

### Kendrick School Notes

The boys and girls of the first grade who have made 100 in spelling during the past school week are as follows: Helen Gardner, Joyce Anderson, Jimmy Kuykendahl, Quentin Dammarell, Dick Carlson, Ethel Fraser, Doris Garoutte and Quentin Perryman. Those in the second grade making 100 are: Floyd Candler, Jewel Cummings, Dwight and Larry Langdon.

The second grade is making number combination cards this week. Each child is making his own set and learning the combinations.

The first grade has started on another reader this week. The boys and girls enjoy the new stories very much. They are memorizing several of the poems and dramatizing some of the favorite stories.

Owing to illness, the attendance in the primary room has been very irregular during the past month. Several have missed almost half the month.

A new reporter, Hazel Reid, was elected to write the news for the seventh and eighth grades for the next three months. They are also waiting for Friday evening to come so they may go to the party they are expecting to give at that date.

The Kendrick girls won at Juliaetta last week in a basketball game with a score of 21 to 12.

The Genesee-H. S. girls defeated Kendrick girls last Friday night with a score of 38 to 12. Genesee has a very good team. Lineup was: Genesee—Forwards, Heeman (18), Larson (2), Freeman (10), E. Foster (8); Center, I. Foster; Guards, Emmett Meyer, Roach and Roemans.

Kendrick: Forwards, Minnie Craig (16), Mae Freytag, Hester Knepper; Center, Margaret McDowell (4), Guards, Neva Ware, Doris Emery, Mabel Taber, Lizzie Jones, Helen Emmett.

Culdesac high school boys team play here Saturday night.

The seventh and eighth grades have received the return from their examinations. There were no failing grades in hygiene and history, altho there was one grade in hygiene below seventy-five which will not hold over. The hygiene grades above 85 were Hazel Reid, 96; Carrie Riley, 92; Allie Foster, 91; Blanche Aiken, 91; Mary Johnson, 90; Dorothy Candler, 89; Elmer Fraser, 88; Nettie Mae McDowell, 86; June Davis, 85; Elizabeth Carlson, 85; Nellie Crocker, 85; Rowena Ramey, 85; Ralph Blevins, 85; George Shultz, 85.

The eighth history grades were: Nona McAllister, 99, Bonnie Candler, 98; Ethel Cummings 97; Burneda Cummings, 97; Edna Bolon, 97; William Holt, 85.

Last Wednesday night the K. H. S. boys defeated Southwick by a score of 47 to 2.

The Genesee boy team defeated K. H. S. Friday night with a score of 18 to 2 in a very exciting game. The lineup was as follows: Genesee—Forwards, L. Cutting (9), Mulalley (3); Center, Klewen; Guards, Emmet, Blume (2), Haden, Cameron (4).

Kendrick: Forwards, E. Long (4), B. Dammarell, H. Dammarell, A. Foster; Center, C. Davis (3); Guards, H. Eichner, H. Rogers.

### State Bank Examiner

E. W. Porter, state commissioner of finance, announced the appointment, Tuesday, of Victor E. Werner as state bank examiner. Mr. Werner was formerly cashier of the Potlatch State Bank and was with the state banking department prior to becoming cashier of the Potlatch bank.

### An Abbreviated Garment

"What's that little animal you just killed—a mouse?" asked the city visitor of the farmer. "No, that was a mole," replied the farmer. "Great Heavens! And my wife wanted a coat made out of one of those things!"—Ex.

### Kendrick News 20 Years Ago

Items taken from the Gazette published January 1908:

The masquerade dance given by the C. W. C. club, was attended by a large crowd and all reported a good time. George L. Leith won the prize for the most neatly dressed gentleman, Miss Mary Schultz for the most neatly dressed lady and Miss Augusta Wegner for the most comical lady.

A literary society was formed in Leland last Friday evening at which Jesse Hoffman was appointed president, Willie Schultz, vice president, Miss Elsie Bird, secretary, Jesse Dumbold, treasurer.

Joe Fruehtl of the Brick Co. recently purchased from the State Bank the timber on its land lying east of town on the bluffs and now has a crew cutting the same. The logs are hauled to the brow of the hill and then dropped over the bluff into the Potlatch just opposite the brick kiln. The timber will be used for fuel.

The Pine Creek Lumber Co. has gradually increased its capacity and output and is now one of the largest mills in the country outside of the big Potlatch concern near Palouse. This firm is now steadily employing a good sized crew of men and adds materially to the income of the town. The sales manager, R. W. Dickey, has erected a commodious bungalow on the hill which he hopes to occupy by the first of the month.

The V. C. Co.'s flour mill is running steadily here this winter.

R. F. Bigham has recently purchased a young thoroughbred Guernsey bull which considerably adds to the value of his herd, tho we don't think it is possible for him to produce any finer quality of butter, he may make a little more of it.

The auditing committee of the Rochdale Co. has been busy the past few days checking up the accounts of the manager and the receipts of the warehouse. The committee is composed of Ford Parks, Byron Tupper, Charles Jessup and F. Benscoter.

### Remodel Old Jail

Star-Mirror: Bids for remodeling work on the Latah county courthouse in quarters, until the first of the year occupied by the Latah county jail and sheriff's office, were to have been called by county commissioners in session Friday afternoon.

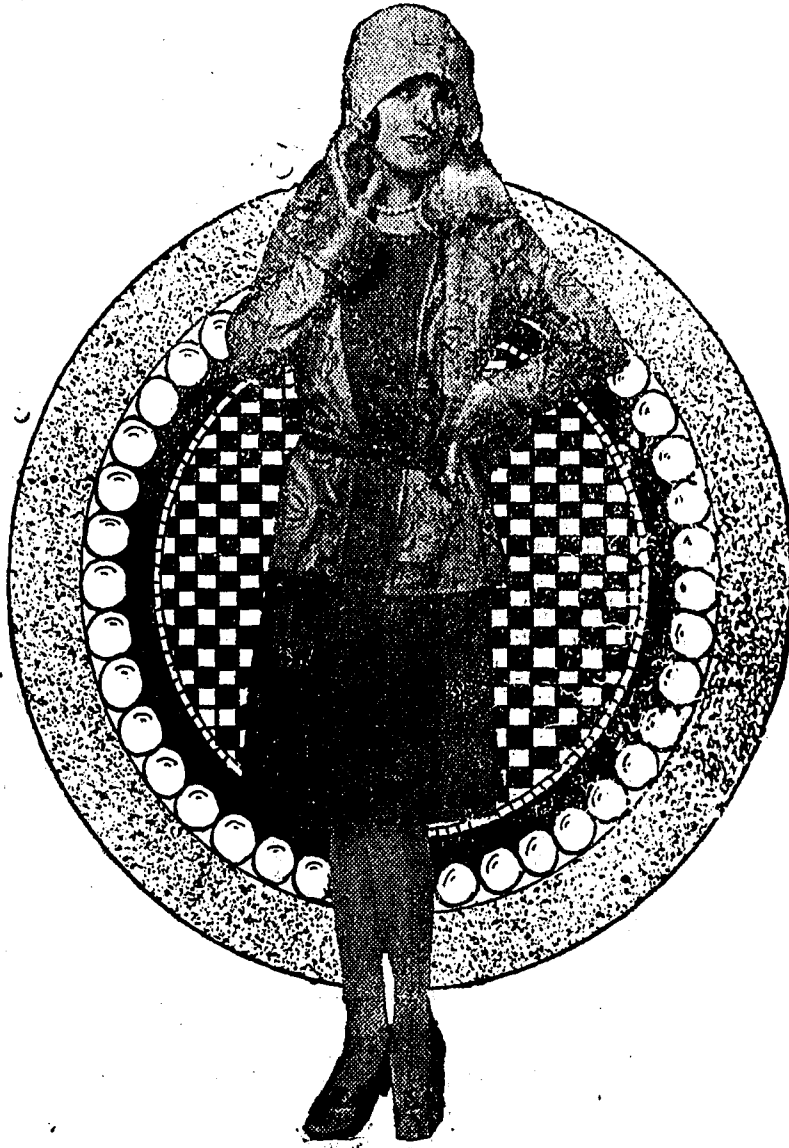

Bids for the construction probably will be opened February 20 at the courthouse, although details of the construction work and the time for opening bids will be announced in the formal call next week. The work, it is estimated, will cost in excess of \$2,000.

Installation of a new vault for the county treasurer's office, in the space formerly occupied by the jail, and remodeling of the sheriff's office for a meeting room for the county commissioners, are the two features of the remodeling program. There will be no special office at the courthouse for the prosecuting attorney, who has down-town offices.

### Census of Big Game

Clearwater Tribune: A compilation of reports from the Forest Service and Game Warden of big game killed during the 1927 season shows 34 bull elk, 16 cows, total 50; 32 buck deer, 18 doe deer, total 60. This is, of course, not complete due to the fact that many do not take the trouble to report their kills. It is probable that the number of elk killed does not exceed the above figure very far because all these animals are shot in the back part of the county and the forest officials have a good chance to get a check on the number, but the census on deer is only a fraction of the number shot, it is almost certain. These animals inhabit the close in parts of the country as well as the mountains.

## Unusual Ensemble Costume for Sport Wear

### Installed New Equipment

The Kendrick Garage Co. installed a new reboring machine and cylinder hone this week and is now equipped to handle work that has heretofore been sent to larger towns. With the new equipment they are now in a position to thoroughly recondition motors. The added service will no doubt be appreciated by the motorists of the community.

### Profitable Experience

"Do you know anything about palmistry, George dear?" the sweet young thing asked her suitor.

"Well, not very much," he answered, with an air of becoming modesty. "But the other evening I had a remarkable experience which might be called an example of the art."

"Oh, George," enthused the girl, "do tell me."

"Well," said George, "I looked at a friend's hand and predicted that he would shortly have some money. Before I left him he had quite a useful sum given him."

"And you foretold that from his hand, dear?" asked the girl.

"Yes, he had the ace, king, jack and ten of trumps in it."

### Crescent Clippings

Mrs. Bertha Banning spent the week end with Mr. and Mrs. Clem Israel.

Mr. and Mrs. Wm. Zimmerman, Mr. and Mrs. Oscar Torgerson and Miss Velma Zimmerman spent Sunday at the Axel Ekman home.

Mike Forest and son, Burton, returned home Sunday evening from Long Meadow where they have been employed.

Mrs. Frank Souders, Wm. Zimmerman and Bert Lesa were guests at the Axel Ekman home Wednesday.

Mr. and Mrs. George Crocker returned home from Kendrick, Thursday.

Charley Zimmerman and Eva Slatter visited with home folks, Mr. and Mrs. Jake Slatter of Leland, over the week end.

Ida Carey returned Sunday evening to spend a few days at home.

About thirty friends and neighbors helped Mrs. Percy Bew celebrate her birthday Sunday.

Mrs. H. S. Wright, Carl Hendrickson, and Mr. and Mrs. O. Hendrickson, spent Monday evening at the Axel Ekman home.

### Fire Does Small Damage

A fire starting from a cigarette at the residence of Mrs. Jennie Plummer last Sunday afternoon, did some damage to bed clothes and furniture of one room. The fire siren sounded and soon had a large crowd on the streets and the hose cart at the scene of action. The blaze was extinguished without the use of the town equipment.

### Cameron News

Mrs. Flomer of Genesee has been spending the past two weeks with relatives and friends here.

The Ladies Aid will have another all day work meeting next Wednesday. The last one was very successful with Mrs. Carl Wegner and Mrs. Geo. Ehlers as hostesses.

Miss Martha Abitz of Lewiston was a Cameron visitor last Sunday.

We are sorry to have such a large sick list but it seems everybody has a severe cold and some are of a rather serious nature. On the list are: Mrs. Daniel Wegner, Mrs. Aug. O. Wegner, Mrs. Otto Silfow, Mrs. Albert Schultz, Mrs. Charlie Schultz, Carl Hartung, Sr., Miss Myrtle Wegner and Mrs. Geo. Ehlers.

Mrs. Albert Schultz, Jr. has a badly infected finger and was taken to a Lewiston hospital Tuesday night.

Mrs. Geo. Ehlers and Myrtle Wegner went to Lewiston, Wednesday for medical aid.

Carl, Bill and Aug. F. Wegner and Aug. Brammer motored to Lewiston, Saturday.

On Friday evening, old friends and schoolmates met at the home of Mr. and Mrs. Albert Schultz, Sr. to renew old friendships with the John and Fred Schultz families, who have been visiting here from Dutton, Montana.

On Tuesday, Mr. and Mrs. John Schultz went to Lewiston and Mr. and Mrs. Fred Schultz and little daughters started on their return trip to their home in Montana.

Mrs. Roy Morgan visited at the Albert Schultz home Tuesday.

Mrs. Will Wolfe is staying at the Albert Schultz home and caring for the children while Mrs. Schultz is away.

George Wilken motored to Lewiston Tuesday and was accompanied home by his wife, who has been visiting Mrs. Wilken, Sr. for a few days. It is thought that Mrs. Wilken will be able to leave the hospital in a few days.

The Misses Laura and Henrietta Blum were Cameron visitors Sunday.

### New U. of I. President

Dr. Frederick James Kelly, dean of the administration of the University of Minnesota, has been appointed president of the University of Idaho, Moscow, succeeding Dr. A. H. Upham, who leaves this week to assume his new duties as president of the Miami university, Oxford, Ohio.

The new president has been at the University of Minnesota for five years as dean of administration, an executive position. He is nationally known for his studies of college administration for the National Education association, as the author of a number of technical works, and for studies of colleges for the research commission of the commonwealth fund of New York.

The selection of Dean Kelly as president follows a six months' search by the board of education. He will resume his office in July, according to members of the board.

### Charge for N. S. F. Checks

Following the practice now in effect in many other cities the banks of Lewiston and Clarkston have adopted a charge for "N. S. F." checks beginning February 1. A charge of 25 cents per check will be made against the account of anyone issuing a check when there are not sufficient funds on deposit to pay the check. It is understood that the charge will be made regardless of whether the check is paid or returned marked "Not Sufficient Funds."

The charge will be made, say the bankers, on account of the extra time and expense involved in handling these items. The banks will send out notices within the next few days informing their customers and urging them to keep a record of their balances on the stub of their check books and that checks be not issued or dated ahead until funds are actually on deposit to meet them.

The action on the part of the banks will be welcomed by the merchants and businessmen, it is said, as it will have a tendency to eliminate the bad-check nuisance which has become the source of considerable trouble and annoyance.

In addition to the "N. S. F." charge, all of the banks of Lewiston and Clarkston will have a service charge on small checking accounts after February 1. This charge has been in effect with part of the banks for some time, as well as banks all over the country. —Lewiston Tribune.

### "Deacon Dubbs" Draws Crowd

The home talent play, "Deacon Dubbs", put on by the Methodist Ladies aid last Wednesday evening, was one of the best that has been staged here for years. The theatre was filled to capacity and the audience showed its appreciation in a vigorous manner at the many clever lines and comedy parts.

Prof. Tenny, who coached the play, deserves much credit for the splendid staging of this well known comedy-drama. There was plenty of action, delightful comedy and no dull moments. Each character was well adapted to the part and contributed to the production of a huge success.

The heavy part, that of Deacon Dubbs, was characterized by Rev. Taber and it is putting it mildly to say that he was great. He has exceptional talent along this line.

Musical numbers between acts were furnished by a male quartet consisting of Thos. McDowell, N. E. Walker, R. H. Ramey and Oliver Carrick. A special number by Mr. Ramey and Mr. Carrick was also appreciated with Mrs. Ramey at the piano.

The proceeds from the play were well over \$100.

The Culdesac and Kendrick high school basketball teams will play here tomorrow night at the high school gym. Culdesac has a dandy team and a fast game is in prospect. Everybody is urged to attend the game.

### Fewer Delinquent Children

There were fewer delinquent children before probate courts in the year ending October 1, 1927, than the previous year, according to a report based on records of the judges' offices. It shows that in the year 1927 a total of 767 boys and girls came before these courts while the preceding year the total was over 1100. In 1927, 962 more cases were settled out of the court.

The Governor feels encouraged by this showing and also by the fact that 297 more cases were settled out of court in the past year than in the year before. This also is a good sign, he thinks, because it indicates offenses were of a less serious nature.

There was a decrease of 36 in the number of boys and girls sent to reformatories and a decrease of 19 in the number fined.

A fine was imposed in but one case in 1927. Adams, Boise, Butte, Camas, Clearwater, Owyhee and Washington counties reported no delinquencies.

Eighty-five boys and 22 girls went to the Idaho Industrial Training school and five to other reformatories. Irregular school attendance was responsible for more cases than any other offense. This brought 673 boys and 368 girls under the jurisdiction of the courts.

### Killed in Fist Fight

Bovill, Idaho, Jan. 23.—D. J. Galloway, 48, pioneer of Bovill, was fatally injured in a fist fight today with Harold Hay, 18, Spokane. The latter was exonerated by a coroner's jury late this afternoon, at an inquest held by Coroner H. R. Short and Prosecutor Abe Goff of Moscow.

It was a unanimous "death by accident" verdict, witnesses having testified that Galloway was the aggressor and that young Hay struck in self-defense.

The fight took place in the cedar yard of the Potlatch Lumber company, where both were employed, as a result of ill feeling which developed Saturday. Hay was held in jail until the inquest. Mr. Galloway died soon after the fight.

### TRASH

Consider the things that are packed in a trunk. No doubt, you would call them, just trash. The junkman might purchase the outfit for junk, yet he couldn't buy them for cash.

A wee pair of shoes that are brownish with age are packed in some cotton, with care. They've rested since time has turned many a page; since a wee baby's Mom put them there.

A box full of lace that has never been used. Another that's packed full of braid. Just memories sweet that must not be abused; just things that a grand-mother made.

An old photo album that's faded and torn, with pictures of Dad, as a lover. It may be all ruffled, but ne'er can be shorn of the memory that's held neath its cover.

Just trash, you may say. Things away out of date. But, after their story is told, you'll know that, to someone, they're well worth their weight, a hundred times over, in gold.—Selected.

### Okoke Party

The Okoke bridge club was entertained at the home of Mr. and Mrs. Ralph Knepper last Saturday evening. At 6:30 supper was served after which cards furnished entertainment until midnight. Mr. and Mrs. Harold Thomas secured the high score for the evening. The club members presented a guest prize to Mr. and Mrs. Anderson who were leaving for Potlatch. Those present were Messrs. and Mesdames. Ramey, W. Thomas, H. Thomas, Morehead, McKeever, Anderson, Knepper, Messrs. Carlson, Jarvis and Carroll.

Mrs. A. K. Carlson was a Spokane visitor this week.

Entered at the Post Office at Kendrick as second class mail matter.

The Columbia Basin project seems to be gaining ground recently at a rapid rate. Notwithstanding the fact that farmers all over the country are right now up against the problem of over-production with resulting low prices for their products, the project carries with it the development of a large area of agricultural land, which will be brought into production with the completion of the proposed plan. The project will probably be used in the coming campaign as another measure that is being promoted for "farm relief."

When a business man quits advertising it doesn't take long for him to drop out of the public eye.

A statistician stated this week that the life expectancy of the 1928 baby will be longer by 10 years than that of his father and 20 years longer than that of his grandfather. The learned gentleman has evidently not taken into consideration the annual increase in automobile production in compiling his statistical data.

A motherly Topeka woman, while knitting at her home the other night, burned a hole in the carpet when she dropped some ashes from her cigarette.—Topeka Journal.

#### Mute Etiquet

"He teaches the pupils not to talk with their hands full."—Ex.

#### Notice of Estray Animal

Notice is hereby given that the following described estray animal will be sold at public auction to the highest and best bidder, on the 3rd day of February, 1928, at 10 o'clock a. m. to satisfy the costs of advertising, keeping and sale of said animal as allowed by law: one red cow with white spot in forehead, left ear cropped, some white between front legs and under body, no horns, no visible brands.

Said animal was taken up by William Dorendorf on the 6th day of December 1927. Sale will take place at the William Dorendorf ranch near Crescent.

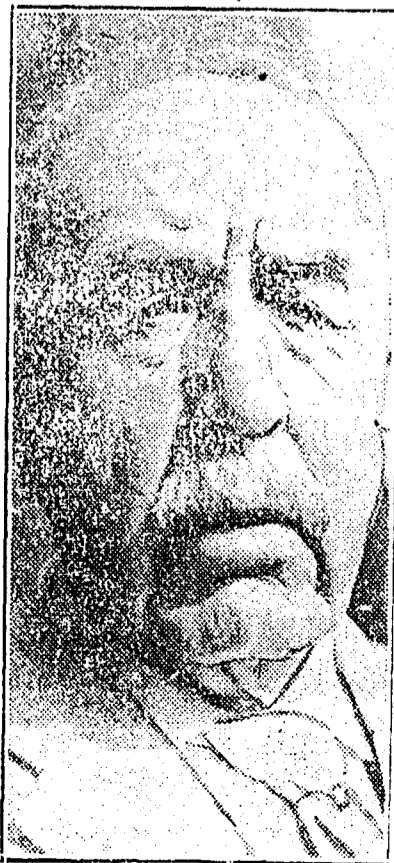

J. G. Gardner, Constable,  
Kendrick, Idaho.

Dated this 24th day of December 1927. 1-3

### FORMER GOVERNOR VAN SANT FAVORS PROPOSED MERGER

Man Who Bitterly Fought and Defeated Merger Generation Ago Now Sees Benefit in The Consolidation of Northern Lines.

Ex-Governor Van Sant, who saw the development of transportation in the old steamboat days on the Mississippi to the present day, in recent interview expressed his un-

S. R. VAN SANT

qualified approval of the proposed merger.

This is the view of former Governor Samuel R. Van Sant of Minnesota, who more than twenty-five years ago brought about the defeat of the plan of James J. Hill, E. H. Harriman and James Pierpont Morgan to bring about the consolidation of the Great Northern and Northern Pacific Railways. He said, "There is not now the same reason for opposing the consolidation of railways that there was in 1901. Competition as a public safeguard has been replaced by highly efficient governmental regulation. In 1901 competition was the only protection the public had. There were no other railroads extending through to the coast in this great territory. The Milwaukee railway, the Union Pacific railway, the Canadian railroads and the Pacific coast line are now direct competitors with the Northern lines in the Pacific Northwest. We did not have these in 1901. The Interstate Commerce Commission at that time had little power; in fact there was no efficient public regulation of railroads. A new governmental policy now prevails. It is recognized that under government supervision better service and lower rates can be obtained than under the former system of ruinous competition.

The fact seems to have been overlooked that when the governors and attorneys general of all the northwestern states met in 1901 at Helena, Montana, at my request, for the purpose of appealing to the government to oppose the merger, we petitioned Congress to provide the Interstate Commerce Commission with real regulatory powers. This has been done. The danger that might come from consolidated power of railroads has now been removed. The public are now in a position to enjoy the advantages of such a consolidation. Objections to consolidations that are based on wholly local considerations must be brushed aside in the general public interest. "We live in an age of progress," said the Ex-Governor, "in an age of consolidation and co-operation. Our country is big; our business is big; our men are big; a large vision is required of the public. The consolidation of great railway systems are no longer to be feared; far from being a menace they are now essential."

### Progress Being Made in Dairy Industry Is Good

Not so many years ago the milk production of the average cow was around 3,000 pounds a year. Now it is over 4,000 pounds a year and it will go higher. Last year 12,200 cows owned by 700 Illinois dairymen averaged 7,566 pounds of milk. The average feed cost of these cows was \$77.63 and the average value of the product \$187.65. These cows were "owned and operated" by men who were interested in their business, for they were members of dairy herd improvement associations. How would it do for some of our orators to go and tell them that we know enough about production, and that prosperity lies in something else?—Ohio Farmer.

How about that printing job? Don't wait until you are clear out, bring it to the Gazette Office

Tact is just the art of making the other fellow feel more important than yourself.—Rochester Times-Union.

### California's Grapes

Ten thousand refrigerator cars are required to transport the grape crop from the vineyards around Lodi, Cal.

## Baldwin Combine Harvester

ANOTHER GREAT REVELATION FOR THE FARMER

A combine harvester which is not so expensive but that every farmer can now enjoy the pleasure of owning one by himself and thresh when ever he pleases.

W. F. Behrens, the Cletrac dealer of Kendrick, Idaho, has taken the agency of the Baldwin Harvester in Nez Perce, Latah and Clearwater counties.

### MR. FARMER, LISTEN TO THIS!

A combine which costs about \$1400 F. O. B. Kendrick, 10-foot cut mounted on wheels, pulled with small tractor or six horses, cuts about 20 acres per day only requires two men to run machine, is driven by Henry Ford's famous model T. motor, equipped with governor. Combine has no canvas to wear out, no drapers to bother with, no cylinder teeth to crack your grain, will thresh beans or anything that needs threshing. This machine has not one plain bearing on it. Every bearing is either roller or ball bearing, all self aligning. All steel sacker or Bulk, tractor hitch or horse hitch, brakes—everything complete.

Folks, listen! The time came where the small stationary thrasher took the place of the large expensive ones, and the time is here where the small combine will take the place of the large ones. Pay down your threshing bill and next pay a little more and the next year pay the balance. Can you beat that price and terms? Enjoy having a machine of your own and thresh when you are ready.

The toothless cylinder, the latest invention, rubs the grain out of the cylinder and can be set close for wet grain. A wet bundle of wheat will thresh out clean. The wheat going into the sack looks like seed wheat.

No changing from wheat to beans, simply drive up the windrow and it picks up the beans threshes them and either leaves the straw in bunches or spreads it the full ten feet of cut.

I am not going to tell any more just now but wait till about the middle of February and I will have one in Kendrick. See for yourself and let the combine speak for itself. We will have a certain day advertised when you will see the machine. We will arrange to have some bundles of wheat and beans to thresh that day.

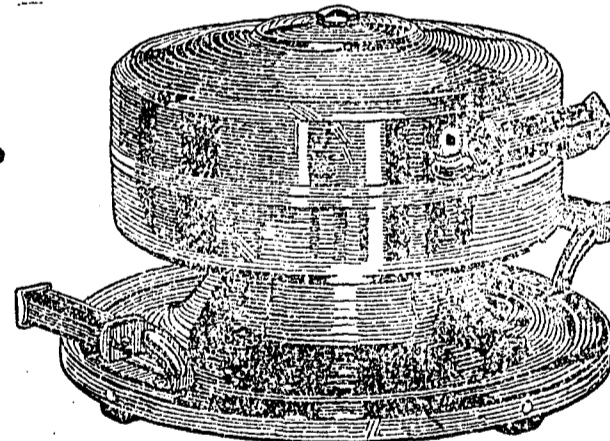

The prairie type will work well on a 15 per cent and for steeper land the self leveling machine is used. This machine is new here but has been used several years in the east and has proved to be one of the best combines on the market. One was used at Deary last year which caused great excitement there.

For information about this machine ask

**BIG MONTHS IN EGG PRODUCTION**

Fall and winter months may be termed the profit months in poultry culture for the reason that the big difference in production between heavy laying flocks and flocks which are not profitable comes during that season of the year. Almost any healthy hen will lay well toward spring.

It is an established fact that a flock must average approximately 100 eggs per hen per year in order to return the owner a profit. The difference between the monthly flock averages of good flocks and poor flocks comes mainly during the fall and winter months. In other words, the owners of profitable flocks have utilized methods which increase production at a time of year when fresh eggs are scarce and therefore higher in price.

Early hatches of early maturing birds could be set down as one of the most important points in getting heavier fall and winter production. Pullets that start laying during the latter part of October are from hatches that came before May 1, usually before April 1. They are birds that have been well fed and are fully developed. Good birds of this character will produce greatly over 100 eggs per year if they are properly fed and housed.

Proper feeding and housing are the second factors that must receive attention in order to get a good yield of fall and winter eggs. Hens will lay in the spring on a straight grain ration. At that time they are answering nature's demands and will lay if conditions are at all suitable. However, after the normal laying season is over, it is correspondingly hard to secure heavy production. This can only be done by using a ration that supplies plenty of animal protein, minerals, and succulent feed in addition to grain, which is needed as the basis of all rations. Houses must be warm, well ventilated and comfortable. In other words, the hen must be fed and managed so that she will feel like keeping right on with her egg production.

Parasites and diseases are the third source of trouble. Nothing will upset a good laying flock quicker than a lot of troublesome mites that make the birds want to leave their regular houses and roost in the trees.

**ALL-MASH FEED GOOD FOR EGGS**

Poultry keepers who have used the all-mash method of feeding chicks and growing pullets may continue the method for laying pullets. The plan has proved satisfactory for fall and winter egg production at the Ohio experiment station, and is being used by many successful poultrymen.

The only change in the all-mash for egg production, according to D. C. Kennard, station poultryman, is to increase the meat scraps from 5 to 10 per cent and decrease the corn from 70 to 65 per cent. Coarsely ground wheat may be used instead of middlings in the mash. And for best results, Mr. Kennard would also use milk in some form.

Success with all-mash feeding the laying pullets, especially for winter eggs, is largely determined by the kind of mixture and manner of feeding it. The mash should be as granular as possible rather than finely ground. A suitable type of feeder should provide 20 to 24 feet of eating space per 100 pullets. Fresh mash should be fed daily in the evening, the amount being about what will be consumed during the next 24 hours.

Electric lights may be used to advantage. A warm, moist mash fed in the evening, especially in cold weather, may prove beneficial.

Details relative to the all-mash method of feeding layers may be had by writing the Ohio experiment station at Wooster.

**Hens Earn More**

Hens in the flocks of the 543 Ohio farmers who last year kept cost records in co-operation with the agricultural extension service of the Ohio State university, earned more for their owners in 1926 than in any years since the co-operative record keeping began. This report shows that the average hen in these 543 flocks paid its owner \$3.23 for labor and feed in 1926. In 1925 the labor income per bird was \$2.69; in 1924 it was \$2.00.

**Rulers' Extravagance**

The Field of the Cloth of Gold was the name given to a meeting between Henry VIII of England, and Francis I of France. The brilliance and magnificence of the display on either side led to the name given to the meeting. It was merely a display and nothing came of the meeting of the kings.

**Southwick News**

Rev. Rein and family and Wm. Brammer of Cameron were Sunday afternoon guests of Mr. and Mrs. Wm. Brammer.

Attlee Mustoe and wife and Grandpa Southwick spent the week end with relatives on Cream ridge.

**Band Rehearsal Next Monday**

Band rehearsal will be held in the city hall next Monday evening at the usual hour. Mr. Thomas states that if weather conditions permit, band practice will be held every Monday night, without fail. Everyone is urged to be present next Monday.

**Robust Beans Yield Well**

Claud Craig of Leland stated last week that his bean yield last year averaged about 8 sacks to the acre. He planted Robust variety and said he believed they stood the wet weather better than any other kind. They yield well and mature evenly.

It is said the Robust beans were introduced into this country by the Vollmer-Clearwater Co. about five years ago, the original seed being shipped in from Michigan and placed on contract with H. S. Evans of Texas ridge. Claud Craig secured the seed from this first crop and has been planting this variety every year since.

Growers who have planted Robust beans, from good seed are very highly in favor of this variety for the Potlatch country.

**Linden News**

Mr. and Mrs. Weyen and sons spent the week end with relatives at Southwick.

Several women met at Mrs. A. Alexander's Wednesday and helped her tie comforts. Those present were Aunt Carrie and Miss Virginia Allen, Eva Smith, Mrs. George Garner, Mrs. Jim Garner and Mrs. Edgar Bohn. Everyone enjoyed the day so much that several other such occasions have been planned.
