### Items of Interest From Our Neighboring Town.

Mr. and Mrs. C. W. Jessup returned Friday evening from their honeymoon trip. Quite a crowd of friends went to their home in the evening and gave them a charivari.

Miss Crystal Otteson and Mr. and Mrs. Evertt Custer motored to Spokane, Thursday.

A number of our citizens went to Winchester to celebrate the Fourth. They bring back reports of so much rain that their good time was rather spoiled.

Some of our young people went to Troy for the celebration. Among those who went were Clair McCall and Harold Gruell. Cecil Gruell is suffering with his hip. He went to Spokane, Thursday, to consult Dr. Langworthy.

Wedding bells have been ringing quite merrily in our little village. Mr. Clay Albright of our city and Miss Minnie Blum of Kendrick, were united in marriage last Tuesday evening. May their married life be a long and happy one.

A number of the friends of Mr. and Mrs. Jessup gave them a reception at the Baptist church, Monday night. Your correspondent was not able to attend so cannot give much of a write up, but can safely say that a good time was had, as the Baptist people always do have good times when they get together.

The Juliaetta ball team met defeat at Bovill, Sunday.

The rain has caused the cherries, that were not picked, to burst. Too bad to have to lose them as the crop was so light anyway. Mr. Gregory will be a heavy loser.

Mr. Godfrey Otteson motored to Pomeroy, Thursday, to see the ball game.

Mr. and Mrs. Chas. Noble and family returned Friday of last week from a trip lasting about a month. They went in their car leaving Juliaetta they went to California and toured that state, then came back through Nevada to Twin Falls, and then to the Yellowstone Park. Of course one really has to visit Yellowstone Park for himself to really appreciate it. One can hardly do the park justice with just mere pencil and paper. There is so much of interest on a trip like that, but I think young Charles appreciated the bears most of all. He enjoyed feeding them a great deal. On one occasion he had a loaf of bread and that the bear would be satisfied, if he would just divide it with him but found out that the bear's appetite was not so easily satisfied, so he was compelled to give it the whole loaf. Altho one could name so many things of interest, chief of them were Old Faithful Geyser and Devil's Kitchen. Mrs. Noble visited with one of her sisters whom she had not seen for a number of years.

Mr. Bolick of Clarkston, a young man who is just entering the university, preached at the United Brethren church, Sunday evening.

The regular meeting of the Missionary Circle met at the Baptist church, Thursday afternoon. There will be no meeting in August, but after that the regular meetings will be held the first Thursday in each month.

### To Demonstrate Electric Ranges

Miss Dorothy E. Williams, home economist of the Edison Electric Appliance Co., will be in Kendrick today and tomorrow between the hours of four and six o'clock, to conduct a demonstration of preparing dinners on an electric range. She will be at the office of the Washington Water Power Co. Miss Williams will bake cakes and prepare a dinner, so that those who are learning to cook on an electric range may learn the best methods.

After the demonstration those present will receive slips of paper with numbers thereon and will draw to see who gets the cake and who takes home the dinner. Everybody is cordially invited to attend.

## Kendrick Wins From Troy

Last Sunday the Kendrick ball team went to Troy to play a return game and chalked up a 10 to 3 victory. Troy batters, except for 2 home runs were unable to connect with Flesman's fast ball. The game was well played. The more consistent hitting of the Kendrick team in two innings was responsible for the big score.

## LOCAL NEWS FROM THE LELAND COMMUNITY

### Items of Interest From The Busy Potlatch Center.

George Flesman was a Lewiston visitor one day this week. Mr. and Mrs. Claud Craig are wearing a smile these days. They have a grandson.

L. L. Yenni is improving his home by a coat of paint. It is a good job. Len.

Roy Davis and Mrs. Davis and their daughter, Frances May, came up from Pomeroy to spend the Fourth with Mrs. Davis' parents, Mr. and Mrs. Dennis Porter. Charles Johnson is building a porch and painting his house east of town.

Nearly every one celebrated in some way and some where on the Fourth. Winchester perhaps was the first choice, while a number went to Troy or Cavendish, or picnicking to the woods.

Lloyd Slatter who recently returned from the hospital is slowly regaining his strength.

The piano pupils of Mrs. Gibbs gave a recital in the Methodist church Friday, June 29. The parents and a few friends were guests. Preceding the program a delicious picnic supper, prepared and served by the mothers, was much enjoyed. The program follows: "The Charge of the Uhlairs," Georgine Smith and Robert Smith; Musical Reading, "You're Very Welcome Everyone," Francis Hund; (a) "Red, White and Blue," (b) "Old Kentucky Home," Evelyn Hartinger; "Japanese Wedding March," Jennie Flesman; "The Fairies of the Forest," Eileen Smith; "Dance of the Rosebuds," Irene Davis and Georgine Smith; "Dreaming of Home," Nellie Woodward; (a) "March," (b) "Twilight Dreams," Rodney Smith; "In the Valley of the Roses," Clifford Woodward; "Only a Dream," by Georgine Smith; "The Star Spangled Banner," Lizzie Hoffman; "Taps," Irene Davis; "Day Dreams of Youth," Dwight Hoffman and Allen Hoffman; "Muriel Waltz," Robert Smith.

Father Allen Hoffman  
The Girl Lizzie Hoffman  
The Boy Dwight Hoffman

Mrs. Jesse Hoffman had charge of Part II of the program. The second recital given by the pupils showed a marked improvement over the first one two months ago. Besides the improvement in the music rendered the pupils who are quite young show less embarrassment and better performance. Altogether the class show very creditably the painstaking efforts of their teacher.

Nellie Woodward has been on the sick list this week, but is now some better.

## Federal Aid Available

There is a total of \$663,561 in Federal-Aid funds available for new projects in Idaho, according to J. B. Noble, Manager of the Idaho State Automobile Association, based on figures received from the American Automobile Association, with which the club is affiliated.

Mr. Noble declared that this fund, together with the money being spent on projects under construction and those approved, assures that this valuable assistance to State highway building will continue on the past scale, which has given the nation one of the finest systems of roads in the world.

"One of the last acts of the session of the Seventieth Congress just closed," said Mr. Noble, "was the passage of the bill authorizing appropriations of \$75,000,000 annually for 1930 and 1931, assuring continuation of Federal-Aid. This measure was signed by President Coolidge during the last days of the session and has been promulgated as a law."

He also declared that one of the significant features of the session of the Congress just ended was the definite stand with organized motordom by both Senate and House leaders to repel any attempts to interfere with the road-building program of the nation.

"There were numerous attempts to strike at the Federal-Aid policy through measures for express highways, new surveys and in other ways, but it is considered by motorists as a tribute to Congress that not a single one of these proposals received serious consideration," Mr. Noble continued.

The officials of the Idaho State Automobile Association have been advised by the American Automobile Association that the balance of Federal-Aid funds now available for new projects amounts to \$84,115,118, while there is more than \$125,000,000 represented in projects under construction and more than \$28,000,000 in projects already approved.

## Blum-Albright

On Tuesday evening, July 3rd, at 7:30 o'clock, in Emanuel Lutheran church at Cameron, a very pretty wedding was solemnized, when Miss Anna Marie Blum, youngest daughter of Mr. and Mrs. A. H. Blum, became the bride of Mr. Clay E. Albright. A goodly number of relatives and friends of the bride and groom witnessed the ceremony, which was performed by Rev. E. A. Rein.

The bride was attired in a gown of white silk flat crepe and carried a shower-bouquet of roses, sweet peas and lillies of the valley. Her tulle veil was held in place by a coronet of pearls. She was attended by her two sisters, the Misses Laura and Henrietta, who wore gowns of rose and lavender flat crepe, and carried bouquets of lillies.

Mr. Fred Albright, brother of the groom, acted as best man, with Mr. Wilbert Bruntsiek as the other attendant.

The wedding party entered the church to the strains of Lohengrin's wedding march, played by Miss Elberta Walker of Kendrick, who also played Mendelssohn's recessional.

After the ceremony a reception was held at the home of the bride, where they received the congratulations of their many friends and where a delicious and sumptuous lunch was served.

Mr. and Mrs. Albright are popular young people, not only of Cameron, but also of Kendrick and Juliaetta. Mrs. Albright is a graduate of the Kendrick high school of the class of '26. Mr. Albright is at present associated with Houck's Garage at Juliaetta.

After a short motor trip to the Salmon River country, the young couple will be at home to their many friends at Kendrick.

The Gazette joins with their host of friends in wishing them a long and happy future.

## Lower Postal Rates

Material reductions on all classes of postal rates with the exception of first class mail matter, to conform with federal postal legislation recently passed by congress, went into effect Sunday, says the Star-Mirror.

July 1 reductions which were effective include second-class matter (newsletters, periodicals, etc.) on which the rate is now one cent for each two ounces or fraction thereof, regardless of weight. The former rate was two cents for each two ounces or fraction. Private post cards or mailing cards now go for one cent each, as against one and one-half cents formerly.

Parcel post rates up to and including the third zone are not changed, but in the fourth to the eighth zones the new rate is one cent less for the first pound.

A new rate has been established for special handling of parcel post packages, different weights requiring different fees. Two pound packages require a 10-cent handling stamp, insuring that the package will be handled along the line as first class matter. From two to 10 pounds weight the fee is 15 cents for all weights.

Special delivery for parcels of more than two pounds is 15 cents; two to 10 pounds is 25 cents, and over 10 pounds is 35 cents.

Third class rates including circulars or folding cards, printed or multigraphed is 1 1/2 cents for each two ounces. This is no change from the former rate, but provides that bulk packages of such matter may be mailed containing individually addressed pieces cheaper than formerly.

Registry division changes also are recorded for July 1. Under the new provisions, indemnity insurance is raised to a valuation of \$1000 as against \$100 formerly as a maximum valuation. The rates are not to exceed \$50, 15 cents; \$100, 20 cents; and increasing 10 cents with each \$100, with \$1 charged for indemnity of \$1000.

Starting August 7, air mail rates are reduced. After that date the rates will be 5 cents for the first ounce and 10 cents for each additional ounce. The rate is now 10 cents for the first ounce and 10 cents for each additional ounce.

## Reins Will Leave Cameron

Rev. and Mrs. E. A. Rein and family of Cameron will leave July 17 for Ritzville, Wash., where Rev. Rein will have charge of the Lutheran church. Mr. Rein has served the Cameron church for the past seven years and has met with decided success there. He has built up a splendid church organization and leaves his church in a flourishing condition.

Mr. Rein felt that it was his duty to accept the position at Ritzville as it offers a larger field of work. He and his family will leave many warm friends both in the Cameron and Kendrick communities who will wish them success in their new field.

## Rain Stopped Baseball

The baseball tournament at Winchester was badly broken up on account of rain, July 3 and 4. The game between Clarkston and Orofino was played the morning of the 3rd and won by Orofino. The other contests were called on account of rain. The games were well covered by rain insurance.

## Family Reunion

There was a family reunion at the home of Mrs. Mary Deobald on American ridge last Sunday. Those present enjoyed a very pleasant day and also a wonderful dinner. The following relatives took part in the festivities: Mr. and Mrs. Albert Deobald and son, Harvey and Mrs. Mary Brady, all of Tonic, Ill. Miss Carrie Deobald of Denver, Colorado; Mr. and Mrs. Roy Thompson of Graingmont; Mr. and Mrs. Elmer Bechtel of Moscow; Mr. and Mrs. Otto Schupfer, Mr. and Mrs. W. B. Deobald, Mr. and Mrs. E. A. Deobald and their families and Mrs. Mary Deobald.

## Will Picnic at Cameron

The Lutheran church at Cameron will hold picnic at the Herman Meyer grove next Sunday, starting at 12 o'clock. All members and friends are invited to come to the Sunday school program at 9:30 a. m. and spend the day in the community. Ladies are asked to prepare basket lunch for the picnic.

## "NO GRADE" USED FOR CULL POTATOES

### Caused Some Misunderstanding on the Market

It will be recalled that in April of this year a public hearing of the entire potato industry of the State was held at Pocatello for the purpose of recommending the adoption of rules governing the marketing of Idaho potatoes.

At this meeting the industry decided to restrict all shipments to the standard grades, to prohibit the use of the so-called "Commercial" and to require the proper branding of all potatoes.

In writing the resultant regulations it was necessary to provide a grade name and brand for potatoes which fall below No. 2. With the idea the term "CULLS" might constitute an unnecessary handicap upon a grade of potatoes that might be sold under high priced market conditions, the term "No Grade" was adopted and was specifically defined as the name of that certain grade of potatoes, which fails to meet the requirements of any of the higher grades, heretofore always called "CULLS".

We are surprised to learn now that this is being interpreted by many to mean that "No Grade" means not graded, and that under it a mixed grade of potatoes or the so-called "Commercial" may be shipped.

In order that there may be no misunderstanding either as to the meaning of the regulations, or as to the attitude of the Department, we are taking this means of giving timely notice that such a practice would be wholly contrary to the regulation and cannot possibly be permitted under it. We are advised by the office of the Attorney General that this interpretation and ruling is correct.

In order, however, to guard against the possibility of any further misunderstanding and for the sole purpose of more clearly defining the terms used, we are making the following amendment:

Notice is Hereby Given, that after investigation and public hearing the Department of Agriculture hereby amends its standards for open and closed receptacles for white potatoes; standards or grades and other classification of white potatoes and its rules and regulations governing the marks, brands and labels required upon receptacles for white potatoes, promulgated, prescribed and established by said Department of Agriculture on the 10th day of April, 1928, in the following particulars, to-wit:

Wherever in said regulations, the term "No Grade Potatoes" is used, said term is hereby amended to read "Cull Potatoes", and the use of the term "No Grade Potatoes" is hereby abolished.

Dated at Boise, Idaho, this 2nd day of July, 1928.

Department of Agriculture,  
By John S. Welch, Commissioner of Agriculture.

## Spokane Man Gets Contract

The contract for building the state highway between the end of the surfaced road east of Troy and the Deary highway district has been awarded to Carl Nyberg, of Spokane. It is stated that the engineers have this stretch of highway all ready for the contractors and it is likely that material and equipment will be assembled in the very near future. The work, when finished will complete the road between Deary and Moscow, and leave but about five miles east of Deary to be done on the Moscow-Bovill state highway. — Troy News.

## Appointed U. S. Senator

John Thomas, Idaho national committeeman, was named United States senator Saturday, June 30, by Governor H. C. Baldrige to fill the vacancy created by the death, June 24, of Frank R. Gooding.

Mr. Thomas' appointment is effective immediately and he will hold office until his successor is duly elected and qualified. State political conventions in August will nominate candidates for the office and a United States senator will be elected in November. The elected senator will represent the state in the December congress.

## Huckleberries

Parties who went to the woods in the Bovill vicinity last Sunday, report huckleberries in abundance. At that time they were just beginning to ripen and the bushes were loaded with green berries. In another week the crop ought to be in full bearing.

"The Home of Good Things to Eat and Wear"

# Refrigeration Is a Boon To True Healthful Diet

## Will Sometimes Improve Your Appearance

By Louise Leslie,  
Home Economist, Electric Refrigeration Bureau

Ever on the alert for anything which may prove helpful to our readers, we received with joy the news that Mrs. Paul Harris, neighbor of ours, had developed, alone and unaided, a new system of diet.

Unlike, most diets, hers was one calculated to put on flesh, for Mrs. Harris had always been distressingly thin—bony, you know. We heard that her system was working like a charm, being both pleasant to follow and productive of results. So we lost no time getting around to see her.

The moment she greeted us we knew the rumors were founded on facts, for she looked ever so much better, and could hardly wait to talk about her wonderful discovery.

### Never Had Any Luck Before.

"You know how hard I've tried to put on a few ounces," she began, "but somehow, no matter what I did, the bones persisted in showing through and making my neck look scrawny, to say the least. But I guess that I really never gave myself a chance, because I always seemed to have so much to do, and had to hurry about so much, that I never had the time to prepare the foods or get the rest which I knew would have the desired effect."

"Then, about four months ago, we decided to buy an electric refrigerator, and I got all the pointers I could

about more efficient marketing methods and cooking in advance and so on. Almost at once I noticed that I had more time to myself than ever before, for instead of having to spend time every day at the market, I began marketing once a week. Instead of dashing around at the last minute getting dinner ready, I prepared everything in the morning, and slip the dishes into the oven, and can spend the time before my husband comes relaxing and resting. I began to feel better the minute I started working on this new schedule—better than I have felt in years.

### Frozen Desserts Do Their Bit.

"Then I hethought myself of trying to help along the good work by eating plenty of nourishing frozen desserts. I made them out of good, rich materials, eggs, heavy cream, and so on. They are wonderfully easy to prepare when all you have to do is pour them into the refrigerator's freezing trays—and they are so delicious that I can eat and eat and eat them.

"I make my own mayonnaise, too—out of rich olive oil, and eat plenty of it on my salads. And I make a quart of cream sauce at a time, and store it in my refrigerator. It keeps perfectly, and consequently, having it always on hand, I use it more frequently than when I had to make it up specially each time.

"Oh, there are countless ways in which my refrigerator helps me to eat the things I need, and this feature, combined with the work it is saving me, is enabling that electric refrigerator to make a changed woman out of me."

We had never before thought of an electric refrigerator as a combined rest cure, time saver and diet regulator, but it appears that it is willing and capable of being all three if given the chance. Just another proof that you can't tell what anything's capacities are until you try it out.

### Have Old Time Rifles

Speaking of rifles, Herman's Hardware has a young cannon on display. It is a Sharps, 44 caliber, double trigger affair which weighs only 14 pound. There is no date on it but according to Mr. Herman, it is of about 1860 vintage. Another interesting gun is a Spencer, Model 1865, carbine type, 56 caliber rifle weighing eight pounds. Although the two guns were made nearly the same time, there is a great difference in construction, the one having a barrel wall of about three-eighths of an inch thick, while the Spencer model has a barrel wall of not more than an eighth of an inch.

July 2, 1928

TO THE DEPOSITORS OF THE BANKS OF KENDRICK AND BANK OF JULIAETTA:

Members of the Clearwater Group of the Idaho Bankers' Association, after having made a careful analysis of the cost of carrying small checking accounts, realize that for a long time small balances are being carried by the banks at a loss to themselves.

The cost incurred covers, checks, envelopes, stamps, stationery, labor, equipment and many other items that enter into the handling and caring for accounts of very small balances, affording no opportunity for the banks to make any profit from the use of the money in these accounts. The Association therefore has recommended to its members that they institute a small service charge on small checking accounts, overdrafts, returned checks, bank drafts and acknowledgements.

In conformity with the action of the Lewiston banks and other banks of the country, the Officers and Directors of the Kendrick Banks and the Bank of Juliaetta, will inaugurate a policy of charging a very nominal charge on accounts which during the month, do not carry or maintain an average balance of \$50.00. A schedule of such charges and a short explanation thereof is attached to this letter for your information.

The schedule of charges will not become effective during the month of July, averages being figured from July 25th to August 25th, 1928 and each following month. This will afford ample time for all to acquaint themselves with the charges and give all an opportunity of thoroly understanding it. The charge is not being made for a profit, intended merely to partially cover the costs of rendering service to small depositors. The service charge on checking accounts will not apply to accounts averaging over \$50.00 balances, nor to Savings Accounts, Certificates of Deposit, Religious or Fraternal organizations.

No business, regardless of its financial strength can afford to provide its goods or service at a loss, nor would you wish them to do so. Hence a larger balance or else this small service charge seems only fair. It is the aim of the banks to give their customers the best possible service, being loyal to their customers and the community. We know from experience that our friends and customers are interested in the banks and wish them to prosper, knowing the prosperity of one helps the prosperity of all.

Any of our Officers will be glad to discuss this policy with you and explain more fully the reasons for its inauguration. We want to thank you for your past loyal support and patronage and will attempt to merit your continued future support to a greater degree even than in the past.

The Kendrick State Bank, Kendrick, Idaho Very truly yours,

The Farmers Bank, Kendrick, Idaho

**THREE EXPEDITIONS  
LEAVE FOR AFRICA**

**Boy Scouts Accompany Camera Safari to Jungles.**

New York.—Three expeditions to Interior Africa left for Europe recently. Two of them will make camera safaris, the other will collect live and dead specimens of animals.

Aboard the Ile de France were Mr. and Mrs. Martin Johnson and the three Boy Scouts selected from thousands who participated in a nationwide elimination contest. They are to make a six weeks' camera safari through the big game country of Africa this summer. The three boys, all Eagle Scouts, are Robert Douglas, Jr. of Greensboro, N. C.; David R. Martin, Jr. of Austin, Minn., and Douglas L. Oliver, of Atlanta, Ga.

After a few days in Paris the Scouts are to sail June 21 from Marseilles for Mombasa, Africa, where they will meet the Johnsons, who are to precede them there to complete plans for the trip. They are scheduled to return to the United States in September.

Two expeditions, the "Arctic-equatorial" party of Carveth Wells and that of the Milwaukee Museum of Natural History, headed by Dr. S. A. Barrett, were aboard the Olympic.

Wells, who represents the Chicago Geographic society, is going to the Mountains of the Moon, on the equator near Victoria, Nyanza, central Africa, on a meteorological and geographical exploration trip and to take pictures of the tsetse fly.

The area at that base of that snow and glacier capped mountain range, which required the inclusion of Arctic equipment, is infested with tsetse flies, the bite of which causes the dread sleeping sickness. He is to take both motion and still pictures of the flies to aid scientific studies of their habits.

The Milwaukee museum expedition hopes to obtain live and dead specimens of big game animals for the museum. They will operate in the country near the Mountains of the Moon and are to be joined by Mr. Wells when he has achieved the objects of his exploration trip. Wells expects to be in the mountains alone with his native safari for six months.

**FRIENDS AID FORTUNE  
WINNER BEAT SHARKS**

**Form Lucky Man Into Limited Liability Company.**

London.—Tales of those who lose at gambling are seldom heard unless they take to crime or commit suicide as a result of their losses. Big winners at gambling flash across the newspaper horizon for a day or two and are soon forgotten, but the newspaper reader often wonders what the big winners do with their easily-gained fortunes. Do they blow them in quickly in riotous living, or do they save and usefully invest the money?

Now that the season is at hand when every true born Briton has a ticket in some sweepstake the London Daily Mail has looked up some of the men and women who struck it luckily in recent years. The investigation has revealed that so far as can be found, the past winners have not become wild spendthrifts by their good luck, but have thoughtfully used their money where it would do the most good.

**Keeps Off Sharks.**  
William Kilpatrick, the Capetown dental mechanic, formerly of Leeds, who won \$300,000 in the Calcutta sweep last year, has just returned to Milnthorpe, Westmoreland, where his mother and sweetheart live. He is to be married in July. He visited Milnthorpe soon after his success, but returned to Capetown in the autumn.

Immediately it was known that he was the winner last year friends in Capetown formed him into a limited liability company, so that his good nature could not be worked upon by sharks or anybody else. He settled on his mother and sisters at Milnthorpe a sum sufficient to bring them in a comfortable income. He also bought them a house and a motor car.

He established and endowed a soup kitchen to Capetown, where he intends to make his home.

James Strang of Pollok street, Glasgow, who won \$36,000 with a \$25 treble at last year's Derby, told a reporter that he had invested the money

very profitably. He has continued in his occupation as a traveler for a firm of wholesale drapers in Glasgow.

**Part Owner of Ticket.**  
Mrs. Ford, part owner of a ticket which won a little over \$150,000 in the Derby sweepstake organized at Otley in 1923, still lives in her modest home in Pembroke street, Skipton, Yorkshire. Mrs. Ford had a quarter-share of a \$2,500 ticket, half a share was owned by her mother, Mrs. Hodgson, who has since died, and the other quarter was in the name of a Mrs. Griffin, who was engaged as a cook in a Skipton coffee house. Mrs. Hodgson distributed most of her \$75,000 among seven relatives.

**Castor Oil Bean Drives  
Insects From Its Vicinity**

Austin, Texas.—All kinds of insects have such a dislike for castor oil bean plants that they will not come near them, and this fact has caused experiments to be made of planting the beans in cotton fields as a means of keeping the boll weevil and other pests away.

It is stated that by planting a row of castor oil beans to every four or five rows of cotton, protection against insect invasion may be obtained. The castor oil beans themselves are a profitable crop, although it is admitted that should they be grown with cotton upon all the farms of the South there probably would result an over-production of the beans.

Clumps of castor oil bean plants are grown around the homes of many families to ward off flies and mosquitoes, and it is regarded as strange that the idea that this plan might be adopted for keeping insect pests out of cotton fields was so long delayed in being put into practice.

**IDA, ONLY 107, HAS 125  
OFFERS OF MARRIAGE**

**Proposal Record Added to  
Longevity Distinction.**

New York.—To the distinction of longevity, Mrs. Ida Goldberg, who, at one hundred seven is the oldest inmate of the United Home for Aged Hebrews, New Rochelle, has added a marriage proposal record younger beauties may well envy. In the last year 125 matrimonial offers have come to her by mail.

Publicity is the secret of the charm she appears to have for swains of all ages, scattered from New York to Texas. Mrs. Goldberg, a widow, boasts of five grandchildren, three great-grandchildren, and two great-great-grandchildren. At a celebration of her one hundred sixth birthday, which was chronicled in the press, she

remarked that she wanted a suitable young man for a husband.

Many From Philly.  
This wish was conveyed through the country by publication in scores of newspapers. Approximately half of the resulting proposals have come from gentlemen residing in Philadelphia, which is probably a coincidence, although some observers believe it offers material for sociological, not to say psychiatric, study.

Unfortunately, no one has come forward whom Mrs. Goldberg is willing to accept. Her suitors failed to notice that she spoke specifically of a "suitable" young man.

"My ideal man," she explained, "must be a millionaire and should be about forty-five years old. Anyone younger than that is not likely to have a great deal of wisdom."

Mrs. Goldberg has been unable to walk since she fractured a hip, several years ago. Following are extracts from some of the letters she has received:

1. A Philadelphia schoolboy, sixteen

years old.—In writing this letter, my hand is guided by Cupid. My heart is beating an everlasting love for your companionship.

2. Canton, Ohio, twenty-one years old.—I am married to a young girl who said she was going to shoot me. If you could make some arrangements to go to Nevada with me for three months, I could get a divorce there.

3. Philadelphia, aged fifty-five.—Addresses her as, "My dear sweetheart," and writes, "My dear little girl, won't you consider my hand and make me your loyal and true mate?"

From a Truck Driver.

4. Philadelphia, thirty-two years old, breaks the ice by starting, "Dear Ida," and continues, "I have been thinking of marriage, and I think you would be a wonderful wife for me. I have a fair job as truck driver and can give you a good home."

5. St. Louis, Mo.—I am an elevator man; that is, I am an elevator starter. I have initiative and ambition.

6. New York city, forty-six, signs himself: "With the highest respect, my dear Madame Ida Goldberg, I remain your obedient, loving bridegroom." He inclosed in his letter a dried four-leaf clover.

7. Philadelphia ("seventeen and one-half years of age").—Saw your picture in the paper and thought you would make a suitable wife and companion. I would like to marry an old lady because she has more sense than these flappers.

8. Atlantic City, thirty.—A woman of your type is what I am looking for. These young girls of today lack modesty. I want one who will have sensible ideas.

9. Philadelphia, twenty-one, signs himself "Your Wonderful Admirer, Don Juan," and recommends himself as follows: "I am a young man and would make a model husband for you. I can do the charleston and black bottom."

10. Washington, D. C., "almost twenty," describes himself as follows.—I am not so ugly. I can sing and dance a little and have a wonderful personality.

11. Nineteen, who resides at a Y. M. C. A. in Baltimore, warns her: "If you want me for a hubby, do not hold this letter in suspense like a flapper, because I am a Charles street cowboy and I mean what I speak."

12. Brooklyn, thirty-six, describes himself as strong and healthy, a professional dancer, and ends up by asking for an immediate loan, as he is broke.

13. Chicago, forty-five, sends his proposal with the following explanation.—I have an idea you would make me a good wife and mother, for you have been through the mill.

**Weak-Minded Children  
Aided by School Sports**

Stockholm.—Training mentally deficient children in sports and athletics tends to brighten their minds and give them a more wholesome and normal outlook on life. It has been announced at the institution for weak-minded boys at Salbohed, Sweden.

By encouraging the boys to play football and to compete in running and jumping, the head instructor said he found a practical and efficient remedy. Whereas the boys had been clumsy, slow and careless in the beginning, they gradually became alert, nimble-footed and appreciably keener.

**Two Reasons**

Weehawken, N. J.—A case against Babe Ruth for speeding has been quashed. Chief Doland explains why: "Babe Ruth is the greatest baseball player in the world, and he's a friend of mine."

**Chrysanthemums**

The United States Department of Agriculture says that by selecting proper strains it is possible to grow chrysanthemums in almost all of the states except the extreme North and hot wind-swept section of the great plains.

**Eat 75 Square Foot  
Strawberry Shortcake**

Kalama, Wash.—Seventy-five square feet of strawberry shortcake, said to be the world's largest strawberry shortcake, was eaten by more than four hundred fifty citizens of the lower Columbia river district at the banquet here for the quarterly meeting of Lower Columbia Associated Chambers of Commerce.

The shortcake, heaped high with Cloverdale strawberries and covered with twelve gallons of cream, proved a tasty finale to the banquet and more than merited the publicity it has received. The cake was fifteen feet long and five feet wide. It was baked by Otto Engelman, proprietor of a local bakery, and was assembled by Mr. Engelman, Mayor Lyle Fleish of Kalama and O. H. Springer, Kalama.

Gov. Roland Hartley was a speaker at the banquet.

**Never Read a Book;  
Buys Publishing Firm**

London.—A man who says he has never read a book has become owner of the well-known firm of Methuen & Co., negotiations for the sale of which have been going on here for several months.

He is George Roberts, a retired London business man, formerly director and manager of a famous firm of cracker makers, and the price he paid is stated to be in the neighborhood of £300,000.

"I have bought the shares of Methuen & Co. first as an investment and secondly a matter of private interest. . . . I have never read a book. I have no time," he said to an interviewer.

**Smiles Won't Help**

New York.—No rich young girl shall smile at Magistrate Dryer in his traffic court and walk out with a suspended sentence. He so announced in fining Miss Virginia Vanderlip, nineteen, \$25 for speeding in her red roadster.

**Save Air Camera Men  
Forced Down in Arctic**

Fairbanks, Alaska.—Hardships suffered by members of the Fox film aerial expedition, when forced down by fog in snowbound northern Alaska more than three weeks ago, were revealed in messages telling of their trip to Point Barrow.

The story of how three of the expedition's members walked nearly 100 miles in the snow and bitter cold was relayed from Kotzebue by Matt Nieminen and Richard Heyser, relief plane flyers, who returned just as a second relief plane was about to leave in search for the five film men and two relief aviators.

After braving the arctic blasts for three weeks, R. S. Merrill, pilot; Charles G. Clarke, director; and Jack Robertson, camera man, are recovering in a makeshift hospital at Point Barrow from the exposure suffered on their long hike.

**No Quitting  
Time**

There is no quitting time with your Electric Service. No "eight hour days" are observed regarding the continuity of electricity to your home. To be a true service it must be continuous and uninterrupted.

When industry works on three shifts—when a light is wanted in the sick-room in the still of the night—when electric appliances cut on and off automatically at all hours—those are typical claims made upon your Electric Service company for light and power with a maximum of dependability.

The continuity of service, in the face of high winds or floods, lightning, severe winter weather or other trying conditions, has been close to 100 per cent in the Inland Empire.

### WYOMING WILL HONOR MEMORY OF BRIDGER

Fort Named for Frontiersman to Be Shrine.

Vernal, Utah.—One more of the old frontier posts of the American West is to be preserved as a shrine to keep alive the memory of the man who founded it and whose name is written in the annals of the West as one of its true trail blazers—James Bridger, the first white man to gaze on the waters of Great Salt lake, in northern Utah.

Fort Bridger, in Uinta county, Wyoming, 115 miles northeast of Salt Lake City, Utah, is to be preserved for the people of Wyoming as a shrine through the efforts of residents of Uinta, Lincoln and Sweetwater counties in the southwestern part of the state. It is planned to obtain funds by popular subscription to defray the cost of purchasing the site and the few structures remaining on it, then to present the property to the state of Wyoming for maintenance as the Fort Bridger Historical park. A museum for the preservation of historical relics of southwestern Wyoming and data pertaining to its annals is to be erected and the state is to appoint and maintain a custodian.

Established as Trading Post. Fort Bridger was established as a trading post by James Bridger, who in the winter of 1824-'25 discovered Great Salt lake as the outcome of a wager concerning the course of the Bear river.

The ghosts of the old trading post, if such there are, could tell of the traders of more than a century ago; of Indians and trappers; of pony express riders, and of Ben Holliday's stage drivers; of Brigham Young and his party of Mormons in 1847; of gold seekers hastening to California discoveries in 1849; of the coming of Gen. Albert Sidney Johnston's army in the winter of 1857-'58, en route to Salt Lake City; of the troops stationed at the old fort in later years, and they could tell of the neglect of the old fort since the days when the government abandoned it as a military post. Ghosts seldom talk, but the annals of the West have preserved the history of Fort Bridger.

The trading post was the home for many years of hunters and trappers, their sole refuge in a desolate region. Until Utah was ceded to the United States after the war with Mexico, Fort Bridger was in Mexican territory. Until the present borders of Utah were established in 1861, Fort Bridger was in the territory of Utah.

Many vicissitudes were the lot of the inhabitants of the trading post; hot summers and severely cold winters beset them, and at times, starvation threatened when deep snows and severe temperatures in the winter months prevented journeys to replenish the larder. Bancroft's history of Utah records that the winter of 1848-'49 was one of the coldest ever experienced in that region and that the supply of corn was so low that the following order was issued: "That no corn shall be made into whisky, and that if any man is caught preparing to distill corn into whisky or alcohol the corn shall be taken and given to the poor."

In 1853 Fort Bridger, together with its Mexican grant of thirty square miles, was purchased by the Mormons for \$8,000, and in the following year an equal sum was expended for improvements.

Destroyed by Young. In the late autumn of 1857 Gen. Albert Sidney Johnston and his army, en route to Utah to what is sometimes referred to as the "Utah war," arrived at Fort Bridger, or, rather, what was left of it. Brigham Young had threatened to destroy the place if General Johnston persisted in marching on it—and the threat was carried out. The grain and other stores were either carried off or destroyed and of the buildings only two enclosures, walled in by cobble rocks, remained. In later years other structures were erected.

While still in Utah Fort Bridger at one time rose to the distinction of being designated seat of Green River county's government. During the occupancy of Fort Bridger by cavalry of the regular army it was the headquarters of the military forces of the government for southwestern Wyoming, northeastern Utah and northwestern Colorado.

Fort Bridger will now be saved from completely losing its identity as one of the historic spots of the West. There is no doubt that the state of Wyoming will maintain it as a state park and that the museum in time will become the mecca for scientists engaged in research of historical data of the region.

Starvation Is Found to Be Best Rat Poison. Paris.—Starvation was adopted as the best rat exterminator at an anti-

Fat congress which has just met here. The congress will continue its research in Le Havre, one of the worst sufferers from rats in France.

### Ash Carts Blazon Glories of Potsdam

Potsdam, Germany.—Citizens of the former Kaiser's old residence rubbed their eyes in astonishment the other day when a number of brand new municipal vehicles appeared on the streets with "Residential City of Potsdam" painted on them. Everybody is asking whether it is by accident or design that old memories of imperial splendor should be revived, and why the new municipal ash carts should be selected to blazon them forth.

### SEEKS ANNULMENT OF OLD DIVORCE

Woman Acts 44 Years After Decree Was Granted.

Lincoln, Neb.—The annulment of a divorce 18 years after her husband's death and 44 years after the decree was granted is sought by Mrs. Nancy E. Dermitt of South Stouss City, Neb.

Mrs. Dermitt, who is seventy-two years old, was not aware until after the death of her husband, a Civil war veteran, that she had been divorced from him. In 1884, the couple had trouble and separated and Mrs. Dermitt began suit for divorce. Before the decree was granted, however, there was a reconciliation, and they began living together again, two more children being born.

Mrs. Dermitt did not notify her attorney to cease efforts to obtain the divorce, she says, and he went ahead and got it. It is now held that the divorce was illegal without her appearance or testimony, but attorneys cannot find any way to prove that she and her witnesses were not present.

The judge who granted the divorce and the clerk of the court are now dead. Mrs. Dermitt cannot go into court to have the divorce annulled, as her husband would have to be named defendant in that case. A suit cannot be brought directly against the district court.

When Dermitt died in 1910, Mrs.

Dermitt applied to the pension department and it was then that the divorce was revealed. The couple lived in Iowa for years and that state recognizes a common law marriage, which their union was after the divorce. The pension department does not recognize common law marriages.

Several bills have been introduced in congress to permit her name to be placed on the roll of widows entitled to a pension, but none of them has passed.

An appeal from the pension board's decision to the United States Supreme court is being considered.

If Mrs. Dermitt succeeds, she will be entitled to \$4,500 back pension and \$30 a month.

### Montana Tree Disease Destroys Scotch Firs

A deadly tree disease, known as rhabdochloa, introduced into Britain a few years ago with a consignment of Douglas firs from Montana, is sweeping across Scotland and the south of England. Experts are baffled, and consider that, wuffed by the wind, this disease will eventually wipe out the majority of this type of fir throughout the British Isles.

The disease first attacks the leaves. Fungus spore gathers, usually on the under surface of the leaf. The leaves die, and within three or four years the tree is entirely denuded of leaves and dies also.

There are three members of the Douglas fir family, the Oregon, the blue, which is popular in the south of England for its beauty, and the inter-

mediate. A curious feature of this epidemic is that so far it has hardly touched the Oregon, while its virulence among the other two species grows fiercer.

### European Air Courses to Be Marked at Night

Le Bourget, France.—Night flyers soon will have good signal lights by which to steer their course on four air highways.

The way from Paris to London, Brussels, Marseilles and Perpignan will be marked with orange-colored neon electric lights which will flash continually the Morse code for the letters that will identify them.

There is but little flying in the dark as yet, but in every way French aviation is trying to prepare for the imminent development of night travel. One branch of this work is the training of pilots to steer by instruments alone. The men are taught by handling planes, in which they are enclosed in a dark cabinet, while another pilot who can see the ground prevents accidents by correcting errors through double control.

### Escapes With Five Kisses, Jailed for Taking Sixth

New York.—If Michael Gallagher had not been homesick for the Greenpoint section of Brooklyn, it might never have happened, he explained in police court. He was homesick and so he visited the section.

It was as wonderful as ever—and so were the Greenpoint girls. He kissed five he passed on the street. All

seemed to get the idea that he meant well and to believe a watched kiss never boils, anyway, so they shooed him on his way forgivingly.

Then he met Miss Mae Hiryak, a stenographer who screamed and fought, and three Greenpoint young men who happened to be passing leaped upon Gallagher.

"Your honor," Gallagher said the next morning. "I believe Greenpoint has the prettiest girls in the world. I just couldn't help it."

"But Greenpoint can't stand for this. Five dollars and three days in jail," replied the court.

## "FLEA MARKET" OF PARIS IS DOOMED

Famous Institution Receives Its Death Blow.

Paris.—The French capital's world famous "flea market," venerable hunting ground for collectors of antiques, curios, Paisley shawls, possible Rembrandts, and low-priced and unclassified objects of every possible description, has finally received its death blow after seven centuries of business. Disapproved by the city officials and ignominiously shifted about from one to another of the city's outposts, the ancient mart succeeded in fighting every move to end its days until the passage of the new Sunday closing law, which automatically deprives it of its principal source of income.

For years American visitors and other foreigners have visited the Marche-aux-Puces every Sabbath to prowl among the curious displays of rusty nails, stovepipes, oily rags, and assorted junk for overlooked treasures until the wily merchants have become clever enough to conceal imitation antiques among worthless trinkets in the hope that ambitious amateurs would "discover" them and pay several times their value. In this manner the fair gradually lost its prestige until it reached a precarious state. With the weekly arrest of dozens of its merchants and the Sunday closing edict its doom is now sealed and its merchants are seeking other means of making a living.

## Her Portrait Too Fat, Offers It for Sale

New York.—Picture gazers were grouped in front of the Milch galleries, confused between pleasure and surprise by a portrait in the window, of a woman of the patrician type, painted in the style and finish of the Florentine master of the Fifteenth century.

The portrait was that of Mrs. Florence Brooks-Aten, who engaged George De Forest Brush to paint it. His retainer was \$10,000 plus \$500 for a special frame.

When the work was done, Mrs. Brooks-Aten said the artist had given her too much weight. On her refusal to accept it he painted another portrait that equally displeased her. Then he sued for \$7,000 and won a judgment for \$4,000. The gallery understands she thus parted with \$14,500 for a picture she would not keep and she ordered the sale to get back what she could.

## Beauty Handicap to Women Seeking Work

London.—If a Ziegfeld Follies girl and a "blue stocking" both went after the same job, the Follies girl's good looks would lose it for her.

That was the general opinion voiced at a recent conference on new careers for women, held by the National Union of Women Voters. The meeting was debating whether good looks are a drawback to a girl taking up certain professions.

"We put forward a woman for a drawing office appointment," said Miss Hasset, organizer of the Women's Engineering society and Women's Electrical association, "and her qualifications were excellent, but the director said quite frankly that she was too good looking for the job, and would probably upset the men in their work." Another director, expressing the technical qualifications required of a girl, added, "and she must not jump if the foreman says 'Damn!'"

### Woman Sleuth Traps

#### Pair With \$5,000 Loot

Pittsburgh.—Betty Moran, alias "Deafie," alleged shoplifter with a record in many cities, and one of her pals were victims of strategy by city detectives. Detective Robert Best and William Cryster arrested Betty and her partner, Dorothy Hurd, and recovered goods valued at over \$5,000. When the Hurd woman displayed her merchandise to a woman detective who had been "planted" in the place both women were placed under arrest. They were released on bail of \$5,000 each after hearings in Morals court.

"Jack" Moran, who drove the car and was also arrested, was exonerated by the Moran woman at the hearing and was discharged.

### Mummies Now Safe

Cairo.—Royal mummies are safe from idle curiosity now. They are to be kept in a special room of a museum accessible only to notables and scientists.

### Three Horns to a Car Is Rule in Venezuela

Caracas.—Venezuela's laws require every automobile to have two horns, but the really well equipped cars carry three, making the country a good market for such accessories. The law demands a hand horn for city driving and an electrically-operated signal for use on country roads. Drivers in mountainous territory add a third, operated by a button placed conveniently near the left knee, to permit quick or constant operation on steep grades and sharp curves.

### Death Penalty Shelved

There are now 16 countries where there is no death sentence. The death penalty has been abolished in Holland, Norway, Sweden, Portugal, Rumania, Austria, Latvia, Lithuania, Argentina, Brazil, Colombia, Honduras and Uruguay. It has been abrogated by disuse in Denmark, Belgium and Finland.

## The DAIRY

### FRENCH WEED IS TOUGHEST PLANT

French weed, said to be the toughest member of the mustard family, is under the dairyman's ban for the reason that it gives a garlic-like flavor to milk, cream, and finished butter when dairy cows are kept on pastures where the weed flourishes or are fed contaminated mill feeds. Only recently a shipment of tainted butter originating in Minnesota had to take a discount of \$2.75 a tub of 60 pounds when sold on an eastern market.

Dairy division men of the University of Minnesota will conduct an experiment to convict the weed scientifically and to determine just how much of it can be fed in hay to the cow without tainting her product. They will study the matter of pasture regulations that will eliminate the danger of contamination to the minimum. Finally they will try to determine what treatment, if any, can be given the milk to remove the objectionable flavor.

According to botanists, french weed, or pennycress, is an annual like wheat, of winter or spring. The severest cold does it no harm, and chemical sprays that make other members of the mustard family curl up and die do not faze it. It cannot be crowded out by farm crops for it likes to do all the crowding itself. A single pod smaller than the head of a thumb tack carries a dozen or more seeds, seeds which have such astonishing vitality that they will live for years in the soil and develop plants in dense timothy sod.

### Egyptian Color Schemes

In the color scheme used by the early Egyptians prisoners were painted yellow. Birds were blue and green, water was blue, men and women were painted red, the men being redder than the women.

### Grand Canyon's Divisions

The Grand canyon is more than 200 miles in length, divided into four divisions known as the Kalhab section, the Kanab section, the Unkarat section, and the Sheavwilt section.

### Famous Naturalist

Luther Burbank, noted American naturalist, was born at Lancaster, Mass., on March 7, 1849. He was noted for his experiments on plants and flowers, and horticulture owes much to his experiments.

### Found Ring in Carrot

Madame Rerelt, a French woman, at Ploudalmezeau in Brittany, when preparing vegetables for soup not long ago, found in a carrot pulled from her own garden her own wedding ring, which she lost some time before.

**LOCAL NEWS**

Mrs. R. H. Ramey was a passenger on the morning train for Spokane last Sunday.

L. C. Herriges, son of Dr. P. Herriges of Long Beach, Cal., was in Kendrick, Wednesday. From here he went to Southwick to visit friends. Dr. Herriges spent ten years in the Southwick community and is well known in this locality by many of the older residents. He and his family left Southwick about 15 years ago.

John Reid, Paul Schulze and their sons went to Elk River over the week end on a fishing trip. They report good luck.

Miss Ruth Leland was elected statistical secretary of the Washington State Christian Endeavor Union at the annual convention held in Spokane last Saturday. The convention lasted four days last week.

Tom Fisher was in Kendrick Monday from his ranch near Crescent. Mr. Fisher has been living in a tent on his ranch to see if the fresh mountain air would benefit his health. It evidently has as his condition appears very much improved.

Mr. and Mrs. Ben Cummings and family went to Kooskia, Tuesday, to spend several days with relatives.

Mr. and Mrs. G. F. Walker drove to Taft, Montana, the first of the week on business.

Mr. and Mrs. Wm. Mustoe, Mr. and Mrs. John Aubrey and son of Colfax, Wash., spent Sunday here at the home of Mr. and Mrs. L. J. Herres.

Walter Thomas, A. K. Carlson and Mr. Kress went to Winchester, Tuesday, to play in the band there during the celebration. The band was under the direction of Mr. Thomas.

Mr. and Mrs. Kester Dammarell, Mr. and Mrs. Wm. Watts, and their families, Miss Rilla Davidson and Miss Alberta Walker drove to Pierce City Sunday to spend the day.

Miss Margaret McDowell is assisting at the Farmers Bank during the absence of Kester Dammarell who is taking his annual vacation.

Marlow Haynes of Helena, Montana, arrived the first of the week to visit his sister, Mrs. W. J. Carroll. He will remain here to attend school next winter.

**State Pays Notes**

Saturday, June 30, was a busy day for the state treasury. General fund treasury notes amounting to \$250,000 were paid off, \$100,000 was distributed among Idaho banks for deposit and another \$100,000 was paid out in interest on state bonds. Treasury notes outstanding yet total \$1,000,000 issued last April but two years ago the state had \$1,500,000 outstanding in treasury notes.

The ability of the state to meet all obligations on time and still have money on deposit, indicates sound financial condition, says Byron Defenbach, state treasurer.

All this is possible, he says because the counties have been unusually prompt in remitting the state tax. A great number have paid in full and all have paid the major portion of the tax, although final settlement is not required until July 9.

**Editors Meet at Hailey July 20**

The dates for the 1928 midsummer convention of the Idaho State Editorial association are July 20, 21 and 22, according to an announcement by Guy Flenner, secretary. The first day will be devoted to business matters and the next two to recreation at the famed McDonald lodge, known as Granney-Crow, on Petite lake in the heart of the Sawtooth range.

The people of Hailey are preparing a fine entertainment for the editors, according to word from M. F. Cunningham, Hailey newspaper man and secretary of the Hailey chamber of commerce.

There will be several speakers at the convention and a number of subjects of interest to the craft will be discussed in round table fashion. F. G. Burroughs, Boise, president of the association, is working on the program, the details of which will be announced soon.

It is expected this convention will attract the largest attendance of any in the history of the

organization as forecasted by its executives.

**His Turn**

Two men had to put up at a roadside inn for a night, and were told they would have to share a bed. "But you will be very comfortable," said the landlord. "The mattress is a feather one." Early next morning one of the men woke the other. "Change places," he said; "it's my turn to lie on the feather."

**Make License Report**

During 1927 the sale of fish and game licenses and permits in Idaho amounted to \$175,923.55. The total amount paid into the State Game Department amounted to \$203,271.24. The total disbursements, \$174,243.99.

In a report submitted to the Governor's Office by B. E. Hyatt, Director of the Bureau of Public Accounts, Mr. Hyatt summarized the result of his last audit with his statement:

"Settlements on the 1927 license account have been unusually prompt and complete, the result being that on May 31, 1928, only \$74.10 was outstanding, of which \$45.80 has since come in and there is every prospect of the small outstanding balances being rapidly cleared up."

"The Fish and Game Department has vigorously followed up all licenses outstanding and is insisting upon full settlement without delay in all cases. The records of the Department are in excellent shape and the work has been accurately performed and kept up to date."

**Big Picture at Local Theatre This Week**

The New Kendrick theatre presents Harold Lloyd's Big Special picture, "Speedy," tonight and Saturday. Many attended its showing last night and all were well pleased with it. It is absolutely one of the best comedy pictures produced this year. You will laugh like you never laughed before. People will come for miles to see this picture and believe us it is worth it. Now plan to bring the family and drive the blues away. You'll be glad you came and so will they. 27-1

**Big Bear Ridge News**

Miss Dorothy Jones went to Spokane, Monday, where she will enter the Edgecliff Sanitarium. Miss Dorothy is universally liked by all who know her and her friends wish her a speedy recovery.

Mrs. Peter Hesby entertained the Lutheran Ladies Aid at her home in Deary Thursday afternoon.

Mrs. Hans Sneye was taken to the Potlatch hospital last week for medical care.

Mr. and Mrs. Pete Halseth and children of Deary spent Sunday at the Ed Halseth home.

Mr. and Mrs. Ed Lien and daughter, Miss Margaret, returned Tuesday from an overland trip to Walla Walla, where they visited at the Louis Aas home.

Mrs. H. Clemenhagen has gone to visit her parents in Canada.

Miss Esther Kleth spent the week end with her sisters in Lewiston.

Miss Mabel Weaver of Lenore was a week end guest of Mrs. Wade Keene.

The band concerts given in Kendrick have been largely attended and greatly enjoyed by everyone from here.

Mrs. D. Penland and children of Lewiston are spending the week with her parents Mr. and Mrs. A. Kleth.

Mr. and Mrs. Gabriel Forest, Mrs. B. Nelson, Anton and Miss Flora Nelson left Saturday for an overland motor trip to Agawam, Montana.

Miss Lizzie Jones is staying with Mrs. E. H. Dammarell in Kendrick.

Miss Irene Hardeman came over from Peck for a visit with her cousin, Maxine Keene.

Mr. and Mrs. Milo Slind were given a charivari at the Slind home by over seventy of their neighbors and friends Wednesday evening. A treat consisting of candy, cigars, cake, cookies and coffee was served including the groom's birthday cake. They were married on the bride's birthday and welcomed home on the groom's. After several hours of visiting and music, everyone departed for their homes wishing the happy couple a long and happy journey thru life.

R. P. Drury of Moscow, who relinquished the commandship of the Idaho detachment of G. A. R. when that body met in annual convention at Boise recently, was presented with a jeweled past commander's badge, given to him by his comrades of the veteran's association. The badge is of gold and bears the star and seal of the G. A. R. Mr. Drury

was a former resident of Bear ridge where he took up a homestead in the early days, now owned by Halvor Lien.
