

Letter From Rev. Mort

The following letter written to the editor by Rev. Howard Mort, who was pastor of the local Methodist church for several years, will be of interest to the readers of the Gazette:

6023 Kenwood Avenue, Chicago, Illinois.
"Being so far from Kendrick does not prevent us from thinking of you folks quite frequently and wishing I might drop in the Gazette office on my way home with the liver for dinner."

"We came to Chicago last September that I might take some graduate work in the University here. We are having a lot of most interesting experiences and are enjoying it a lot."

"I thought you would be interested in one experience that I had during the Christmas rush. I have a job on the campus as director of the recreational room of the Reynolds Club for boys. During the Christmas holidays it closes up and I got on as a sub-clerk in the main post office down town. My work was what they called "Working on cases."

This was taking all letters that had been cancelled and sorting them into states, which I did by throwing them into a series of pigeon holes at a desk. We worked twelve hours a day during the rush and I was on the night shift. Late one morning after I had worked about ten hours and was getting tired and sleepy, I came to a letter marked "Idaho." I was about to throw it into the "Idaho" box when I noted further that it was "Kendrick."

Of course I forgot my tired and sleepy feeling and took another look. It was addressed to Dr. Geo. E. Knepper. I wasn't sure but it seemed to me that was your father's name. At least, I thought it was quite a coincidence and was sure you would be interested in it."

"We plan on spending from three to five years, at least, here and are not sure which way we will head after I have completed my work. At least we will hope to drop in and see you on our next visit to the coast. Give our best regards and New Year's wishes to our friends."
"Howard W. Mort."

Carl Deobald Writes

The following letter from Carl Deobald was received by the Gazette with his annual remittance for a year's subscription. The next best thing to a check is a letter from old time Potlatchers. Readers of the Gazette are always interested to hear from former residents of this community. Carl writes as follows from Lynden, Wash.:

"I note from your columns that you have good sleighing but we are not quite so fortunate. Our lowest temperature was 16 above but the northeast winds seemed to blow about 70 miles an hour which drifted our snow into piles. To this was added a "silver thaw" which covered everything in its path with more than an inch of ice. Our traffic was almost paralyzed from the first to the third of this month. Today we Puget Sounders quit packing up our 40 years gathering and figure on staying until the next storm. It's thawing."

Basket Ball Saturday

The Kendrick and Lapwai high school basket ball teams will meet at the Kendrick gym tomorrow night in what promises to be a hotly contested battle. The locals have three new men in the lineup but the game last Saturday gave them much-needed experience. They are out for Lapwai's scalp and may get it. A big crowd should witness this game and encourage the boys.

Hopeful: "Now that we're married, dear, we can stay with your folks for a while."
Bride: "Oh, we couldn't do that."
"Why not?"
"They're still staying with theirs."

1927 A Wet Year

Although 1927 reports the highest precipitation in 14 years, it is forced to bow in second place to 1913, despite heavy fall rains which set a new record for this area, a report of F. L. Burkhart, co-operative weather observer shows, says the Star-Mirror. Total of 28.31 inches fell during 1927.

Normal precipitation during the past 35 years of observing is 21.94 inches, the observer reports, with a departure from normal of 6.37 inches recorded in the 1927 rainfall. Departure from normal since September 1 to January 1 is five and one-half inches and a total of 14.96 inches, nearly four inches a month average.

December, Mr. Burkhart reports, was a cold month with an average mean temperature of 22.8 degrees, a departure below normal of 7.7 degrees. The mean maximum temperature was 30 degrees compared with 34.3 last year, and the mean minimum was 15.5 degrees.

Two cold snaps during the month were largely responsible for the low temperatures, with the lowest recorded December 31 at 17 degrees below zero. Highest temperature was reached as the month opened, at 49 degrees, compared with a high temperature last year of 52 degrees.

December precipitation was nearly half an inch less than in 1926, with 2.60 inches being recorded against 3.04 inches a year ago. Both, however, were departures from the normal precipitation over the past 25 years. Snowfall for the past month was 16.7 inches.

Five days were listed as clear while 16 were reckoned as cloudy. Ten days were partly cloudy. Last year only two days were clear.

Inspect New Jail

Going over the completed Latah county jail with Ernest V. Price, Spokane architect in charge, Latah county commissioners had not yielded their approval on the structure Tuesday, and probably would not for several days, one commissioner said afterward.

Several minor details are still being considered and one or two articles of equipment are due from the east, according to John Cone, commissioner. It is likely however, that the prisoners will be moved to their new home the end of the week, when the structure probably will be accepted.

Routine, consideration of quarterly bills, were being considered and adjusted by the commissioners Tuesday. They will be in session for the remainder of the week and perhaps part of next.—Star-Mirror.

Potlatch Mill Soon to Start

Work on rebuilding the interior of the Potlatch mill is going on steadily and it should be ready for action about the middle of February.

Foreman Bourassa stated that the crew has been held up for lack of equipment and parts for the machines and conveyors, but a carload of material arrived this week and work will again be under way at top speed.

Mr. Bourassa said they would probably be ready to run by the middle of February and it may take them a little longer.

Operatins will start soon as the repairing is completed.—Elk River News.

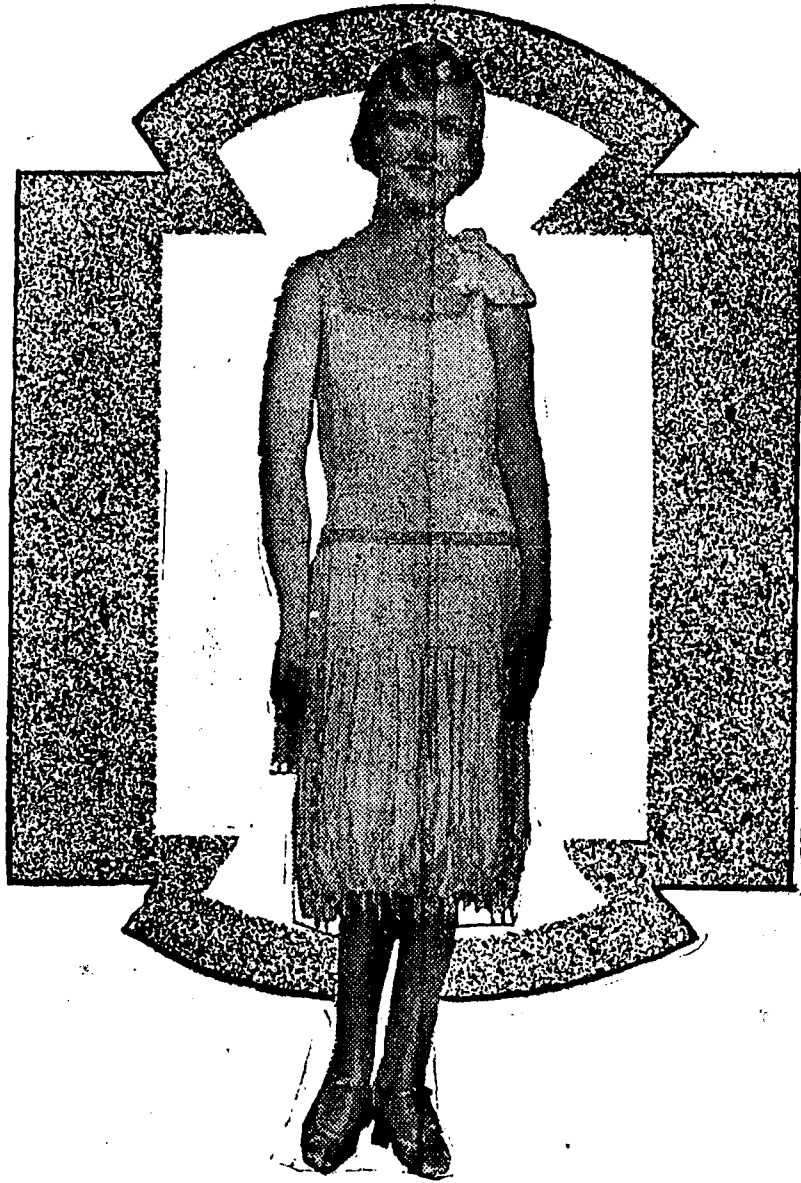

At least One Brain

Him: "You look like a sensible girl. Let's get married."
Her: "Nothing doing. I'm just as sensible as I look."

Expression of Appreciation

We wish to thank the many friends and neighbors of the community for their assistance which they have given us since our home was destroyed by fire.
Mr. and Mrs. Lester Hill.

Glittering Evening Gown of Chiffon and Brilliants

Linden News

Mrs. Sterling and daughters, Mary, Virginia and Doris, and Pat returned from Wenatchee, Friday evening; where they spent the holidays.

Miss Mable Leach, teacher at Cedar ridge, returned from Lewiston, Sunday, where she spent her vacation, and resumed her school work Monday morning.

Mrs. Arthur Bohn went to Bovill Sunday for a few days visit.

Mr. and Mrs. Woods and Ben Smith were callers at the Allen home Wednesday afternoon.

W. Weyen finished thrashing his beans the first of the week.

Miss Eva Smith visited Annie Morrison Wednesday and Thursday of last week.

Several from here attended the dance at Park Saturday evening.

The buzz of several wood saws can be heard these days.

Addie Alexander had the misfortune of having part of his barn broken down Friday night by the heavy snow.

Crescent Clippings

Mrs. Anna Kimbley and sons and Mrs. Mike Forest visited with Mrs. Wm. Dorendorf, Monday.

Mr. and Mrs. Vester Evans and son are visiting this week with Mrs. Evans parents, Mr. and Mrs. M. L. Robeson.

Dick Winegardner and Cecil Deary are staying at the John Darby home helping put logs in to the mill.

A program and pie social will be held at the Crescent school house Saturday evening. Remember the pies and the purse.

Mrs. Vester Evans and son, and Sue Robeson were business visitors in Southwick, Monday.

Mr. and Mrs. Wm. Dorendorf and baby visited at the Mike Forest home Sunday.

Handing It Back

Two Pennsylvania farmers became at outs one day, neither having any special admiration for the appearance of the other, the following remarks were heard: "Yep," said the one, "I had a beard like yourn once, when I realized how it made me look I cut it off. b'gosh!" "Wal, I had a face like yourn once, when I realized I couldn't cut it off, I grew this beard, by heck!"

Might, at That!

Virginia (who had just been operated on for appendicitis): "Oh, doctor, do you think the scar will show?" Doctor: "It ought not to."

Death of Mrs. Geo. Briggs

Mrs. Geo. Briggs of Brush Prairie, Wash., who arrived here December 7th to visit at the home of Mrs. Frank May, passed away Friday morning, January 6th, after a two weeks illness from complications.

Anna Huffman, was born in Illinois, April 20, 1851. She was united in marriage to Geo. Briggs, 1892.

She leaves to mourn her loss, her husband, Geo. Briggs, two sons, A. J. Knapp, of Brush Prairie, Wash.; H. A. Knapp, Camas, Wash., and a sister Mrs. John Birth, Brush Prairie, several grand children and a host of friends.

The body was shipped to Vancouver, where funeral services will be held Monday from Knapp's undertaking parlor. Interment will be made in Forest Grove, cemetery.

Mrs. Briggs and Mrs. May are cousins. They crossed the plains together leaving Illinois, April 5th and reaching Umatilla, Oregon, October 15th, 1864.

Change Places

A traveler stopped at a small ranch for the night. As he discussed the affairs of the upper country with his host he became puzzled as to how the little ranch paid its way. At last he ventured the question: "How in the world do you make a go of things at all?" Indicating the hired man, who was sitting at the far end of the supper table, the host replied: "You see that feller there? Well, he works for me, I can't pay him. In two years he gets the ranch. Then I work for him until I get it back."

Form Merchants' Association

At a well attended meeting at the city hall in Kendrick yesterday afternoon it was unanimously agreed to form a local merchants' credit association. The membership will be made up of merchants from Juliaetta, Kendrick, Leland, Southwick and probably others. This action is in line with the policy adopted in other tributary communities and has been found to be of inestimable value to merchants who carry accounts on their books.

A committee was appointed to perfect the organization, formulate by-laws, etc. Another meeting will be held in the near future, at which time officers will be elected. It is the intention to make this a permanent organization.

Leland School News

At a reorganization of the student body the past week, Georgine Smith was elected president; Ivan Craig, vice-president; Mildred Flesman, secretary; Jennie Flesman, treasurer. The following committees were appointed: Appropriation, Ivan Craig; Athletic, Lewis Porter; Social, Nellie Goudzward; Reportr, Beulah Hoskins.

The Student Body rented the Yenni Hall and have it fixed up for basket ball.

The boy's basket ball team went to Southwick last week and met the Southwick team in the first game in the new gymnasium. The Leland team won by a score of 21 to 16. The game was close and exciting all of the way through. A goodly number of rooters for both teams gave much encouragement. Before the game the Leland people were treated to a supper at the home of Homer Hayward.

About twenty young people attended the revival meeting at Southwick Sunday evening.

The Glee Club of about thirty members held their weekly practice at the home of Mr. Calvert. After an hour of singing, games were played and the evening closed after refreshments of ice cream and cake were served by Mrs. Calvert.

The semester closes this week. The high school are taking the semester examinations. At the same time Mr. Calvert is giving the eighth grade examinations.

All are planning to attend the community meeting to be given in the hall Friday evening by the Ladies Aid.

Southwick Items

Mr. and Mrs. Brammer were the dinner guests of Mr. and Mrs. Reiche, Sunday.

Mr. and Mrs. Attlee Mustoe spent Sunday at the home of Gordon Harris in town.

Wm. Stump came up from Juliaetta, Monday and is spending a few days at his old home place.

Mr. and Mrs. Zoel Fairley left for Lewiston, Monday. Homer Betts and wife accompanied them as far as Kendrick. Mrs. Fairley will remain there for some time. Mr. Fairley returned home Tuesday.

Fred Whiting and family, Grant Bateman and family, and Howard Southwick and family spent Sunday at the home of Roy Southwick.

Milton Benjamin was a business visitor in Kendrick Tuesday.

Harold Whiting and family spent Sunday at the home of her sister, Mrs. Schoeffler near Cameron.

John Stalnaker and family spent Sunday at the home of Given Mustoe.

W. Brammer accompanied his father to Kendrick Monday, to have some dental work done.

Mrs. Ross Hoffman who has been visiting her daughters here since Christmas, left for her home in Kooskia, Tuesday.

Mr. and Mrs. Fred Hassinger of Gifford are visiting at the home of her mother Mrs. Wm. Berriman for a few days.

Mrs. Emma Betts had the misfortune of falling, at her home, Monday, throwing her ankle out of joint and breaking one of the small bones in her ankle.

Glenn Betts went to Orofino, Monday, returning home the next day.

Miss Gladys Guernsey was a guest at the home of Chester Meiver, Sunday night and Monday, returning to the home of relatives in town Tuesday.

Henry Jones and Bob Lintz went to Lewiston, Saturday, returning home Monday evening.

Miss Lila Wells is visiting relatives near Teakcan this week.

Miss Rowena Russell was the overnight guest of Eva McCoy Monday night.

Harold Whiting and family were supper guests of Mr. and Mrs. Homer Betts Friday evening.

Gus Ziemann and family and Herman Ziemann spent the day Sunday at the Homer Betts home.

Kendrick School Notes

For the past two weeks the Seventh and eighth grades have had intervals of examinations. Last week examinations were sent by county superintendent in a few of the subjects, and this week they are engaged in taking the state examinations. The eighth grade are taking all of the examinations, altho history will be the only subject sent to the county superintendent. The seventh grade will write on hygiene.

The seventh grade geography class have been collecting some interesting information, concerning the geography and history of Kendrick. This information is to be used by the U. S. Geographic Board in the preparation of the Idaho volume of "The Official Gazetteer of the U. S."

The Lapwai H. S. basketball team defeated the K. H. S. boys with a score of 15 to 5 last Friday night. Our girls were unable to go because of the bad condition of the roads. The lineup of the boy's teams was:

Lapwai: Williams rf. 6; Markham, lf. 2; Bever, c.; Kress, rg. 7; Martin, lg.; Wanslen, lg. Kendrick: E. Long, rf. 3; R. Dammarell, lf.; A. Foster lf.; C. Davis, c. 2; H. Biehner, rg. H. Rogers, lg.

Both the Lapwai boys and girls will play here Saturday night at 7:30. Admission is 25c and 35c.

The following fifth grade pupils made averages above 90 in the county examinations: Russell Humphrey, Evelyn Housley, Bud Carlson and Margaret Daugherty.

Bud Carlson, Margaret Daugherty and Bessie Candler, each made a grade of 100 in their arithmetic test.

All but two pupils had averages between 90 and 75.

The following sixth grade pupil's grades averaged above ninety: Effie Aikens, Jane Plummer, Margaret Schulze Katherine Emery and Josephine Davis.

All but three pupils made averages above 84.

Katherine Emery, Oscar Onstott and Esther Swanson, each made a grade of 100 in their arithmetic test.

Effie Aiken made a grade of 100 in history.

Making Hens Lay

Frank Ellis is proving to be a successful amateur poultryman. He is using modern methods even to the extent of Washington Water Power service. His hen-coops have been wired for electric lights and by adding the artificial light he can get 18 hours work from his flock. His hens are now laying baskets full of eggs every day and at the present price his flock ought to show a nice profit.

Ye editor has a flock of White Leghorn pullets from pedigreed stock that has turned out to be perpetual moulters. They began to moult early last fall and have been doing nothing else ever since. They no sooner grow a nice coat of snowy white feathers than they begin shedding them again. We have sifted it down to the fact that it is either a case of over feeding or underfeeding.

We may have to fix up a little nosebag for each hen, placing therein, three times a day, the proper amounts of fats, proteins, carbohydrates, etc. If this method doesn't start egg production we are going to start a feather farm and produce the makings for feafer beds.

An exchange says that when the time comes for the meek to inherit the earth, taxes will be so high they won't want it.

As a money-saving proposition we would like to suggest that instead of giving a bootlegger 90 days in jail, it would be more economical to sentence him to drink up the "evidence" at the rate of a pint a day, if we have been correctly informed as to the killing quality of the average brand of moonshine. A county burial costs less than a 90-day board bill, if you don't do it with flowers.

Brisbane: I suggested that farmers might some day sell cornstalks to make artificial silk, find the stalks worth more than the corn. William Allen White says "an Emporian," which means an inhabitant of Emporia, is building a factory to make, from cornstalks, cellulose to be manufactured into artificial silk, paper, films, celluloid, explosives, varnishes, and other products. These Kansas cattle with white faces will miss the wide fields of cornstalks now left standing, but farmers will be happier.

Encouraging Crime

The daily newspapers continue to do their share toward encouraging the most heinous crimes by the morbid youth of the country by playing up their dastardly exploits in all their harrowing details on the front pages of their papers. Young men, women of immature ages crave excitement, publicity. There isn't the slightest doubt but the majority of crimes by the young are inspired, by the glaring headlines with accompanying pictures featured by the daily press. After he was captured Young Hickman, the fiend who murdered Marian Parker, appeared to be most concerned about whether he would get the publicity granted to Leopold-Loeb. Such publicity fires the imagination of morbid youth, creates a desire in their immature minds to see their own names in flaming headlines and their features pictured on the front pages of the metropolitan dailies together with sensational details. Therefore the big daily newspapers are directly responsible for many of the most brutal crimes committed in this country, but in order to satisfy the cravings of morbid people, increase the sales of their papers, they continue day after day to play into the hands of the perverts. Common decency, a sense of their responsibility to civilization ought to teach the big newspapers of the country something after awhile.—Ex.

Idaho License Plates

Several car owners have received their 1928 Idaho license plates this week. Everyone who has seen them is disappointed in their appearance as they were supposed to represent an Idaho potato. One person said the picture on the plates looks like a dill pickle. In our opinion it doesn't look like anything. It is fortunate the picture is labeled as just below it are the words "Idaho Potatoes." The idea of the potato on the license was a clever one but it has been poorly carried out.

One Idaho newspaper man has suggested that an egg be the emblem on the 1929 plates. Eggs grow in every state in the Union and are not any bigger and better in Idaho than any place else. Why not a nice, big white bean? Both North and South Idaho grow beans, so the idea ought to be unanimously carried out. Idaho is one of the few states that raises beans in commercial quantities.

Danger in Warm Cream

It is a common practice among farmers to keep cream too warm even in winter. Cream should never be allowed to freeze, because it is then hard to get representative samples. In order to avoid this, some producers keep their cream near a stove or in a place so warm that it is likely to sour or to absorb bad odors or both. In order to produce the highest quality cream, it is necessary to be provided the year around with a cool place, free from all contaminations.

DAIRY

**ORGANIZATION IS
NEED OF DAIRYING**

(Prepared by the United States Department of Agriculture.)

Effective organization in the production and distribution of dairy products, and the development of new markets, are necessary if the American dairy industry is to maintain a satisfactory economic position. Lloyd S. Tenny, chief of the bureau of agricultural economics, United States Department of Agriculture, told members of the Co-operative Pure Milk Association at Cincinnati, Ohio.

Mr. Tenny outlined the marked expansion in dairy production and marketing in leading foreign dairy countries in recent years. There is a tendency, he said, for foreign production to increase more rapidly than demand, as a result of which producers in the United States are facing increased foreign competition and importation of greater quantities of dairy products. On the other hand, with the exception of concentrated milk, the United States is not producing dairy products sufficient for domestic needs, and present tendencies in this country are for demand to increase as rapidly, if not more rapidly, than production.

Reviewing the world dairy situation, Mr. Tenny declared: "The most important of the war developments has been the great expansion of production in new countries of the southern hemisphere. This expansion has continued since the war, and is being maintained in the face of falling prices. Since the seasonal production of these countries places the largest volume of their annual output on the winter markets of the northern hemisphere, this development in the southern hemisphere is equivalent to a great shift to winter dairying by producers of the northern hemisphere.

"This tends to take the peak from our winter market prices, thus reducing the profits of winter dairying. A second outstanding development in production is the rapid recovery and continued expansion in old country production, including the Netherlands, Denmark and other Baltic states."

Exports of butter and cheese from the United States have gradually disappeared since the early '30s. Mr. Tenny said. The export of the surplus of cheese, and then of butter, has given way to a net importation. The exportable surplus of concentrated milk also is being rapidly reduced. The disappearance of our export surplus of cheese is attributed in part to the rapid expansion of the demand for butter and silk in the United States, as the elimination of the export surplus of butter is due in part to the expansion in the domestic demand for milk.

**Sanitation Important
in Managing Dairies**

One of the reasons for the high quality of butter that is manufactured by the Iowa brand creameries is due to the care which farmers take of their milk and cream in those communities, according to R. G. Clark, chief of the dairy and food division of the Iowa department of agriculture, in discussing the progress that has been made along dairy lines in Iowa.

"Sanitation is the backbone of higher quality in dairy products," said Mr. Clark. "Most of the increased prices which Iowa brand creameries are able to pay over other creameries is due to the improvement of quality. The creameries and their patrons are true examples of co-operation as they work together to secure the highest net return out of the farmer's product. Cleanliness, plus proper cooling of the milk and cream, are the biggest essentials in delivering a high quality product to the creameries. Unless the buttermaker has the best quality cream, he cannot manufacture the best quality butter. It is the quality butter that brings the premium on the market."

**Occasionally an Entire
Herd Is Unprofitable**

Only very occasionally do testers find an entire herd of cows unprofitable. In the records now available, a case is rarely found where the best cows in the poorest herds are less productive than the poorest cows of the best herds. These records do show, in a very high percentage of cases, a wide margin of difference between the high and low producing animals in any herd. Through careful selection, the use of a good sire, properly balanced feeds, and intelligent care, it is altogether possible to develop the best animal on the majority of our ordinary farms into paying herds.

Cow Losing Her Cud

There really is no such thing as a cow losing her cud. Animals such as the cow and sheep swallow their food in a very coarse condition while eating and later this food is brought back into the mouth for further mastication and then passes back into the true stomach and from there into the mouth in small amounts at a time and swallowed. Hence if a cow should lose the cud which she was chewing another would be available in a short time.

The Wise Friend
Once upon a time—and not very long ago—there was a

WORLD'S CHAMPION Cletrac Crawler Tractors

THE TRACTOR WHICH HAS PROVEN THE GREATEST FARM TRACTOR ON EARTH
Built in the Largest Factory on Earth that build nothing but Tractors... No Hill Too Steep and No Mud TOO Deep. The Cletrac is here to Stay.

Why?

There is no job on the farm that the Cletrac can not do; it is dependable the year round. Built to resist wear and to stand the hardest knocks that man can give them. Since we sold Cletrac Tractors here for the past two years much has been said about how long will they last? How will they stand up? and how long will the track last? Out of some fifty Cletracs which I have sold in the three Counties not one of them is worn out, all are going fine and every one is well pleased and tells his neighbors, that is why we sell so many.

There was not much farm work done last fall on account of wet weather, therefore, there will be a big demand for tractors in the spring. Owing to this big demand we will probably be short and will not be able to make delivery just when you want them, therefore I urge those who want a Cletrac in the spring to give me an order now or not later than the 10th of February so that the tractors may be shipped in carload lots from the factory

All those who order now or before February 10th will get a reduction of \$75.00 on their tractors. This \$75.00 will be saved on the freight where they are shipped in carload lots.

The new Cletracs are much improved over last years model. We assure prompt service when needed. Prices are as follows: 12-20 W. \$1295.00; 15-25 20-K \$1950.00 and the 30-45 30-A \$3150.00 F.O.B. Kendrick, Ida. The new 105 H. P. is also on the market. Think of a Cletrac 105 horse power.

I also have several used tractors on hand: 1 12-20 Rumley, 1 12-20 Twin City, Fordsons, International, 1 Case Steam Engine, 1 new Superior Drill either tractor hitch or horse hitch; 1 new Grand Tetour three bottom tractor plow. This machinery I will sell at a bargain.

See me for new Oliver Plows, Superior Drills, Disc Harrows, Deep Well Pumps, Combination Grain Fanning mill and Smutt Machine. I also have any amount of fine horses and mules for sale. One extra good young purebred Jersey cow, fresh.

"It's toasted"
No Throat Irritation—No Cough.

brother and sister who had a friend. A very special friend he was, who told them stories about men who flew through the skies over far-flung spaces of the earth; of boys and girls who had thrilling and mysterious adventures; of others who had most unusual situations confront them, yet managed to come through their tests with steadfast and courageous hearts; of wild animals in deep jungles—how they lived, hunted and died. Such a host of things did their good friend tell them of, and how interestingly he told them!
Came the time when their friend moved away to another town. Brother and sister were saddened by his going, for they knew they would miss his cheery smile and the wonderful stories

and amusing anecdotes he was so fond of telling them. Then one day the post man brought them a letter from their friend, in which he told them he was sending them The Youth's Companion so that they would not forget him, and that in it they would find just the sort of stories they had so much enjoyed hearing him tell. And sure enough, a day or two later the magazine arrived, and brother and sister found that it truly did have just such wonderful stories of adventure and sport and mystery, and just such jokes as they loved so well. And every time that a new number of The Youth's Companion arrived, they wrote a note to their friend and told him how much pleasure the magazine gave them.

You, too, may have just that same pleasure, or give that pleasure, by means of a subscription to The Youth's Companion. Subscribers will receive:
1. The Youth's Companion—12 big monthly issues in 1928, and
2. Two extra numbers to new subscribers ordering within 30 days.
3. The Companion's new book of humor "1001 One Minute Stories" also included FREE (send 10 cents to cover postage and handling).

LOCAL NEWS

Vic Casebolt, who has charge of the Washington Water Power office at Bovill, was an arrival in Kendrick yesterday.

Mr. Sylvester Konen of Lewiston spent the week end with friends in Kendrick, before leaving for Great Falls, Montana, where he has employment.

Floyd and Norris Walker were called to Peck last Monday on account of the serious illness of their father, R. M. Walker.

Norla Callison returned the first of the week from a visit with friends at Peck.

N. E. Walker was transacting business in Colfax last Friday and Saturday.

T. H. Sturdevant was called to Colfax yesterday on account of the death of his brother, Charles, who passed away in the northern part of the state. Funeral services will be held in Colfax.

L. A. Grinolds of Lewiston was transacting business in Kendrick the first of the week.

E. C. Collins, deputy state game warden of Moscow, was in this territory last Friday and Saturday distributing grain for the game birds. He found the birds to be faring very well.

Mrs. Edgar Long is spending the week in Spokane visiting friends.

Albert Frazier celebrated his birthday at his home in Kendrick Wednesday afternoon with a party. Games and birthday lunch were enjoyed by Dwight and Larry Langdon, Keith, Paul and Quentin Dammarrell, Jack Barnes, John Knepper, Albert and Walter Frasier.

Archie and Warney May accompanied Mr. George Briggs to Spokane the first of the week. The May brothers will stay in Spokane for a few days where Archie will receive medical care under a specialist.

George Dougharty of Juliaetta was transacting business in Kendrick yesterday.

Mrs. George Anderson was a Spokane visitor Wednesday of this week.

Frank Meyer made a trip to his homestead on Three Bear this week.

H. A. Russell of Clarkston was transacting business in Kendrick the first of the week.

J. E. Frasier will be the auctioneer at the sale of household goods belonging to the Sarah Jacobus estate, to take place at Juliaetta next Friday morning.

Be Specific

"Was it you," asked a young man of Newton of one of his girl friends when he met her on the street doing shopping, "was it you that I kissed in that dimly lighted hall at the dance last Saturday night?" "Well, now," replied the young lady, "about what time?"—Wichita Eagle.

Dance at Kendrick Tonight

A dance will be given at Brown's hall in Kendrick tonight. Music will be furnished by Heck's Jazz Band. Everybody is invited to attend. 2-1

Cameron News

Mrs. Geo. Wilken is visiting in Lewiston this week while Mr. Wilken, Sr. is spending the week on the farm.

Mrs. Herman Wilken, Sr. is still at the hospital but is now able to sit in a wheel-chair.

Rev. Rein went to Lewiston Wednesday.

Mr. and Mrs. Aug. O. Wegner and little son returned Tuesday from a week's visit at Spokane.

The Lutheran Ladies Aid will meet next Wednesday for an all day work meeting. It is hoped there will be a good attendance as there are several quilts to work upon.

Clarence Hewitt has taken up his new duties as "road boss" for this district.

BIG FACTORS IN PRODUCING MILK

Because of the prevailing high prices of feeds much stress has been laid on weeding out the poor cows and keeping only those that produce at a profit. "This is sound policy, only if the cows have been properly fed and cared for," states E. A.

Giunti, assistant dairy specialist at the New Jersey College of Agriculture. "Two factors must be considered in milk production, namely, inherited ability of the cow to produce milk, and feed and care. The importance of proper feeding was proved recently by the Minnesota experiment station, which purchased four poor cows from a member of a cow-testing association. This man thought he had fed his cows properly. He bought large quantities of mill feeds. He fed a mixture of 90 parts of bran, 80 of middlings, 18 of ready-mixed feed and 4 of oil meal. He fed five pounds of this to each cow daily. The cows were on pasture six months. This feed cost him \$49.46 a cow and the average milk production was 4,062 pounds of milk and 182 pounds of fat. His net profit was \$37.90 per cow.

"After the college purchased them their feed was changed to a balanced ration and instead of feeding each cow five pounds, they were fed according to the amount of milk they produced—in other words, the more milk they gave, the more feed they were given. The cows were kept on pasture only five months instead of six, and got alfalfa hay and corn silage instead of timothy. This change boosted the average to 6,375 pounds of milk—an increase of 36.7 per cent. The butterfat increase was 77 pounds per cow. The feed cost was \$61.42 instead of \$49.46, but the profit per cow was \$62.00 instead of \$37.90. This means that by proper feeding the owner could have increased his net profit \$25 per cow, which would not have been a bad investment."

Staff Cheap Insurance in Handling Dairy Bull

A few days ago a Fort Collins man was killed by his Holstein bull. He was leading the bull into the barn by means of a halter and lead strap when the accident occurred. This is only one more added to the great list of people who have been killed or seriously injured by bulls, states L. P. McCann of the animal husbandry department, Colorado Agricultural college, who adds that this accident, like many others, could have been avoided if the handler had not trusted the bull.

Every dairy bull, warns Professor McCann, should be regarded as a potential killer and handled accordingly. The great number of accidents occurring from careless handling proves this to be true. In spite of this men and women continue to risk their lives every day, thinking that their bulls are different from the others that have already taken a toll of lives.

For the man who handles one of these animals, the small amount of money required to buy a good bull staff is about the cheapest life insurance in which a man can invest.

Self-Feeding Cows Not Profitable at Illinois

Tests were recently made at the University of Illinois on eight dairy cows to determine the value of self-feeding. The practice was not economical nor were the milk yields appreciably increased.

For a short period after calving the amount of feed consumed was too small. Later it was too large, and the cows increased in weight. The animals were not injured by the practice because they were gradually accustomed to it.

The chief purpose of the test was to determine the relative palatability of different feeds. Corn proved most palatable of the low protein concentrates. Complete details may be obtained by writing for Bulletin 289 published by the Illinois experiment station, Urbana.

How about that printing job? Don't wait until you are clear out, bring it to the Gazette Office

Cameron News
(Too late for last week)

We have often heard of a "silver thaw" but now we know exactly what it is; as we had a very good example.

This is moving week at Cameron, Gus Kruger is moving onto the Geo. Ehler's place which he recently purchased; while Wegner Bros. are moving out of the Ehler's house and are making preparations to start to Portland as soon as weather and roads permit.

August Brammer has bought the Cameron store and is moving his household goods there.

Paul Silflow has moved into the Andrew Entman house.

Mrs. Otto Silflow is visiting relatives at Spokane.

Mr. and Mrs. Carl L. Wegner entertained at a dinner party Sunday.

The cold weather spoiled many

KENDRICK STORE CO.

"The Quality Store"

New Year's Eve parties as it was necessary to "keep the home fires burning."

About twenty men gathered at the Blum home Tuesday evening for a potato pancake supper. Rev. Rein was chief cook and Clay Albright and Gus Blum were table waiters and dishwashers. The remainder of the evening was spent in smoking, playing games and listening to the radio. The occasion was Mr. Blum's 60th birthday and all guests departed hoping that he might have many more.

Miss Ida Schmidt and brothers, Joe and Henry, of Spokane, visited relatives here during the holidays. They came in their car but the deep snow compelled them to leave it here and return

accompanied them. Miss Lillian Wener, who visited here during the holidays, departed for Spokane, Monday.

Wm. Brammer of Canada is here visiting relatives and friends.

Fred Schultz and family from Dutton, Montana, are also visiting in on the ridge.

The Misses Emmett and Perryman visited on the ridge Wednesday.
