JUST IDAHO

By Guy Flenner

Threatened Tie-Up

It has seemed to many inconceivable that any such disaster could overtake agriculture as a transportation tie-up, and still it has been seriously threatened and scheduled for effectiveness at the very opening of the heaviest shipping season, effecting fruits, grains, livestock and other produce of Idaho and the northwest.

The strike may be averted, but whether it is or not the public, which has nothing to do with wage disputes of railroad workers and their employers, will demand that the produce of this great section be moved to market, even if the government must take charge of the transportation. Government operation during the war was such a failure one may shudder at the results when the rail workers are no longer in sympathy, but it would be better than stagnation.

This disagreement might better have been brought to a head at some other time than when the crops were ready to move. While the public has nothing to do with such disputes excepting to pay the increased bill if advances result from a strike, or one threatened, popular sentiment will run strongly against any instrumentality that at such a time hits the opposition in any wage dispute over the shoulders of the public.

Rail workers may recoup for their lost time. The railroads will be granted by the courts a reasonable margin of profit, with strike costs included in the balancing. The public would be a long time recovering from such a blow as would be directed at it if this proposed tie-up should occur at the present time.

The agriculture relief that is needed now is an opportunity to move bumper crops to market expeditiously and orderly.

And The Reaper Went Forth

The tax gatherer will soon be due. He comes along about Christmas time, and when year-end obligations must be considered, all of which tends to render him unpopular. But he cannot be avoided. He has his orders from the legislative sanctum. The next time he may be given additional instructions for Idaho people.

We appear to be confronted with an income tax, and with a sales tax and with a tax upon certain forms of securities, now tax-free, and upon luxuries. It is a real problem. An income tax will not encourage incomes to remain. A sales tax will simply be absorbed by the buying public together with the cost of extra book-keeping. Any levy upon tax-free mortgages and similar securities will be added to the interest rates or premiums. It's not right, from the standpoint of the public, but that's what will happen, either that or heavy investors in our securities, such as insurance companies, will withdraw from the field. The national government exempts these securities, which it never should have done, and thereby deprives industrial development of much needed capital; but there we are. One can speculate rather accurately on the result when a state adopts an opposite course.

Perhaps the luxury tax would be the least harmful—on cigarettes, jewelry, cosmetics, candy, etc. At least a million could be raised that way, it is stated, which would help some.

One other very good practice would be to reduce expenditures, which is a difficult thing to do in a state requiring so many improvements in harmony with any reasonable program of development—and some of our wisest financiers advise that the thing to do when expenses exceed income is to increase the income. We cannot do that by retarding development.

It's a big problem. May Idaho send to the legislature men fully equipped to handle it.

COMMUNITY NEWS FROM JULIAETTA

Items of Interest From Our Neighboring Town.

A. T. Clausen of Abbotsford, B. C., who has been visiting his sister Mrs. M. Nutt left for home Sunday evening.

Word was received here that Mrs. Fred Beck, formerly Miss Gladys McKern of this city, died at her home in San Diego, California, August 18th. The full particulars of her death were not learned, but came unexpectedly.

Miss Crystal Ottosen left Tuesday morning to take up her school work in Rocklyn, Idaho. This is Miss Crystal's third term in this school. Mrs. Nutt drove as far as Lewiston with her. Mrs. Amanda Alexander accompanied them as far as Lewiston.

Paul Neil and family of Potlatch spent Sunday the guest of home folks. Mrs. S. A. Hammond went back to Potlatch with them.

Mrs. W. M. Fields of Spokane was visiting in Juliaetta last week.

Albert Gruell who has been working at Connell, Wash. is home again.

Professor Jones is moving into Mrs. Garrison's property. Prof. Jones was assistant principal at Gnesee last year, and comes to us highly recommended.

The Ladies Missionary Society held their regular meeting Tuesday afternoon at Robbin's Park below town. Holding the meeting in the park is something out of the ordinary, so we had a number of visitors. Altho the program was rather short it was splendid. Mrs. Larkin read a poem composed by a Canadian lady which was enjoyed by all. Mrs. Stinson gave us a song which she composed herself, and it was enjoyed. For the benefit of those who did not have the pleasure of hearing it, here are the words:

"We have gathered today, dear sisters,

Out in the Robbins' park.
Some are members, and some are visitors,

And we're going to have a lark.

For we are all just neighbors,
As we sit by the running brook
We are happy in all our labors,
In this quiet, shady nook.
So sweetly the birds are singing.

The brook flows on so clear.

Mrs. Cochran's report will tell
Of the work we have done this year.

And Ruth's books so neatly
She records all the money made.

But the preacher said sa sweetly,

My bill it must be paid.

Mrs. Nutt, she wields the gavel,

Of work, has lots to do,
This summer she spent in travel.

So the Vice put the meetings thru.

Now pray for success dear neighbors,

For the cause of this gospel bark.

And thank God we're able to labor,

And hurrah for Robbins' park.
Mrs. Stinson played her own accompaniment on the guitar.

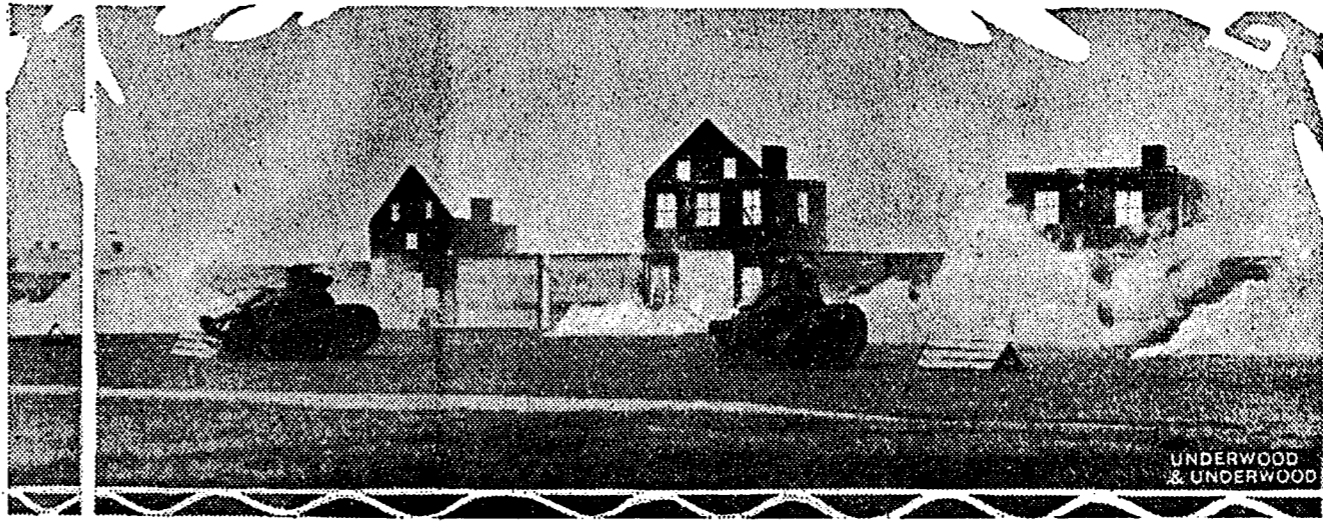

Mr. and Mrs. George Groves and family are visiting Mrs. Groves parents, Mr. and Mrs. B. C. Custer.

Mrs. Nutt was very agreeably surprised Monday night when her brother, George Clausen and family of Troy, Oregon came to visit with her overnight.

The Rev. George of Spokane preached at the Baptist church Thursday afternoon at two o'clock, and again in the evening at 8 o'clock.

The United Brethren people have united with the Baptist Sunday school, and the Baptist people attend the United Brethren Christian Endeavor. The arrangement is proving very satisfactory at present. When we think of the many isolated, neglected churches we wonder why we could not unite our forces more often, and instead of having two or three or sometimes more, small, struggling churches, let the ministers of these small

Tanks in the Re-Enacted Battle of Fleville

The feature of Governors Island military tournament held recently was a re-enactment of the battle of Fleville. The photograph shows the tanks advancing on buildings put up for the occasion.

Rare Game Fish Thrive

Elk River News: For the first time in history Sunapee trout, a rare variety of game fish found only in the waters of a New Hampshire lake, have been successfully transplanted, and the transplantation has "taken."

W. M. Kell, state fish commissioner who was responsible for bringing 5000 Sunapee eggs to Idaho 2 years ago, said Friday he had just returned from a tour of the Sawtooth lakes where the fish had been released as three-inch fingerlings, and had indisputable proof that they were alive and thriving.

Five specimens of good size, he said, had been captured by forest service anglers in Alice lake, while in two other lakes, totally destitute of fish life before the plantings, specimens up to 16 inches long have been discovered.

This does not mean, however, that Idaho can flock into the Sawtooth and haul out Sunapee trout at will. The fish commissioner doesn't approve of that at all. He wants them to grow awhile and spawn a couple of years before the pursuit starts in earnest.

But because of the location of the lakes he's not greatly worried. It's a pack train trip to the most accessible, and a mountaineering venture to the others. The Sunapee trout, he feels, will have a chance to grow and develop without undue interference from eager anglers.

Wrestling Match Draws Crowd

A packed house greeted the wrestling match held at the New Kendrick theatre last Wednesday evening when Bill Mielke, challenger, wrestled Mervin Barackman in a finish match. It was a fast exhibition but the constant training and more extensive experience of Barackman were too much for Mielke. Barackman secured two falls within the period of half an hour.

A sparring exhibition between Albert Gruell of Juliaetta and Jack May of American ridge was a feature of the evening smoker. It was a four round event and full of action.

Auction Sale Next Tuesday

Walter McCall will hold a public auction sale at his place near Leland, next Tuesday, starting at ten o'clock. Mr. McCall will quit farming and dispose of his entire farming equipment.

Install New Pastor

Rev. O. G. Ehlen will be installed as pastor of the Lutheran church of Cameron, Sunday morning at 10 o'clock and at Juliaetta Sunday afternoon at 2 o'clock. Rev. G. H. Burzlaff, Lutheran minister of Gifford, will be the principal speaker. Everyone is cordially invited to be present.

churches go to those who would so gladly welcome them and really need them.

Mrs. Mae McCall is at the home of her son Walter McCall. Mr. and Mrs. McCall are the proud parents of a new baby.

Mrs. Robert Morgan of Potlatch is visiting relatives at Juliaetta.

School Board Met Tuesday

The board of trustees of the Kendrick schools, which includes A. K. Carlson, N. E. Walker and E. H. Emery, met last Tuesday evening to make arrangements for the opening of school here September 10. Among the questions brought up for consideration was that of charging tuition to grade students from outside districts. It was finally decided to make this requirement and the amount was fixed at \$3 per month.

The tuition will only affect students who live in another district and go back and forth from their home to school here. It will not affect those who move here from an outside district to attend school.

Okoke Picnic at Moscow

Sunday, Moscow was the scene of an "all day" session of Okoke club members from far and near, who had ever lived in Kendrick. Mesdames Frank Candee and E. E. Bechtel had sent out very clever invitations two weeks previous to a picnic in Moscow park. On Sunday it was deemed too cold for a park picnic, so the crowd repaired to the Candee home for the day, where a delicious picnic dinner and later, supper, was served. All of the old Kendrickites thronged the day visiting with each other and later taking in a number of the sights of the city by car.

The beautiful home of Dr. and Mrs. Einhouse, as well as that of Mr. and Mrs. Lauder were visited and enjoyed, after which the guests visited the university grounds and new gymnasium. After the drive all met again at the Candee home for supper and more visiting, and after expressions of "the time of our lives", "the jolliest ever" etc. The more distantly located members, Mr. and Mrs. A. V. Dunkle of Kellogg, departed, the others loth to leave until a later hour.

A number of pictures of both grown ups and children were taken during the day. About thirty-five were present.

Ill From Poisoning

Mrs. Edgar Bohn of Linden became very ill last Friday morning about 10 o'clock. She became suddenly blind and lost consciousness. Dr. Morehead was called in the afternoon and pronounced it a case of botulinus poisoning. Mrs. Bohn had eaten a spoonful of canned soup the evening before and thinking it didn't taste right, threw the rest of the soup out. It is presumed that the poison came from this source. Mrs. Bohn has entirely recovered from the unpleasant experience. It is said that 50 per cent of the cases of botulinus poisoning are fatal.

O. E. S. Watermelon Feed

The local chapter of Eastern Star gave a watermelon feed for the members of the lodge and visiting members from Moscow and Lewiston lodges, last Tuesday evening. Initiation was held prior to the social feature of the evening. About thirty Moscow Stars were present and 20 attended from Lewiston. It was a very pleasant occasion and was thoroughly enjoyed.

Nominate State Ticket at Kellogg

The republican convention at Kellogg was a harmonious meeting and candidates for state offices were nominated by acclamation late Tuesday afternoon. Following is a list of candidates:

Governor, H. C. Baldrige, Parma; lieutenant governor, W. B. Kinne, Orofino; United States senator, John Thomas, Gooding; justice of the supreme court, William E. Lee, Moscow; congressman for the first district, Burton L. French, Moscow; congressman second district, Addison T. Smith, Twin Falls; secretary of state, Fred E. Lukens, Grangeville; state auditor, E. G. Gallett, Pocatello; state treasurer, Byron Defenbach, Lewiston; state superintendent of public instruction, Myrtle Rancy Davis, Blackfoot, and mine inspector, Stewart Campbell, Hailey.

The following also were nominated unanimously as presidential electors: A. W. Hoover, Wallace; Frank G. Ensign, Boise; Mark Means, Lewiston, and John Har, Herran.

Democratic State Convention

Candidates for state offices were nominated at the democratic state convention held at Grangeville. Nominations were made Tuesday evening.

For United States senator Chase Clark of Mackay was nominated.

J. W. Tyler, of Emmett, was nominated for congress by the first congressional district and Ralph J. Harding of Malad for congress from the second congressional district.

Mayor C. Ben Ross of Pocatello, Idaho, was nominated for governor, and G. B. Mix, of Moscow, for lieutenant governor.

The following nominations were made for state offices: secretary of state, Guy Graham, Payette; state treasurer, Arthur Porter, Rexburg; supreme court justice, James G. Quinn, St. Anthony; state auditor, J. C. Smith, Caldwell; attorney-general, A. G. Sathre, Burley; superintendent of public instruction, Mrs. Jessie Hawkins Tuek, Sandpoint; state mining inspector, Geo. A. Remerber, Hailey.

Ramsay Walker, Wallace; C. O. Stockslager, shoshone; James Hawley, Boise, and George A. Hill, Rigby, were named electors.

Harvest About Done

Grain harvest in the Potlatch is drawing to a close. By the end of this week there will be but little grain not threshed. Yields are about as previously reported, spring grain running from 8 to 30 bushels, but very little 30 bushel grain.

Bean threshing started this week but the crop will be very light. The best yield so far reported was that of Roy Southwick's which averaged about 4 sacks to the acre. It is decidedly an off year for beans.

Near Time

Two carnival friends were wending their way home about 2 a. m., when one stopped to gaze at a sign. "Watcha lookin' at?" asked the other. "That sign," was the reply. "Whazzie say?" "Ladies Ready to Wear Clothes" "Well its dern near time, if you ask me," came the reply.

THE STATE WE LIVE IN

By Byron Defenbach

Rivers of Mystery

"..... The river ran, thru caverns measureless to man."—(Coleridge)

Lost River

This stream has a normal flow of 315 second feet, with a trout in every foot. It rises in a spur of the Sawtooth, irrigates a fertile valley down through Custer into Butte county, and disappears below Arco in a great basin, the "Sinks." It then flows underground 110 miles, air-line, toward the southwest and breaks out of the perpendicular walls of the north bank of Snake River canyon, forming the famous "Thousand Springs," near Buhl. The volume of the Springs is much greater than the product of the Lost River watershed; Snake River loses over 1,200 second feet near Shelley, 140 miles above the Springs; this water joins Lost River somewhere in its secret meanderings.

Help me now, gentle reader. Draw a line across your map of Idaho, from Menan in Jefferson county to the mouth of Wood River. You see the Snake has no surface tributaries from the north along here, but several vanishing streams occur, Big and Little Lost, Birch Creek, Medicine Lodge, all headed south. Once upon a time the Snake flowed unhindered not far from this line.

This Old Snake was probably very wide, running over and thru a thick stratum of coarse gravel, much of its water underground. Our vanishing streams were its open tributaries.

Mother Earth was younger then, and passionate, with a hot temper, a volcanic disposition. One ancient day something annoyed her; in seething fury she slammed a great dike of lava across the country and dammed the river. Thus deflected at Menan, the surface current turned abruptly south and after devious wanderings reunited with its lost companion waters not far from the Thousand Springs.

Under the lava, the current in the gravel moved slowly on; thus it still moves. The debris and dust of centuries settled over it. Soil formed; sagebrush took root. The coyote, the jackrabbit, the Indian, roamed restlessly above it, giving way to the still more restless farmer, politician, newspaper man. Invisible, silent, deliberate, the River of Mystery forever traverses the state we live in.

Author's Note.—For all that is worth while in the above, I am indebted to my brilliant young friend, Mr. Myron Swenson of the State Department of Reclamation.

Pleasant Social Afternoon

Mrs. Norris Walker very pleasantly entertained at a social afternoon last Friday in compliment to Mrs. John Waide of Deary. Mrs. Waide was the guest of her sisters, Mrs. Wm. Watts and Miss Rilla Davidson all of last week, returning home Sunday. Mrs. Walker had arranged contests, Mrs. Emery gave two pleasing numbers, and together with sewing and conversation the afternoon sped quickly by. The hostess, assisted by Miss Alberta Walker and Mrs. Emery, served dainty refreshments. Mrs. Waide was presented with a guest prize, after which a number of group pictures were taken. Those present were: Mesdames Waide, Watts, Herres, Carlson, Knepper, Nesbit, Gardner, K. Dammarell, Chamberlain, Emery, N. Walker and Misses Davidson and Walker.

Will Quit Farming

Marvin Vincent of near Leland will hold a public auction at the Vincent place to dispose of his farm equipment. He expects to quit farming and plans to get into some other line of business. The date of his sale is Saturday, September 8th.

N. B. Long & Sons

"The Home of Good Things to Eat and Wear"

Leisure, Rest and Play By Wire

EMANCIPATION of the American housewife is a foremost accomplishment of modern Electric Service. No more hot kitchens—the modern home hasn't such a thing. No more long hours on "baking day." Today the baking is done automatically in the modern home.

No more washboards and long hours on Monday mornings. The drudgery of washing and ironing has lost its taint of downright hard work where electric servants are permitted to perform at long hours and low pay.

Leisure, play, golf, motoring, relaxation and more pleasure are brought to the home where electricity is given the tasks of housework. More time comes to the electric home—by wire.

Southwick News

Mr. and Mrs. C. Foster and little son of Esccondido, Calif., are spending a few weeks with her sister Mrs. Homer Betts.

Mr. and Mrs. Joyce of Philadelphia arrived Tuesday evening for a visit with her parents, Mr. and Mrs. Geo. Jones. They drove thru in their car. Mrs. Stella Benson accompanied them here from Moscow.

Wm. Henderson and wife and Milton Benjamin spent Sunday at the home of Elton McCoy.

Mr. Eckman and Grant Bateman drove to Lewiston and back Monday.

Mr. and Mrs. C. Foster and Mr. and Mrs. Homer Betts visited at the homes of Mr. Gill, Mr. Fairley and Mr. Welker in Peck last Sunday.

Vester Whiting and family moved to Clarkston, Tuesday, where he has employment.

Mrs. Grant and little daughter of North Bend, B. C., are spending a few days with her parents and other relatives.

Miss Francis Farris left Monday for Los Angeles, California, where she will spend the winter with her brother and attend school at that place.

Miss Eva McCoy returned home Sunday from Lewiston, where she spent the past week with friends. Miss Lucile Thompson accompanied her home to spend this week as her guest.

Austin McCoy moved his household goods from the timber to town, Tuesday.

The funeral services of the infant child of Rev. and Mrs. Luce was held at their residence, Tuesday forenoon and the body was taken to Albion for burial.

Ray Triplett and wife went to Potlatch, Monday, for a few days.

Floyd Russel and wife went to Lewiston, Tuesday to be gone a couple of days.

Crescent Clippings

Aaron Wells of Moscow visited with his mother, Mrs. E. J. Wells at the Frank Souders home, Sunday afternoon.

Mrs. M. L. Robeson and daughter, Sue, and Mrs. Gus Farrington and children spent Friday afternoon at the John Darby home.

Earnie Loeser visited at home, Sunday. He is working at the sheep camp.

Mr. and Mrs. Wm. Dorendorf and daughter, visited with Mr. and Mrs. Wm. Riley of Texas ridge, Sunday.

Alice Cramer was a Lewiston visitor, Friday.

Mr. and Mrs. LeRoy Southwick and daughters of Cream ridge and Ms. E. J. Wells were Sunday guests at the Wm. Kauder home.

Linden News

Threshing on the ridge is finished with the exception of a few pieces of late spring grain. All grain made very good yield considering weather conditions.

The Weaver boys have recently purchased a radio.

Nellie and Aletha Israel spent Saturday night with the Stone girls.

C. H. Fry and family spent Sunday with Ben Smith at Park. Miss Sarah Sweeney, who has been visiting at the Smith home went to Lewiston, Monday.

Mr. and Mrs. F. C. Lyons had as Sunday dinner guests, Mrs. E. L. Whisler and children, Lucile Darby and Hattie Stone.

Mrs. Carr spent Wednesday with Millie Abrams.

M. E. Church Notice

L. E. Taber, Pastor
Morning worship at American Ridge at 11 o'clock.

Evening worship at Kendrick at 8 o'clock.

This is the last service of the conference year. Rev. Taber will deliver his farewell sermon. You are welcome.

Rune Stone a Fake

Concerning the authenticity of the Kensington Rune Stone, Dr. Walter Hough, head curator of anthropology of the Smithsonian Institution, makes the following statement: "This stone was established as a fake by the confession of the man who inscribed it. The work was cleverly done and deceived many, but a scholar found that a few runes not in use in 1362 were used and finally the father made a clean breast of it."

June Chicks as Easily Reared as Early Birds

June-hatched chicks are no more delicate than those hatched during the early part of the year, although some poultry-keepers think they are.

What makes them more difficult to rear without loss in ninety-nine cases out of a hundred is that they are run over ground that has been occupied by broods of chicks for months past.

You'll find the June chicks go ahead without mishap if only you'll give them a piece of fresh ground—ground that hasn't been used for any kind of fowls for four or five months. If you haven't much space you'll maybe find this difficult to manage, but falling grass land there is no reason why you shouldn't turn them out onto a piece of "turned" soil.

Cities of Glass

Buildings and whole cities of glass are predicted by a well-known architect. There would be two shells of glass to a high building, 18 inches or so apart, leaving space to be made into at least a partial vacuum. Glass buildings would probably be heated and cooled in the same way as a thermos flask is used to maintain heat and cold.

How Blood Travels

Assuming the heart to beat 69 times a minute at ordinary heart pressure, the blood courses through the veins at the rate of 207 yards in a minute, or seven miles an hour, 168 miles a day, and 61,320 miles a year.

Difficult Music

Opinions differ as to which piano selection is the most difficult. One musician says that "Campanella," arranged by Franz Liszt, and his "Hungarian Rhapsodies" are certainly among the extremely difficult ones.

Poultry Facts

A box of crushed oyster shell should always be within reach.

The hen needs a balanced ration, the same as the cow or the man.

Examine all feed by sight, taste and smell before giving it to baby chicks.

More little chickens are killed by overfeeding with damp, mushy food than in any other way.

The roosts should be low, especially for large, heavy fowls, and they should all be of the same height.

It is said that if alfalfa hay is used for hens' nests and scattered around the chicken coops the chicken mites will beat a hasty retreat.

Do not go into the poultry business. Grow into it. Start on a small scale and learn the details of the business before you put much capital into it.

Turkeys, whether sold for breeders at a fancy price or sold to the merchant for Thanksgiving or Christmas trade, should have some special care along about the first of October.

Eggs may be set after the males have been with the females a week or ten days.

If one is to market cockerels from the early hatches as broilers they should be placed upon the market as early as possible.

That the addition of milk to the regular grain ration of growing chicks leads to a greatly increased rate of growth is a conclusion reached by poultry specialists who have studied the matter experimentally.

POULTRY FACTS

POULTRY BREEDS BEST FOR FARMER

Which is the best breed of poultry for the Ohio farmer?

With more than 500 farm flocks on which to base an answer to this question, flocks on which records were kept during 1926 in co-operation with county agents and the agricultural college extension service of the Ohio State university, poultry specialists at the university make this answer:

"There are several things to consider, but probably the most important is the individual whim of the farmer."

Before framing this answer the specialists examined the records and analyzed them in "Analysis of Poultry Profits, 1926," a new bulletin published for free distribution by the agricultural college extension service. Copies of the 16-page bulletin may be obtained from the county agent or the university.

Averages used in comparing breeds of poultry were drawn from records of Leghorns, Plymouth Rocks, Wyandottes, and Rhode Island Reds. Leghorn flocks constituted 59.8 per cent of those reporting, and the average size of the Leghorn flock was larger than for any other breed, indicating that Leghorns are more adaptable to large flocks.

"The Leghorns averaged 13.9 eggs more per bird than any other breed," the specialists point out. "This bears out the contention that Leghorns are better egg producers than other breeds."

"There are exceptions, however, for some of the lowest producing flocks were Leghorns. There was little difference in egg production among the three American breeds, although the Wyandottes averaged 7.2 eggs more per bird than the Plymouth Rocks."

"Cash receipts were less for the Leghorns than for any of the other breeds. This is true despite the higher egg production for Leghorns, and is largely due to increased meat receipts from hens and broilers for the American breeds."

"Total expenses per bird were slightly higher for the three American breeds. This tended to balance the labor income so that it was quite similar for the four breeds. With only 59 cents difference between the high and the low in labor income, it is apparent that there is no practical difference in the profitability of these four main breeds."

Egg-Shell Material Is

Essential for Layers

Oyster shell which is used for poultry is made by crushing the whole shells, after which they are washed three times. Following the washing the crushed shell is dried in rotary dryers, the intense heat of which destroys all foreign and putrid matter, making the shell sanitary and clean. The heating insures freedom from odor and poisonous matter.

After drying the shell is screened into two sizes, for hens and chicks, respectively. The oversized material and dust is eliminated.

The feeding of oyster shell is a good practice in poultry husbandry as the high calcium content provides bone-building material for growing birds and egg-shell material for laying hens. For this reason the material should be available in feeders at all times.

Poultry Hints

Lack of sunshine often causes leg weakness in chicks.

Overcrowding the house causes roup as well as stunted chicks.

The color of the egg shells has nothing to do with the food value of the eggs.

Eggs cannot be produced without nitrogenous food in some shape. Bones are absolutely essential.

Give the young poultry plenty of fresh air without drafts. An open growing coop will do this.

Remember that the hens which lay the golden eggs are the ones that produce them when they bring the highest prices.

A broiler is a young bird weighing less than two pounds. The best prices are received for the plump, well-developed birds.

The products of the great American hen rank fifth in our agricultural products list, and every year more people are realizing that there is money in hens.

The standard weight of the Pekin drake is nine pounds and of the Muscovy drake, ten pounds.

Many breeders sell the Leghorn cockerels when they weigh about one pound. At this size they are known as squab broilers.

When the hens stop laying they may often be started again by a change of feed, but do not give them much corn in summer, unless, of course, you have cooped them up to fatten for market.

AUCTION SALE

I will sell at public auction at the Vincent place 1 mile east of Leland the following described property; Sale commences at 10 o'clock

Saturday, Sept. 8

HORSES

ONE GRAY TEAM, WEIGHT 1350 POUNDS
ONE SORREL HORSE, WEIGHT 1400 POUNDS
ONE BUCKSKIN MARE, WEIGHT 1350 POUNDS
ONE BLACK GELDING, WEIGHT 1400 POUNDS
ONE BLACK GELDING, WEIGHT 1450 POUNDS
ONE BAY COACH TEAM, WEIGHT 1250 POUNDS
ONE GRAY SADDLE HORSE, WEIGHT 1000 POUNDS

CATTLE

ONE RED COW, AGE 7, MILKING
ONE RED COW, AGE 5, FRESH IN NOVEMBER
ONE ROAN COW, AGE 5, MILKING
ONE ROAN HEIFER, AGE 2, MILKING
ONE RED HEIFER, AGE 2, MILKING
4 HEAD OF CALVES

HOGS

Agricultural Hints

Straw can be fed to better advantage with silage than in any other way.

If a turkey hen settles upon a suitable place to make her nest she should not be disturbed, but it is best to remove the eggs every day, leaving a china egg in the nest.

All notions of the warm house should be abandoned and a house built along lines that will furnish the best shelter.

As soon as the ducklings are all hatched, pick up the hen mother by the feet, hang head downward and ruffle the feathers before dusting well with insect powder.

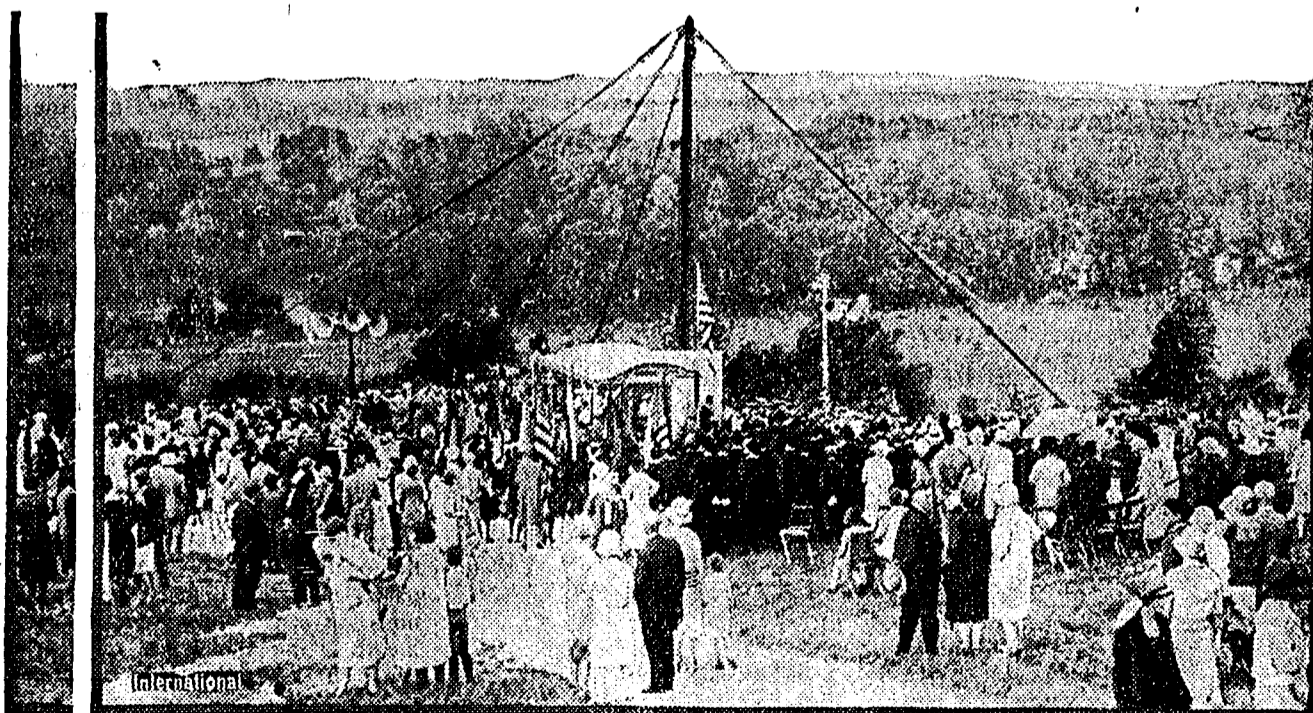

Cannibalism among young chicks usually starts either from idleness or lack of a proper ration. Be sure chicks are fed properly and then keep them busy at all times.

Fine sand is best for the floor of the brooder house. The sand should be clean, sharp and sifted for young chicks.

Overcrowding the young chicks will cause heavy losses. Each four chicks should have at least one square foot of floor space in the brooder house.

Toe picking and cannibalism are common poultry worries. The cause is crowding too many chicks together under one hover, or an unbalanced ration—lack of protein and green stuff.

Starting Memorial Church at Valley Forge

General view of the cornerstone laying ceremonies for the new National Washington church at Valley Forge, Pa., on the one hundred fiftieth anniversary of the evacuation of Valley Forge by General Washington and the American army.

Yes, Many More

More than one attorney picks up some coin as he lays down the law.—Farm and Fireside.

Best Seller of All

Book dealers say that the New Testament is always the best seller among all best sellers.

Memo

"Now," said the professor when he had finished his lecture on the functioning of the memory, "I want to ask each member of the class to make a note of every point he has remembered. And those of you who can't remember any of the points will please jot down those you have forgotten."

Substitute Spelling

A second-grade teacher was inspecting letter-card sentences made by her pupils. On one boy's desk she read this sentence: "He took his hat offh." Very much surprised at the novel spelling, she inquired of the boy how he happened to spell "off" in this way. "Well," was the reply, "I ran out of fs."

Cooking for Two Always A Problem for the Bride

Foods Must Keep in Order to Be Economical.

By Louise Leslie,
Home Economist, Electric Refrigeration Bureau

There is nothing in the Culinary Realm any harder than cooking economically for two—that is, there isn't unless you have an electric refrigerator and know how to use it to its fullest advantage. If you do understand what a help the electric refrigerator can be, why, there just isn't any problem at all!

Take meats, for instance. It is almost impossible to get a small roast that is good for anything. And getting rid of a large one used to take the form of a battle between the housewife and the bacteria of spoilage—with the odds all on the side of the bacteria.

Ways to Use Up Meat.

But the electric refrigerator has changed that. Because meat keeps perfectly for an amazing length of time in the chilly interior of an electric refrigerator, it is possible to serve your roasts in various made-up dishes, spread over a period sufficiently protracted to avoid any chance of monotony, and with no danger of deteriorating before they are all used up.

You can, with an easy mind, buy a good-sized roast and serve it hot one night, cold the next, and then give it a vacation of a day or two before letting it re-appear as meat pie. Then, after another vacation, up it bobs as meat roll, and just when the husband has almost forgotten it had

ever existed, it makes a farewell appearance as croquettes.

Managing Vegetables and Desserts.

Vegetables used to constitute another dreadful problem, for just try and eat a whole squash or a whole cabbage or a whole can of peas. You can't do it and have any fondness left for the vegetable! But with an electric refrigerator in the house, you can just tuck the left-overs away and let them make a graceful reappearance when their inaugural is but a dim memory.

Desserts are more easily managed when you take the refrigerator into partnership. You know that it is just as much work to make enough chocolate pudding or Spanish Cream or caramel custard for two people as it is for six. So make the quantity for six, and serve it three times, dressed up with various sauces, with crushed fruit, in cream puff shells, spread between layers of cake—oh, just use your imagination a little, it's fun. And besides it saves a lot of work.

Fewer Trips to the Market.

Unless, of course, you actually like to have to go to market every day, it is a very good idea to buy fruit, vegetables and other perishables in respectable quantities and store them in the electric refrigerator. They will keep in excellent condition for a very long time.

The electric refrigerator is a guardian angel for left-overs and fresh foods alike. It keeps them from harm of all kinds! So go ahead and cook in the generous quantities your good sense tells you are most economical of your time and fuel, and hope there will be plenty left over. For if there is, you can store it in the refrigerator until you think it seems like a good thing to serve again, and then, there it is all ready to be warmed up in white sauce! R10.

Silage for Economical

Milk Production Urged

Silage fed with legume hay and a good grain mixture makes a satisfactory and economical ration for the dairy herd. This succulent roughage helps to impart palatability to all feed consumed, keeps the bowels active, and serves as an appetizer when there is nothing but dry feeds available.

The Purdue experiment station found that a ration containing silage, alfalfa and hay and a good grain mixture produced milk for \$1.03 for each 100 pounds, while the feeding of double the allowance of hay without silage and the same grain mixture raised the feed cost to \$1.14 per 100 pounds. During the periods when silage was fed, the animals gained approximately one-half pound daily in live weight. When hay formed the sole roughage, the loss in live weight was double this amount. This represents a difference of approximately 1.5 pounds per day in body weight in favor of the silage ration.

The petted calf is the one that responds most easily to the care of the young stockman. When the junior club member feeds his calf, the time that he spends in petting it a little is not lost time.

Kentucky Tears Up Stone Fences

Pulverized Limestone Needed by Soil to Stimulate Many Crops.

They are tearing up the farm fences to make the crops grow in Kentucky's famous blue-grass region! And while that statement may appear silly at first glance, it is exactly what is happening.

The explanation is simple. The blue-grass soil, under cultivation now for 150 years, has grown acid for want of lime. There are hundreds of miles of picturesque old stone fences, some built a century ago, winding around the farms of this region—and the stone is limestone. There you are!

"All over central Kentucky, and in many other sections of the state, limestone pulverizers are busy grinding up these 'limes,'" reports C. A. Lewis in the April issue of The Farm Journal. "Thousands of tons of fence stones have been crushed and spread upon the soil in the last year."

The movement began more than a year ago when a survey of Bourbon county by the county farm agent, P. R.

AUCTION SALE

I will sell at public auction at the Old Hechtner place, 5 miles south of Kendrick, 2 1-2 miles west of Leland, the following described property; Sale commences at 10 o'clock

Tuesday, Sept. 4

Livestock

- Black mare, age 8, wt. 1275
- Black mare, age 5, wt. 1200
- Black mare, age 10, wt. 1250
- Bay mare, age 11, wt. 1200
- Bay mare, age 14, wt. 1350
- Black gelding, age 9, wt. 1200
- Black mare, age 16, wt. 1500
- Mule colt, age 18 months
- Jersey heifer, age 2, now Milking
- Jersey cow, age 3, now milking
- Sow, wt. 300, with litter of pigs

Implements

- 3 1-4 Weber wagon, grain rack
- Iron wheel wagon and hay rack
- 9-ft. Van Brunt drill

- 8-ft. Deering binder
- 8-ft. disc Mower
- 8-ft. Acme harrow
- 3-section harrow
- 14-in. John Deere gang plow
- John Deere cultivator
- 16-in. walking plow
- Boston bean planter
- Little Giant bean cutter
- Bobsled and box
- Top buggy Hack
- Fanning mill Cream separator
- 2 sets breeching harness
- 1 set lead harness
- 1 set of buggy harness
- Saddle and Shapps
- 1 1-2 gas engine and pump jack
- 3 cords of wood
- 30 acre stack of bean straw
- Many other articles

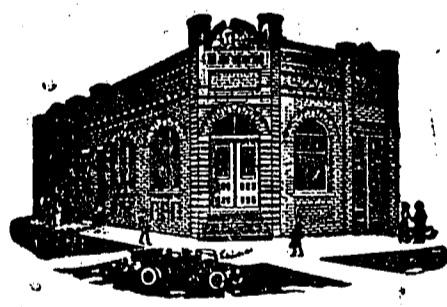

Lunch Served at Noon

Kendrick State Bank

"Your Home Bank"

KENDRICK, IDAHO

Wallington, showed that clover and other legumes so much needed for the fine horses and cattle which make the region famous could no longer be grown profitably.

County Agent Starts Movement.

Wallington laid his facts before a committee of landowners and the result was 14 limestone crushers operating along the fences, many of which had already tumbled down with age and been overgrown with briars and bushes. In nearby Fayette county, Jonas Well, a prominent landowner, took the lead, crushing hundreds of rods of the stone fences around his lands, spreading the lime on his soil—and increasing his crop yields in some cases 100 per cent. With such a profitable example before them, other farmers and counties have taken up the movement rapidly.

"Most of the fences were built of soft limestone, which now requires little labor to make it ready for the pulverizer," explains The Farm Journal's correspondent. "The crusher is moved along the fence rows where the rock is put into it at a minimum of labor. In some cases a rod of stone fence will make five tons of ground limestone.

Cost of Limestone.

"Since limestone can be crushed from the fences for at least \$1 a ton less than it can be obtained from the Kentucky quarries, that means that a rod of stone fence is worth \$5. And this \$5 a rod will more than pay the cost of putting up a modern woven-wire fence. Many miles of such modern fencing, supported with iron or concrete posts, have taken the place

of the tumbling rows of stones."

A second consideration which has made the demolition of the old stone fences popular is that attempts to repair them after a century of wear have proved both costly and ineffective.

It is better to feed silage to dairy cows once a day over a longer period than to feed it twice a day for a shorter time if no other succulent feed can be had.

The dairy cow is a most important factor in the economics of dairy farm management.

A good dairy cow probably consumes more water than any other domestic animal. The more feed consumed, the more water the cow requires.

If the ground is weedy, it is often better to plant the soy beans in rows so that they can be cultivated. When planted in this manner the beans may be kept cleaner than when sown broadcast.

Silage whether from corn, cane, kafir or sunflowers combines well with alfalfa hay.

The silage will give better results when fed with a little dry roughage than when fed alone.

Alfalfa makes an excellent bog pasture wherever the crop does well. It generally does well where there is plenty of lime in the soil.

Drainage Is Beneficial

Where Areas Are Small

Contrary to the opinion of many, it does pay to drain wet lands. This is particularly true of fields broken by wet areas that are small, says E. R. Gross, agricultural engineer at the New Jersey agricultural experiment station, New Brunswick.

With the present high cost of drain tile, it is ill-advised to drain large areas of wet or swampy farm land unless the returns will be decidedly large, as in the case of vegetable growing. For general farming it is far more profitable to drain the small areas which break the regular shape of large fields and serve as obstacles to the convenient use of machinery. Most farmers prefer fields of rectangular shape, not only because of the convenience afforded for farm operations and the consequent saving of labor, but also because the size of a rectangular field is easily computed when it is desirable to determine acreages planted

and yield per acre. The cost of draining irregular swampy areas which make possible larger fields may be distributed over the entire field on account of the saving of labor in operations on that field.

NOTICE TO CREDITORS

Estate of Levin Larson deceased.
Notice is hereby given by the undersigned, administrator of the estate of Levin Larson deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them with the necessary vouchers within six months after July 27, 1928, the first publication of this notice, to the said administrator at Kendrick, Idaho, the same being the place for the transaction of the business of said estate, in Latah County, State of Idaho.

G. F. WALKER
Administrator
Dated at Kendrick, Idaho, July 21, 1928. 30-5

SUMMONS

In the District Court, Second Judicial District of the State of Idaho, in and for the County of Latah

ROSE E. WILSON, Plaintiff,
vs.
WILLIAM WILSON, Defendant.

The State of Idaho Sends Greetings to William Wilson, the above named defendant.

You are hereby notified that a complaint has been filed against you in the District Court of the Second Judicial District of the State of Idaho, in and for the County of Latah, by the above named plaintiff of the nature in general terms as follows:

That plaintiff and you, the defendant, are husband and wife, that you, the defendant, deserted and abandoned plaintiff in October, 1925, that by cruel and inhuman treatment you have caused plaintiff grievous mental suffering and anguish and prays judgement against you that the bonds of matrimony heretofore and now existing between you, the defendant, and plaintiff be dissolved.

And you are hereby directed to appear and answer the said complaint within 20 days of the service of this summons, if served within said Judicial District, and within forty days if served elsewhere. And you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

Witness my hand and the seal of the District Court of the Second Judicial District of the State of Idaho, in and for Latah County, this 9th day of April A. D., 1927.

POULTRY

RAISING TURKEYS IN CONFINEMENT

America's great holiday bird is getting ready to strut again in the Middle West just as his proud ancestor did years ago. The wild gobbler was once monarch of the feathered family in the woods that stretched up and down the Mississippi valley. As he disappeared from the timber, turkeys were brought into the barnyard and an attempt was made to tame them so they could be handled as chickens are today.

But disease drove them out. Then came the apparently erroneous theory that turkeys were delicate and could not be raised successfully unless they were given an open range where they could get plenty of exercise and catch grasshoppers and bugs. That theory has been disproved.

It is now known that turkeys can be successfully raised in close confinement. This may change the entire system so that in the future the laying, brooding and marketing season can be greatly lengthened. Turkeys may eventually be produced almost the year around and be brought in fresh from the farm every month in the year. Instead of turkey raisers marketing practically all of their surplus birds at Thanksgiving and Christmas holiday seasons, as they do at the present time, they will be able to tur-

nish fresh ones winter and summer. The production of squab turkeys, weighing from eight to ten pounds, on a year around basis may be developed in the future. It is at least made possible through the use of artificial incubators and brooders and the development of the confinement method of handling the birds. Breeders will have to change the laying habits of the turkey hen just as the poultrymen did with the chicken hen.

Word Inventors

Shakespeare invented the word "besmirch" and Carlyle "besmutch"; Southey produced "betrayal" and Coleridge "esemplastic"; Goldsmith contributed "cantankerous," Burke "disorganize," and Bernard Shaw "superman," according to the Oxford English dictionary.

No sale too large or too small
Lewiston, Idaho

LOCAL NEWS

Mr. and Mrs. Ed Bradbury of Salem, Oregon, spent a few hours in Kendrick, Tuesday afternoon. Mr. Bradbury was cashier of the Kendrick State Bank about fifteen years ago.

Mrs. S. A. Crow of Lewiston visited during the week end at the home of Mr. and Mrs. H. P. Hull.

Born to Mr. and Mrs. Bill Riley, Sunday, a son.

Minnie Waite of South Dakota visited at the H. H. Sparber place last week. She returned home on the afternoon train Saturday.

Born to Mr. and Mrs. Walter McCall, August 23, a son.

Rev. and Mrs. C. J. Taber of Corvallis, Montana, arrived Tuesday to visit at the home of Mr. Taber's brother, Rev. L. E. Taber. Rev. C. J. Taber was pastor of the Leland church for several years and was transferred to Corvallis. He will remain in Corvallis next year.

Mr. and Mrs. Marvin Long returned Friday evening from their vacation trip to the coast. They went as far as Vancouver, B. C., and report a fine time.

Ernest Clem caught four nice trout in the Potlatch near his home in Kendrick one day this week. They range in size from 9 to 14 inches long.

Mr. and Mrs. G. F. Walker went to Garfield yesterday to attend the Whitman-Latah county fair.

Miss Winifred Davidson will leave the last of the week for Genesee where she will teach the second and third grades in the Genesee schools.

E. H. Dammarell and son, Robert, were Moscow visitors Wednesday morning.

Col. Knight, auctioneer of Moscow, was a Kendrick visitor, Wednesday.

Rev. and Mrs. L. E. Taber and Mrs. Jody Long drove to Milton, Oregon last Sunday, returning early Monday morning in company with Rev. and Mrs. C. J. Taber who attended the conference of the South Methodist church.

O. E. MacPherson, A. K. Carlson and E. A. Deobald spent the week end in the Salmon river country fishing. They report a good catch. A. K. packed his trout in leaves in his fish basket. When he got home his son, "Bud" helped him take them out of the basket. A few days later they both had well developed cases of poison ivy. The leaves in the basket were found to be poison ivy.

Mr. and Mrs. Pres Shoemaker of Cavendish, while driving their car between Kendrick and Juliaetta, struck a rock with one front wheel. The wheel collapsed and threw Mrs. Shoemaker thru the windshield. She received a number of bad cuts but was not seriously injured. She was brot to Kendrick where Dr. Morehead had to take a number of stitches to close the cuts.

Fred Bolon of Lewiston visited his brother, Ira, Wednesday of this week.

Col. N. R. Shepherd, veteran auctioneer of the Troy community, spent a few hours in Kendrick, Wednesday, shaking hands with old friends.

Miss Esther Janes will leave today for Lewiston where she has been engaged to teach in the grades of the city schools.

Mr. and Mrs. Jack Barnes and son spent the week end in Spokane.

Earl Thornton of Cheney arrived Wednesday to visit at the A. E. Janes home.

Mrs. Geo. Loughton of Juliaetta was an overnight guest at the home of Mr. and Mrs. H. H. Sparber last week.

Messrs. and Mesdames. Ramey, Gardner, Boyd, Mr. Tom Blevins, and Mrs. O. E. MacPherson were Moscow visitors last Sunday. Messrs. Ramey, Gardner and Blevins played several sets of tennis on the university courts.

Lightning struck in the midst of the threshing operations on the Harry Langdon place on American ridge last Friday. Art Foster was knocked off of his bundle wagon and his team also knocked down by the electric bolt. No injuries were suffered and no damage done, but for a while there was considerable excitement stirred up.

Carl Kinzer of Lewiston was visiting friends here yesterday afternoon.

Mrs. W. J. Carrol visited relatives in Spokane over the week end.

Earl Kulick stated yesterday that, owing to the delay in re-furnishing his building, he would not be able to open his barber shop until some time the first of next week.

E. E. McDowell returned last Monday from the Elk City country where he spent several weeks. He says that fishing in the Red river is very good.

W. R. Smith of Southwick returned Thursday from Kellogg where he attended the republican convention. His school in the Welker district will start next Monday.

Housey Selling Out

Walter Housley will hold a public auction of his dairy cattle, horses and household goods in Kendrick, September 5th. Mr. Housley will leave with his family this fall for Twin Falls, Idaho, where he expects to locate.

Home Talent Play Saturday

There will be a home talent play entitled "Tourists Accommodated" given at Community hall on Bear ridge tomorrow evening at 8 o'clock. The play is a comedy drama and is sponsored by the Lutheran ladies aid. Everybody is invited.

Finish Lewiston Road Dec. 1

Tribune: Surfacing operations on the Lewiston-Spalding-Winchester highway are moving rapidly toward completion, each of the two branches of the work from Spalding having a different finishing time slated. From Spalding toward Lewiston, the road will be done by December 1. From Spalding on to Winchester the surfacing operations where needed will be completed by November 15. Most of the heavy surface is being laid down on the near stretch to Lewiston with 2,500 yards of rock going into every mile of the work.

The big crusher on the lower job is now about one mile on the other side of Hatwai creek, with nine miles of the highway left before the job is completed.

U. S. Means—

"Rastus, I see that your mule has 'U. S.' branded on his leg. I suppose he was an army mule?" "No, suh, dat 'U. S.' jes stan' fo' 'Un-Safe'—dats all."—Ex.

Particular

"She is awfully particular, isn't she?" a girl was discussing a bride of the town one day with a mutual acquaintance. "Yes, she certainly is," replied the other girl friend. "Why, the other day she returned a round steak to the butcher just be-

cause it was slightly oval."—Ex.

Pride of The Pike—

A fool there was and he hitched his star (Even as you and I) To a second-hand bus all mud and tar— We called it a joke that had gone too far; But the Fool, he called it his motor-car. (Even as you and I).—Advocate

Reason He Was Late

Little Tom was late to Sunday school. The teacher asked why. "It took up before I got here," he said truthfully, indicating that when he grows up little Tom will be a man of few but sufficient words.—Capper's Weekly.

Still Crying Sales

Shepherd is still at Troy and still in the auctioneering game and wants to cry your sale. If you contemplate having a sale this fall be sure to figure with Shep. Shepherd has been in the sales game in Latah county longer than any other auctioneer and still going strong. His past record in the sales game is well known along with his ability to conduct a sale. His judgment as to values entitles him to your earnest consideration. He is always on the job. You can find him any time. He pays all phone calls and solicits your business. Call N. R. Shepherd the Auctioneer, Troy, Idaho. 31-4

Tonight & Saturday

A Comedy Riot Built Around the Army of Occupation!

starring **LYA DE PUTTI and MALCOLM MCGREGOR**

A UNIVERSAL PICTURE

BUCK PRIVATES

Laugh and Howl!

Yes, Sir, privately speaking, this is a picture that will delight the public. It's different! Not a war picture but a picture in which our recent warriors figure large, wide and handsome while sojourning temporarily in the land of beer, fraulems and eau de cologne. You'll laugh. You'll howl. You'll roar and do other such unseemly things at the hilarious situations.

Adults 40c, Children, under 12 years, 20c
