.

But the scientists and engineers who are entrusted with the task of bringing about something of that sort are doubtful. They point out a multitude of obstacles, and say that general use of television, especially for big scenes, may never be practical. Yet while they doubt they are industriously attempting to remove the obstacles of television for such practical organizations as the Radio Corporation of America and the American Bell Telephone company.

In Actual Use. Beam transmission for messages and photographs is not only practical; it is in actual use for messages from London to Cape Town, Canada and Australia. This autumn the Radio corporation will put a beam line into operation between London and New York, in addition to its "undirected" broadcasting lines.

But the beam, which takes only about one-fourth as much power as generally radiated broadcasting, is not the slim pencil of energy visualized by amateur prophets. It is rather a cone, which spreads so much in traveling 3,000 miles across the Atlantic that nobody really knows how broad it is at the base.

The power picked up at the end of the line is too weak to overcome interference sufficiently for flawless work in the delicate task of transmitting scenes of persons and things in motion—but that is probably one of the minor obstacles which will be dissolved with time. Increased speed of transmission may prove to be the real solution of the problem.

The Radio corporation has machines which can send and receive 250 words per minute, about eight times as many as the human operators can send and receive, over ether waves that travel with the speed of light. This speed of transmission gives secrecy to messages.

But television requires a speed that makes 250 words a minute seem nothing at all. Using a transmitter that would fill a fair sized room—and size of equipment is one of the minor obstacles to commercial television at present—the best available apparatus of the Bell Telephone laboratories manages to transmit over wires or ether waves a picture about three inches square. Engineers consider this far too small a space to portray a king's coronation or a football game.

2,500 Dots on Picture. The three-inch picture consists of 2,500 dots of light and darkness, flashed on the screen separately, but so fast that the eye seems to see them all at once. To get motion into the picture, at least sixteen slightly different scenes must be flashed on the screen each second, each reproduced from the source by a separate electrical impulse. The dots have been enlarged to a maximum that gives a blurred picture two feet square, but the picture loses clarity with each amplification.

To transmit these "dot" impulses, energy for synchronization of machines and for a conversation, requires facilities that would carry four to six telephone conversations. Enlargements would be possible by dividing a scene, for instance, into quarter sections, transmitting each section as a separate picture and then recombining them as a single view. But this would require four transmitters, with transmission facilities for sixteen to twenty telephone conversations, or, if sent by air, it would occupy the ether wave bands of sixteen radio stations, and it would transmit scenes one way only.

Greater speed in transmission, a speed so nearly incomprehensible that it may never be attainable, is perhaps the secret of television on a broad scale. One hundred and sixty thousand impulses per second, each reproducing a spot of light or darkness, would theoretically give a picture four times as large, and more dots would give larger scenes in proportion. But cautious scientists refuse to say more than that it "might be possible," and that it "might solve this particular part of the whole problem." Meantime experts in the telephone laboratories are trying to find out just what needs to be done and what can be done to make television commercially practical.

The fellow who borrowed trouble doesn't have to pay it back, but he pays heavy interest on the loan.

**Elevating Appeal**  
Help us with the grace of courage, that we be none of us cast down when we sit lamenting amid the ruins of our happiness or our integrity; touch us with the fire of thy altar, that we may be up and doing to rebuild our city.—Robert Lewis Stevenson.

**LADIES OF TALENT TAKE UP AVIATION**

FRENCH NOVELIST AND MUSICIAN WIN LICENSES.

Mme. Faure-Favier Hold World's Altitude Record For Women.

Paris.—Novelists and musicians are seeking inspiration in the skies.

Among the latest women to be awarded pilots' licenses in France are two women whose reputations were first achieved in literature and music.

Frenchmen believe that if a woman can fly the Atlantic ocean, that woman is Mme. Louise Faure-Favier, who is as well known for her books as she is for her flying. She holds the world's altitude record for women flyers with a 6,500-meter distance. Many of her novels have plots of air and aviation. Her latest novel is concerned with the conflict between the black and white faces.

Mme. Faure-Favier flew the English channel in 1919, the first woman to accomplish this feat. She was also first of her sex to fly the Mediterranean from Marseilles to Algiers, which she did in 1923.

France conferred the Legion of Honor upon her for her literary accomplishments as well as her daring air feats. She has a gold medal of the French Aviation club.

**Bolivian Woman Sensation.**  
A South American musician, writer and lecturer, Senorita Amalia de La Tapia, has astonished veteran French air men by her skill in passing pilots' tests in Paris.

Senorita Amalia, who comes from Bolivia, is still in her early twenties, but she handles a plane with daring and skill, although she believes that flying is not a woman's game, as a rule.

"Flying takes too much sacrifice and cool-headedness to be a suitable profession for women," she explained. "There are many other metiers more suited to them and in which they can be more useful than men."

The Bolivian girl first took to the air in Peru, and since then, she says, her one idea has been to become a pilot. When her family opposed her she went to the United States, where she secretly began to learn to fly. She finished her work in France and last spring was breveted pilot.

Can't Get Jobs. But women are out of luck as aviators in France. They have the legal and moral right to fly, but none of the airplane companies will employ them.

The decision of the international commission of aerial navigation, recently authorizing women to pilot commercial and passenger airplanes, opened the gates to airfields. But the men who own the air services in France say they have no intention of employing them as air pilots.

All the principal French companies have said: "No women." Some of them admit that the rigid physical examination required of pilots would protect the public, but air work is a man's job, they say.

Future perfection of airplane mechanics and science, some suggest, may change their attitude.

Although Senorita de La Tapia therefore has no hope of practicing her profession as a commercial pilot in France, she may, however, take up piloting in Bolivia where the government, she says, is interested in developing air communications despite the difficulties imposed by high altitudes.

**Shadow and Substance**

LOCAL NEWS

Walter Thomas left for Spokane Tuesday morning, where he assisted in playing the musical score for the famous comedienne "Mitzi" in the stage play "The Madcap" which played at the American Theatre of that city Tuesday and Wednesday of this week. The top prices of admission were \$3.30.

A. Wilmot drove to Wallace, Wednesday morning on business, and expects to return home tomorrow. He has finished packing his furniture and expects to leave for California Sunday or Monday, accompanied by his son, Billy, and housekeeper, Miss Ecklund.

Ben Callison and son, Norla, and Harry Ameling returned Monday from a hunting trip in Reeds Creek. Salmon river country. They report the hunting fair. Ben got his deer.

Mrs. Grinolds left Sunday afternoon for Lewiston to spend a couple of weeks at the home of her son, Jake.

Mr. and Mrs. A. H. Daubenberg drove to Seattle Friday evening, returning home Tuesday, accompanied by Mrs. Daubenberg's parents, Mr. and Mrs. Segel, of Renton, Wash. Mr. and Mrs. Daubenberg left yesterday for their new home at Auburn, Wash. Their household furniture was shipped this week. The many friends of the Daubengbergs regret their leaving Kendrick but wish them success in new location.

E. H. Emery, assistant cashier of the Kendrick State Bank, spent Sunday in Asotin with friends.

Miss Maude Compton, who is attending the Lewiston State Normal, spent the week end in Kendrick with her parents, Mr. and Mrs. C. G. Compton.

Roy Humphrey brot a plant of sweet potatoes to the Gazette office Tuesday, which he grew in his garden in Kendrick, which had 13 tubers on the plant, some of them were very good size. He expects to raise a considerable amount of these spuds next year.

Walter Byington and Liddie Taylor, both of Juliaetta, were united in marriage at Lewiston Wednesday by Probate Judge Parker.

Hazel Stanton spent the week end in Kendrick with home folks. She is attending the Lewiston State Normal.

Mrs. A. K. Carlson was a Moscow visitor last Saturday afternoon.

E. C. Collins, Latah county game warden, Tuesday, planted 18,000 fingerling Rainbow trout in the Potlatch river above Bovill.

Miss Dorothy Jones, who is teaching school near Pomeroy, Wash., spent the week end on Bear ridge with her parents, Mr. and Mrs. A. W. Jones.

Mrs. R. H. Ramey returned home from a visit to Spokane last Friday, where she spent several days with friends there.

C. F. DeLano, local manager of Morgan's Grocery Market, spent Sunday in Lewiston with friends.

Ed Deobald, Joe Gardner, R. B. Knepper and Ernest Clem left about 3:30 last Friday morning on a deer hunt to the Selway country. They expect to camp somewhere near O'Hara Bar, on the Selway river. We expect to see them "blow in" about Sunday with their limit. We got our mouth all fixed or a nice juicy piece of venison and hope that we will not be disappointed.

Mr. Bishop returned Saturday evening from Spokane to spend the week end here with his family. He left Sunday afternoon for Orofino where he has employment with the Clearwater Timber Co.

N. E. Ware and son, Percy, drove to Lewiston Monday afternoon on business.

Mr. and Mrs. R. H. Ramey and family moved into their new home, Tuesday, which they recently purchased from A. Wilmot.

Mrs. C. Thomas enjoyed a visit from her daughter, Opal of Spokane, Wednesday.

Mrs. J. E. Key of Spokane is visiting at the home of her parents, Mr. and Mrs. N. B. Long.

BABE RUTH BREAKS HIS FORMER RECORD

FAMOUS SLUGGER KNOCKS 60th HOME RUN.

Made World by Pounding Out 59 in 1921.

Babe Ruth, famous right fielder for the New York Yankees, and world's greatest slugger, made his 60th home run of the season Friday, beating his 1921 record of 59. Lou Gehrig, who

BABE RUTH

has been crowding Babe hard for the title of "Swat King" has made 47 home runs this season. All the efforts of the great league pitchers to stop the heavy hitting by Babe Ruth were fruitless, and now he has established a new world's record by pounding out 60 home runs for the season of 1927.

Quarterly Conference at Leland

Rev. J. B. Needham, the newly appointed Presiding Elder of the Spokane district, will hold the first quarterly meeting of this conference year in the Methodist church at Leland, Sunday, October 9th. He will preach at 11 o'clock and will hold the conference in the afternoon.

Rev. G. H. Gibbs, pastor of the Leland Methodist church, reports that the church work in that locality is progressing nicely

GOLD HAS BEEN FOUND ON REEDS CREEK

At Sears Files on Godlie Placer Claim.

Al Sears, boss carpenter for the Clearwater Timber company, has discovered gold at Headquarters, in the Pierce City mining district, and has located and filed on the Goldie placer claim. Henry McDonald has the Bull Run and W. H. Reed the Golden Gate. The last two adjoin the Goldie, according to a Headquarters report.

These claims are on Reeds creek, along the new railroad, which recently reached Headquarters. The railroad construction crew opened this new gold field when they dredged out Reeds creek and Mr. Sears, having taken a course at the School of Mines at Phoenix, Arizona, and being an experienced prospector, recognizing the richness uncovered by the big steam shovel, it is related. Several million dollars in gold have been taken out of the Pierce City mining district.—Clearwater Tribune

Dr. and Mrs. G. W. McKeever purchased the residence property of A. H. Daubenberg, last Friday. They expect to take possession about the first of next week. Jack Barnes, local manager for the Washington Water Power Co., expects to move into the old home of Mr. and Mrs. McKeever.

Miss Mary Weaver spent the week end in Lewiston with friends, returning home Sunday afternoon.

Si: "Sarah, is there anything you want in town this mornin'?" Sarah: "Well, Si, you might buy a jar of that traffic jam I've been readin' about."

J. E. Frazier, auctioneer, yesterday moved into the house recently vacated by Mr. and Mrs. Carl Carlson.

One reason why few recognize Opportunity is because it is disguised as a hard job.

Self-Made!

I have met self-made men whose talents were so highly specialized as to be indiscernible in conversation.—Dean Inge.

OUSTED FROM OFFICE

LEON TROTSKY

According to a dispatch from Moscow, Russia, Leon Trotsky, who was one time a powerful leader of the Soviet government, was ejected from the Soviet Council last Friday, and is now an outcast.

Reason Enough

Auto tourist: "I clearly had the right of way when this man ran into me, and yet you say I was to blame."

Cop: "You certainly was!"

Autoist: "Why?"

Cop: "Because his father is mayor, his brother is chief of police, and I go with his sister!"

Some people are like poor mulch—they stick to nothing.

Why Not Enjoy The Best in a "JIFFY"

The super-Comfort tent for Campers and Tourists. Only in the famous "JIFFY" will you find the "Jiffy" tent features: Special forest green fabric, absolutely water, sun and mildew proof.
