

### Petition For Road Work

We publish the following article without comment:

Lewiston Tribune: Late Monday the county commissioners ordered the clerk of the board to communicate with the commissioners of Potlatch highway district and order repairs made to a certain stretch of road with out further delay. The county board took this step after being confronted with a petition signed by 81 residents of the highway district.

Under the law, when highway district commissioners fail to make repairs or otherwise keep highways in adequate condition the county officers are privileged to order the work done and if not carried out by the district officers the county commissioners may order the work done, if the highway officials do not act, and the cost of such work if carried out by the commissioners is taken from the district's tax money.

The petition presented to the board follows:

"We, your petitioners, ask to have the road placed in such shape that it would be possible to travel without being pulled out of the mud. Some places between Cameron and the east line of Potlatch highway district have become so bad that it is almost impossible to get through.

"It seems no one is giving this place much attention and the people living above Cameron are having a hard time getting to the railroad to the warehouses, bank and other places of business on the railroad. It appears the highway commissioners are neglecting very much what is our outlet and they appear very indifferent about making repairs.

"Our people are about to rise up in arms, and we ask the county board to see what can be done in the premises. The Berriman hill is very bad and the corner at the H. Bleck and Tupper places is also in very bad shape."

Coupled with this communication came another in which it was set out that the petitioners reside east of the Jacob Berriman hill on the stage road, from Southwick to Kendrick. This road, they state, is in poor shape.

Furthermore, it is recited, the stage road between Cameron and the east line of the Potlatch highway district has been neglected for the last year and for some time has been impassable, virtually shutting out the residents from getting to market or elsewhere. The mail stage now travels over a detour, a road north from Cameron, depriving patrons of the route from receiving their mail.

Those signing the petition are: J. H. Triplett, Virgil Harris R. M. Wright, Emil Schuessler, Russell Rodgers, M. Helton, R. Truitt, William Bleck, Lester Tiptlett, Jos. Schwartz, S. A. Douglas, H. F. ### Boise to Keep Veterans' Hospital

The United States veterans' hospital at Boise has been saved. Word to this effect was received from Washington the latter part of the week. Lester F. Albert, state adjutant of the American Legion, received a telegram saying the war department would not request the return of the reservation unless the veterans' bureau gave it up voluntarily. National Director Frank T. Hines of the Bureau said the hospital would stay.

### Troy Doesn't Favor Bear Ridge

In a lengthy article of last week's Troy News arguments were presented to show that the highway over Bear ridge should not be built. We are sorry that Troy does not agree with Kendrick in this matter, but the general sentiment here is that the people of Kendrick highway district still have the privilege of mapping out their own road building program.

The article starts out as follows:

"With so many insistant reports on the air regarding a Kendrick-Deary link of the state highway being built up Big Bear ridge it is considered by those who have their finger on the pulse of the situation so to speak, high time that the citizens of this community should bestir themselves lest thru neglect Troy should lose this stretch of highway, which rightfully belongs to us, as it did the North and South Idaho highway, to which they were undoubtedly entitled."

The plan Troy advances is to have the state highway located from Kendrick over American ridge to Troy. Kendrick will be glad to co-operate with Troy in building this road but has no intention of abandoning the Bear ridge project as there is no question but that it is decidedly the shortest route from Kendrick to Deary and would thus serve as a cut-off from Spalding on the North and South Highway, to Deary, the distance being 10 to 12 miles less than via Troy.

Kendrick highway district will build the grade on American ridge, as this is now included in the project that is being put over at this time. The faster Troy builds down toward Kendrick the better it will suit everyone concerned.

The state department of public works has already promised the Kendrick highway commissioners that the state would take over and maintain the highway from Spalding to Deary as soon as the Kendrick highway district had completed the Bear ridge grade.

The Troy News says: "Our sister community is to be commended on their forward looking program in obtaining for itself arterial highway connection with the surrounding country. They have demonstrated a 'go-getter' spirit that is to be commended. We should all co-operate in every way since we are in a position to furnish them an outlet to state highway next year."

Don't kid us that way, Troy. Don't you know that Kendrick has had a surfaced outlet to state highways two years before Troy had? And in addition, our outlet to state highway next best towns in Idaho.

### Band Making Fine Progress

Walter Thomas stated this week that the Kendrick band is making splendid progress and that in his opinion the town is going to have the best concert band that it has ever had. He has taken pains to select the proper instruments for the various members of the organization so that it will be well balanced. When all members are present the band numbers over thirty pieces.

### Ship Four Cars Stock Saturday

Last Saturday night four carloads of cattle were shipped from Kendrick. One carload was shipped by Claud Craig and the other three by Dave Gentry. Not so bad for a farming country.

### Local Boy Writes of Orient

I suppose there are many of your readers who have often wondered what the Orient looks like. I know that I was that way, when I was in the high school at Kendrick. Therefore, I decided to set down a few of my impressions of China, of which I have seen a great deal, in the last six months.

The "Henderson" returned to San Francisco, November nineteenth after six months in the Orient. You probably read of her sailing, last April, with fifteen hundred Marines on board. We are now at Mare Island, for a short overhaul period, and, as we expect to go back to China in January, "All Hands" are making the most of the few days that we have among white people. It certainly was a relief to get away from the jabbering Chinks and the rickshaws, to ride on a Frisco street car again.

I was sitting here, today, thinking of friends in Kendrick, and wishing that I could spend Christmas there. However, that's impossible, so I must be content to write to you. Wishing everyone a Merry Christmas and a Happy New Year.

Yours truly,  
A. R. Hewitt.

### Impressions of China

My first impression of China was that it was very crowded; and my second impression, confirmed by my sense of smell, was that it was very dirty. The Whangpoo river was crowded with "junks" of all sizes, and sampans of all colors, descriptions and states of repair. Some were green, some black, some yellow, but all of them dirty, and all with little fish eyes painted on the bows. All of them were fairly bristling with filthy Chinese, who kept up an incessant clamor for "Money" and "Chow Chow." Some of the people were young, some were old, but all of them looked as if they had just been dragged thru the proverbial knot-hole.

One of the most pitiful sights that I witnessed, during our stay at Shanghai, was an old, ragged, toothless, woman, holding a small baby as far up toward us as she could, and begging, "Money, Buy Chow-Chow, my baby hungry." About the only English words the Chinese on the river seemed to know were "Money, Chow-Chow" and they certainly made a lot of noise, just shouting those two words.

I was fairly stunned, when one of the fellows told me that a whole family, numbering from three to six, lived, all of the time in one of those boats, no longer nor wider than a Ford car body. Later, I found out that it was true, simply because the country is so crowded that there is no room for them ashore.

The first time I went ashore, I got into a rickshaw and started out, not knowing exactly where I was going, but bound to get there some way. I finally got to the Navy Y. M. C. A. and then I had a rather heated argument over how much I owed the rickshaw coolie. He said I owed him a dollar, and I didn't believe it, so finally asked a sailor, who came along, and he said to pay the coolie twenty cents, "Mex," or about eight cents, American money, so I paid him and walked away.

The Foreign Concessions in Shanghai are very much like a small American City, as the buildings are mostly masonry, and are well-kept. The streets are much narrower, however, and some of them are cobblestoned and very rough, but most of them are paved. Some of the bunched-wire entanglements, that were put up early in 1926, still remain, at the entrances to the native city. What automobiles they have are small and low, and the street cars are hardly worth noticing.

The Cabarets, where all the sailors hang out, are all small places brightly lighted, with a bar running along one end, and an orchestra stand in one corner.

### Merchants Protest Tax Rate

Merchants and businessmen of Moscow, Genesee, Troy, Juliaetta, Kendrick, Potlatch and Deary, with representative attorneys, County Commissioners Elmer J. Paulson, John Cone and J. L. Woody, and E. J. Gemmill, county assessor, met here last night under the auspices of the Moscow Credit Mens' association protesting assessment increases made recently by the state board of equalization at Boise, says the Star-Mirror.

The meeting resulted in authorization for the appointment of a committee of not less than five which will go into the tax situation as it affects Latah county and see ways and means of bringing assessment of property in the county upon a more equitable basis. The committee also will enter a protest with the state board although there is no possibility of a change for the coming year's assessment or taxes.

While increases were entered for Latah county's assessed valuation last August, date of the state board's meeting, little attention was given the matter here until businessmen received tax statements two weeks ago. Since then, there have been vigorous protests and dissatisfaction.

The state board raised the value of all merchandise in the county 40 per cent, business lots 20 per cent and taxes. What the increases will amount to in taxes, the assessor said Wednesday had not been determined as yet. Merchants, however, claim that it means an extremely heavy burden for them which is not justified. The claim that merchandise stocks have not shown increases in the last year and at the meeting last night opinion developed that the state board, looking over Latah county's assessment figures, noted decreased totals which it felt should not be the condition, and that it took this means to effect a readjustment.

It is expected that the committee to be named by the credit association will attempt to obtain a reassessment of all county property. The opinion was expressed that valuations should be raised generally and the levy lowered, obviating the necessity of a state board acting as did the present board last August.

It was pointed out that Moscow's assessed valuation this year was put at \$1,813,346, compared to a valuation in 1926 of \$1,829,128, despite new improvements during the year. The committee has not yet been appointed by A. I. Rolfe-son, president of the association.

### Walker Re-Elected

G. F. Walker was re-elected commissioner of Kendrick Highway District without opposition last Tuesday. There were 55 votes cast, Mr. Walker receiving 54. He was elected for a four-year term.

### Entertained Okoke Club

Mr. and Mrs. Walter Thomas entertained the Okoke Club last Saturday evening at a delightful bridge dinner. Tables were set for sixteen. After dinner several hours were spent very enjoyably with cards.

They are all splendid places to get dead drunk and robbed, as the women all live off the sailor. None of them were interested in me, as I didn't have any money, so I got back to the ship all O. K. So ended my first liberty in Shanghai.

I would be very glad to hear from any of my old friends in Kendrick, or any one else, who is interested in China, or who wants to exchange pictures of any kind. I'm another "Gent who prefers blondes" so shoot the letters.

### Renfrew-Emmett

Mrs. Elsie Renfrew of Lewiston, daughter of Mr. and Mrs. Herman Lohman, Sr., was married last Thursday afternoon to Mr. Cecil Emmett of Kendrick, son of Mr. and Mrs. B. N. Emmett. The wedding was a quiet affair with none but a few friends of the bride and groom present. After the ceremony the bride and groom returned to their home on Little Bear ridge where Mr. Emmett is engaged in farming.

### Aid For Our Health Camp

Our health camp for undernourished children in affiliation with the Idaho Anti-Tuberculosis children, opened June 17 1927, with thirty children in the camp. Five of those were from this county—one boy at the present time is attending the Kendrick school.

The selection of children each year is made through superintendents, teachers, parents and physicians. The children last summer made remarkable gains, and a large percentage of them who had been in close contact with tuberculosis was made safe. The children in attendance were from 7 percent to 27 percent underweight. Many of these reached normal within two months time. The greatest gain was 12.5 pounds in thirty days. The average gain was 4.8 pounds. There was no sickness in camp at any time.

Services of an undenominational character were held on Sunday afternoons. The children enjoyed the life of the camp immensely.

Superintendent C. A. Tenny of Kendrick has been appointed to raise twenty dollars as Kendrick's apportionment toward the expense of the camp, by the sale of Christmas seals. He has deputized twenty children and young people of the school, to wait upon the people of the town for their gifts, by buying the seals.

The following children are authorized to sell Christmas seals.

High school: Shirley Clem, Robert Dammarell, Lois Johnson, Raymond Lyons, Neva Ware, Margaret Broeke and Mabel Taber.

7th and 8th Grades: Elizabeth Carlson, Nettie Mac McDowell, Edna Bolen and June Davis.

5th and 6th Grades: James Bolen, Wayland Davis, Thomas Blevins, Otis Ross and Margaret Schultz.

3rd and 4th Grades: Esther Aiken, Elmer Emery and Junior Ramey.

We bespeak for them your courteous attention and assistance in this most praise-worthy work. Help "Stamp out Tuberculosis" by buying stamps and enjoy the Christmas season all the more by your act of mercy.

### District Buys Dragline

The commissioners of Kendrick highway district ordered a dragline last week to be used for clearing the big slide at the foot of the Little Bear ridge grade. It will also be used for other purposes in the future. It is now in operation at the big slide.

### W. O. W. Elects Officers

White Pine Camp Woodmen of the World, held a very enthusiastic session on Wednesday evening. Officers were nominated and elected for the ensuing term as follows: Past Consul Commande, Thos. McDowell; Consul Commander, August Hartung; Adviser Lieutenant, Frank Boyd; Clerk, Edgar Long; Banker, Ira Bolen; Escort, Walter Hartung; Watchman, A. Onstott; Sentry, Oscar Raby; Managers, Frank Ellis and Thos. Daugherty.

After the business of the evening is conducted the camp will have a social term together on the evening of the 21st.

A short service was held when tribute was paid to the memory of their late neighbor, Jody Long.

### Circulating Road Petition

Petitions to the Kendrick highway district commissioners are being circulated throughout the district this week, asking that the commissioners call a bond election for the purpose of voting bonds to build grades up Brady gulch on American ridge and a grade on Bear ridge, following the Van Arsdol survey to the Rimrock school house and to furnish funds for other road improvement work.

To date the petitions have been very liberally signed. Only one property owner in Kendrick has refused to sign and his excuse had little bearing on the question at issue. It is felt by those who are interested in the present road-building project that there is very little opposition to the plan. There is a more united spirit for good roads than there has ever been in the past. Residents of the community have reached the point where they are willing to "give and take" in order to secure better highways.

The present road building program is not a matter that has been promoted on the spur of the moment; it is the result of plans that have been in the making for several years. There is little doubt but that it will be carried thru successfully.

### Obituary of A. N. Roberts

Albert Nelson Roberts, eldest son of N. H. and Elizabeth Roberts was born in Susquehanna County, Penn., April 27, 1850. Died November 30, 1927. His age at the time of his death being 77 years, 7 months and 3 days.

At the age of 18 years, he, with his parents, moved to Missouri and there met the young lady who later became his wife. On July 23, 1874 he was married to Frances Elizabeth Herbert at Cuba, Illinois. They moved to Elk County, Kansas, being among the first settlers there. At this place their only children, two daughters, were born.

Being of a pioneer nature Mr. Roberts wished to come farther west, and in April 1882, started from Kansas to Idaho in a covered wagon, arriving on American ridge, three miles west of Kendrick in July, 1882.

The following year he homesteaded on the farm that has been his home ever since.

Mr. Roberts served as county commissioner for Latah county from 1891 to 1895 and was deputy assessor of this county for 17 years.

Mr. Roberts became seriously ill the 9th of last January and has never been well since. On September 28 he underwent an operation from which he rallied and seemed recovering nicely when the unexpected end came so suddenly Wednesday morning.

In addition to his wife, Mrs. Fannie Roberts, and two daughters, Mrs. D. C. Helm of Troy, Idaho, and Mrs. V. Parkins of Gifford, Idaho, he leaves four grandchildren and two great grandchildren, also two brothers, Cyrus S. and Frank W. Roberts of near Kendrick, Idaho.

### Lecture Here Next Tuesday

James B. Fiske, Jr., electrical engineer for the Washington Water Power Co., will deliver a lecture here next Thursday evening under the auspices of the Kendrick Commercial Club. There will be no admission charged and everybody is cordially invited to attend. The lecture will be a description of the big power project at Lake Chelan, illustrated by lantern slides showing views of the work as it progressed and was finally brought to completion.

Thursday morning Mr. Fiske will talk to the students of the Juliaetta schools, between the hours of ten and eleven o'clock. In the afternoon he will give a talk to the student of the Kendrick schools.

Two prominent members of the Washington Water Power Co. will accompany Mr. Fiske here. The evening lecture will start at 8 o'clock.

**But He Was Stewed the Night He Died**

Two brothers, Ikey and Sam, were in business together and while Sam was traveling out west he became ill and died. The undertaker who took charge of the body wired Ikey:

"Sam died, can embalm him for fifty dollars or freeze him for twenty-five dollars."

Ikey wired in reply:

"Freeze him from the knees up for fifteen dollars—his legs were frosted last winter."—Exchange.

**Every day she'll be grateful for the Most Practical Gift of All**

Any woman would appreciate this relief from kitchen drudgery! The Westinghouse Automatic Electric Range makes it possible for her to stay out of the kitchen all afternoon—every afternoon. She can prepare dinner in the morning—place it in the oven of this electric range—then forget it until mealtime.

**The Clock Is the Cook**

Just set the clock at the hour cooking should begin. The clock automatically turns on the current—the thermostat turns it off when the oven has reached the right temperature. Cooking is finished by stored heat, as in a fireless cooker.

Ask your local electric light company or the nearest Westinghouse dealer to show you the most practical gift of all.

**LOCAL NEWS**

Mr. and Mrs. Walter Thomas and little son were Lewiston visitors yesterday.

Born to Mr. and Mrs. Virgil Fleshman, December 7th, a ten pound boy.

Wm. Meyer and son, Frank, went to their homestead in the Three Bear country this week.

Mr. and Mrs. Lloyd W. Kuykendall and family of Wallace visited relatives in this community over the week end, spending a part of the time here with his brother, Elbert. Lloyd reports conditions very good in the Coeur d' Alenes.

Born to Mr. and Mrs. Harry Langdon of American ridge, Saturday, December 3, a son.

Mr. and Mrs. Carl Stanton of Astoria, Oregon, arrived the first of the week to visit Carl's parents, Mr. and Mrs. Sam Stanton.

Mrs. Harvey Elliott returned to her home in Wenatchee the first of the week after visiting at the home of Mr. and Mrs. R. H. Ramey.

Mr. and Mrs. Briggs of near Portland arrived Wednesday morning to visit at the home of Mr. and Mrs. Archie May near Leland.

Material is on the ground for the construction of the new bungalow to be built by the Northern Pacific Railway Co. Work is expected to start on the new structure in a very short time. It will be a \$4500 residence and will be occupied by Mr. and Mrs. Thos. Blevins and family.

**Leland Meetings Draw Crowds**

The special meetings being held in Leland this week and to be continued next week, are proving very successful. Large

crowds are in attendance and much interest being shown. Rev. I. N. Hughes and Rev. Gibbs are conducting the meetings. Everyone is cordially invited to attend any or all of the services.

**Commercial Club Next Tuesday**

Next Tuesday is the regular meeting of the Kendrick Commercial Club. A good attendance is expected as important matters will be brought up.

**Council Held Regular Session**

Last Tuesday evening the town council held its regular session at the city hall with four members present. Aside from the regular routine business several matters were brought up for discussion and disposed of.

A request was made to the board that street lights be placed at the alley near the Rochdale Company's elevator and also one in the alley at the rear of Dr. Morehead's residence. Both places were badly in need of better lighting and the request was granted.

C. P. Higgins of the firm of Higgins and Richards of Spokane, appeared before the board and presented a proposition to have the books of the town, including improvement district assessments audited. The matter was taken under advisement and decision will be made at a later date.

A petition signed by 63 residents of Kendrick asked that the council pass an ordinance granting permission to operate mov-

picture shows on Sunday. As it requires fifty per cent of the residents of the town on a petition before the council can take action, the petition was referred back for more signatures and will probably be acted upon at the next regular meeting.

There being nothing further to bring before the board the meeting adjourned.

**Kendrick School Notes**

There was great excitement over the electing of a king and queen for the carnival last Friday. Margaret McDowell was queen with 1226 votes and Elbert Long was king. They were crowned both in the afternoon and evening. There was a good attendance at the carnival and the school took in \$113.50, but their expenses have not yet been figured, so they do not know how much they cleared. Several people went to the carnival not expecting an exceptional time but they were both surprised and delighted with it. Everyone was well pleased with both the programs and other entertainment, especially the side show, "Barney Google and Spark Plug," which was conducted by the sopranos. In the afternoon, during the program, lights went out which caused some excitement, but they soon came on and regular order was resumed.

The girls and boys basket ball teams have been practicing nearly everyday this week. They are scheduling several games for this month, and January and February. The girls are planning new suits for their games.

The public expression class is preparing for a declamatory contest which they will take part in sometime near the first of January.

The students of the high school received their report cards Tuesday, and there was quite an improvement in grades in general.

**Speaking of Roads**

Clearwater County is singularly handicapped or correspondingly blessed by the lack of a complete system of year round roads and year round connections with the outside world. We have talked to men who believe, or say they believe, that a year round highway down the river would kill this part of the county from a business standpoint. We have talked to men who believe, or say they believe, that such a road would increase business and population. It follows that one or the other is wrong but there is a blessing, perhaps in disguise, in this difference of opinion, for it keeps things stirred up. The fire is burning, someday the pot will boil and something will happen. That thing will be some more good roads in and out of this county. Then we will all be able to see which side was right at this time. We have heard men point out the number of towns that have been ruined by good roads leading to larger towns. Others say that any town that will fade away because of good roads "is of few days and full of trouble" and has little excuse for existing. We say line up and "have it out."

There is one thing we feel safe in stating, without fear or contradiction, and that is that it will do little or no good for Clearwater county to spend very much in advertising her virtues until there is a way for prospects to get here by the modern method of travel to look her over. We must accept the automobile as a means of travel, much as anyone, if there be such, would desire otherwise. Automobiles de-

mand roads. People used to good roads will not of their own volition settle in a country that has no roads.—Clearwater Tribune.

**1759 Shares Sold in November**

With 1759 shares of the 6 1/2 per cent cumulative preferred stock of the Washington Water Power company subscribed for by 209 customers and employees during the month of November, less than 4000 shares of this stock remain to be sold according to word received from W. H. Ude, director of public relations for the electric service company.

This stock is sold under the customer-ownership plan of the company, whereby shares of the stock are distributed to customers and employees. Customers holding less than 10 shares of stock in the company and who have not exercised their rights for ten shares of the preferred stock, may purchase that number of shares to bring their total holdings to ten shares, Mr. Ude states. Since this preferred stock was authorized for sale in April of last year 4791 customers and employees have bought shares or subscribed for them.

"This stock is sold either for cash or on the partial payment plan and under the latter plan interest at the rate of 6 1/2 per cent per annum is allowed on the money paid in," states Mr. Ude. "In this way this stock may be purchased on a savings plan."

"The stock is issued quarterly and dividends are payable quarterly."
