

Minutes of Protest Meeting

As there has been some inquiry concerning the proceedings at the highway district protest meeting, held March 10, the minutes of the meeting are published below. They give an accurate outline of what took place.

Minutes of the meeting of the Board of Highway Commissioners of Kendrick Highway District held at its office in the City Hall of the Village of Kendrick at 1:00 o'clock p. m., on March 10, 1928, pursuant to notice thereof contained in Bond Resolution No. 1, approved by the Board on the 21st day of February, 1928, to hear any and all objections to the issuance of the bonds provided for in said Resolution No. 1, and any and all objections to the levy and assessments of taxes to pay the principal of and interest on said bonds and to take such action, all matters and things being considered, as to the Board might seem meet and proper.

All members of the Board being present the meeting was called to order at 1:00 o'clock p. m., and its purpose stated by the Chairman of the Board, William Cox.

The Clerk of the Board, G. F. Walker, stated that written objections and protest to the allocation or expenditure of the proceeds of said bonds, as outlined or proposed in said Resolution No. 1, signed by 131 owners of property situated in the Highway District, had been filed with him on the 10th day of March, 1928. The same was read in full by the Clerk.

A large number of residents and property owners within the District were present and some discussion of the programs of Bond Resolution No. 1, and of the protestants was had but no one offered to give testimony either for or against the objections filed.

For the purpose of obtaining an expression of the sentiment of those present, it was moved and seconded that it be the sense of the meeting that the Board adopt the plan or program of expenditure or allocation of the proceeds of the bonds as outlined in the objections filed.

The Chairman stated the motion and called for remarks thereon but no discussion was had and upon the vote thereon the motion carried by a majority of three.

It was then moved and seconded that it be the sense of the meeting that the Board proceed no further under Bond Resolution No. 1, and that the various sections of the highway district affected by a bond issue get together and agree upon a plan or program of expenditure of the moneys of a bond issue, satisfactory to all interested; without discussion the motion carried unanimously.

Thereupon Commissioner Walker offered the following resolution to the Board:

WHEREAS the Board adopted Bond Resolution No. 1 and caused the same to be published as required by law, upon the written petition of 160 resident property owners of the Highway District, dated December 3, 1927, and filed with the Clerk of the Board on the 11th day of February, 1928, and,

WHEREAS a sufficient number of the signers of said petition have signed the written objections and protest presented at this meeting, to defeat a bond election called under Bond Resolution No. 1, and,

WHEREAS it appears to the satisfaction of the Board that it would be useless to call an election for a bond issue upon the program outlined in Bond Resolution No. 1, now pending or upon the program outlined in the objections and protest filed with the Board, and,

WHEREAS it appears to be the sentiment of the taxpayers of the District that no Bond election can be made to reconcile the differences entertained as to the expenditure or allocation of the proceeds of the sale of bonds issued, NOW, THEREFORE,

BE IT RESOLVED that the

Entertains Sunday School Class

Mrs. H. B. Thompson entertained the members of her girls' Sunday school class last Friday evening at her home. Each member of the class was privileged to invite a girl friend. About twenty were present. The color scheme for the evening was carried out in a manner appropriate to the St. Patrick's season. Games were played, after which dainty refreshments were served. The young people report a jolly good time.

Latah Lumber Dealers Organize

Retail lumber dealers of Latah county, it was announced today, are organizing for co-operation with the National Retail Lumber Dealers' Association in a nationwide movement to promote the ownership of homes and the keeping of present structures constantly in repair as well-improved property. The county and state organizations all over the country will be supported in their work by a national advertising campaign which is to run for four years and which it is estimated, will cost \$40,000,000.

George P. Barnum of the Barnum Lumber and Mill Company has been appointed chairman for this county, by L. P. Lewin, of Cincinnati, president of the National Association. Mr. Barnum will appoint committees to carry on the movement in this county within the next few days. The county organization will operate under the direction of Lewis Pettit, of Pocatello, chairman for Idaho.

Whoopie, This is a Fast One

Railroad brakies of the Milwaukee freight brought the story in this week of an unusual hunting experience by the section foreman at Santa.

They said a lynx had crossed the river at Santa and when reaching the railroad track evidently sat down to rest a bit and in doing so froze to the rail. The section foreman came along in the morning and said he killed it with an iron bar. They said as proof that the animal was stuck to the rail, it had torn its skin in pulling to free itself. The hide is on display at Santa, and anyone can believe the story or not. We consider it a fast one anyway.—Elk River News.

Line Was Busy

The telephone operator was spending the summer holiday by the bounding sea. On the first morning, however, she had occasion to berate the maid of the lodgings for real or imagined negligence. "Why didn't you call me as I told you this morning?" she demanded. "I did, miss," replied the maid, with an injured air. "I called out '7:30' all you see was 'lines busy'."—Exchange.

Trout Season Opens May 16

Ed Collins of Moscow, deputy state game warden, was in Kendrick, Wednesday. He stated that there seemed to be some misunderstanding with reference to the closed season for trout fishing in this section. Mr. Collins said that the season is closed from January 1, to May 15 inclusive, except in Clearwater county where the season is closed on Elk Creek and its tributaries during April, May, October and November.

The opening day of the fishing season, except in Clearwater county, is May 16.

Board set aside in whole the bond issue proposed by Bond Resolution No. 1, and the proposed tax levy therefor and that all further proceedings under said Bond Resolution No. 1 be cancelled and all matters and things heretofore had and done thereunder be annulled and held for naught, and moved the adoption thereof. The motion was seconded by Commissioner Lien and passed unanimously.

There being no further business the Board adjourned.

Plenty of Ball Players

Manager Bolon stated this week that he already has 16 base ball players available, from which to select a line-up for the 1928 season. Most of the men are seasoned players and have demonstrated their ability on the Kendrick team in the past.

This week he signed up Charlie White, Lapwai Indian, to catch. Charlie is considered one of the flashiest catchers in this section of the country and will be a drawing card for the team. The other half of the battery, Glen Flesham, is a big asset to the team and is considered one of the best pitchers in North Idaho. Several years ago he pitched thirteen games for Kendrick, winning all but one. Last year he was the main-stay of the Nez-perce champions.

There are three contenders for first base position, all good men with years of experience back of them. Bill McCall, the home run artist, will wear a Kendrick uniform this season. He is a valuable man on the team, both as a first baseman and a hard hitter. Jack Barnes, a new man, has played first on the Genesee team in years past and also held down this position on the champ Wilbur, Wash. team. He is equally at home in the infield or outfield positions and Kendrick fans are looking for him to be in the lineup this season. Then Gus Blum, who for several years past, has played first and outfield for Kendrick, is going to prove hard competition for someone.

On second base it seems that Tony Eichner has an option, as his record for the last two years would warrant him to hold down this place without any argument. He is also a consistent hitter.

For shortstop there is Al Armistage, who played that position here last season and was one of the best all-round men on the team. Al Hudson, a new man has demonstrated during recent work-outs that he is strictly at home in this position. He is going to be a great big addition to the team as he is a versatile player and seems to fill any place in the lineup equally well, besides being a pitcher of real ability.

There are two strong contenders for third base. Kuliek, who held that position last year and proved a flashy player, is going good this season in practice. Last season he led the batting list and is a good all round man. Jack Flesham, who has played third for Kendrick several years in the past, is showing great form at the workouts this season. If he keeps up his present pace, he will be hard competition for anyone to keep him off of third base.

Gabe Forest may don a Kendrick uniform this season if he can get his arm back in shape. Gabe is one of the classiest ball players that ever played on the Kendrick team. He can handle any job on the team except pitcher. It is to be hoped that he will be in the lineup.

For outfield positions there are a number of promising contenders. Frank Boyd and Walter Thomas, both veteran ball players and fast in the field, aside from the fact that they are consistent at the bat. Then there are Clarence Perryman, Harley Eichner and Harry Flaig, who have all played on the team in various positions in years past, and may prove to be hard competition for positions on the team.

From the above list of ball players it should not be difficult to pick a winning team.

4H Club Entertainment Tonight

The entertainment to be given by the Juliaetta 4H Club Girls, will be given tonight at the Fraternal Temple in Kendrick. The entertainment will consist of three plays, "After School, What?", "A Family Jar", and "Locked in With a Lady". There will also be other entertaining features, after which a dance will be held, with good orchestra music. Everybody is cordially invited to attend.

Proclamation by The Governor

Of particular interest to the State of Idaho is the proclamation by the President designating the period from April 22 to 28 as American Forest Week.

In northern Idaho stands the greatest body of white pine timber in the world. Two-fifths of our area is forest land. Lumbering ranks first among the manufacturing industries of the state, providing our largest payroll, approximately \$22,000,000 in 1927, and a home market for enormous quantities of farm products, totalling an amount during the past year of \$4,000,000. In lumber production Idaho ranks 12th among the states. The value of state owned timber is conservatively placed at \$30,000,000.

Aside from the commercial and recreational value of our forests, they are of vital importance to the various irrigation projects, which are directly dependent on the forests for their water supply, and, in turn, farmers rely upon the irrigation they supply for the production of crops.

Because of the disastrous economic effects of idle forest lands, it is necessary that a policy of reforestation be applied to cut-over land. This is being done in a small way, but so vast and so expensive is the work, it may become, finally, the province of the national government rather than the state to assume the burden of reforestation.

The importance of this resource and the obligation to future generations demand that each citizen of the state interest himself in the protection of our forests and in the continuity of our timber supply.

Now, therefore, in compliance with the recommendation of the President, by virtue of the authority vested in me as Governor of Idaho, I do hereby proclaim the week beginning April 22 and ending April 28, 1928, FOREST WEEK, for the purpose of bringing forestry to the attention of our people.

It is further recommended that wherever practicable Arbor Day be celebrated within this week.

Too Much Hickman

Hickman, the young arch fiend who kidnapped and murdered little Marian Parker at Los Angeles, has been sentenced to be hanged and also to life imprisonment for the murder of a San Francisco druggist. He is to be tried now for robbery, committed when the druggist was killed.

While the cost does not come to Idaho, yet it would seem that the California officials have spent enough on his worthless neck without piling up more expense on helpless taxpayers. It looks worse than child's play to try and sentence a man to life imprisonment after he had already been sentenced to death for a crime, to say nothing about trying him for robbery. But those lawyers must have something to do—as long as the people's money holds out.—Genesee News.

Wasn't on The Program

"Rastus, I understand that you have become the father of twins. Have you named them yet?" "Yessuh, Ah done call the first one Adagio Allegro, Ah'm go'n't call the second on Encore." "Musical names, all right. But why did you call the second one Encore?" "Well, sah, you see, he wasn't on the program at all."—Exchange.

The Popular Defense

A mother in Kinsley is reported to have gotten her paddle all ready, her young son over her knee. Then she paused a moment. "Now, what did you hit the little sister for?" she asked. "She wasn't bothering you." "No," sobbed the young man. "I really don't know. I guess I was just insane."—Exchange.

Dr. and Mrs. G. W. McKeever were Lewiston visitors last Sunday.

Says Deer Are Plentiful

Deputy State Game Warden C. K. Hjort says that if the deer in the Selway country are allowed to accumulate much longer, many of them are going to die for lack of food. Maybe Mr. Hjort is right, but the writer was a member of a party of four who hunted in the Selway country last fall and if they had been compelled to depend upon venison for sustenance, they would all have died for lack of food.

Death of M. D. Hudson

Maurice David Hudson, age 62, resident of the Crescent section, died at a Lewiston hospital, March 15, following an operation, performed in the hope of relieving an acute illness.

Mr. Hudson became suddenly ill Wednesday at his home and he was taken to the hospital late Wednesday evening of last week. He passed away the following morning a short time after the operation.

Maurice David Hudson was born in Indiana, February 16th, 1866. He went with his parents to Barton County, Missouri, in 1872, where he grew to manhood, and there he was married to Miss Amanda Mayfield, January 3, 1899. To this union were born seven children. He is survived by his widow, six children, Mrs. C. E. Quick of Dillon, Montana; Elmer, Alva, Allen and Erle, all of Crescent; Alfred of Bronaugh, Mo. One daughter died in infancy. He also leaves a sister, Mrs. Ora Mayfield of Bronaugh, Mo., and six grandchildren.

In 1906 Mr. Hudson became a member of the Free Will Baptist church in Missouri. He was a man who was held in the highest esteem in the community which has been his home for the past year.

Funeral services were held last Sunday at Linden, Rev. Taber officiating. Interment was made in the Gold Hill cemetery.

W. W. Power Moved Office

The Washington Water Power Co. moved its office this week from the former location to Main Street. The building which is now occupied by the company was formerly used by the old Stanton store. It is centrally located and has good display windows.

Fiddlers Contest, Friday, April 6

Arrangements have been completed whereby the Fiddlers Contest to be held at the New Kendrick Theatre, will be held Friday evening, April 6. A list of the contestants will be published before that night. All those who intend entering this contest are requested to send in their names before noon, Thursday, April 5. Remember that any fiddler over 40 years of age is entitled to enter this contest. It is expected that a good many will enter. Prize for winner will be announced later. Send in your names now.

Farm Luxury

A young lad is reported to have seen a windmill for the first time. The lad looked about the farm carefully. He watched the big windmill for a full minute, then turned to the farmer: "Gee, mister," he sighed in envious amazement, "that is certainly some electric fan you have there to keep the hogs cool."—Exchange.

Julietta Senior Class Play

The senior class of the Juliaetta high school will give a play entitled "Clarence Decides", Saturday, March 31, at Hines hall. Everybody is cordially invited to attend.

Mrs. Frank Boyd entertained a number of little folks at her home Tuesday afternoon in honor of her daughter, Betty's fourth birthday. Games were played, after which refreshments were served.

Nez Perce Plans to Bond

A meeting of representatives from outside districts of the county Tuesday authorizing the appointment of a committee to prepare petitions and direct their circulation preparatory to asking the board of county commissioners to call a county bond election to provide a fund for the improvement of county laterals and the construction of the Lewis and Clark highway between Arrow Junction and the Clearwater county line near Peck says the Tribune.

The committee named to handle the work preliminary to the election is composed of E. C. Rettig, Lewiston chairman; John Kennedy, Tom Beall creek; F. Byron Smith, Peck, and Ford Parks, Leland. Harland M. Hoyt, chairman of the Lewiston road committee, will serve as an ex-officio member of the special committee.

The plan agreed upon was that bonds in the amount of \$225,000 or \$240,000 be proposed and in the event the latter amount is decided upon, that \$100,000 be set aside for the rural roads and that the money be divided between the districts on the basis of assessed valuation. That the remaining fund be set aside for the Lewis and Clark highway but the bonds not to be sold until the state is prepared to make an allocation of federal aid money to meet the county appropriation. The exact amount of the bond issue will be determined after members of the committee have inspected the county records to ascertain the county's part of the 1927 auto license money. It is proposed to vote bonds up to \$240,000, in the event the revenues from auto licenses are sufficient to insure the retirement of the bonds without any levy against the real or personal property of the county. The county now has an outstanding bond issue of \$400,000 while the annual revenues from auto licenses are sufficient to handle an additional bond issue of \$225,000 or \$240,000. Under the provisions of the law, the county commissioners cannot use the auto license fund for any other purpose so long as a county bond issue is outstanding and because of this condition, the commissioners have built up a reserve fund of nearly \$200,000. The proposed increase in the bond issue would absorb the excess now being collected, would give the farmers and others the benefit of the improved roads and would provide for the retirement of the bonds by the auto license revenues without putting one cent additional taxation on the property owners of the county.

Ford Parks, speaking for the Leland district; M. Grandquist and Bruce Hersey, for Lenore; John Kennedy for the Lapwai and Cuddezac sections, told the meeting the sentiment in their communities is very favorable to the road improvement program and the plan of increasing the county bond issue to the limit possible under the present law to insure the retirement of the bonds from the auto license money.

Lanpheres Will Leave

Rev. and Mrs. Dale Lanphere and little son will leave soon for Spokane where they will make their home on an orchard tract. They have already moved their household goods to their new home. The many friends of the Lanphere family will regret to see them leave, but their best wishes follow them to their new home.

Collegiate parents can still kiss their children goodnight, says the University Daily Kansan, if they are willing to stay up until morning to do so.

Southwick News

Mrs. Lettenmaier and children spent Sunday with Mrs. George Jones.

Mr. and Mrs. Harold Whiting and Mrs. Vester Whiting were Kendrick visitors, Tuesday.

Mrs. Sackett, Sr. left last Thursday for Mason City, Iowa, having been called there by the illness of her sister.

Mr. and Mrs. Cowger and family spent Sunday at the home of Doc. Betts and family.

A baptizing was held Sunday afternoon at the L. J. Southwick pond. Those that were baptized were Mrs. Homer Hayward, Geo. Douglas and Alden McCoy.

Elton McCoy and John Jennings went to Jim Cook's, Tuesday, for a couple of days to help with the potato digging.

A. P. T. A. meeting was held at the gym building, Friday evening.

The young peoples' class of the U. B. church were the dinner guests at the home of Mr. and Mrs. Presnal, Sunday.

Mr. and Mrs. A. W. McCoy spent Sunday at the home of Mr. and Mrs. Graham.

Attlee Mustoe and wife were the Sunday guests of Mr. and Mrs. Otto Schoeffler.

Joe Thornton and wife were Southwick visitors Saturday.

Wm. Wright went to Lewiston Tuesday afternoon enroute to Potlatch.

The high school surprised Mrs. Albert Wegner last Wednesday evening at the home of Gus Wegner, the occasion being her birthday. A good time was reported.

Willis Berriman, who visited last week with relatives and friends here, left Sunday for his home in Moscow.

Mrs. Hoppe and mother, Mrs. Powell were callers at the home of Mrs. Eva Wright last Saturday afternoon.

Mrs. Vester Whiting had the misfortune of falling and breaking her left wrist last Friday, while playing basket ball with the married ladies at the gym building.

The infant son of Mr. and Mrs. Ray Triplett has been quite ill.

Elton McCoy is moving from the timber where he spent the winter, back to the Ben McCoy ranch south of town.

Mrs. Floyd Russell spent the day Monday with her mother, Mrs. King.

Born to Mr. and Mrs. Darl Wright, Tuesday of this week, twins, a boy and a girl.

Mr. and Mrs. Fairley spent Monday evening at the home of Mr. and Mrs. Vester Whiting.

William Henderson and wife and Mr. Benjamin and wife were Sunday visitors at the Harold Whiting home.

Mr. and Mrs. William Winters spent Monday at the Roy Southwick home.

John Birkemo and wife, who have been visiting at the Roy Southwick home, left Monday morning by way of Walla Walla and Ritzville, for Camas, Wash., to visit Grandma Thornton, who is ill.

Leland News

Miss Georgine Smith has returned home from the hospital at Lewiston where she underwent an operation for appendicitis.

Nellie Gondzward accompanied her father to Moscow over the week end.

Raleigh Smith spent Sunday with home folks. He is attending the university at Moscow.

Ivan Craig was in Lewiston, Sunday.

Vera Craig spent Saturday in Kendrick with Irene Davis.

Claud and Bud Gephart have returned from a fishing trip on the Clearwater. They report that suckers bit well.

Jake Daugherty has recently returned from California.

R. B. Parks and Mr. DeWinter were Lewiston visitors Saturday.

Jesse Hoffman has been confined to his bed for the past two weeks. He is reported to be somewhat better at this time.

Robert Smith and family took dinner with Ed Johnson, Sunday.

J. E. Fleshman and family were in Juliaetta, Sunday.

Mrs. Emil Larson spent Sunday with Mrs. Jones.

Mr. Harmon and Miss Tuttle were entertained at the Robert Smith home Friday evening.

The Flower Committee of the Missionary Society gave an afternoon tea at the home of Mrs. Robert Smith. About fifty ladies were served. A very pleasant afternoon was enjoyed.

The winners in the local school spelling contest, who will represent this school at the district contest to be held in Leland, Friday afternoon are: Eighth grade, Theo Parks and Dwight Hoffman; Seventh grade, Maxine Fleshman and Gerald Schmidt; Sixth grade, Vera Peters and Neva Craig; Fifth grade, Blanche Cole and Wayne Yenni; Fourth grade, Joy Fleshman and Rodney Smith; Third grade, Clema Calvert and Thelma Candler.

The Glee Club held their rehearsal at the home of Mr. and Mrs. Calvert, Tuesday. After the singing a lawn social was enjoyed. Cracker-jacks and orangeade were served.

Cat-Tails Not Popular

Cat-tails have a disagreeable odor that is not easily removed and for that reason they are not satisfactory when used for upholstering and making mattresses. Cat-tails are not used commercially in this country. In England they were used for upholstering prior to the time that kapok was introduced from Java.

Rural Mail Delivery

The standard rural mail delivery service route is 24 miles. For this route the salary is \$1,800 a year. An additional \$30 a month is added for every mile over the 24. An equipment allowance of 4 cents a mile is also given. Routes under the standard number of miles are graded accordingly.

In Vedic Literature

Upanishad is defined as follows: "One of a class of speculative treatises concerned with the nature of man and the universe, forming a part of the Vedic literature." The Sanskrit word means literally "a sitting down (at the feet of another to listen to his words) esoteric doctrines."—Washington Star

The DAIRY

COW FRESHENING IN FALL FAVORED

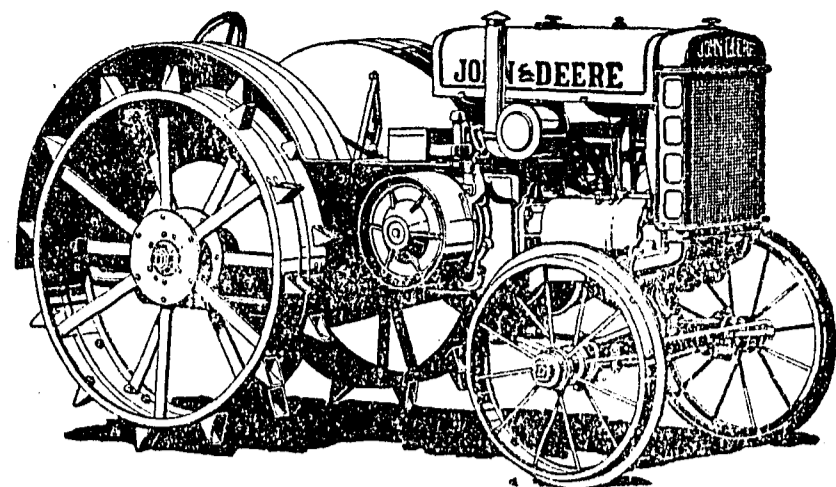

Variation in milk supply and consequent changes in price, usually resulting in lower income for the dairyman, can in large measure be avoided by breeding the cows so that they freshen in the fall instead of in the spring, according to C. L. Blackman, dairy specialist in the extension service of the Ohio State university.

"The cows freshening in the fall produce a more uniform flow of milk for a number of months," says Blackman. "These cows can be kept under more uniform conditions than can spring freshening cows. Adverse changes do not come to them when they are in full flow."

"Most successful dairymen can keep freshening cows up to a high level of production until they are turned out on grass. Then, if pastures are good, production may actually increase for a time. When hot weather, dry pastures, and flies arrive the cows are not in heavy flow and are not seriously affected. Thus they make a greater total production."

"A study of more than 10,000 records from 64 testing associations reveals the fact that spring freshening cows produced an average of only 5,842 pounds of milk a year, while fall freshening cows produced 6,880 pounds, or 18 per cent more milk."

"Milk from spring freshening cows is not the cheapest. These cows are kept during the winter on a low level of production which offsets their low summer costs and eliminates their early advantage."

Does Better Work And Saves Your Fuel

You can hardly believe your eyes when you see the work done by the sturdy, compact John Deere Tractor. It out-performs tractors hundreds of pounds heavier and handles your work faster, better and more economically. You get a surprising surplus of power in the

John Deere Tractor

You will be sure to appreciate the advantage of the John Deere for farm work—its great power that permits the use of both field and belt machines of a profitable size.

You will like its light weight—4,000 pounds—which makes it practical for operation on plowed fields and on land that tends to pack—its extreme simplicity that means less repair expense and fewer and easier adjustments.

You operate it at a saving—with less fuel and oil, it does more work in less time. The fewer, but sturdier, working parts are completely enclosed in a dustproof case and automatically oiled, which means long life.

The remarkable performance of the John Deere and its great economy have led thousands of farmers to see the value of power farming.

Come in and see this better tractor.

Truly, A Sweeping Spectacle!

A Tempestuous love drama played against the sweeping spectacle of the great World War. Romance behind the lines with the fate of armies and a girl's love depending on the sacrifice of her reputation. In a glittering background of uniforms, beautiful women, love, hate, violence and warm romance. One of the screen's greatest emotional masterpieces. A great screen thriller.

Cow's Nervous System

Very Much Complicated

It is surprising that an animal should have a more delicate nervous system than human beings, but that is exactly the case with the cow. Any departure from normal conditions upsets the proper functioning of the cow's milk-making organs. If the cow is abused, if she is uncomfortable, irritated, underfed, wet or chilled, the reaction is noticeable in decreased milk flow.

Clipping about the flanks, udders and underline during the stable months removes irritations caused by clinging dirt and filth. When a cow is clipped there is no clinging place for dirt. The animal is thoroughly cleaned merely by wiping with a damp cloth. The pores of the skin are kept clean and open.

Dirt falling into the milk contains uncountable bacteria which cause the milk to sour, giving it an off flavor. Tests show that 85 per cent of dirt which falls into the milk goes into solution and can never be strained out. Most of the dirt which finds its way into the milk bucket drops from the cow into the bucket; therefore, the best way is to keep it out in the first place. This is easily done by clipping the cow about the udder, flanks, underline and tail and cleaning thoroughly just before milking, by wiping with a damp cloth.

Silage Will Increase

Income of Dairy Farm

At the Pennsylvania State Dairy-men's association meeting at state college recently Prof. R. H. Olmstead gave some interesting results of a survey, showing the value of silage in the dairy ration. The results of this survey showed that Pennsylvania cows getting silage averaged 1,200 pounds more milk and more than 30 pounds more butterfat per year than those who did not. In Lancaster county the farmers who used silos had an average labor income of \$490.50 more than those without them. This, he says, is due to the fact that a cow needs succulent feeds the year around. In order to make the most profits, and that corn silage is the best feed for this purpose.

Various Grain Mixtures

Used in Feeding Calves

Several different grain mixtures can be used successfully in feeding young calves, depending on what you have available and on the price of the different feeds. A mixture of one-third either corn or barley, one-third oats and one-third bran makes a very suitable mixture. Corn and oats can be fed very successfully as shelled corn and whole oats.

If barley is used it should be ground. There is no harm done in grinding the corn and oats—in fact, if one has a grain grinder it is preferable to grind these grains. A mixture of one-half barley and one-half oats could be used to good advantage or a mixture of one-half corn and one-half oats.

Quality of Butter

The quality of the butter is considerably affected by the time of stopping the churning. The churn should be stopped when the granules are about the size of wheat or split peas. If they are too small many of them will go through the strainer into the buttermilk. Overchurned butter will retain a large amount of buttermilk which will be difficult to remove in washing. The buttermilk should be drawn off as soon as the churning is completed.

KEEP WATCH ON SPRING PASTURE

"Caution must be used in turning dairy cows on pasture in spring," advises E. J. Perry, dairy specialist at the New Jersey State College of Agriculture. "In the first place, unless certain precautions are taken, the milk flow may be cut down, and in the second place, the pastures may be injured."

"In changing heavy milking cows from dry winter feeding to pasture or green feed, it is safest to go slowly. The young grass is largely water, with only about 10 per cent dry matter, and it is very difficult for high producers to eat enough to supply the nutrients that will make it possible for them to produce their maximum amount of milk. Therefore, it is best to continue feeding some grain in addition to the pasture."

"Furthermore, a cause of pastures becoming thin and weedy is the turning loose of the cows too early in the spring. Plant growth is always affected by conditions existing above as well as below the ground. A stalk of grass must have a fairly large leaf area in order to grow rapidly. Too close grazing in the fall likewise retards spring pastures by holding back the root growth. After a year or two the sod becomes thin and patchy, and weeds crowd out the grass."

"Every dairyman is glad to turn his cows out in spring because much labor and feed expense connected with winter feeding is eliminated. The cheapest milk is made the first two months on pasture. But unless the grass is permitted to get a good start, it is likely to 'run out' before the end of the second month."

December Held Sacred

No old-time philosopher, no astrologer, no diviner of meanings, no student of the occult has said anything derogatory of the month of December.

Bright Colors

According to the London Opinion, a tailor says that life would be easier for most men if they wore brighter neckties. It would. People would shudder and get out of their way in the streets.

Great Day in History

"The Crisis," a pamphlet written by Thomas Paine, which profoundly affected public opinion in the American colonies early in the American Revolution, was placed on sale in Philadelphia book stores December 19, 1776.

DAIRY FACTS

GOOD COWS NEED SOME VACATION

Give the good dairy cow a rest of six to eight weeks before freshening, for it will mean more production than if she is milked up until she freshens,

declares Burt Oederkirk, extension dairyman at Iowa State college. "Through selection, feeding and breeding, Iowa's most progressive dairymen have developed high producing herds in which there are many cows that will milk continually throughout the year from one freshening to the next without a rest, unless their owners see to it that they receive a vacation," Mr. Oederkirk asserts.

"The profitable cow of the future will be one which produces 300 pounds or more of butterfat in 10 to 10 1/2 months, takes six to eight weeks' rest to build up her body for the next lactation, and drops a good calf each

year. A cow that will continue such a program year in and year out will prove most profitable."

Cows bred so as to freshen in the fall, when properly fed, will milk heavily through the winter and when put on grass will continue satisfactory production until hot weather arrives. They will then naturally go down in production and may be dried up.

If there is difficulty in drying up a cow before she is to freshen, she should be taken off grass and not allowed any other succulent feed for a time. She may be milked only once a day for awhile and other milkings skipped later on.

The feed given good dry cows before freshening will be well paid for when the cow freshens. Hence, feed the dry cow so as to get her in good condition.

Cow's Cheapest Food Is Water, Says a Dairyman

The owner of a cow which produced 10,584 pounds of milk and 542.6 pounds of butterfat last year was asked, "What is the cheapest and best form of food for dairy cows?"

"Pure water," he replied; "only be sure that the water is put in the cow and not in the milk can."

Milk contains approximately 87 per cent water and if the cow does not have access to an unlimited supply of fresh, clean, palatable water, her milk flow is bound to suffer heavily. A high-producing cow will consume from 24 to 30 gallons of water per day. Cow testers have found in numerous cases that the milk production of a herd was increased 7 to 8 per cent when automatic drinking cups were installed in the stalls, offering the cow unlimited supply of water whenever desired. A reliable automatic water supply system has proved to be one of the most valuable items of a farm's equipment.

Alfalfa as Winter Feed Superior to Other Hay

Alfalfa should be provided for winter roughage. It is superior to any other hay because of its high protein and mineral content and also because of its high yielding capacity. One acre of alfalfa, if the land contains the proper amount of lime, will produce as much as two acres of clover and, ton for ton, it is a better feed for cows as well as for other live stock.

Those who do not have alfalfa should consider seeding a suitable acreage next year. In recent years quite a number of farmers have prepared seed beds by thorough disking without plowing. This gives a more compact seed bed than can be prepared in a hurry after first plowing and is becoming a popular method. The disking should be done in at least two directions. Three double diskings will usually put the soil in good condition.

Dairy Squibs

Salt is a profitable addition to the daily ration of the dairy cow.

To aid digestion and to stimulate appetite, keep salt before dairy cows at all times.

Dairymen who tuberculin-test their herds are in line for better profits and have the satisfaction of knowing that disease does not lurk in their herds.

Cow testing increases the average production of the dairy herd, first, by eliminating the low producing cows, and second, by enabling the farmer to select the foundation animals for his herd on the basis of performance.

If you are lacking in suitable roughage, do not put too much faith in straw and coarse corn fodder.

Only the best proved sires can be relied on to increase the production of daughters over that of dams having a yearly production of 400 pounds of butterfat.

Properly cured hay and green food carry factors that are not only beneficial to the proper development of calves, but are also necessary for proper reproduction.

Eighteen per cent of the portland cement used in the United States goes for farm and small town construction.

Another step toward better profits is the reduction of the feed bill for rats, grain weevils, and other such "vermin."

The average annual rate of depreciation to allow on a miscellaneous lot of farm machinery usually is about 10 per cent of its inventory value of the preceding year.

Copper-carbonate dust is not effective, when used alone, against oat smut. A mixture of one part copper-carbonate and two parts mercuric chloride controlled smut in Ohio tests.

Much Experimental Work Made on Dairy Wastes

Much experimental work on dairy wastes has been made by the following institutions: United States public health service, Washington; college of agriculture, Madison, Wis.; Iowa State college, Ames, Iowa; college of agriculture, Ithaca, N. Y.; and each of these have available bulletins and suggestions.

In general, the use of a septic tank will take care nicely of wastes from washing milk bottles, utensils, tanks, floors and so on. The tank should be of fairly good size, but built in the same manner as recommended for household use. In fact, the same tank can be used for both if of good size. The sludge formed has a tendency to get rather solid and it may be necessary to remove some sludge every year or so. Apparently a reasonable use of washing powders does not seriously interfere with the action of the septic tank. Large quantities of skim milk, whey or buttermilk will seriously interfere with the action of the septic tank. Milk wastes will quickly clog up any cesspool, even in gravel soil.

POULTRY GOOD AS A FARM SIDELINE

There are many ways in which a farmer can get started into the poultry business, and now is the time to begin to plan for a spring start, thinks D. H. Hall, extension poultry husbandman, who makes the following suggestions:

If you have a few pure-bred chickens in your flock, you mate these pure breeds and hatch from them. This may seem a little slow for a start, but it pays to start slow in the poultry game. At the end of the year you can have a pure-bred flock by selling all the mongrels off the place.

Another way to get started in the pure bred business is to sell fifteen or twenty mongrels and use this money to buy pure-bred poultry. You may be able to purchase but three hens and a male as a result of your mongrel sale, but it will be one of the best moves you have ever made. After purchasing pure breeds be sure to hatch only eggs from this purchase stock. This way is probably the best as you begin to get a cash return from your pure breeds at once.

You can also get started by purchasing pure-bred eggs. You can finance the purchasing of these eggs by selling a few mongrel hens. Pure-bred eggs from a reliable breeder will cost you more than mongrel eggs, but they will pay for themselves in better poultry.

Another way to get started in the poultry business is by the purchasing of baby chicks. This way is probably better than buying eggs, as you do not

run the chance of obtaining a bad hatch. Baby chicks can be bought from any reliable hatchery about as cheap as you can hatch them yourself.

Poultry House Should Be Thoroughly Cleaned

At some convenient time of the year, give the poultry house and yard an exceptionally thorough cleaning and disinfecting. If a dirt floor is used, dig down six or eight inches, cart the dirt to the field, and replace it with clean gravel. With a cement floor, remove the litter and loose dirt and sweep the house to remove all dirt and cobwebs. A thorough application of two parts of stock dip and three parts of kerosene to each and every corner, crack, and crevice of the floor, roof, walls, nests, dropping boards, and roosts will do more than any one thing to start the year right. An application of air-slaked lime once a week is a worth while precaution in keeping the ground free from contamination. Have clean litter cover the floor six or eight inches deep. A sloping top to the nest will prevent an accumulation of droppings.

Story of Printing

Perhaps the Dutch and not Johannes Guttenberg did invent in Europe the art of printing with movable type. But a thousand years before Guttenberg's time the Chinese had applied the idea. But the real story began when Guttenberg's printing press became a known fact in the year 1450 and, duplicated, multiplied and improved, began its march through the world.

LOOK AHEAD!

Buy a McCormick Deering Tractor NOW for Many Years of Successful Power Farming!

Bird's-eye view of the 3-plow tractor

POWER FARMING with the McCormick-Deering Tractor is more pleasant. The chore requirements of a tractor are less than those of horses and more agreeable. A tractor needs attention, but only a fractional part of that required by horses for the same work.

A tractor operator controls more power, enabling him to do more work in a given length of time than can be done with horses. Field days can be made longer when emergencies arise—the trac-

tor does not tire and chore time is eliminated.

Triple-Power Tractor

The McCormick-Deering Tractor combines all farm power units in one, whether it is drawbar, belt, or power take-off work; thus one power unit does all the work. Come in NOW and investigate McCormick-Deering power farming. You can reduce your overhead and increase profits by becoming a McCormick-Deering Tractor farmer now.

**COMING!
United Doctors**

The Doctor who has charge of the State of Washington is
A SPECIALIST
in Chronic Diseases and Clinical Medicine
Will be at
Davenport Hotel, Spokane
Wednesday, Thursday, Friday
March 28, 29, 30
Cosy Nook Hotel, Palouse,
Saturday, March 31

Office Hours: 9 A. M. to 3 P. M.
No Charge for Consultation
The doctor is a graduate in medicine and surgery, licensed in the State of Washington. He visits professionally the important towns and cities, and offers free consultation to all, except the expense of treatment when desired.

He treats Chronic Diseases on long standing and has to his credit many wonderful results in catarrh, ulcers of the stomach, disease of gall bladder, bowels, blood and skin, nervous disorders and disease of heart, kidney and bladder, bed wetting, rheumatism, sciatica, leg ulcers, varicose veins, rectal ailments and chronic constipation.

If you have been ill for any length of time and do not get better, call on the doctor, as improper measures rather than disease are often the cause of your long standing illness.

Special attention is given to each case, and an earnest effort made to attain the best possible results.

Remember the above date and that the doctor specializes in Chronic Diseases.

THE KENDRICK GAZETTE

Notice of Sale of Real Estate

In the Probate Court of Latah County, State of Idaho.

In the matter of the Estate of Sarah Jacobus, Deceased.

Notice is hereby given, That pursuant to an order of the Probate Court of Latah County, State of Idaho, made on this 9th day of December, 1927, in the matter of the estate of Sarah Jacobus, deceased, the undersigned, the administrator of the said estate will sell at private sale, to the highest bidder for cash, gold coin of the United States, and subject to the confirmation by the said Probate Court of Latah County, State of Idaho; that bids for the hereinafter stated and set forth real estate will be received by William Watts, at Kendrick, in the State of Idaho, on or after the 10th day of April, A. D., 1928; said bids may be made for any one of the parcels or subdivisions of the lands hereinafter set forth and described, or for all of said real estate hereinafter described; all of the right, title, interest and estate of the said Sarah Jacobus; deceased, at the time of her death, and all of the right, title and interest that the said estate has by operation of law, or otherwise acquired, other than or in addition to that of the said Sarah Jacobus, deceased, at the time of her death, in and to all of those certain lots, parcels and pieces of land lying and being in the Counties of Latah and Nez Perce, in the State of Idaho:

North half of the Northeast Quarter of the Southeast Quarter N 1/2 NE 1/4 SE 1/4 of Section Sixteen (16), in Township Thirty-eight (38) North of Range Three (3) West of the Boise Meridian, in Latah County, Idaho.

Northwest Quarter of the Northeast Quarter (NE 1/4 NE 1/4) of Section Sixteen (16) in Township Thirty-eight (38) North of Range Three (3) West of the Boise Meridian.

A one-fifth interest in the Southeast Quarter (SE 1/4) of Section Twenty-five (25) in Township Thirty-eight (38) North of Range Two (2) West of the Boise Meridian.

Commencing at a point ninety (90) feet southeasterly on State Street, from the northeast corner of Block Seven (7), and running Southeasterly on State Street a distance of ninety (90) feet, thence at right angles westerly a distance of one hundred (100) feet thence at right angles northerly a distance of thirty (30) feet, thence at right angles westerly a distance of fifty (50) feet, thence at right angles northerly a distance of sixty (60) feet, thence at right angles easterly a distance of one hundred and fifty (150) feet to the point of beginning all in the Town of Juliaetta, in Latah County, Idaho.

Terms and conditions of sale shall be Gold coin of the United States; ten per cent of the purchased price to be tendered with the said bid, and the balance on the confirmation of such sale by the said Probate Court. Deed at the expense of the purchaser.

A. H. DAUBENBERG,
Administrator of the Estate of Sarah Jacobus, Deceased. 11-2

NOTICE OF SHERIFF'S SALE ON FORECLOSURE OF MORTGAGE

In the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah.

STATE OF IDAHO, Plaintiff,
vs.
Samuel Gruell, Jr., and Ella Gruell, husband and wife, and Anna W. Eaves Carsow and O. C. Carsow and C. D. Adams, doing business under the name and style of Adams Grocery, Defendants.

UNDER AND BY VIRTUE OF AN Order of Sale issued out of and under the Seal of the above entitled Court on a judgment and decree of foreclosure and sale rendered in said Court on the 25th day of February, 1928, and entered and filed in said Court on the 9th day of March, 1928, and docketed with the Clerk of said Court, in favor of the above named plaintiff and against the above named defendants, said order and writ being duly attested on the 9th day of March, 1928, and to the Sheriff of Latah County, Idaho, directed and to me CHARLIE SUMMERFIELD, as such Sheriff, delivered on the 14th day of March, 1928, for execution whereby I am commanded and required to proceed to notice for sale and to sell the property mentioned and described in said judgment and decree in the manner provided by law and to apply the proceeds of such sale to the satisfaction of said judgment and decree with interest and all costs and attorney fees.

The property described to be sold by said judgment and decree and said order is situated in the County of Latah, State of Idaho, and is described as follows, to-wit:

Lot Three (3), Four (4), Five (5), and Six (6) of certain tracts known as the Juliaetta Orchard Tracts near Juliaetta, Idaho, according to the

records in the Auditor's office of Latah County, Idaho.

NOTICE IS HEREBY GIVEN, That on the 16th day of April, 1928, at the hour of 2 o'clock P. M. of that day, at the front door of the County Court House in Moscow, Latah County, Idaho, I will sell all, or so much of the above described property as may be sufficient to satisfy the judgment as set out in said Order and Writ with interest and all expenses and costs, at public auction, to the highest bidder therefor in lawful money.

Dated this 16th day of March, 1928.
CHARLIE SUMMERFIELD,
Sheriff.

Mrs. Sterling returned from

CLETRAC, the World's Champion Tractor
"No Mud too Deep, No Hills too Steep"

**Baldwin Combines, Oliver Plows, Superior Drills
Oliver Discs**

MR. FARMER, LISTEN! Before you buy a tractor consider these many important points which the Cletrac has above all inakes.

1. Greater pounds pull at draw bar.
2. Unusual reserve power.
3. More traction than any other machine of its size.
4. Short turning with load with both tracks pulling on turns.
5. Full power delivery on turns without jerking and clutching.
6. One shot oiling system. Oil your tractor while you go.
7. Easy steering. Drive all day and merely call it joyriding.
8. Accessibility of parts—all gears easy to get at.
9. Low gas and oil consumption.

10. Above all, your life is not in danger because of the machine tipping over on hills. Your life is worth more to you than all the tractors on earth. The Cletrac will not fall over on you. There is no farm land too steep for this machine. And remember, the Cletrac is the only machine that will cultivate beans. Why? Because it has the Cletrac patented steering device and steers thru the planetary gears, which enables the driver to hold the tractor within an inch of the bean row. That is closer than a man can hold a walking cultivator to the beans.

Remember these points which are important. Furthermore, remember this—all tractor dealers can lie, but the tractor itself can't. Therefore, we are willing to demonstrate against any make of tractor, any place, on any hill, prove every word said about what the Cletrac can and will do.

The new machines come with much larger track pins and rollers, wider track rails, heavier splien shafts, heavier and better all the way thru.

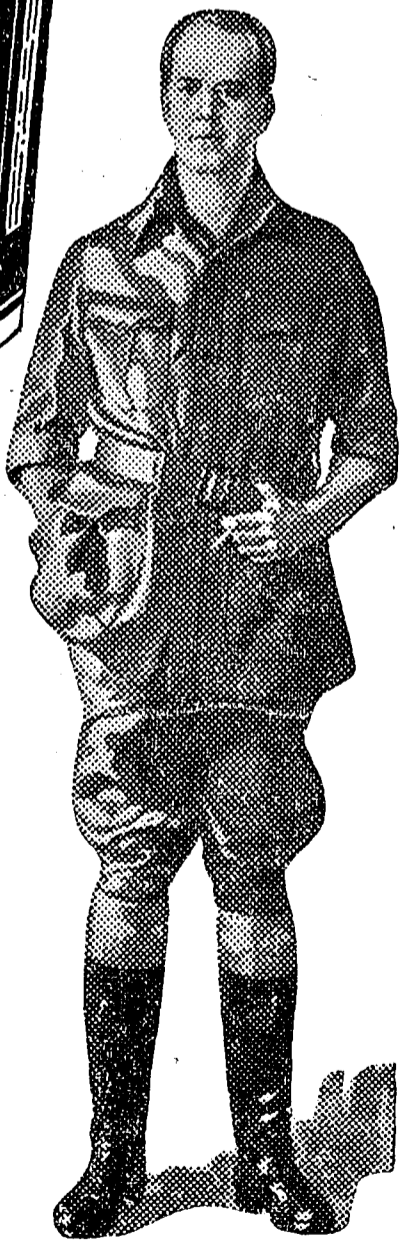

We expect to stock all parts in Kendrick, this fall have a service man right in the territory to take care of emergencies. At present, when in need of repairs, call W. F. Behrens, Juliaetta, Houck, s Garage, Juliaetta, or R. H. Mills, 918 W 1st Avenue, Spokane, Wash.

LOCAL NEWS

Herman Schupfer and Ira Bolton went to Lapwai on baseball business last Monday evening.

Clyde Daugherty purchased a new Reo truck the first of the week, which he will use for hauling freight to Leland. The purchase was made thru the Main Street Garage.

Mr. and Mrs. Frank Boyd, and Mr. and Mrs. J. B. Helpman drove to Lewiston Sunday afternoon to visit relatives.

As a result of the suggestion made by Dr. Morehead at the last meeting of the commercial club, several old buildings are scheduled to be torn down. One has already been taken down, and the town would be greatly benefitted if 20 or 30 more were removed from the landscape.

Mrs. Cushman Davids and three children arrived Wednesday morning from Orofino to visit relatives. From here they will go to Portland to make their home. Mr. Davis has employment there.

Ira Foster received word this week from his son, Frank, to the effect that he was going to join the marines at San Diego. He had already made application.

The grandstand at the ball park is being repaired this week and new wire netting has been put on the front. Two dugouts are also being built for the players. Considerable work will be put on the grounds to get them in good shape.

Mr. and Mrs. E. H. Emery were Lewiston visitors last Wednesday. Mrs. Emery is visiting friends in Clarkston for a short time.

The Rebekah lodge gave a party last Tuesday evening to which the public was invited. Cards and dancing furnished amusement for the evening, followed by refreshments. Everyone reported a fine time.

Frang Boyd was called to Lewiston Wednesday evening on account of the illness of his father.

Born to Mr. and Mrs. Lloyd Cook of Lenore, Tuesday, a son.

John Damnarell is on the high road to success as a poultryman. Several weeks ago he received a shipment of 52 White Leghorn baby chicks. He put them in a home-made brooder and to date he has lost but one and they are now considered pretty well past the "danger period".

William Watts and Claus Eichner were transacting business in Moscow last Wednesday morning.

Wm. Hedges of Moscow was transacting business in Kendrick last Wednesday.

Ernest Clem was a Lewiston visitor Tuesday morning.

Mrs. R. H. Ramey left Sunday for Wenatchee to visit friends.

The first and second place spellers from each grade who will represent the Cameron school at Leland, Friday the 23, are: Seventh grade, Wilma Schultz, first; Edward Rein, Jr., second. Sixth grade, Mildred Wegner first; Erna Wegner, second. Fifth grade, Reva Berriman, first; Glenn Wegner, second. Fourth grade, Wayne Wegner, first; Selma Wegner, second. Third grade, Harry Wegner, first; Margaret Schultz, second. Special mention is given Mildred Wegner who received 100% in both the oral and written contest. Providing the weather is

good on Friday 23, the entire school will attend the contest at Leland in a body.

Irate master to negro servant: "Rastus, I thought I told you to get a domestic turkey. This one has shot in it."

Rastus: "I done got a domestic turkey, sah."

Master: "Well, how did the shot get in it?"

Rastus: "I speeks they was meant foh me, sah."—Ex.

Do You Need Glasses?

Would you be interested in knowing if you need glasses? If so, come in and let us make a thorough and honest examination. We use an ophthalmeter; an instrument of great gyagnostic value, with which to measure the cornea. This preliminary examination is then followed with late scientific instruments in the hands of an experienced Specialist. We are reliable, conscientious and will tell you if you need glasses. If you do, we will furnish you the best at reasonable prices. See Dr. Jones and buy direct. Call at the Commercial Hotel, Kendrick, Tuesday, April 3, for consultation. 12-2
