Special selections were given by Georgine Smith on the piano; Nellie Goudzward sang a solo; Clate Gephart and Mr. Clem furnished harmonica music, accompanied by Jennie Fleschman at the piano. Dwight Hoffman gave an instrumental selection. A delicious lunch of sandwiches, cookies, cake and ice cream was served. The young people spent a most enjoyable evening.

W. O. W. News

White Pine Camp, Woodmen of the World, will hold their annual social on Wednesday the 15th. There will be regular music by the famous Lewiston Woodmen orchestra.

Arrangements will be made for the trip to Genesee on the 16th, when the camps of this district will hold a joint initiation, each camp taking its candidates along with them. Genesee alone will have twenty candidates.

Okoke Bridge Supper

Dr. and Mrs. McKeever entertained the members of the Okoke bridge club at a delightful supper last Saturday evening at 6:30. Following the supper hour three tables were arranged for bridge, which was enjoyed until midnight. High score was carried off by the Kneppers. Those present were Messrs. and Mesdames. Ramey, Walter Thomas, Morehead, Knepper, Mrs. Joday Long and Mrs. A. R. Kennedy of Pierce City.

Those Idaho Potatoes

A restaurant keeper of Chicago describes Idaho potatoes on his menu under the heading "The Jewel of Idaho", as follows:

"Big, bulging beauties, grown in the ashes of extinct volcanoes, scrubbed and washed, then baked until the shell crackles with brittleness and, within, the farinaceous contents effloresce with eager heat to absorb that ever fresh butter which we abundantly serve."

Death of S. R. Southwick

S. R. Southwick, one of the early settlers of the Potlatch ridge section, and widely known throughout Nez Perce county, died at his home at Southwick, Monday morning, following an attack of pneumonia. The 12th of this month he would have been 90 years old.

Mr. Southwick was a native of New York. From there he moved to Illinois where he was married and later located in Kansas. Forty-six years ago he and his family came to Idaho where they homesteaded at the place which was later named after him. At that time what is now a prosperous agricultural section, was a comparative wilderness. Mr. Southwick, who was well educated, served his community for miles around as district school teacher for a period of over 15 years. He also served as postmaster for many years.

Mr. Southwick's influence thru all these years has been stamped upon the community. He was a member of the Christian church and played a large part in the advancement of the community. His wife died last June at the age of 80 years. Four sons and four daughters survive him: Leroy J., of Southwick, Harve of Lenore; Bert of Reubens; Edward J. of Ledue, Alberta; Mrs. Frank Daggert of Lenore; Mrs. Emma Corey of Cavendish; Mrs. Mattie Brown and Mrs. Myrtle Davis, both of Los Angeles, Cal.

Services were held at one o'clock Thursday afternoon at the home and following at the church at two o'clock, Rev. Chas. Addleman of Clarkston, Wash., officiating. Burial was made in the Southwick cemetery.

Organize Men's Chorus

Walter Thomas is organizing a men's chorus in Kendrick. The first rehearsal was held at the Methodist church last Sunday afternoon with a good attendance. The chorus will be composed of at least sixteen voices. Regular rehearsals will be held every Sunday afternoon until the roads get better, when the time will probably be changed to Wednesday evening. There are a number of members who live in the country and it is inconvenient for them to come to town at night over the bad roads.

Excellent progress was made at the rehearsal last Sunday and it is believed the organization will be very successful. Mrs. Jack Barnes will be the accompanist.

Rognstad-Evanson

Word was received here of the marriage of Joe Rognstad, formerly of Bear ridge and son of Mr. and Mrs. T. H. Rognstad of Clarkston, to Miss Lillian Evanson of Canby, Minn. The wedding took place at Gettysburg, S. D., January 28.

Mr. Rognstad is at present an instructor and athletic coach at St. Paul-Luther college in Minnesota.

Death of Railroad Engineer

Charles Morgan, veteran N. P. engineer, passed away at the company's hospital at Missoula, Montana, last Monday night, after a short illness. Mr. Morgan entered the employ of the company in 1882 as fireman and four years later was made an engineer. For over 20 years he was on the Lewiston-Palestine run.

Good Session Commercial Club

The Kendrick Commercial club met last Tuesday evening at the Commercial Hotel with a splendid attendance. The meeting, was held at the dinner hour and a little after eight o'clock the business coming before the club had been transacted.

The dinner served by the hotel management, deserved special mention. It was really a banquet and was thoroughly enjoyed by everyone. Practically all the food served was produced in the Potlatch country. How does this sound to you? Sliced pork, mashed potatoes, combination salad, baked beans, noodles, home-made hot rolls, creamed carrots, pork gravy, pickles, pie, and coffee.

After hearing the minutes of the previous meeting and listening to the report of committees, the subject of highways was brought up. After a thorough discussion it was unanimously voted to have petitions presented to the Kendrick Highway commissioners, calling for a bond election. It was the understanding that the petitions were to be placed in the hands of the commissioners at their meeting Saturday.

The finance committee for the 1928 baseball season was appointed as follows: Herman Schupfer and Ira Bolon, the third member to be appointed by them. The finance committee, together with the baseball boys, are to select the playing manager.

W. J. Carroll, cashier of the Farmers' Bank, was a new member of the club and was called upon to make a talk. He stated briefly that he would be found willing at all time to do his part in anything for the welfare of the community. Wade Keene, from Bear ridge, also spoke briefly and gave his views on the question of roads.

The next meeting of the club will be held the second Tuesday of March.

Whole "Dam" Family Crazy

Genesee News: If the Hickman family had been accused of having an insanity strain in it before the young fiend who kidnapped and murdered little Marion Parker, did the fiendish act, the whole family would have been up in arms and highly outraged at such an intimation, but now that they are trying to save his worthless neck from the noose, which he so richly deserves, they are willing to admit that the whole "dam" family is crazy. That being the case, the entire outfit should be put where they will do the least harm.

It seems quite the thing nowadays to have been crazy at the time of committing a crime—and they generally get away with it for most and would-be alienist will testify that any criminal is insane, if for no other reason than to get his name before the public—a lot of cheap would-be seeking cheap advertising.

Start Sunday Afternoon Movies

Acting upon a petition, heavily signed by the residents of the town, the local city council, passed an ordinance last Tuesday evening permitting the operation of moving picture shows, in Kendrick, Sunday afternoons between the hours of 1 and 6 p.m., or at a later hour provided the electric power is not available at the hours mentioned.

The New Kendrick theatre will therefore start the Sunday moving pictures this coming Sunday afternoon beginning at 3:00 o'clock.

Fame

"Her husband owes a lot to her, doesn't he?" said a man as he glanced at the big headlines in the morning paper. He nodded toward the biggest, blackest type as his wife glanced over his shoulder. "Yes, he certainly does owe her about everything," responded the agreeable wife. "Nobody ever heard of him before she shot him."

Council Met Tuesday Evening

Immediately after the commercial club meeting last Tuesday evening, the council held its regular monthly session at the city hall. At this meeting the ordinance granting the privilege of operating Sunday movies was passed and appears in this issue of the Gazette.

Last fall the members of the board made a levy of 2 mills for band purposes. The levy provides a sum of \$30 per month, which will be used for defraying expenses of the band. A committee from the band was present at the meeting.

The street and alley committee was ordered to have the rock point where the Little Bear ridge road enters the village limits, blown off and the road widened at this point. Gus Lucken will have charge of the blasting.

The clerk was ordered to take up the matter of having the old Hamley residence removed. It is located above the Silvie Cook place and is a menace to public safety because of fire hazard and also on account of the fact that the hillside below the house is caving away.

The street and alley committee was directed to take up the matter of having the slab at the lower end of town cleared off and a channel dredged in order to keep the water from the surfaced road.

There being nothing further brought up the meeting adjourned.

Death of Mrs. Julius Giese

Mrs. Suzanne Giese, wife of Julius Giese, prominent farmer of the Fix ridge section, died at 7:30 Wednesday morning at the family home, following a brief illness.

Mrs. Giese was a native of Germany and was 56 years of age at the time of her death. She was a woman held in the highest esteem in the community where she had resided for many years. Surviving her are her husband and eight children, Tillie, Susie, George, Julius, Herman, Adolph, Alfred and Carl.

Funeral services will be held from the family home on Sunday morning at 11 o'clock and interment made in the Fix ridge cemetery.

Electric Service Reasonable

The cheapness of electric service is apparent when it is considered that the average American family spends twice as much for theatre and amusements and for candy, as it does for electric service during the year, according to figures released by the National Electric Light Association. From a survey of 16,000,000 homes it was found that the average family was spending nearly twice as much for soft drinks and ice cream and nearly three times as much for tobacco as for its electric service.

Rates charged for electric service are lower than in 1914, while general living costs are 65 per cent higher.

"This low cost of electric service is responsible for the large number of electric appliances in use in the homes of the Inland Empire, including the electric ranges," states John F. Farquhar, general agent of the Washington Water Power company. "As the use of appliances increases, the cost of electricity per kilowatt hour decreases."

Not Her Choice

"What's your name?" the storekeeper asked the little girl, who was hardly tall enough to point at what she wanted in the candy showcase.

"May Clinton," she promptly replied.

"Do you mean to tell me that Jack Clinton, sitting in that car out in front, is your father? Why he's just a bun," the man said teasingly.

"Well, don't blame me," the little tot retorted. "I didn't choose him; it's what my mother picked."—Ex.

Coyotes Killing Deer

A ranger in the Selway country wrote to friends here the first of the week that coyotes in the Selway were slaughtering deer. He said that in 20 days the coyotes had killed more deer than hunters had killed in the past three years. On account of the trusted snow the coyotes have the deer at their mercy. The deer break thru the crust but it is strong enough to hold up the coyotes, so that in the chase the deer soon become exhausted.

Death of R. M. Wright

Robert M. Wright, one of the fine old pioneers of the Southwick community, passed away at a Lewiston hospital last Monday night, following an illness covering a period of several weeks. He was 74 years of age at the time of his death.

Mr. Wright settled on Potlatch ridge in 1893, coming here from West Virginia. He located near Southwick, founding the little town of Grafton, which finally ceased to exist. He and his wife and family made this community their home and their influence was widely felt throughout that section of the Potlatch. They have been among the highly respected citizens of that community.

Those who survive him are his widow and one daughter, Mrs. George Christensen of Crescent; three sons, C. C. of Potlatch, D. D. and William of Southwick.

Funeral services were held Wednesday afternoon at Southwick and burial made in the Southwick cemetery.

Death of Mrs. Anna Kinzer

Mrs. Anna Kinzer, for many years a highly respected resident of Juliaetta section, died at 11 o'clock Monday night at her home in Juliaetta, following an illness of over two months. She was a native of Virginia and was 73 years of age. Mr. Kinzer preceded her in death many years ago.

Those who survive her are four children, Carl of Lewiston; William of Coeur d'Alene; Mrs. Ruth Jordan, Dillon, Mont.; and Mrs. William Groseclose, Teakcan, Idaho.

Mrs. Kinzer was a member of the Methodist church.

Funeral services will be held at 1 o'clock this afternoon at the Methodist church in Juliaetta and interment will be made in the Juliaetta cemetery.

Hotel Dining Room Opened

A big crowd attended the opening of the Commercial Hotel dining room last Sunday noon. If the splendid opening is a criterion, the hotel has a very bright future. Tables were full during the dinner hour, over sixty people enjoying the good dinner prepared by the management.

Gas Tax Collections

Gasoline tax collections for 1927 total \$1,669,057, it is announced by Fred E. Lukens, secretary of state. Cost of collection was \$11,612.21 and refunds amounted to \$97,307.87.

September collections of \$215,170.67 were largest. It is estimated 1928 collections will come close to the \$2,000,000 mark.

Wanted to Connect

He had just hung out his shingle. That morning a stranger entered. The doctor asked to be excused as he hurried to the phone. Taking down the receiver, he said: "Yes, this is Dr. Woosit. Yes, I will be ready for you at 2:10 this afternoon. But please be prompt, for I am very busy. \$200? Yes, that was the estimate I gave you." Hanging up the receiver, he turned to the stranger, and rubbing his hands, asked: "Now, sir, what can I do for you?" "Nothing," replied the stranger, quietly. "I only came in to connect up the telephone."—Ex.

Celebrate Golden Wedding

The following account of the golden wedding of Mr. and Mrs. J. F. Brown, now living at Berne, Wash., was received this week:

January 24, 1928, Mr. and Mrs. J. F. Brown celebrated their golden wedding day at the home of their daughter, Mrs. C. G. Jones of Berne, Wash., the occasion also being Mrs. Jones' birthday. Her home was tastefully decorated for the occasion. In the evening a reception was held and at this time the married people of the camp presented Mrs. Brown with a beautiful chair. Mrs. Swanson sang "That Wonderful Mother of Mine", "O Promise Me" and other selections after which a mock wedding ceremony was performed. Mrs. Brown carried a lovely bouquet of golden chrysanthemums. Dainty refreshments were served and the bride cut the huge wedding cake. The bride and groom were the recipients of a number of useful gifts, among them a purse of \$50 from her children. The children, with the exception of one son, were present as follows: Mrs. C. H. Cole of Dunsuir, Cal., Buster Brown of Eureka, Cal., Mrs. Stone of Seattle, R. F. Brown, Kendrick, Mrs. Jones and E. R. Brown both of Berne, Mrs. A. F. Beuson of Eagle Creek, Oregon.

Every Man

A woman reader of a magazine has submitted the following observations: Every man when he knows he is wrong, assumes an air of great dignity. Every man thinks his time is important, sets his watch at every jeweler's window, every time he sees the town clock. Every man discusses himself with every woman that will listen to him. Every man clings with tenacity to the easiest chair. Every man pretends indifference to clothes. Every man knows he could cook and manage a house. Every man hates being polite to his wife, and thinks he has wonderful self-control because the woman had the last word. Every man believes he is severe with his children. Every man is deceived by flattery. Every man is satisfied with his weight, himself. Every man cherishes the thought that he is a he-man, superior to

woman. Every man considers himself logical. Every man is sentimental. Every man thinks he knows women. Every man is a spoiled child.

Barley Long in Use

It is said that barley is the oldest food of man. Several varieties, one the sacred barley of the ancients, were known to the lake dwellers of Switzerland. It was cultivated in ancient Egypt and was also the chief bread-stuff of the Hebrews, Greeks and Romans.

Peculiar "Medicines"

In the Middle ages powdered human bones in red wine was prescribed for dysentery, while the marrow and oil extracts from the bones were used for rheumatism.

Beauty of Single Column

For thousands of years the world's famous architects and designers have found nothing so beautiful and worthy in building as the simple, classical column. The beauty of these fluted columns has been made available for use on every kind of structure, from the modest cottage to large public buildings, by the principle of pressed steel column construction.

Mixture of Languages

The name applied to the natives of Guam is Chamorro. The Chamorro dialect spoken in Guam is a polyglot mixture of Spanish, Malay, Yaqui Indian lingo and various Polynesian tongues.

Baldwin Combine Harvester

ANOTHER GREAT REVELATION FOR THE FARMER

A combine harvester which is not so expensive but that every farmer can now enjoy the pleasure of owning one by himself and thresh when ever he pleases.

W. F. Behrens, the Cletrac Dealer of Kendrick, Idaho, has taken the agency of the Baldwin Harvester in Nez Perce, Latah and Clearwater counties.

MR. FARMER, LISTEN TO THIS!

A combine which costs about \$1400 F. O. B. Kendrick, 10-foot cut mounted on wheels, pulled with small tractor or six horses, cuts about 20 acres per day only requires two men to run machine, is driven by Henry Ford's famous model T. motor, equipped with governor. Combine has no canvas to wear out, no drapers to bother with, no cylinder teeth to crack your grain, will thresh beans or anything that needs threshing. This machine has not one plain bearing on it. Every bearing is either roller or ball bearing, all self aligning. All steel sacker or Bulk, tractor hitch or horse hitch, brakes—everything complete.

Folks, listen! The time came where the small stationary thresher took the place of the large expensive ones, and the time is here where the small combine will take the place of the large ones. Pay down your threshing bill and next pay a little more and the next year pay the balance. Can you beat that price and terms? Enjoy having a machine of your own and thresh when you are ready.

The toothless cylinder, the latest invention, rubs the grain out of the cylinder and can be set close for wet grain. A wet bundle of wheat will thresh out clean. The wheat going into the sack looks like seed wheat.

No changing from wheat to beans, simply drive up the windrow and it picks up the beans threshes them and either leaves the straw in bunches or spreads it the full ten feet of cut.

I am not going to tell any more just now but wait till about the middle of February and I will have one in Kendrick. See for yourself and let the combine speak for itself. We will have a certain day advertised when you will see the machine. We will arrange to have some bundles of wheat and beans to thresh that day.

The prairie type will work well on a 15 per cent and for steeper land the self leveling machine is used. This machine is new here but has been used several years in the east and has proved to be one of the best combines on the market. One was used at Deary last year which caused great excitement there.

"Luckies never cut my wind" says Billy Burch, Captain of N. Y. Americans' Hockey Team

"I can't afford to take any chances with my physical condition. That's why I stick to Luckies. In addition to the pleasure I get from their fine flavor, they have never cut my wind to any noticeable degree. Finally, I never suffer with sudden coughing which might be very dangerous for me when there's a scramble on the ice."

Plenty Water For Irrigation

There is an acre foot of water now in storage for each and every acre of irrigated land in southern Idaho, it is shown in a report on file in the office of George Carter, reclamation head. The report covers eight major reservoirs of the state including American Falls, Jackson Lake, Lake Wolcott, Henry Lake, Lost River, Magic, Salmon, Arrowrock. In these reservoirs it is estimated there is a total of approximately 2,700,000 acre feet of water.

Education Needed

Perhaps if special courses dealing with the baneful effect of alcoholic beverages, and particularly dealing with the brain and body wrecking tendencies of the "commercial" moonshine of today, were placed in the curricula of our schools, within a generation or so the attitude toward booze would be entirely changed. Such teaching ought to be easy in addition to inculcating in the minds of our youth, by means of lectures, laboratory analysis and so on, a wholesome horror of intoxicants, their deleterious effect upon morals and health could also be forcefully shown by citing "horrible examples" of which, or whom there is at present no particular dearth. The wets profess to believe that if saloons could be once more legalized they could be de-

cently and respectably conducted. Each saloon, we opine, would be provided with a chaplain and the libations of its customers would be preceded by a word of prayer. One gets these impressions by reading anti-prohibition literature at least.—Troy News.

NEWS NOTES FROM THE KENDRICK SCHOOLS

What The Students Are Doing This Week.

NO MORE CREDIT

Advice given the Pacific Northwest Hardware and Implement Association by President Atkinson, is sound and applicable to any line of business.

"Watch your credit and get your money" said Mr. Atkinson. "Credit is business, and business is getting the money for what you sell."

Watching credits is the foundation principle of successful merchandising. Bad credits benefit, no one, not even the creditors to whom the losing credit is extended.

Therefore, No more credit unless you kick through for your present account.
